**3** Lecture Hours · **0** Lab Hours

In teaching learners of ESOL and observing ESOL classes, the student demonstrates ability to apply the principles presented in the M.A. TESOL coursework. Prerequisite: LING 5302 and LING 5305 and permission of instructor.

### **LING5395 – GRADUATE INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

Employment (paid or unpaid) supervised by a faculty internship coordinator, with the student performing duties related to the academic curriculum of linguistics and/or TESOL. Students are required to submit an approved academic project related to the work performed. May be repeated with approval of Graduate Advisor.

### **LING5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

### **LING5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

### **LING5998 – THESIS**

**9** Lecture Hours · **0** Lab Hours

### **LING6191 – RESEARCH IN LINGUISTICS**

**1** Lecture Hour · **0** Lab Hours

Prerequisite: permission of instructor.

### **LING6199 – DISSERTATION**

**1** Lecture Hour · **0** Lab Hours

### **LING6291 – RESEARCH IN LINGUISTICS**

**2** Lecture Hours · **0** Lab Hours

Prerequisite: permission of instructor.

### **LING6300 – PROFESSIONAL WRITING SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Prerequisite: Completion of at least 9 hours of LING courses.

### **LING6360 – DISCOURSE THEORY SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Prerequisite: permission of instructor.

### **LING6380 – FIELD METHODS SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Course may be repeated for credit when topic changes. Prerequisite: LING 5380. Permission of the Graduate Advisor.

### **LING6381 – RESEARCH DESIGN AND STATISTICS**

**3** Lecture Hours · **0** Lab Hours

Practical training in methodologies and analytical techniques common in linguistic research. Topics include qualitative vs. quantitative data analysis, questionnaire design and administration, laboratory protocol, field protocol, population sampling, statistical analysis, and research ethics.

### **LING6390 – LINGUISTICS SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Course may be repeated for credit when topic changes. Prerequisite: permission of instructor.

### **LING6391 – RESEARCH IN LINGUISTICS**

3 Lecture Hours · 0 Lab Hours

Prerequisite: permission of instructor.

### **LING6392 – SEMINAR IN PHONETICS AND PHONOLOGY**

3 Lecture Hours · 0 Lab Hours

In-depth investigation of research into a specialized area of phonetics and/or phonology. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5321 or permission of the instructor.

### **LING6393 – SEMINAR IN SYNTAX**

3 Lecture Hours · 0 Lab Hours

In-depth investigation of research into a specialized area of syntax. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5331 or permission of instructor.

### **LING6394 – SEMINAR IN SEMANTICS AND PRAGMATICS**

3 Lecture Hours · 0 Lab Hours

In-depth investigation of research into a specialized area of meaning: semantics and/or pragmatics. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5345 or 5347 or permission of instructor.

### **LING6395 – SEMINAR IN SECOND LANGUAGE ACQUISITION**

3 Lecture Hours · 0 Lab Hours

In-depth investigation of research into a specialized area of second language acquisition. Course registrants will develop original research focusing on topic at-hand, with results exchanged through discussion, presentations/reports, and/or papers. Prerequisites: LING 5305 or permission of the instructor.

### **LING6399 – DISSERTATION**

3 Lecture Hours · 0 Lab Hours

### **LING6491 – RESEARCH IN LINGUISTICS**

4 Lecture Hours · 0 Lab Hours

Prerequisite: permission of instructor.

### **LING6591 – RESEARCH IN LINGUISTICS**

5 Lecture Hours · 0 Lab Hours

### **LING6691 – RESEARCH IN LINGUISTICS**

6 Lecture Hours · 0 Lab Hours

Prerequisite: Permission of instructor.

### **LING6699 – DISSERTATION**

6 Lecture Hours · 0 Lab Hours

## LING6999 – DISSERTATION

9 Lecture Hours · 0 Lab Hours

## LING7399 – DOCTORAL DEGREE COMPLETION

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

### Objectives

Graduate programs in modern languages are designed to enhance students' competence in the language and literature of their major language field. Specific objectives are to prepare students for a career in teaching or in any area in private or public life in which knowledge of a modern language is essential and to help them develop the techniques of independent research necessary for work beyond the master's level.

### Admission Standards

In compliance with HB 1641, the UT Arlington Department of Modern Languages does not use unwritten criteria, it does not assign a specific weight to any one factor being considered, and it does not use standardized tests (i.e., the GRE) in the admissions or competitive fellowship or scholarship process as the sole criterion for consideration or as the primary criterion to end consideration of an applicant to the M.A. program. However, the GRE is required and it is used as a criterion, without specific weight, in the Department's evaluation of candidates for admission to programs at each of three levels: Unconditional, Provisional, and Probationary Admission.

The Department wishes to be as thorough and fair as possible in evaluating applicants for admission. It recognizes that some applicants may appear to be stronger according to some criteria than according to other criteria. When an applicant does not completely meet the minimum expectations for Unconditional Admission, the Department considers the applicant for possible Provisional or Probationary Admission. When the applicant is not granted any of the three levels of admission, the decision may be deferred or the application is denied. We do not wish to exclude a qualified and potentially successful candidate who perhaps has approached but not met all the criteria completely. However, we do not wish to admit candidates who, based on the criteria, are deemed to have a poor chance of successfully completing the graduate program.

### Unconditional Admission

The criteria for admission below are used, without specific weights, as positive indicators of potential success in the program. All four criteria for unconditional admission must be met in order to receive unconditional admission.

- degree in the language to be studied of 18 upper level hours in the language or equivalent [1]
- 3.0 undergraduate GPA (last 60 hours)
- submission of GRE scores [2]
- 3 letters of recommendation (from faculty if possible) sent to the Department of Modern Languages Graduate Advisor.

[1] A student with a bachelor's degree in a field other than French or Spanish may become an unconditionally admitted graduate student after fulfilling the upper level requirements in the language:

18 hours of upper level Spanish, or French or a combination of coursework and testing.

(A person with a bachelor's degree in a major other than French or Spanish must have the equivalent of 18 hours of upper level French or Spanish in order to become a master's student. The equivalency may take one of the following forms: A student may obtain 18 hours at the 3000 and 4000 level, or s/he may attempt to test out of nine hours of grammar, composition, and conversation. If a student tests out of grammar, composition, and conversation, s/he must take nine hours of literature, in order to demonstrate ability to do literary studies).

[2] Under specific circumstances the GRE may be waived for those who received their B.A. from UT Arlington. See GRE Waiver or Advanced Admission. International students must also take the TOEFL test and score 550 on the paper-and-pencil test or 213 on the computerized test, in order to qualify for unconditional admission.

### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### Deferred Admission

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

### Fast Track Program in Modern Languages

The Fast Track Program allows outstanding undergraduate students in French or Spanish at UT Arlington to take up to three graduate seminars in Spanish or French that will earn credit toward both the Bachelor's degree and the Master's degree in Modern Languages. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the MA . Interested undergraduate students should apply for the Fast Track Program when they are within 30 hours of completing the Bachelor's degree. To qualify, students must have completed at least 30 hours at UTA with a GPA of 3.0 in all courses and 3.25 in the last 30 hours. Before entering the Fast Track, students must also have completed the four required core courses in the French or Spanish major with a GPA of at least 3.50. Additionally, they must have already completed at least two additional 3000-4000 level courses in either French or Spanish, excluding International Business and/or translation courses, with a GPA of 3.5 or higher.

Students who successfully complete the Fast Track Program will be admitted automatically to the Graduate School to continue their graduate work in the Modern Languages MA Program once the Bachelor's degree is awarded. They will not be required to take the GRE, complete an additional application for admission to the Graduate School, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Modern Languages MA Program with only five additional courses and a thesis remaining to complete the requirements for the thesis option.

To remain in the Fast Track Program, students must receive no grade lower than a B in any

graduate seminars taken as an undergraduate, selected with the advice and approval of the Modern Languages Graduate Advisor. Undergraduate students who do not maintain grades of B or A in the graduate courses taken will be unable to continue in the Fast Track Program but, if the courses are completed passing, will still receive credit toward their undergraduate degree requirements. Students originally denied entry into the Fast Track Program, discontinued after provisional admission, subsequently dropped or opting out are still welcome to apply to the Modern Languages MA Program in the usual way and will be considered without prejudice.

For an application form or to obtain more details about this program, contact the Modern Languages Graduate Advisor.

### Fellowships

Fellowships, when available, will be awarded on a competitive basis. Nominees for the Graduate School Master's Fellowship in Modern Languages will be selected based on the following criteria:

- Candidates must be new students entering in the fall semester, with a minimum of 6 hours of enrollment in both long semesters to retain their fellowships.
- The minimum undergraduate GPA requirement is 3.0, as calculated by the Graduate School, plus as GPA of 3.0 for any graduate credit hours.
- Transcript of a completed bachelor's degree in French or Spanish (or appropriate related field) from an accredited institution.
- Three letters of recommendation.
- A written statement explaining the applicant's reasons for graduate study in Spanish.

### Teaching Assistantships

Teaching assistantships are available for graduate students in the Department of Modern Languages. Graduate students who obtain teaching assistantships are urged to take MODL 5305 Methods of Modern Language Teaching.

### Degree Requirements

In addition to the Graduate School requirements for Master's degree programs, the following requirements apply in the Department of Modern Languages:

**Thesis:** A written comprehensive examination may be given at the discretion of the student's committee.

**Thesis Substitute:** There will be a comprehensive examination on the coursework and appropriate reading list. An oral defense of the thesis substitute may be required at the discretion of the student's supervising committee. At least 30 hours must be in coursework.

**Non-thesis:** There will be a comprehensive written examination on the coursework, an appropriate reading list, as well as an oral exam.

### Modern Languages (French; Spanish)

Those wishing to major in a modern language or literature must upon admission have a baccalaureate degree with a major in that modern language or have a minimum of 18 advanced hours, or the equivalent in language proficiency and course content.

Modern Languages (French; Spanish) Students pursuing the M.A. in Modern Languages with concentration in French or in Spanish are required to take a minimum of 9 hours in the core MODL courses along with 27 hours in their concentration or alternatively a maximum of 12 hours in the core MODL courses and 24 hours in their concentration. All students are required to take MODL 5304.

A knowledge of a second foreign language will be required, including listening, speaking, reading and writing skills as demonstrated by the successful completion of two semesters of coursework at the second-year level, MODL 5301, or by an appropriate examination.

## FREN Courses

### FREN5101 – TEACHING PRACTICUM I

1 Lecture Hour · 0 Lab Hours

Required of all teaching assistants in French in their first semester. May not be counted toward a master's degree. Graded P/F/R.

### FREN5102 – TEACHING PRACTICUM II

1 Lecture Hour · 0 Lab Hours

Required of all teaching assistants in French in their second semester. May not be counted toward a master's degree. Graded P/F/R.

### FREN5314 – ADVANCED STYLISTICS

3 Lecture Hours · 0 Lab Hours

Focuses on advanced problems of grammar and style, including syntax, morphology, semantics and stylistics. Surveys the history of the French language, including influences of other languages and cultures on its evolution. Attention given to pedagogical models and approaches as well as intensive composition practices.

### FREN5316 – MEDIEVAL AND RENAISSANCE LITERATURE AND CULTURE

3 Lecture Hours · 0 Lab Hours

A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: epic verse, poetry, tales, fables, comic narrative, and theatre to name a few.

### FREN5317 – 17TH AND 18TH CENTURY LITERATURE AND CULTURE

3 Lecture Hours · 0 Lab Hours

A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: theatre, the romance, the novel, the portrait and maxim, the philosophic dialogue and tale, among others.

### FREN5318 – 19TH AND 20TH CENTURY LITERATURE AND CULTURE

3 Lecture Hours · 0 Lab Hours

A study of the main currents of French literature and culture in their social, economic and political context through the representative genres of the period: theatre, the nouvelle, poetry, the novel, the anti-novel, etc.

### FREN5320 – TOPICS IN FRENCH LANGUAGE & LINGUISTICS

3 Lecture Hours · 0 Lab Hours

Special studies in French language and linguistics not ordinarily covered by regular course offerings. Topics may include "Socio-Phonetics," "French Phonetics and Phonology," and "History of the French Language." May be repeated for credit when content changes.

### FREN5321 – TOPICS IN GENRES OF THE 17TH CENTURY

3 Lecture Hours · 0 Lab Hours

Investigates ideology and practice through literature, the visual arts, music and other cultural "texts." Major topics may include "Versailles: Architecture, Literature, and Politics," "Jansenism and its Discontents: Pascal, Racine, de Lafayette," "Libertins: Masks and Counter Masks." May be repeated for credit when topic changes.

### **FREN5325 – TOPICS IN GENRES OF THE 18TH CENTURY**

**3** Lecture Hours · **0** Lab Hours

Studies oppositional discourse as expressed through the different genres (theatre, poetry, fiction, political and philosophical writings) popular in the 18th century as well as the role and the effect of these works in constituting the Republic of Letters. May be repeated for credit when topic changes.

### **FREN5330 – TOPICS IN GENRES OF THE 19TH CENTURY**

**3** Lecture Hours · **0** Lab Hours

Concentrates on literature, the visual arts, entertainment, and fashion as expressions of popular culture. The rise of the "petite bourgeoisie,"; social utopias, the rebuilding of Paris, and responses to modernity will be studied in such courses as "Paris and Its Subcultures," Impressionism and the Bourgeoisie," "The Novel and the Body." May be repeated for credit when topic changes.

### **FREN5331 – TOPICS IN GENRES OF THE 20TH CENTURY**

**3** Lecture Hours · **0** Lab Hours

Focuses on the work of French and Francophone writers in the light of modernist and post-modernist aesthetics. Literature, art, architecture, music, film, video, television, and other forms of popular production are studied as reflections of an era in crisis. May be repeated for credit when topic changes.

### **FREN5338 – TOPICS IN FRENCH CULTURE**

**3** Lecture Hours · **0** Lab Hours

Survey of themes and structures on a range of topics such as "Women in/as Fiction," "Self and Society," & "Revolutions," "French Film." May be repeated for credit when topic changes.

### **FREN5391 – CONFERENCE COURSE IN FRENCH LINGUISTICS, CULTURE, OR LITERATURE**

**3** Lecture Hours · **0** Lab Hours

Graded R. Prerequisite: permission of Graduate Advisor. Course may be repeated for credit when the topic changes.

### **FREN5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

### **FREN5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

### **FREN5998 – THESIS**

**9** Lecture Hours · **0** Lab Hours

### **FREN6310 – FRENCH STUDIES**

**3** Lecture Hours · **0** Lab Hours

## **GERM Courses**

### **GERM5101 – TEACHING PRACTICUM I**

**1** Lecture Hour · **0** Lab Hours

Required of all teaching assistants in German in their first semester. May not be counted toward a master's degree.

### **GERM5102 – TEACHING PRACTICUM II**

**1** Lecture Hour · **0** Lab Hours

Required of all teaching assistants in German in their second semester. May not be counted toward a master's degree.

### **GERM5304 – TOPICS IN GERMAN LANGUAGE AND LINGUISTICS**

**3** Lecture Hours · **0** Lab Hours

May include topics such as history of the German language, applied German linguistics, dialectology, Middle High German. May be repeated for credit when topic changes.

### **GERM5312 – ADVANCED GERMAN GRAMMAR AND STYLE**

**3** Lecture Hours · **0** Lab Hours

Readings of samples of contemporary German prose, both narrative and expository, as a basis for the writing of exercises and essays stressing application of grammatical and stylistic principles.

### **GERM5320 – TOPICS IN GERMAN LITERATURE**

**3** Lecture Hours · **0** Lab Hours

May include topics from any period, genre, or author of literature in German. May be repeated for credit when topic changes.

### **GERM5331 – TOPICS IN GERMAN NARRATIVE, 1700 TO PRESENT**

**3** Lecture Hours · **0** Lab Hours

The novel, Novelle, short story and other forms of German prose: historical overview, theory and selected primary texts as illustration. Topics vary in focus and methodology; emphasis ranges from individual authors, works or themes to theoretical or interdisciplinary issues. May be repeated for credit when topic changes.

### **GERM5332 – TOPICS IN OLDER GERMAN LITERATURE, TO 1700**

**3** Lecture Hours · **0** Lab Hours

Topics vary in focus and methodology; emphasis may range from individual authors, works, or themes to theoretical or interdisciplinary issues. May be repeated for credit when topic changes.

### **GERM5333 – TOPICS IN GERMAN DRAMA**

**3** Lecture Hours · **0** Lab Hours

History and theory of the drama in German-speaking countries; methods of drama analysis, interrelationship of drama, theatre, audience. Topics vary in focus and methodology, emphasis may range from individual authors, works, themes, or periods to theoretical or interdisciplinary issues. May also include the study of German film. May be repeated for credit when topic changes.

### **GERM5334 – TOPICS IN GERMAN POETRY**

**3** Lecture Hours · **0** Lab Hours

Study of the development of German poetry, and a close study of representative poets and poems from the beginnings to the present. Focus on selected poetic forms including the folk song, ballad, epic poem, sonnet, and religious and political poetry. Topics may vary in focus and methodology. May be repeated for credit when topic changes.

### **GERM5391 – CONFERENCE COURSE IN GERMANIC LINGUISTICS AND LITERATURE**

**3** Lecture Hours · **0** Lab Hours

### **GERM5398 – THESIS**

3 Lecture Hours · 0 Lab Hours

### **GERM5698 – THESIS**

6 Lecture Hours · 0 Lab Hours

### **GERM5998 – THESIS**

9 Lecture Hours · 0 Lab Hours

## **MODL Courses**

### **MODL5300 – HISTORY OF THE FRENCH LANGUAGE**

3 Lecture Hours · 0 Lab Hours

Development of the French language from its earliest forms to the present. Required for the MA in MODL with French concentration.

### **MODL5301 – MODERN LANGUAGES FOR GRADUATE READING**

3 Lecture Hours · 0 Lab Hours

An intensive one-semester course designed for Ph.D. candidates and other graduate students to fulfill departmental foreign language requirements. Sections may be offered in French, German, Russian, or other applicable or appropriate languages. Does not fulfill any graduate degree requirements.

### **MODL5302 – TOPICS ACROSS THE LANGUAGES**

3 Lecture Hours · 0 Lab Hours

This topic course varies in focus and will be taught by in-house faculty or visiting scholars. Taught in English, it will consider issues to cultural and literary concerns across the languages. Possible course offerings include: From Novel to Film, History and/as Literature, Propaganda as Literature, The History and Aesthetics of Film, The Other in Literature and Culture, Freud and the Literary Imagination, and Modernism.

### **MODL5304 – CURRENTS IN EUROPEAN AND LATIN AMERICAN LITERATURES AND THOUGHT**

3 Lecture Hours · 0 Lab Hours

An examination of the mainstream genres and movements in European and Latin American literatures from 1600 to the present. Taught in English. Required for MA students in Modern Languages. May not be repeated for credit.

### **MODL5305 – METHODS OF MODERN LANGUAGE TEACHING**

3 Lecture Hours · 0 Lab Hours

Methods of Modern Language Teaching is an applied linguistics course for modern language professionals, focusing on the application of research and theory in linguistics and second language acquisition to the classroom setting. May include specific methods, language learning strategies, cooperative language learning, component and performance skills, and intercultural communication.

### **MODL5306 – L2 ACQUISITION**

3 Lecture Hours · 0 Lab Hours

### **MODL5307 – TOPICS IN SECOND LANGUAGE ACQUISITION**

3 Lecture Hours · 0 Lab Hours

May include topics in the areas of second language acquisition, methodologies, culture, and disciplines related to second language acquisition. May be repeated for credit as topics change.

### **MODL5308 – TECHNOLOGY AND LANGUAGE INSTRUCTION**

**3** Lecture Hours · **0** Lab Hours

Presentation and critique of research regarding the use of electronic media in language instruction; emphasis on computer and video, with attention to the application of research findings to the language classroom.

### **MODL5309 – TRANSLATION THEORY**

**3** Lecture Hours · **0** Lab Hours

Provides an introduction to basic concepts and offers a general conceptual framework for the study of translation theory. Students acquire the tools to identify, analyze and resolve translation problems while developing a rational approach to translation. (Following the completion of this course, students are encouraged to enroll in FREN 5309, GER 5309 or SPAN 5309, Practicum in Translation.)

### **MODL5310 – THEORIES OF LITERATURE AND CULTURE**

**3** Lecture Hours · **0** Lab Hours

Readings, analyses, and applications of recent literary and cultural theories. Particular attention to how such theories may serve to focus or refocus literature as cultural production. Required for the M.A. in French, German, and Spanish.

### **MODL5391 – CONFERENCE**

**3** Lecture Hours · **0** Lab Hours

## **SPAN Courses**

### **SPAN5101 – TEACHING PRACTICUM I**

**1** Lecture Hour · **0** Lab Hours

Required of all teaching assistants in Spanish in their first semester. May not be counted toward a master's degree. Graded P/F/R

### **SPAN5102 – TEACHING PRACTICUM II**

**1** Lecture Hour · **0** Lab Hours

Required of all teaching assistants in Spanish in their second semester. May not be counted toward a master's degree. Graded P/F/R.

### **SPAN5190 – CONFERENCE COURSE IN SPANISH LANGUAGE AND LITERATURE**

**1** Lecture Hour · **0** Lab Hours

Graded P/F/R.

### **SPAN5300 – HISTORY OF THE SPANISH LANGUAGE**

**3** Lecture Hours · **0** Lab Hours

Development of the Spanish language from its earliest forms to the present. Required for the MA in Spanish and the MA in Humanities with Spanish concentration.

### **SPAN5302 – SPANISH DIALECTOLOGY**

**3** Lecture Hours · **0** Lab Hours

Phonological, lexical, and grammatical features in Iberia, South and North America, the Philippines, and in

Sephardic dialect.

### **SPAN5303 – APPLIED SPANISH LINGUISTICS**

3 Lecture Hours · 0 Lab Hours

Pedagogy, pronunciation and orthography, morphology, syntax, semantics, and culture. Required for the MA in Spanish and the MA in Humanities with Spanish concentration unless 5302 taken.

### **SPAN5310 – TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE TO THE EIGHTEENTH CENTURY**

3 Lecture Hours · 0 Lab Hours

Topics may include: Medieval Spanish literature and culture, Golden Age Spanish literature and culture, or any particular movement, genre, work or author prior to the eighteenth century. May be repeated for credit when content changes.

### **SPAN5311 – TOPICS IN PENINSULAR SPANISH LITERATURE AND CULTURE, EIGHTEENTH CENTURY TO THE PRESENT**

3 Lecture Hours · 0 Lab Hours

Topics may include: Neoclassic peninsular Spanish literature and culture, peninsular Spanish literature and culture of the Romantic period, Realist or Naturalist Spanish literature and culture, peninsular Spanish literature and culture since 1900, as well as any particular movement, genre, work or author from the eighteenth century to the present. May be repeated for credit when content changes.

### **SPAN5313 – TOPICS IN HISPANIC LITERATURE AND CULTURE**

3 Lecture Hours · 0 Lab Hours

Special studies in areas not ordinarily covered by regular course offerings. Different topics may be repeated for credit.

### **SPAN5314 – TOPICS IN SPANISH-AMERICAN LITERATURE AND CULTURE TO MODERNISM**

3 Lecture Hours · 0 Lab Hours

Topics may include: Colonial Spanish-American literature and culture, pre-modern Spanish-American literature and culture, Spanish-American literature and culture of the Enlightenment, or any particular movement, genre, work or author prior to Modernism. May be repeated for credit when content changes.

### **SPAN5315 – TOPICS IN CONTEMPORARY SPANISH-AMERICAN LITERATURE AND CULTURE, MODERNISM TO THE PRESENT**

3 Lecture Hours · 0 Lab Hours

Topics may include: Spanish-American literature and culture of Modernism, modern Spanish-American literature and culture, or any particular movement, genre, work or author from Modernism to the present. May be repeated for credit when content changes.

### **SPAN5317 – U.S. LATINO LITERATURE AND CULTURE**

3 Lecture Hours · 0 Lab Hours

Readings of poetry, theater, and prose in relation to the specific socio-historical and political context of U.S. Latino life. Charts changing concepts of cultural identity and the evolution of cultural coding in texts written after 1960.

### **SPAN5318 – MEXICAN LITERATURE AND CULTURE**

3 Lecture Hours · 0 Lab Hours

Readings in all Mexican literary genres from various critical perspectives. Particular attention given to the novel, poetry, and essay of the 20th Century and to interrelationships between text and culture.

### **SPAN5320 – TOPICS IN SPANISH LINGUISTICS**

**3** Lecture Hours · **0** Lab Hours

Special studies in linguistics not ordinarily covered by regular course offerings. May be repeated for credit when content changes.

### **SPAN5327 – WOMEN IN HISPANIC LITERATURE**

**3** Lecture Hours · **0** Lab Hours

Readings of literary texts by women writers from medieval Spain to contemporary Spanish America. Attention to recurrent motifs as well as to the literary expression of historical and cultural transformation.

### **SPAN5330 – ADVANCED STUDIES IN SPANISH LINGUISTICS I**

**3** Lecture Hours · **0** Lab Hours

Topics may include: sociolinguistics, bilingualism, modern Spanish dialectology, as well as a detailed study on any one dialect or regional dialect of contemporary Spanish. May be repeated for credit when content changes.

### **SPAN5332 – ADVANCED STUDIES IN SPANISH LINGUISTICS II**

**3** Lecture Hours · **0** Lab Hours

Topics may include: Old Spanish, Spanish philology, Spanish text linguistics, and Old Spanish dialectology, as well as a detailed study of any one dialect or regional dialect of Spanish. May be repeated for credit when content changes.

### **SPAN5366 – SPANISH FOR SCHOOL ADMINISTRATORS AND TEACHERS**

**3** Lecture Hours · **0** Lab Hours

Development of Spanish proficiency for teachers and administrators through an immersion approach. Emphasis on concepts and terminology related to education, program administration, community involvement and communication with Spanish-speaking parents. This course can be repeated.

### **SPAN5391 – CONFERENCE COURSE IN SPANISH LINGUISTICS AND LITERATURE**

**3** Lecture Hours · **0** Lab Hours

Graded R.

## Music Education

The Master of Music in Music Education curriculum is designed to impart the knowledge needed to facilitate successful careers and encourage personal development. Through further education, music teachers will become more articulate, reflective practitioners so that they are able to select, adapt, adjust, and assess teaching and learning expectations.

More specifically, the aims of the degree are to:

- improve teaching skills through advanced coursework and research;
- offer graduate courses to improve general musicianship, including performance, theory, and music history;
- prepare students to enter graduate programs leading to the doctoral degree;
- offer highly specialized courses for students interested in researching historical, education or artistic areas;
- provide advanced courses for qualified members of the community.

## Degree Requirements - Master of Music in Music Education

The program is designed for the student who has a Bachelor's degree in music. A person with a bachelor degree in a major other than music must have the equivalent of 18 hours of upper level music courses and may be asked to complete a Music Theory Barrier exam. The Graduate Advisor for program studies will counsel the student in correcting deficiencies and selecting courses for the student's degree program. A minimum of 30 semester hours is required if the student chooses to write a thesis. If the student chooses not to write a thesis, a minimum of 36 semester hours is required. Advisory examinations in music history and written theory will be administered to all students prior to enrollment or during their first semester as a degree-seeking student.

Coursework for the program includes 15 core hours: Form and Style Analysis (MUSI 5301); one class from Selected Topics in Music History (MUSI 5308); Philosophical Foundations of Music Education (MUSI 5351); and Psychological Foundations of Music Education (MUSI 5352); and Introduction to Music Research (MUSI 5363). Students following the thesis option will take three hours of music education electives and an additional six hours of free choice electives. Students following the non-thesis option will take six hours of music education electives and an additional 12 hours of free choice electives.

Music education electives may be chosen from the following: Selected Topics in Music Pedagogy (MUSI 5350); Current Trends in Music Education (MUSI 5331); Selected Topics in Music Literature (MUSI 5354); Rehearsal Techniques (MUSI 5355); Advanced Diction for Singers (MUSI 5359); Advanced Technology for Musicians (MUSI 5350); Elementary Music (MUSI 5361); and Historical Foundations and Curricular Trends in Music Education (MUSI 5364). Free choice electives may be selected from ensembles, private instruction, music history, music theory, jazz studies and repeated special topics courses. Up to six hours of graduate credit from other disciplines may be considered if relevant to the degree, subject to approval by the Graduate Studies Committee. Students following the non-thesis option will enroll in at least one semester of Project in Music Education (MUSI 5353). Students who choose to write a thesis (MUSI 5398, 5698) will work closely with one or more members of the graduate faculty from the Department of Music on a research project in a specialized area of interest within the music education field.

### Admission

The Department of Music has the following requirements for entry into the Master of Music in Music Education Degree.

#### Unconditional Admission

Requirements for unconditional admission into the program are:

1. Three letters of recommendation speaking to the student's potential for success from references familiar with the student's academic background.
2. A minimum 3.0 GPA in the last 60 hours of undergraduate work as calculated by the Graduate School.
3. Bachelor's degree in music or its demonstrated equivalent.

#### Probationary Status

A student meeting two out of three criteria and showing promise for successful graduate study may still be admitted on probationary status upon the recommendation of the Graduate Studies Committee. Within probationary status, said student will be admitted unconditionally into the degree program upon completion of 12 hours of graduate study with no grade lower than a B.

#### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

#### Deferred Admission

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Admission will be denied for students not meeting at least two of the three criteria. Applicants may reapply for admission if the deficiencies in credentials that led to denial are remedied.

### **TOEFL Requirement**

Applicants whose native language is not English must demonstrate proficiency in English by earning a score of at least 550 on the paper-based Test of English as a Foreign Language (TOEFL) or a score of at least 213 on the computer-based test, or a minimum score of 40 on the Test of Spoken English (TSE). The Internet-based TOEFL examination (TOEFL iBT) will be accepted as an alternative to the paper and computer-based TOEFL for admission purposes. Students taking TOEFL iBT must attain a minimum total test score of 79 and meet or exceed the following scores on each of the sections of the test:

- Writing: 22
- Speaking: 21
- Reading: 20
- Listening: 16

**Those who do not meet the English proficiency requirement must satisfactorily complete courses in the ESOL area, as approved by the program and the Graduate School.**

## **Master of Music in Music Performance**

Majors are offered in Instrumental Studies, Voice Studies, Jazz Studies, and Conducting. The program is designed for the student who has a Bachelor's degree in music. A person with a bachelor degree in a major other than music must have the equivalent of 18 hours of upper level music courses and must score a 75% or better on the Music Theory Barrier exam. The Graduate Advisor for program studies will counsel the student in correcting deficiencies and selecting courses for the student's degree program. Advisory examinations in music history and written theory can be administered to all students prior to enrollment or during their first semester as a degree-seeking student.

Coursework for the program includes 28 core hours: Form and Style Analysis (MUSI 5301); Selected Topics in Music History (MUSI 5308); Selected Topics in Music Literature (MUSI 5354); Introduction to Music Research (MUSI 5363); 4 semesters of Applied Study (MUSI 53XX) with the last semester including a full length recital; and 4 semesters of a Major Ensemble (MUSI 51XX).

The coursework also includes 6 credit hours of electives to be chosen from the following depending on your major:

### **Instrumental**

*Prescribed Electives (choose 6 credit hours)*

- MUSI 3394 - Digital Music Technology
- MUSI 5112 - Chamber Music (maximum of 3 repeats)
- MUSI 5308 - Selected Topics in Music History (may be counted once as an elective if core requirement is met and the course is taken with a different emphasis)
- MUSI 5350 - Selected Topics in Music Pedagogy
- MUSI 5351 - Philosophical Foundations of Music Education
- MUSI 5352 - Psychological Foundations of Music Education
- MUSI 3326 - Post-Tonal Analysis
- MUSI 3390 - Schenkerian Analysis
- MUSI 3391 - Advanced Sonata Theory (recommended only after taking 5301-Form and Style Analysis)
- MUSI 4490 - 20th-Century Form and Technique

## Voice

### *Prescribed Electives (choose 6 credit hours)*

MUSI 5359 - Advanced Diction for Singers  
MUSI 5205 - Opera/Theatre Lab  
MUSI 3394 - Digital Music Technology  
MUSI 5308 - Selected Topics in Music History (may be counted once as an elective if core requirement is met and the course is taken with a different emphasis)  
MUSI 5350 - Selected Topics in Music Pedagogy  
MUSI 5351 - Philosophical Foundations of Music Education  
MUSI 5352 - Psychological Foundations of Music Education  
MUSI 3326 - Post-Tonal Analysis  
MUSI 3390 - Schenkerian Analysis  
MUSI 3391 - Advanced Sonata Theory (recommended only after taking 5301-Form and Style Analysis)  
MUSI 4490 - 20th-Century Form and Technique

## Jazz

### *Prescribed Electives (choose 6 credit hours)*

MUSI 5110 - Jazz Combo  
MUSI 5366 - Jazz Styles and Analysis  
MUSI 5355 - Rehearsal Techniques  
MUSI 5360 - Advanced Technology for Musicians  
MUSI 3394 - Digital Music Technology  
MUSI 5308 - Selected Topics in Music History (may be counted once as an elective if core requirement is met and the course is taken with a different emphasis)  
MUSI 5350 - Selected Topics in Music Pedagogy  
MUSI 5351 - Philosophical Foundations of Music Education  
MUSI 5352 - Psychological Foundations of Music Education  
MUSI 3326 - Post-Tonal Analysis  
MUSI 3390 - Schenkerian Analysis  
MUSI 3391 - Advanced Sonata Theory (recommended only after taking 5301-Form and Style Analysis)  
MUSI 4490 - 20th-Century Form and Technique

## Conducting

### *Prescribed Electives (choose 6 credit hours)*

MUSI 3394 - Digital Music Technology  
MUSI 5355 - Rehearsal Techniques  
MUSI 5359 - Advanced Diction for Singers  
MUSI 5112 - Chamber Music (maximum of 3 repeats)  
MUSI 5308 - Selected Topics in Music History (may be counted once as an elective if core requirement is met and the course is taken with a different emphasis)  
MUSI 5350 - Selected Topics in Music Pedagogy  
MUSI 5351 - Philosophical Foundations of Music Education  
MUSI 5352 - Psychological Foundations of Music Education  
MUSI 3326 - Post-Tonal Analysis  
MUSI 3390 - Schenkerian Analysis  
MUSI 3391 - Advanced Sonata Theory (recommended only after taking 5301-Form and Style Analysis)  
MUSI 4490 - 20th-Century Form and Technique

## Admission Requirements

### Unconditional Admission

1. Bachelor's degree in music or its demonstrated equivalent (such as music conservatory

degree, a bachelor's degree in some other discipline with substantial undergraduate hours in music, etc.). A person with a bachelor degree in a major other than music must have the equivalent of 18 hours of upper level music courses and may be asked to complete a Music Theory Barrier exam. Three letters of recommendation are required, speaking to the student's potential for success from references familiar with the student's academic background.

2. A minimum 3.0 GPA in the last 60 hours of undergraduate work as calculated by the Graduate School.
3. Applicants whose native language is not English must demonstrate proficiency in English by earning a score of at least 550 on the paper-based Test of English as a Foreign Language (TOEFL), or a score of at least 213 on the computer-based test, or a minimum score of 40 on the Test of Spoken English (TSE). The Internet-based TOEFL examination (TOEFL iBT) will be accepted as an alternative to the paper and computer-based TOEFL for admission purposes. Students taking TOEFL iBT must attain a minimum total test score of 79 and meet or exceed the following scores on each of the sections of the test:
  - Writing: 22
  - Speaking: 21
  - Reading: 20
  - Listening: 16

**Those who do not meet the English proficiency requirement must satisfactorily complete courses in the ESOL area, as approved by the program and the Graduate School.**

4. Applicants must audition (in person or by submitting a tape) with repertoire of at least college senior recital level. A repertoire list must be submitted for evaluation at the time of the audition. For further information contact the Graduate Advisor.

All admission criteria will be considered equally. Students meeting all four criteria will be granted unconditional admission.

### **Probationary Status**

A student not meeting the above criteria but who shows promise for successful graduate study may be admitted probationally. This period of probation is not to exceed one semester and the conditions of probation must be resolved during the first semester. The conditions will be in the offer letter of admission. (The Music department does not have the authority to lower University TOEFL score requirements for any student.)

### **Provisional Admission**

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### **Deferred Admission**

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

## **Certificate in Performance**

The Certificate in Performance requires 15 hours of coursework and is currently available only in Keyboard Studies: nine hours of applied study (MUSI 5392), a three-credit-hour recital (MUSI 5391) and three hours of keyboard accompaniment (MUSI 5170).

### **Certificate Admission Requirements**

Students wishing to enroll only in the certificate program but not a graduate degree program may apply for admission to U.T. Arlington as a special student (non-degree seeking). Admission requires a bachelor's degree or equivalent and would be contingent upon an audition for a

minimum of two faculty members; GRE scores and letters of recommendation are not required. Students in this certificate program who later seek graduate degrees at U.T. Arlington may apply 12 hours of certificate coursework within six years of completion and award of the certificate, if they meet the admission requirements for the graduate degree and receive approval from the appropriate Graduate Studies Committee and the Dean of Graduate Studies. Admission as a special student in no way guarantees subsequent unconditional admission into a graduate program or into the Graduate School.

### TOEFL Requirement

Applicants whose native language is not English must demonstrate proficiency in English by earning a score of at least 550 on the paper-based Test of English as a Foreign Language (TOEFL) or a score of at least 213 on the computer-based test, or a minimum score of 40 on the Test of Spoken English (TSE). The Internet-based TOEFL examination (TOEFL iBT) will be accepted as an alternative to the paper and computer-based TOEFL for admission purposes. Students taking TOEFL iBT must attain a minimum total test score of 79 and meet or exceed the following scores on each of the sections of the test:

- Writing: 22
- Speaking: 21
- Reading: 20
- Listening: 16

### Fellowships

Fellowships, when available, will be awarded on a competitive basis. The Graduate Advisor should be notified of your interest in these fellowships at the time of your application. Nominees for the Graduate School Master's Fellowship in Music will be selected based on the following criteria:

- Candidates must be new students entering in the fall semester, with a minimum of 9 hours of enrollment in both long semesters to retain their fellowships.
- The minimum undergraduate GPA requirement is 3.00, as calculated by the Graduate School, plus a GPA of 3.0 for any graduate credit hours.
- Transcript of a completed bachelor's degree in music from an accredited institution (or its demonstrated equivalent).
- Three letters of recommendation

The Department has a limited number of [Enhanced Graduate Teaching Assistantships](#) available. In addition to the requirements above, applicants for the EGTA positions must adhere to the following:

- A live audition is strongly encouraged whenever possible. (Performance Majors only)
- An interview, either in person or by phone, must be conducted by the Graduate Committee or a subset thereof.
- The Chair of the Department must be present at the audition and/or the interview.

### Final Master's Examination

A final program examination is required of all Music Education degree candidates. A final Master's examination may result in:

1. An unconditional pass with a recommendation to the Graduate Dean that the candidate be certified to receive the degree.
2. A conditional pass with the requirement that additional conditions be met, which may include further work on the thesis or thesis substitute, additional coursework with a minimum specified grade point average or both (in all cases the final master's examination must be repeated within a specified period).

3. Failure, with permission to be re-examined within a specified period; or
4. Failure, with recommendation to the Dean of Graduate Studies that the candidate be dismissed from the program. The Music Department limits to 2 the number of times the examination can be taken.

## MUSI Courses

### MUSI5100 – WIND SYMPHONY

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5101 – SYMPHONIC WINDS

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5102 – A CAPELLA CHOIR

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5103 – CHAMBER SINGERS

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5104 – UNIVERSITY SINGERS

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5106 – KEYBOARD ENSEMBLE

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5107 – JAZZ ORCHESTRA

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5108 – JAZZ ENSEMBLE

1 Lecture Hour · 0 Lab Hours

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### MUSI5109 – VOCAL JAZZ

**1 Lecture Hour · 0 Lab Hours**

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### **MUSI5110 – JAZZ COMBO**

**1 Lecture Hour · 0 Lab Hours**

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### **MUSI5111 – ORCHESTRA**

**1 Lecture Hour · 0 Lab Hours**

The schedule of classes indicates which ensembles are offered each semester. Prerequisite: Approval of the ensemble director.

### **MUSI5112 – CHAMBER MUSIC**

**1 Lecture Hour · 0 Lab Hours**

This course is an in-depth study of the repertoire of standard chamber ensembles such as string quartets and piano trios, woodwind quintets and brass quintets. Weekly coaching with professors culminates in a public performance where students demonstrate skills in music performance. Prerequisite: Approval of Ensemble Director.

### **MUSI5120 – PRIVATE LESSONS IN VOICE**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

### **MUSI5121 – PRIVATE LESSONS IN PIANO**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in piano. This course may be repeated for credit as often as course content changes.

### **MUSI5122 – PRIVATE LESSONS IN ORGAN**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

### **MUSI5123 – PRIVATE LESSONS IN HARPSICHORD**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

### **MUSI5124 – PRIVATE LESSONS IN JAZZ PIANO**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

### **MUSI5125 – PRIVATE LESSONS IN VIOLIN**

**2 Lecture Hours · 0 Lab Hours**

This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

### **MUSI5126 – PRIVATE LESSONS IN VIOLA**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

### **MUSI5127 – PRIVATE LESSONS IN CELLO**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

### **MUSI5128 – PRIVATE LESSONS IN BASS**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

### **MUSI5129 – PRIVATE LESSONS IN JAZZ BASS**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.

### **MUSI5130 – PRIVATE LESSONS IN GUITAR**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

### **MUSI5131 – PRIVATE LESSONS IN CLARINET**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

### **MUSI5132 – PRIVATE LESSONS IN OBOE**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

### **MUSI5133 – PRIVATE LESSONS IN FLUTE**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

### **MUSI5134 – PRIVATE LESSONS IN SAXOPHONE**

3 Lecture Hours · 0 Lab Hours

This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

### **MUSI5135 – PRIVATE LESSONS IN BASSOON**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in bassoon. This course may be repeated for credit as often as

course content changes.

### **MUSI5136 – PRIVATE LESSONS IN TRUMPET**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

### **MUSI5137 – PRIVATE LESSONS IN FRENCH HORN**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

### **MUSI5138 – PRIVATE LESSONS IN TROMBONE**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.

### **MUSI5139 – PRIVATE LESSONS IN TUBA**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

### **MUSI5140 – PRIVATE LESSONS IN EUPHONIUM**

2 Lecture Hours · 0 Lab Hours

This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

### **MUSI5190 – KEYBOARD ACCOMPANIMENT**

1 Lecture Hour · 0 Lab Hours

This course entails the student accompanying performances as specified and supervised by the instructor.

### **MUSI5191 – CONFERENCE COURSE IN MUSIC**

1 Lecture Hour · 0 Lab Hours

Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: permission of instructor and Graduate Advisor.

### **MUSI5205 – MUSIC THEATRE/OPERA LAB**

2 Lecture Hours · 0 Lab Hours

Exploration of opera roles, staging techniques, and repertoire. Prerequisite: Approval of the ensemble director.

### **MUSI5220 – PRIVATE LESSONS IN VOICE**

3 Lecture Hours · 0 Lab Hours

This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

### **MUSI5221 – PRIVATE LESSONS IN PIANO**

3 Lecture Hours · 0 Lab Hours

This course provides private instruction in piano. This course may be repeated for credit as often as course

content changes.

### **MUSI5222 – PRIVATE LESSONS IN ORGAN**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

### **MUSI5223 – PRIVATE LESSONS IN HARPSICHORD**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

### **MUSI5224 – PRIVATE LESSONS IN JAZZ PIANO**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

### **MUSI5225 – PRIVATE LESSONS IN VIOLIN**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

### **MUSI5226 – PRIVATE LESSONS IN VIOLA**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in viola. This course may be repeated for credit as often as course content changes.

### **MUSI5227 – PRIVATE LESSONS IN CELLO**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

### **MUSI5228 – PRIVATE LESSONS IN BASS**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

### **MUSI5229 – PRIVATE LESSONS IN JAZZ BASS**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.

### **MUSI5230 – PRIVATE LESSONS IN GUITAR**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

### **MUSI5231 – PRIVATE LESSONS IN CLARINET**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

### **MUSI5232 – PRIVATE LESSONS IN OBOE**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

### **MUSI5233 – PRIVATE LESSONS IN FLUTE**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

### **MUSI5234 – PRIVATE LESSONS IN SAXOPHONE**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

### **MUSI5235 – PRIVATE LESSONS IN BASSOON**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in bassoon. This course may be repeated for credit as often as course content changes.

### **MUSI5236 – PRIVATE LESSONS IN TRUMPET**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

### **MUSI5237 – PRIVATE LESSONS IN FRENCH HORN**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in French Horn. This course may be repeated for credit as often as course content change.

### **MUSI5238 – PRIVATE LESSONS IN TROMBONE**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.

### **MUSI5239 – PRIVATE LESSONS IN TUBA**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

### **MUSI5240 – PRIVATE LESSONS IN EUPHONIUM**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

### **MUSI5241 – PRIVATE LESSONS IN PERCUSSION**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in percussion. This course may be repeated for credit as often as course content changes.

### **MUSI5242 – PRIVATE LESSONS IN IMPROVISATION**

**3** Lecture Hours · **0** Lab Hours

This course provides private instruction in improvisation. This course may be repeated for credit as often as course content changes.

### **MUSI5291 – CONFERENCE COURSE IN MUSIC**

**2** Lecture Hours · **0** Lab Hours

Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: permission of instructor and Graduate Advisor.

### **MUSI5301 – FORM AND STYLE ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

A survey of the forms and styles of Western art music employing relevant analytical techniques.

### **MUSI5302 – THEORY & COMPOSITION SPECIAL TOPICS**

**3** Lecture Hours · **0** Lab Hours

This course covers topics which vary from semester to semester, and includes in-depth study of selected topics in music theory. This course may be repeated for credit as often as the content changes. (Formerly MUSI 5330.)

### **MUSI5308 – MUSIC HISTORY SELECTED TOPICS**

**3** Lecture Hours · **0** Lab Hours

This course will consist of an in-depth study of a particular genre, composer, or period. It may be repeated as the course content changes.

### **MUSI5320 – PRIVATE LESSONS IN VOICE**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in voice. This course may be repeated for credit as often as course content changes.

### **MUSI5321 – PRIVATE LESSONS IN PIANO**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in piano. This course may be repeated for credit as often as course content changes.

### **MUSI5322 – PRIVATE LESSONS IN ORGAN**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in organ. This course may be repeated for credit as often as course content changes.

### **MUSI5323 – PRIVATE LESSONS IN HARPSICHORD**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in harpsichord. This course may be repeated for credit as often as course content changes.

### **MUSI5324 – PRIVATE LESSONS IN JAZZ PIANO**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in jazz piano. This course may be repeated for credit as often as course content changes.

### **MUSI5325 – PRIVATE LESSONS IN VIOLIN**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in violin. This course may be repeated for credit as often as course content changes.

### **MUSI5326 – PRIVATE LESSONS IN VIOLA**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in viola. This course may be repeated for credit as often as course content changes.

### **MUSI5327 – PRIVATE LESSONS IN CELLO**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in cello. This course may be repeated for credit as often as course content changes.

### **MUSI5328 – PRIVATE LESSONS IN BASS**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in bass. This course may be repeated for credit as often as course content changes.

### **MUSI5329 – PRIVATE LESSONS IN JAZZ BASS**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in jazz bass. This course may be repeated for credit as often as course content changes.

### **MUSI5332 – PRIVATE LESSONS IN OBOE**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in oboe. This course may be repeated for credit as often as course content changes.

### **MUSI5333 – PRIVATE LESSONS IN FLUTE**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in flute. This course may be repeated for credit as often as course content changes.

### **MUSI5334 – PRIVATE LESSONS IN SAXOPHONE**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in saxophone. This course may be repeated for credit as often as course content changes.

### **MUSI5335 – PRIVATE LESSONS IN BASSOON**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in bassoon. This course may be repeated for credit as often as course content changes.

### **MUSI5336 – PRIVATE LESSONS IN TRUMPET**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in trumpet. This course may be repeated for credit as often as course content changes.

### **MUSI5337 – PRIVATE LESSONS IN FRENCH HORN**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in French Horn. This course may be repeated for credit as often as course content changes.

### **MUSI5338 – PRIVATE LESSONS IN TROMBONE**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in trombone. This course may be repeated for credit as often as course content changes.

### **MUSI5339 – PRIVATE LESSONS IN TUBA**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in tuba. This course may be repeated for credit as often as course content changes.

### **MUSI5340 – PRIVATE LESSONS IN EUPHONIUM**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in euphonium. This course may be repeated for credit as often as course content changes.

### **MUSI5341 – PRIVATE LESSONS IN PERCUSSION**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in percussion. This course may be repeated for credit as often as course content changes.

### **MUSI5342 – PRIVATE LESSONS IN IMPROVISATION**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in improvisation. This course may be repeated for credit as often as course content changes.

### **MUSI5343 – PRIVATE LESSONS IN GUITAR**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in guitar. This course may be repeated for credit as often as course content changes.

### **MUSI5344 – PRIVATE LESSONS IN CLARINET**

**5** Lecture Hours · **0** Lab Hours

This course provides private instruction in clarinet. This course may be repeated for credit as often as course content changes.

### **MUSI5350 – SELECTED TOPICS IN MUSIC PEDAGOGY**

**3** Lecture Hours · **0** Lab Hours

This course covers topics which vary from semester to semester and includes studies of teaching techniques applied to pre-K, elementary grades, the junior high school, the high school, the junior college, and the college or university. This course may be repeated for credit as often as the content changes.

### **MUSI5351 – PHILOSOPHICAL FOUNDATIONS OF MUSIC EDUCATION**

**3** Lecture Hours · **0** Lab Hours

Study in the philosophy of music education.

### **MUSI5352 – PSYCHOLOGICAL FOUNDATIONS OF MUSIC EDUCATION**

**3** Lecture Hours · **0** Lab Hours

A study of the psychological foundations of music education. An investigation of topics such as perception of and responses to music, the nature of musical attributes, music learning, and the measurement of musical behavior.

### **MUSI5353 – PROJECT IN MUSIC EDUCATION**

**3** Lecture Hours · **0** Lab Hours

For students enrolled in the non-thesis option. Offers the opportunity to complete a professional project in music education relevant to the student's background, interest, and/or needs. The project should include, but not necessarily be limited to, appropriate written documentation. May be repeated for credit, but not more than 3 hours will apply to the Master of Music degree. Enrollment is required each term in which the project is in progress.

### **MUSI5354 – SELECTED TOPICS IN MUSIC LITERATURE**

**3** Lecture Hours · **0** Lab Hours

This course covers topics which vary from semester to semester and includes studies in musical literature for the following: 1) Wind Band Literature; 2) Orchestral Literature; 3) Choral Literature; 4) World Music Literature; 5) Jazz Literature. This course may be repeated for credit as often as the content changes.

### **MUSI5355 – REHEARSAL TECHNIQUES**

**3** Lecture Hours · **0** Lab Hours

A study of rehearsal techniques, including tone development, phrasing, rehearsal score study, and rehearsal organization. Topics, which may vary by semester, are 1) Choral; 2) Instrumental; 3) Jazz. May be repeated for credit when topics vary. Topics may be taken concurrently.

### **MUSI5356 – ORCHESTRAL EXCERPTS**

**3** Lecture Hours · **0** Lab Hours

Study of orchestral excerpts for individual instruments. Topics will vary by semester. May be repeated for credit. Permission of instructor required.

### **MUSI5359 – ADVANCED DICTION FOR SINGERS**

**3** Lecture Hours · **0** Lab Hours

A study of performance diction for singers and the pronunciation of the language as it applies to public performance. Topics include English, French, Italian, and German. May be repeated for credit when topics vary.

### **MUSI5360 – ADVANCED TECHNOLOGY FOR MUSICIANS**

**0** Lecture Hours · **3** Lab Hours

Intensive and extensive student-centered study topics to be selected from MIDI sequencing, multimedia development, advanced music notation and digital sampling and synthesis.

### **MUSI5361 – ELEMENTARY MUSIC**

**3** Lecture Hours · **0** Lab Hours

A study of current methods and materials used in teaching elementary music. Classroom instruments are also studied.

### **MUSI5362 – INTRODUCTION TO RESEARCH IN MUSIC**

**3** Lecture Hours · **0** Lab Hours

An introduction to the methods and materials of research in music, including instruction on appropriate style formats for papers and theses.

### **MUSI5363 – RESEARCH IN MUSIC EDUCATION**

**3** Lecture Hours · **0** Lab Hours

An introduction to historical, philosophical, descriptive, and experimental research in music education and present research practices in music education.

### **MUSI5364 – HISTORICAL FOUNDATIONS AND CURRICULAR TRENDS IN MUSIC EDUCATION**

**3** Lecture Hours · **0** Lab Hours

A study of the historical foundations of music education and curricular trends that provide the context for contemporary music education.

### **MUSI5365 – MEANING & REPRESENTATION IN MUSIC**

**3** Lecture Hours · **0** Lab Hours

This course will explore the basic questions of meaning in music, including the question of whether or not music can truly have meaning at all. Students will explore various philosophical, scientific, and musical (i.e. from composers and performers) viewpoints through readings, discussion, and writing.

### **MUSI5366 – JAZZ STYLE AND ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An in depth examination of the improvisational techniques used by prominent jazz musicians. Topics will include transcription and theoretical analysis over different periods and styles in jazz.

### **MUSI5391 – CONFERENCE COURSE IN MUSIC**

**3** Lecture Hours · **0** Lab Hours

Special problems in music. Topic may change from semester to semester. May be repeated for credit. Prerequisite: Permission of instructor and Graduate Advisor.

### **MUSI5393 – CONDUCTING**

**3** Lecture Hours · **0** Lab Hours

Applied lessons in conducting. This course is an in-depth study of conducting technique as applied to choral or instrumental ensembles. It may be repeated for credit as the content changes.

### **MUSI5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

The graduate student must be registered for 5398 when in consultation over the thesis with the advisor or supervisory committee.

### **MUSI5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

The graduate student must be registered for 5698 in the semester or term in which the Master of Music degree will be conferred.

### Dual Degree Program

## Objective

The program leading to a Master of Arts degree in Political Science emphasizes preparation for service in many areas of our national life, both public and private. Students interested in careers in teaching and research or in leadership roles in the public or private sectors may pursue programs adapted to their individual objectives. The Department of Political Science endeavors to equip students with the research techniques and substantive background for coursework undertaken beyond the master's level. Particular attention is given to newer methodologies and approaches employed by scholars in the field.

## Admissions and Fellowship Criteria

The program is committed to a holistic admissions approach. As a result, admissions criteria include: grade point averages, letters of recommendation, personal statements, advanced degrees, graduate courses taken as a degreed student or in another program, and professional work experience. The major purpose of the admissions criteria is to promote access to our program, but maintain standards that will enable the department to determine if the applicant demonstrates the requisite skill level to master the requirements of the program.

Admission to the M.A. program in political science is based upon the completion of the general admission requirements of the Graduate School. Applicants are required to submit all official transcripts, a personal statement, and three (3) letters of recommendation. The department will review the application package in its entirety. The package is evaluated to determine if a student has achieved a 3.00 grade point average (GPA) in the last 60 hours of their undergraduate work

as calculated by the Graduate School, and meets other admission requirements. If a student has already earned an advanced degree, the department will evaluate the student's academic performance in obtaining that degree equally with the undergraduate performance. International students must meet or exceed the minimum university standard on the TOEFL (550 for paper examination, 213 for computer examination), TOEFL iBT (total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section), TSE (40), or the IELTS (6.5).

The criteria for admission below are used, without specific weights, as positive indicators of potential success in the program. All four criteria for unconditional admission must be met in order to receive unconditional admission.

1. A bachelor's degree from an accredited general or specific program. A bachelor's degree in political science, however, is not required.
2. An undergraduate GPA of 3.00 or greater (as calculated by the Graduate School) in the last 60 credit hours of completing an undergraduate B.A. or B.S. degree from an accredited institution (verified by the Graduate School from official transcripts from each college or university previously attended).
3. A written statement (200 words) explaining the applicant's reasons for graduate study in political science.
4. Three letters of recommendation (including at least two from university/college faculty) mailed directly from the recommenders to the graduate advisor of political science. Letters of recommendation must favorably assess the applicant's potential success in a graduate program and in the field of political science.

### Probationary Status

Students who do not qualify for unconditional admission may be considered for probationary admission if they satisfy any 3 of the 4 criteria for unconditional admission. Students with a reported grade point average below 2.70, however, will not be eligible for probationary admission. Being admitted on probationary status means that the student will be able to take graduate level classes, but the student must earn a B or better in their first 12 hours of graduate coursework at UT Arlington. This regulation will be strictly enforced.

### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline, but otherwise appears to meet admission requirements, may be granted provisional admission. Provisionally admitted students must adequately satisfy any incomplete documentation by the end of the semester in which they are admitted. If the applicant fails to do so, the Department may then reclassify the applicant's admission status as probationary or ask the student to leave the program.

### Deferral

A deferred decision may be granted when a file is incomplete or when a denial decision is not appropriate.

### Denial

If two or more of the aforementioned criteria for unconditional admission have not been met with satisfaction or the applicant's grade point average is below 2.70, the candidate will be denied admission.

### Fellowships

Fellowships, when available, will be awarded on a competitive basis. Nominees for the Graduate School Master's Fellowship in the Political Science master's program will be selected based on the following criteria:

- Candidates must be new students entering in the fall semester, with a minimum of 6 hours of enrollment in both long semesters to retain their fellowships.

- The minimum undergraduate GPA requirement is 3.00, as calculated by the Graduate School, plus a GPA of 3.0 for any graduate credit hours.
- Transcript of a completed bachelor's degree in Political Science (or appropriate related field) from an accredited institution.
- Three letters of recommendation. These letters may be the same submitted for admission.
- A written statement explaining the applicant's reasons for graduate study in Political Science.

## Degree Requirements

The thesis degree plan requires 24 hours of coursework including three hours of methods in Political Science for those who have not had POLS 3310 or its equivalent. Of the remaining 21 hours, at least one course each must be taken from four of the following five areas:

- Political Behavior and Processes: 5300, 5311, 5315, 5316, 5317, 5318, 5319, 5320, 5321, 5322, 5380.
- Comparative Politics: 5303, 5331, 5333, 5335, 5336, 5337, 5381.
- International Politics and Organization: 5332, 5334, 5338, 5339, 5341, 5342, 5384.
- Public Law and Jurisprudence: 5301, 5323, 5382.
- Public Administration and Policy Studies: 5302, 5324, 5325, 5326, 5327, 5328, 5329, 5330, 5368, 5369, 5383.

Additional courses may also be taken in the area of political theory, but other than the methods requirement (POLS 5310) that area is not required for the thesis or non-thesis degree plans. Elective courses in political theory include:

- POLS 5305.

Students should consult the Political Science Graduate Student Handbook for regulations on transfer courses, undergraduate courses, conferences, internships, and special courses. It is recommended that students complete at least one general field seminar (5300, 5301, 5302, 5303, 5332) prior to taking the topics courses. See the Graduate Advisor for more detail.

The non-thesis degree plan requires a minimum of 36 hours, including three hours of methodology, and courses from four of the five areas.

All candidates for the degree of Master of Arts with a major in political science must pass a final comprehensive examination, written, oral, or both written and oral. The scope, content, and form of the examination will be determined by the student's supervising committee. In the event of failure of the final comprehensive examination, the student may petition the Committee on Graduate Studies to retake the examination on a date no sooner than 60 days after the first examination. Students will not be permitted more than one reexamination after failure of the initial examination.

## International Studies Option

The International Studies option of the Master of Arts program in Political Science emphasizes comparative politics and international politics within the framework of Political Science. This option requires courses from three of six areas of Political Science and 12 hours in comparative politics and/or international politics. Students must have three hours of a methods course. Upon satisfying the requirements for this option, students will receive a letter of completion. Completion will not be reflected on student transcripts.

## U.S. Political Institutions and Processes Option

The U.S. Political Institutions and Processes option of the Master of Arts program in Political Science emphasizes political behavior and processes and public law and jurisprudence within the framework of political science. This option requires courses from three of six areas of Political Science and 12 hours in political behavior and processes and/or public law and jurisprudence. Students must have three hours of a methods course. Upon satisfying the requirements for this

option, students will receive a letter of completion. Completion will not be reflected on student transcripts.

## Dual Degree Program

Students in political science may participate in a dual degree program whereby they can earn a Master of Arts in political science and a Master of Arts in criminal justice. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from nine to 18 hours, subject to the approval of Graduate Advisors from both programs. To participate in the dual degree program, students must make separate application to each program and must submit a separate program of work for each degree. Those interested in a dual degree program should consult the appropriate Graduate Advisor(s) for further information on course requirements. See also the statement on "Dual Degree Programs" in the general information section of this catalog.

## POLS Courses

### POLS5197 – MASTER'S COMPREHENSIVE EXAMINATION

1 Lecture Hour · 0 Lab Hours

Required of all non-thesis Master of Arts students in the semester of their graduation. Graded P/F/R.

### POLS5300 – AMERICAN GOVERNMENT AND POLITICS

3 Lecture Hours · 0 Lab Hours

A survey of the major theories and subfields in the study of American politics. Readings comprise a representation of scholarship illustrating a variety of substantive and methodological approaches.

### POLS5301 – JUDICIAL POLITICS AND THE U.S. SUPREME COURT

3 Lecture Hours · 0 Lab Hours

This course focuses on judicial decision-making and behavior. While the entire American court system will be considered, primary attention will be given to the U.S. Supreme Court and constitutional issues.

### POLS5302 – BUREAUCRATIC LEADERSHIP: TRENDS IN PUBLIC ADMINISTRATION AND POLICY MANAGEMENT

3 Lecture Hours · 0 Lab Hours

Recent literature in organizational theory, government restructuring, and policy management problems.

### POLS5303 – COMPARATIVE POLITICAL SYSTEMS

3 Lecture Hours · 0 Lab Hours

Theories, concepts, and methods that dominate modern comparative political analysis. The state of the discipline and controversies in the comparative method are evaluated.

### POLS5305 – TOPICS IN POLITICAL THEORY

3 Lecture Hours · 0 Lab Hours

This course will cover both historical and contemporary topics central to the discipline of political theory. It will consider the major figures in the field as well as themes such as citizenship, democracy, freedom, and authority. May be repeated for credit as the topic changes.

### POLS5310 – EMPIRICAL THEORY AND RESEARCH METHODS

**3 Lecture Hours · 0 Lab Hours**

Focus on issues of philosophy of science, explanations and theories, research designs, measurement, survey research, and statistical analysis. Exposes the student to the basic steps of political research: defining the problem or the question, formulating hypotheses, specifying a research design, operationalizing the measures, analyzing the data, and reaching conclusions.

### **POLS5311 – CAMPAIGNS AND ELECTIONS**

**3 Lecture Hours · 0 Lab Hours**

Describes important trends in modern campaigns and elections practices, focusing on contemporary American elections, including campaign finance, voter turnout, campaign advertising, and voter choices. Class presentations, a short research paper, and journal article readings.

### **POLS5315 – PUBLIC OPINION**

**3 Lecture Hours · 0 Lab Hours**

Describes the development of survey research and commonly-encountered problems in surveys. Focuses most heavily on the contemporary practice of public opinion research, particularly in the American setting. Class presentations, a short research paper, and journal article readings.

### **POLS5316 – PUBLIC LEADERSHIP: RACE, ETHNICITY, & GENDER**

**3 Lecture Hours · 0 Lab Hours**

Study of leadership theories, skills and traits, with focus on the intersections of race, ethnicity, and gender on public leadership in the public arena.

### **POLS5317 – ETHNIC GROUPS AND THE NATION STATE**

**3 Lecture Hours · 0 Lab Hours**

Examines the role of the nation state on ethnic/racial groups; characteristics of a nation, theories of the nation state and of ethnic/racial groupings; and, theories of incorporation of these groups by the nation state.

### **POLS5318 – WOMEN IN THE POLITICAL PROCESS**

**3 Lecture Hours · 0 Lab Hours**

This course examines women and gender in the political process, exploring various theoretical and methodological approaches helpful in studying gender and politics.

### **POLS5319 – CONGRESSIONAL BEHAVIOR**

**3 Lecture Hours · 0 Lab Hours**

This course addresses several major questions regarding the nature of Congress as an institution, the behaviors of its members, and the role Congress plays in shaping public policy and the general nature of a representative democracy. Students are expected to have the ability to comprehend readings that are heavily quantitative. Course requirements will include weekly writings, a research paper and exams.

### **POLS5320 – THE AMERICAN PRESIDENCY**

**3 Lecture Hours · 0 Lab Hours**

An overview course on the U.S. Presidency, exploring the institution as well as its relationship to other branches and political actors.

### **POLS5321 – THE PRESIDENCY AND DOMESTIC POLICY**

**3 Lecture Hours · 0 Lab Hours**

This course examines presidential and domestic policy making, exploring how the president makes policy, focusing on theories of presidential leadership, White House organization and presidential-congressional interactions.

## **POLS5322 – SEPARATION OF POWERS IN AMERICAN POLITICAL DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Theories behind institutional design and the historical development of the executive, legislative, and judicial branches in the United States. Emphasis is placed on interactions of these institutions of government and current separation of powers controversies.

## **POLS5323 – STATE COURT SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Examination of the major theories of judicial politics and public law applied to the state court level. Topics include attention to the institutional, strategic, and attitudinal perspectives of judicial behavior.

## **POLS5324 – PUBLIC POLICY ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Examination of the U. S. national policymaking process from agenda setting to policy outcomes. A variety of analytical frameworks are introduced to analyze power structures.

## **POLS5325 – STATE GOVERNORS AND LEGISLATURES**

**3** Lecture Hours · **0** Lab Hours

Examination of the similarities and differences in the organization of state legislative and executive offices. Course focuses on the organization of state governments and the behavior of state elites.

## **POLS5326 – STATE/LOCAL GOVERNMENT POLICYMAKING**

**3** Lecture Hours · **0** Lab Hours

Focus on policy problems. Emphasis is on trends in state policy, interstate policy innovation and diffusion, and the effects of federal programs on state policy choices.

## **POLS5327 – URBAN POLICYMAKING AND ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Focus on the influence of economic, political, institutional, and organizational factors on urban policymaking and administration. A variety of regime and power structure models facilitate the analysis of urban policymaking.

## **POLS5328 – PUBLIC POLICY AND MEXICAN AMERICAN COMMUNITIES**

**3** Lecture Hours · **0** Lab Hours

Focus on the public policy process and the limited role Mexican Americans have had in national and state (TX) policymaking. Select topic areas are utilized to focus on state actors, issues, allocation of resources, and the power structure for analytical purposes.

## **POLS5329 – PUBLIC BUDGETING**

**3** Lecture Hours · **0** Lab Hours

The concepts, processes, and policy impacts of taxation and public budgeting. Introduction to current research techniques, budgetary issues, and the relevant political economy literature.

## **POLS5330 – ENERGY AND THE ENVIRONMENT**

**3** Lecture Hours · **0** Lab Hours

Analysis of the politics, economics, and administration of energy and environmental policies in the United States.

## **POLS5331 – POLITICAL SYSTEMS OF EAST ASIA**

**3 Lecture Hours · 0 Lab Hours**

Comparative analysis of the political institutions and processes of China and Japan, with emphasis on the aspects of political development.

### **POLS5332 – THEORIES OF THE INTERNATIONAL SYSTEM**

**3 Lecture Hours · 0 Lab Hours**

Classical theories and concepts of international politics and models of foreign policy decision-making. Also may include the underlying assumptions in traditionalist vs. behaviorist approaches in examining international relations.

### **POLS5333 – IDENTITY AND POLITICS IN THE MIDDLE EAST**

**3 Lecture Hours · 0 Lab Hours**

Deeper examination of processes of state building and political development; state-society relations; Arabism; authoritarianism and democratization; oil and economic issues; Islamist politics; the role of transnational ideas.

### **POLS5334 – VIOLENCE AND DEPRIVATION IN WORLD POLITICS**

**3 Lecture Hours · 0 Lab Hours**

Focuses on theoretical frameworks, empirical analysis, and policy relevance of myriad threats to individuals and communal groups. Examples include: human rights, failed states, violence, health issues, slavery and migration, environmental security.

### **POLS5335 – LATIN AMERICAN POLITICS**

**3 Lecture Hours · 0 Lab Hours**

Designed to give students knowledge of the political development of Latin America by first examining general topics and then analyzing events in specific countries. Utilizes themes and concepts that are universal to all Latin American nations, but also stresses the different paths to political development that have been taken in each of these countries.

### **POLS5336 – REPRESSION AND REVOLUTION IN LATIN AMERICAN**

**3 Lecture Hours · 0 Lab Hours**

Examines issues of political repression and revolutionary participation in Latin America. Topics range from human rights violations to coups and revolutions.

### **POLS5337 – POLITICAL SYSTEMS OF RUSSIA AND EASTERN EUROPE**

**3 Lecture Hours · 0 Lab Hours**

Russia and the states of Eurasia from a comparative perspective. Analysis of how political issues and policies within these states have an impact upon economic, social, and cultural systems.

### **POLS5338 – AMERICAN FOREIGN POLICY**

**3 Lecture Hours · 0 Lab Hours**

Evaluation of some of the primary theories and models used in explaining American Foreign Policy. The course attempts to bridge the gaps that exist between theory and reality through approaches such as realism, neo-realism, deterrence, and others.

### **POLS5339 – ISRAELI IDENTITY AND THE ARAB-ISRAELI CONFLICT**

**3 Lecture Hours · 0 Lab Hours**

This course will explore the deeper threads of Israeli identity, and how these impact Israeli policy toward the Arab-Israeli conflict. Topics to be covered include: diverse and clashing identities (e.g., Jewish, democratic, Middle Eastern, Israeli); how identity clashes have played out in politics; outlines of Israeli foreign policy; specific policies toward the Palestinians.

## **POLS5341 – POLITICAL PSYCHOLOGY AND INTERNATIONAL RELATIONS**

**3** Lecture Hours · **0** Lab Hours

Course focuses on psychological approaches to international politics and examines how different perspectives can contribute to the study of world politics.

## **POLS5342 – INTERNATIONAL ORGANIZATIONS**

**3** Lecture Hours · **0** Lab Hours

This course describes the institutions, decision-making and activities of the world's leading international organizations to establish an understanding of the role of international organizations in managing contemporary global problems.

## **POLS5368 – HEALTH POLITICS AND POLICY**

**3** Lecture Hours · **0** Lab Hours

Course will survey the political history of the health care debate in the United States as well as major features of federal health policy.

## **POLS5369 – SOCIAL POLICY**

**3** Lecture Hours · **0** Lab Hours

This course examines the role of the federal government relating to social policy as a central theme of contemporary American politics. Issues surrounding the federal government's attempt to create a social safety net and issues such as poverty will be confronted, as well as the central role of tax expenditures and attempts to roll back social policies.

## **POLS5380 – TOPICS IN U.S. POLITICS: INSTITUTIONS, PROCESS AND BEHAVIOR**

**3** Lecture Hours · **0** Lab Hours

This course will focus on the specific aspects of U.S. governing institutions, processes, and behavior. A single aspect of U.S. politics will be examined in a given semester. (May be repeated for credit when topics vary.)

## **POLS5381 – TOPICS IN COMPARATIVE POLITICS**

**3** Lecture Hours · **0** Lab Hours

This course will serve as a treatment of emerging and established nations. (May be repeated for credit when topics vary.)

## **POLS5382 – TOPICS IN PUBLIC LAW AND JURISPRUDENCE**

**3** Lecture Hours · **0** Lab Hours

The role of U.S. national and state courts in policy making, constitutional law, and the examination of the evolution and nature of law in the United States. (May be repeated for credit when topics vary.)

## **POLS5383 – TOPICS IN PUBLIC ADMINISTRATION AND POLICY MAKING**

**3** Lecture Hours · **0** Lab Hours

U.S. national policy making and program management, state and urban policy making and administration. (May be repeated for credit when topics vary.)

## **POLS5384 – TOPICS IN INTERNATIONAL RELATIONS**

**3** Lecture Hours · **0** Lab Hours

Topics of international politics, including subjects such as American foreign policy, assessments of institutions, and international behavior.

## **POLS5391 – CONFERENCE COURSE IN POLITICAL SCIENCE**

**3 Lecture Hours · 0 Lab Hours**

Research and reading in a specialized field under the direction of a member of the graduate faculty. Graded P/F/W.

### **POLS5392 – FEDERAL POLICYMAKING: INSIDE THE FEDERAL GOVERNMENT**

**3 Lecture Hours · 0 Lab Hours**

This summer course offered in Washington, DC through the Archer Program in Public Policy, takes students behind the scenes in the federal government to explain how the government works. Students meet with officials from Congress, the White House, Executive Branch agencies, lobbying firms, NGOs, think tanks, interest groups, and the media. The seminar requires significant student participation. The extensive literature on federal government dynamics will be sampled, but the focus will be on interaction with representatives of the major institutions that participate in the process of federal governance. Open to designated Archer Fellows only, by permission of POLS graduate advisor.

### **POLS5398 – THESIS**

**3 Lecture Hours · 0 Lab Hours**

Original research designed to augment existing studies of problems or topics related to one of the major fields of study.

### **POLS5692 – ARCHER CENTER WASHINGTON INTERNSHIP**

**6 Lecture Hours · 0 Lab Hours**

An approved summer internship in a government or non-governmental organization in Washington, DC. Internships are arranged with assistance from the Archer Center staff. Students acquire and utilize the interpersonal skills necessary to function effectively in an office environment; they become conversant with the substantive issues on which their office focuses; and they develop time-management, priority-setting and other skills necessary to meeting the work and classroom demands of the Archer Graduate Program in Public Policy. Open to designated Archer Fellows only, by permission of POLS graduate advisor.

### **POLS5698 – THESIS**

**6 Lecture Hours · 0 Lab Hours**

Original research designed to augment existing studies of problems or topics related to one of the major fields of study. 5398 graded R/F only; 5698 graded P/F/R.

#### Degree Requirements: Anthropology

#### Archaeological Fieldwork

### Objectives: M.A. in Sociology

The Master of Arts program in sociology is designed to provide students with a firm substantive background in sociological theory and in the techniques of contemporary research methodology and statistical analyses. In addition to these core concerns, the program offers a variety of seminars, as well as practicum opportunities, to help prepare students for a wide range of professional careers in both the private and public sectors or continued graduate education at the Ph.D. level.

### Admissions Requirements: Sociology

Applicants must apply for admission through, and supply all information required by, the Graduate School. The Sociology Graduate Advisor, in consultation with other members of the faculty, decides on each applicant.

All of the following criteria will be considered in determining program admission status:

1. Undergraduate grade point average
2. Graduate Record Exam (GRE) scores
3. Letters of recommendation from faculty
4. Preparation in sociology and satisfactory performance in sociology courses and/or courses in related disciplines
5. A statement (2-3 pages) describing the applicant's academic background, research/study interests, and professional goals

### **Criteria for Unconditional Admission**

For unconditional admission, the student must satisfy each of the following criteria.

1. Minimum GPA of 3.0, as calculated by the Graduate School.
2. Preferred GRE score of at least 150 on the verbal subtest ( 500 on the prior scale) and 144 on the quantitative subtest (500 on the prior scale).
3. Satisfactory letters of recommendation.
4. Adequate preparation in sociology and satisfactory performance in sociology courses and/or those in related disciplines.
5. Satisfactory statement (2-3 pages) describing the applicant's academic background, research/study interests, and professional goals

### **Criteria for Probationary Admission**

Students who do not qualify for unconditional admission may be admitted on probation if they satisfy any 4 of the 5 criteria for unconditional admission.

Those entering the program under probationary status will be granted unconditional admission only after completing 12 hours of graduate sociology courses, approved by the Graduate Advisor, earning no grade below a B.

### **Provisional Admission**

An applicant unable to supply all required information prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### **Deferred Admission**

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

### **Denied Admission**

Applicants who do not satisfy the requirements for any of the aforementioned forms of admission will not be admitted.

### **International Students**

To qualify for admission, international students must score 550 or above on the TOEFL.

Sociology students who completed their undergraduate degree in Sociology at UT Arlington with a 3.0 overall GPA, a 3.0 GPA in advanced hours, a B or better in Sociological Theory (SOCL 3372 or 4311), Social Statistics (SOCL 3352) and Social Research (SOCL 3305 or 3462), and satisfactory letters of recommendation from UT Arlington faculty qualify for automatic unconditional admission, pending submission of all required materials.

## Fast Track Program in Sociology

The Fast Track Program allows outstanding undergraduate students in sociology at UT Arlington to take up to three graduate seminars in sociology that will earn credit toward *both* the Bachelor's degree and the Master's degree in Sociology. It is designed to encourage high standards of performance, to facilitate the transition from undergraduate to graduate study, and to reduce time needed to complete the MA . Interested undergraduate students should apply for the Fast Track Program when they are within 30 hours of completing the Bachelor's degree. To qualify, students must have completed at least 30 hours at UTA with a GPA of 3.0 in all courses and 3.25 in the last 30 hours. Before entering the Fast Track, students must also have completed the four required core courses in the Sociology major with a GPA of at least 3.5, or three of the four with a GPA of 3.66 or more. Additionally, they must have already taken at least two non-core sociology courses with a GPA of 3.5 or higher.

Students who successfully complete the Fast Track Program will be admitted automatically to the Graduate School to continue their graduate work in the Sociology MA Program once the Bachelor's degree is awarded. They will *not* be required to take the GRE, complete an additional application for admission to the Graduate School, supply letters of recommendation, or pay an application fee. An undergraduate student completing the maximum of nine graduate hours would be admitted to the Sociology MA Program with only five additional courses and a thesis remaining to complete the requirements for the thesis option.

To remain in the Fast Track Program, students must receive no grade lower than a B in any graduate seminars taken as an undergraduate, selected with the advice and approval of the Sociology Graduate Advisor. Undergraduate students who do not maintain grades of B or A in the graduate courses taken will be unable to continue in the Fast Track Program but, if the courses are completed passing, will still receive credit toward their undergraduate degree requirements. Students originally denied entry into the Fast Track Program, discontinued after provisional admission, subsequently dropped or opting out are still welcome to apply to the Sociology MA Program in the usual way and will be considered without prejudice.

For an application form or to obtain more details about this program, contact the Sociology Graduate Advisor.

## Graduate Assistantships and Fellowships in Sociology

Graduate teaching and research assistantships and other forms of financial support will be awarded on a competitive basis. In addition to performance in any graduate courses the student may have taken, the same criteria used to determine admission status will be used in evaluating applications for such awards. No single factor, including standardized test scores, will be used to end consideration of any graduate assistantships.

## Degree Requirements: Sociology

Students may select from three options: the thesis, thesis substitute, or non-thesis degree plan.

**Thesis Option:** Satisfactory completion of a minimum of 24 hours of coursework, including core courses in theory, methods, and statistics, plus the six hour thesis course (SOCI 5698).

**Thesis Substitute Option:** Satisfactory completion of a minimum of 30 hours of coursework, including core courses in theory, methods, and statistics, plus the three hour thesis substitute course (SOCI 5393).

**Non-Thesis Option:** Satisfactory completion of a minimum of 33 hours of coursework, including core courses in theory, methods, and statistics, plus the three hour non-thesis course (SOCI 5385).

All candidates for the degree Master of Arts with a major in sociology must pass a final examination. For thesis candidates, it is the oral defense of the completed thesis. For thesis substitute candidates, it is an oral examination on a project, the scope, content, and form of which shall be determined by the student's supervising committee. A thesis substitute project might be, for example, a review of professional literature on a selected topic, a thematic paper integrating the course of study completed, or an internship report applying sociological concepts. For non-thesis candidates, it is an oral examination, the scope, content, and form of which shall be determined by the student's supervising committee.

### Dual Degree Program

Students in sociology may participate in a dual degree program where by they can earn a Master of Arts in Sociology and another field, such as Master of Public Administration or Master of Science in Social Work. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. Six or more hours may be jointly applied depending on the total number of hours required for both degrees, and subject to the approval of graduate advisors from both programs.

To participate in the dual degree option, students must make separate application to each program and must submit a separate Program of Work for each program. Admission to and enrollment in the two programs must be concurrent (admitted to the second program before completing more than 24 hours in the first). Those interested should consult each of the appropriate graduate advisors for coursework requirements and refer to the Graduate School catalog entry on Dual Degree Program in the Advanced Degrees and Requirements section for further details.

### Objectives: M.A. in Anthropology

The Anthropology M.A. program offers students a well-integrated curriculum in cultural anthropology, archaeology, and biological anthropology. It is intended both (1) for students who wish to prepare for admission to an anthropology Ph.D. program at another university, and (2) for those who wish to learn anthropological skills and perspectives to enhance their careers (in education, the helping professions, or other fields) in an increasingly diverse society.

Students may choose between a thesis option (30 credit hours), recommended for those planning to go on to a Ph.D. program, and a thesis substitute/internship option (36 credit hours, ordinarily including a three-hour practicum and ANTH 5370).

### Admissions Requirements: Anthropology

Program currently is closed to admissions

### Graduate Assistantships and Fellowships in Anthropology

Graduate teaching and research assistantships and other forms of financial support will be awarded on competitive basis. No single factor will be used as the basis for these awards; rather candidates' records will be evaluated in their entirety and support will be awarded to the best candidates based on the collective judgment of the Graduate Anthropology Faculty.

### Degree Requirements: Anthropology

Thesis Option: Satisfactory completion of a minimum of 30 credit hours. Program must include 1) ANTH 5310; 2) ANTH 5351; 3) a 3 hour statistics course at either the graduate or undergraduate level, as specified by the student's committee; 4) 6 hours of methods (including ANTH 5315 or ANTH 5320, and ANTH 5325 or ANTH 5363; 5) 6 hours of thesis.

Thesis Substitute/Internship Option: Satisfactory completion of a minimum of 36 credit hours. Program must include 1-4 above, ANTH 5370, and ANTH 5371.

## Archaeological Fieldwork

All graduate students concentrating in archaeology are strongly encouraged to have participated in an archaeological field school (for academic credit) or to have obtained equivalent excavation, survey, and/or laboratory experience before graduation. Students seeking placement on archaeological field projects should contact the faculty for guidance and recommendations pertinent to their goals and interests.

## ANTH Courses

### ANTH5191 – CONFERENCE COURSE

1 Lecture Hour · 0 Lab Hours

### ANTH5307 – FORENSIC ANTHROPOLOGY

3 Lecture Hours · 2 Lab Hours

Estimating age, sex, race, stature, pathology, cause of death, and time since death from human remains. The role of skeletal biology and physical anthropology in criminal investigation. Case studies will be used to demonstrate application of the methods studied. Requires enrollment in the undergraduate lab section.

### ANTH5310 – HISTORY OF ANTHROPOLOGICAL THEORY

3 Lecture Hours · 0 Lab Hours

This course is a critical examination of major theoretical trends in ethnological theory, from mid-19th century to the present.

### ANTH5315 – ARCHAEOLOGICAL METHODS

3 Lecture Hours · 0 Lab Hours

An examination of research methods and underlying theory in archaeology and their evolution since the era of European antiquarianism. Origins and development of archaeology as a scholarly discipline. Emphasis on the period 1960-present; consideration of recent trends in analysis and reportage.

### ANTH5317 – ARCHAEOLOGY OF EXPLORATION

3 Lecture Hours · 0 Lab Hours

Archaeological evidence for travel in antiquity. Technology of travel (horse/camel, wheeled vehicles, boats) and related topics (navigation; development of trade and trade routes; nature of discovery, settlement and colonization in antiquity). Case studies drawn from ancient cultures of the Old World from the Stone Age through Medieval times.

### ANTH5320 – METHODS IN BIOLOGICAL ANTHROPOLOGY

3 Lecture Hours · 0 Lab Hours

This course covers several topical areas relevant to biological anthropologists specializing in human biology, including osteology and skeletal biology, skeletal maturation (both postcranial and craniofacial), growth and development from birth to biological maturity, and selected topics in forensics, anthropometry, physiology, nutrition, genetics, epidemiology, and demography.

### ANTH5325 – QUALITATIVE METHODS

3 Lecture Hours · 0 Lab Hours

Students do fieldwork in anthropology. Students practice participant observation, conduct an interview,

collect a kinship chart, map blocks, collect life histories and participate in rituals. Course emphasizes methods of data collection, analysis/interpretation of data, and critical writing.

### **ANTH5341 – POSTCOLONIAL SOUTH ASIA**

**3** Lecture Hours · **0** Lab Hours

It approaches the competing and complementary claims on postcolonial theory by mapping the intersections in historical anthropology, literary theory, and cultural analysis. More broadly it brings to focus the shifts from Marxist to Poststructuralist directions. Though the regional focus is on India, the endeavor is also to assess dialogues among varying strands of cultural perspectives and its impact in other postcolonial contexts, both within and beyond the South Asian subcontinent.

### **ANTH5342 – ADVANCED ETHNOLOGY**

**3** Lecture Hours · **0** Lab Hours

Seminar based on student reports and critiques of assigned readings. Major emphasis on the areas of ethnology and social anthropology.

### **ANTH5344 – CULTURES OF LATIN AMERICA**

**3** Lecture Hours · **0** Lab Hours

An ethnological comparison of societies and cultures in Central and South America. Emphasis on gender, ethnicity, and political economy.

### **ANTH5345 – RELIGION AND CULTURE**

**3** Lecture Hours · **0** Lab Hours

An ethnological comparison of native religions to understand non-western belief systems. Emphasis on rituals, myths, totemic systems, taboos, and cosmology.

### **ANTH5346 – MESOAMERICAN ARCHAEOLOGY**

**3** Lecture Hours · **0** Lab Hours

An examination of the diversities of several prehistoric Mesoamerican cultures including the Olmec, Maya, Teotihuacan, Zapotec, and the Aztec. Current issues including the beginnings of agriculture, early village life, the rise of complexity and the institution of kingship, warfare, and Mesoamerican ideology and cosmology will be addressed.

### **ANTH5349 – TOPICS IN ANTHROPOLOGY**

**3** Lecture Hours · **0** Lab Hours

May be repeated for credit as the topic changes.

### **ANTH5351 – EMERGENCE OF HUMANKIND**

**3** Lecture Hours · **0** Lab Hours

An intensive review of the evidence for, and main outlines of, human biological and cultural evolution up to agricultural origins.

### **ANTH5353 – MEDICAL ANTHROPOLOGY**

**3** Lecture Hours · **0** Lab Hours

An examination of anthropological concepts for understanding curing practices and attitudes toward health programs in various cultures.

### **ANTH5355 – HUNTERS AND GATHERERS**

**3** Lecture Hours · **0** Lab Hours

Cross-cultural approach to the ecological, social, and historical contexts of hunters, gatherers, and foragers.

### **ANTH5363 – ETHNOGRAPHY AND PERSONAL NARRATIVE**

**3** Lecture Hours · **0** Lab Hours

Focus is on anthropology and autobiography, autoethnography, life history, and narrative constructions of selfhood in different cultural contexts. Development of the life history approach in ethnographic research. Methods in the collections and analysis of life stories.

### **ANTH5365 – GLOBALIZATION AND INTERNATIONAL MIGRATION**

**3** Lecture Hours · **0** Lab Hours

Examines how the expansion of global capitalist economy has contributed to the growth of international migration around the world. Focuses on how transnational migration affects the economic, social, political, and cultural practices of immigrants in both their countries of origin and destination.

### **ANTH5369 – FOLKLORE AND MYTHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Function, forms, and interpretation of folklore and myth in traditional societies; examination of oral literature as an expression of continuity and change; emphasis on a structural analysis of myth.

### **ANTH5370 – APPLIED ANTHROPOLOGY**

**3** Lecture Hours · **0** Lab Hours

Examines the application of anthropological knowledge to solve practical problems in today's global world. We learn how anthropological concepts, methods, and insights are applied to understand and solve important problems related to economic development, health, environmental issues, immigration, international business, and others.

### **ANTH5371 – RESEARCH PRACTICUM / INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

### **ANTH5373 – ARCHAEOLOGY FIELD SCHOOL**

**0** Lecture Hours · **3** Lab Hours

This course, conducted during the summer sessions, consists of on-site and classroom instruction in techniques of archaeological survey, excavation, laboratory, processing, and analysis. Students can receive either three or six hours of credit. Enrollment by permission of instructor only. Prior coursework in anthropology desirable but not necessary.

### **ANTH5389 – TEACHING ANTHROPOLOGY**

**3** Lecture Hours · **0** Lab Hours

To learn strategies of coping with practical problems of teaching undergraduate anthropology, students confer with one or more professors to discuss preparing syllabi and lectures, constructing and evaluating examinations, etc. Not to be counted toward the degree requirement.

### **ANTH5392 – CONFERENCE COURSE IN ANTHROPOLOGY**

**3** Lecture Hours · **0** Lab Hours

### **ANTH5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

### **ANTH5406 – HUMAN OSTEOLOGY**

**3** Lecture Hours · **2** Lab Hours

Detailed examination of human skeletal morphology. Topics include form and function of all skeletal elements in the human body, differentiation of each bone, left and right side identification, identification of fragmented remains, and muscle attachments and articulations. Content useful in forensic anthropology, archaeology, and hominid paleontology. If taken for undergraduate credit either as ANTH 4306 or ANTH 4406, cannot be repeated for graduate credit.

### **ANTH5673 – ARCHAEOLOGY FIELD SCHOOL**

**0** Lecture Hours · **6** Lab Hours

This course, conducted during the summer sessions, consists of on-site and classroom instruction in techniques of archaeological survey, excavation, laboratory, processing, and analysis. Students can receive either three or six hours of credit. Enrollment by permission of instructor only. Prior coursework in anthropology desirable but not necessary.

### **ANTH5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

## **SOCI Courses**

### **SOCI5191 – CONFERENCE COURSE**

**1** Lecture Hour · **0** Lab Hours

### **SOCI5301 – SOCIOLOGICAL THEORY**

**3** Lecture Hours · **0** Lab Hours

A comprehensive review, analysis, and evaluation of the dominant conceptual perspectives, and their proponents, in sociological theory.

### **SOCI5303 – RESEARCH DESIGN**

**2** Lecture Hours · **2** Lab Hours

Seminar on the design, plan, structure, and strategies of contemporary social research. Examines the interrelationships of theory, methods, and statistics along with the problems of measurement, sampling, scaling techniques, and the presentation of statistical data.

### **SOCI5304 – SOCIAL STATISTICS I**

**2** Lecture Hours · **2** Lab Hours

Examines a variety of statistical methods including analysis of variance and covariance, multivariate regression models, multiple and partial correlations, factor analysis, and other contemporary parametric and nonparametric techniques. Emphasis is on the application of these methods to social science data.

### **SOCI5310 – SEMINARS IN SOCIAL PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Introduction and discussion of theoretical and methodological perspectives in social psychology. Focusing on particular domains of social life, these seminars examine fundamental processes of social interaction and the influence of social situations and social experience on the thought, feeling, and behavior of individuals. (May be repeated for credit when topics vary.)

### **SOCI5319 – SEMINARS IN SOCIAL INSTITUTIONS AND CHANGE**

**3** Lecture Hours · **0** Lab Hours

Seminars in this area are concerned with the structure and change of the basic elements of society that represent ordered and regulated aspects of social life. Also examined are collective behavior and social movements which result from instability in institutional arrangements and represent efforts to enact social change. (May be repeated for credit when topics vary.)

### **SOCI5330 – SEMINARS IN SOCIAL DIFFERENTIATION**

**3** Lecture Hours · **0** Lab Hours

In all human societies, perceptions of differences in individuals, social positions and groups arise and form a basis for social evaluation. Seminars in this area examine the processes involved in social differentiation, social evaluation, and resulting forms of social inequality. (May be repeated for credit when topics vary).

### **SOCI5341 – SEMINARS IN THEORY AND RESEARCH METHODS**

**3** Lecture Hours · **0** Lab Hours

Research methods seminars address a variety of issues related to quantitative and qualitative approaches to data collection and analysis. Theory courses offer extended treatment of topics in theory and theory construction, reflecting systematic efforts to understand the nature and operation of human society and social behavior. (May be repeated for credit when topics vary.)

### **SOCI5385 – NON-THESIS PROJECT**

**3** Lecture Hours · **0** Lab Hours

The topic and scope of the written project must be approved by the three graduate faculty members who will serve on the final Supervising Committee. A final oral presentation of the project is required.

### **SOCI5388 – RESEARCH PRACTICUM / INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

### **SOCI5389 – TEACHING SOCIOLOGY**

**3** Lecture Hours · **0** Lab Hours

To learn strategies of coping with practical problems of teaching undergraduate sociology, students assist one or more professors in lecture preparation, grading, and examination construction. Not to be counted toward the degree requirement.

### **SOCI5392 – CONFERENCE COURSE IN SOCIOLOGY**

**3** Lecture Hours · **0** Lab Hours

There is not currently a description listed for this course since the content varies.

### **SOCI5393 – THESIS SUBSTITUTE**

**3** Lecture Hours · **0** Lab Hours

The topic and scope of the written project must be approved by the three graduate faculty members who will serve on the final Supervising Committee. A final oral presentation of the project is required.

### **SOCI5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

### **SOCI5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

## MSN Program

### MSN Admissions Requirements (All MSN Programs)

The applicant for the Master of Science in Nursing (MSN) degree must meet the general requirements of the Graduate School and have a Bachelor of Science in Nursing (BSN) degree from a program accredited by the National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution. Individual consideration may be given to applicants who hold a BSN degree from non-accredited programs.

Potential students must also possess a current unencumbered RN license from Texas, a compact state, or other state board of nursing.

The College of Nursing admission criteria are detailed in the MSN Graduate Admission table. The admission status options are described below.

#### Unconditional Admission

Applicants must meet all criteria for unconditional admission.

#### Probationary Admission

Criteria for probationary admission status and minimum GRE scores are listed in the [MSN Graduate Admission Table](#). When admitted on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program. Probationary students are admitted for part-time study only.

#### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but whom otherwise appears to meet admission requirements may be granted provisional admission.

#### Deferred Status

Deferred decision is granted when a file is incomplete or when a denial decision is not appropriate.

#### Denial of Admission

An applicant will be denied admission if they have less than satisfactory performance on a majority of admission criteria listed in the MSN Admission Table.

### MSN Graduate Admission Table

Admission Criteria	Unconditional	Probationary
GPA on last 60 hours of Undergraduate Program (BSN) (as calculated by Graduate School of UTA)	3.0 <sup>[1]</sup>	2.8-2.99 <sup>[3]</sup> <sup>[5]</sup>
GRE <sup>[2]</sup> Two highest GRE scores will be used in admission process.	Not required.	Verbal: 430 or 149 <sup>[3]</sup> or Quantitative: 430 or 141 or Analytical Writing: 3.5 Analytical: 430
Dual and Joint Degree Applicants	Additional standardized tests and requirements specific to the program must be completed. See Program advisor.	
TSE (Test of Spoken English) or TOEFL (Test of	TSE: Score of 40 or higher or TOEFL: Minimum of 550 on paper-based test, 213 on computer-based test, or 79 on the	

English as a Foreign Language) or IELTS (International English Language Testing System)	internet-based test and achieve the following minimum scores on subtests: Writing, 22; Speaking, 21; Reading, 20; and Listening, 16 or IELTS minimum score of 7.0.
Clinical Experience	<p>1. Two years clinical experience as a Registered Nurse (RN) is strongly recommended for all programs. Applicants without 2 years clinical experience should contact the Associate Dean and/or Program Director prior to making application.</p> <p>2. For the ACPNP, NNP, and ACNP programs, two years clinical experience as an RN in an acute care setting is required (Evaluated by the Associate Dean and/or Program Director).</p> <p>3. For the MSN in Nursing Education program, 2 years clinical experience is required.</p> <p>4. International students are required to have two years RN clinical experience in a United States (or equivalent) health care system.</p>
200 word Essay re: Career goals	Evaluated by Associate Deans of MSN Programs
Current and unencumbered RN License from Texas, a compact state, or other state board of nursing [4]	Evaluated by Associate Deans of MSN Programs
Pediatric Advanced Life Support (PALS)	Required only for the Acute Care Pediatric Nurse Practitioner Program; Neonatal NP applicants may complete the NRP (Neonatal Resuscitation Program).
BSN from NLNAC or CCNE Accredited Program	Evaluated by Associate Deans of MSN Programs
Undergraduate Level Statistics	Minimum grade of "C"
Cardiopulmonary Resuscitation	Required for all programs.

[1] Minimum undergraduate GPA requirement for unconditional admission is a 3.0 on a 4.0 scale as calculated by the Graduate School.

[2] Verbal, Quantitative, and Analytical Writing GRE scores will be reviewed and the two highest scores will be considered for the admission process.

[3] If a person does not meet probationary admission requirements, he or she may request review by a Committee of the Graduate Nursing Faculty. The Committee may request completion of coursework and/or additional information to support the individual's petition for admission.

[4] All graduate nursing students must have an unencumbered Registered Nursing License as designated by the Board Of Nursing (BON) for clinical courses. It is imperative that any student whose license becomes encumbered by the BON must immediately notify their department chair. The complete policy regarding encumbered RN license is available online at:

<http://www.uta.edu/nursing/MSN/unencumbered>

[5] If admitted on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program. Probationary students are admitted for part-time study only.

**Admission Policy for Individuals Ineligible to Continue Graduate Study at Another University: If potential students are ineligible to continue graduate study at another university and apply to The University of Texas at Arlington MSN Program, they will be reviewed by an admission committee. The admission committee will be composed of (at minimum): 1) Director of the Program they wish to study, 2) Representative core faculty, and 3) MSN Graduate Advisor. The admission committee will make their recommendation**

for admission or denial based on the following: 1) Admission materials (GPA on the last 60 hours of BSN, graduate GPA, GRE scores, grade of C or higher on statistics, essay, and English language score if applicable); 2) a narrative statement from the potential student providing a rationale for their ineligibility at another university; and 3) a plan for successful study at UT Arlington. The admission committee reserves the right to ask for additional materials as are needed. The admission committee will make its recommendation of admission or denial to the Graduate Office for the University.

### MSN Degree Requirements

A degree plan is developed for the student upon admission to the MSN Program. Students are required to have any changes in degree plan approved by a Graduate Advisor prior to registration. A minimum of 36 semester hours, thesis or non-thesis option, is required for the degree. Elective coursework that supports the selected nursing study area must be approved by the Graduate Advisor prior to registration. Students electing the thesis option do not have elective course requirements.

All non-thesis and thesis candidates shall pass a practicum course at the end of their coursework. All thesis candidates for the degree of Master of Science in Nursing shall present the completed thesis in a final oral examination.

MSN students must complete hours in required courses, nursing specialty area, functional role, and elective(s) depending on specific plan.

#### MSN Required Courses

NURS 5327. Analysis of Theories for Nursing  
 NURS 5301. Research in Nursing  
 NURS 5328. Theory and Research Application in Nursing

#### MSN Nursing Specialty Areas

Each student must complete the required courses in at least one nursing specialty area:

##### Nursing Administration

NURS 5311, 5340, 5341, 5342, 5343, 5382

##### Nursing Education

NURS 5302, 5308, 5309, 5318, 5319, 5326, 5360, 5361, 5362

##### Nurse Practitioner Programs

Acute Care Adult Gerontology: NURS 5303, 5305, 5314, 5315, 5334, 5418, 5435, 5436, 5631  
 Acute Care Pediatric: NURS 5303, 5306, 5314, 5315, 5334, 5418, 5441, 5442, 5444, 5631  
 Acute Care and Primary Pediatric: NURS 5303, 5306, 5314, 5315, 5334, 5418, 5441, 5442, 5444, 5631, 5632  
 Adult Gerontology Primary Care: NURS 5303, 5305, 5313, 5315, 5334, 5418, 5451, 5552, 5453, 5631  
 Family: NURS 5303, 5305, 5306, 5313, 5315, 5334, 5418, 5430, 5431, 5631  
 Neonatal Nursing: NURS 5307, 5314, 5315, 5334, 5418, 5438, 5444, 5539, 5631 or 5204, 5315, 5316, 5334, 5446, 5447, 5450, 5631  
 Primary Care Pediatric: NURS 5303, 5306, 5313, 5315, 5334, 5418, 5442, 5444, 5631  
 Family Psychiatric Mental Health: NURS 5303, 5305, 5306, 5315, 5334, 5418, 5424, 5425, 5631

#### MSN Functional Role

Each student must complete the required courses in at least one functional role as designated by their degree plan:

**Administration:** NURS 5339  
**Nurse Practitioner:** NURS 5350

**Educator:** NURS 5329

### **Electives/Independent Study**

Elective courses may be taken in Nursing or other departments of the University. Electives can also be transferred from other universities with the approval of a Graduate Advisor. Independent study offers the student the opportunity to explore topics of special interest.

### **Post-Masters Nurse Practitioner Certificates**

The nurse practitioner certificate enables individuals with a Master's Degree in Nursing to be recognized by the Board of Nursing as an Advanced Practice Registered Nurse and to take a national certification exam in their area of specialization. Certificate students must complete the required courses for the nursing specialty area and functional role.

- Acute Care Adult Gerontology Nurse Practitioner
- Acute Care Pediatric Nurse Practitioner
- Adult Gerontology Primary Care Nurse Practitioner
- Family Nurse Practitioner
- Gerontological Nurse Practitioner
- Neonatal Nurse Practitioner
- Primary Care Pediatric Nurse Practitioner
- Family Psychiatric Mental Health Nurse Practitioner

### **Masters Nursing Certificates**

Two certificates in Nursing Education are available through the College of Nursing.

- **Nurse Educator:** A 6-hour certificate that includes two education courses (NURS 5302 and 5309).
- **Advanced Nurse Educator Role:** A 12-hour certificate which includes four educator courses (NURS 5302 and 5309) plus 2 of the following 3 courses: NURS 5308, 5329 or 5360.

### **Dual or Joint Degree Programs**

#### **Dual Degree Programs**

Master of Science in Nursing Administration/Master of Business Administration (MSN/MBA) [57 credit hours]

Master of Science in Nursing/Master of Science in Health Care Administration (MSN/HCAD) [60 credit hours]

#### **Joint Degree (MSN from UT Arlington and MPH from University of North Texas Health Science Center in Fort Worth)**

Master of Science in Nursing/Master of Science in Public Health (MSN/MPH) [57 Credit hours]

### **DNP Program**

The Doctor of Nursing Practice Program builds on a foundation of previous advanced practice education in nursing and prepares advanced practice nurse providers who demonstrate leadership, clinical expertise and innovation in problem recognition and resolution. The required courses identified for the DNP curriculum meet the American Association of Colleges of Nursing

Essentials for Doctoral Education for Advanced Nursing Practice (AACN, August 2006).

## DNP Admissions Requirements

The applicant for the Doctor of Nursing Practice (DNP) degree must meet the general requirements of the Graduate School and have a Master's Degree in Nursing as a Nurse Practitioner (NP) or a Post Master's with NP Preparation from a program accredited by the National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution.

Potential students must also possess a current unencumbered Texas RN license or an unencumbered license from a designated compact state for admission.

The College of Nursing admission criteria are detailed in the DNP Graduate Admission Table. The admission status options are described.

### Unconditional Admission

Applicants must meet all criteria for unconditional admission.

### Probationary Admission

Criteria for probationary admission status are listed in the [DNP Graduate Admission Table](#). When on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but whom otherwise appears to meet admission requirements may be granted provisional admission.

### Deferred Status

Deferred decision is granted when a file is incomplete or when a denial decision is not appropriate.

### Denial of Admission

An applicant will be denied admission if they have less than satisfactory performance on a majority of admission criteria listed in the [DNP Graduate Admission Table](#).

## DNP Graduate Admission Table

Admission Criteria	Unconditional	Probationary
GPA on master's course work or Post-Master's NP Certificate	3.5 on a 4.0 scale	3.0 - 3.49 <sup>[1]</sup>
GRE	Waived	Waived
TSE (Test of Spoken English) or TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System)	TSE: Score of 40 or higher or TOEFL: Minimum of 550 on paper-based test, 213 on computer-based test, or 79 on the internet-based test and achieve the following minimum scores of subtests: Writing, 22; Speaking, 21; Reading, 20; and Listening, 16 or IELTS minimum score of 7.0.	
Statistics course	Graduate level with a minimum grade of B.	
Current Vita or Resume	Evaluated by Associate Dean or Admissions Committee	
Written statement of career vision/goals	Evaluated by Associate Dean or Admissions Committee	
Unencumbered RN License in Texas <sup>[2]</sup>	Evaluated by Associate Dean of DNP Program	
Currently recognized by Board of Nursing as an	Evaluated by Associate Dean of DNP Program	

**APRN in Texas**

Current National certification as an NP	Evaluated by Associate Dean of DNP Program
---	--

Current NP Practice	Evaluated by Associate Dean or Admissions Committee
---------------------	---

Current CPR, ACLS, PALS or NRP as required for their Specialty Area	Evaluated by Associate Dean of DNP Program
---	--

Proficiency in use of computer for word processing, spreadsheet development, and data and text file creation and manipulation	Evaluated by Associate Dean of DNP Program
---	--

[1] Students admitted on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

[2] All graduate nursing students must have an unencumbered registered nurse license as designated by the Board Of Nursing (BON) for clinical courses. It is imperative that any student whose license becomes encumbered by the BON must immediately notify the Associate Dean for the DNP Program. The complete policy regarding encumbered RN license is available online at: <http://www.uta.edu/nursing/MSN/unencumbered>

**Admission Policy for Individuals Ineligible to Continue Graduate Study at Another University: If potential students are ineligible to continue graduate study at another university and apply to The University of Texas at Arlington DNP Program, they will be reviewed by an Admissions Committee. The Admissions Committee will be composed of (at a minimum): 1) Two representative faculty, and 2) DNP Graduate Advisor. The Admissions Committee will make their recommendation for admission or denial based on the following: 1) Admission materials (GPA on the MSN or Post-Master's certificate, grade of B or higher on graduate statistics, current vita, written statement of career vision, and English language score if applicable); 2) a narrative statement from the potential student providing a rationale for their ineligibility at another university; and 3) a plan for successful study at UT Arlington. The Admissions Committee reserves the right to ask for additional materials as are needed. The Admissions Committee will make its recommendation of admission or denial to the Graduate Office for the University.**

## DNP Degree Requirements

A degree plan is developed for the student upon admission to the DNP Program. Students are required to have any changes in planned program approved by the DNP Graduate Advisor prior to registration. The DNP Program includes 33 semester hours of required courses and 3 semester hours of elective. Students will select 3 semester hours of electives with the guidance of the graduate advisor to support and/or extend their clinical practice. Students will complete a Scholarly Project and Clinical Practica.

### DNP Required Courses

NURS 6302, 6320, 6321, 6323, 6324, 6326, 6382, 6620, 6621

### Electives/Independent Study

- Elective courses may be taken in Nursing or other departments of the University.
- Independent study offers the student the opportunity to explore topics of special interest.

## PhD Program

The Philosophy of Science in nursing program is built on a foundation of prior nursing education and prepares the student for original research and theory development. The PhD in Nursing Program is designed to prepare nurse scientists to meet the health needs of a rapidly changing and culturally diverse society. The central focus of the PhD in Nursing Program is to prepare

researchers and teachers who understand how communities evolve, interact, change and how they prescribe, understand and sanction health, illness and health seeking behaviors.

The PhD in Nursing program offers two routes of entry: BSN-PhD or MSN-PhD. Potential students should refer to admission criteria below.

### PhD Admission and Degree Requirements

The applicant for the Doctor of Philosophy in Nursing (PhD) degree must meet the general requirements of the Graduate School and have a Bachelor's degree in Nursing (BSN-PhD entry) or a Master of Science in Nursing degree (MSN-PhD entry) from a program accredited by the National League for Nursing Accrediting Commission (NLNAC) or the Commission on Collegiate Nursing Education (CCNE) or proof of equivalent education at a foreign institution. Applicants must submit to the Office of Graduate Studies official transcripts from each college or university attended.

An applicant whose native language is not English must take the Test of Spoken English (TSE), the Test of English as a Foreign Language (TOEFL), or the International English Language Testing System (IELTS).

- Persons taking the TSE must make a minimum score of 40.
- Persons taking the TOEFL must make a minimum score of 550 on the paper-based test, 213 on the computer-based test, and meet the following criteria on the internet-based test: attain a minimum overall score of 79 and achieve the following minimum scores of subtests: writing: 22; speaking: 21; reading: 20; and listening: 16
- Persons taking the IELTS must make a minimum score of 7.0.

A foreign student wishing to be a graduate research assistant or a graduate teaching assistant will need to take the Test of Spoken English. For admission, the foreign student must also possess a current RN license in the state where the student is participating in clinical activities.

### PhD Admission Status Options

The College of Nursing admission criteria are detailed in the [PhD Program Requirements](#) table.

#### Unconditional Admission

Applicants must meet all criteria for unconditional admission

#### Probationary Admission

Criteria for probationary admission status are designated in the [PhD Program Requirements](#) table. When on probation, a student must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

#### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements.

#### Deferred Status

Deferred decision is granted when a file is incomplete or when a denied decision is not appropriate.

#### Denial of Admission

An applicant will be denied admission if he/she has less than satisfactory performance on a majority of admission criteria listed in the table below. The PhD Admissions Committee will make a recommendation for denial.

### The PhD Program in Nursing Admission Requirements

Admission Criteria	Unconditional	Probationary [1]
Bachelor's Degree in Nursing (BSN-PhD entry) or Master's Degree in Nursing (MSN-PhD entry) from a National League for Nursing Accrediting Commission (NLNAC) or American Association of Colleges of Nursing's Commission on Collegiate Nursing Education (CCNE) accredited College of Nursing or equivalent.	Evaluated by Associate Dean	Evaluated by Associate Dean
GPA on all bachelor's coursework (BSN-PhD) or on master's coursework (MSN-PhD).	3.0 GPA on a 4.0 scale as calculated by the Graduate School	3.0 GPA on a 4.0 scale as calculated by the Graduate School
GRE for BSN-PhD entry;  GRE waived for MSN-PhD entry	GRE with a total minimum score of: 500 or 153 on verbal; 500 or 144 on quantitative; 500/4 on analytical/analytical writing scores*	Verbal: 400-490 or 146-152;  Quantitative: 400-490 or 140-143;  Analytical Writing: 3.0-3.5;  Analytical: 400-490  (Based on GPA/GRE ratio)
For international students, TSE (Test of Spoken English) or TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System)	TSE: Score of 40 or higher or TOEFL: Minimum of 550 on paper-based test, 213 on computer-based test, or 79 on the internet-based test and achieve the following minimum scores of subtests: Writing, 22; Speaking, 21; Reading, 20; and Listening, 16.  IELTS minimum score of 7.0.	TSE: Score of 40 or higher or  TOEFL: Minimum of 550 on paper-based test, 213 on computer-based test, or 79 on the internet-based test and achieve the following minimum scores of subtests: Writing, 22; Speaking, 21; Reading, 20; and Listening, 16.  IELTS minimum score of 7.0.

\*A new goal statement and a new interview are required with every application.

[1] A student on probation must maintain a 3.0 GPA in the first two semesters of enrollment in the graduate program.

## PhD Degree Requirements

Students are required to have each semester's planned program approved by the Graduate Advisor prior to registration. A minimum of 54 semester hours is required for the degree: 30 hours of core courses, 12 hours of Research Tools, 3-9 hours of individualized area of study, and 9 hours of dissertation.

Students accepted into the BSN-to-PhD entry option may select a clinical focus, an administrative focus, or an educator focus for the master's level courses. Those in the clinical focus will take 32 credit hours at the master's level. Students in the administrative focus will take 27 hours at the master's level. Those in the educator focus will take 31 credit hours at the master's level. BSN-to-PhD Students will complete all PhD requirements.

### PhD Required Courses (Core)

NURS 6301 Theoretical Evolution in Science

NURS 6302 Issues in Studying Health of Culturally Diverse and Vulnerable Populations

NURS 6303 Culture of Science

NURS 6304 Measurement in Culturally Diverse and Vulnerable Populations

NURS 6305 Qualitative Research

NURS 6306 Research Design

NURS 6308 Research Seminar

NURS 6309 Scientific Products: Preparation & Dissemination

NURS 6310 Proposal Development Seminar

NURS 6321 Epidemiology

### Research Tools

12 hours that include 6 hours advanced statistics, 3 hour research practicum, and 3 hour research tool elective

### Individualized area of study

Minimum of 3 hours of individualized study will be planned in collaboration with the Graduate Advisor.

### Dissertation

NURS 6399 Dissertation Graded R/F  
NURS 6699 Dissertation Graded R/F/P  
NURS 6999 Dissertation Graded R/F/P  
NURS 7399 Dissertation Graded R/F/P

### **Electives / Independent Study**

Elective courses may be taken in an area of concentration in other departments.

6170, 6270, 6370, 6470. Independent Study in Nursing  
Graded P/R/F.

6190, 6290, 6390, 6490. Topics in Nursing

### **Diagnostic Evaluation**

Before the completion of the first 18 hours beyond appropriate master's level coursework to assess progress and potential for completion

### **Comprehensive Examination**

Exam scheduled after all coursework and research tools are completed. Guidelines for the comprehensive exam are available in the PhD Student Handbook.

### **Proposal Defense**

Dissertation Committee reviews the study proposal and meets with the student privately to approve or not approve the proposal.

### **Dissertation Defense**

Open meeting during which student presents study findings and responds to questions posed by the dissertation committee and other attendees. Successful defense of the dissertation is the final step toward completion of the doctoral degree.

## **BSN-to-PhD Master's Level Courses**

### **Core Master's Courses taken by all BSN-to-PhD students**

5301. Research in Nursing  
5327. Analysis of Theories for Nursing  
5328. Theory and Research Application in Nursing  
5370. Independent Study

### **Administration Specialty Master's Courses**

5311. Nursing Management in the Health Care Environment  
5339. Roles and Functions of the Nurse Administrator  
5341. Financial Management in Nursing  
5342. Management of Nursing Operations  
5343. Nursing Leadership and Complex Health Care Systems

### **Clinical Specialty Master's Courses**

5303. Psychiatric Management in Advanced Nursing Practice  
5305. Adult Management in Advanced Nursing Practice I OR  
5306. Pediatric Management in Advanced Nursing Practice  
5315. Advanced Pathophysiology for Nursing Practice  
5334. Advanced Pharmacology for Nurse Practitioners  
5418. Advanced Health Assessment in Nursing Practice  
5420. Adult Management in Advanced Nursing Practice II OR  
5442. Primary Care of Pediatric Nursing

## Educator Specialty Master's Courses

5302. Curriculum Development in Nursing  
5309. Teaching/Learning Theories Strategies and Evaluation  
5318. Advanced Pathophysiology for Nursing Practice  
5361. Special Topics in Clinical Practice  
5326. Advanced Health Assessment for Nursing Practice  
5319 Advanced Pharmacology for Nurse Educators

Below is a complete course listing of the MSN, DNP and PhD in Nursing programs. For any questions regarding grading, please see policies and procedures in the graduate section of the Catalog.

## NRST Courses

### NRST5393 – UNT NURSING TRANSFER ELECTIVE

0 Lecture Hours · 0 Lab Hours

### NRST5394 – UNT HEALTH ECONOMICS

0 Lecture Hours · 0 Lab Hours

### NRST5395 – UNT CAPSTONE CULMINATING PROJECT 1

0 Lecture Hours · 0 Lab Hours

### NRST5397 – UNT PROFESSIONAL REPORT CULMINATING PROJECT II

3 Lecture Hours · 0 Lab Hours

### NRST5698 – UNT THESIS

0 Lecture Hours · 0 Lab Hours

## NURS Courses

### NURS5170 – INDEPENDENT STUDY IN NURSING

1 Lecture Hour · 0 Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prereq: Permission of instructor. Graduate standing.

### NURS5190 – TOPICS IN NURSING

1 Lecture Hour · 0 Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### NURS5204 – NEONATAL NURSING I

2 Lecture Hours · 0 Lab Hours

Clinical management of the high-risk neonate with a focus on the perinatal and transition periods as well as stabilization of the ill newborn at birth. Includes fluid and electrolyte management, nutrition, and identification of the indications and complications associated with invasive skills and procedures relevant to the high-risk neonate. Prerequisite: NURS 5315

### **NURS5270 – INDEPENDENT STUDY IN NURSING**

2 Lecture Hours · 0 Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, P, R. Prereq: Permission of instructor. Graduate standing.

### **NURS5290 – TOPICS IN NURSING**

2 Lecture Hours · 0 Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS5301 – RESEARCH IN NURSING**

3 Lecture Hours · 0 Lab Hours

Exploration of the research process and critical examination of published studies with emphasis on critical appraisal, interpretation of statistical results, and evidence-based practice. Prerequisite: Graduate Standing.

### **NURS5302 – CURRICULUM DEVELOPMENT AND EVALUATION**

3 Lecture Hours · 0 Lab Hours

Explore the nature of nursing education. Focus on the curriculum process and its application to nursing education programs. Prerequisite: Graduate standing.

### **NURS5303 – PSYCHIATRIC MANAGEMENT IN ADVANCED NURSING PRACTICE**

2 Lecture Hours · 3 Lab Hours

Foundations of clinical management for commonly occurring psychiatric-mental health problems across the lifespan. Prerequisite: NURS 5334 and NURS 5418.

### **NURS5305 – ADULT MANAGEMENT IN ADVANCED NURSING PRACTICE**

2 Lecture Hours · 3 Lab Hours

Foundations of clinical management for commonly occurring conditions of adults in primary care. Prerequisite: NURS 5418, 5334.

### **NURS5306 – PEDIATRIC MANAGEMENT IN ADVANCED NURSING PRACTICE**

2 Lecture Hours · 3 Lab Hours

Foundations of advanced clinical practice in the primary care of children, birth to 21 years with a family centered approach on growth and development, health promotion and management of common health problems. Prerequisite: NURS 5418, 5334.

### **NURS5307 – NEONATAL NURSING FROM BIRTH THROUGH 2 YEARS OLD**

2 Lecture Hours · 3 Lab Hours

Focuses on an interdisciplinary approach to the assessment, management, and coordination of care of patients with commonly encountered health care problems experienced in the Neonatal Intensive Care Unit and after discharge through 2 years of age, along with their families. Prerequisite: NURS 5438.

### **NURS5308 – NURSING INFORMATICS**

3 Lecture Hours · 0 Lab Hours

Focus on application of computer technology that supports the dissemination of health care data, information and knowledge. Selected software packages/applications are presented and used. Prerequisite: Graduate standing.

### **NURS5309 – TEACHING / LEARNING THEORIES, STRATEGIES, AND EVALUATION**

**3** Lecture Hours · **0** Lab Hours

Teaching/learning theories, strategies, and evaluations for educators. Prerequisite: Graduate standing.

### **NURS5311 – NURSING MANAGEMENT IN THE HEALTH CARE ENVIRONMENT**

**3** Lecture Hours · **0** Lab Hours

Considers development of theories of leadership and organizational behavior as applied to the health care arena. Prerequisite: NURS 5327 or NURS 5301 or concurrent enrollment.

### **NURS5313 – CLINICAL PROCEDURES FOR ADVANCED PRACTICE NURSES**

**2** Lecture Hours · **3** Lab Hours

A theory and clinical procedures course designed for the Advanced Practice Nurse to acquire skills and procedures in the clinical management of selected patients. Prerequisite: NURS 5334 or Certificate program standing.

### **NURS5314 – INVASIVE PROCEDURES FOR ADVANCED PRACTICE NURSES**

**2** Lecture Hours · **3** Lab Hours

A theory and clinical procedures course designed for the Advanced Practice Nurse to acquire invasive skills and procedures in the clinical management of selected patients. Prerequisite: NURS 5334 or Certificate Program standing.

### **NURS5315 – ADVANCED PATHOPHYSIOLOGY**

**3** Lecture Hours · **0** Lab Hours

This course focuses on developing an advanced knowledge base of pathophysiology. Principles of biochemistry, molecular biology and nutrition are applied to disease processes. Prerequisite: Graduate Standing.

### **NURS5317 – ADVANCED PSYCHOPHARMACOLOGY**

**3** Lecture Hours · **0** Lab Hours

The study of psychopharmacology practice for advanced practice nurses. Prerequisite: APRN (Master's Degree in Nursing, National Certification).

### **NURS5318 – ADVANCED PATHOPHYSIOLOGY FOR NURSE EDUCATORS**

**3** Lecture Hours · **0** Lab Hours

This course focuses on developing an advanced knowledge base of pathophysiology. Principles of advanced physiology and pathophysiology and are applied to disease processes.

### **NURS5319 – ADVANCED PHARMACOLOGY FOR NURSE EDUCATORS**

**3** Lecture Hours · **0** Lab Hours

Study of clinical pharmacological therapeutics for nurse educators.

### **NURS5326 – ADVANCED ASSESSMENT FOR NURSE EDUCATORS**

**2** Lecture Hours · **1** Lab Hour

Apply theoretical foundations and clinical skills in comprehensive health assessment across the lifespan as applies to the nurse educator role.

### **NURS5327 – ANALYSIS OF THEORIES FOR NURSING**

**3 Lecture Hours · 0 Lab Hours**

Critical examination of philosophical and theoretical bases for nursing. Analysis of selected concepts and theories. Prerequisite: Graduate standing.

### **NURS5328 – THEORY AND RESEARCH APPLICATION IN NURSING**

**3 Lecture Hours · 0 Lab Hours**

Integration of theoretical and empirical elements of nursing research with emphasis on proposal development. Prerequisite: NURS 5327 and NURS 5301.

### **NURS5329 – ROLE OF THE NURSE EDUCATOR**

**3 Lecture Hours · 0 Lab Hours**

Investigation of the roles and functions of the nurse educator. Prerequisite: NURS 5301 and NURS 5327.

### **NURS5331 – ADVANCED CLINICAL NURSING PRACTICUM**

**12 Lecture Hours · 0 Lab Hours**

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills, and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4 Prerequisite: NURS 5425 or 5431 or 5436 or 5444 or 5539 or 5546 or 5453 or 5450. Good academic standing (GPA minimum 3.0). Graded F, R, P, W.

### **NURS5332 – ADVANCED CLINICAL NURSING PRACTICUM**

**12 Lecture Hours · 0 Lab Hours**

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills, and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1 to 4. Prerequisites: NURS 5425 or NURS 5431 or NURS 5434 or NURS 5436 or NURS 5444 or NURS 5539 or NURS 5546 or NURS 5453 or 5450. GPA 3.0 and Certificate Program standing. Graded F,R,P,W

### **NURS5334 – ADVANCED PHARMACOLOGY FOR NURSE PRACTITIONERS**

**3 Lecture Hours · 0 Lab Hours**

Study of clinical pharmacological therapeutics for advanced nursing practice. Prerequisite: NURS 5315.

### **NURS5339 – ROLES AND FUNCTIONS OF THE NURSE ADMINISTRATOR**

**1 Lecture Hour · 6 Lab Hours**

Examine and implement administrative and managerial roles in health care organizations. Prerequisite: NURS 5311; NURS 5328 or concurrent enrollment.

### **NURS5340 – MANAGEMENT SEMINAR AND PRACTICE**

**1 Lecture Hour · 6 Lab Hours**

Synthesize management, organizational, and leadership concepts and theories in selected health care settings. Prerequisite: NURS 5339 and 5342.

### **NURS5341 – FINANCIAL MANAGEMENT IN NURSING**

**2 Lecture Hours · 3 Lab Hours**

Analyze and apply financial management concepts to financial planning, budgeting, and reimbursement systems in health care. Prerequisite: NURS 5311 or MANA 5312; NURS 5301 or concurrent enrollment.

### **NURS5342 – MANAGEMENT OF NURSING OPERATIONS**

**2 Lecture Hours · 3 Lab Hours**

Examine effective strategic planning for health care systems. Prerequisite: NURS 5341.

## **NURS5343 – NURSING LEADERSHIP AND COMPLEX HEALTH CARE SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Analyze leadership strategies in current and predicted health care systems including dimensions of workforce and workplace issues, leadership, and evidenced-based decision-making. Prerequisite: NURS 5327; NURS 5311 or MANA 5312 or concurrent enrollment.

## **NURS5347 – ADVANCED PRACTICE NURSING WOMEN'S HEALTH**

**3** Lecture Hours · **0** Lab Hours

Addresses concepts of health care of female patients throughout the life span. Explores the physiology of the reproductive continuum, including childbearing and clinical management approaches specific to the health care of women. Prerequisites: NURS 5418 or NURS 5316 or permission of instructor.

## **NURS5348 – NURSING CARE AT THE END OF LIFE**

**3** Lecture Hours · **0** Lab Hours

Addresses concepts of palliative care of patients with life limiting disease and their families. Explores the physiology of end stage disease processes, clinical approaches to pain and symptom management, societal issues and trends in end of life care, models of care delivery and the impact of personal values and beliefs about death. Prerequisite: Graduate Standing.

## **NURS5350 – ROLE OF THE NURSE IN ADVANCED PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Theory and application of the multiple roles of the advanced practice nurse within the health care system. Prerequisite: Graduate Standing.

## **NURS5360 – SIMULATION APPLICATION IN NURSING**

**2** Lecture Hours · **3** Lab Hours

Application of simulation in healthcare. Prerequisite: Graduate Standing.

## **NURS5361 – SPECIAL TOPICS IN CLINICAL PRACTICE**

**2** Lecture Hours · **3** Lab Hours

Advanced clinical practice with selected targeted patient populations. Prerequisite: NURS 5318, NURS 5319, NURS 5326.

## **NURS5362 – TEACHING PRACTICUM**

**0** Lecture Hours · **12** Lab Hours

The ratio of credit to clinical hours is 1:4. Nursing education preceptorship in selected health care sites with opportunities to apply clinical and educational knowledge, skills, and concepts in a guided, progressive context of nursing education. Prerequisite: NURS 5308 and NURS 5361; NURS 5329 or concurrent enrollment. Good academic standing (GPA 3.0). Graded: F,R,P,W.

## **NURS5370 – INDEPENDENT STUDY IN NURSING**

**3** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F,R,P,W. Permission of instructor. Graduate standing.

## **NURS5380 – INDEPENDENT STUDY IN RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Detailed study and participation in a faculty sponsored research project. Topic and mode of study are agreed upon by the student and instructor prior to registration. Permission of instructor. Graded F,R,P,W.

### **NURS5382 – NURSING AND HEALTH CARE POLICY: ISSUES AND ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Analyze historical, current, and predicted global, national, state, and local health care policy processes. Prerequisite: NURS 5327 or NURS 5301.

### **NURS5390 – TOPICS IN NURSING**

**3** Lecture Hours · **0** Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS5393 – ADVANCED CLINICAL NURSING PRACTICE I**

**1** Lecture Hour · **6** Lab Hours

Development of advanced knowledge base of specialized clinical concepts and the application of this knowledge in selected clinical areas. Prerequisite: Graduate standing.

### **NURS5394 – ADVANCED CLINICAL NURSING PRACTICE II**

**1** Lecture Hour · **6** Lab Hours

Expanded background in a selected clinical area with emphasis on analysis and synthesis of clinical data, clinical judgment, and management of patients and families' care. Prerequisite: NURS 5393.

### **NURS5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

Graded F,R.

### **NURS5418 – ADVANCED HEALTH ASSESSMENT AND DIAGNOSTIC REASONING**

**2** Lecture Hours · **6** Lab Hours

Apply theoretical foundations and clinical skills in comprehensive health assessment across the lifespan. Prerequisite: NURS 5301 and NURS 5334 or concurrent enrollment. These items must be cleared with the Clinical Coordinator: Unencumbered Texas RN License; Current CPR (Cardiopulmonary Resuscitation) card; Current PALS (Pediatric Advanced Life Support) card (Acute Care Pediatric only); Current immunizations.

### **NURS5424 – PSYCHIATRIC-MENTAL HEALTH NURSING I**

**2** Lecture Hours · **6** Lab Hours

Advanced clinical management of individuals, families, and groups at risk for and experiencing acute and chronic psychiatric disorders. Prerequisite: NURS 5303; NURS 5305 or concurrent enrollment, or Certificate Program standing.

### **NURS5425 – PSYCHIATRIC-MENTAL HEALTH NURSING II**

**2** Lecture Hours · **6** Lab Hours

Advanced clinical management of individuals, families, and groups at risk for and experiencing complex psychiatric disorders. Prerequisite: NURS 5328 and NURS 5424; NURS 5306 or concurrent enrollment.

### **NURS5430 – FAMILY NURSING I**

**2** Lecture Hours · **6** Lab Hours

Focus on advanced knowledge of acute, chronic, and complex health problems in the primary care management of individuals across the lifespan. Prerequisite: NURS 5305 and 5306; 5313 or concurrent enrollment or Certificate Program standing.

### **NURS5431 – FAMILY NURSING II**

**2 Lecture Hours · 6 Lab Hours**

Focus on advanced knowledge in the management of patients and families throughout the lifespan. Prerequisite: NURS 5328 and 5430; 5303 or concurrent enrollment.

### **NURS5433 – EMERGENCY NURSE PRACTITIONER ACROSS THE LIFESPAN I**

**2 Lecture Hours · 6 Lab Hours**

Advanced clinical management of individuals across the lifespan with episodic and urgent health care needs. Prerequisite: NURS 5305 and 5306; 5314 or concurrent enrollment.

### **NURS5434 – EMERGENCY NURSE PRACTITIONER ACROSS THE LIFESPAN II**

**2 Lecture Hours · 6 Lab Hours**

Advanced clinical management of individuals across the lifespan with emergent health care needs requiring resuscitative measures for potentially life threatening alterations. Prerequisite: NURS 5328 and 5433; 5303 or concurrent enrollment.

### **NURS5435 – ACUTE CARE NURSING I**

**2 Lecture Hours · 6 Lab Hours**

Focuses on advanced knowledge of medical-surgical nursing in managing adults with secondary and tertiary health care needs. Prerequisite: NURS 5305; 5314 or concurrent enrollment or Certificate Program standing.

### **NURS5436 – ACUTE CARE NURSING II**

**2 Lecture Hours · 6 Lab Hours**

Focuses on an interdisciplinary approach to the management and coordination of secondary and tertiary care for adults with complex multisystem dysfunction. Prerequisite: NURS 5328, 5435; 5303 or concurrent enrollment.

### **NURS5438 – PERINATAL/NEONATAL NURSING OF HIGH-RISK MATERNAL/FETAL DYAD**

**2 Lecture Hours · 6 Lab Hours**

Focuses on advanced knowledge of perinatal/neonatal nursing in the high-risk pregnancy and neonate with secondary and tertiary health care needs along with their families. Prerequisite: NURS 5314, 5418 or permission of instructor or Certificate Program standing.

### **NURS5441 – ACUTE CARE PEDIATRIC NURSING**

**2 Lecture Hours · 6 Lab Hours**

Focus is on advanced, interdisciplinary practice to assess, diagnose, and manage acute and critical, single and multi-system health problems of children birth to 21 years in secondary and tertiary care settings. Prerequisite: NURS 5306; 5314, 5442 or concurrent enrollment; or Certificate Program standing.

### **NURS5442 – PRIMARY CARE PEDIATRIC NURSING**

**2 Lecture Hours · 6 Lab Hours**

Focus is on integration of acquired theoretical and empirical knowledge in the assessment, diagnosis, and management of multiple common acute and stable chronic health problems in children birth to 21 years. Prerequisite: NURS 5306; 5313 or 5314 or concurrent enrollment; or Certificate Program standing.

### **NURS5444 – ADVANCED NURSING CARE OF PEDIATRIC PATIENTS WITH COMPLEX PROBLEMS**

**2 Lecture Hours · 6 Lab Hours**

Clinical management of complex health problems of pediatric patients birth to 21 years within the family system. Prerequisite: NURS 5328; NURS 5441 or NURS 5442 or NURS 5539; and NURS 5303 or

concurrent enrollment; or Certificate Program standing.

### **NURS5446 – NEONATAL NURSING II**

**4** Lecture Hours · **0** Lab Hours

Clinical management of the high-risk neonate using evidence based-knowledge, research, pharmacological, and technological therapies. Focus on the following systems: pulmonary, cardiovascular, gastrointestinal, hepatic, renal, and neurologic. Prerequisite: NURS 5204

### **NURS5447 – NEONATAL NURSING III**

**4** Lecture Hours · **0** Lab Hours

Clinical management of the high-risk neonate using evidence based knowledge, research, pharmacological, and technological therapies. Focus on the following systems: hematologic, skeletal, integumentary, immunologic, and metabolic/endocrine. Includes clinical management of complex health problems affecting infants (birth to 2 years of age) and their families including chronic care and ethical issues. Prerequisite: NURS 5446

### **NURS5450 – NEONATAL NP CLINICAL PRACTICE**

**0** Lecture Hours · **16** Lab Hours

Integration of clinical management of the high-risk neonate through clinical preceptorships in selected health practice sites with application of knowledge, skills and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5334 and NURS 5316 and NURS 5204.

### **NURS5451 – ADULT/GERONTOLOGY PRIMARY CARE NURSING I**

**2** Lecture Hours · **6** Lab Hours

Focus on advanced knowledge of chronic and complex health problems in the primary care management including age groups from adolescence through old age. Prerequisite: NURS 5305

### **NURS5453 – ADULT/GERONTOLOGY NURSING III**

**1** Lecture Hour · **9** Lab Hours

Continued focus on advanced knowledge and clinical practice in the management of adults of all ages, their families, and their communities. Prerequisite: NURS 5552

### **NURS5470 – INDEPENDENT STUDY IN NURSING**

**4** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Prereq: Permission of instructor. Graded F,R,P,W.

### **NURS5525 – PSYCHIATRIC-MENTAL HEALTH NURSING**

**3** Lecture Hours · **6** Lab Hours

Focus on diagnosis and pharmacological and nonpharmacological management of individuals, families and groups experiencing mental illnesses and addictions. Prerequisite: NURS 5424, 5328 or concurrent enrollment.

### **NURS5532 – FAMILY NURSING II**

**3** Lecture Hours · **6** Lab Hours

A continuation of NURS 5431 with progressive analysis and clinical nursing judgment and management of families in health and illness. Prerequisite: NURS 5431, 5328 or concurrent enrollment.

### **NURS5536 – ACUTE CARE NURSING II**

**3** Lecture Hours · **6** Lab Hours

Focuses on an interdisciplinary approach to the management and coordination of secondary and tertiary care for adults with complex multisystem dysfunction. Prerequisite: NURS 5435, 5328 or concurrent enrollment.

### **NURS5537 – NEONATAL NURSING II**

**5** Lecture Hours · **0** Lab Hours

Clinical management of the high-risk neonate using evidence based-knowledge, research, pharmacological, and technological therapies. Focus on the following systems: pulmonary, cardiovascular, gastrointestinal, hepatic, renal, and neurologic. Prerequisite: NURS 5204

### **NURS5539 – NEONATAL NURSING**

**3** Lecture Hours · **6** Lab Hours

Focuses on an interdisciplinary approach to the assessment, management, and coordination of secondary and tertiary care of neonates with complex multi-system dysfunction, along with their families. Prerequisite: NURS 5438.

### **NURS5546 – ADULT AND GERONTOLOGICAL NURSING**

**3** Lecture Hours · **6** Lab Hours

Focus on advanced knowledge in the management of adults (age 12 and older), their families, and their communities with emphasis on special problems of adolescents, women, and elders in a variety of settings. Prerequisite: NURS 5328, 5420; and NURS 5303 or concurrent enrollment.

### **NURS5552 – ADULT/GERONTOLOGY NURSING II**

**2** Lecture Hours · **9** Lab Hours

Focus on advanced knowledge in the management of adults (age 12 and older), their families, and their communities with emphasis on special problems of the adolescent, women, and elders in a variety of settings. Prerequisite: NURS 5451

### **NURS5631 – ADVANCED CLINICAL NURSING PRACTICUM**

**24** Lecture Hours · **0** Lab Hours

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5425 or 5431 or 5436 or 5444 or 5539 or 5546 or 5453 or 5450. Good academic standing (GPA 3.0). Graded F,R,P,W.

### **NURS5632 – ADVANCED CLINICAL NURSING PRACTICUM - CERT**

**24** Lecture Hours · **0** Lab Hours

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills, and concepts in a guided, progressive context of advanced nursing practice. The ratio of credit to clinical hours is 1:4. Prerequisite: NURS 5425 or 5431 or 5434 or 5436 or 5539 or 5444 or 5546 or 5453 or 5450. Good academic standing and Certificate Program standing (3.0 GPA) Graded: F,R,P,W

### **NURS5670 – INDEPENDENT STUDY IN NURSING**

**6** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Prereq: Permission of instructor. Graded F,R,P,W.

### **NURS5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

Graded F, R, P.

### **NURS6170 – INDEPENDENT STUDY IN NURSING**

1 Lecture Hour · 0 Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F,R, P.

### **NURS6190 – SPECIAL TOPICS IN NURSING**

1 Lecture Hour · 0 Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS6270 – INDEPENDENT STUDY IN NURSING**

2 Lecture Hours · 0 Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

### **NURS6290 – TOPICS IN NURSING**

2 Lecture Hours · 0 Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS6301 – THEORETICAL EVOLUTION IN SCIENCE**

3 Lecture Hours · 0 Lab Hours

Philosophies of science and epistemologies, their influence on knowledge development for nursing practice, and strategies for theory development and analysis. Prerequisite: Graduate standing.

### **NURS6302 – ISSUES IN STUDYING THE HEALTH OF CULTURALLY DIVERSE AND VULNERABLE POPULATIONS**

3 Lecture Hours · 0 Lab Hours

Social and cultural factors affecting health among sub-populations defined by age, education, gender, ethnicity, culture, religion, occupation, vulnerability, income and geography. Prerequisite: Graduate standing. DNP or PhD program.

### **NURS6303 – CULTURE OF SCIENCE**

3 Lecture Hours · 0 Lab Hours

Professional, financial, socio-political, ethical and legal issues associated with the conduct of research and the relationships between research and health policy development and implementation. Prerequisite: Graduate standing.

### **NURS6304 – MEASUREMENT IN CULTURALLY DIVERSE AND VULNERABLE POPULATIONS**

3 Lecture Hours · 0 Lab Hours

Evaluate measurement tools/instruments for studying culturally diverse and vulnerable populations. Prerequisite: NURS 6301, Theoretical Evolution in Science, or permission of instructor. Course is predicated on prior learning related to concept analysis, basic statistics including correlation.

### **NURS6305 – QUALITATIVE RESEARCH**

3 Lecture Hours · 0 Lab Hours

Philosophical foundation for and methodological issues in using qualitative approaches for scientific and knowledge development. Prerequisite: Graduate standing.

### **NURS6306 – RESEARCH DESIGN**

3 Lecture Hours · 0 Lab Hours

Application of advanced nursing research methods to design studies that improve health outcomes in culturally diverse populations. Prerequisites: NURS 6303 and NURS 6304 or permission of instructor.

### **NURS6308 – RESEARCH SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Implements the research process with faculty guidance. Learning activities based on student and faculty interest. May be repeated to meet student learning needs. Prerequisite: Recommendation of the advisor; permission of the instructor.

### **NURS6309 – SCIENTIFIC PRODUCTS: PREPARATION DISSEMINATION (DELIVERY)**

**3** Lecture Hours · **0** Lab Hours

Provides experiences in the development of scientific products for dissemination. Prerequisite: Graduate standing.

### **NURS6310 – PROPOSAL DEVELOPMENT SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Development and critique of doctoral dissertation proposal. May be repeated. Prerequisite: Successful completion of diagnostic evaluation, NURS 6308 (Research Seminar).

### **NURS6318 – PARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Advanced knowledge and skills to use biostatistics effectively in different research designs and data analyses. Use of a statistical software package to manipulate datasets and perform statistical analyses. Emphasis will be placed on parametric statistical methods for complex research questions and designs. Prerequisite of a graduate-level introductory statistics course.

### **NURS6319 – PSYCHOMETRIC AND NONPARAMETRIC STATISTICS FOR HEALTHCARE RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Basic knowledge and skills to select the appropriate biostatistical analysis for different research designs, analyze data, interpret statistical results, and understand research articles in professional journals. Emphasis will be placed on reliability and validity of instruments commonly used in healthcare; outcome measurement in health care; common research designs in health care research; nonparametric statistics for dependent samples and independent samples; logistic regression; and survival analysis. Prerequisite: Graduate-level introductory statistics course.

### **NURS6320 – LEADERSHIP IN HEALTH CARE SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Focuses on leadership and organizational theories and financial principles to promote quality improvement initiatives in a selected practice. DNP or PhD Program.

### **NURS6321 – EPIDEMIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Principles of epidemiology: Introduces the basic principles and biostatistical methods of epidemiology and demonstrates their applicability to population health. Prerequisite: Doctoral standing. PhD or DNP Program.

### **NURS6323 – PRACTICE SCHOLARSHIP**

**3** Lecture Hours · **0** Lab Hours

Focuses on clinical scholarship and analytical methods for evidence-based practice. Prerequisite: NURS 6320 or concurrent enrollment.

### **NURS6324 – CLINICAL INFORMATION SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Focuses on the selection and use of information systems/technology to provide health care and to evaluate patient care programs, outcomes, and systems. Prerequisite: Doctoral standing. DNP or PhD Program.

### **NURS6325 – ADVANCED PRACTICE NURSING FOR SELECTED POPULATIONS**

**3** Lecture Hours · **0** Lab Hours

Apply advanced concepts in pathophysiology and technology in managing selected patient populations. Prerequisite: DNP Program.

### **NURS6326 – PRACTICE SCHOLARSHIP**

**3** Lecture Hours · **0** Lab Hours

Seminar to develop a practice scholarship project. Prerequisite: NURS 6323.

### **NURS6370 – INDEPENDENT STUDY IN NURSING**

**3** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

### **NURS6382 – HEALTH CARE POLICY**

**3** Lecture Hours · **0** Lab Hours

Analyze historical, current, and predicted global, national, state, and local health care policy processes. Prerequisite: Doctoral standing.

### **NURS6390 – TOPICS IN NURSING**

**3** Lecture Hours · **0** Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS6399 – DISSERTATION**

**3** Lecture Hours · **0** Lab Hours

Graded F, R. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.

### **NURS6470 – INDEPENDENT STUDY IN NURSING**

**4** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary. Graded F, R, P.

### **NURS6490 – TOPICS IN NURSING**

**4** Lecture Hours · **0** Lab Hours

Selected topics in advanced nursing. May be repeated for credit as topics change.

### **NURS6620 – DNP PRACTICUM I**

**18** Lecture Hours · **0** Lab Hours

270 Clinical Hours. Emphasis on the development of advance practice expertise in the management of health problems in selected populations. Prereq: NURS 6326 or concurrent enrollment. Good academic standing (GPA 3.0). Grade: F,R,P,W.

## **NURS6621 – DNP PRACTICUM II**

**18** Lecture Hours · **0** Lab Hours

270 Clinical Hours - Emphasis on the development of advance clinical practice expertise in the management of health problems in selected populations. Preq: NURS 6620 and DNP status.

## **NURS6699 – DISSERTATION**

**6** Lecture Hours · **0** Lab Hours

Graded F, R, P, W. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.

## **NURS6999 – DISSERTATION**

**9** Lecture Hours · **0** Lab Hours

Graded F, R, P. Prerequisite: Admission to candidacy for the Doctor in Nursing degree.

## **NURS7399 – DOCTORAL DEGREE COMPLETION**

**3** Lecture Hours · **0** Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## **NURS-IS Courses**

### **NURS-IS5370 – INDEPENDENT STUDY IN NURSING**

**8** Lecture Hours · **0** Lab Hours

Detailed in-depth study in a specific topic area. Topic and mode of study are agreed upon by student(s) and instructor prior to registration. May be repeated for credit when topics vary.

## Department Information

#### Objective

#### Admission

- [Master of Science](#)
- [Doctor of Philosophy](#)
- [B.S. - Ph.D. Track Students](#)
- [Ph.D. Students](#)

#### Degree Requirements

- [Master of Science](#)
- [Doctor of Philosophy](#)

#### Objective

The program leading to the degree of Master of Science in biology is designed to provide graduate education that will prepare students for vocations in industry, government, and teaching, and to pursue further graduate education leading to the doctorate. The doctoral program is designed to train students to apply sophisticated quantitative techniques to solving basic and applied problems in biology. Students in this program will attain substantially greater quantitative skills than in traditional doctoral programs in the biological sciences, providing them with a competitive advantage in business, industry, government, and academia.

## Admission

The following are minimal requirements for entrance into the graduate program in Biology. However, satisfying or exceeding these requirements does not guarantee admission to the program. Admission to the program is determined solely by the Biology Graduate Studies Committee and the Graduate School and is based on an evaluation of all pertinent aspects of an applicant's record.

### Master of Science

Admission status in the Master of Science program is determined as follows:

#### Unconditional Admission

Decisions are based on consideration of all the information listed below and are not based on any single criterion alone.

1. A Bachelor's degree in Biology or a Bachelor's degree in some other discipline with at least 12 hours of advanced level coursework (junior or senior level courses) in Biology.
2. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School. Applicants overall GPA in the Sciences and within Biology are also considered.
3. A satisfactory score on the Verbal and Quantitative sections of the Graduate Record Exam. Successful students tend to have a minimum combined total score of 1000 on the Verbal and Quantitative sections, with strong performance on the Quantitative section of the GRE exam.
4. Favorable letters of recommendation from at least three individuals able to assess the applicant's potential for success in graduate school.
5. Evidence of previous research experience may also be considered.
6. International students whose native language is not English must provide a score on the Test of Spoken English (TSE) of at least 45, a minimum score of 23 on the Speaking portion of the TOEFL iBT exam or a minimum score of 7 on the Speaking portion of the IELTS exam.

#### Denial of Admission

A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria listed above.

#### Probationary Admission

If an applicant does not meet a majority of standards for unconditional admission outlined above, he or she may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in his/her first 12 hours of graduate coursework at UT Arlington.

#### Deferred and Provisional Admission

A deferred application decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

## **Fellowships and Scholarships**

Students that are unconditionally admitted will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

## **Doctor of Philosophy**

Students interested in pursuing the Ph.D. in the Biology Department may apply for the B.S. - Ph.D. Track or the doctoral program directly depending on their background. The B.S. - Ph.D. Track is the point of entry into doctoral studies for students with a Bachelor's degree in Biology, but without 30 hours of graduate level coursework in Biology or a master's degree in Biology. Students who have already accomplished these goals may apply directly for the doctoral program as Ph.D. students. Degree requirements are the same for both groups (see below).

## **B.S. - Ph.D. Track Students**

Admission status in the B.S. - Ph.D. Track program is determined as follows:

### **Unconditional Admission**

Decisions are based on consideration of all the information listed below and are not based on any single criterion alone.

1. A Bachelor's degree in Biology or a Bachelor's degree in some other discipline with at least 12 hours of advanced level coursework (junior or senior level courses) in Biology.
2. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School. Applicants overall GPA in the Sciences and within Biology are also considered.
3. A satisfactory score on the Verbal and Quantitative sections of the Graduate Record Exam. Successful students tend to have a minimum combined total score of 1100 on the Verbal and Quantitative sections, with strong performance on the Quantitative section of the GRE exam.
4. Favorable letters of recommendation from at least three individuals able to assess the applicant's potential for success in graduate school.
5. Evidence of previous research experience may also be considered.
6. International students whose native language is not English must provide a score on the Test of Spoken English (TSE) of at least 45, a minimum score of 23 on the Speaking portion of the TOEFL iBT exam or a minimum score of 7 on the Speaking portion of the IELTS exam.

### **Denial of Admission**

A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria listed above.

### **Probationary Admission**

If an applicant does not meet a majority of standards for unconditional admission outlined above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in their first 12 hours of graduate coursework at UT Arlington.

### **Deferred and Provisional Admission**

A deferred application decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the

admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### **Fellowships and Scholarships**

Students that are unconditionally admitted will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

### **Ph.D. Students**

Admission status in the doctoral program is determined as follows:

#### **Unconditional Admission**

Decisions are based on consideration of all the information listed below and are not based on any single criterion alone.

1. A master's degree in Biology or at least 30 hours of graduate level coursework in Biology.
2. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School. If an Applicant has a Master's degree, the GPA from their Bachelor's degree, as calculated by the Graduate School, will also be considered. If they have 30 hours of graduate coursework but no degree, the GPA from that 30 hours, as calculated by the Graduate School, will also be considered.
3. A satisfactory score on the Verbal and Quantitative sections of the Graduate Record Exam. Successful students tend to have a minimum combined total score of 1100 on the Verbal and Quantitative sections, with strong performance on the Quantitative section of the GRE exam.
4. Favorable letters of recommendation from at least three individuals able to assess the applicant's potential for success in a doctoral program in quantitative biology.
5. Evidence of previous research experience including publications resulting from previous graduate work may also be considered.
6. International students whose native language is not English must provide a score on the Test of Spoken English (TSE) of at least 45, a minimum score of 23 on the Speaking portion of the TOEFL iBT exam, or a minimum score of 7 on the Speaking portion of the IELTS exam.

#### **Denial of Admission**

A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria listed above.

#### **Probationary Admission**

The Department of Biology does not as a matter of course admit doctoral students on a probationary basis. Under exceptional circumstances, an applicant that does not meet the standards for unconditional admission outlined above, may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in their first 12 hours of graduate coursework at UT Arlington.

#### **Deferred and Provisional Admission**

A deferred application decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

## Fellowships and Scholarships

Students that have no provisional admission conditions to meet will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

## Degree Requirements

Supporting work outside the student's major area may be taken in botany, chemistry, earth & environmental sciences, mathematics, microbiology, physics, and zoology. Approved courses in city and regional planning, civil engineering, environmental science and engineering, philosophy, psychology, and sociology may also be taken in support of the student's program. Subject to written approval by the Graduate Advisor and within the limitations stated in the General Graduate School Regulations, a student may take up to nine hours of coursework from among courses listed under Biology at the 3000 or 4000 levels.

## Master of Science

Non-thesis and thesis options are offered. The non-thesis option is designed to meet the needs of practicing teachers or those intending to enter the teaching profession. Students enrolled in the non-thesis option are required to complete 36 hours, including 24 hours of formal coursework in biology plus two hours of 5101, 5391, and sufficient additional hours to complete course requirements. Students enrolled in the thesis option are required to complete 30 hours, including 18 hours of formal coursework (of which BIOL 5314 is required), two hours of 5101, 5698, and sufficient additional hours to complete degree requirements.

## Doctor of Philosophy

The degree of Doctor of Philosophy in Quantitative Biology requires distinguished attainment both in scholarship and in research. In addition to meeting the minimum requirements of a planned course of study, the ultimate basis for conferring the degree must be the demonstrated ability to do independent and creative work and the exhibition of a profound grasp of the subject matter within the field.

**Mathematics:** Students will be expected to have (or complete during their first year of residence) a strong quantitative background including a formal course in differential and integral calculus (i.e., Calculus I).

**General Course Requirements:** A total of 60 credit hours should normally be completed including 24 hours of required and elective courses, and 36 hours of research courses. All students in the program are required to take BIOL 5314 (Biometry), Professional Development (BIOL 5102) and two seminar courses (2 x BIOL 5101) as part of their required courses.

**Other requirements:** Each student will make three research presentations that are open to the entire department. These may include the proposal defense, a research progress report, and the dissertation defense.

**Biology Tracks:** Students should follow one of the Biology Tracks described below: Ecology and Evolution, Genome Biology, or Microbiology and Molecular Biology.

**Track Specific Quantitative Requirements:**

**Ecology and Evolution:** Students in this track are required to take Advanced Biometry (BIOL 5361) and Experimental Design (BIOL 5362). They will also be expected to have (or complete during their first year of residence) an additional calculus course (i.e., Calculus II).

**Genome Biology:** Students in this track are required to take one of the following courses in quantitative biology: Bioinformatics (BIOL 5340), Genetics Methods Lab (BIOL 5420), Molecular

Evolution (BIOL 5336), or Population Genetics (BIOL 5364).

Microbiology and Molecular Biology: Students in this track are required to take one of the following courses in quantitative biology: Bioinformatics (BIOL 5340), Biological Modeling (BIOL 5333), or Methods in Molecular Microbiology (BIOL 5421).

Track Specific Additional Courses:

Ecology and Evolution: Students in this track are required to take 6 credit hours from among the following courses: Amphibian Biology (BIOL 5344), Behavioral Ecology (BIOL 5337), Biogeography (BIOL 5320), Biological Modeling (BIOL 5333), Community Ecology (BIOL 5315), Conservation Biology (BIOL 5350), Environmental Microbiology (BIOL 5351), Evolution (BIOL 5311), Landscape Ecology (BIOL 5328), Limnology (BIOL 5354), Marine Biology (BIOL 5357), Plant Ecology (BIOL 5325), Reptile Biology (BIOL 5310), Theoretical Systematics (BIOL 5367), Wetlands Ecology (BIOL 5326), or as advised by their supervisory committee.

Genome Biology: Students in this track are required to take 9 credit hours from among the following courses: Advanced Genetics (5312), Advanced Molecular Biology (5331), Developmental Biology (5330), Essentials of Genomics (5335), Evolution (5311), Evolution of Development (5313), Genome Structure and Dynamics (5308), Human Genetics (5319), Mechanisms and Regulation of Mobile DNA (5334), and Mobile DNA and Genome Evolution (5339), or as advised by their supervisory committee.

Microbiology and Molecular Biology: Students in this track are required to take 9 credit hours from among the following courses including: Advanced Molecular Biology (BIOL 5330), Environmental Microbiology (5351), Immunology (BIOL 5309), Microbial Genetics (BIOL 5302), Microbial Physiology (BIOL 5445), and Virology (BIOL 5304), or as advised by their supervisory committee.

Additional Courses: Students in the program are required to take 6 hours of additional courses as advised by their supervisory committee.

Research hours: Finally, 36 hours of research, including 9 hours of dissertation in the final semester (BIOL 6999), are required from among the following courses: BIOL 5101, 5200, 5291, 5391, 5193-5693, 5398, 5698, or 5998, or BIOL 6191, 6291, 6391, 6491, 6591, or 6691 (these courses can be repeated for credit).

## BIOL Courses

### BIOL5101 – SPECIAL TOPICS IN BIOLOGY

1 Lecture Hour · 0 Lab Hours

Seminar on significant biological research. May be repeated for credit. Prerequisite: consent of the instructor.

### BIOL5102 – PROFESSIONAL DEVELOPMENT

1 Lecture Hour · 0 Lab Hours

This course will provide senior graduate students with important information regarding various aspects of their professional development including job searching, interviewing, stress and time management, and professional ethics.

### BIOL5193 – RESEARCH IN BIOLOGY

1 Lecture Hour · 0 Lab Hours

Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

### BIOL5291 – INDIVIDUAL PROBLEMS IN BIOLOGY

**2 Lecture Hours · 0 Lab Hours**

Individual research projects supervised by a faculty member. Prerequisite: consent of the instructor.

### **BIOL5293 – RESEARCH**

**2 Lecture Hours · 0 Lab Hours**

### **BIOL5301 – LABORATORY ROTATION**

**6 Lecture Hours · 0 Lab Hours**

This course is an elective designed to enable students to choose a major advisor and laboratory. Rotations among two or three faculty laboratories will familiarize students with faculty research interests, sharpen individual research skills, and expose students to different study systems, instruments, and research methods. May only be taken once for credit by MS students; may be repeated for credit once by Ph.D. students.

### **BIOL5302 – MICROBIAL GENETICS**

**3 Lecture Hours · 0 Lab Hours**

Consideration of the nature, expression and regulation of the genetic processes in micro-organisms. Prerequisites: BIOL 2451 and 3315 or consent of the instructor.

### **BIOL5304 – VIROLOGY**

**3 Lecture Hours · 0 Lab Hours**

The nature, reproduction and host-cell interactions of viruses and animals. Emphasizes molecular aspects of viral replication and the molecular basis of pathogenesis. Prerequisite: consent of the instructor.

### **BIOL5306 – SCIENTIFIC WRITING**

**3 Lecture Hours · 0 Lab Hours**

Discussion and critique of student's writing in peer response workshop groups. This course offers the opportunity for students to learn how to identify and fix problems in scientific texts. In order to enroll in this course, students must be actively writing a paper, proposal, poster, dissertation, or any other scientific text. Instructor's permission to enroll in the course is required.

### **BIOL5308 – GENOME STRUCTURE AND DYNAMICS**

**3 Lecture Hours · 0 Lab Hours**

This course will describe how genes and genomes are organized in a variety of species from all kingdoms of life and will provide a detailed overview of the molecular mechanisms underlying the function and evolution of genomes. Particular emphasis will be given to the human genome project and its biomedical implications. Prerequisite: BIOL 3315.

### **BIOL5309 – IMMUNOBIOLOGY**

**3 Lecture Hours · 0 Lab Hours**

This course is designed to acquaint students with the cellular processes involved in the generation of an immune response. It will provide students with detailed knowledge of the cells and organs of the immune system, their organization and diversity and their specialized functions at different anatomical locations. The importance of immune cell receptors and cytokines in cellular interactions and co-ordination of immunological mechanisms is also emphasized.

### **BIOL5310 – SELECTED TOPICS IN BIOLOGY**

**3 Lecture Hours · 0 Lab Hours**

Topics may vary depending on the needs and interests of the students. May be repeated for credit. Prerequisite: consent of the student's thesis committee and the current course instructor.

### **BIOL5311 – EVOLUTION**

**3** Lecture Hours · **0** Lab Hours

Study of the origin of living systems and the mechanism of their evolution. Prerequisite: BIOL 3315 or equivalent or consent of the instructor.

### **BIOL5312 – ADVANCED GENETICS**

**3** Lecture Hours · **0** Lab Hours

Mechanisms of transmission and function of genetic material. Covers fundamental concepts in transmission genetics including: genotype/phenotype relationships; inheritance; linkage; genome organization; and gene expression. Experimental and quantitative approaches to genetic analyses are emphasized. Prerequisite: consent of the instructor.

### **BIOL5313 – EVOLUTION OF DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

The diversity of animal and plant forms can largely be traced to evolutionary changes in the genes that control the development of the embryo. Changes in when and where these genes are active have been important in the diversification of body form. A major goal of this course is to provide an interdisciplinary framework for studies related to evolution, genetics, and development. The course will mainly consist of lectures and seminars; relevant scientific papers will be read and commented on in class. Prerequisite: BIOL 3315.

### **BIOL5314 – BIOMETRY**

**3** Lecture Hours · **0** Lab Hours

An examination of statistical methods and procedures in relation to the design of biological experiments and the analysis of their results. Prerequisite: consent of the instructor.

### **BIOL5315 – COMMUNITY ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

An investigation of the effects of interspecific interactions on the distribution and abundance of organisms. Prerequisite: consent of the instructor.

### **BIOL5316 – ADVANCED EVOLUTIONARY BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

An analysis of existing biological phenomena with regard to their selective advantage in biological systems. Prerequisite: BIOL 5311 or consent of the instructor.

### **BIOL5317 – BACTERIAL PATHOGENESIS**

**3** Lecture Hours · **0** Lab Hours

Host-pathogen relationships in microbial diseases. Topics include bacterium-host interactions, pathogens and pathogenic factors; techniques in pathogenesis research: molecular mechanisms of pathogenesis by major bacterial pathogens; antimicrobial compounds and resistance to antibiotics; and discussion of human genomics and susceptibility to infections. Prerequisites: BIOL 3312 and BIOL 3444 must have a B or better in these courses.

### **BIOL5319 – HUMAN GENETICS**

**3** Lecture Hours · **0** Lab Hours

This course will enable students to comprehend the basic principles of genetics applied to human inheritance and disease, to interpret the research strategies aimed to identify and study the genes responsible for diverse functions and traits, as well as to assess the consequences of the genetic technologies in our society.

### **BIOL5320 – BIOGEOGRAPHY**

**3** Lecture Hours · **0** Lab Hours

The role of natural and artificial transport, population pressure and limiting agencies are examined in the light of the patterns of distribution of living organisms. Prerequisite: consent of the instructor.

### **BIOL5325 – PLANT ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

An introduction to plant ecology including physiological, population, community and ecosystem ecology.

### **BIOL5326 – WETLANDS ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

An introduction to wetland ecology including the formation of wetlands, biogeochemistry of wetland soils, hydrology and biotic adaptations to wetland environments.

### **BIOL5327 – QUANTITATIVE ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

A presentation of quantitative methods used in the design of experiments, collection and analysis of data associated with research in population, community and landscape ecology.

### **BIOL5328 – LANDSCAPE ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

Landscape ecology focuses on the spatial organization of the landscape mosaic and the flows of energy, nutrients, and species among landscape elements and ecosystems.

### **BIOL5330 – DEVELOPMENTAL BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

The primary goal of this course is to describe how organismic complexity is generated during embryonic and post-embryonic development. The course will cover current areas of research in developmental biology, which include: the roles of genetic networks, induction events, cell lineage, maternal inheritance, cell-cell communication, and hormonal control in developmental processes in well-suited organisms such as vertebrates, insects, and nematodes.

### **BIOL5331 – ADVANCED MOLECULAR BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Molecular biology, protein-nucleic acid interactions, nucleic acid biochemistry, and the RNA World.

### **BIOL5333 – BIOLOGICAL MODELING**

**3** Lecture Hours · **0** Lab Hours

Computational and mathematical techniques for representing biological processes, including dynamical systems, simulation, and stochastic processes, using examples from ecology, evolution, and other areas of biology. Prerequisite: consent of the instructor.

### **BIOL5334 – MOBILE DNA MECHANISMS & REGULATION**

**3** Lecture Hours · **0** Lab Hours

This is a graduate course that covers the classification of transposable elements, and the mechanisms and regulation of transposition in a broad range of organisms. In addition to traditional lectures given by the instructor, students will present and discuss papers among the classic and recent literature on the topic.

### **BIOL5335 – ESSENTIALS OF GENOMICS**

**3** Lecture Hours · **0** Lab Hours

An integrative approach to genome science, combining elements of genetics, statistics and bioinformatics. Current technologies used in genomics analysis will be presented.

### **BIOL5336 – MOLECULAR EVOLUTION**

**3** Lecture Hours · **0** Lab Hours

An exploration of how genes and genomes evolve at the molecular level. The presentation uses the theoretical framework provided by population genetics to analyze molecular biology data.

### **BIOL5337 – BEHAVIORAL ECOLOGY**

**3** Lecture Hours · **0** Lab Hours

Introduction to predictive modeling techniques used in studying behavior and ecology of animals. Includes optimization, dynamic optimization, utility theory, and game theory. Prerequisite: consent of the instructor.

### **BIOL5339 – MOBILE DNA & GENOME EVOLUTION**

**3** Lecture Hours · **0** Lab Hours

This is a graduate discussion course that tackles the broad topic of the role of transposable elements in the evolution of genomes. Students will choose topics of interest to present and lead discussion. Organisms discussed will viruses, bacteria, archea and eukaryotes.

### **BIOL5340 – BIOINFORMATICS**

**3** Lecture Hours · **0** Lab Hours

This course is an applied introduction to bioinformatics and computational genomics. The course is geared toward the student with a biology background and limited programming experience. The course provides an entrance to commonly used programming/scripting languages and an introduction to numerous aspects of modern genomic data analyses (e.g. identification of coding and regulatory features in novel sequences, expression analysis, and comparative/phylogenetic analyses).

### **BIOL5341 – PRINCIPLES OF NEUROSCIENCE**

**3** Lecture Hours · **0** Lab Hours

Organization and function of the mammalian nervous system including: sensory functions, motor activity, regulation of autonomic function, memory and association. Prerequisites: three hours of advanced physiology courses or consent of the instructor.

### **BIOL5343 – REPTILE BIOLOGY**

**2** Lecture Hours · **3** Lab Hours

Diversity, systematics, distribution and behavior of major groups of reptiles. Laboratory includes museum techniques, identification and anatomical study. Prerequisite: consent of the instructor.

### **BIOL5344 – AMPHIBIAN BIOLOGY**

**2** Lecture Hours · **3** Lab Hours

Diversity, systematics and behavior of major groups of amphibians. Laboratory includes museum techniques, identification and anatomical study. Prerequisite: consent of the instructor.

### **BIOL5345 – ORNITHOLOGY**

**2** Lecture Hours · **3** Lab Hours

Anatomy, physiology, identification, population dynamics and ethology of birds. Laboratory includes field identification, preparation of specimens, and field study techniques. A weekend field trip is required. Prerequisite: consent of the instructor.

### **BIOL5346 – MICROBIAL PHYSIOLOGY**

**3** Lecture Hours · **0** Lab Hours

This course considers the anatomy and physiology of the bacterial cell in detail. Lecture topics consider the molecular architecture of cell walls, membranes and organelles, synthesis of wall material and membranes, insertion of proteins into membranes and regulation of biosynthetic systems at the whole cell level.

### **BIOL5350 – CONSERVATION BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Theory and practice of conservation biology, with emphasis on applications of modern quantitative and molecular genetic techniques to preservation of organisms and habitats. Includes: identification and prioritization of units for protection; conservation genetics; preserve design; public policy; and current case studies. Prerequisites: BIOL 3315 or equivalent or consent of the instructor.

### **BIOL5351 – ENVIRONMENTAL MICROBIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Principles, methodology, and practical applications of environmental microbiology. Topics include: habitat and community approaches to environmental microbiology; measures of microbial populations and activities; interactions among microbial communities; role of microorganisms in the origin of mineral resources and pollution and energy flow through microbial communities. Prerequisite: BIOL 3444 or equivalent or consent of the instructor.

### **BIOL5354 – LIMNOLOGY**

**3** Lecture Hours · **0** Lab Hours

The study of biotic and abiotic components of inland waters. Prerequisite: consent of the instructor.

### **BIOL5357 – MARINE BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Principles of oceanography and ocean circulation, adaptations of marine organisms to their environment, ecological principles of marine biology and human impacts on the sea.

### **BIOL5361 – ADVANCED BIOMETRY**

**3** Lecture Hours · **0** Lab Hours

Topics include introduction to matrix algebra, regression, correlation, residual analysis, and multivariate statistics. Several computerized statistical packages are introduced. Prerequisite: BIOL 5314 or consent of the instructor.

### **BIOL5362 – EXPERIMENTAL DESIGN**

**3** Lecture Hours · **0** Lab Hours

Various analysis of variance models will be explored including hierarchic models, multiway factorial models, Latin square designs, split plots designs, and incomplete block designs. Nonparametric methodologies and analysis of covariance techniques will also be presented. Prerequisite: BIOL 5314 or consent of the instructor.

### **BIOL5364 – POPULATION GENETICS**

**3** Lecture Hours · **0** Lab Hours

The genetics of evolution with emphasis on measuring, predicting, and modeling genetic change in populations. Prerequisite: consent of the instructor.

### **BIOL5367 – THEORETICAL SYSTEMATICS**

**3** Lecture Hours · **0** Lab Hours

Introduction to the study of organismal diversity and evolutionary relationships. Emphasizes quantitative methods for phylogeny reconstruction, and interpretation and application of molecular data. Prerequisite: BIOL 3315 and BIOL 3339 or equivalents, or consent of the instructor.

### **BIOL5391 – INDIVIDUAL PROBLEMS IN BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Individual research projects supervised by a faculty member. Prerequisite: consent of the instructor.

### **BIOL5393 – RESEARCH IN BIOLOGY**

**3** Lecture Hours · **0** Lab Hours

Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

### **BIOL5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

Graded R/F only. Prerequisite: consent of faculty.

### **BIOL5420 – GENETICS METHODS LAB**

**0** Lecture Hours · **4** Lab Hours

Computational and experimental approach to genomics research. The course theme will be transposable elements.

### **BIOL5421 – METHODS IN MOLECULAR MICROBIOLOGY**

**1** Lecture Hour · **3** Lab Hours

This course will provide an overview of different techniques used during manipulation of microorganisms. It will allow students to gain a historical perspective of techniques used in microbiology (Winogradsky column, Koch solid agar plating) as well as learn state of the art molecular characterization of microorganisms and their genetic manipulation. This course introduces current biochemical, physiological and molecular biology methods to assess community diversity and microbial activity in a variety of ecosystems. Other topics discussed include bacterial growth and survival, population biology, and microbial interactions.

### **BIOL5440 – LABORATORY METHODS IN BACTERIAL PATHOGENESIS**

**1** Lecture Hour · **3** Lab Hours

This course is intended to expose students to research techniques for studying bacterial pathogens. Students will use molecular and classical techniques to isolate, identify and characterize bacteria and their response to stimuli. Techniques will range from PCR, Gene Sequencing, SDS-PAGE and Immunofluorescence Microscopy. Prerequisites BIOL 3312, 3444, 4317.

### **BIOL5493 – RESEARCH**

**4** Lecture Hours · **0** Lab Hours

### **BIOL5593 – RESEARCH**

**5** Lecture Hours · **0** Lab Hours

### **BIOL5693 – RESEARCH IN BIOLOGY**

**6** Lecture Hours · **0** Lab Hours

Conference course in which the student undertakes intensive investigation of topics under the supervision of a staff member. Prerequisite: consent of the instructor. Graded P/F/R.

### **BIOL5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: consent of faculty.

### **BIOL5998 – THESIS**

**9** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: consent of faculty.

### **BIOL6191 – ADVANCED RESEARCH**

1 Lecture Hour · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6291 – ADVANCED RESEARCH**

2 Lecture Hours · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6391 – ADVANCED RESEARCH**

3 Lecture Hours · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6399 – DISSERTATION**

3 Lecture Hours · 0 Lab Hours

6399 and 6699 graded R/F only; 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

### **BIOL6491 – ADVANCED RESEARCH**

4 Lecture Hours · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6591 – ADVANCED RESEARCH**

5 Lecture Hours · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6691 – ADVANCED RESEARCH**

6 Lecture Hours · 0 Lab Hours

Faculty supervised individual research. May be repeated for credit. Graded P/F/R.

### **BIOL6699 – DISSERTATION**

6 Lecture Hours · 0 Lab Hours

6399 and 6699 graded R/F only; 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

### **BIOL6999 – DISSERTATION**

9 Lecture Hours · 0 Lab Hours

6399 and 6699 graded R/F only; 6999 graded P/F/R. Prerequisite: admission to candidacy for the degree Doctor of Philosophy in Quantitative Biology.

### **BIOL7399 – DOCTORAL DEGREE COMPLETION**

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office

of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

- Ph.D. in Mathematical Sciences/Chemistry Option

## Admission Criteria

In evaluating candidates for admission to its graduate degree programs, the Department of Chemistry and Biochemistry emphasizes the preparedness of the student as evidenced by quality and quantity of coursework and the student's previous research experience. Recommendations from our own faculty, based on firsthand knowledge of the applicant or a faculty member at the applicant's institution, are also very important.

### Unconditional Admission

Unconditional admission may be granted under any one of the following options. The minimum undergraduate GPA requirement for all options is 3.0, as calculated by the Graduate School.

#### Option 1

A satisfactory completion of a Bachelor's degree or equivalent, official transcripts, and GRE scores, and three letters of recommendation.

#### Option 2

A satisfactory completion of a Bachelor's degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the applicant's undergraduate institution, *plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member.*

#### Option 3

A satisfactory completion of a bachelor's degree or equivalent, official transcripts, and a letter of recommendation from a faculty member at the undergraduate institution, *plus a recommendation from a UT Arlington Chemistry and Biochemistry faculty member based on a face-to-face interview.*

### Language Requirements

An applicant whose native language is not English must submit a TOEFL score of at least 550 or a score of at least 213 on the computer-based test. A TSE-A score of 45 or higher can be substituted for the TOEFL. Those who have completed their undergraduate education in English may be *eligible for a TOEFL waiver* based on the recommendation letters.

### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

### Probationary Admission

In rare cases, probationary admission may be granted as the result of a substandard performance on one or more of the admission criteria. In this case, the Graduate Advisor will set additional conditions for admission including, but not limited to, additional undergraduate coursework and/or achieving a B or better in the first 9 hours of graduate coursework.

### Denial of Admission

A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

## Eligibility for Scholarships/Fellowships

Students that have no provisional admission conditions to meet will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships. (Students with graduate teaching or research assistantships, however, must be enrolled in a minimum of 9 hours of coursework in both long semesters and 6 hours of coursework in the summer sessions.)

## Objective: Master of Science

The objectives of the Chemistry and Biochemistry Department's program leading to the Master of Science degree include (a) developing the individual's ability to do independent research, (b) preparing students for more advanced study in chemistry and (c) providing advanced training to professional chemists and those employed in technical and business areas in which chemistry at this level is necessary for efficient performance. Research areas include analytical chemistry, biochemistry, bioinorganic chemistry, colloid and surface chemistry, electrochemistry, inorganic chemistry, medicinal chemistry, organic chemistry, physical chemistry, polymer chemistry, and theoretical chemistry.

## Master's Degree Requirements

A candidate for graduate study must satisfy the general admission requirements of the program.

### Master's Degree with Thesis

This degree requires a minimum of 24 credit hours in course work plus a 6 credit hour thesis class. A minimum of 18 credit hours course work in chemistry, and up to 6 credit hours electives are required. The 6 credit hour thesis class (CHEM 5698) must be taken in the final semester. Courses in chemistry will be taken from at least four (4) of the chemistry disciplines (Analytical, Biochemistry, Inorganic, Organic, Physical); suggested classes are CHEM 5301 or 5302; 5309; 5304 or 5305 or 5307 or 5311; 5315; 5318 or 5321. Electives may be senior or graduate division courses in a science or engineering subject selected by the candidate with the approval of the graduate advisor.

### Master's Degree with Thesis Substitute

This degree requires a minimum of 33 credit hours, of which at least 27 must be in coursework and 3 in a suitable project. Courses in chemistry will be taken from at least four (4) of the chemistry disciplines (Analytical, Biochemistry, Inorganic, Organic, Physical); suggested classes are CHEM 5301 or 5302; 5309; 5304 or 5305 or 5307 or 5311; 5315; 5318 or 5321. Electives may be senior or graduate division courses in a science or engineering subject selected by the candidate with the approval of the graduate advisor. Minimal registration of a project course (CHEM 5391 or 5691 or CHEM 5392 or 5692) is also required.

Admission to the program requires approval of the Graduate Studies Committee. At the time the degree is awarded the candidate is expected to have completed at least five years of suitable professional experience in an industrial, government, or other chemistry laboratory. All potential applicants must contact the Graduate Advisor prior to registration.

### Master's Degree Non-Thesis

This option requires a minimum of 36 hours of coursework of which at least 24 hours must be in chemistry. Courses in chemistry will be taken from at least four (4) of the chemistry disciplines

(Analytical, Biochemistry, Inorganic, Organic, Physical); suggested classes are CHEM 5301 or 5302; 5309; 5304 or 5305 or 5307 or 5311; 5315; 5318 or 5321. Electives may be senior or graduate division courses in a science or engineering subject. All courses must be approved by the graduate advisor.

### Objective: Ph.D. in Chemistry

The program leading to the Doctor of Philosophy degree in Chemistry is designed primarily to prepare doctoral-level chemists for industrial research careers. The student must (1) demonstrate the ability to carry out independent research; and (2) acquire the practical knowledge of the type of research conducted in industry and of the constraints (both practical and philosophical) under which such research is conducted. The areas of research include analytical chemistry, biochemistry, bioinorganic chemistry, colloid and surface chemistry, electrochemistry, inorganic chemistry, medicinal chemistry, organic chemistry, organometallic chemistry, physical chemistry, polymer chemistry, and theoretical chemistry.

### Objective: Ph.D. in Mathematical Sciences/Chemistry Option

The program leading to the Doctor of Philosophy degree in mathematical sciences/chemistry option is designed primarily to prepare chemists for research and teaching careers which involve the theoretical and mathematical aspects of chemistry. For further details, see Interdepartmental and Intercampus Programs.

### Ph.D. Degree Requirements

To be admitted to the Ph.D. program, an applicant must satisfy the general admission requirements of the program and his or her academic record must show preparation for advanced work in chemistry.

Each candidate must complete the following program requirements:

1. Courses for students emphasizing analytical chemistry (**complete any 3 of the following 4 courses**):

CHEM 5304 Analytical Mass Spectrometry and Spectroscopy  
CHEM 5305 Separation Science  
CHEM 5307 Analytical Electrochemistry  
CHEM 5311 Analytical Chemistry - Concepts and Implementation

(CHEM 5304 and 5311 are considered as Analytical Chemistry Core Courses)

*Plus any two (2) courses* from two divisions outside of analytical chemistry (biochemistry, inorganic, organic, or physical). Chem 5308 cannot be used to fulfill this requirement. Students who do not have a good instrumentation background should consider taking CHEM 5461 Instrumental Analysis.

*Plus: One of the courses listed in item 7.*

2. Courses for students emphasizing biochemistry:

CHEM 5321 Metabolism and Regulation  
CHEM 5325 Enzymology  
CHEM 5327 Biochemical Genetics

(CHEM 5321, 5325, 5327 are considered as Biochemistry Core Courses)

Students emphasizing biochemistry who have not had one full year of General Biochemistry must also take the following courses BEFORE taking CHEM 5321, 5325, and 5327:

CHEM 5318 Principles of Biochemistry  
or  
CHEM 5319 General Biochemistry I  
CHEM 5320 General Biochemistry II

*Plus two from:*

CHEM 5203/5180 Quantum Chemistry  
CHEM 5309 Organic Chemistry I  
CHEM 5315 Inorganic Chemistry  
CHEM 5308 Determination of Mol. Structure by Phys. Methods  
CHEM 5304 or 5311 (one of the Analytical Core Courses)

*Plus: One of the courses listed in item 7.*

3. Courses for students emphasizing inorganic chemistry:

CHEM 5315 Inorganic Chemistry  
CHEM 5308 Determination of Mol. Structure by Phys. Methods

(CHEM 5315 and 5308 are considered as Inorganic Chemistry Core Courses)

*Plus two from:*

CHEM 5203/5180 Quantum Chemistry  
CHEM 5309 Organic Chemistry I  
CHEM 5304 or 5311 (one of the Analytical Core Courses)  
CHEM 5318 Principles of Biochemistry

*Plus: One of the courses listed in item 7.*

4. Courses for students emphasizing organic chemistry:

CHEM 5308 Determination of Mol. Structure by Phys Methods  
CHEM 5309 Organic Chemistry I  
CHEM 5310 Organic Chemistry II  
CHEM 5312 Advanced Organic Synthesis

(CHEM 5308, 5309, 5310, and 5312 are considered as Organic Chemistry Core Courses)

*Plus two from:*

CHEM 5203/5180 Quantum Chemistry  
CHEM 5304 or 5311 (one of the Analytical Core Courses)  
CHEM 5315 Inorganic Chemistry  
CHEM 5318 Principles of Biochemistry

*Plus: one of the courses listed in item 7.*

5. Courses for students emphasizing physical chemistry:

CHEM 5301 Physical Chemistry I  
CHEM 5302 Physical Chemistry II  
CHEM 5300 Selected Topics in Advanced Chemistry

(CHEM 5301 and 5302 are considered as Physical Chemistry Core Courses)

*Plus two from:*

CHEM 5309 Organic Chemistry I  
CHEM 5304 or 5311 (one of the Analytical Core Courses)  
CHEM 5315 Inorganic Chemistry  
CHEM 5318 Principles of Biochemistry

*Plus: One of the courses listed in item 7.*

6. Courses for students emphasizing polymer chemistry:

All required courses for any of the other emphasis areas 1-5

*Plus:*

CHEM 5350 Advanced Polymer Chemistry

7. CHEM 6104, 6304 or 6904. Chemistry Internship. Each student is required to spend three months in a nonacademic chemical laboratory; credit may be given for a student's previous industrial research experience.

8. Additional research and elective courses chosen according to the student's dissertation topic and area of specialization under the guidance of the supervising committee.

A course grade may be used to satisfy degree requirements for no more than seven years after the course has been completed.

After admission to the doctoral program the student must successfully complete the appropriate examination(s) required by the faculty of the student's discipline.

A supplementary set of guidelines, published by the Department of Chemistry and Biochemistry, should be consulted.

## CHEM Courses

### CHEM5101 – SEMINAR IN CHEMISTRY

1 Lecture Hour · 0 Lab Hours

Two semesters of registration are required for all graduate students pursuing a thesis degree (PhD or MSTH). Students will present a talk, prepare a poster, and engage in scientific writing and communication. Includes learning how to prepare, present, and defend an oral presentation. May not be counted for credit toward the degree requirements.

### CHEM5180 – QUANTUM CHEMISTRY LABORATORY

0 Lecture Hours · 4 Lab Hours

Molecular modeling. Application of various computational techniques to chemical problems, including determination of molecular geometry, conformational analysis, and molecular energetics. Prerequisite: concurrent enrollment in CHEM 5203.

### CHEM5191 – READINGS IN CHEMISTRY

1 Lecture Hour · 0 Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5192 – RESEARCH IN CHEMISTRY**

1 Lecture Hour · 0 Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5203 – COMPUTATIONAL CHEMISTRY**

2 Lecture Hours · 0 Lab Hours

Molecular quantum mechanics. Fundamental principles of quantum mechanics, with a special emphasis on molecular electronic structure theory. Topics covered include molecular mechanics, semi-empirical and ab initio molecular orbital theory, density functional theory, calculation of thermodynamic properties and molecular dynamics. Prerequisite: CHEM 3322 or equivalent.

### **CHEM5291 – READINGS IN CHEMISTRY**

2 Lecture Hours · 0 Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5292 – RESEARCH IN CHEMISTRY**

2 Lecture Hours · 0 Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5300 – SELECTED TOPICS IN ADVANCED CHEMISTRY**

3 Lecture Hours · 0 Lab Hours

The area may vary (typically analytical, applied, biological, colloid, environmental, inorganic, organic, physical, polymer, materials, theoretical, etc.) and will be announced in advance. More than one area may be covered simultaneously, in parallel courses offered under different section numbers. May be repeated for credit when area or topics vary. Prerequisite: permission of instructor.

### **CHEM5301 – INTRODUCTION TO GRADUATE PHYSICAL CHEMISTRY**

3 Lecture Hours · 0 Lab Hours

Classical thermodynamics and statistical thermodynamics. Equilibrium and kinetic processes. Reaction dynamics. Principles of quantum chemistry and its application to spectroscopy. Introduction to bonding in molecules and solids.

### **CHEM5302 – ADVANCED GRADUATE PHYSICAL CHEMISTRY**

3 Lecture Hours · 0 Lab Hours

Statistical thermodynamics and its application to kinetics and spectroscopy. Quantum theory, ab initio methods and density functional theory. Advanced spectroscopic methods to investigate bonding in molecules and solids. Prerequisite: CHEM 5301 or permission of the instructor.

### **CHEM5304 – ANALYTICAL MASS SPECTROMETRY AND SPECTROSCOPY**

3 Lecture Hours · 0 Lab Hours

This course covers modern aspects of atomic and molecular mass spectrometry, as well as spectrochemical analysis. Upon completion of this course, the student will be able to: describe the basic setup and operation of mass spectrometric and spectroscopic instrumentation; interpret spectra from various instruments as a means for qualitative and quantitative analysis; apply basic knowledge of mass spectrometry and spectroscopy for practical problem solving; relate the use of mass spectrometry and spectroscopy to his or her own research interests; and compile, present, and explain modern techniques for analytical research. Written and oral presentations, as well as traditional classroom examinations, homework, and quizzes will be used to assess student performance. Prerequisite includes CHEM 4461 or equivalent; or permission of instructor.

## **CHEM5305 – SEPARATION SCIENCE**

**3** Lecture Hours · **0** Lab Hours

A comprehensive examination of most areas involving the separation of molecules and ions. Theoretical, practical and historical aspects of: distillation, sublimation, liquid-liquid extraction, solid phase extraction, chromatography, electrophoresis, field flow fractionation, membrane/barrier processes, and crystallization will be considered. Students taking this course must have a good basic background in organic chemistry and physical chemistry.

## **CHEM5306 – ANALYTICAL SPECTROSCOPY**

**3** Lecture Hours · **0** Lab Hours

This course covers many of the methods of spectrochemical analysis used in the analytical laboratory. At the end of this course, students should be able to: explain the fundamental theory of many spectroscopy methods, including atomic spectroscopy, molecular spectroscopy, UV/Vis spectroscopy, molecular luminescence, and infrared spectrometry, among others; describe basic instrumental components; apply basic statistics (e.g., measurement errors, and calibration methods) for data analysis; and understand the fundamental use and applications of spectroscopy methods for basic research and laboratory measurements. Student performance will be evaluated based on homework assignments, exams, quizzes, and presentations. Prerequisite includes CHEM 4461 or equivalent, or permission of instructor.

## **CHEM5307 – ANALYTICAL ELECTROCHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

This course covers modern aspects of electroanalytical chemistry. Upon completion of this course, the student will be able to: understand the concepts of redox potentials and their role in electron transfer, the thermodynamic aspects of electrochemical cells, mass transport in electrochemical systems, and the principles underlying various electroanalytical techniques such as potentiometry, amperometry, coulometry and voltammetry. The instrumental aspects of these techniques will also be addressed, including specialized approaches such as spectroelectrochemistry. The student will be able to relate the use of these analytical techniques to his or her own research needs and interests. Written and oral examinations, as well as traditional classroom examinations, will be used to assess student performance. Prerequisite includes CHEM 4461 or equivalent; or permission of instructor.

## **CHEM5308 – DETERMINATION OF MOLECULAR STRUCTURE BY PHYSICAL METHODS**

**3** Lecture Hours · **0** Lab Hours

The use of modern instrumental techniques to determine structure: infrared, ultraviolet, and magnetic resonance spectroscopy, mass spectrometry, optical rotatory dispersion. Emphasis on interpretation of spectra. Prerequisite: CHEM 2322 or equivalent.

## **CHEM5309 – ORGANIC CHEMISTRY I**

**3** Lecture Hours · **0** Lab Hours

Bonding, structure, stereochemistry, substituent effects, isotope effects, solvent effects, kinetics, and linear free-energy relationships in determining reaction mechanisms. Acids and bases, orbital symmetry, pericyclic reactions, photochemistry, and nucleophilic substitution reactions. Prerequisites: CHEM 2322 and 3322 or equivalent.

## **CHEM5310 – ORGANIC CHEMISTRY II**

**3** Lecture Hours · **0** Lab Hours

A survey of organic reaction mechanisms including addition and elimination reactions, nucleophilic carbon species, carbonyl reactions, electrophilic substitution reactions, rearrangement reactions, electron deficient species, and free radical reactions. Prerequisite: CHEM 5309 or permission.

## **CHEM5311 – ANALYTICAL CHEMISTRY - CONCEPTS AND IMPLEMENTATION**

**3** Lecture Hours · **0** Lab Hours

This course familiarizes students with basic electronic design in analytical instrumentation. Familiarization with active and passive components, operational amplifiers, timers, logic gates, and designing analytical

instrumentation based on such components, especially in Wet Chemistry. The course covers ionic equilibria and acid-base equilibria and solving complex problems by iterative numerical methods and nonlinear curve fitting using programming in BASIC and MS Excel Solver™. The course covers present day applications of wet chemical analysis, specific methods and instrumentation, practical aspects of automated liquid phase analytical methods including component availability and cost. A design problem, chosen by lottery, will be given to each student early in the semester. The newly acquired knowledge of chemistry and electronics will be used to design a new instrument and present it. Prerequisite: CHEM 4461 or equivalent undergraduate instrumental analysis course.

### **CHEM5312 – ADVANCED ORGANIC SYNTHESIS**

**3** Lecture Hours · **0** Lab Hours

Synthetically important reactions, strategy in organic synthesis using retrosynthetic analysis and mechanistic understanding of reactions, synthons, asymmetric synthesis. Prerequisite: CHEM 5310 or permission of instructor.

### **CHEM5315 – INORGANIC CHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Structures, bonding, and properties of main group and transition element compounds including: symmetry, coordination chemistry, reaction mechanisms, organometallic chemistry, and modern characterization techniques. Prerequisite: CHEM 4318 or permission of instructor.

### **CHEM5318 – PRINCIPLES OF BIOCHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Protein and nucleic acids structure, enzyme kinetics, and metabolism related to the human body. The course is intended for students who require biochemistry to support research efforts, or need to satisfy a deficiency before proceeding in the biochemistry graduate program. If CHEM 5318 is used for credit toward a degree, then any of CHEM 5319, 5320, or CHEM 4311, 4312 cannot also be used for credit. Prerequisite: CHEM 2322 or equivalent. A knowledge of physical chemistry is helpful.

### **CHEM5319 – GENERAL BIOCHEMISTRY I**

**3** Lecture Hours · **0** Lab Hours

Amino acids, carbohydrates, nucleic acids, enzymes. Obtaining of energy and cellular material from glucose including glycolysis, the TCA cycle, electron transport and oxidative phosphorylation and the pentose phosphate pathway. Either CHEM 5318 or 5319, but not both, may be counted for credit toward degree requirements. Prerequisite: CHEM 2322 or equivalent. A knowledge of physical chemistry is helpful.

### **CHEM5320 – GENERAL BIOCHEMISTRY II**

**3** Lecture Hours · **0** Lab Hours

Modes of breakdown and synthesis of fats, oxidative degradation of amino acids and proteins and biosynthesis of carbohydrate, nucleic acids, and protein. Chemical significance of the genetic code. Either CHEM 5318 or 5320, but not both, may be counted for credit toward degree requirements. Prerequisite: one semester of approved biochemistry (CHEM 5319 or equivalent).

### **CHEM5321 – METABOLISM AND REGULATION**

**3** Lecture Hours · **0** Lab Hours

Biosynthesis of amino acids, purines, pyrimidines, and complex lipids, including terpenes and steroids, with emphasis on regulation of these pathways. Aspects of more complex metabolic regulation by hormones, second messengers and receptor-mediated endocytosis with emphasis on chemical and structural modifications of proteins involved. Prerequisite: CHEM 5320.

### **CHEM5325 – ENZYMOLOGY**

**3** Lecture Hours · **0** Lab Hours

A study of enzymes including structures, reaction mechanisms, regulation, and kinetics. Prerequisite: CHEM 5320.

### **CHEM5327 – BIOCHEMICAL GENETICS**

**3** Lecture Hours · **0** Lab Hours

Aspects of the biochemistry of gene expression in prokaryotic and eukaryotic organisms, its regulation and control, together with genetic manipulations, and the methodology of recombinant DNA technology. Prerequisite: CHEM 5320.

### **CHEM5328 – ADVANCED BIOCHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

The course will cover various aspects of advanced studies in Biochemistry, Metabolism, and Cell Signaling. Selected topics may include gene expression regulation in prokaryotes and eukaryotes, epigenetics, cancer biology, lipid metabolism, cofactors, enzyme kinetics, cell signaling, redox signaling, nitric oxide signaling, metallo-enzyme mechanism and function, unnatural amino acids, protein engineering, and proteomics. Prerequisite: CHEM 5318 (Principles of Biochemistry or equivalent) or Biochemistry I and II (CHEM5319 and 5320)

### **CHEM5333 – THERMODYNAMICS OF MATERIALS**

**3** Lecture Hours · **0** Lab Hours

Applications of thermodynamics to the study of materials, thermodynamic properties of liquid and solid solutions and their relationship to surface and crystalline defects. Also offered as MSE 5320. Prerequisite: permission of instructor.

### **CHEM5350 – ADVANCED POLYMER CHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Polymer synthesis and reactions including condensation, free-radical, ionic, and coordination polymerizations; principles of polymerization including thermodynamics and kinetic considerations; physical characterizations including determinations of absolute molecular weights, relative molecular weights, morphology, glass transitions, and polymer crystallinity; relationships between macromolecular structure, properties, and uses of polymeric materials. Also offered as MSE 5346. Prerequisite: CHEM 2321 and 2322 or permission of instructor.

### **CHEM5360 – X-RAY DIFFRACTION, SCATTERING AND ABSORPTION**

**3** Lecture Hours · **0** Lab Hours

The class will focus on modern applications of X-ray diffraction and absorption techniques in crystal and molecular structure determination. A practical component will address aspects of state of the art methods, including how to solve structures using data collected on powder and single-crystal diffractometers, X-ray photoelectron spectroscopy (XPS), etc.

### **CHEM5391 – READINGS IN CHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5392 – RESEARCH IN CHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

Graded R/F only. Prerequisite: permission of instructor.

### **CHEM5461 – ANALYTICAL INSTRUMENTATION**

**2** Lecture Hours · **8** Lab Hours

Theory of instrumentation and chemical signal source. Practical experiments utilizing atomic and molecular absorption and emission spectroscopy, chromatographic analysis, and electrochemical techniques.  
Prerequisite: CHEM 3322 or equivalent.

### **CHEM5491 – READINGS IN CHEMISTRY**

4 Lecture Hours · 0 Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5492 – RESEARCH IN CHEMISTRY**

4 Lecture Hours · 0 Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5591 – READINGS IN CHEMISTRY**

5 Lecture Hours · 0 Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5592 – RESEARCH IN CHEMISTRY**

5 Lecture Hours · 0 Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5691 – READINGS IN CHEMISTRY**

6 Lecture Hours · 0 Lab Hours

Conference course which may be repeated for credit, with credit granted according to work performed. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5692 – RESEARCH IN CHEMISTRY**

6 Lecture Hours · 0 Lab Hours

Conference course with laboratory with credit granted according to work performed. May be repeated for credit. Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5698 – THESIS**

6 Lecture Hours · 0 Lab Hours

Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM5998 – THESIS**

9 Lecture Hours · 0 Lab Hours

Graded P/F/R only. Prerequisite: permission of instructor.

### **CHEM6100 – TOPICS IN GRADUATE RESEARCH**

1 Lecture Hour · 0 Lab Hours

Lectures by departmental and university faculty on current chemical research at U.T. Arlington. All graduate students are required to take this course once. May not be counted toward degree requirements. Graded P/F only.

### **CHEM6102 – ISSUES IN MODERN CHEMICAL RESEARCH**

1 Lecture Hour · 0 Lab Hours

Topics to be discussed include the use of the library, maintenance of a research notebook, ethics in research, aspects of technical writing and presentations, and how research is funded. May not be counted toward degree requirements. Graded P/F only.

### **CHEM6104 – CHEMISTRY INTERNSHIP**

1 Lecture Hour · 0 Lab Hours

Each student is required to spend three months in a nonacademic chemical laboratory; credit may be given for a student's previous industrial research experience. Graded P/F/R only. Prerequisite: permission of Graduate Advisor.

### **CHEM6202 – PRINCIPLES OF INDUSTRIAL CHEMISTRY**

2 Lecture Hours · 0 Lab Hours

Survey of industrial inorganic and organic chemical processes. Prerequisite: permission of instructor.

### **CHEM6203 – REGULATORY ASPECTS OF THE CHEMICAL INDUSTRY**

2 Lecture Hours · 0 Lab Hours

Survey of chemical toxicology, regulatory aspects involved in the chemical industry, industrial safety, patents and patent law.

### **CHEM6304 – CHEMISTRY INTERNSHIP**

3 Lecture Hours · 0 Lab Hours

Each student is required to spend three months in a nonacademic chemical laboratory; credit may be given for a student's previous industrial research experience. Graded P/F/R only. Prerequisite: permission of Graduate Advisor.

### **CHEM6399 – DISSERTATION**

3 Lecture Hours · 0 Lab Hours

Graded R/F only. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

### **CHEM6699 – DISSERTATION**

6 Lecture Hours · 0 Lab Hours

Graded R/F/P/W. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

### **CHEM6904 – CHEMISTRY INTERNSHIP**

9 Lecture Hours · 0 Lab Hours

Each student is required to spend three months in a nonacademic chemical laboratory; credit may be given for a student's previous industrial research experience. Graded P/F/R only. Prerequisite: permission of Graduate Advisor.

### **CHEM6999 – DISSERTATION**

9 Lecture Hours · 0 Lab Hours

Graded P/F/R only. Prerequisite: admission to candidacy for the degree of Ph.D. in Applied Chemistry.

### **CHEM7399 – DOCTORAL DEGREE COMPLETION**

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial

aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

- [Environmental and Earth Sciences Doctoral Degree](#)

## Program Objectives

**The MS in Environmental and Earth Sciences** has four options: an Environmental Science Option; a Geoscience Option; a Professional Environmental Science Option; and a Petroleum Geoscience Option.

*The Environmental Science Option* provides graduate students with an integrated, multidisciplinary education, requiring a breadth of understanding and mastery of a spectrum of scientific and engineering principles. The thesis option, designed for those interested in an in-depth experience in some particular topic, and a non-thesis option are available.

*The Geoscience Option* is a two year program with specializations in stratigraphy, petrology, paleontology, sedimentology, structural geology, tectonics, plate tectonics, computer modeling, geochemistry or paleoclimatology. Students in this program are prepared for additional graduate work at the PhD level, or for positions in industry and government. Thesis or non thesis options are available.

*The Environmental Science Professional Option* is a Professional Master's Degree for those interested in a career in Environmental Science. Instead of a thesis, students are participate in a mentoring program, take a course in project economics, work as an intern or in a part time job in the Environmental Science Profession, and participate in course experiences involving business ethics, teamwork, a small research project, and communication. This is a non thesis program.

*The Petroleum Geoscience Professional Option* is a Professional Masters Degree for those interested in a career in Petroleum Geoscience. In addition to core geology courses, students

are required to participate in a mentoring program with industry professionals, work as an intern or in a part time job in petroleum geoscience, take a course in project economics, and participate in course activities that emphasize business ethics, teamwork and communications. A thesis research project is required.

**The PhD in Environmental and Earth Sciences.** The program leading to the Doctor of Philosophy degree in Environmental and Earth Sciences is designed primarily to prepare doctoral-level students for research careers in industry, government or academic institutions. Students carry out independent research and acquire practical knowledge of the type of research conducted and the constraints (both practical and philosophical) under which such research is conducted. The areas of research are interdisciplinary using the Earth's environment, interpreted broadly, as the theme. Research normally comes from the disciplines of Geoscience, Biology, Chemistry and Engineering, but contributions from other disciplines are welcome. The program is designed to provide graduate students an integrated, multidisciplinary education, requiring a breadth of understanding and mastery of a spectrum of scientific and engineering principles. Among the goals is to provide students who have earned engineering or science undergraduate degrees a common ground for interdisciplinary communication, an understanding of the environment, and competence in a research area that will enable them to evaluate complex environmental problems.

## Admission

Students applying for MS or PhD degrees should apply to the Graduate School for regular admission to a particular degree program.

### Categories of admission:

Unconditional - all the admission criteria are met and there are no conditions placed on continued enrollment in the program.

Probationary - Applicants that do not meet the standards for unconditional admission may be considered for probationary admission after careful examination of their application materials. Probationary admission normally requires that the applicant receive a B or better in their first 12 hours of graduate coursework at UT Arlington.

Deferred and Provisional Admission - A deferred admission may be granted when an application is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline but whom otherwise appears to meet admission requirements may be granted provisional admission.

**International students:** An applicant whose native language is not English must demonstrate a sufficient level of skill with the English language to assure success in graduate studies. Applicants must submit a score of at least 550 on the paper-based TOEFL, a score of at least 213 on the computer-based TOEFL, a minimum score of 40 on the TSE, a minimum score of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section to meet this requirement.

An applicant holding either a bachelor's or a master's degree from a regionally accredited U.S. college or university is not required to submit a TOEFL, TOEFL iBT, TSE or IELTS score for admission purposes. Any other waivers of the score requirements must be recommended by the applicant's Graduate Advisor and approved by the Dean of Graduate Studies.

**Financial Aid.** Students that are unconditionally admitted into the PhD program can also apply for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 9 hours of coursework in both long semesters to retain their fellowships. In addition, an applicant who is a non-native speaker of English must submit a TOEFL iBT score of at least 23, or a score of at least 7 on the Speaking section of the IELTS, or take and pass the UTA Developmental English course

to be eligible for a Graduate Teaching Assistantship.

**Denial of Admission** - A candidate may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

### Environmental and Earth Sciences Master's Program Admissions

For unconditional admission a student must meet the following requirements:

For the Environmental Science Options: A B.S. degree in biology, chemistry, geoscience, mathematics, or engineering with the following courses or their equivalent: 1 semester of introductory physics for science majors; 2 semesters of introductory chemistry for science majors; and 2 semesters of calculus. Students with a Bachelor's Degree in other sciences will also be considered, subject to satisfactory completion of deficiency courses.

For the Geoscience Options: A B.S. degree in an Earth Science discipline with the following courses or their equivalent: Mineralogy, Petrology, Structure, Stratigraphy, Field Geology and Geophysics or Paleontology. In addition, students need a year of Chemistry, Biology, Physics and Calculus.

For all Options:

1. A minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School.
2. Graduate Record Examination (GRE) scores are considered in admission decisions. Masters students who have succeeded in the Environmental and Earth Sciences Program typically score higher than the 60th Percentile on the verbal and quantitative portion of the GRE.
3. For applicants whose native language is not English, a minimum score of 550 on the Test of English as a Foreign Language (or an equivalent score on a computer-based test) or a score of 40 on the Test of Spoken English.
4. Favorable letters of recommendation from people familiar with the applicant's academic work.
5. Students may be considered for unconditional admission if further review of their transcripts, recommendation letters, correspondence or direct interactions with Environmental and Earth Sciences faculty, and statement of professional or research interests indicates that they are qualified to enter the Masters Program.

### Environmental and Earth Sciences Doctoral Program Admissions

For unconditional admission a student must meet the following requirements:

1. A Masters Degree or at least 30 hours of graduate coursework in environmental science, biology, chemistry, geology, mathematics or engineering. Students with a Bachelor's degree in biology, chemistry, geology, mathematics, or engineering will be considered for the B.S. to Ph.D. track if they meet the other requirements for admission to doctoral studies. Students with a Bachelor's Degree in other sciences will also be considered, subject to satisfactory completion of courses to make up deficiencies.
2. A minimum graduate coursework GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School.
3. Graduate Record Examination (GRE) scores are considered in admission decisions. Doctoral students who have succeeded in the Environmental and Earth Sciences Program typically score higher than the 60th percentile the verbal and the quantitative portion of the GRE.
4. For applicants whose native language is not English, a minimum score of 550 on the Test of English as a Foreign Language (or an equivalent score on a computer-based test) or a score of 40 on the Test of Spoken English.
5. Favorable letters of recommendation from people familiar with the applicant's academic work and/or professional work.

6. A statement must be submitted to the program detailing the applicant's specific research interests and identifying the faculty member who is requested as supervisor of the dissertation research.
7. Students may be considered for unconditional admission if further review of their transcripts, recommendation letters, correspondence or direct interactions with Environmental and Earth Sciences faculty, and statement of research interests indicates that they are qualified to enter the Doctoral Program.

## Degree Requirements

### Environmental and Earth Sciences Master's Degree

There are additional requirements for all Master's programs listed in this catalogue under the Graduate School

#### Environmental Science Option:

Core Courses (15 hours)

- Engineering (6 hours)
  - **CE 5321** Engineering for Environmental Scientists
  - **CE 5319** Physical-Chemical Processes II or **CE 5328** Fundamentals of Air Pollution
- Two of the following courses in science (6 hours):
  - **EVSE 5309** Environmental Sciences-Biological Aspects [\[1\]](#)
  - **EVSE 5310** Environmental Sciences -Chemical Aspects [\[1\]](#)
  - **EVSE 5311** Environmental Sciences -Geological Aspects [\[1\]](#)

[\[1\]](#) Students with less than 20 undergraduate hours in biology, chemistry, or geology will need to take a third environmental systems course as a deficiency. Students entering with a BS degree in one of these areas must take their two courses in the other areas.

- One of the following three courses in City and Regional Planning (3 Hours)
  - **CIRP 5342** Environmental Policy
  - **CIRP 5343** Foundations of Environmental Policy
  - **CIRP 5351** Techniques of Environmental Assessment

**Thesis Option:** In addition to the core courses listed above, the minimum requirements for the master's degree with thesis include:

- 9 hours of electives within one of the following departments: Biology, Chemistry, Earth and Environmental Sciences, Civil and Environmental Engineering, or Urban and Public Affairs
- 6 hours of additional electives
- 2 hours of EVSE seminar
- 6 hours thesis and the successful defense of the thesis before the supervising committee.

**Non-thesis Option:** In addition to the core courses listed above the minimum requirements for the master's degree without thesis include:

- 9 hours of electives within one of the following departments: Biology, Chemistry, Earth and Environmental Sciences, Civil and Environmental Engineering, or Urban and Public Affairs
- 12 hours of additional electives [\[2\]](#)
- 2 hours of EVSE seminar
- Successful completion of the Master's Comprehensive Examination in the final semester.

[\[2\]](#) Must include at least 6 hours in department(s) outside that in which the first 9 hours of electives are taken.

### The Geoscience Option:

Engineering (3 hours)

**CE 5321**, or **IE 3312**, or advisor approved.

Outside Science (3 hours)

**EVSE 5309**, or **EVSE 5310**, or advisor approved.

Seminar (2 hours)

**GEOL 5199** or **EVSE 6100**

**Thesis Option:** In addition to the core courses listed above the minimum requirements are:

- Advisor approved electives (18 hours)
- **Geol 5698** Thesis (6 hours)

**Non-Thesis Option:** In addition to the core courses listed above the minimum requirements are:

Advisor approved electives (27 hours)

**Environmental Science Professional Option:** The minimum requirements for the Professional Option include:

- Engineering (6 hours)
- **IE 3312** and **CE 5321**

Two of the following courses in science (6 hours):

- **EVSE 5309** Environmental Sciences-Biological Aspects [\[3\]](#)
- **EVSE 5310** Environmental Sciences -Chemical Aspects [\[3\]](#)
- **EVSE 5311** Environmental Sciences -Geological Aspects [\[3\]](#)

[\[3\]](#) Students with less than 20 undergraduate hours in biology, chemistry, or geology will need to take a third environmental systems course as a deficiency. Students entering with a BS degree in one of these areas must take their two courses in the other areas.

One of the following three courses in City and Regional Planning (3 Hours)

- **CIRP 5342** Environmental Policy
- **CIRP 5343** Foundations of Environmental Policy
- **CIRP 5351** Techniques of Environmental Assessment

Professional Courses (8 hours)

- **EVSE 5120**, Environmental Professional Mentoring and Business Ethics (2 semesters).
- **EVSE 5315**, Professional Experience
- **EVSE 5395**, Master's Project

Other Electives (15 hours)

- 9 hours of electives within one of the following departments: Biology, Chemistry, Earth and Environmental Sciences, Civil and Environmental Engineering, or Urban and Public Affairs
- 6 hours of additional electives

**The Petroleum Geoscience Professional Option:** The minimum requirements for the Petroleum Geoscience Professional Option include:

- Engineering (3 hours)
- **IE 3312**, or advisor approved.
- Professional Courses (2 hours)
  - **GEOL 5180** or **EVSE 5110**, Environmental Professional Mentoring and

#### Business Ethics.

- **GEOL 5190**, Professional Experience
- Other courses (27 hours):
  - **GEOL 5345** Petroleum Geology
  - **GEOL 5369** Sequence Stratigraphy
  - **GEOL 5371** Basin Modeling
  - **GEOL 5372** Structural Geometry and Tectonics of Petroleum Fields
  - **GEOL 5373** Reservoir Characterization
  - **GEOL 5374** Seismic Interpretation
  - **GEOL 5375** Introduction to Well Log Interpretation and Mapping
  - **GEOL 5698** Thesis

### Dual Degree Program

Dual master's degrees can be arranged with any suitable program. By participating in a dual degree program, students may apply 6-18 total semester credit hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from six to 18, subject to the approval of Graduate Advisors from both programs. Degree plans, thesis or professional report proposals and programs of work must be approved by Graduate Advisors from both programs. The successful candidate will be awarded both degrees rather than one joint degree.

To participate in the dual degree program, students must make separate application to each program and must submit a separate program of work for each degree. Those interested in the dual degree program should consult the appropriate Graduate Advisors for further information on course requirements. See also the statement on Dual Degree Programs in the general information section of this catalog.

Arrangements to offer a dual degree have already been made between Environmental and Earth Sciences and the Program in City and Regional Planning (M.C.R.P. degree), School of Urban and Public Affairs.

### Environmental and Earth Sciences Doctoral Degree

The Doctoral Program provides students with the interdisciplinary knowledge and skills to conduct independent research in Environmental and Earth Sciences. Students conduct dissertation research under the supervision of a faculty member in one of the participating departments (Biology, Chemistry, Earth and Environmental Sciences, Civil and Environmental Engineering, or Urban and Public Affairs). The supervising professor and a faculty committee assign courses in this primary area of emphasis to support the student's research and professional goals. To provide interdisciplinary training, additional courses are assigned in a secondary area of emphasis.

If they have not already done so in their previous work, all Doctoral students must take two engineering courses; two or three science courses (two if their prior training is in science, three if in engineering or another non-science field); and one course in policy or planning.

Students who enter the Doctoral Program with a Master's degree in a science or engineering field, or with 30 semester hours of graduate coursework, take a Diagnostic Examination in the first year of residence to evaluate this previous work. The student's supervising committee must approve all courses taken to meet degree requirements.

Students who enter the Doctoral Program with a Bachelor's degree take 30 semester hours of graduate coursework that includes Engineering, Science and Public Policy courses. These students are encouraged to take the diagnostic exam in their first year of enrollment. The student's supervising committee must approve all courses taken to meet degree requirements.

Students may choose among any of the five participating units for their primary and secondary

areas of emphasis. Course selection within these areas of emphasis is guided by the student's supervising committee and must result in a cohesive program that supports the dissertation research.

Other requirements include:

1. Successful completion of the Diagnostic Examination at the end of the first year of residence.
2. Successful completion of the Comprehensive Examination, an oral defense of a research proposal to be pursued for the dissertation, and a specialization examination over areas of the student's proposed research.
3. Demonstration of proficiency in one foreign language or a research tool such as advanced computer skills, statistics, or operations research.
4. Successful defense of the dissertation and acceptance of the dissertation by the supervising committee.

## **EVSE Courses**

### **EVSE5100 – SELECTED TOPICS IN ENVIRONMENTAL SCIENCE AND ENGINEERING**

1 Lecture Hour · 0 Lab Hours

May be repeated for credit when topic changes.

### **EVSE5120 – ENVIRONMENTAL PROFESSIONAL MENTORING & BUSINESS ETHICS**

1 Lecture Hour · 0 Lab Hours

Provides credit to students participating in an approved mentoring program with an experience environmental professional. May be repeated once for credit.

### **EVSE5200 – SELECTED TOPICS IN ENVIRONMENTAL & EARTH SCIENCES**

2 Lecture Hours · 0 Lab Hours

May be repeated for credit when topic changes.

### **EVSE5294 – INDIVIDUAL PROBLEMS IN ENVIRONMENTAL & EARTH SCIENCES**

2 Lecture Hours · 0 Lab Hours

Individual research projects supervised by a faculty member.

### **EVSE5300 – SELECTED TOPICS IN ENVIRONMENTAL & EARTH SCIENCE**

3 Lecture Hours · 0 Lab Hours

May be repeated for credit when topic changes.

### **EVSE5309 – ENVIRONMENTAL SYSTEMS-BIOLOGICAL ASPECTS**

3 Lecture Hours · 0 Lab Hours

An introduction to the biological components of environmental systems. Population dynamics, species interactions, community structure, biodiversity, bioenergetics, nutrient cycling and human impacts are reviewed. Focus will be on natural processes and their engineering applications.

### **EVSE5310 – ENVIRONMENTAL SYSTEMS-CHEMICAL ASPECTS**

3 Lecture Hours · 0 Lab Hours

An introduction to the chemistries of air at different altitudes, of water systems and of soils. Chemical and physico-chemical processes at phase boundaries, modeling for kinetics and mass transport, analytical techniques and disposal and recycling are included as well as their impact on engineering decisions.

### **EVSE5311 – ENVIRONMENTAL SYSTEMS-GEOLOGICAL ASPECTS**

**3** Lecture Hours · **0** Lab Hours

Introduction to the tectonic, volcanic, atmospheric, climatic, hydrologic and geochemical processes and natural hazards of the earth, and their interaction with political, economic and engineering decisions.

### **EVSE5315 – PROFESSIONAL EXPERIENCE**

**3** Lecture Hours · **0** Lab Hours

Provides credit to students participating in an approved internship or part-time work experience.

### **EVSE5320 – TOXICOLOGY**

**3** Lecture Hours · **0** Lab Hours

An introduction to the general principles of toxicology with an emphasis on certain classes of toxic agents, their sources and toxic effects, as well as their environmental fate. Prerequisite: CHEM 2322.

### **EVSE5321 – HEALTH RISK ASSESSMENT**

**3** Lecture Hours · **0** Lab Hours

An introduction to health considerations relevant to environmental projects. Prepares students to take the Registered Environmental Health Specialist Examination.

### **EVSE5322 – ENVIRONMENTAL RISK ASSESSMENT**

**3** Lecture Hours · **0** Lab Hours

An introduction to the health assessment process, presenting methodologies and guidelines for conducting health assessments.

### **EVSE5323 – ISSUES IN ENVIRONMENTAL HEALTH**

**3** Lecture Hours · **0** Lab Hours

An introduction to health issues of current concern resulting from environmental exposures. Topics include: environmental asthma, endocrine disruptors, climate change and health, emerging contaminants, nanotechnology and health, airborne particles and pediatric health.

### **EVSE5350 – CONTAMINANT HYDROGEOLOGY**

**3** Lecture Hours · **0** Lab Hours

Sources and types of various organic and inorganic contaminants; the physical, chemical, and biological factors and processes that affect the transport and fate of contaminants in the subsurface; non-aqueous phase liquids and multiphase flow; and various remedial techniques of contaminated sites. Prerequisite: GEOL 4320 or GEOL 5328 (or concurrent enrollment).

### **EVSE5351 – GEOMORPHOLOGY AND QUATERNARY STRATIGRAPHY OF SEDIMENTARY SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

This course examines those physical processes that sculpt the surface of the Earth and result in deposition of sediments. Surface systems covered include weathering, mass wasting, rivers, shorelines, eolian processes, and glaciers. The course also examines the stratigraphic techniques used to decode the recent (2 million to present) stratigraphic record of these systems. Course is designed for geologists, biologists, and other fields concerned with interpreting and/or managing modern environments.

### **EVSE5352 – OCEANOGRAPHY**

**3** Lecture Hours · **0** Lab Hours

The many aspects of oceanography with special emphasis on physical oceanography and marine geology.

### **EVSE5394 – INDIVIDUAL PROBLEMS IN ENVIRONMENTAL & EARTH SCIENCES**

**3** Lecture Hours · **0** Lab Hours

Individual research projects supervised by a faculty member. Prerequisite: consent of instructor.

### **EVSE5395 – MASTER'S PROJECT**

**3** Lecture Hours · **0** Lab Hours

May be used as elective for students in non-thesis program. Graded F, P.

### **EVSE5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

Graded F, R.

### **EVSE5405 – METEOROLOGY AND CLIMATOLOGY**

**3** Lecture Hours · **3** Lab Hours

A quantitative approach to the study of the structure, energy, and motions of the atmosphere.

### **EVSE5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

Graded F, P, R.

### **EVSE5998 – THESIS**

**9** Lecture Hours · **0** Lab Hours

Graded F, P, R.

### **EVSE6100 – SEMINAR IN ENVIRONMENTAL & EARTH SCIENCES**

**1** Lecture Hour · **0** Lab Hours

Topics presented by faculty, students, and invited lecturers.

### **EVSE6197 – RESEARCH IN ENVIRONMENTAL & EARTH SCIENCES**

**1** Lecture Hour · **0** Lab Hours

Individually approved research projects. May be repeated for credit. Graded F, P, R.

### **EVSE6297 – RESEARCH IN ENVIRONMENTAL & EARTH SCIENCES**

**2** Lecture Hours · **0** Lab Hours

Individually approved research projects. May be repeated for credit. Graded F, P, R.

### **EVSE6397 – RESEARCH IN ENVIRONMENTAL AND EARTH SCIENCES**

**3** Lecture Hours · **0** Lab Hours

Individually approved research projects. May be repeated for credit. Graded F, P, R.

### **EVSE6399 – DISSERTATION**

**3** Lecture Hours · **0** Lab Hours

Graded F, R.

### **EVSE6697 – RESEARCH IN ENVIRONMENTAL & EARTH SCIENCE**

6 Lecture Hours · 0 Lab Hours

Individually approved research projects. May be repeated for credit. Graded F, P, R.

### **EVSE6699 – DISSERTATION**

6 Lecture Hours · 0 Lab Hours

Graded F, R, P, W.

### **EVSE6997 – RESEARCH IN ENVIRONMENTAL & EARTH SCIENCE**

9 Lecture Hours · 0 Lab Hours

Individually approved research projects. May be repeated for credit. Graded F, P, R.

### **EVSE6999 – DISSERTATION**

9 Lecture Hours · 0 Lab Hours

Graded F, P, R.

### **EVSE7399 – DOCTORAL DEGREE COMPLETION**

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## **GEOL Courses**

### **GEOL5180 – PROFESSIONAL ORIENTATION AND BUSINESS ETHICS**

1 Lecture Hour · 0 Lab Hours

A mentoring program using working professionals selected by the Earth and Environmental Sciences Department. Each participant meets at least once a month with a mentor who provides information on practices and skills necessary to succeed in the workplace. Course participants review business ethics statements provided by the mentor's company or other companies and write a critique based on materials from professional business ethics organizations such as the International Business Ethics Institute. Prerequisite or concurrent enrollment GEOL 5345.

### **GEOL5181 – RESEARCH IN GEOLOGY**

1 Lecture Hour · 0 Lab Hours

Independent study in various areas of research including paleontology, stratigraphy, tectonics, structural geology, sedimentology, geochemistry, petrology, geophysics, and volcanology. May be repeated for credit. Graded P/F/R/W.

### **GEOL5190 – GEOSCIENCE INTERNSHIP**

1 Lecture Hour · 0 Lab Hours

Work in geoscience for a commercial concern at least 20 hrs/wk for 3 months. Requirements include writing a resume, learning how to interview and function on the job, and a report describing the work. Prerequisite: Geol 5345 or concurrent enrollment.

### **GEOL5199 – TECHNICAL SESSIONS**

1 Lecture Hour · 0 Lab Hours

Forum for presentation of results of graduate students and faculty research. Required each semester of all graduate students.

### **GEOL5265 – TOPICS IN GEOL**

1 Lecture Hour · 2 Lab Hours

### **GEOL5281 – RESEARCH IN GEOLOGY**

2 Lecture Hours · 0 Lab Hours

Independent study in various areas of research including paleontology, stratigraphy, tectonics, structural geology, sedimentology, geochemistry, petrology, geophysics, and volcanology. May be repeated for credit. Graded P/F/R/W.

### **GEOL5301 – ENVIRONMENTAL GEOCHEMISTRY**

3 Lecture Hours · 0 Lab Hours

Fundamentals of low-temperature aqueous geochemistry, and anthropogenic impacts on natural water systems. Topics include equilibrium thermodynamics, kinetics, aqueous complexation, and oxidation/reduction processes that affect metals and organic matter in natural waters.

### **GEOL5302 – GLOBAL TECTONICS**

3 Lecture Hours · 0 Lab Hours

Plate tectonic theory and evidence, review of plate tectonic history since the late Precambrian. Prerequisite: Geol 3442, Geol 3443.

### **GEOL5304 – SOLID EARTH GEOMECHANICS**

3 Lecture Hours · 0 Lab Hours

Application of continuum mechanics to understanding deformation in the earth, including mechanical analysis of natural geologic structures such as faults, folds, lava flows, and dikes, as well as practical problems related to reservoir geomechanics and mining applications. Prerequisite: GEOL3443, MATH2325, PHYS1441 or PHYS 1443.

### **GEOL5306 – ENVIRONMENTAL GEOLOGY**

3 Lecture Hours · 0 Lab Hours

Hydrological systems, water quality, and behavior of pollutants; atmospheric systems, air quality, and effects of pollutants; occurrence, prediction, and amelioration of natural environmental hazards including floods, earthquakes, volcanism, and landslides.

### **GEOL5308 – PALEOCLIMATE AND CLIMATE CHANGE**

3 Lecture Hours · 0 Lab Hours

Climate change throughout geologic time, especially the last 100 million years: models of the climate system, reconstruction and modeling of past climates, abrupt climate change, warm climates, paleoclimatology, climate change and mass extinctions.

### **GEOL5309 – GEOMORPHOLOGY & QUATERNARY STRATIGRAPHY OF SEDIMENTARY SYSTEMS**

3 Lecture Hours · 0 Lab Hours

This course examines those physical processes that sculpt the surface of the Earth and result in deposition of sediments. Surface systems covered include weathering, mass wasting, rivers, shorelines, eolian processes, and glaciers. The course also examines the stratigraphic techniques used to decode the recent (2 million to present) stratigraphic record of these systems. Course is designed for geologists, biologists, and other fields concerned with interpreting and/or managing modern environments.

### **GEOL5312 – SANDSTONE PETROLOGY**

**3** Lecture Hours · **0** Lab Hours

Petrographic examination of terrigenous clastics, including textural, compositional, and diagenetic aspects. Focus on paleogeographic, tectonic, and environmental interpretation. Prerequisite: GEOL 3442.

### **GEOL5313 – CARBONATE PETROLOGY**

**2** Lecture Hours · **3** Lab Hours

Nature and composition of ancient and modern carbonate sediments and rocks in terms of their genesis, depositional environments, biological constituents, and processes involved in transport, deposition, diagenesis, and lithification. Knowledge of stratigraphy and paleontology is necessary for success in this course. Prerequisite: GEOL 3442 or permission of the instructor.

### **GEOL5320 – UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS**

**2** Lecture Hours · **1** Lab Hour

A practical introduction to GIS and methods of creating, maintaining and displaying spatial data using the ArcGIS software.

### **GEOL5321 – ANALYSIS OF SPATIAL DATA**

**2** Lecture Hours · **1** Lab Hour

Analyzing spatial data using ArcGIS, Spatial Analyst, and 3D Analyst, topological surface analysis and modeling; 3D visualization and viewscales; spatial statistics and data quality management. Prerequisite: GEOL 4330 or GEOL 5320.

### **GEOL5322 – GLOBAL POSITIONING SYSTEM**

**2** Lecture Hours · **1** Lab Hour

Review of the NAVSTAR Global Positioning System and its segments: space, operational control, and GPS receivers. Mechanics of the satellite constellation; GPS signal structure; data and coordinate systems; precision and accuracy; error factors; absolute (point) versus relative (differential) positioning. Various positioning techniques using several types of GPS receivers; field data collection and input into GIS programs for data analysis and presentation. Prerequisite: GEOL 4330 or GEOL 5320.

### **GEOL5323 – REMOTE SENSING FUNDAMENTALS**

**2** Lecture Hours · **1** Lab Hour

The electromagnetic spectrum and the interaction of EM waves with matter; various types of sensing devices; spectral and spatial resolution parameters; airborne and satellite sensor platforms; aerial photographs and false-color images. The sequence of data acquisition, computer processing and interpretation; sources of data; the integration of remote sensing data with other data types in GIS. Prerequisite: GEOL 4330 or GEOL 5320.

### **GEOL5324 – GEOGRAPHIC DATA ANALYSIS PROJECT**

**3** Lecture Hours · **0** Lab Hours

Acquisition, processing and analysis of a set of spatial data selected by the student with the approval of the instructor. A written report of the results is required. Prerequisite: GEOL 5320, GEOL 5321, and GEOL 5323.

### **GEOL5328 – HYDROGEOLOGY**

**3** Lecture Hours · **0** Lab Hours

Hydrologic cycle, Darcy's law, hydraulic properties, aquifer types and materials, groundwater flow to wells, fracture flow, vadose zone flow, groundwater chemistry, and groundwater modeling; a term paper about the relevant topics covered in the class is required. Prerequisites: GEOL 2446, MATH 2425

### **GEOL5332 – STABLE ISOTOPE GEOCHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Principals governing the fractionation and distribution of stable isotopes (C, H, N, O, S) in nature, and application of stable isotope geochemistry to environmental problems and global climate change.

### **GEOL5333 – FIELD METHODS**

**3** Lecture Hours · **0** Lab Hours

### **GEOL5334 – ANALYTICAL METHODS IN ENVIRONMENTAL SCIENCE**

**3** Lecture Hours · **0** Lab Hours

Principals of geochemical analysis of waters, rocks and soils, and gases. Methods to be covered include x-ray fluorescence and diffraction, mass spectrometry, coulometry, inductively-coupled plasma, and gas/ion chromatography with various detection methods.

### **GEOL5335 – ISOTOPES AND TECTONICS**

**3** Lecture Hours · **0** Lab Hours

An Introduction to the fundamentals of clumped isotopes, and major radiogenic and cosmogenic isotope systems and their applications to the study of earth system processes and Earth history; emphasis will be placed on applications to tectonics, geochronology, and thermochronology. Prerequisite: CHEM 1442 or GEOL 4302.

### **GEOL5342 – MICROFOSSILS AND THE CORRELATION OF SEDIMENTARY ROCKS**

**2** Lecture Hours · **3** Lab Hours

This course is an introduction to microfossil groups useful in the regional and global correlation of sedimentary rock strata throughout the Phanerozoic. Microfossils record plant, animal, and protist life forms including foraminifers, radiolarians, ostracodes, conodonts, algae, and coccolithophorids. Morphology, taxonomy, and biostratigraphy of these groups will be stressed along with the principles used in the correlation of sedimentary rocks. Prerequisite: GEOL 3441 and GEOL 3442.

### **GEOL5344 – DEPOSITIONAL ENVIRONMENTS: TERRIGENOUS CLASTICS**

**3** Lecture Hours · **0** Lab Hours

Depositional processes, physiographic and environmental components, and facies characteristics and relationships of alluvial, eolian, deltaic, clastic shoreline, shallow siliciclastic sea and deep sea clastic depositional systems. Emphasis on interpretation of ancient analogs. Prerequisite: GEOL 3442.

### **GEOL5345 – PETROLEUM GEOLOGY**

**2** Lecture Hours · **3** Lab Hours

Origin, generation and migration of petroleum; reservoirs, seals and traps; the subsurface environment; properties of petroleum; exploration and production methods; use of seismic lines and well logs; types of petroleum basins; reserves and resources.

### **GEOL5348 – MARINE GEOLOGY AND GEOCHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

Geologic and geochemical processes of the oceans. Chemistry of seawater; geochemical and biogeochemical cycles; carbonate sediment production.

### **GEOL5350 – CONTAMINANT HYDROGEOLOGY**

**3 Lecture Hours · 0 Lab Hours**

Sources and types of organic and inorganic contaminants; the physical, chemical, and biological factors and processes that affect the transport and fate of contaminants in the subsurface; non-aqueous phase liquids and multiphase flow; and various remedial techniques of contaminated sites. Prerequisite: GEOL 4320 or GEOL 5328 (or concurrent enrollment).

### **GEOL5365 – TOPICS IN GEOLOGY**

**2 Lecture Hours · 3 Lab Hours**

Topics offered depend on student and faculty interest. Such topics might include identification of fossil fragments in thin section; magmatic processes; plate tectonics and sedimentary basin evolution; stratigraphic paleontology; sedimentary or volcanogenic ore deposition; geostatistics; geophysical archeology; and various advanced subjects in sedimentology, stratigraphy, paleontology, geophysics, geochemistry, volcanology and petrology. May be repeated for credit when topic changes.

### **GEOL5369 – SEQUENCE STRATIGRAPHY**

**3 Lecture Hours · 0 Lab Hours**

This course introduces sequence stratigraphy within context of all stratigraphy and history of sequence stratigraphy. Includes overview of sequence stratigraphy principles. Review of basic fundamental concepts of surface- and facies-based physical stratigraphy. Review of architectural element analysis, sequence stratigraphic in seismic, borehole expression of sequences and overview of subsurface stratigraphic techniques.

### **GEOL5370 – SEDIMENTARY SYSTEMS**

**3 Lecture Hours · 0 Lab Hours**

Carbonate and clastic depositional systems, recognition of facies, systems tracts, diagenetic overprint, shelf to basin profiling, and sequence stratigraphic analysis.

### **GEOL5371 – BASIN ANALYSIS**

**3 Lecture Hours · 0 Lab Hours**

Topics include: the classification and characteristics of sedimentary basins and the mechanisms forming them; and the tectonic, climatic, and eustatic controls on basin subsidence and the basin fill. Applications include the influence of basin evolution on petroleum generation, migration, and accumulation. Prerequisite GEOL 3442 (Sedimentology and Stratigraphy).

### **GEOL5372 – STRUCTURAL GEOMETRY AND TECTONICS OF PETROLEUM FIELDS**

**2 Lecture Hours · 1 Lab Hour**

Structural styles of thin-skinned, basement involved and reactivated systems in shortening, extensional and strike-slip deformation. Use of structural modeling and restoration methods to test the reliability of structural interpretations.

### **GEOL5373 – RESERVOIR CHARACTERIZATION**

**3 Lecture Hours · 0 Lab Hours**

Principles, protocols, analysis and measurement of petrophysical properties (e.g., fluid content, porosity, permeability, pore size distribution, water retention curve, imbibition) of petroleum reservoir rocks.

### **GEOL5374 – SEISMIC INTERPRETATION**

**3 Lecture Hours · 0 Lab Hours**

Introduction to the methods of acquisition and processing as they relate to the interpretation of seismic records. Structural and stratigraphic interpretation methods and pitfalls using two and three dimensional seismic data. Introduction to Seismic Interpretation Software such as the Kingdom Suite from Seismic Micro Technology, Inc. Prerequisite GEOL 5345 or concurrent enrollment.

## **GEOL5375 – INTRODUCTION TO WELL LOG INTERPRETATION AND MAPPING**

**2** Lecture Hours · **2** Lab Hours

Introduction to the various types of well logs used in the petroleum industry and their petrophysical interpretations, including evaluations of porosity, water saturation, shale volume, permeability, and lithology. Introduction to techniques of contouring data and use of mapping software such as PETRA. Prerequisite GEOL 5345 or concurrent enrollment.

## **GEOL5381 – RESEARCH IN GEOLOGY**

**3** Lecture Hours · **0** Lab Hours

Independent study in various areas of research including paleontology, stratigraphy, tectonics, structural geology, sedimentology, geochemistry, petrology, geophysics, and volcanology. May be repeated for credit. Graded R.

## **GEOL5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

Graded F, R.

## **GEOL5405 – METEOROLOGY AND CLIMATOLOGY**

**3** Lecture Hours · **3** Lab Hours

A quantitative approach to the study of the structure, energy, and motions of the atmosphere.

## **GEOL5409 – APPLIED GEOPHYSICS**

**3** Lecture Hours · **3** Lab Hours

Geophysical Techniques used to determine the presence and extent of deposits of minerals and the subsurface structure of selected localities from field methods.

## **GEOL5410 – PHYSICAL OCEANOGRAPHY**

**3** Lecture Hours · **3** Lab Hours

Oceanographic instrumentation and measurements; physical properties of sea water; heat and salt budgets; thermal distribution; wind-driven and thermohaline circulation; mass of the world's oceans; waves and tides. Prerequisites: PHYS 1443; MATH 2425

## **GEOL5698 – THESIS**

**0** Lecture Hours · **0** Lab Hours

Graded F, P, R.

## Mission and Philosophy

The mission of the graduate Architecture and Landscape Architecture programs is to prepare students for sustained contributions and leadership in the design professions. This mission occurs in partnership with the larger University. Together the programs and the University share the aim of educating broadly to the demands of a complex society and, more specifically, to the demands of sophisticated and changing professions.

## History and Overview

Architecture was first taught at what is now The University of Texas at Arlington in the early 1940s as a two-year, non-degree program within the School of Engineering. In 1968, with the support of professional architects in the Dallas/Fort Worth area, architecture became a department of the College of Liberal Arts, granting the degree of Bachelor of Science in Architecture. The department prospered, and by 1973 a decision was made to establish a separate school of architecture based on a four-year undergraduate program with a two-year master of architecture program as the professional degree.

By 1978, the School of Architecture and Environmental Design (as it was named in 1974) had an enrollment of more than 1,000 students with 31 full-time faculty. Four programs were included at that time: architecture, interior design, landscape architecture, and city and regional planning. Subsequently, planning moved to the Institute of Urban Studies. In 1989, the school was renamed the School of Architecture.

Architecture and landscape architecture are seen as both the means and the goal of the education we offer. As *means*, our fields provide a ready path to the larger domain of ideas, history and the human condition. Architecture was seen, after all, as one of the essential liberal arts during the Renaissance. As *goals*, our fields call upon us to learn specific professional knowledge and skills they focus our attitudes and abilities to produce tangible, concrete things. This demand that we alternately widen and narrow our vision is one of the great strengths of the fields and is one source of their effectiveness as courses of study.

Within a broad curriculum, design as a discipline and a process is emphasized. Students are encouraged to give rich visual and material substance to both theoretical and pragmatic ideas. The context for design at UT Arlington centers on the contemporary urban condition, an approach

appropriate for a school at the heart of a diverse, expanding and internationally oriented region like Dallas/Fort Worth.

The school's location at the center of the Dallas/Fort Worth area is especially important for students of architecture and landscape architecture. Almost every cultural, social and professional opportunity is nearby. The urban setting serves as a laboratory to observe the issues that confront current design and to test the proposals put forward. Built work by many of the foremost contemporary architects and landscape architects may be experienced and studied firsthand. Kahn, Pei, Wright, Johnson, Meier, Legoretta, Rudolph, Giurgola, Barnes, Predock, Holl, KPF, Kiley and Walker all have major projects here.

The School of Architecture offers large and up-to-date facilities for research and study. Constructed in 1984, the Architecture Building houses studios, classrooms and offices in addition to a CAD laboratory, a photography studio, a materials shop, a slide library and the Architecture and Fine Arts Library, with 40,000 books and 190 periodicals. The UT Arlington Libraries contains more than 1 million volumes, and students have access to The University of Texas System Library, which house 12 million volumes.

The School of Architecture has an enrollment of approximately 1,000 students, of whom about 160 are graduate students. They come from all parts of the United States and the world; more than 20 percent are international students. About one-third of the graduate students are women.

In terms of recognition of quality, 134 School of Architecture students have received awards in 63 major design or research competitions over the last 10 years, most at the national or international level. This unsurpassed record of competitive accomplishment reflects the education focus of the school. Developed student abilities, along with a tradition of integrating work and academic experience, give UT Arlington graduates ready entry and advancement in the professional world.

### **Accreditation**

The school offers the Master of Architecture and the Master of Landscape Architecture as first professional degrees in the respective programs. The former is accredited by the National Architecture Accrediting Board and the latter by the Landscape Architecture Accrediting Board. The M.Arch. and the M.L.A. taken as second, or post-professional degrees, do not carry professional accreditation.

### **Scholastic Activity and Research Interests of the Faculty**

The faculty-full-time, adjunct and part-time-are involved in their areas of academic and professional interest. This takes many forms: built projects, design studies and competitions, scholarly writing and applied research. This work enriches the teaching mission and provides contributions to the larger community. For a detailed listing of faculty activity, see the **Faculty Catalog**, available from the School of Architecture.

### **Special Programs and Opportunities**

Visiting faculty members are an integral part of the graduate program at UT Arlington. Noted teachers from other schools in the United States and abroad as well as distinguished practicing designers offer advanced studios and courses each year. Thus, students have access to both a core of permanent faculty members and to a changing spectrum of approaches and values. In addition to on-campus coursework, graduate students may study and travel abroad as an integrated part of the curriculum. The school maintains semester-long, full-credit student exchanges during the academic year with architecture schools at the Universities of Barcelona (Spain,) Lund (Sweden,) Innsbruck (Austria,) and Cottbus (Germany.) During the summer, there is a full-credit, five-week travel program to Rome, Florence and Verona, Italy.

## Programs

Graduate programs include the Ph.D. in Business Administration and the Master of Business Administration at the college level and ten master's level specialized programs in the departments. All programs are listed below.

### Graduate Programs at the College Level

- **Master of Business Administration**
- **Executive Master of Business Administration**
- **Ph.D. in Business Administration**

### Specialized Programs at the Department Level

- **Master of Professional Accounting**
- **Master of Science in Accounting**
- **Master of Science in Taxation**
- **Master of Arts in Economics**
- **Master of Science in Health Care Administration**
- **Master of Science in Information Systems**
- **Master of Science in Marketing Research**
- **Master of Science in Human Resource Management**
- **Master of Science in Quantitative Finance**
- **Master of Science in Real Estate**

## **Mission and Philosophy**

### **History and Overview**

### **Accreditation**

### **Scholastic Activity and Research Interests of the Faculty**

### **Special Programs and Opportunities**

- **Special Students**
- **Dual Degree Programs**
- **Professional Programs in Accounting (PPIA)**
- **Fast Track Programs**
- **Facilitated Admission of Outstanding UT Arlington Undergraduates**
- **Internship Program**
- **Study Abroad/Exchange Programs**

### **Waivers and Transfer Credit**

## **Mission and Philosophy**

The College of Business strives to be a recognized contributor in the field of business education and research. It is our mission to build and maintain a quality educational environment, creating value for our constituencies.

Our achievement-focused programs produce quality graduates at all degree levels. These programs respond to changing needs and opportunities, generate and communicate new knowledge and ideas to benefit the scholarly, public and private sectors, and provide a wide range of intellectual and professional services locally, regionally, nationally and internationally.

Our philosophy can be summarized in the following objectives:

1. To discover and disseminate knowledge that, through its relevance and rigor, benefits our students, practitioners and other constituencies.
2. To continue to develop and provide instructional programs that meet the needs of our students: part-time, full-time, employed and international.
3. To maintain a rigorous and effective client-focused environment that capitalizes on our urban setting.
4. To continually improve all our academic programs, with special emphasis on master's programs, to effectively address the diversified needs of the Dallas/Fort Worth Metroplex.
5. To further our community interaction by offering off-campus courses, distance education and professional development seminars.
6. To enhance the visibility of the college and improve its financial strength through increased external funding.
7. To provide advisory services to academic, professional and other organizations.

## **History and Overview**

Since its origination in 1959, the College of Business has been one of the fastest growing business schools in the nation. This growth has mirrored the dynamic growth of the D/FW Metroplex as the college has worked hard to provide high quality educational programs. The college is organized into six academic departments: Accounting, Economics, Finance, Information Systems and Operations Management, Management, and Marketing. A total of 103 full-time equivalent faculty organize and conduct classes, including 88 with doctoral degrees from some of the top schools in

the nation. The college currently enrolls 5,500 students, of whom more than 1,500 are enrolled in 12 graduate business programs.

## Accreditation

The University of Texas at Arlington and its College of Business is fully accredited in business and accounting at both the undergraduate and graduate levels by the AACSB-International.

## Scholastic Activity and Research Interests of the Faculty

Many of the faculty have professional certifications and years of experience in the business world, including serving as consultants, expert witnesses, and in other professional capacities. They actively engage in research that enables them to be at the forefront of the discovery of new knowledge in their fields. All these activities allow them to bring professional experiences and new ideas into the classroom.

## Special Programs and Opportunities

### The Graduate Advanced Studies Program

This is a certificate program open to those holding a graduate degree in a business field. Applicants must meet normal MBA admissions requirements and complete 12-21 semester hours of graduate courses in a specified area. This is an excellent way for business professionals to update their business skills in advanced areas.

### Special Students

An applicant can gain admission as a special student in the College of Business, but he/she must meet the same admission requirements as those unconditionally admitted. In order to take masters and/or doctoral level courses in the College of Business, a student must be admitted as a graduate student.

### Dual Degree Programs

The college offers a rich array of dual degree opportunities that build synergistic skill sets that prepare students for more advanced career opportunities. While most dual degree programs include two graduate business degrees, the Professional Management Option in the MBA program allows professionals with undergraduate degrees in engineering, architecture, nursing, education, and urban affairs to complete a master's degree in that field along with the MBA. Dual degree programs allow students to earn two degrees with a substantial reduction in course requirements. The MBA Program also offers a special dual degree with Thunderbird School of Global Management.

### Professional Programs in Accounting (PPIA)

The PPIA program is designed to meet the needs of exceptional students. The Professional Program in Accounting allows a student to earn both a bachelor of business administration and master of science in accounting or taxation. Once accepted into this integrated program, students may enroll in graduate courses prior to completing their undergraduate degree. The program may be completed in approximately one less semester than required to earn separate bachelor's and master's degrees.

### Fast Track Programs

The Fast Track Program enables outstanding undergraduate UT Arlington Business students to satisfy degree requirements that will lead to a master's degree in Business Administration (MBA), Human Resource Management, Real Estate, Information Systems, or Economics while completing

their undergraduate studies. If admitted, students will be allowed to take select graduate courses that may be used to satisfy both bachelor's and master's degree requirements. Admitted students will be allowed to complete 6 to 9 hours of selected graduate coursework as an undergraduate student. A GPA of 3.0 on the graduate work is required to continue taking graduate courses. Any Fast Track student who completes the 6 to 9 hours of graduate coursework with grades of B or better will be automatically admitted to Graduate School. The student would then be awarded his or her bachelor's degree. The student will not be required to take the GMAT, complete the Graduate School Application, and will have the related application fees waived.

### **Facilitated Admission of Outstanding UT Arlington Undergraduates**

The following programs participate in the Facilitated Admissions program: Master of Business Administration, Master of Arts in Economics, Master of Science in Human Resource Management, Master of Science in Information Systems, Master of Science in Marketing Research and Master of Science in Real Estate. Students pursuing Facilitated Admission must demonstrate quantitative proficiency. For details on admission into the program please refer to UT Arlington's Graduate Catalog Special Admissions Programs under Admission Requirements and Procedures.

### **Internship Program**

Graduate students are encouraged to participate in internships to supplement and complement classroom education by providing valuable experience and training in their chosen area of expertise. Internships allow students to meet and interact with professionals in the work setting, identify and develop critical professional skills, clarify their own career goals and interests, and develop important contacts for future development. This internship program is open to all graduate students who have completed nine hours of graduate courses, are in good academic standing (GPA => 3.0), and have secured their advisor's approval for up to three hours of graduate credit. Interested students should ask for a fact sheet and an application in the Graduate Business Services Office. After gaining the advisor's approval, students will complete an application and meet with the appropriate departmental internship coordinator. Once an internship is obtained, the coordinator will monitor progress and assign a Pass/Fail grade.

### **Study Abroad/Exchange Programs**

The leaders for the 21st century will be deeply involved in business opportunities around the world. Study abroad/exchange programs are available to help students prepare in both curricular and extracurricular ways for these future international leadership roles. Students wishing to study abroad are encouraged to review the many opportunities contained in the Study Abroad Library in the International Office. Once a specific program is identified, students discuss the available courses with their advisor to ensure they meet degree requirements. Depending on their terms, study abroad/exchange programs may allow students to complete courses as resident credit or as transfer credit.

### **Waivers and Transfer Credit**

There are three types of required courses: deficiency, core and advanced. Applicants may have both deficiency and core courses waived without the requirement for a substitute course if they have completed a similar course, during the last 10 years, at a recognized college or university and received a "B" or better grade (3.0) in that course.\* Extensions to this 10-year limit may be granted for managers and executives who have completed educational activities to remain current or have extensive related experience.

A maximum of 9 hours of advanced coursework may be transferred in from other AACSB accredited schools if approved by the program advisor. Transfer of graduate courses from other universities will be considered on a case-by-case basis. All work submitted for transfer credit must have been completed no more than six years before completion of a graduate program at the University of Texas at Arlington.

\* Note: The University of Texas at Austin offer Business Foundations Programs (BFP) for non-

business majors that provide solid foundations in basic business concepts. BFP courses and courses from equivalent programs for non-business majors at other colleges/universities may not be used for course waiver credit.

### Mission

The mission of the College of Education and Health Professions (COEHP) is to promote a collaborative culture of excellence in research, teaching, and service. The College is committed to fostering critical, creative thinkers prepared to engage meaningfully in a dynamic society.

### History and Overview

In 1979, The Center for Professional Teacher Education, now the College of Education and Health Professions, began offering coursework at the graduate level. In the late 1980s, a Master of Education and Teaching degree (M.Ed.T.) was approved. This degree served teachers who wanted the opportunity to extend their knowledge base in education and related fields with graduate coursework. The degree enabled students to combine graduate coursework in education with study in an academic discipline related to their teaching field or specialization. Its success led to the expansion of education offerings to include additional certifications in Reading and Educational Administration as well as supplemental certification in Bilingual Education (BIL), English as a Second Language (ESL), and Gifted and Talented (G/T).

As one of only a few Texas universities authorized to offer post baccalaureate teacher certification at the graduate level, the College of Education and Health Professions began offering graduate level teacher certification with an M.Ed.T. in the summer of 1998. With expansion of program offerings, the M.Ed.T. no longer met the needs of all degree-seeking students. In 1999, the College of Education and Health Professions added two new master's degree programs, a Master of Education (M.Ed.) in Educational Leadership and Policy Studies and a Master of Education (M.Ed.) in Curriculum and Instruction.

The M.Ed.T. is now offered exclusively to students seeking teacher certification (early childhood - grade 6, middle level, secondary and all level) at the graduate level. The M.Ed. in Educational Leadership and Policy Studies is available to students pursuing principal certification, principal certification emphasizing dual language, as well as higher education administration. The M.Ed. in Curriculum and Instruction (C&I) is for educators wanting to extend their knowledge in education and related fields, including science and mathematics. The M.Ed. in C&I also serves students wanting to earn a master's degree along with Reading Specialist Certificate and the Master Reading Teacher Certificate. The Department also offers the M.Ed. in C&I with science, mathematics, or social studies education as specialization areas. Supplemental certification in Bilingual Education and English as a Second Language may also be added to the M.Ed. in C&I. Superintendent certification is also available.

The Doctor of Philosophy (Ph.D.) in K-16 Educational Leadership and Policy Studies was first offered in the summer of 2007. With advancements in technology, many graduate courses are available via the Internet with additional courses being added each semester. The College of Education and Health Professions has an enrollment of more than 1,000 students with approximately 600 students pursuing graduate level degrees certificates.

## Scholarly Activity and Research Interests of the Faculty

College of Education and Health Professions faculty members strive to model the characteristics of the most proficient professional educators for all students aspiring to membership in the education and exercise, sport and health studies professions. Faculty members in the College of Education and Health Professions have consistently achieved recognition for their excellence in teaching in the University and beyond. They have received numerous honors, including the University of Texas System Board of Regents Outstanding Teaching Award, UT System Chancellor's Council Teaching Award, election to UT Arlington's Academy of Distinguished Teachers, and the Piper Professor award at the state level. They have also served as guest lecturers at universities across the country. In addition, numerous faculty members have received recognition for their scholarly publications and professional contributions.

The College of Education and Health Professions also values faculty scholarship for its potential impact on the increased effectiveness of teaching and learning in professional education preparation programs and in public and private school settings. Scholarly and research activities cover a variety of areas represented by the expertise of each individual faculty member.

Evidence of service to the College of Education and Health Professions, the University, the community and the practicing profession is also expected of the faculty. This includes service to local constituencies such as school districts, education service centers, parent-teacher groups, professional associations, and/or other agencies and organizations dedicated to the improvement of teaching and learning, as well as involvement in outreach programs, community events, civic leadership, and the promotion of alumni support and involvement. The extensive service activities of faculty members in the various departments have garnered additional awards from the University, the community, the state, and a variety of professional organizations.

### Department of Curriculum and Instruction

Curriculum & Instruction faculty scholarship focuses on a wide range of topics associated with teaching and learning. These include improving the effectiveness of instruction in various content areas; studying family support for learning; addressing issues associated with social sciences; using technology to enhance distance education instruction and student mentoring; online supplemental student teacher supervision; the effectiveness of service learning; the connections among brain physiology, cognition, and education; and effective practices in school counselor preparation. Funded projects include providing UT Arlington students as mentors to high school students for college success, math and science cohorts and camps, improving sustainability in post-secondary education, including college success strategies in educator preparation coursework. For more information about programs in Curriculum and Instruction in the College of Education and Health Professions, go to <http://www.uta.edu/coehp/curricandinstruct/>

### Department of Educational Leadership and Policy Studies

In the area of educational administration, research activities and publications have focused on school leadership trends, developing collaborations among the University, public, private and charter schools, fostering creativity in learning organizations, and studying school legal, policy, governance, and finance issues. Current focus is on transition research relative to students, faculty, and leadership across PK-16 school settings, between high school and beyond, and transitions between leadership levels. Other research examines how the media portrays educators and the education profession. See <http://www.uta.edu/coehp/educleadership/> for additional information about programs in Educational Leadership and Policy Studies in the College of Education and Health Professions.

### Department of Kinesiology

Faculty research interests and publications include dynamic regulation of blood pressure, pulmonary responses to exercise, postural control in elderly, the effects of therapeutic modalities on the treatment of athletic injuries, the effects of hyperbaric oxygen on the treatment of diseases, applied biomechanics, assessment and management of sports-related concussions, motor development, adapted sports, and sports pedagogy. For more information on Kinesiology

programs in the College of Education and Health Professions, see <http://www.uta.edu/coehp/kinesiology/>

## Special Programs and Opportunities

The College of Education and Health Professions offers a variety of special opportunities for learning and professional growth for graduate students. A variety of clinical field experiences, visiting authors and experts, membership in professional organizations, and specialized library resources are some of the special programs and opportunities that enrich students.

- Several graduate courses offer links to field experiences that greatly enrich the course content. This includes regular observation and participation in PK-12 classrooms and individualized administrative practicums for students seeking Principal Certification, and summer literacy clinics that bring children to campus to work with graduate students earning the Reading Specialist Certification.
- Graduate courses routinely host authors and experts in various areas to share their experiences and insights. Guests include outstanding professors from other area universities, award-winning educators, and others.
- Student organizations offer graduate students leadership opportunities.
- Student awards, scholarships, and graduate assistantships are available to graduate students who qualify.
- To support College of Education and Health Professions programs, the Library houses a Curriculum Collection and a Juvenile Collection for student use in conjunction with their education coursework.
- The Department of Kinesiology presents two lecture series each semester: the Anderson Sports Performance Lecture Series and the UTA/American College of Sports Medicine Lecture Series.
- The College of Education and Health Professions offers creative and flexible scheduling of graduate coursework to meet the needs of professional educators, including Saturday, weekend, interim and evening classes year-round.
- Distance learning via the Internet is available for an increasing number of courses.

## Education Career Services

[www.uta.edu/coehp/career](http://www.uta.edu/coehp/career), 817.272.2831, or [education.careerservices@uta.edu](mailto:education.careerservices@uta.edu).

The Education Career Services office assists education students who are seeking positions as teachers and administrators. Positive collaborative relationships with partners in the various school districts are important to the College, the districts and students. The annual College of Education and Health Professions Career Day is held in March and typically hosts over 50 school districts. Employers can list position vacancies as well as district job fairs with Education Career Services. In addition, Education Career Services offers career planning seminars, which include guidance on resume writing and developing strong interviewing and networking skills. The ultimate goal is to prepare UT Arlington students for the next step in their career development as professional educators and administrators.

## Online Master's Degrees

The College of Education and Health Professions offers graduate students convenience and quality with a master's degree in Curriculum and Instruction available entirely via the Internet. This program option includes cutting-edge graduate courses that can also lead to three Texas professional credentials: Reading Specialist, Master Reading Teacher Certifications and English-as-a-Second Language Certification. Students from as far away as New York, Georgia, and Nebraska as well as Americans teaching abroad have enrolled in online courses through this award-winning program. Contact: Dr. Joyce Myers, [rjem@uta.edu](mailto:rjem@uta.edu).

In addition, the College of Education and Health Professions offers graduate degree programs that are fully online through Academic Partnerships. These graduate programs lead to Master of Education degrees in Literacy Studies, Science Education, Mathematics Education, and Educational Leadership and Policy Studies, as well as a Superintendent Certificate. For more information on our online Academic Partnership programs, go to <http://stateu.com/uta/SearchPrograms.aspx?StudyArea=60>

## Certification and Advising Services

**Patty Motlagh**, Assistant Dean for Student Affairs

Certification and Advising Services helps students succeed by providing the information and support services needed to achieve their academic and career goals. The academic advisors are available to assist students in various stages of preparing for or furthering their careers as educators and school administrators.

Certification and Advising Services also provides information and advising regarding admission requirements and degree plan options, as well as the academic content areas, field-based experiences, state examinations, and application procedures needed to obtain teacher, principal, superintendent, and special program certification in Texas.

To schedule an advising appointment: 817.272.2956

For advising questions: [coehpadvising@uta.edu](mailto:coehpadvising@uta.edu)

## Recommendation to the State Board for Educator Certification

To be eligible for certification under all programs, a candidate must meet specific criteria set by the College of Education and Health Professions, the University, and the Texas Education Agency/State Board for Educator Certification. To be recommended to the Texas Education Agency/State Board for Educator Certification for initial teacher certification, a teacher candidate must have successfully completed the following:

Effective fall 2007, students must pass all appropriate state exams and apply for appropriate state certifications with the State Board for Educator Certification/Texas Education Agency within six months of the completion of their residency/practicum/program. If a student allows the six-month period to go by without passing all state exams and applying for certification, additional coursework and/or state exams will be required for recommendation for certification. Additional coursework will be determined by the appropriate Program Director in consultation with the faculty.

### Teacher Certification

Before you apply for certification as a teacher, please make sure you have completed the following requirements (subject to verification by the Assistant Dean for Student Affairs):

1. Conferred Bachelor's Degree (or higher);
2. Completed all courses on the certification plan;
3. Completed all appropriate TExES exams;
4. Completed Student Teaching or one year of approved internship on a probationary certificate.

If you do NOT meet these requirements, please wait to apply for certification until you do. If you do apply before these requirements are completed, your application will be automatically deleted. Apply at the State Board for Educator Certification (SBEC).

### Principal or Superintendent

Before you apply for certification as a Principal or Superintendent, please make sure you have completed the following requirements (subject to verification by the Assistant Dean for Student Affairs):

1. Conferred Master's Degree (or higher);

2. Completed all courses on the certification plan;
3. Completed all appropriate TExES exams;
4. Valid teaching certificate;
5. Two years of classroom teaching experience.

If you are a candidate who is applying for Principal or Superintendent certification, you must request that your school district mail a copy of your teacher service record indicating you taught for at least two years. Please request that your school district mail your teacher service record to the Assistant Dean for Student Affairs in the College of Education and Health Professions at UT Arlington. Then, apply to the State Board for Educator Certification (SBEC).

### **Master Reading Teacher**

If you are applying as a Master Reading Teacher, and are already certified as a Reading Specialist, please make sure you have completed the following requirements (subject to verification by the Assistant Dean for Student Affairs):

1. Bachelor's Degree (or higher);
2. Three years of teaching experience (service record required);
3. Completed course work.

If you are applying as a Master Reading Teacher, and are NOT already certified as a Reading Specialist, please make sure you have completed the following requirements (subject to verification by the Assistant Dean for Student Affairs):

1. Bachelor's Degree (or higher);
2. Completed course work;
3. Passed Master Reading Teacher TExES.

If you do NOT meet these requirements, please wait to apply for certification until you do. If you do not apply before these requirements are completed, your application will be automatically deleted.

If you are a candidate who is applying as a Master Reading Teacher, you must request your school district mail a copy of your teacher service record indicating you taught for three years. Please request your school district mail your teacher service record to the Assistant Dean for Student Affairs in the College of Education and Health Professions at UT Arlington. Then, apply to the State Board for Educator Certification (SBEC).

### **Office of Professional Development**

The Office of Professional Development supports partnerships between the College of Education and Health Professions and PK-16 schools and their communities. Partner public school districts and the College of Education and Health Professions collaborate to provide high-quality learning environments for future teachers. Prospective teacher candidates apply their knowledge of content and pedagogy during both a Field-Based Experience semester and a Student Teaching semester arranged through the Office of Professional Development. The Field-Based Experience semester gives teacher education candidates the opportunity to observe and interact with diverse student populations in a variety of formal and informal educational settings at partnership schools. During the Student Teaching semester, these pre-service teachers refine their teaching skills by working directly with students in classrooms, at designated public schools in the candidate's area of certification, guided by a cooperating mentor teacher and supervising university faculty. The Office of Professional Development coordinates the annual College of Education and Health Professions Career Day held in March and typically hosts over 50 school districts. Contact: Dr. Denise Collins, Director, Office of Professional Development, 817.272.7448, [dacollins@uta.edu](mailto:dacollins@uta.edu).

### **Office of Development and Leadership Gifts**

The Office of Development and Leadership Gifts plans, manages and directs the College of Education and Health Profession's comprehensive development program. This entails working with alumni, corporations, foundations, and friends to raise private gifts that will support and

enhance the College's strategic priorities for academic programs, student services, research efforts and outreach activities. The office works with the College of Education and Health Professions faculty and administration in the identification, cultivation, solicitation and stewardship of donors and prospects. Contact: Cathleen Anderson, Director of Development, 817.272.7451, [cfanderson@uta.edu](mailto:cfanderson@uta.edu).

### National Accreditation

The Office of the Associate Dean for Assessment provides leadership, direction, and oversight for the assessment and continuous improvement processes for national accreditation in the College of Education and Health Professions, including unit effectiveness and academic affairs as they relate to assessment and accreditation requirements. Contact: Dr. Carrie Y. Barron Ausbrooks, Associate Dean for Assessment, 871.272.5310, [causbrooks@uta.edu](mailto:causbrooks@uta.edu).

## Centers and Programs in the College of Education and Health Professions

### Southwest Center for Mind, Brain and Education

The mission of the Southwest Center for Mind, Brain and Education is to facilitate collaborative relationships among educators, policy makers, and researchers in the cognitive and developmental sciences. The Center seeks to identify and support promising research agendas at the intersection of mind, brain and education. Researchers, educators and policy makers will find a forum where ideas are welcomed and at the same time critically and rigorously examined. The Center invites individuals interested in how advances in neuroscience, genetics, and cognitive science can inform educational practice and leadership. The Center also seeks to advance educational research by recognizing, and profiting from, the role that practical experience plays in defining promising research directions. Contact: Dr. Marc Schwartz, Director, 817.272.5641, [schwarma@uta.edu](mailto:schwarma@uta.edu).

### Center for Educational Technology

The College of Education and Health Professions and UT Arlington are committed to ensuring that all learners have equitable opportunities to employ a variety of technological tools to enhance the learning process. Educational technology provides the opportunity to offer education anywhere, any time for everyone. The Center for Educational Technology addresses statewide technology initiatives for teachers and students in the State of Texas. The Center supports the faculty and students in their efforts to successfully use and understand the many new technology tools and strategies. The Center for Educational Technology also assists faculty in the development and implementation of interactive technologies, which increases the effectiveness of their pedagogy. Contact: Dr. Dana Arrowood, 817.272.7449, [arrowood@uta.edu](mailto:arrowood@uta.edu).

### Center for K-16 Education Policy and Research

The mission of the Center for K-16 Education Policy and Research, founded in the Department of Educational Leadership and Policy Studies at UT Arlington, is to produce and disseminate cutting-edge research on K-16 education and to inform education policy and practice. We are guided by the belief that educational leadership and opportunity are strengthened by research that takes systemic, integrated approaches to understanding persistent problems across the educational continuum. Contact: Dr. Daniel Saunders at [saunders@uta.edu](mailto:saunders@uta.edu).

### Center for Healthy Living and Longevity

The Department of Kinesiology's Center for Healthy Living and Longevity provides a multidisciplinary approach to improving health and functioning throughout the lifespan. Research and education initiatives focus on keeping senior citizens active, decreasing the incidence of sedentary-related diseases (diabetes, cardiovascular disease, osteoporosis, obesity, etc.), and the assessment and management of concussions. Contact: Dr. Christopher Ray, Director, 817.272.0082, [chrisray@uta.edu](mailto:chrisray@uta.edu).

## Center for Bilingual Education

Created in response to the growing number of English language learners, the Center for Bilingual Education strives to increase the number of qualified bilingual and ESL teachers in Texas. The Center prepares pre-service and in-service teachers to work with linguistically and culturally diverse student populations. The Center also provides technical support to school districts in their implementation of dual language, bilingual and ESL education programs. Additionally, the Center offers preparation for the certification examinations in the areas of the EC-6 Bilingual Generalist and the Bilingual Target Language Proficiency Test--Spanish. For information, contact Dr. Luis Rosado, Director, 817.272.7567, [rosado@uta.edu](mailto:rosado@uta.edu).

## Center for Social Studies Education

The goals of the Center for Social Studies Education are to advance social studies education research, improve social studies teacher preparation, and provide outreach to social studies learners and their teachers. The Center includes faculty from the College of Education and Health Professions, the College of Liberal Arts, and the College of Business. The Center faculty coordinate social studies teacher certification at UT Arlington, establish targeted partnerships to advance educational opportunities and excellence in social studies for under-represented and under-served populations, and facilitate collaborative relationships across colleges and universities for the advancement of P-16 teaching and learning in disciplines such as history, geography, economics, and political science. Contact: Mary Curtis, Director, [mary.curtis@uta.edu](mailto:mary.curtis@uta.edu) or <http://www.uta.edu/socialstudies>.

## UTeach Arlington and the Center for Science Education

UTeach Arlington is a science and mathematics secondary teacher preparation program jointly offered by the College of Science and the College of Education and Health Professions. It features early field experiences in PK-12 schools, guidance from Master Teachers, and scholarship and internship opportunities. UTeach courses will be added gradually over the next few years; therefore, the program is currently limited to students who will be graduating in spring 2014 or later. Students who are interested in mathematics or science education, but will be graduating prior to spring 2014, should pursue the existing secondary certification program offered through the **College of Education and Health Professions**. Secondary certifications include Composite Science, offered in the Departments of Biology and Earth and Environmental Sciences; Life Science, offered in the Department of Biology; Physical Science, offered in the Departments of Physics and Chemistry and Biochemistry; Chemistry, offered in the Department of Chemistry and Biochemistry; Physics/Mathematics, offered in the Department of Physics; and Mathematics, offered in the Department of Mathematics. Descriptions of these programs are provided in each department's section of this catalog. For information, contact: Dr. Ann Cavallo, Co-director, College of Education and Health Professions, [cavallo@uta.edu](mailto:cavallo@uta.edu); Dr. Greg Hale, Co-director, College of Science, [greghale@uta.edu](mailto:greghale@uta.edu); Dr. Ramon Lopez, Co-director, College of Science, [relopez@uta.edu](mailto:relopez@uta.edu); Erin Gonzales, UTeach Arlington Academic Advisor, 817.272.0784, [egonzales@uta.edu](mailto:egonzales@uta.edu); or visit <http://www.uta.edu/cos/uteach/index.html>.

## School Counseling Certification

The Counseling Certification Program at UT Arlington is designed for teachers who hold a master's degree in an Education-related area and who have at least two years of teaching experience. At the end of the required 15 hours of graduate coursework, successful candidates must pass the TExES certification examination for School Counselors. This will qualify them to hold positions as school counselors at any level (Pre-K through 12) in Texas schools. The six-course, 15-hour counseling program will be taught on campus during after-school hours. A six-hour supervised counseling practicum will take place in schools or on campus with school-age children. The practicum hours must be successfully accomplished in order for the candidate to be approved by UT Arlington to take the state examination. A school counselor needs to acquire the academic knowledge and skills necessary to do the job but must also have a personality, or disposition, appropriate for the helping professions. Candidates will be expected to complete the supervised practicum that will allow them the opportunity to demonstrate they can work successfully with

students and others in the educational environment. Admission requirements to the program include a completed master's degree from an accredited university in any approved area; transcripts of both undergraduate and graduate coursework; a minimum of two completed years of successful teaching either in public or private schools in any grade, K-12; an interview; and letters of recommendation from professionals. See the College of Education and Health Professions Web site at [www.uta.edu/coehp](http://www.uta.edu/coehp) or contact program director Dr. Mary Lynn Crow ([mlcrow@uta.edu](mailto:mlcrow@uta.edu)) for additional information about the program and an application.

## Degrees and Certifications

Graduate work in the College of Education and Health Professions at UT Arlington may lead to the following degrees and certifications:

### Degrees

- Master of Education in Teaching (M.Ed.T.) – Early Childhood - through Grade 6
- Master of Education in Teaching (M.Ed.T.) – Middle Level
- Master of Education in Teaching (M.Ed.T.) – Secondary Level
- Master of Education (M.Ed.) in Curriculum and Instruction
- Master of Education (M.Ed.) in Curriculum and Instruction – Literacy Studies
- Master of Education (M.Ed.) in Curriculum and Instruction – Reading Specialist
- Master of Education (M.Ed.) in Curriculum and Instruction – Science Education
- Master of Education (M.Ed.) in Curriculum and Instruction – Mathematics Education
- Master of Education (M.Ed.) in Curriculum and Instruction – Social Studies Education
- Master of Education (M.Ed.) in Mind, Brain and Education
- Master of Education (M.Ed.) in Educational Leadership and Policy Studies
- Master of Science (M.S.) in Exercise Science
- Doctor of Philosophy (Ph.D.) in K-16 Educational Leadership and Policy Studies

### Online Academic Partnership Degree Programs

- Master of Education (M.Ed.) in Curriculum and Instruction – Literacy Studies (AP)
- Master of Education (M.Ed.) in Curriculum and Instruction – Science Education (AP)
- Master of Education (M.Ed.) in Curriculum and Instruction – Mathematics Education (AP)
- Master of Education (M.Ed.) in Educational Leadership and Policy Studies (AP)

### Educator Preparation Programs

- Early Childhood-Grade 6 Teacher
- Early Childhood-Grade 6 Bilingual Teacher
- Middle Level Teacher (Grades 4-8)
- Secondary Teacher (Grades 8-12)
- Reading Specialist
- Master Reading Teacher
- Principal
- Superintendent (offered online through Academic Partnerships)

### Supplemental Certification

- Bilingual Education
- English as a Second Language
- School Counseling

**Mission**

**History and Overview**

**Research Interests of the Faculty**

**Programs**

**Mission**

The mission of the College of Engineering is to meet the needs of industry and society by:

- Producing highly competent graduates at the baccalaureate, master's and doctoral levels,

- Performing state-of-the-art research in the disciplines comprising the diverse fields of engineering, and
- Providing service to the community and engineering profession through outreach programs, involvement in professional societies, consulting, and interaction with industry and government.

## History and Overview

The College of Engineering at The University of Texas at Arlington is the third largest engineering college in Texas, and is the largest and most comprehensive in North Central Texas, with over 3,300 students and 150 faculty members in eight disciplines. Additionally, there are more than 20 research centers producing more than \$20 million in research for government and private industry.

The engineering program at UT Arlington evolved from a two-year program that was established at North Texas Agricultural College during the 1930s and 1940s. North Texas Agricultural College became Arlington State College, and in 1959 approval was given to begin a four-year engineering program. In 1965, Arlington State College joined The University of Texas System as The University of Texas at Arlington, and the first master's degree program in engineering was approved. The first Ph.D. program in engineering was added in 1969. Construction of the Engineering Laboratory Building in 1977, the Engineering Annex in 1980, the Automation & Robotics Research Institute (ARRI) in 1987, Nedderman Hall in 1988, the Nanotechnology Research and Teaching Facility in 2001 and the Engineering Office Buildings East and West in 2003 provided additional classroom and research laboratory space for the continued growth of the College of Engineering. Currently, four buildings are in the construction or planning stages: an Engineering Research Building adjoining the main engineering buildings, an expansion of the Engineering Laboratory Building, the Civil Engineering Laboratory Building, and the Center for Structural Engineering Research.

The college is a leader in distance education, providing a convenient way for working engineers to pursue a master's degree. Starting with TAGER, a dedicated microwave communications link in 1975, courses are now distributed on the Internet in streaming video, providing a very convenient access to students. More information can be found at [www.uta.edu/engineering/distance/](http://www.uta.edu/engineering/distance/).

## Research Interests of the Faculty

There is an excellent equipment infrastructure to support research in:

- nanotechnology
- microelectronics and MEMS
- robotics and manufacturing
- materials and their characterization
- pervasive computing
- intelligent systems
- software engineering
- networking
- embedded systems
- database systems
- multimedia systems
- bioinformatics
- information technology
- security
- transportation systems
- hydrology and hydraulics systems
- geotechnical engineering
- environmental engineering

- solid mechanics
- structural analysis
- aerodynamics
- flight mechanics and control
- electronic packaging
- energy systems
- optics
- statistics and optimizations
- and many more.

There are two formal research centers, the Automation & Robotics Research Institute (ARRI) and the Nanotechnology Research and Teaching Facility (NRTF), with the directors reporting to the Dean of Engineering.

Many College of Engineering faculty members collaborate with professors and researchers in other colleges at UT Arlington and other institutions in the state, around the U.S., and around the world. Therefore, for those interested in doing research as part of graduate training, there are many opportunities to work on research projects that are either within the home department or interdisciplinary with other departments.

## Programs

Graduate work in engineering at UT Arlington may lead to the master of science or doctor of philosophy in the following programs:

- **Biomedical Engineering**
- **Civil Engineering**
- **Computer Science and Engineering**
- **Electrical Engineering**
- **Industrial Engineering**
- **Materials Science and Engineering**
- **Mechanical & Aerospace Engineering**

Master's degree programs are available in:

- Logistics
- Engineering Management
- Software Engineering
- Systems Engineering

Graduate work leading to a practice-oriented master's degree usually requires a design project, report, internship or additional coursework. Details are given in the individual program descriptions that follow.

The program in Materials Science and Engineering (MSE) is under the auspices of both the College of Engineering and the College of Science. Biomedical Engineering is a joint program of the UT Arlington Bioengineering Department in association with The University of Texas Southwestern Medical Center at Dallas. The Master of Science in Logistics and Master of Science in Engineering Management are offered in partnership with the College of Business Administration. Descriptions of these programs are in the Interdepartmental and Intercampus Programs section of this catalog.

Please visit the graduate program Web site [www.uta.edu/engineering/graduate](http://www.uta.edu/engineering/graduate) for detailed information.

## **Mission and Philosophy**

The mission of the College of Liberal Arts is to provide a learning community wherein students are provided both broad-based and specialized education and to vitalize the educational process by creating and transmitting knowledge through research, scholarship and creative activity.

The college is characterized by a diversity of intellectual styles and interests. Departments and

programs cluster into social sciences, humanities and fine arts. Liberal Arts disciplines address the rich meanings of human experience and expression and liberate the imagination by producing knowledge and creating beauty.

The faculty and administration of the college address the traditional objectives of liberal arts in the University: 1) to develop the tools for analysis, appreciation and communication; for written and oral expression; for comprehension, interpretation, and analysis of textual material; for analytic reasoning and scientific method; and for appreciation of aesthetic experience; 2) to prepare students for a range of careers in academia and public and private sector organizations. Graduates of the college contribute to the region, the state and the nation as college and university professors, elementary and secondary teachers, legal professionals, in government agencies, social services, international business and industry, media and advertising, health and recreation, and cultural and entertainment industries; and 3) to promote understanding and critical evaluation of the cultural milieu the attitudes and the ideas that shape institutions and strategies in societies.

Accomplishing these objectives culminates in students reaping the creative, utilitarian and life enriching benefits of a liberal arts education.

## History and Overview

The University of Texas at Arlington's College of Liberal Arts acquired its first graduate degrees in 1968, with the establishment of M.A. programs in English and History. Since that time, the number of M.A. programs offered has expanded to 13. In 1974, the college established its first Ph.D. level program, Humanities. The Humanities Program was reorganized in 1997 and replaced by three new Ph.D. level programs in English (Literature and Rhetoric/Composition tracks), History (transatlantic) and Linguistics. A joint Ph.D. in Philosophy with the University of North Texas was approved in 2005.

## Scholastic Activity and Research Interests of the Faculty

The faculty in the College of Liberal Arts excel in their roles as educators, creative scholars and researchers. Eight faculty members have won the Academy of Distinguished Teachers Award, and eight faculty are Chancellor's Teaching Award recipients. Two of our faculty have won the prestigious Piper Award from the UT System. Several faculty from a variety of departments in the college also have won the University Research Achievement Award. Numerous faculty have received recognition for their published scholarship, including Pulitzer Prize nominations and the *Choice* magazine Outstanding Academic Book Award. The Jenkins and Virginia Garrett Endowed Chair in Greater Southwestern Studies and the History of Cartography was created in 1995 and is currently held by David Buisseret, Ph.D. Five faculty from the College of Liberal Arts have been selected to be members of the Academy of Distinguished Scholars.

The scholarly activities and research of the faculty cover a range of areas represented within the 13 disciplines in the college. History faculty research interests center on transatlantic broadly defined, and research specializations of faculty include southern, western and southwestern history, frontier development, women and gender, urban and labor and public history. English faculty research strengths lie in the areas of American, British and comparative literatures; and rhetoric, composition and criticism. Linguistics faculty specialize in field linguistics. Numerous faculty throughout the college also conduct research on gender and women's issues. Anthropology faculty members recently became the first foreign archaeological team to excavate in Albania in more than 50 years.

## Special Programs and Opportunities

The College of Liberal Arts provides a number of special programs and opportunities for graduate students. College lecture series and seminars, conferences, publications, academic centers, library collections and an art gallery provide a mosaic of events and resources that enrich the university community.

### Lecture Series, Seminars and Conferences:

- Each year the English Department sponsors the Hermann Lecture series, which brings

scholars from UT Arlington and other universities together for discussions and master classes on an issue of general theoretical interest.

- The History Department presents the Walter Prescott Webb Memorial Lectures each March. Nationally prominent speakers make presentations on an annual topic, followed by a dinner in the University Center and a keynote address.
- Graduate students in Linguistics sponsor a Linguistics Conference each year. This conference provides an opportunity for students to begin their professional careers by organizing the sessions, reviewing paper abstracts and presenting their own research.
- The Women's Studies Program organizes an annual, month-long Women's History Month Lecture Series. Exhibits and film/video presentations also are included as part of the events scheduled during the month of April. The Women's Studies Brown Bag Colloquium is another forum for scholars, primarily UT Arlington faculty, to share their research with the University community.
- The Criminal Justice and Criminology Program sponsors a Brown Bag Lecture Series every spring semester, and students have the opportunity to receive credit for practicums.
- The Philosophy Lecture Series is sponsored by the Department of Philosophy and Humanities, together with the Philosophy Club at UT Arlington. Each semester, a philosopher of national or international reputation from another university is invited to the UT Arlington campus to lecture on a topic of current philosophical interest.
- The Department of Political Science hosts the annual Haggard Lectures, bringing in nationally and internationally known scholars in the field.
- Each spring the Department of Sociology and Anthropology hosts the annual Termini Lecture Series in Anthropology, which brings a nationally prominent anthropologist to campus to speak on topics of general interest. The speaker typically presents a public lecture and a more informal presentation, primarily for the benefit of students, on a related topic.
- The Department of History hosts an annual student conference for the graduate students.

### Publications

- The History Department publishes an annual volume comprised of Webb Lecture Series papers.
- The English Department houses the online literary review "Znine" and the online journal "Pretext."
- The Center for Theory houses the online journal "Fast Capitalism."
- Individual departments/programs publish newsletters which provide news and information about and for students, faculty and alumni.

### Centers

The College of Liberal Arts houses numerous centers designed to promote scholarship, research and teaching. These centers organize conferences, lecture series and workshops and provide a conduit for making faculty expertise available to the community. College of Liberal Arts centers are listed below and described in the Facilities for Advanced Studies and Research section of this catalog.

The Center for Criminal Justice Research and Training  
The Center for Greater Southwestern Studies and the History of Cartography  
The Center for Mexican American Studies  
The Center for Post-Soviet and East European Studies  
The Center for Social Research  
The Center for Theory  
The English Language Institute  
The International Linguistics Center  
The Language Acquisition Center

## The Women and Minorities Research and Resource Center

### Other Resources

- In support of the history M.A. and Ph.D. programs, the UT Arlington Library Special Collections houses the Jenkins Garrett Library of Texana and Mexican War historical material and the Cartographic History Library. In addition, Special Collections has material on UT Arlington's history since 1895, the history of organized labor in Texas and the Southwest, and Yucatan and Honduran archival materials.
- The Gallery at UT Arlington presents a full program of major exhibitions in its 4,000-square-foot gallery, including lectures, symposia, screenings and publications. The Gallery's program demonstrates the complementary roles of visual and verbal literacy.
- The Department of Modern Languages has a Language Laboratory which produces innovative software in language learning.
- The Department of Music offers laboratory facilities and the Fine Arts Library contains an extensive collection of recordings and publications relating to musical performance and theory.
- The Anthropology Program has a biological anthropology lab, and offers an archaeological field school every summer where students can gain academic credit for learning and applying archaeological field methods.
- Numerous student organizations exist on campus to provide students with the opportunity to interact with peers in their disciplines. These student groups include interdisciplinary organizations for graduate students interested in Medieval Studies and Rhetoric; and honor societies for Anthropology, Communication, Criminal Justice, English, History, Political Science, and Sociology, as well as specialized interest groups.
- Student awards, scholarships and teaching and research assistantships are available in many College of Liberal Arts departments and programs. Each spring the History Department awards an outstanding graduate student the Wolfskill Prize, a cash award and plaque representing superior attainment in history studies. The English Language Institute, a part of the Program in Linguistics, provides graduate teaching assistantships. A McNair Fellowship is sponsored by the Office of the Dean.
- The Dean of College also awards funds for research travel and for travel to conferences for presentation of original research.

### Programs

The College of Liberal Arts offers the following graduate degree programs:

Anthropology, M.A.  
Communication, M.A.  
Criminology and Criminal Justice, M.A.  
English, M.A., Ph.D.  
History, M.A.; Transatlantic History, Ph.D.  
Humanities, M.A.  
Linguistics, M.A., Ph.D.; TESOL, M.A.  
Modern Languages (French and Spanish), M.A.  
Music Education, M.M.  
Philosophy, joint Ph.D. with UNT.  
Political Science, M.A.; Public Administration, M.PA.  
Sociology, M.A.

**Mission and Philosophy**

The College of Nursing is an integral component of The University of Texas at Arlington and subscribes to the mission of the University. The College of Nursing prepares quality nurse health care providers through excellence in education, scholarship and service. The undergraduate and graduate academic programs prepare individuals for professional nursing roles and for collaboration with other professionals and consumers in the delivery of holistic health care.

The faculty believes learning is a continuous lifelong process and a personal responsibility. Students must be actively involved in the learning process to acquire clinical proficiency and to be socialized into professional roles. Learning experiences are implemented to achieve sequence, continuity, and synthesis of knowledge and expertise as defined by the educational outcomes. Teaching and learning are dynamic processes involving curriculum evaluation and revision based on research evidence, the needs of a multicultural society, and the changing health care system. The educational process facilitates the development of each person's potential and promotes cultural competence and assimilation of ethical principles.

Faculty and students foster an educational climate of mutual respect, honesty, intellectual inquiry, creativity, and effective communication. We contribute to the development of our profession

through the conduct of research and the dissemination and application of evidence-based knowledge. Faculty and students provide service to the community through clinical practice and leadership.

Undergraduate nursing education builds on a foundation of studies in the sciences, humanities, and arts. The baccalaureate program prepares competent, self-directed generalist nurses (Registered Nurses) who can assume increasing responsibility and leadership in the delivery of evidence-based nursing care.

Master's education builds on a foundation of undergraduate nursing education and provides specialty practice with an expanded theoretical and empirical knowledge base. The Master of Science in Nursing programs prepares Registered Nurses for advanced functional roles that require increased accountability, expertise, and leadership. Graduates are prepared to provide evidence-based health care in collaboration with other health care providers and consumers.

Doctoral education develops and advances empirical knowledge to promote evidence-based practice in the discipline of nursing. Graduates have a background to develop theories and conduct research with vulnerable populations and to assume academic, research, and leadership roles. The doctorate provides a basis for future research programs and other scholarly activities.

Lifelong learning is the responsibility of each professional nurse. Continuing education programs developed by the College of Nursing are sensitive to the influences of a changing society and respond to the continuing education needs of professional nurses in Texas.

## History and Overview

The UT Arlington College of Nursing was established in 1971 as the U.T. System College of Nursing in Fort Worth and was housed in John Peter Smith Hospital. The first baccalaureate class enrolled in fall of 1972; the graduate program (MSN) began in 1975. In 1976, the school became an academic unit of UT Arlington, moving to the campus in 1977.

The Undergraduate Program consists of the BSN and the RN to BSN programs. In addition to the Arlington campus, the RN to BSN program is offered via distance education strategies. The Graduate Program offers a Master of Science in Nursing (MSN) with preparation as a nurse practitioner in the areas of Acute Care Adult Gerontology --(1996), Acute Care Pediatric (2005), Adult Gerontology Primary Care (previously Adult and Gerontology) (2013), Family (1975), Gerontology (1984), Neonatal (2008), Primary Care Pediatric (1985) and Psychiatric-Mental Health (1995). Post-master's certificates are available in all the above nurse practitioner specialties. In addition, the UT Arlington MSN Program offers preparation in Nursing Administration (1982) and Nursing Education (2008). Nursing Administration is also offered online through the UT Arlington Academic Partnership program. A dual degree of MSN (administration major) and Masters of Business Administration (MBA) was offered in 1999 and a dual degree of MSN and Masters of Science in Health Care Administration was offered in 2001. A joint degree of MSN and Masters in Public Health (MPH) was offered with University of North Texas Health Science in Center in 2007. Certificates are offered in: Nursing Education (2001) and Advanced Nurse Educator Role (2001). A PhD in Nursing was approved in April 2003 with classes beginning in Fall 2003. A BSN-to-PhD entry option was approved in 2005, with classes beginning in Fall 2006. A Doctor of Nursing Practice (DNP) began in Fall 2009.

## Accreditation

The Master of Science in Nursing and Doctor of Nursing Practice Programs are accredited by the Commission on Collegiate Nursing Education (CCNE). The CCNE address is One Dupont Circle, NW, Suite 530, Washington, DC 20036-1120; Phone is (202) 887-6791 and fax is (202) 887-8476; and Website: [www.aacn.nche.edu/accreditation](http://www.aacn.nche.edu/accreditation). There are no accrediting agencies for PhD in Nursing programs.

## Scholastic Activities and Research Interests of the Faculty

The research programs of the College of Nursing faculty are diverse. A sampling of their areas of study includes Genomics (Dr. Barbara Raudonis); Hispanic health care (Dr. Donelle Barnes and Dr. Susan Baxley); effects of colon cleansing/ gastroenterology (Dr. Marilee Schmelzer); nursing care outcomes (Dr. Reni Courtney); leadership in nursing education (Dr. Ronda Mintz-Binder); chemical dependency and abuse (Dr. Cheryl Anderson and Dr. Diane Snow); nurses in international settings (Dr. Jennifer Gray); sickle cell disease (Dr. Phyllis Adams and Dr. Maxine Adegbola); care of the elderly (Dr. Barbara Raudonis and Dr. Kathryn Daniel); oncology (Dr. Laurie Johns); simulation instruction (Dr. Mindi Anderson and Dr. Judy LeFlore); neonatology, and very low birth weight (Dr. Judy LeFlore).

## Special Programs and Opportunities

### Smart Hospital™

Interim Assistant Dean, Dr. Judy LeFlore

The Smart Hospital™ is a simulated hospital environment complete with state-of-the-science equipment and furnishings. In this facility, students interact with and provide care to a full array of simulated patients who occupy the Emergency Department, ICU, Labor and Delivery suite, pediatric unit, Neonatal ICU, adult medical/surgical beds and the resuscitation room for large team training. Students learn utilizing simulation technology including full body interactive patient simulators, computerized scenario-based programs and individual trainers for specific skills.

### Learning Resources Center

Executive Assistant to the Dean: Lalita Thompson

The mission of the Center is to provide both undergraduate and graduate students support to develop, refine, and apply knowledge in the clinical practice of skills. Computer labs are available for student use. Faculty members are provided resources to support classroom instruction, clinical learning activities, and scholarly endeavors.

### Center for Nursing Research

Associate Dean: Dr. Michael Young

Scholarship is an essential component of the professional role in the College of Nursing. The Center provides support services to faculty and students: identifying funding sources; developing competitive proposals; writing grant applications; retrieving literature; collecting, entering and analyzing data; and disseminating research results and other scholarly products. Collaborative relationships for research with Metroplex health care agencies are in place.

### Center for Hispanic Studies in Nursing and Health

Co-Directors: Dr. Wendy Barr and Dr. Mary Lou Bond

The Center is dedicated to fostering an understanding between health care professionals and people of Hispanic origin for the purpose of increasing understanding of health and healing through research of individual experience, cultural meanings, and the structure of institutions as important variables influencing health outcomes. The Center is also committed to the provision of educational programs and services which will assist health care providers to gain the necessary knowledge and skills to deliver increasingly culturally sensitive and competent care. The Center promotes interdisciplinary and interuniversity collaboration as a strategy for development of resources to solve or deal with bicultural issues facing health care professionals.

### Rural Health Outreach Program

Director: Sylvia Rawlings

The purpose of the Center is to provide appropriate, affordable, accessible continuing education to

the nursing staffs of acute care and psychiatric hospitals, long term care facilities, home health agencies, and other health care facilities in the rural communities of North Central Texas.

### Center for Continuing Nursing Education

The mission of this Center is to provide quality continuing nursing education for the improvement of nursing practice and health care in North Texas. The program strives to be a regional center for the advancement of professional continuing nursing education and to meet the diverse needs of nurses in most every clinical specialty and all levels of functional roles.

### Programs

The Graduate Nursing Program is comprised of two departments – The Department of MSN Administration, Education, and PhD Programs and Research and the Department of Advanced Practice Nursing. The Department of Nursing Administration, Education and Research is made up of the MSN in Nursing Administration (including the dual MSN/MBA and MSN/HCAD degrees and the joint MSN/MPH programs), the MSN in Nursing Education and the PhD in Nursing Programs. The Department of Advanced Practice Nursing is made up of all Nurse Practitioner and Post Master's Nurse Practitioner Certificate Programs and the DNP Program.

### Major Areas of Study for Master's of Science in Nursing (MSN)

- **Nursing Administration**
- **Nursing Education**
- **Nurse Practitioner Programs**
  - Acute Care Adult Gerontology Nursing
  - Acute Care Pediatric Nursing
  - Adult Gerontology Nursing
  - Family Nursing
  - Neonatal Nursing
  - Primary Care Pediatric Nursing
  - Family Psychiatric Mental Health Nursing

### PhD in Nursing

## **Mission and Philosophy**

The College of Science graduate programs are committed to excellence in graduate education and research and contribute, along with other institutions in this country and throughout the world, to the expansion of scientific knowledge. Graduates of our programs are highly trained and educated scientists who will be able to contribute to the economic and social well-being of our state and nation.

### **Overview**

With outstanding departments of Biology, Chemistry and Biochemistry, Earth and Environmental Sciences, Mathematics, Physics and Psychology, the College of Science offers comprehensive graduate studies with our world class faculty and research programs. In addition to providing our students with strong core training in the physical and life sciences, we have a graduate program in Materials Science and Engineering and offer specialized Masters degrees for educators to expand their core science training. Interdisciplinary programs and Research Centers provide students with opportunities to span disciplines, and student research activities are complemented by excellent research facilities and state-of-the-art instrumentation. The College and Departments host a series of seminars to further expose our students to cutting edge science developments.

Master's degrees are offered in all of our departments, and we award Ph.D. degrees in Quantitative Biology, Applied Chemistry, Environmental and Earth Sciences, Mathematical Sciences, Mathematics, Applied Physics, Experimental Psychology, and Materials Science and Engineering. For application and entrance requirements, or more on our graduate programs, please call us or visit our Web site at [www.uta.edu/cos](http://www.uta.edu/cos).

## **Scholastic Activity and Research Interests of the Faculty**

### **Biology**

The Department of Biology has a wide array of research programs ranging from molecular through ecosystem levels of integration. The program boasts strengths in ecology and systematics, evolution, microbiology, genomics, and molecular biology, and has active funding from a variety of private and public agencies. The department also hosts centers for genomics, biological macrofouling, electron microscopy and a collection of vertebrates. The research program emphasizes quantitative aspects of biology and provides students with strong training in statistics and experimental design.

### **Chemistry and Biochemistry**

Research programs include synthetic work on natural products, medically active agents, novel ligands, new catalysts, luminescent materials, photocatalysts, supramolecular and metallocsupramolecular compounds, molecular magnetism, molecular recognition, stabilization of reactive intermediates, solar energy conversion and electrically conducting polymers. Biochemical research includes studies of enzymology and molecular biology of bacterial metabolism, and studies on problems involved in anticancer therapy. Physical, analytical and electrochemical research includes studies of colloids and surfaces, electrode modification through thin film surface deposition, MALDI mass spectrometry and characterization of the electrical properties of polymers

and other materials. Theoretical studies involve both a major computational program applying molecular orbital theory to a variety of problems.

## Earth and Environmental Sciences

Department research has a strong orientation toward the application of geochemistry, oceanography, geophysics and paleobiology to earth resources and the environment. Current research interests include analysis and modeling of geologic deformational structures, biostratigraphy of accreted terranes of the Pacific Northwest and the middle Permian of West Texas, sedimentology, paleoclimatology, hydrology, fluvial geomorphology, environmental health, and plate tectonics.

## Mathematics

**Algebra:** homological theory of commutative Noetherian rings; noncommutative algebra using geometric methods: symbolic computations.

**Differential Equations, Integral Equations and Dynamical Systems:** geometric study of integrable Hamiltonian systems; stability and instability of solitary waves; nonlinear dispersive waves; free boundary problems related to phase transition and multi-fluid flow; stochastic differential equations; control theory.

**Cooperative Game Theory:** semivalues, least square values, properties, potentials and computation; the inverse problem.

**Geometry:** birational algebraic geometry and Mori theory; differential geometry and inverse spectral geometry; finite geometry related to nonassociative division algebras.

**Mathematical Biology:** mathematical modeling of microbial populations, biofilms and competition dynamics; population biology and epidemiology; neuronal dynamics.

**Mathematical Statistics, Probability Theory and Stochastic Process:** multivariate analysis, statistical inference, sample survey and statistical process control; stochastic processes and applications to stochastic differential equations, random graphs, path integrals, quantum mechanics.

**Mathematical Education:** mathematics program development, impact of reform mathematics learning strategies on mathematics teaching, mathematics problem solving for teaching.

**Numerical Analysis:** numerical solutions to ordinary and partial differential equations; moving grid, multigrid and multilevel adaptive methods; fluid dynamics (mechanics); numerical simulation and scientific computation; numerical combustion; software development.

## Physics

Current research in the department is primarily in the areas of condensed matter physics, materials science and high energy physics. The theoretical condensed matter group is engaged in cluster, electron transport, electronic structure, molecular dynamics and path integral computations having relevance to the chemical, electrical and magnetic properties of surfaces, metals and semiconductors. The experimental condensed matter group is engaged in studies of diamond coatings, magnetic multilayers, metals, semiconductors and surfaces using electron, positron, optical and magnetic resonance spectroscopies. The experimental high energy group is involved in collider experiments at Fermilab, Brookhaven Laboratory and CERN to study QCD and to search for supersymmetry and other physics beyond the standard model. Other active research areas include high energy theory, optics, parallel computing and statistical physics.

## Psychology

Expertise and research activity include animal behavior, animal and human learning, cognitive processes, social psychology, psychobiology and developmental psychology. Current research interests include group brainstorming, verbal memory and neuropsychology, applied psychological measurement, pain systems, decision processes, naturalistic social cognition, stress, genetic and

hormonal determinants of aggressive and defensive behaviors and parent-offspring interactions, sea turtle behavior, and infant mental representation of objects.

## Science Education

The Master of Arts in Interdisciplinary Science (MAIS), a 36 credit hour degree program without a thesis requirement, was designed and developed by science teachers for science teachers. The program will help science educators strengthen and update their knowledge of content in two or more of the following cognate areas: biology, chemistry, earth & environmental sciences, mathematics, and physics. In addition to enhancing content knowledge, the courses will help educators develop teaching strategies that lead to improved student learning, implement high quality instructional materials, and develop skills in using various strategies for assessing student learning. The MAIS degree will serve the needs of classroom teachers, content-area and staff development specialists, curriculum developers, program directors, school administrators, college/university faculty, and educators from informal science institutions who have responsibility for designing, delivering, evaluating, and/or continuously improving standards-based science, mathematics, and technology instruction for students, prekindergarten through the undergraduate degree.

While engaging in the coursework, educators will become learners themselves to deepen their own mastery of scientific and/or mathematical content. The laboratory-based learning activities in the program will help science educators see teaching as less a matter of knowledge transfer and more as an activity of facilitation in which knowledge is generated, content is investigated in depth, and meaning is developed from experience. Graduates of the program will take their place as master science educators who are recognized as proven practitioners in delivering rigorous and relevant instruction and are valued as effective coaches, mentors, and teacher trainers.

### **Mission and Philosophy**

The mission of the UT Arlington School of Social Work is to advance knowledge, pursue excellence, provide leadership and service for enhancing well being, and to promote social and economic justice and cultural competence with diverse cultures.

### **History and Overview**

The School of Social Work was established as the Graduate School of Social Work in 1967 by an act of the Texas Legislature. It became the School of Social Work in 1991 when the University's undergraduate social work program in the College of Liberal Arts merged with the school's graduate program.

More than 4,000 students have earned degrees at the school and many hold key management positions in public agencies and nonprofit organizations nationwide. Currently, the school has a diverse student body of approximately 600 M.S.S.W. graduate students and 60 Ph.D. students. Many of these students also hold full- or part-time positions in public agencies and nonprofit organizations.

One distinguishing feature of the school is its location in the heart of the Dallas-Fort Worth Metroplex, a rich urban laboratory of more than 150 cities with a population over 4.5 million. This

complex social arena offers a wide array of opportunities for student projects, field placements and employment. Social work faculty, staff and students work on "real-life" social problems in cooperation with city governments, public agencies and nonprofit organizations.

## Accreditation

The Council on Social Work Education has fully accredited the M.S.S.W. program. Accreditation is an important consideration for students because many professional social work positions require a degree from a CSWE accredited program. Academic credit for life experience and previous work experience is not given.

## Scholastic Activity and Research Interests of the Faculty

School of Social Work faculty engage in research and community-service projects that enhance the effectiveness of the programs of public and nonprofit social-service organizations, that promote social justice and equality, and that extend the body of knowledge about social issues. Research topics span the broad range of social-work issues, including feminist theory, minority rights, child abuse, mental illness, ethics, aging, sexual abuse, community development, lesbian and gay persons, marital and family therapy, family violence, clinical assessment, stalking, constructivism, cognitive-behavioral treatment efficacy, adoption, siblings, foster care, African American fathers, substance abuse, social policy, and evaluations of state and federal child-welfare and community-service programs.

## Programs

The School of Social Work currently offers two graduate programs of study: the Master of Science in Social Work (M.S.S.W.) and the Ph.D. The Ph.D. program offers two options: the Ph.D. in Social Work or a specialty in comparative social policy, in collaboration with La Universidad Autonoma de Nuevo Leon, that is taught in Texas and Mexico and requires fluency in English and Spanish. Degrees are awarded from both universities.

The school offers distance education M.S.S.W. programs in cooperation with other universities across the state. More than 400 students have graduated from such programs. Courses are also offered via the Internet and telecommunication for local students and those in distance education programs.

The school also offers training, research and service opportunities to faculty and students through its centers and other programs. The Judith Granger Birmingham Center for Child Welfare provides support and graduate training to current and potential child-welfare workers and supports faculty and student research on child-welfare issues. The Community Services Center is an instructional facility that provides a university-community partnership addressing community issues. The partnership enables university students, faculty and neighborhood organizations to work together to tackle complex socioeconomic issues facing the neighborhoods that surround them, such as poverty, domestic violence, homelessness and community revitalization. The purpose of the center is twofold: to provide professional training for graduate students and to provide professional services to the community. Community development interns conduct needs assessments, write grant proposals, design new programs, conduct evaluations, perform research and organize action groups. Community clinic interns provide affordable counseling for children, adolescents and families. Counseling services include individual counseling, marriage counseling, premarital counseling, family therapy, group counseling, anger control therapy, and social skills training. The community clinic also provides graduate interns an opportunity to conduct research programs in the area of counseling. The Center for Research, Evaluation and Technology involves students and faculty in program evaluations for local social service agencies and in the development of new and innovative ways to support human services practice. The Professional Development Program provides continuing education seminars for social work practitioners and other human services professionals. The seminars provide the continuing education units necessary for license renewals.

The school hosts an annual conference for students, alumni and community professionals.

## Mission and Philosophy

The mission of the School of Urban and Public Affairs is to conduct basic and applied research into urban problems and public policy, to provide services in support of public and nonprofit agencies, and to educate and train students for public service careers.

## History and Overview

SUPA was established in 1967 as the Institute of Urban Studies by an act of the Texas Legislature. The institute's mandate was to offer Texas city and county governments and other public agencies high-caliber, university-based research, training and other technical services. In 1990, after significant expansion of its staff and programs, the organization became the School of Urban and Public Affairs. The institute continues to operate as a vital part of the school.

SUPA is the state's only university-based center for applied research and service in urban affairs. It is called upon routinely to study and recommend solutions for problems confronting government agencies, nonprofit organizations and private industry.

During its more than 40 years of existence, SUPA has conducted hundreds of studies on such topics as transportation, housing, local economic development, public safety, corrections, education, human services, child care and regional governance. Its reports are included in the collections of virtually every major library in Texas and have been adopted as texts at many colleges and universities.

Within SUPA is the Institute of Urban Studies that is a primary source of information and advice in such matters as computer applications in urban management, home rule charters, redistricting, inter-local contracting, economic development, personnel management, revenue administration, land appraisal, zoning and land-use issues. SUPA is active in training local government officials and in consulting on service projects for governmental agencies worldwide. Urban professionals rely on SUPA for consultation and guidance in accomplishing such goals as urban revitalization, pollution control, conservation, and facility planning and siting.

SUPA uses the most advanced computers, data collection and analysis techniques in conducting research, and its more than 20 faculty and staff draw upon their rich and diverse educational and cultural backgrounds. One distinguishing feature of SUPA is its location in the heart of the Dallas-Fort Worth Metroplex, a rich urban laboratory of more than 200 cities with a total population of approximately 6 million. This complex urban arena offers a wide array of opportunities for student projects, internships and employment. SUPA faculty, staff and students work on "real-life" urban and public affairs projects in cooperation with city governments, public agencies and nonprofit organizations through the school's institutes and centers.

## Accreditation

The School of Urban and Public Affairs is one of only approximately 20 in the country having both its Master's of Public Administration and its Master's of City and Regional Planning programs fully accredited by their respective accrediting agencies.

The Master's of City and Regional Planning is officially recognized and accredited by the Planning Accreditation Board that accredits North American planning programs on the basis of a strict and extensive set of criteria rooted in planning knowledge, skills, and values. Students enrolled in accredited programs are eligible for certain national scholarships, and graduates of accredited programs may qualify for certification by the American Institute of Certified Planners after fewer years of experience than graduates of nonaccredited programs.

The Master's of Public Administration degree is accredited by the National Association of Schools of Public Affairs and Administration that requires public administration programs to meet strict standards for faculty qualifications, curriculum content, admissions and program requirements, student composition and services, budget and facilities. Accreditation enhances the program's national reputation and opens doors and provides opportunities for students applying for Texas-based scholarships and nationwide positions.

SUPA was ranked as one of the best programs in the nation by U.S. News & World Report in 2008.

## **Scholastic Activity and Research Interests of the Faculty**

SUPA faculty are actively engaged in research and community service projects that benefit local jurisdictions, public and nonprofit agencies with expertise that is beyond the normal scope of their particular services and resources. Typical projects include revitalization studies for inner-city neighborhoods, development plans for central business districts, economic development strategies for municipalities, inter-local contracting studies, and assessments of service delivery alternatives in communities and school districts.

The broad range of faculty research interests primarily focuses on local issues and provides support for local officials and urban professionals, but it also includes basic research into urban problems and public policy that is published in national journals and used in university texts. Research topics include such urban affairs issues as urban theory, development, management, politics, social welfare policy, social service administration and minority relations; such planning issues as urban design, land use analysis, environmental planning, economic development, community service and development, focus group research and group facilitation; and such public administration issues as public management, intergovernmental relations, entrepreneurship in government, education and economic development.

## **Programs Overview**

### **Degree Programs**

Master's of Arts in Urban Affairs  
Master's of City and Regional Planning  
Master's of Public Administration  
Ph.D. in Public and Urban Administration  
Ph.D. in Urban Planning and Public Policy

SUPA participates in dual-degree programs with the schools of Architecture, Nursing and Social Work. It participates with the colleges of Engineering and Science in an interdisciplinary program leading to Master's and Doctoral degrees in environmental science and engineering.

### **Master's Programs**

#### **Urban Affairs**

The Master of Arts in Urban Affairs prepares students for policy and/or management positions in local government, regional government, nonprofit and private sector consulting and for other professional positions in economic development, social planning, community organizing, and urban journalism.

The program is organized around public policy issues with emphasis on the problems and questions related to life in urban communities. Because urban issues are complex and require the understanding and skills of many disciplines, the program is interdisciplinary in character, curriculum content, teaching staff, and enrollment. The degree is built around an urban core with students choosing a policy or non-profit oriented concentration.

### **City and Regional Planning**

The MCRP program prepares students for careers as professional planners with public, private and nonprofit organizations. It does this by training students to apply planning theory, knowledge, techniques, and skills to “real world” planning problems through coursework, studios, and internship opportunities.

UTA’s City and Regional Planning Master’s Degree Program is accredited by the [Planning Accreditation Board](#) (PAB). The program’s mission, goals and objectives, and accreditation efforts are shaped in consultation with the MCRP Advisory Board composed of alumni and area practitioners.

### **Public Administration**

Public Administration is concerned with the formulation, analysis, negotiation, and implementation of democratically responsible collective action. With an interdisciplinary focus, this program gives special emphasis to the urban community and the special challenges of public managers who serve in urban areas. The curriculum is designed to develop leadership capacity, understanding of the political, social, and economic characteristics of today’s urban environment and the ability to apply current theories of management and analysis to difficult management issues. The program is meant as preparation for those entering management careers in government for the first time or as career development for those already employed who are seeking upward mobility in public management. The Master of Public Administration is a joint program of the School of Urban and Public Affairs and the Department of Political Science.

The MPA degree at the School of Urban and Public Affairs is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA), and the curriculum conforms to NASPAA standards.

### **Certificate Programs**

SUPA offers certificate programs in Development Review, Geographic Information Systems, Public Budgeting and Financial Management and Urban Non-Profit Management, designed to provide skills and proficiency in highly specialized areas. Students enrolled in graduate degree programs at UT Arlington as well as students not enrolled in graduate degree programs are eligible to apply for these certificate programs. Students who are already enrolled in a graduate degree program at U.T. Arlington need only declare their intent to enroll by contacting their academic advisor. No prerequisites are required for these students. Those desiring to enroll in a certificate program but who are not currently enrolled in a graduate program may do so by applying to UT Arlington as a non-degree seeking special student. Upon completion of all requirements, a certificate of completion is awarded by the University. Information on all certificate programs can be found below by clicking on the certificate of interest.

### **Ph.D. Programs**

#### **Urban Planning and Public Policy Program**

The UPPP Ph.D. program requires a minimum of 48 credit hours beyond the master’s degree, including 39 credit hours of coursework and a minimum of 9 dissertation credit hours. The 39 credit hours of coursework include: 6 hours of leveling courses, 9 hours in the required core of urban planning and public policy, 6 hours of methods courses and 18 hours of elected specialization courses. Courses and credit hours may be waived for students with relevant previous coursework upon approval of the dissertation supervisor and program director.

Coursework in the required core, which covers core knowledge and competencies in planning and policy, as well as the courses in the selected field areas prepares students for the field exam. In

their first semester, students select their committee based on their interests and take a diagnostic exam. The student's committee will then guide their course work, including any extra courses needed based on their diagnostic exam.

### **Public and Urban Administration**

The PUAD Ph.D. has eight required core courses, three required research courses, and a minimum of 9 dissertation credit hours. The eight core courses address the social sciences and public administration literatures critical to the integrative approach of the program. The methods courses include an intermediate quantitative methods course, and a qualitative methods course. Students also enroll in URPA 6301 to guide them in preparing their dissertation proposal. Students select their supervising committee during their first year to help guide them through their comprehensive exams and begin working on their dissertation proposal.

A student can expect to complete the 11 required courses in no more than two academic years. Upon completing them, students sit for their written comprehensive examination. The comprehensive examination is an integrative exam that blends public policy issues with public administration.

Students who completed a Masters in Public Administration may be eligible to waive some coursework and are encouraged to meet with the PUAD advisor.

## Department Information

### Objective Admission

- [Unconditional](#)
- [Admission as Special Student](#)
- [Degree Requirements](#)

### Objective

The Master of Arts in Interdisciplinary Science program is designed to strengthen and update the knowledge and skills necessary to teach science at the elementary, middle school, or secondary level. The MAIS degree is intended to help prepare teachers who desire certification in science, teachers who may wish to expand their knowledge of specific science disciplines, or those who wish to update their knowledge in rapidly changing science disciplines. Traditional masters degrees focus on classes in a single science department and encourage mastery of material in a sub specialty within the discipline. A thesis involving scientific research in the area of specialization is usually encouraged. In contrast, the MAIS program allows students to explore two or three areas of interest, and the courses are designed to provide an overview of current knowledge in each field. Since this is not a research-oriented degree, no thesis is required.

The content of the required courses was developed to contain material consistent with TEKS standards and to provide as much replicable laboratory experience as possible. While these classes are drawn from the foundational classes in each discipline, they are designed to cover the areas in greater depth, deal with historical aspects of the topics not covered in undergraduate classes, and focus on teaching and laboratory methodologies.

## Admission

### Unconditional

Students applying for unconditional admission to the MAIS program must meet the general graduate school admission requirements as outlined in the graduate catalog and earn a combined score of 1000 on the Graduate Record Exam (GRE).

### Admission as Special Student

Students may apply for admission to the MAIS program as a "special student." Special student admission will allow an individual to enroll for 9 credit hours of MAIS coursework. Upon completion of 9 credit hours, the student must apply for unconditional admission to the MAIS program and pay an additional \$40 application fee. If the applicant has completed 9 credit hours of coursework with a 3.0 or higher, the completed coursework will substitute for the GRE examination.

### Degree Requirements

The MAIS degree is a 36 credit hour, non-thesis degree. Beginning students are encouraged to enroll in Contemporary Science, SCIE 5301, and students completing the degree enroll in a Capstone Science Seminar, SCIE 5302. These two courses constitute the 6 credit hour science core.

Students can select two or three areas of concentration from biology, chemistry, earth & environmental sciences, mathematics, and physics. If the student chooses two concentration areas, each concentration will consist of four 3 credit hour courses for a total of 12 credit hours each. The remaining six credit hours may be taken as unrestricted science and math electives. If the student chooses three concentration areas, each concentration will consist of three 3 credit hour courses for a total of 9 credit hours each. The remaining three credit hours may be taken as unrestricted science or math electives. Students may also choose to select elective courses from College of Education and Health Professions graduate coursework with advisor approval.

Students must file a degree plan approved by the graduate advisor two long semesters prior to graduation.

## SCIE Courses

### SCIE5192 – SELECTED TOPICS IN SCIENCE

1 Lecture Hour · 0 Lab Hours

Topics in science not treated in the regular curriculum. Topic, format, and prerequisites to be determined by

the instructor. May be repeated for credit as different topics are offered

### **SCIE5292 – SELECTED TOPICS IN SCIENCE**

**2** Lecture Hours · **0** Lab Hours

Topics in science not treated in the regular curriculum. Topic, format, and prerequisites to be determined by the instructor. May be repeated for credit as different topics are offered

### **SCIE5301 – CONTEMPORARY SCIENCE**

**3** Lecture Hours · **0** Lab Hours

This class will review modern topical areas in contemporary science from a broadly multidisciplinary view. Readings from popular and scientific journals will be combined with lectures from different disciplines, to review the newest science innovations. Materials presented will familiarize students with current research, major breakthroughs in various fields, and the foundational science behind the discoveries. Topics covered should enrich K-12 science curricula and help teachers to address student questions about breaking science news. This class is intended for M.A. in Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in the College of Science.

### **SCIE5302 – CAPSTONE SCIENCE SEMINAR**

**3** Lecture Hours · **0** Lab Hours

The Capstone Science Seminar is an intensive research and discussion class that will focus on new studies in science education and practice. Students in the M.A. in Science program should take this class in the last semester of study. This class will include a research project relevant to science education, and formal presentation of the research. This class is intended for M.A. in Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in the College of Science

### **SCIE5303 – TEACHING AND LEARNING: SCIENTIFIC INQUIRY**

**3** Lecture Hours · **0** Lab Hours

Scientific inquiry refers to the diverse ways in which scientists study the natural world and propose explanations based on the evidence derived from their work. This course explores inquiry as it refers to the activities of students in which they develop knowledge and understanding of scientific ideas, as well as an understanding of how scientists study the natural world

### **SCIE5304 – SPECIAL TOPICS IN SCIENCE I**

**3** Lecture Hours · **0** Lab Hours

Seminar on significant research in science. Topics are selected with the assistance of the instructor and may include both pure and applied science

### **SCIE5305 – SPECIAL TOPICS IN SCIENCE II**

**3** Lecture Hours · **0** Lab Hours

Seminar on significant research in science. Topics are selected with the assistance of the instructor may include both pure and applied science

### **SCIE5307 – INTEGRATED PHYSICS AND CHEMISTRY: CHEMISTRY**

**3** Lecture Hours · **0** Lab Hours

This integrated study of physics and chemistry fundamental chemical principles including atomic structure, chemical bonding, the periodic table, nomenclature, kinetic theory, gas laws, chemical equations, and solutions.

### **SCIE5308 – INTEGRATED PHYSICS AND CHEMISTRY: PHYSICS**

**3** Lecture Hours · **0** Lab Hours

This integrated study of physics and chemistry includes force and motion, waves and thermodynamics, energy transformations, quantum physics, and atomic structure.

### **SCIE5321 – MECHANICS, HEAT, & WAVE MOTION**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in the teaching of fundamental physics. Topics include: 1) Newton's laws of motion, gravitation, and planetary motion; 2) the basic laws of thermal and statistical physics; 3) oscillatory motion including waved and sound. Replicable experiments will be demonstrated throughout the course. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for M.S. or Ph.D. degrees in the College of Science. Prerequisite: Trigonometry.

### **SCIE5322 – ELECTRICITY, MAGNETISM, CIRCUITS, & OPTICS**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in the teaching of fundamental physics. Topics include: 1) Static changes, current flows, electric and magnetic fields; 2) simple DC/AC electrical circuits including examples from household circuit and practical electronic devices; 3) light and optics including examples such as camera, microscopes and telescopes. Replicable experiments will be demonstrated throughout the course. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for M.S. or Ph.D. degrees in the College of Science. Prerequisite: SCIE 5321.

### **SCIE5323 – MODERN PHYSICS**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in the teaching of fundamental physics. Topics include: 1) introduction to special relativity and quantum theory; 2) light and radiation; 3) applications to modern electronic devices; 4) nuclear particle physics. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for M.S. or Ph.D. degrees in the College of Science. Prerequisite: SCIE 5321, SCIE 5322.

### **SCIE5329 – LABORATORY TECHNIQUES IN PHYSICS**

**0** Lecture Hours · **2** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in the teaching of fundamental physics. Experiments demonstrating various topics are covered. Experiments include gravitational acceleration heat flow, harmonic motion, sound, electric, magnetic fields, electric circuits, optic, x-rays and nuclear radiation. This class is intended for M.A. in Interdisciplinary Science majors and may not be taken for credit for M.S. or Ph.D. degrees in the College of Science. Prerequisite: SCIE 5321, SCIE 5322.

### **SCIE5330 – EARTH SYSTEMS, PART I**

**3** Lecture Hours · **0** Lab Hours

A review of Earth materials and their chemistry. Earth structure and geologic time, followed by a detailed discussion of the plate tectonic system, the hydrologic system, and their interaction in weathering and erosion, sedimentation, and landscape development. Laboratory demonstrations will include identification of earth materials, estimating plate motions, location of earthquake epicenters, flood frequency, and groundwater discharge. These classes are intended for M.A. in Interdisciplinary Science majors and may not be taken for credit for the M.S. or Ph.D. degrees in Geology or any other College of Science discipline.

### **SCIE5331 – EARTH SYSTEMS, PART II**

**3** Lecture Hours · **0** Lab Hours

A detailed discussion of the atmosphere system, oceanic systems, biologic systems, and their history. A summary discussion of the interaction of Earth Systems for an understanding of processes that have formed and continue to form the Planet Earth. Laboratory demonstrations will include weather forecasting, ocean currents, sea level change, and fossil identification. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Geology or any other College of Science discipline. Prerequisite: SCIE 5330 and admission into the M.A. in Interdisciplinary Science program.

### **SCIE5332 – EARTH RESOURCES & THE ENVIRONMENT**

**3** Lecture Hours · **0** Lab Hours

A detailed discussion of resources that support life: atmosphere, water, soil, minerals and materials, and energy; the use of those resources and the effect on the environment and global change; and the relation between population, resource distribution and availability, and environmental pollution. These classes are intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Geology or any other College of Science discipline. Prerequisite: SCIE 5330, SCIE 5331, and admission into the M.A. in Interdisciplinary Science Program.

### **SCIE5335 – LABORATORY METHODS & TECHNIQUES**

2 Lecture Hours · 2 Lab Hours

Methods and techniques used to identify minerals, rocks and fossils; maps and mapping of geological data; recognition of landslides; flood frequency and erosion processes of river and streams; location of earthquakes. These classes are intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Geology or any other College of Science discipline. Prerequisite: SCIE 5330, SCIE 5331 and admission into the M.A. in Interdisciplinary Science Program.

### **SCIE5355 – PRINCIPLES OF CHEMISTRY**

3 Lecture Hours · 0 Lab Hours

The fundamentals of atomic structure, chemical bonding, the periodic table, nomenclature, gas laws, chemical equations, and solutions. The course will be supplemented with laboratory demonstrations devoted to chemical problem-solving, library and Internet resources, chemical ethics, etc. This course is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Chemistry or any other College of Science discipline.

### **SCIE5356 – PRINCIPLES OF CHEMISTRY II**

3 Lecture Hours · 0 Lab Hours

Study of advanced atomic structure and bonding concepts, acid-base theory, kinetics and equilibria, thermodynamics, electrochemistry, and the chemistry of some elements. The course will be supplemented with laboratory demonstrations devoted to chemical problem solving, library and internet resources, chemical ethics etc. This course is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for M.S. or Ph.D. degrees in Chemistry or any other College of Science discipline. Prerequisite: SCIE 5355.

### **SCIE5357 – INTRODUCTORY ORGANIC & BIOCHEMISTRY**

3 Lecture Hours · 0 Lab Hours

Survey of organic and biochemistry with emphasis on application to the human body. Organic functional groups and nomenclature, organic reactions, carbohydrates, lipids, proteins, enzymes, metabolism, and nucleic acids. This course is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for M.S. or Ph.D. degrees in Chemistry or any other College of Science discipline. Prerequisite: SCIE 5355, SCIE 5356.

### **SCIE5358 – LABORATORY PROBLEMS IN CHEMISTRY**

2 Lecture Hours · 2 Lab Hours

Experiments related to fundamental principles covered in SCIE (formerly CHEM) 5355 and 5356. Volumetric and gravimetric determinations and qualitative analysis. This course is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Chemistry or any other College of Science discipline. Prerequisite: SCIE 5355, SCIE 5356.

### **SCIE5371 – CELL AND MOLECULAR BIOLOGY**

3 Lecture Hours · 0 Lab Hours

The course focuses on the chemical and molecular basis of life, including metabolism, cell structure and function and genetics. This class is intended for M.A. in Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Biology or any other College of Science discipline.

### **SCIE5372 – STRUCTURE & FUNCTION OF ORGANISMS**

3 Lecture Hours · 0 Lab Hours

The study of structure and function of plants and animals. Topics to be covered include structure at the

level of the cell, tissue, organ and individual, growth, transport/circulation/gas exchange, nutrition, reproduction, development, endocrinology, and animal neural regulation. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Biology or any other College of Science discipline. Prerequisite: SCIE 5371.

### **SCIE5373 – EVOLUTION, ECOLOGY, AND BIODIVERSITY**

**3** Lecture Hours · **0** Lab Hours

Reviews three significant aspects of organismal biology and presents current hypotheses concerning the origin and diversification of life on Earth. The ecological and behavioral interactions between organisms and their biotic/abiotic environments are considered from an evolutionary perspective. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Biology or any other College of Science discipline. Prerequisite: SCIE 5371, SCIE 5372.

### **SCIE5374 – LABORATORY PROBLEMS IN BIOLOGY**

**2** Lecture Hours · **2** Lab Hours

Laboratory experiments related to fundamental principles covered in SCIE (formerly BIOL) 5371 and 5372. This course will utilize labs designed by Master Biology Teachers. These will be supplemented by labs published by the National Association of Biology Teachers, and various biology publishers. This class is intended for M.A. in Interdisciplinary Science majors, and may not be taken for credit for the M.S. or Ph.D. degrees in Biology or any other College of Science discipline. Prerequisite: SCIE 5371, SCIE 5372.

### **SCIE5380 – MENTORED RESEARCH**

**6** Lecture Hours · **0** Lab Hours

Research under the direction of a College of Science faculty member. No more than six credit hours of SCIE 5380 may be taken for a letter grade. Prerequisite: written permission of the instructor.

### **SCIE5392 – SELECTED TOPICS IN SCIENCE**

**3** Lecture Hours · **0** Lab Hours

Topics in science not treated in the regular curriculum. Topic, format, and prerequisites to be determined by the instructor. May be repeated for credit as different topics are offered

## Objective

### Admissions Requirements

- **Master of Science Program**
- **Master of Arts Program**
- **Certificate of Applied Statistics Program**
- **Doctoral Program**
- **Doctoral Program (B.S.-Ph.D. track)**

### Master of Science Degree Requirements

### Master of Arts Degree Requirements

### Certificate of Applied Statistics Requirements

### Ph.D. Degree Requirements

### Ph.D. Degree Requirements for the B.S.-Ph.D. track

## Objective

The objectives of the Mathematics Department's program at the master's level are (1) to develop the student's ability to do independent research and prepare for more advanced study in

mathematics, and (2) to give advanced training to professional mathematicians, mathematics teachers, and those employed in engineering, scientific, and business areas.

Graduate work will be offered in algebra, complex and real variables, differential equations, functional analysis, geometry, mathematics education, numerical analysis, operations research, probability, statistics and topology.

## Admissions Requirements

### Master of Science Program

For unconditional admission, a student must meet the following requirements:

1. A B.A. or B.S. degree in mathematics or closely related field.
2. An overall GPA in the final 60 hours of coursework of a 3.0 or better, as calculated by the Graduate School, on a 4.0 scale.
3. Minimum of 350 on the verbal and 650 on the quantitative portions of the Graduate Record Examination (GRE) if taken prior to August 2011. Minimum of 143 on the verbal and 151 on the quantitative portions of the GRE if taken after August 2011.
4. For applicants whose native language is not English, a minimum score of 550 on the Test of English as a Foreign Language (or a minimum score of 213 on a computer-based test, or a minimum score of 79 on an internet-based test) or a minimum score of 40 on the Test of Spoken English.
5. Three favorable letters of recommendation from people familiar with the applicant's academic work.

Applicants who do not satisfy requirements 2 or 3 above may be considered for unconditional admission if further review of their undergraduate transcript, recommendation letters, correspondence or direct interactions with mathematics faculty, and statement of professional or research interests indicates that they are qualified to enter the Master's Program without deficiency.

If an applicant does not meet a majority of standards for unconditional admission outlined above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in the first 12 hours of graduate coursework at UT Arlington.

Students who are unconditionally admitted or admitted on probation will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the fall semester, must have a GPA of 3.0 in the last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain the fellowship.

Applicants may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline, but who otherwise appears to meet admission requirements, may be granted provisional admission.

### Master of Arts Program

For unconditional admission a student must meet items 1-3 or 3-5.

1. A B.S. or B.A. degree with at least 24 hours of mathematics coursework with a GPA of at least 3.0, as calculated by the Graduate School on a 4.0 scale.
2. Minimum of 400 on the verbal and 600 on the quantitative portions of the Graduate Record Examination (GRE) if taken prior to August 2011. Minimum of 146 on the verbal

and 148 on the quantitative portions of the GRE if taken after August 2011.

3. Three favorable letters of recommendation from people familiar with the applicant's academic work and/or professional work.
4. A B.S. or B.A. degree with a GPA of at least 3.0, as calculated by the Graduate School on a 4.0 scale.
5. Certified to teach mathematics at the Secondary Level (Secondary Mathematics Certification).

Applicants who do not satisfy requirements 1 or 2 above may be considered for unconditional admission if further review of their undergraduate transcript, recommendation letters, correspondence or direct interactions with mathematics faculty, and statement of professional or research interests indicates that they are qualified to enter the Master's Program without deficiency.

If an applicant does not meet a majority of standards for unconditional admission outlined above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in the first 12 hours of graduate coursework at UT Arlington.

Applicants may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline, but who otherwise appears to meet admission requirements, may be granted provisional admission.

### Certificate of Applied Statistics Program

The admission standard is the same as that of Master of Science Program.

### Doctoral Program

For unconditional admission a student must meet the following requirements:

1. A master's degree or at least 30 hours of graduate coursework in mathematics or closely related fields.
2. A minimum GPA of 3.0, as calculated by the Graduate School, on a 4.0 scale in graduate coursework.
3. Minimum of 350 on the verbal and 700 on the quantitative portions of the Graduate Record Examination (GRE) if taken prior to August 2011. Minimum of 143 on the verbal and 155 on the quantitative portions of the GRE if taken after August 2011.
4. For applicants whose native language is not English, a minimum score of 550 on the Test of English as a Foreign Language (or a minimum score of 213 on a computer-based test, or a minimum score of 79 on an internet-based test) or a minimum score of 40 on the Test of Spoken English.
5. Three favorable letters of recommendation from people familiar with the applicant's academic work and/or professional work.

Applicants who do not satisfy requirements 2 or 3 above may be considered for unconditional admission if further review of their undergraduate transcript, recommendation letters, correspondence or direct interactions with mathematics faculty, and statement of professional or research interests indicates that they are qualified to enter the Doctoral Program without deficiency.

If an applicant does not meet a majority of standards for unconditional admission outlined above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in the first 12 hours of graduate coursework at UT Arlington.

Applicants may be denied admission if they have less than satisfactory performance on a majority of the admission criteria described above.

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline, but who otherwise appears to meet admission requirements, may be granted provisional admission.

### Doctoral Program (B.S.-Ph.D. track)

For unconditional admission a student must meet the following requirements:

1. A bachelor's degree in mathematics or in a closely related field.
2. A minimum GPA of 3.00 on the 4.00 scale in undergraduate course work, as calculated by the UT Arlington Graduate School.
3. A minimum of 350 on the verbal part and 700 on the quantitative part of the Graduate Record Examination (GRE) if taken prior to August 2011. Minimum of 143 on the verbal and 155 on the quantitative portions of the GRE if taken after August 2011.
4. For an applicant whose native language is not English, a minimum score of 550 on the Test of English as a Foreign Language (or a minimum score of 213 on a computer-based test, or a minimum score of 79 on an internet-based test) or a minimum score of 40 on the Test of Spoken English.
5. At least three letters of recommendation from people familiar with the applicant's academic work and/or professional work.

Applicants who do not satisfy requirement 2 or/and 3 above may be considered for an unconditional admission if a further review of their undergraduate transcript(s), recommendation letters, correspondence or direct interactions with mathematics faculty, and statement of professional or research interests indicates that they are qualified to enter the B.S.-Ph.D. track program without deficiency.

If an applicant does not meet a majority of standards for an unconditional admission outlined above, he/she may be considered for a probationary admission after a careful examination of his/her application materials. A probationary admission requires that the applicant receive grades of B or better in the first 12 hours of graduate course work at UT Arlington.

An applicant may be denied admission if he/she has less than satisfactory performance on a majority of the admission criteria described above.

A deferred decision may be granted when the applicant's file is incomplete or when a denial on his/her admission is not appropriate. An applicant who is unable to supply all required documentation prior to the admission deadline but who otherwise appears to have met admission requirements may be granted provisional admission.

Students who are unconditionally admitted or admitted on probation will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the fall semester, must have a GPA of 3.0 in the last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain the fellowship.

### Master of Science Degree Requirements

The Department of Mathematics offers master's degree programs in mathematics with additional emphasis in applied mathematics, computer science, mathematics education, pure mathematics, and statistics. All students are to use either the thesis or thesis-substitute plan.

All students in Master of Science program must complete one of the following:

1. General Mathematics core requirements:

MATH 5300: Computer Programming and Applications

MATH 5307: Mathematical Analysis I

MATH 5308: Mathematical Analysis II

MATH 5333: Linear Algebra and Matrices

One of the following tracks:

Applied Mathematics: MATH 5350, 5351, and either 5320 or 5321

Computer Science: MATH 5338 and 5339, and either 5371 or 5373, and six approved hours in computer science engineering

Mathematics Education: Nine hours from MATH 5336, 5337, 5340-5348, 5352

Pure Mathematics: MATH 5331 (replaces MATH 5300), either 5317 or 5322, either 5332 or 5334, and either 5304 or 5326

Core requirements can also be fulfilled by completing core requirements in the BS-Ph.D. track in the Doctoral program.

2. General Statistics core requirements:

MATH 5300: Computer Programming and Applications

MATH 5307: Mathematical Analysis I

MATH 5333: Linear Algebra and Matrices

One of the following three courses:

MATH 5356: Applied Multivariate Statistical Analysis

MATH 5357: Sample Surveys

MATH 5392: Regression Analysis

MATH 5305: Statistical Methods

MATH 5312: Mathematical Statistics I

MATH 5313: Mathematical Statistics II

Core requirements can also be fulfilled by completing core requirements in the BS-Ph.D. track in the Doctoral program.

In addition:

a. Those students enrolled in the thesis substitute plan must take MATH 5395, and all except those in the computer science track must take at least nine other hours of electives.<sup>[1]</sup>

b. Those students enrolled in the thesis plan must take at least six hours of MATH 5398-5698, and all except those in the computer science track must take at least three other hours of electives.<sup>[1]</sup>

[1] Electives may not be chosen from MATH 5336, 5337, 5340-5348, 5352, 5370, 5375-5379.

Students in every degree plan must pass a final exam.

## Master of Arts Degree Requirements

The master of arts program in the Department of Mathematics is designed for those who are interested in strengthening their understanding of mathematics and enriching their mathematics teaching. The program focuses on enhancing mathematics teaching through preparation in topics grounded in secondary school mathematics from an advanced standpoint. The program embraces a philosophy of teaching and learning mathematics that is consistent with the landmark *Standards* documents produced by the National Council of Teachers of Mathematics.

The requirements for the master of arts degree are 30 hours of graduate courses from the Department of Mathematics and a 3 hour project.

All students must complete the following:

1. Required Courses (6) and Project:

MATH 5341: Concepts and Techniques in Geometry

MATH 5342: Concepts and Techniques in Algebra

MATH 5343: Concepts and Techniques in Probability and Statistics

MATH 5344: Mathematics-Specific Technologies

MATH 5345: Concepts and Techniques in Analysis

MATH 5346: Concepts and Technique in Problem Solving  
 MATH 5395: Project - Individual, Director-Approved Research

2. Elective Courses (4):

MATH 5300: Computer Programming and Applications  
 MATH 5305: Statistical Methods  
 MATH 5307: Mathematical Analysis I  
 MATH 5308: Mathematical Analysis II  
 MATH 5333: Linear Algebra and Matrices  
 MATH 5336: Concepts and Techniques in Number Theory  
 MATH 5337: Concepts and Techniques in Calculus  
 MATH 5340: Concepts and Techniques in Discrete Mathematics  
 MATH 5347: Concepts and Techniques in Modeling and Applications  
 MATH 5348: Advanced Algebra in Secondary School Mathematics  
 MATH 5352: Concepts and Techniques in Precalculus  
 MATH 5380: Seminar - Study of Current Mathematics Topics  
 MATH 5392: Selected Topics in Mathematics

## Certificate of Applied Statistics Requirements

The Certificate in Applied Statistics offers individuals with an undergraduate degree an opportunity to receive graduate instruction in applied statistics as a means of maintaining and enhancing their professional development. The certificate program will provide coursework in statistics to an individual whose undergraduate major was outside the area of statistics. Since the requirements for the certificate are substantially less than those for the Master's Degree in Mathematics with a concentration in Statistics, the certificate can be earned in a much shorter time span.

The Certificate in Applied Statistics requires that the students take and successfully complete the following courses.

1: Required Courses (2):

STATS 5312: Mathematical Statistics I  
 STATS 5313: Mathematical Statistics II

2: Electives (3 courses chosen from the following list of courses)

STATS 5305: Statistical Methods  
 STATS 5314: Experimental Design  
 STATS 5353: Applied Linear Model  
 STATS 5356: Applied Multivariate Statistical Analysis  
 STATS 5357: Sample Surveys  
 STATS 5358: Regression Analysis  
 MATH 5392: Selected Topics in Statistical Quality Control  
 MATH 5392: Selected Topics in Statistical Methods in Clinical Research

Upon completion of the 15 hours of graduate courses from lists 1 and 2 with a minimum GPA of 3.0, the student is awarded the Certificate in Applied Statistics. The expected time to completion is 1 to 2 years. The time limit for completion of the certificate program is 6 years.

## Ph.D. Degree Requirements

A dynamic program leading to the Doctor of Philosophy degree in the mathematics will aim at both real and demonstrated competency on the part of the student over material from various branches of mathematics. The Doctor of Philosophy degree in Mathematics provides a program of study that may be tailored to meet the needs of those interested in applied or academic careers. This program allows students to pursue topics ranging from traditional mathematics studies to applied mathematical problems in engineering and sciences. The nature of the dissertation will range from research in mathematics to the discovery and testing of mathematical models for analyzing given problems in engineering and sciences and in locating and developing mathematical and computational techniques for deducing the properties of these models as to solve these problems effectively and efficiently. Such dissertations will be concerned with research problems from pure mathematics, applied mathematics, mathematics education and statistics.

The Department of Mathematics offers doctoral degree programs in Mathematics (algebra, applied mathematics, geometry, mathematics education, numerical analysis and statistics).

All doctoral students must complete one of the following:

1. General MATHEMATICS core requirements:

- MATH 5308: Mathematical Analysis II
- MATH 5317: Real Analysis
- MATH 5320: Ordinary Differential Equations
- MATH 5322: Complex Variables
- MATH 5327: Functional Analysis I
- MATH 5331: Abstract Algebra I
- One of the following four courses:
  - MATH 5319: Probability Theory
  - MATH 5321: Partial Differential Equations
  - MATH 5334: Differential Geometry
  - MATH 5339: Numerical Analysis II

In addition to the mathematics core requirements, the student is required to take three area-related courses.

2. General STATISTICS core requirements:

- MATH 5308: Mathematical Analysis II
- MATH 5312: Mathematical Statistics I
- MATH 5313: Mathematical Statistics II
- MATH 5314: Experimental Design
- MATH 5317: Real Analysis
- MATH 5319: Probability Theory
- MATH 5322: Complex Variables or MATH 5327: Functional Analysis I
- MATH 5356: Applied Multivariate Statistical Analysis

In addition to the statistics core requirements, the student is also required to take two statistics courses from MATH 5311, 5318, 5353, 5354, 5357, 5358, 5359, 6353, 6356, 6357.

Students in every degree plan must pass the preliminary and comprehensive examinations.

## Ph.D. Degree Requirements for the B.S.-Ph.D. track

The student must complete either the mathematics or statistics core requirements.

1. General MATHEMATICS core requirements:

- MATH 5307: Mathematical Analysis I
- MATH 5308: Mathematical Analysis II
- MATH 5317: Real Analysis
- MATH 5320: Ordinary Differential Equations
- MATH 5322: Complex Variables
- MATH 5327: Functional Analysis I
- MATH 5331: Abstract Algebra I
- MATH 5333: Linear Algebra
- One of the following four courses:
  - MATH 5319: Probability Theory
  - MATH 5321: Partial Differential Equations
  - MATH 5334: Differential Geometry

- MATH 5339: Numerical Analysis II

In addition to the mathematics core requirements, the student is required to take three area-related courses.

2. General STATISTICS core requirements:

- MATH 5307: Mathematical Analysis I
- MATH 5308: Mathematical Analysis II
- MATH 5312: Mathematical Statistics I
- MATH 5313: Mathematical Statistics II
- MATH 5314: Experimental Design
- MATH 5317: Real Analysis
- MATH 5319: Probability Theory
- MATH 5322: Complex Variables or MATH 5327: Functional Analysis I
- MATH 5333: Linear Algebra
- MATH 5356: Applied Multivariate Statistical Analysis

In addition to the statistics core requirements, the student is also required to take two statistics courses from MATH 5311, 5318, 5353, 5354, 5357, 5358, 5359, 6353, 6356, 6357.

The requirements for the preliminary and comprehensive examinations are the same as the other tracks in the Ph.D. program.

For additional information on the mathematics program, see the program entry in the Interdepartmental and Intercampus Programs section of this catalog.

## MATH Courses

### MATH5191 – SEMINAR FOR TEACHING ASSISTANTS

0 Lecture Hours · 1 Lab Hour

This course is mandatory for all mathematics graduate teaching assistants. Students will be instructed on classroom procedures and strategies and will be required to deliver lectures under the supervision of math faculty. The purpose is to develop students to be effective lecturers. Admittance to this course is restricted to Math TAs.

### MATH5300 – INTRODUCTION TO SCIENTIFIC COMPUTING

3 Lecture Hours · 0 Lab Hours

Introduction to scientific computing utilizing algorithmic languages and operating environment such as Fortran, MATLAB, C, and C and UNIX (LINUX) operating system. Prerequisite: consent of the instructor.

### MATH5302 – FUNDAMENTALS OF MATHEMATICAL SCIENCES I

3 Lecture Hours · 0 Lab Hours

Matrices and operators, linear spaces, multivariable calculus, dynamical systems, applications. Prerequisites: MATH 3318 and 3330 or consent of the instructor.

### MATH5303 – FUNDAMENTALS OF MATHEMATICAL SCIENCES II

3 Lecture Hours · 0 Lab Hours

Wave propagation, potential theory, complex variables, transform techniques, perturbation techniques, diffusion, applications. Prerequisite: MATH 5302 or consent of the instructor.

### MATH5304 – GENERAL TOPOLOGY

3 Lecture Hours · 0 Lab Hours

Introduction to fundamentals of general topology. Topics include product spaces, the Tychonoff theorem, Tietzes Extension theorem, and metrization theorems. Prerequisite: MATH 4304 or 4335.

### **MATH5305 – STATISTICAL METHODS**

3 Lecture Hours · 0 Lab Hours

Topics include descriptive statistics, numeracy, and report writing; basic principles of experimental design and analysis; regression analysis; data analysis using the SAS package. Prerequisite: consent of the instructor.

### **MATH5307 – MATHEMATICAL ANALYSIS I**

3 Lecture Hours · 0 Lab Hours

Elements of topology, real and complex numbers, limits, continuity, and differentiation, functions of bounded variation, Riemann-Stieltjes integrals. Prerequisite: MATH 4335 or consent of Graduate Advisor.

### **MATH5308 – MATHEMATICAL ANALYSIS II**

3 Lecture Hours · 0 Lab Hours

Analysis in  $R^n$ , limits, continuity, Jacobian, extremum problems, multiple integrals, sequences and series of functions, Lebesgue integral. Prerequisite: MATH 5307 or consent of Graduate Advisor.

### **MATH5310 – MATHEMATICAL GAME THEORY**

3 Lecture Hours · 0 Lab Hours

Two person null sum games. Bimatrix games and Nash equilibrium points. Noncooperative games, existence theorem. Cooperative games, core, Shapley value, the nucleolus. Cost allocation. Market games. Simple games and voting. Prerequisite: MATH 5330.

### **MATH5311 – APPLIED PROBABILITY AND STOCHASTIC PROCESSES**

3 Lecture Hours · 0 Lab Hours

Topics include conditional expectations, law of large numbers and central limit theorem, stochastic processes, including Poisson, renewal, birth-death, and Brownian motion. Prerequisite: MATH 3313 or equivalent.

### **MATH5312 – MATHEMATICAL STATISTICS I**

3 Lecture Hours · 0 Lab Hours

Basic probability theory, random variables, expectation, probability models, generating functions, transformations of random variables, limit theory. Prerequisite: MATH 5307 or concurrent registration or consent of instructor.

### **MATH5313 – MATHEMATICAL STATISTICS II**

3 Lecture Hours · 0 Lab Hours

Theories of point estimation (minimum variance unbiased and maximum likelihood), interval estimation and hypothesis testing (Neyman-Pearson and likelihood ratio tests), regression analysis and Bayesian inference. Prerequisite: MATH/STATS 5312.

### **MATH5314 – EXPERIMENTAL DESIGN**

3 Lecture Hours · 0 Lab Hours

This course covers the classical theory and methods of experimental design, including randomization, blocking, one-way and factorial treatment structures, confounding, statistical models, analysis of variance tables and multiple comparisons procedures. Prerequisite: MATH/STATS 5305 or MATH/STATS 5355 or permission of instructor.

### **MATH5315 – GRAPH THEORY**

3 Lecture Hours · 0 Lab Hours

Algorithms for problems on graphs. Trees, spanning trees, connectedness, fundamental circuits. Eulerian graphs and Hamiltonian graphs. Graphs and vector spaces, matrices of a graph. Covering and coloring. Flows. Prerequisite: MATH 3314.

### **MATH5316 – COMBINATORIAL OPTIMIZATION**

3 Lecture Hours · 0 Lab Hours

Shortest paths. Minimum weight spanning trees and matroids. Matchings and optimal assignment. Connectivity. Flows in networks, applications. Prerequisite: MATH 3314.

### **MATH5317 – REAL ANALYSIS FOR THE MATHEMATICAL SCIENCES**

3 Lecture Hours · 0 Lab Hours

Sigma-fields, measures, measurable functions, convergence in measure and almost everywhere, integration, Fatou's Lemma, Lebesgue-dominated convergence, signed measures, Radon-Nikodym Theorem, product measures, Fubini's Theorem. Prerequisite: MATH 5308.

### **MATH5318 – FUNDAMENTALS OF STOCHASTIC ANALYSIS**

3 Lecture Hours · 0 Lab Hours

General properties of stochastic processes, processes with independent increments, martingales, limit theorems including invariance principle, Markov processes, stochastic integral, stochastic differential. Prerequisite: MATH 5308.

### **MATH5319 – PROBABILITY THEORY**

3 Lecture Hours · 0 Lab Hours

Probability spaces, random variables, filtrations, conditional expectations, martingales, strong law of large numbers, ergodic theorem, central limit theorem, Brownian motion and its properties. Prerequisite: MATH 5308.

### **MATH5320 – APPLIED DIFFERENTIAL EQUATIONS**

3 Lecture Hours · 0 Lab Hours

Fundamentals of the theory of systems of ordinary differential equations: existence, uniqueness, and continuous dependence of solutions on data; linear equations, stability theory and its applications, periodic and oscillatory solutions. Prerequisite: MATH 5307 and 5333.

### **MATH5321 – APPLIED PARTIAL DIFFERENTIAL EQUATIONS**

3 Lecture Hours · 0 Lab Hours

General first order equations. Basic linear theory for elliptic, hyperbolic, and parabolic second order equations, including existence and uniqueness for initial and boundary value problems. Prerequisites: MATH 5307 and 5333.

### **MATH5322 – COMPLEX VARIABLES I**

3 Lecture Hours · 0 Lab Hours

Fundamental theory of analytic functions, residues, conformal mapping and applications. Prerequisite: MATH 5307.

### **MATH5325 – ALGEBRAIC NUMBER THEORY**

3 Lecture Hours · 0 Lab Hours

Field extensions, number fields and number rings, ramification theory, class groups, elliptic curves and their group structure, applications to Fermat's last theorem. Prerequisite: MATH 3321.

### **MATH5326 – ALGEBRAIC TOPOLOGY**

3 Lecture Hours · 0 Lab Hours

Fundamental groups, covering space, singular homology, relative homology, Mayer-Vietoris sequence, Betti numbers, Euler characteristic. Prerequisites: MATH 3321, MATH 3335.

### **MATH5327 – FUNCTIONAL ANALYSIS I**

3 Lecture Hours · 0 Lab Hours

Introduction to Hilbert and Banach spaces: Hahn-Banach, Banach-Steinhaus, and closed graph theorems. Riesz representation theorem and bounded linear operators in Hilbert space. Prerequisite: MATH 5308.

### **MATH5328 – FUNCTIONAL ANALYSIS II**

3 Lecture Hours · 0 Lab Hours

The theory of distributions and Sobolev spaces, with applications to differential equations. Compact operators and Fredholm theory. Spectral theory for unbounded operators. Prerequisite: MATH 5327.

### **MATH5329 – HOMOLOGICAL ALGEBRA**

3 Lecture Hours · 0 Lab Hours

Projective and injective modules, projective and injective resolutions, Hom and tensor, the language of category theory, derived functors, Ext and Tor, complexes.

### **MATH5330 – ALGEBRAIC GEOMETRY**

3 Lecture Hours · 0 Lab Hours

Theory of ideals in polynomial rings, Nullstellensatz, Hilbert's basis theorem, computation in polynomial rings, affine and projective varieties, singular and smooth points on varieties. Prerequisite: MATH 4321.

### **MATH5331 – ABSTRACT ALGEBRA I**

3 Lecture Hours · 0 Lab Hours

Zorn's Lemma, groups, including free groups and dihedral groups. Rings including factorization, localization, rings of polynomials, and formal power series. An introduction to modules. Prerequisite: MATH 3321.

### **MATH5332 – ABSTRACT ALGEBRA II**

3 Lecture Hours · 0 Lab Hours

Modules, including free, projective, and injective. Exact sequences and tensor products of modules. Chain conditions, primary decomposition, Noetherian rings and modules. Prerequisite: MATH 5331.

### **MATH5333 – LINEAR ALGEBRA AND MATRICES**

3 Lecture Hours · 0 Lab Hours

Vector spaces, their sums, linear (in)dependence, bases, linear maps and their matrices, change of basis, inner-products, adjoints, diagonalization, eigenvectors and generalized eigenvectors, eigenvalues, Jordan form, characteristic and minimal polynomials, dual vector spaces, bilinear and quadratic forms. Prerequisite: MATH 3330 or consent of instructor.

### **MATH5334 – DIFFERENTIAL GEOMETRY**

3 Lecture Hours · 0 Lab Hours

Introduction to the theory of curves and surfaces in three dimensional Euclidean space. Prerequisite: MATH 4334 or 4335.

### **MATH5336 – CONCEPTS AND TECHNIQUES IN NUMBER THEORY**

3 Lecture Hours · 0 Lab Hours

Topics include mathematical induction, fundamental theorem of arithmetic, inequalities, special sequences and sums, divisibility properties, greatest common divisor, division and Euclidean algorithm, properties of congruence and Diophantine equations.

### **MATH5337 – CONCEPTS AND TECHNIQUES IN CALCULUS**

**3** Lecture Hours · **0** Lab Hours

Topics studied include limits, continuity, differentiation, integration, numerical approximations, applications and Taylor series.

### **MATH5338 – NUMERICAL ANALYSIS I**

**3** Lecture Hours · **0** Lab Hours

Solution of equations including linear and nonlinear systems, interpolation and approximation, spline, numerical differentiation and quadrature. Prerequisite: MATH 2425 or consent of the instructor.

### **MATH5339 – NUMERICAL ANALYSIS II**

**3** Lecture Hours · **0** Lab Hours

Rigorous treatment of numerical aspects of linear algebra and numerical solution of ordinary differential equations, boundary value problems, introduction to numerical solution of partial differential equations. Prerequisite: MATH 5338 or consent of the instructor.

### **MATH5340 – CONCEPTS AND TECHNIQUES IN DISCRETE MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Topics include functions, mathematical induction, principles of counting, combinatorics, sequences and recurrence relations, and finite graph theory.

### **MATH5341 – CONCEPTS AND TECHNIQUES IN GEOMETRY**

**3** Lecture Hours · **0** Lab Hours

Selected materials from geometry.

### **MATH5342 – CONCEPTS AND TECHNIQUES IN ALGEBRA**

**3** Lecture Hours · **0** Lab Hours

Selected materials from algebra.

### **MATH5343 – CONCEPTS AND TECHNIQUES IN PROBABILITY AND STATISTICS**

**3** Lecture Hours · **0** Lab Hours

Consideration of (1) exploring data: descriptive statistics of situations involving one and two variables; (2) anticipating patterns: probability and simulation; (3) design of experiments and planning a study; (4) statistical inference: confirming models. Use of a graphing calculator and other appropriate technology.

### **MATH5344 – MATHEMATICS-SPECIFIC TECHNOLOGIES**

**3** Lecture Hours · **0** Lab Hours

Focus on use of current mathematics-specific technologies for enhancing mathematical understanding and mathematics teaching. May include use of Geometer's Sketchpad, Fathom, graphing calculators and computer algebra systems.

### **MATH5345 – CONCEPTS AND TECHNIQUES IN ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Selected materials from analysis including concepts and topics consistent with precalculus and elementary calculus. Prerequisite: MATH 5337 or consent of the instructor.

### **MATH5346 – CONCEPTS AND TECHNIQUES IN PROBLEM SOLVING**

**3 Lecture Hours · 0 Lab Hours**

A study of the application of various heuristics and general problem strategies in mathematics, with application to the teaching and learning of secondary school and college-level mathematics. Topics include analyzing, classifying, and modifying tasks, assessment of problem solving, and implementing problem solving in the classroom. Assignments require interaction in secondary school or college field settings.

### **MATH5347 – CONCEPTS AND TECHNIQUES IN MATHEMATICAL MODELING WITH APPLICATIONS**

**3 Lecture Hours · 0 Lab Hours**

Topics studied include algebraic, graphical, geometrical and numerical techniques to model and solve applied problems.

### **MATH5348 – ADVANCED ALGEBRA IN SECONDARY SCHOOL MATHEMATICS**

**3 Lecture Hours · 0 Lab Hours**

Major concepts of second-year algebra applied to the teaching and learning of secondary school mathematics. Topics include relations, algebraic, tabular, verbal and geometric representations of functions, transformations, including applications involving systems of equations and inequalities.

### **MATH5350 – APPLIED MATHEMATICS I**

**3 Lecture Hours · 0 Lab Hours**

Development of models arising in the natural sciences and in engineering. Emphasis will be on the mathematical techniques and theory needed to analyze such models; these include aspects of the theory of differential and integral equations, boundary value problems, theory of distributions and transforms. Prerequisites: MATH 5307 and 5333.

### **MATH5351 – APPLIED MATHEMATICS II**

**3 Lecture Hours · 0 Lab Hours**

Continuation of MATH 5350; models arising in the physical sciences whose analysis includes such topics as the theory of operators in a Hilbert space, variational principles, branching theory, perturbation and stability analysis. Prerequisite: MATH 5350.

### **MATH5352 – CONCEPTS AND TECHNIQUES IN PRECALCULUS**

**3 Lecture Hours · 0 Lab Hours**

Topics include functions (transcendental, inverse, parametric, polar, transformations), asymptotic behavior, conics, sequences, complex numbers.

### **MATH5353 – APPLIED LINEAR MODELS**

**3 Lecture Hours · 0 Lab Hours**

The course covers, at an operational level, three topics: 1) the univariate linear model, including a self-contained review of the relevant distribution theory, basic inference methods, several parameterizations for experimental design and covariate-adjustment models and applications, and power calculation; 2) the multivariate linear model, including basic inference (e.g. the four forms of test criteria and simultaneous methods), applications to repeated measures experiments and power calculation; and 3) the univariate mixed model, including a discussion of the likelihood function and its maximization, approximate likelihood inference, and applications to complex experimental designs, missing data, unbalanced data, time series observations, variance component estimation, random effects estimation, power calculation and a comparison of the mixed model's capabilities relative to those of the classical multivariate model. Knowledge of the SAS package is required. Prerequisite: MATH/STATS 5358 (Regression Analysis) or equivalent.

### **MATH5354 – CATEGORICAL DATA ANALYSIS**

**3 Lecture Hours · 0 Lab Hours**

This course covers classical methods for analyzing categorical data from a variety of response/factor

structures (univariate or multivariate responses, with or without multivariate factors), based on several different statistical rationales (weighted least squares, maximum likelihood and randomization-based). Included are logistic regression, multiple logit analysis, mean scores analysis, observer agreement analysis, association measures, methods for complex experimental designs with categorical responses and Poisson regression. The classical log-linear model for the association structure of multivariate responses is briefly reviewed. Randomization-based inference (e.g. Mantel-Haenzel) is discussed as well. The necessary distribution theory (multinomial, asymptotics of weighted least squares and maximum likelihood) are discussed at an operational level. Knowledge of the SAS package is required. Prerequisite: MATH/STATS 5358 (Regression Analysis).

### **MATH5355 – STATISTICAL THEORY FOR RESEARCH WORKERS**

**3** Lecture Hours · **0** Lab Hours

Designed for graduate students not majoring in mathematics. Topics include basic probability theory, distributions of random variables, point estimation, interval estimation, testing hypotheses, regression, and an introduction to analysis of variance. Graduate credit not given to math majors. Prerequisite: calculus math1426/math2425/math2326 or permission of instructor.

### **MATH5356 – APPLIED MULTIVARIATE STATISTICAL ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Statistical analysis for data collected in several variables, topics including sampling from multivariate normal distribution, Hotelling's  $T^2$ , multivariate analysis of variance, discriminant analysis, principal components, and factor analysis. Prerequisite: MATH/STATS 5312 or consent of instructor.

### **MATH5357 – SAMPLE SURVEYS**

**3** Lecture Hours · **0** Lab Hours

A comprehensive account of sampling theory and methods, illustrations to show methodology and practice, simple random sampling, stratified random sample, ratio estimates, regression estimates, systematic sampling, cluster sampling, and nonsampling errors. Prerequisite: MATH/STATS 5312 or consent of instructor.

### **MATH5358 – REGRESSION ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

A comprehensive course including multiple linear regression, non-linear regression and logistic regression. Emphasis is on modeling, inference, diagnostics and application to real data sets. The course begins by developing a toolbox of methods via a sequence of guided homework assignments. It culminates with projects based on consulting-level data analysis problems involving stratification, covariate adjustment and messy data sets. Some knowledge of the SAS package is required. Prerequisites: MATH/STATS 5305, basic knowledge of matrices.

### **MATH5359 – SURVIVAL ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

This course covers analysis of lifetime data, which has applications to actuarial science and health fields. Topics include the survivor function, hazard function, censoring, parametric regression models (e.g. the weibull), nonparametric regression models (e.g. the Cox proportional hazards model), categorical survival data methods, competing risks and methods for multivariate survival data. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and preferably MATH/STATS 5313. (Students without 5313 can still succeed if they have some basic calculus-based probability, such as MATH 3313).

### **MATH5361 – APPLIED CALCULUS OF VARIATION**

**3** Lecture Hours · **0** Lab Hours

Functionals, variation, extremization, Euler's equation, direct and indirect approximation methods; applications to mechanics and control theory. Prerequisite: MATH 5302.

### **MATH5362 – MATHEMATICS OF LINEAR PROGRAMMING**

**3** Lecture Hours · **0** Lab Hours

The simplex method and the revised simplex method. Linear algebra for polyhedra and polytopes. Duality theory. Sensitivity analysis. Applications to transportation problems, network flow problems, matrix-games and scheduling problems. Integer programming. Quadratic programming. Prerequisite: MATH 3330.

### **MATH5363 – OSCILLATIONS AND WAVES**

**3** Lecture Hours · **0** Lab Hours

Development of methods and results related to phenomena in nature that exhibit oscillatory motion; mathematical techniques include Fourier series, ordinary and partial differential equations, and the theory of almost periodic functions. Prerequisite: MATH 3318.

### **MATH5364 – INTRODUCTION TO MATHEMATICAL CONTROL THEORY**

**3** Lecture Hours · **0** Lab Hours

Systems in science, engineering, and economics and their mathematical description by means of functional equations (ordinary, partial, integral, delay-type). Basic properties of various classes of systems: observability, controllability, stability, and oscillating systems; optimal control problems and applications. Prerequisite: MATH 3318 or 4320.

### **MATH5365 – BIOMATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Mathematical techniques used in modeling such as perturbation theory, dimensional analysis, Fourier analysis, and differential equations. Applications to morphogenetics, population dynamics, compartmental systems, and chemical kinetics.

### **MATH5366 – INTRODUCTION TO NEURAL AND COGNITIVE MODELING**

**3** Lecture Hours · **0** Lab Hours

Principles of neural network modeling; application of these principles to the simulation of cognitive processes in both brains and machines; models of associative learning, pattern recognition, and classification. Prerequisite: consent of instructor.

### **MATH5370 – PROBLEM SOLVING IN K-8 MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

A study of the nature and aspects of problem solving in mathematics, with application to the teaching and learning of K-8 mathematics. Topics include deconstructing and modifying tasks, assessment of problem solving, and the roles of representation, conjecture & proof, and technology in problem solving. Assignments require interaction in K-8 field settings. Prerequisite: graduate standing.

### **MATH5371 – APPLIED NUMERICAL LINEAR ALGEBRA**

**3** Lecture Hours · **0** Lab Hours

Numerical solutions of linear algebraic systems, least squares problems, and eigenvalue problems; LU and QR decompositions, Schur and Singular Value decompositions, Gaussian elimination, QR algorithm, and Krylov subspace iterations for large and sparse linear algebra problems. Prerequisites: MATH 3330 or consent of the instructor.

### **MATH5372 – OPTIMIZATION METHODS & NUMERICAL SOLUTIONS OF NONLINEAR EQUATIONS**

**3** Lecture Hours · **0** Lab Hours

Unconstrained and constrained optimization, solutions of nonlinear system of equations; Newton and quasi-Newton methods, secant methods and variations, nonlinear least squares problems. Prerequisite: MATH 5308 or consent of the instructor.

### **MATH5373 – NUMERICAL SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS**

**3** Lecture Hours · **0** Lab Hours

Numerical methods for approximating solutions of initial value problems, boundary value problems, including linear multistep methods, Runge-Kutta methods, shooting methods. Prerequisite: MATH 5300, 3319 or consent of instructor.

### **MATH5374 – NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS**

**3** Lecture Hours · **0** Lab Hours

Numerical methods for elliptic, parabolic, hyperbolic, mixed, and systems of partial differential equations; finite difference methods, finite element methods, spectral methods. Prerequisite: MATH 5373 or consent of instructor.

### **MATH5375 – CONSTRUCTING WHOLE NUMBER AND OPERATIONS IN K-8 MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

A study of the interaction between the structure of place-value numeration systems and the nature of the four arithmetic operations. The development of traditional and alternative computational arithmetic algorithms from conceptual and concrete models for operations, viewed through the lens of alternative numeration systems and research on children's mathematical thinking. Assignments require interaction in K-8 field settings. Prerequisite: graduate standing.

### **MATH5376 – CONSTRUCTING RATIONAL NUMBER AND OPERATIONS IN K-8 MATH**

**3** Lecture Hours · **0** Lab Hours

The meanings and representations of rational numbers, and the development of computations on rational numbers from algorithms for whole numbers, including concrete models for operations on fractions and decimals. Discussion of research on the learning and teaching of operations on rational numbers. Also, divisibility tests and factoring. Assignments require interaction in K-8 field settings. Prerequisite: MATH 5375.

### **MATH5377 – ALGEBRAIC THINKING IN K-8 MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

A study of the practice of making and justifying generalizations in K-8 mathematics, including field properties of operations, modular arithmetic (with applications to odd/even), relations and equivalence relations, the introduction and use of variables and unknowns, and the influence of representations on the form of mathematical arguments. Assignments require interaction in K-8 field settings. Prerequisite: MATH 5375.

### **MATH5378 – GEOMETRY CONCEPTS IN K-8 MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Major concepts of geometry applied to the teaching and learning of K-8 mathematics. Topics include dimension, development of definitions, meanings of angle, geometric comparison relations, notions of center, and non-Euclidean geometries. Assignments require interaction in K-8 field settings. Prerequisite: graduate standing.

### **MATH5379 – MEASUREMENT CONCEPTS IN K-8 MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

The development of measurement concepts as applied to the teaching and learning of K-8 mathematics. Topics include the development and properties of standard and nonstandard units, notions of size, decomposing space, relationships between boundaries and interiors, the algebra of units, measuring time, and notions of heaviness. Assignments require interaction in K-8 field settings. Prerequisite: graduate standing.

### **MATH5380 – SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Current topics in mathematics, may be repeated for credit twice. Prerequisite: consent of instructor.

### **MATH5391 – SPECIAL TOPICS IN MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Topics in mathematics assigned individual students or small groups. Faculty members closely supervise the students in their research and study. In areas where there are only three hours offered, the special topics may be used by students to continue their study in the same area. Graded P/F/R. Prerequisite: permission of instructor.

### **MATH5392 – SELECTED TOPICS IN MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

May vary from semester to semester depending upon need and interest of the students. May be repeated for credit. Prerequisite: permission of Graduate Advisor.

### **MATH5395 – SPECIAL PROJECT**

**3** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: permission of Graduate Advisor.

### **MATH5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

5398 Graded R/F only; 5698 graded P/F/R. Prerequisite: permission of Graduate Advisor.

### **MATH5399 – RESEARCH IN MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Faculty directed individual study and research. May be repeated for credit. Graded P/F/R/W only. Prerequisite: permission of instructor.

### **MATH5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: permission of Graduate Advisor.

### **MATH5699 – RESEARCH IN MATHEMATICS**

**6** Lecture Hours · **0** Lab Hours

Faculty directed individual study and research. May be repeated for credit. Graded P/F/R/W only. Prerequisite: permission of instructor.

### **MATH5999 – RESEARCH IN MATHEMATICS**

**9** Lecture Hours · **0** Lab Hours

Faculty directed individual study and research. May be repeated for credit. Graded P/F/R/W only. Prerequisite: permission of instructor.

### **MATH6180 – SEMINAR FOR PROFESSIONAL DEVELOPMENT OF PHD STUDENTS IN SPECIAL PROJECTS**

**1** Lecture Hour · **0** Lab Hours

This seminar class is for Ph.D. students enrolled in special University projects. Topics include a survey of new Math, Science, Technology and Engineering advancements, Ph.D. students professional development and mentoring. Prerequisite: Prior approval of Project Director.

### **MATH6313 – TOPICS IN PROBABILITY AND STATISTICS**

**3** Lecture Hours · **0** Lab Hours

May be repeated for credit when the content changes.

### **MATH6353 – GENERALIZED LINEAR MODELS**

**3** Lecture Hours · **0** Lab Hours

This course covers modern methods for analyzing Bernoulli, multinomial and count data. It begins with a development of generalized linear model theory, including the exponential family, link function and maximum likelihood. Second is a discussion of the case of models for independent observations. Next is a discussion of models for repeated measures, based on quasi-likelihood methods. These include models (such as Markov chains) for categorical time series. Next is a treatment of models with random effects. Finally is a discussion of methods for handling missing data. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and preferably MATH/STATS 5313. (Students without 5313 can still succeed but must deal with the slightly higher mathematical level of this course.)

### **MATH6356 – TIME SERIES ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

This course covers classical methods of time series analysis, for both the time and frequency domains. For covariance stationary series, these include ARIMA modeling and spectral analysis. For nonstationary series, they include methods for detrending and filtering. Also included is a treatment of multivariate series, as well as a discussion of the Kalman filter state-space model. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and MATH/STATS 5313.

### **MATH6357 – NONPARAMETRIC STATISTICS**

**3** Lecture Hours · **0** Lab Hours

This is a survey of classical nonparametric methods for inference in standard observational settings (one-sample, two-sample, k-samples and the univariate linear model), and includes a development of U-statistics, rank statistics and their asymptotic distribution theory. The mathematical level is fairly high. Prerequisite: MATH/STATS 5313.

### **MATH6391 – SPECIAL TOPICS IN MATHEMATICS**

**3** Lecture Hours · **0** Lab Hours

Faculty directed individual study and research. May be repeated for credit when the content changes.

### **MATH6399 – DISSERTATION**

**3** Lecture Hours · **0** Lab Hours

Prerequisite: admission to candidacy for the Doctor of Philosophy degree in mathematics.

### **MATH6699 – DISSERTATION**

**6** Lecture Hours · **0** Lab Hours

Prerequisite: admission to candidacy for the Doctor of Philosophy degree in mathematics.

### **MATH6999 – DISSERTATION**

**9** Lecture Hours · **0** Lab Hours

Prerequisite: admission to candidacy for the Doctor of Philosophy degree in mathematics.

### **MATH7399 – DOCTORAL DEGREE COMPLETION**

**3** Lecture Hours · **0** Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours

may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## MSCI Courses

### MSCI6399 – DISSERTATION

3 Lecture Hours · 0 Lab Hours

### MSCI6699 – DISSERTATION

6 Lecture Hours · 0 Lab Hours

### MSCI6999 – DISSERTATION

9 Lecture Hours · 0 Lab Hours

### MSCI7399 – DOCTORAL DEGREE COMPLETION

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## STATS Courses

### STATS5305 – STATISTICAL METHODS

3 Lecture Hours · 0 Lab Hours

Topics include descriptive statistics, numeracy, and report writing; basic principles of experimental design and analysis; regression analysis; data analysis using the SAS package. Prerequisite: consent of the instructor.

### STATS5312 – MATHEMATICAL STATISTICS I

3 Lecture Hours · 0 Lab Hours

Basic probability theory, random variables, expectation, probability models, generating functions, transformations of random variables, limit theory. Prerequisite: MATH 5307 or concurrent registration or consent of instructor.

### STATS5313 – MATHEMATICAL STATISTICS II

3 Lecture Hours · 0 Lab Hours

Theories of point estimation (minimum variance unbiased and maximum likelihood), interval estimation and hypothesis testing (Neyman-Pearson and likelihood ratio tests), regression analysis and Bayesian inference. Prerequisite: MATH/STATS 5312.

**STATS5314 – EXPERIMENTAL DESIGN****3** Lecture Hours · **0** Lab Hours

This course covers the classical theory and methods of experimental design, including randomization, blocking, one-way and factorial treatment structures, confounding, statistical models, analysis of variance tables and multiple comparisons procedures. Prerequisite: MATH/STATS 5305 or MATH/STATS 5355 or permission of instructor.

**STATS5353 – APPLIED LINEAR MODELS****3** Lecture Hours · **0** Lab Hours

The course covers, at an operational level, three topics: 1) the univariate linear model, including a self-contained review of the relevant distribution theory, basic inference methods, several parameterizations for experimental design and covariate-adjustment models and applications, and power calculation; 2) the multivariate linear model, including basic inference (e.g. the four forms of test criteria and simultaneous methods), applications to repeated measures experiments and power calculation; and 3) the univariate mixed model, including a discussion of the likelihood function and its maximization, approximate likelihood inference, and applications to complex experimental designs, missing data, unbalanced data, time series observations, variance component estimation, random effects estimation, power calculation and a comparison of the mixed model's capabilities relative to those of the classical multivariate model. Knowledge of the SAS package is required. Prerequisite: MATH/STATS 5358 (Regression Analysis) or equivalent.

**STATS5354 – CATEGORICAL DATA ANALYSIS****3** Lecture Hours · **0** Lab Hours

This course covers classical methods for analyzing categorical data from a variety of response/factor structures (univariate or multivariate responses, with or without multivariate factors), based on several different statistical rationales (weighted least squares, maximum likelihood and randomization-based). Included are logistic regression, multiple logit analysis, mean scores analysis, observer agreement analysis, association measures, methods for complex experimental designs with categorical responses and Poisson regression. The classical log-linear model for the association structure of multivariate responses is briefly reviewed. Randomization-based inference (e.g. Mantel-Haenzel) is discussed as well. The necessary distribution theory (multinomial, asymptotics of weighted least squares and maximum likelihood) are discussed at an operational level. Knowledge of the SAS package is required. Prerequisite: MATH/STATS 5358 (Regression Analysis).

**STATS5355 – STATISTICAL THEORY FOR RESEARCH WORKERS****3** Lecture Hours · **0** Lab Hours

Designed for graduate students not majoring in mathematics. Topics include basic probability theory, distributions of random variables, point estimation, interval estimation, testing hypotheses, regression, and an introduction to analysis of variance. Graduate credit not given to math majors. Prerequisite: calculus math1426/math2425/math2326 or permission of instructor.

**STATS5356 – APPLIED MULTIVARIATE STATISTICAL ANALYSIS****3** Lecture Hours · **0** Lab Hours

Statistical analysis for data collected in several variables, topics including sampling from multivariate normal distribution, Hotelling's  $T^2$ , multivariate analysis of variance, discriminant analysis, principal components, and factor analysis. Prerequisite: MATH/STATS 5312 or consent of instructor.

**STATS5357 – SAMPLE SURVEYS****3** Lecture Hours · **0** Lab Hours

A comprehensive account of sampling theory and methods, illustrations to show methodology and practice, simple random sampling, stratified random sample, ratio estimates, regression estimates, systematic sampling, cluster sampling, and nonsampling errors. Prerequisite: MATH/STATS 5312 or consent of instructor.

**STATS5358 – REGRESSION ANALYSIS****3** Lecture Hours · **0** Lab Hours

A comprehensive course including multiple linear regression, non-linear regression and logistic regression. Emphasis is on modeling, inference, diagnostics and application to real data sets. The course begins by developing a toolbox of methods via a sequence of guided homework assignments. It culminates with projects based on consulting-level data analysis problems involving stratification, covariate adjustment and messy data sets. Some knowledge of the SAS package is required. Prerequisites: MATH/STATS 5305, basic knowledge of matrices.

### STATS5359 – SURVIVAL ANALYSIS

3 Lecture Hours · 0 Lab Hours

This course covers analysis of lifetime data, which has applications to actuarial science and health fields. Topics include the survivor function, hazard function, censoring, parametric regression models (e.g. the weibull), nonparametric regression models (e.g. the Cox proportional hazards model), categorical survival data methods, competing risks and methods for multivariate survival data. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and preferably MATH/STATS 5313. (Students without 5313 can still succeed if they have some basic calculus-based probability, such as MATH 3313).

### STATS6353 – GENERALIZED LINEAR MODELS

3 Lecture Hours · 0 Lab Hours

This course covers modern methods for analyzing Bernoulli, multinomial and count data. It begins with a development of generalized linear model theory, including the exponential family, link function and maximum likelihood. Second is a discussion of the case of models for independent observations. Next is a discussion of models for repeated measures, based on quasi-likelihood methods. These include models (such as Markov chains) for categorical time series. Next is a treatment of models with random effects. Finally is a discussion of methods for handling missing data. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and preferably MATH/STATS 5313. (Students without 5313 can still succeed but must deal with the slightly higher mathematical level of this course.)

### STATS6356 – TIME SERIES ANALYSIS

3 Lecture Hours · 0 Lab Hours

This course covers classical methods of time series analysis, for both the time and frequency domains. For covariance stationary series, these include ARIMA modeling and spectral analysis. For nonstationary series, they include methods for detrending and filtering. Also included is a treatment of multivariate series, as well as a discussion of the Kalman filter state-space model. Knowledge of the SAS package is required. Prerequisites: MATH/STATS 5358 (Regression Analysis) and MATH/STATS 5313.

### STATS6357 – NONPARAMETRIC STATISTICS

3 Lecture Hours · 0 Lab Hours

This is a survey of classical nonparametric methods for inference in standard observational settings (one-sample, two-sample, k-samples and the univariate linear model), and includes a development of U-statistics, rank statistics and their asymptotic distribution theory. The mathematical level is fairly high. Prerequisite: MATH/STATS 5313.

#### Degree Requirements: Master of Science

#### Degree Requirements: Doctor of Philosophy

### Objective

The objective of graduate work in physics is to prepare the student for continued professional and scholarly development as a physicist. The Physics MS Degree Programs are designed to give the student advanced training in all fundamental areas of physics through formal courses and the options of some degree of specialization or participation in original research in one of a variety of projects directed by the faculty.

The Doctor of Philosophy in Physics and Applied Physics Program combines the traditional elements of a science doctoral program with courses in specifically applied topics and internship in a technological environment. It is designed to produce highly trained professionals with a broad perspective of the subject which may prepare them equally well for careers in academia or government or industry. Current research in the department is predominantly in the areas of condensed matter physics, materials science, astro physics, space physics and high-energy

physics and includes a wide range of theoretical work in solid state physics and experimentation in laser physics, optics, positron physics, nano-bio physics, solid state and surface physics, and high-energy physics.

## Admission Criteria

### Master of Science Program

For unconditional admission to the Master of Science program in physics, the candidate must satisfy the general admission requirements of the Graduate School, including a minimum undergraduate GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School and favorable letters of recommendation from individuals able to assess the applicant's potential for success in a Masters program. In addition, the candidate should have satisfactorily completed at least 24 undergraduate hours of advanced physics and supporting courses and should have minimal GRE scores of 350 in Verbal, and 650 in Quantitative.

### Doctor of Philosophy Program

For unconditional admission to the Doctor of Philosophy program, an applicant must have a master's degree or 30 semester hours of graduate credit in physics or a related field and satisfy the general admission requirements of the Graduate School, including a minimum graduate coursework GPA of 3.0 on a 4.0 scale, as calculated by the Graduate School and favorable letters of recommendation from individuals able to assess the applicant's potential for success in a Ph.D. program. In addition, the applicant should have minimal GRE scores of 350 in Verbal, and 650 in Quantitative.

Applicants not meeting the minimum requirements of the department or the Graduate School for either program may still be considered for unconditional acceptance if other information in their application indicates a reasonable probability of success in graduate studies in physics.

### Probationary Admission

If an applicant does not meet a majority of standards for unconditional admission outlined above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in their first 12 hours of graduate coursework at UT Arlington.

### Deferred and Provisional Admission

A deferred application decision may be granted when a file is incomplete or when a denied decision is not appropriate. An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### Denial of Admission

A candidate may be denied admission if he or she have less than satisfactory performance on the admission criteria described above.

### Scholarships and Fellowships

Students who are admitted will be eligible for available scholarship and/or fellowship support. Award of scholarships or fellowships will be based on consideration of the same criteria utilized in admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the Fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

## Degree Requirements: Master of Science

A minimum of 30 hours is required for the Master of Science degree, of which 24 hours, including

a six hour thesis (minimum registration), will be in physics, and six hours may be selected from physics, mathematics, chemistry, earth & environmental sciences, biology, or engineering as approved by the Graduate Advisor.

## Degree Requirements: Doctor of Philosophy

Each candidate must complete the following program requirements:

1. Demonstration of competence in a minimum of 39 credit hours of core courses chosen under the guidance of the supervising committee from the following (or from courses approved in advance by the Graduate Studies Committee):

Traditional core courses:

PHYS 5306 Classical Mechanics

PHYS 5307, 5308 Quantum Mechanics I, II

PHYS 5309, 5313 Electromagnetic Theory I, II

PHYS 5310 Statistical Mechanics

PHYS 5311, 5312 Mathematical Methods in Physics I, II

PHYS 5315, 5316 Solid State I, II

Applied Physics core courses:

PHYS 5314 Advanced Optics

PHYS 5319 Mathematical Methods in Physics III

PHYS 6301, 6302, 6303 Methods of Applied Physics I, II, III

Computer Science as required by the supervising committee.

2. Dissertation and additional research and elective courses chosen under the guidance of the supervising committee.

## PHYS Courses

### PHYS5193 – READINGS IN PHYSICS

1 Lecture Hour · 0 Lab Hours

Conference course. May be repeated for credit.

### PHYS5194 – RESEARCH IN PHYSICS

1 Lecture Hour · 0 Lab Hours

Conference course with laboratory. May be repeated for credit.

### PHYS5294 – RESEARCH IN PHYSICS

2 Lecture Hours · 0 Lab Hours

Conference course with laboratory. May be repeated for credit.

### PHYS5305 – CHAOS AND NONLINEAR DYNAMICS

3 Lecture Hours · 0 Lab Hours

Introduction to basic principles and concepts of chaos theory and their applications in diverse fields of research. Topics include chaotic and non-chaotic systems, stability analysis and attractors, bifurcation theory, routes to chaos and universality in chaos, iterated maps, Lyapunov exponents, fractal dimensions, multifractals, hamiltonian chaos, quantum chaos, controlling chaos, self-organized systems, and theory of complexity.

### PHYS5306 – CLASSICAL MECHANICS

3 Lecture Hours · 0 Lab Hours

General principles of analytical mechanics, the kinematics of rigid bodies, canonical transformation, Hamilton-Jacobi theory.

### **PHYS5307 – QUANTUM MECHANICS I**

3 Lecture Hours · 0 Lab Hours

Matrix formulation, theory of radiation, angular momentum, perturbation methods.

### **PHYS5308 – QUANTUM MECHANICS II**

3 Lecture Hours · 0 Lab Hours

Approximate methods, symmetry and unitary groups, scattering theory.

### **PHYS5309 – ELECTROMAGNETIC THEORY I**

3 Lecture Hours · 0 Lab Hours

Boundary value problems in electrostatics and magnetostatics, Maxwell's equations.

### **PHYS5310 – STATISTICAL MECHANICS**

3 Lecture Hours · 0 Lab Hours

Fundamental principles of statistical mechanics, Liouville theorem, entropy, Fermi-Dirac distribution, Bose-Einstein distribution, Einstein condensation, density matrix, quantum statistical mechanics, kinetic methods, and transport theory.

### **PHYS5311 – MATHEMATICAL METHODS IN PHYSICS I**

3 Lecture Hours · 0 Lab Hours

Algebraic and analytical methods used in modern physics. Algebra: matrices, groups, and tensors, with application to quantum mechanics, the solid state, and special relativity. Analysis: vector calculus, ordinary and partial differential equations, with applications to electromagnetic and seismic wave propagation.

### **PHYS5312 – MATHEMATICAL METHODS IN PHYSICS II**

3 Lecture Hours · 0 Lab Hours

Continuation of PHYS 5311 with a selection from the following topics. Algebra: matrix representations of the symmetric and point groups of solid state physics, matrix representations of the continuous groups  $O(3)$ ,  $SU(2)$ ,  $SU(3)$ ,  $SL(2,C)$ , general covariance. Analysis: further study of analytic functions, Cauchy's theorem, Green's function techniques, orthogonal functions, integral equations.

### **PHYS5313 – ELECTROMAGNETIC THEORY II**

3 Lecture Hours · 0 Lab Hours

Modern tensorial treatment of classical electrodynamics, force on and field of a moving charge, derivation and application of 4-vector potential, Maxwell's equations in tensor form, field momentum and radiation.

### **PHYS5314 – ADVANCED OPTICS**

3 Lecture Hours · 0 Lab Hours

Electromagnetic wave equations, theory of diffraction, radiation scattering and dispersion, coherence and laser optics. Additional advanced topics of current interest.

### **PHYS5315 – SOLID STATE I**

3 Lecture Hours · 0 Lab Hours

Crystal structure, lattice vibration, thermal properties, and band theory of solids.

### **PHYS5316 – SOLID STATE II**

3 Lecture Hours · 0 Lab Hours

Electrical and magnetic properties of crystalline solids, magnetic resonance, and optical phenomena.

### **PHYS5317 – STATISTICAL MECHANICS II**

**3** Lecture Hours · **0** Lab Hours

Methods in applied statistical mechanics. Topics may include fluctuations and critical phenomena, the Ising model, the master equation, transport in solids, and chaos.

### **PHYS5319 – MATHEMATICAL METHODS IN PHYSICS III**

**3** Lecture Hours · **0** Lab Hours

Numerical methods for applied physics; computer techniques, numerical differentiation, integration, interpolation, extrapolation; differential equations, integral equations, statistical analysis; scientific computer library; artificial intelligence programming.

### **PHYS5320 – QUANTUM MECHANICS III**

**3** Lecture Hours · **0** Lab Hours

Quantum theory of radiation; relativistic equations; elements of quantum field theory; symmetries and gauge theories. Applications in elementary particle physics and solid-state physics.

### **PHYS5325 – INTRODUCTION TO ELEMENTARY PARTICLES I**

**3** Lecture Hours · **0** Lab Hours

An overview of particles and forces. Particle detectors and accelerators. Invariance principles and conservation laws. Standard model. Electromagnetic, weak, strong, and unified interactions.

### **PHYS5326 – INTRODUCTION TO ELEMENTARY PARTICLE PHYSICS II**

**3** Lecture Hours · **0** Lab Hours

Systematics of the quark model; the fundamental interactions of elementary particles; spin and relativistic kinematics; Dirac Equation; the standard electroweak model.

### **PHYS5328 – SURFACE PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Experimental and theoretical methods for the study of solid surfaces. Geometric and electronic structure of metals and semiconductors. Surfaces as model systems of reduced dimensionality. Adsorption phenomena and film growth.

### **PHYS5330 – PHYSICS OF SEMICONDUCTOR PROCESSING AND CHARACTERIZATION**

**3** Lecture Hours · **0** Lab Hours

Selection from the following topics: physics of crystal growth, lattice defects, impurity diffusion, ion-implantation, thin film growth and plasma etching. Physics of characterization techniques utilizing resistivity, carrier mobility and lifetimes, electrons, x-rays, ions, Rutherford backscattering, neutron activation analysis, positron annihilation spectroscopy, deep-level transient spectroscopy.

### **PHYS5381 – MECHANICS & HEAT FOR TEACHERS**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in fundamental physics (not available for M.S. or Ph.D. credit in Physics). Topics include: 1) Newton's laws of motion, gravitation, and planetary motion; 2) the basic laws of thermal and statistical physics; 3) oscillatory motion including waves and sound. Replaceable experiments will be demonstrated throughout the course.

### **PHYS5382 – ELECTROMAGNETISM FOR TEACHERS**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in fundamental physics (not available for M.S. or Ph.D. credit in Physics). Topics include: 1) Static charges, current flow, electric and magnetic fields; 2) simple DC/AC electrical circuits including examples from

household circuit and practical electronic devices; 3) light and optics including examples such as cameras, microscopes and telescopes. Replaceable experiments will be demonstrated throughout the course.

### **PHYS5383 – MODERN PHYSICS FOR TEACHERS**

**3** Lecture Hours · **0** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in fundamental physics (not available for M.S. or Ph.D. credit in Physics). Topics include: 1) Introduction to special relativity and quantum theory; 2) light and radiation; 3) applications to modern electrical devices; 4) nuclear and particle physics.

### **PHYS5385 – PHYSICS LAB TECHNIQUES FOR TEACHERS**

**0** Lecture Hours · **3** Lab Hours

This course is intended for students who wish to achieve a higher level of knowledge and effectiveness in fundamental physics (not available for M.S. or Ph.D. credit in Physics). Experiments demonstrating various topics are covered. Experiments include gravitational acceleration heat flow, harmonic motion, sound, electric magnetic fields, electric circuits, optic, x-rays and nuclear radiation.

### **PHYS5391 – SPECIAL TOPICS IN PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Topics in physics, particularly from areas in which active research is being conducted, are assigned to individuals or small groups for intensive investigations. May be repeated for credit.

### **PHYS5393 – READINGS IN PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Conference course. May be repeated for credit.

### **PHYS5394 – RESEARCH IN PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Conference course with laboratory. May be repeated for credit.

### **PHYS5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

### **PHYS5694 – RESEARCH IN PHYSICS**

**6** Lecture Hours · **0** Lab Hours

Conference course with laboratory. May be repeated for credit.

### **PHYS5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

### **PHYS6301 – METHODS OF APPLIED PHYSICS I--ELECTRONICS**

**3** Lecture Hours · **0** Lab Hours

The analysis and design of electronic circuits for use in the laboratory. Transistors and integrated circuits in analog instrumentation. Digital logic. Information theory and signal processing.

### **PHYS6302 – METHODS OF APPLIED PHYSICS II--COMPUTERS IN PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Applications of computers in physics. Acquisition and analysis of experimental data. Vector and parallel processing, image processing, simulation.

### **PHYS6303 – METHODS OF APPLIED PHYSICS III--SPECTROSCOPY**

**3** Lecture Hours · **0** Lab Hours

The principles (interactions, cross-sections, elastic and inelastic scattering, diffraction, coherence), the methodologies (sources, detectors, visualization), and applications (structure, dynamics, composition, excitations) of neutral and charged particle spectroscopies to condensed matter physics and materials science.

### **PHYS6304 – APPLIED PHYSICS INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

Applied physics and engineering research and training in industry or other science or engineering departments of U.T. Arlington or other institutions requiring applied physicists. Faculty supervision and submission of technical progress reports required.

### **PHYS6391 – SELECTED TOPICS IN APPLIED PHYSICS**

**3** Lecture Hours · **0** Lab Hours

Topics chosen from research areas in the Department of Physics or at one of the institutions or corporations participating in the traineeship program in applied physics; emphasis on industrial and engineering applications. May be repeated for credit.

### **PHYS6399 – DISSERTATION**

**3** Lecture Hours · **0** Lab Hours

### **PHYS6604 – APPLIED PHYSICS INTERNSHIP**

**6** Lecture Hours · **0** Lab Hours

Applied physics and engineering research and training in industry or other science or engineering departments of U.T. Arlington or other institutions requiring applied physicists. Faculty supervision and submission of technical progress reports required.

### **PHYS6699 – DISSERTATION**

**6** Lecture Hours · **0** Lab Hours

### **PHYS6904 – APPLIED PHYSICS INTERNSHIP**

**9** Lecture Hours · **0** Lab Hours

Applied physics and engineering research and training in industry or other science or engineering departments of U.T. Arlington or other institutions requiring applied physicists. Faculty supervision and submission of technical progress reports required.

### **PHYS6999 – DISSERTATION**

**9** Lecture Hours · **0** Lab Hours

### **PHYS7399 – DOCTORAL DEGREE COMPLETION**

**3** Lecture Hours · **0** Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's

degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

**Department Information**

**Courses**

**Department Information**

**Objective**

**Admissions Criteria**

- **Probationary Admission**
- **Deferred Admission**
- **Provisional Admission**
- **Denial of Admission**
- **Eligibility for Scholarships/Fellowships**

**Degree Requirements**

- **Master of Science Degree**
- **Doctor of Philosophy**

**Objective**

The objective of graduate work in psychology is to educate the student in the methods and basic content of the discipline and to provide an apprenticeship in the execution of creative research.

Graduate work in the master's program and doctoral program will be offered in psychology. Students' individual programs of work may be arranged to give emphasis to a particular aspect of the general program.

Within this framework, options include, but are not limited to, Animal Behavior and Animal Learning, Cognition and Perception, Developmental, Health Psychology and Neuroscience, Industrial/Organizational, Behavioral Neuroscience, and Social-Personality Psychology. Students specializing in Cognition and Perception may include, in addition to their area C courses (described below), advanced topical seminars in their area of specialty. In addition to core courses (see area A) for those interested in Behavioral Neuroscience, seminars offered in the recent past include Aggression and Nociception. For those seeking expertise in the Social-Personality area, in addition to the area B courses, seminars have included topics such as Social Influence and Empathetic Accuracy and Intersubjectivity.

**Research Involvement**-Since the Department of Psychology believes that graduate training should involve the student continuously in the research process; students are encouraged to make personal contacts by letter or e-mail with faculty members of their choice. A description of the faculty and their areas of research may be obtained by consulting the department Web page at [www.uta.edu/psychology](http://www.uta.edu/psychology) or by writing to or calling the department at 817.272.2281. Every effort will be made to assign the incoming student to a faculty member of choice, but priority is given to those who have discussed their placement in advance.

**Deadline for Financial Aid Applications**-Students who wish to be considered for assistantships should have their applications and departmental forms sent to The University of Texas at Arlington by February 1 for the fall Semester and September 1 for the spring Semester. Students who do not desire financial aid may apply at any time up to the deadline listed by the Graduate School.

## Admissions Criteria

There are no fixed criteria for admission to the M.S. or Ph.D. programs in Psychology. Of course, the student is expected to have successfully completed the appropriate work prior to admission. In the case of the M.S. program, an undergraduate B.A. or B.S. degree is required. As calculated by the graduate school, a minimum grade point average of 3.0 (on a 4.0 scale) in undergraduate work is expected for unconditional admission. For the Ph.D., a minimum of 30 graduate hours with a GPA of 3.0 or better as calculated by the Graduate School is required.

Although we typically require at least a 3.0 average for unconditional admission, an average higher than 3.0 will not guarantee admission. Beyond these minimal criteria, there is no single criterion that determines whether a positive or negative admission decision is made.

Our admissions focus is on seeking positive indication of potential success in the program. These indications include:

1. A detailed examination of the student's transcript. Overall grade point average per se is not weighed as heavily as other grade indicants (e.g., grades in psychology) since most candidates for admission present averages greater than 3.0. Instead, we examine the coursework as evidence for research interest. Positive indicants of potential success in our program include greater than average work in psychology, the biological and physical sciences and mathematics. In similar fashion, evidence of experimental research previously undertaken is viewed as a predictor of future research. For students interested in specialization in Industrial/Organizational (I/O) Psychology at the Master's level appropriate coursework is taken into consideration.
2. Submission of Verbal, Quantitative and Analytical Writing GRE scores is required of all applicants including UT Arlington alumni. High GRE scores in each area are viewed as positive indicants, while a low GRE score on one subscale need not exclude a candidate who shows positive indicants in other areas.
3. At least three letters of reference are required and will be used as evidence of strong

commitment to experimental research (as in letters from an undergraduate research sponsor). We would prefer, if possible, letters from individuals such as your professors, who can comment on your academic abilities and potential. Evidence of success in employment relevant to I/O psychology will be considered for the Master's degree in that area.

4. The personal statement describing the applicant's laboratory, field, or applied interests, career plans and discussion of how the UT Arlington program can serve to further these interests and plans will be examined for evidence of the appropriateness of the candidate to the UT Arlington program.
5. Successful completion of a Master's degree in another department is viewed positively even when the degree was received in an area outside of psychology. In this latter case, some conditions in terms of make-up coursework may be specified.
6. As the expectation is that students will begin research in their first semester, they will be assigned a faculty member with whom they will work. This assignment will be based on space available in the student's program of interest and the fit of student to specific faculty's research interests. Since each area has its own criteria for admission, undergraduate interests deemed unsuitable by one faculty committee may be acceptable to another. The number of fully acceptable applicants generally exceeds the number admitted.

In summary the department views its mission in the MS/Ph.D program as to train students to be skillful in research. Therefore we seek students who show aptitude in as well as motivation for research. Students interested in the terminal MS program in Industrial/Organizational Psychology will have their records examined for indicants of potential to succeed in industrial settings.

### **Probationary Admission**

If an applicant does not have a majority of the positive indications for unconditional admission described above, they may be considered for probationary admission after careful examination of their application materials. Probationary admission requires that the applicant receive a B or better in their first 12 hours of graduate coursework at UT Arlington.

### **Deferred Admission**

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

### **Provisional Admission**

An applicant unable to supply all documentation (including certified transcripts, GRE scores, letters of reference, and personal statements) prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### **Denial of Admission**

Applicants whose records in the aggregate do not show sufficient positive indications of potential success will be denied admission.

### **Eligibility for Scholarships/Fellowships**

Students unconditionally admitted to the program are eligible for scholarship and fellowship support. The criteria applied will be the same as those applied to admission decisions. To be eligible, candidates must be new students coming to UT Arlington in the fall semester, must have a GPA of 3.0 in their last 60 undergraduate credit hours plus any graduate credit hours as calculated by the Graduate School, and must be enrolled in a minimum of 6 hours of coursework in both long semesters to retain their fellowships.

### **Degree Requirements**

In addition to the requirements outlined elsewhere, the Department of Psychology will require

undergraduate courses in statistics and in experimental methods. These courses may be taken as deficiency courses.

Degree requirements for the Department of Psychology are established by the Committee on Graduate Studies in Psychology and supplement those established by the University (see general requirements of the Graduate School as stated under the section entitled "Admission Requirements and Procedures").

Each entering graduate student will be furnished a copy of the departmental rules which will serve as guidelines for departmental actions and recommendations. Students are urged to consult the Department of Psychology's [Graduate Student Handbook](#) to obtain the most up-to-date information on department policies and practices that may impact their degree plans.

Each student must adhere to the code of ethics of the American Psychological Association.

## Master of Science Degree

As soon as is feasible, a student should decide on an area for specialization and research. After discussion with and consent of the involved faculty members, the student selects a supervising professor and a thesis committee. No student may enroll in PSYC 5698 until the thesis committee has approved a proposal for the thesis project.

**Specialization in Experimental Psychology** 30 hours, including six hours of thesis are required for this option. The program is designed to form the basis for the doctoral program. It is, however, open to those seeking a terminal master's degree. PSYC 5405, 5407, and 12 hours among 5313, 5321, 5322, 5333, 5345, and 6336 are required, including at least three hours from each area A, B, and C (see following).

**Specialization in Health Psychology:** 30 hours in psychology, including six hours of thesis are required for this option. The program is designed to form the foundational work for the doctoral program. Students are required to complete the statistics sequence in the department (PSYC 5405, 5407) and core courses in research methods (PSYC 5307), health psychology (PSYC 5309, and learning (PSYC 5313, 5314, 5345 or 6312) and at least one biological foundations course (PSYC 5333). In addition, students should enroll in PSYC 6102, Proseminar in Health Psychology, each long semester of graduate study. Please see the department's Graduate Handbook for suggested course sequences and degree plans. As for the experimental psychology specialization, thesis research and document are also required.

**Specialization in Health Psychology and Neuroscience:** 30 hours in psychology, including six hours of thesis are required for this option. The program is designed to form the foundational work for the doctoral program. Students are required to complete the statistics sequence in the department (PSYC 5405, 5407) and core courses in research methods (PSYC 5307), health psychology (PSYC 5309, and learning (PSYC 5313, 5314, 5345 or 6312) and at least one biological foundations course (PSYC 5333). In addition, students should enroll in PSYC 6101, Proseminar in Health Psychology, each long semester of graduate study. Please see the department's Graduate Handbook for suggested course sequences and degree plans. As for the experimental psychology specialization, thesis research and document are also required.

**Specialization in industrial/organizational (I/O) psychology:** 44 hours (47 with thesis option) in psychology are required for this degree. The program offers both a thesis and a non-thesis option; however, students pursuing applied careers are expected to complete the non-thesis route. All students in the program will be required to conduct research related to I/O psychology. Required psychology courses include PSYC 5405, 5407, 5322, 5323, 5324, 5325, 5326, 5328, 5329, 6349, one approved management elective, and six hours of internship (Psyc 5327). Students typically complete their thesis or non-thesis option (Individual Research) at the end of their second year.

A typical program of study looks like this:

Year	Fall	Spring
01	(4) - Psyc 5405 Adv. Statistics I	(4) - Psyc 5407 Adv. Statistics II

(3) - Psyc 5325 Organizational Behavior <sup>A</sup> or Psyc 5328 Employee Attitudes and Behavior <sup>B</sup>	(3) - Psyc 5326 Employee Selection <sup>B</sup> or Psyc 5329 Performance Mgmt. Systems <sup>A</sup>
(3) - Psyc 5322 Social Psychology	(3) - Psyc 5327 Internship
10	(3) - Psyc 5323 Group Processes <sup>B</sup> or Management Elective <sup>A</sup>
	13

<b>02</b> (3) - Psyc 5324 Applied Research Design	(3) - Psyc 5326 Employee Selection <sup>A</sup> or Psyc 5329 Performance Mgmt. Systems <sup>B</sup>
(3) - Psyc 5325 Organizational Behavior <sup>B</sup> or Psyc 5328 Employee Attitudes and Behavior <sup>A</sup>	(3) - Psyc 5323 Group Processes <sup>A</sup> or Psyc 6349 Psychometrics <sup>B</sup>
(3) - Psyc 6349 Psychometrics	Psyc 6349 Psychometrics <sup>B</sup>
9	(3) - Psyc 5327 Internship
	(6) - Thesis or (3) Individual Research
	15 or 12

Students who begin the I/O psychology program in odd numbered years (for example 2013, 2015) will take the courses marked with a Superscript "A" in the sequence presented.

Students who begin the I/O psychology program in even numbered years (for example 2012, 2014) will take the courses marked with a Superscript "B" in the sequence presented.

### Doctor of Philosophy

The degree of Doctor of Philosophy in psychology requires distinguished attainments in both scholarship and original research, and the deep understanding of the strategic role of thoughtful experimentation in the development of an empirical science. Although the student must meet the minimum requirements of a planned course of study, the ultimate basis for conferring the degree must be the demonstrated ability to do independent and creative work and the exhibition of a profound grasp of the subject matter of the field.

**Computer Knowledge Requirement:** Because of the fundamental and varied ways in which computers are applied in psychology, students are expected to understand their use and application in psychological research. Specifically, students are expected to demonstrate competence in the use of operating systems such as Windows or the Macintosh System, e-mail and other aspects of the Internet, standard office packages, data bases, programming languages (with specific reference to the programming of psychological experiments) and statistical packages such as SAS and SPSS. This computer knowledge requirement has been established in lieu of the foreign language requirement.

### Specialization in Experimental Psychology

The specialization in experimental psychology allows students to work in a general experimental context while specializing in one of several areas (e.g., cognitive psychology, social psychology, industrial/organizational, and so on).

Course requirements: Graduate students entering the experimental specialization will be required to take the following courses during their first four semesters of enrollment. Exceptions may be made only with written permission of the Committee on Graduate Studies.

Professional Development (5110 and 5112)  
Statistics I (5405)  
Statistics II (5407)

Four of the following courses, at least one from each area A, B, and C:  
 Area A: 5333 Behavioral Neuroscience, 6336 Comparative Psychology  
 Area B: 5321 Personality, 5322 Social Psychology  
 Area C: 5313 Higher Mental Processes, 5345 Human Learning and Memory

Experimental psychology students also have the option of taking PSYC 5309 - Health Psychology for the fourth core course.

Students with prior graduate work may be waived from any of the above requirements by a written request to the Committee on Graduate Studies. The request should include a syllabus or other documentation showing that a prior course and one of our required courses are equivalent. Students should discuss course equivalency with the professor(s) who teach the course(s) in question before submitting a request. Having fulfilled the above, the following are required:

1. An additional five courses (15 hours) from among lecture courses.
2. Two six-hour research courses. These may be taken from PSYC 5698 or PSYC 5600. Students who plan to obtain the MS should elect PSYC 5698 as one of the research courses and students who do not plan to obtain the MS should select two sections of PSYC 5600. If the student does not elect to obtain the MS, one of the research courses must result in a formal thesis-equivalent paper, which will be evaluated by a committee and defended in an oral examination. The two research courses are a minimum requirement. Students are strongly encouraged to take PSYC 5391 or 6391 before taking PSYC 5600 and PSYC 5698.
3. Nine hours of PSYC 6300.
4. Additional hours of coursework to be determined by the Graduate Advisor and dissertation committee. The student should plan to take approximately 86 hours including 6999. At least 45 of these hours must be in organized courses, lectures or seminars. No student may enroll in a dissertation course until the dissertation committee has approved a proposal for the dissertation project.

A student has completed the course requirements when he or she has:

1. Maintained at least a B average in 5405 and 5407.
2. Maintained at least a B average in his or her area core courses.
3. Received at least a B average in all other courses.

A typical program of study might look like this:

Year	Fall	Spring
01	Statistics I, an A, B or C core course, Professional Development I, Readings and/or Research elective	Statistics II, an A, B or C core course, Professional Development II, Readings and/or Research elective
02	An A, B, or C core course, Seminar, Lecture Electives and/or Thesis	An A, B, or C core course, Seminar, Lecture Electives and/or Thesis
03	Lecture Electives and/or Thesis, Seminar, Readings and/or Research elective	Lecture Electives and/or Seminar, Readings and/or Research elective
04	Lecture Electives and/or Thesis, Seminar, Readings and/or Research elective Dissertation Research	Lecture Electives and/or Thesis, Seminar, Readings and/or Research elective Dissertation Research
05	Dissertation Research	Dissertation Research

Note: This is based on a 5-year program of study. Students may adjust the speed at which milestones are achieved by adding 4th year courses earlier.

#### Prerequisite Conditions for the Qualifying Examination

In order to begin working on the qualifying exam, students must complete the Departmental MS Core Curriculum requirements as set forth elsewhere in the catalog. Generally, these course requirements will be met within the first two years of graduate enrollment. Students must also satisfactorily participate in the Research Progress Symposium (RPS). Finally, a Master's Thesis (or equivalent) must be completed. Students entering the program with a master's degree must

complete the Departmental MS Core Curriculum requirements and satisfactorily participate in the RPS before being invited to begin work on the Qualifying Examination. Upon completion of these prerequisite conditions, students have one year to complete their Qualifying Examination. This process consists of a Major Area Paper (MAP) and an oral defense, both of which must be completed within one year.

#### MAP and MAP Oral Defense

The MAP consists of a comprehensive review paper, which is a summary, integration, and critical review of the literature relevant to a general theme or topic. It is expected that the student will offer a novel and forward-thinking perspective on the topic area. The MAP does not directly propose research hypotheses and designs, nor does it involve the collection of primary-level data. It may be either a quantitative review (i.e., a meta-analysis) or a more qualitative review. It should contain a concluding section in which novel ideas are proposed and elaborated upon, and which will form a basis for the MAP Oral Defense. The topic area and scope of the MAP will be developed with the student's primary faculty mentor and one or two other Department of Psychology Faculty members. The preferred size of the Qualifying Examination Reading Committee is three members, but a two-member Committee is acceptable if an appropriate third member is not available. Students may consult their Committee members for general comments and direction concerning the MAP, but Committee member involvement in the writing of the MAP (including that of the student's Faculty mentor) is expected to be minimal.

Upon submission of the MAP document to the Qualifying Examination Reading Committee, the Committee will evaluate the MAP in terms of its potential contribution to the student's chosen field, and in terms of the degree to which it represents Ph.D.-level thinking, communication, independence, and scholarship. Ordinarily, the Qualifying Examination Reading Committee will take no longer than two weeks to evaluate the MAP and communicate their decision to the student. If the Committee determines that the MAP is unacceptable, the student will be given three months to revise it for a second evaluation by the Committee. If the revised version of the MAP is also judged to be unacceptable, the student will not be invited to pursue the Ph.D. degree in the UT Arlington Graduate Program in Psychology. Such a student's Master's degree will thus be his/her terminal degree.

If and when the MAP is deemed acceptable by the Committee, the Committee will invite the student to a MAP Oral Defense, which will take place no sooner than two weeks following communication from the Committee to the student that the student's MAP is acceptable. The MAP Oral Defense consists only of the student and Committee members, and is not open to other students, faculty, staff, or the general public. In this meeting, which will normally last between 90 and 120 minutes, Committee members will assess the student's knowledge of the topic area, the theoretical background, the methodologies likely to be employed in related research, limitations to the ideas, and conceptual and practical connections to related issues. The Committee will determine whether or not the student has clearly passed the examination, clearly failed, or passed with conditions which must be met before Ph.D. Candidacy is recommended. Upon passing both the MAP and the MAP Oral Defense, a Diagnostic Evaluation Report form must be completed, signed, and filed.

#### General Expectations and Stipulations

Upon satisfactory completion of both the MAP and the MAP Oral Defense, students should assemble a Dissertation Committee, which consists of their Faculty mentor and four other faculty members, for a total of five committee members. Students will meet with this Committee to present the proposed research and to solicit input concerning the best ways to accomplish the goals of the Dissertation Proposal. The Dissertation research may be related to, or based upon, the MAP, but this is not required. Upon approval of the Dissertation conceptualization, design, and methods, students will proceed in carrying out the approved plan of research. Please consult the Graduate Catalog and Department Handbook for general expectations regarding the Dissertation.

In addition, consult the Graduate Catalog and Department Handbook for general expectations regarding timelines. Typically, students will complete their Master's Thesis (or equivalent) in the 2nd or 3rd year of graduate studies. Ordinarily, the Qualifying Examination will be completed within one year of successfully completing the prerequisite conditions as outlined above. Because both

the MAP and the MAP Oral Defense have a two-week review and planning period, respectively, students must take these weeks into account when planning completion of the Qualifying Examination within one year. Students are also advised to be cognizant of these time frames in the event that they are required to revise their MAP. If the MAP and MAP Oral Defense have not been completed within one year of completion of all prerequisite conditions, students must submit a written explanation to their Qualifying Examination Reading Committee, detailing their progress and their anticipated completion date. Failure to complete the MAP and MAP Oral Defense within one year will also be a consideration in GTA funding decisions."

Comprehensive Examination: Presentation of a dissertation proposal to the student's dissertation supervisory committee constitutes the doctoral "comprehensive examination" for the Department of Psychology. A Request for Comprehensive Examination (PhD) form must be submitted prior to the presentation. A Results of Comprehensive Examination (PhD) form must be submitted after the presentation. These forms are available on-line. Approval of the dissertation proposal by the dissertation supervisory committee is needed before the student is considered to have passed the comprehensive examination.

### Specialization in Health Psychology and Neuroscience

The concentration in Health Psychology and Neuroscience is designed to train researchers in health and behavior, working at the cutting-edge or interdisciplinary, biomedical and biobehavioral investigation in areas such as pain, stress, psychoimmunology, cancer and aging.

#### Course Requirements:

Students seeking to specialize in Health Psychology and Neuroscience will be required to complete the two-course department statistics sequence (PSYC 5405 and PSYC 5407) and Research Methods (PSYC 5307) as well as core courses in Psychological Foundations, including Health Psychology (PSYC 5309), and Learning (Higher Mental Processes--PSYC 5313, Cognitive Development--PSYC 5314, Human Learning and Memory--PSYC 5345, or Animal Learning--PSYC 6312. Students are strongly advised to take History and Systems (PSYC 6316).

In addition, students are required to complete coursework in biological foundations, including systems physiology, neuroscience, and at least one relevant biological or biomedical specialty. A minimum of three foundations courses must be completed and these must include physiology (one of several approved courses offered in other UT departments), and behavioral neuroscience (PSYC 5333). The third required foundations course must be an approved graduate level course in genetics, immunology, endocrinology, or other specialized biomedical topic available at UT Southwestern or another UT Arlington department.

Students must complete seven electives in psychology or in other UT departments that have been approved by the program over the entire course of study. At least 5 must be courses offered by the Department of Psychology. Most department offerings will satisfy this requirement. It is expected that these electives will be advanced seminars and research courses. Students will also be required to enroll and participate in the Health Psychology Proseminar, which will meet weekly for 1 hour as a forum for a variety of seminar activities, presentations, and so on. Students will enroll in this seminar every long semester for the first four years of graduate study.

- 8 hours of Proseminar
- 8 hours of Statistics (2 courses)
- 9 hours of psychological foundations courses (methods, learning, health psychology)
- 9-12 hours biological foundations (3 courses, 3-4 credits each)
- 21 hours electives
- Thesis and dissertation as required

A typical program of study might look like this:

Year	Fall	Spring
01	Statistics, Research Methods, Proseminar	Statistics, Health Psychology, Proseminar
02	Physiology, Elective, Proseminar	Neuroscience, Learning, Proseminar

03	Biological Elective, Elective, Proseminar	Elective, Elective, Proseminar
04	Elective, Elective, Research Proseminar	Elective, Proseminar
05	Research	Research

Note: This is based on a 5-year program of study. Students may adjust the speed at which milestones are achieved by adding 4th year courses earlier.

#### Research requirements:

Research requirements include general expectations of student involvement in research throughout their graduate career and specific milestones that must be accomplished in order, including the masters' research preliminary examination, diagnostic/qualifying examinations, and the dissertation.

Masters' research: Students must complete a significant research project with primary responsibility for its derivation, conduct, and/or analysis. Ordinarily this is done during the first two years of graduate study. This must be completed before students can seek candidacy for the PhD. Students must complete, analyze, and report on a major research project, part or all of which is primarily the student's responsibility. Typically this is an experiment or study. For formal acceptance of an approved thesis so that the student can obtain a MS, university guidelines apply. The thesis committee should consist of 3 program faculty. Alternatively, the committee shall determine accepted format if a MS is not sought.

#### Preliminary Examination

Students must pass a preliminary exam, typically given at the start of the second year of graduate study. Students write answers to five questions derived from a pre-supplied readings list that test general ability to organize and integrate information and defend positions in areas of psychology. Students will be asked to re-cast, reformulate, challenge, defend, or derive established or novel concepts in psychology. Students who do not pass the exam are usually given the opportunity to retake it. Students may not seek candidacy for the PhD until this requirement has been satisfied. Reading lists are available at least four months before the examination.

#### Advancement to Candidacy

Once students have passed the Preliminary Exam and have completed the master's thesis or equivalent, they are eligible to undertake the diagnostic/qualifying examination. Successful completion of this exam process produces a recommendation for advancement to candidacy for the PhD. This process consists of two exams. The first is a comprehensive review paper that requires the student to take a novel or speculative perspective and provide an integrative and critical review of relevant literatures. Ordinarily this is completed in the third, or early in the fourth year, and may be incorporated into the introduction for the dissertation. The completed paper should be of a "publishable quality" in the style required for publication in the Psychological Bulletin. The student must assemble a two-person faculty committee (both should be program faculty) for this requirement and should meet with them at least twice, to get the topic and scope of the paper approved, and for final approval of the paper. Meetings may also be scheduled at variable intervals depending on the committee and student.

The second part of the diagnostic/qualifying examination is an oral examination, typically 90-120 minutes long, on the student's area of specialization. This will be completed after the third-year paper above has been formally accepted and will involve a student and a committee of three program faculty. In this examination, the student will present a proposition or series of propositions and a proposal to study them, and the committee will examine the student's knowledge of the area, of its methods and limitations, and of how these propositions fit into larger frameworks. The committee will determine whether the student has passed the specialty examination. An initial failure to pass can result in a retake, but continued failure will lead to a recommendation not to advance to candidacy. Passing the specialty and third-year paper requirements will lead to a recommendation for advancement to candidacy to the members of the Committee on Graduate Studies.

#### Dissertation

Upon advancement to candidacy, each student will assemble a dissertation committee. This committee is formed by the student in consultation with his or her mentor, and will consist of at least five faculty members. At least three of the faculty must be drawn from among Program faculty. The student will initially meet with this committee to present the proposed research, deliberate about the best ways to accomplish particular goals, and so on. Approval of the proposal implies that the project's conceptualization, design, and proposal methods are acceptable and that particular results are not required. Once the committee has approved the proposal (this may occur at the end of the first, or after two or more meetings), the student enrolls in dissertation research (6X99) and conducts his/her dissertation research. During this period, meetings with the committee are on an "as needed" basis. During the data analysis phase, the student may wish to schedule an informal meeting. Similarly, during writing of the dissertation, the committee may or may not meet. When a student has completed a draft of the dissertation that the primary mentor deems appropriate for his or her committee, a date for the oral defense is scheduled, and written drafts must be provided to committee members at least two weeks before this date. The PhD oral examination is conducted by the dissertation committee. The first part of the examination is an oral presentation of the research and its findings. This portion of the meeting is open to any member of the university community and guests. The second part is closed and consists of specific detailed questions about the dissertation. Both oral defense and the written dissertation must be passed.

### **Specialization in Industrial/Organizational Psychology**

Students interested in pursuing a doctoral degree with an emphasis in I/O psychology may apply for admission to either the Experimental specialization or Health Psychology and Neuroscience specialization in the doctoral program. The requirements for admission will be the same as for other master's level students, which includes completing the core curriculum requirements and an empirical thesis or thesis equivalent. Students intending to pursue their doctoral work at another university should be aware that a non-thesis master's may oblige them to meet many additional requirements at their future university, a burden that may be reduced by pursuing a doctoral degree in psychology at UT-Arlington.

## **PSYC Courses**

### **PSYC5110 – PROFESSIONAL DEVELOPMENT I**

1 Lecture Hour · 0 Lab Hours

The philosophy and methods of conducting a university class for undergraduates are examined. Specific tips and suggestions for managing course materials, lectures, audiovisual aids, grading, etc. will be presented. The role of the university instructor as a researcher as well as a teacher will be elaborated. Specific topics will include the ethics and regulation of research, service as a journal referee, corresponding with peers, participating in a research team, manuscript preparation, presentation at professional conferences, and submitting material for publication. Prerequisite: admission to the graduate program in psychology or permission of the instructor. Graded F, P. Prerequisite: Admission to the graduate program in psychology or permission of the instructor.

### **PSYC5112 – PROFESSIONAL DEVELOPMENT II**

1 Lecture Hour · 0 Lab Hours

An introduction to the skills associated with the conduct of psychology as a science and as a profession. Individual faculty will be invited to present techniques and approaches that they see as useful and necessary to the application of the specialty in psychological research and problem-solving. Graded F, P. Prerequisite: Admission to the graduate program in psychology or permission of the instructor.

### **PSYC5151 – READINGS IN PSYCHOLOGY**

1 Lecture Hour · 0 Lab Hours

Independent readings under the supervision of an individual faculty member. Students wishing to conduct research should sign up for PSYC 5191, 5291, or 5391. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

## **PSYC5191 – RESEARCH IN PSYCHOLOGY**

**1** Lecture Hour · **0** Lab Hours

Independent research under the supervision of an individual faculty member; may be repeated for credit with consent of Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

## **PSYC5251 – READINGS IN PSYCHOLOGY**

**2** Lecture Hours · **0** Lab Hours

Independent readings under the supervision of an individual faculty member. Students wishing to conduct research should sign up for PSYC 5191, 5291, or 5391. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

## **PSYC5291 – RESEARCH IN PSYCHOLOGY**

**2** Lecture Hours · **0** Lab Hours

Independent research under the supervision of an individual faculty member; may be repeated for credit with consent of Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

## **PSYC5301 – BRAIN & BEHAVIOR**

**3** Lecture Hours · **0** Lab Hours

A comprehensive survey of physiological processes and structures underlying human and animal behavior.

## **PSYC5307 – RESEARCH METHODS**

**3** Lecture Hours · **0** Lab Hours

This course considers basic and advanced aspects of methodology used in psychological research, including experimental design, methodologies that combine disciplinary approaches (e.g., biomedical, behavioral, and field and laboratory approaches).

## **PSYC5309 – HEALTH PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

A survey of current theory and research in health psychology, including basic research in health and behavior, biobehavioral contributions to illness and disability, and fundamental relationships among the brain, bodily function, and behavior that may affect health and well-being. It will also include clinical and translational topics including patient interventions in medically-ill populations, pain management, and disease prevention.

## **PSYC5310 – MATHEMATICAL MODELS IN PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Elementary probability theory, matrix algebra, and theory of linear difference equations applied to theoretical problems in learning, signal detection, decision processes, and social interactions.

## **PSYC5313 – HIGHER MENTAL PROCESSES**

**3** Lecture Hours · **0** Lab Hours

Includes topics such as concept identification, problem solving, reasoning, and knowledge representation.

## **PSYC5314 – COGNITIVE DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

A survey of current theories of cognitive development. Recent research within topic areas, such as physical reasoning, spatial cognition, memory, and symbol use, will be used to evaluate the theories presented.

## **PSYC5315 – BEHAVIOR ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Overview of operant theory with an emphasis upon contemporary problems. Basic concepts that are covered include: reinforcement and stimulus control, punishment, compound schedules, response topography, and chaining. Other topics include complex human operants, verbal behavior, behavior modification, and contingency management.

### **PSYC5321 – PERSONALITY PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

A survey of contemporary topics in personality psychology, including personality assessment, strategies for studying personality, temporal stability and cross-situational consistency in behavior, and personality influence on social behavior.

### **PSYC5322 – SOCIAL PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

A survey of contemporary topics in social psychology, including interpersonal attraction, altruism and aggression, attribution and social cognition, social influence, group dynamics, and social motivation.

### **PSYC5323 – GROUP PROCESSES**

**3** Lecture Hours · **0** Lab Hours

Survey of the major topics in group dynamics. Among the issues covered will be performance, motivation, goal setting, decision-making, creativity, social influence, memory, leadership, teamwork, and collective behavior.

### **PSYC5324 – APPLIED RESEARCH DESIGN**

**3** Lecture Hours · **0** Lab Hours

Basic aspects of organizational research methods will be covered including: research ethics, the scientific method, inductive and deductive reasoning, research questions, hypotheses, study designs, manipulation of variables, and various measures and methods used in organizational research. The history of Industrial and Organizational research will also be covered.

### **PSYC5325 – ORGANIZATIONAL BEHAVIOR**

**3** Lecture Hours · **0** Lab Hours

Theory and research concerning organizational development will be examined. This course is designed to provide an intensive survey of topics relating to organizational socialization, communication, change strategies, climate and culture, and team dynamics. Leadership theories, models, and practices will be evaluated.

### **PSYC5326 – EMPLOYEE SELECTION**

**3** Lecture Hours · **0** Lab Hours

Principles and techniques of employee selection, placement, and classification will be examined. Job analysis and competency modeling will be covered with a focus on the legal aspects of selection and promotion. The use of various methods and measures of job relevant individual differences will be examined within the context of predicting performance criteria.

### **PSYC5327 – INDUSTRIAL AND ORGANIZATIONAL INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

This course is preparation for and supervision of internship activities in an organization or organizations in an area related to area of interest or training. No credit will be given for previous experience or activities. Course may be repeated for credit. Prerequisite: consent of instructor.

### **PSYC5328 – EMPLOYEE ATTITUDES AND BEHAVIORS**

**3** Lecture Hours · **0** Lab Hours

Theory and research concerning the determinants, consequences, and measurement of job satisfaction and related constructs such as involvement, commitment and work motivation will be covered. Attitudes,

opinions, and beliefs will be examined in relation to the behavioral intentions of individuals at work. Organizational interventions designed to improve and enhance employee motivation, attitudes and behaviors will be evaluated.

### **PSYC5329 – PERFORMANCE MANAGEMENT SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Principles and techniques of the performance appraisal and feedback process will be covered. Different sources of performance information will be evaluated. Mentoring and procedures for communicating performance evaluation information and improving job performance via development and training will be examined. Theories and techniques used to design, conduct, and evaluate training programs will be evaluated.

### **PSYC5331 – PERCEPTION AND ATTENTION**

**3** Lecture Hours · **0** Lab Hours

Survey of methods and findings dealing with perception; emphasis will be upon behavioral rather than physiological considerations; particular topics include signal detection theory, form and pattern recognition, and attentional mechanisms.

### **PSYC5333 – BEHAVIORAL NEUROSCIENCE**

**3** Lecture Hours · **0** Lab Hours

A survey of biological and physical processes underlying behavior. Emphasis on neural, hormonal, and genetic determinants of behavior. Topics include regulatory behaviors, reward and nociceptive systems, differentiation and sociosexual behaviors, limbic and cortical functions.

### **PSYC5334 – HUMAN PHYSIOLOGY**

**3** Lecture Hours · **0** Lab Hours

This course will provide a comprehensive review of the human physiology that is categorized in 15 sections and 84 chapters. Some of them will be covered by different courses, such as Neuroscience, Immunology, and Endocrinology. Students are expected to learn how the human body works and what the underlying mechanisms that control the physiological responses are. In case of damage to these systems, what will happen to the body as a whole and what will be the impact on behaviors?

### **PSYC5337 – ANIMAL COGNITION AND BEHAVIOR**

**3** Lecture Hours · **0** Lab Hours

A survey of theory and data on how animals learn and represent the world and the evolutionary processes that influence their individual and social behavior.

### **PSYC5341 – DECISION MAKING**

**3** Lecture Hours · **0** Lab Hours

Factors that influence categorical and numerical judgments, choices, and preference decisions. Comparison of human decision behavior with various quantitative theories.

### **PSYC5345 – HUMAN LEARNING AND MEMORY**

**3** Lecture Hours · **0** Lab Hours

Survey of current approaches to the study of human learning and memory.

### **PSYC5348 – EXPOSURE TO CONTEMPORARY PC MICROCOMPUTERS**

**3** Lecture Hours · **0** Lab Hours

Operating systems, ASCII editors, word processors, spreadsheets, graphics, data bases, programming languages, programming psychological experiments, statistical programming, using networks, the Internet, e-mail, Gopher, FTP, and Telnet.

### **PSYC5351 – READINGS IN PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Independent readings under the supervision of an individual faculty member. Students wishing to conduct research should sign up for PSYC 5191, 5291, or 5391. May be repeated for credit with consent of the Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

### **PSYC5389 – CONTEMPORARY PROBLEMS IN PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Topics vary. May be repeated for credit with consent of Graduate Advisor.

### **PSYC5390 – CAPSTONE COURSE IN INDUSTRIAL-ORGANIZATIONAL PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Designed for students near or at the end of their I-O curriculum to demonstrate the ability to apply knowledge of industrial-organizational psychology.

### **PSYC5391 – RESEARCH IN PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Independent research under the supervision of an individual faculty member; may be repeated for credit with consent of Graduate Advisor. Graded P/F/R. Prerequisite: consent of the instructor.

### **PSYC5405 – ADVANCED STATISTICS I**

**3** Lecture Hours · **1** Lab Hour

Basic descriptive and inferential statistics used in psychological research.

### **PSYC5407 – EXPERIMENTAL DESIGN**

**3** Lecture Hours · **2** Lab Hours

Statistical aspects of complex experimental designs used in psychological research. Prerequisite: PSYC 5406.

### **PSYC5600 – ADVANCED RESEARCH**

**6** Lecture Hours · **0** Lab Hours

Supervised research. May be repeated for credit. Graded P/F/R. Prerequisite: permission of instructor

### **PSYC5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: 12 hours of advanced psychology and an approved thesis proposal.

### **PSYC6101 – PROSEMINAR IN HEALTH PSYCHOLOGY**

**1** Lecture Hour · **0** Lab Hours

Professional development seminar will include presentations of ongoing and recently completed research, discussion of best approaches to writing reports and giving research presentations, grant writing skills, and other scientific, professional issues.

### **PSYC6110 – PROSEMINAR IN INDUSTRIAL & ORGANIZATIONAL PSYCHOLOGY**

**1** Lecture Hour · **0** Lab Hours

Professional development seminar will include presentations of ongoing and recently completed research, discussion of best approaches to writing reports and giving research presentations, grant and contract

writing skills, and other scientific, professional issues. Course may be repeated for credit. Prerequisite: consent of instructor.

### **PSYC6191 – RESEARCH IN PSYCHOLOGY**

1 Lecture Hour · 0 Lab Hours

### **PSYC6291 – RESEARCH IN PSYCHOLOGY**

2 Lecture Hours · 0 Lab Hours

### **PSYC6300 – SEMINAR IN PSYCHOLOGY**

3 Lecture Hours · 0 Lab Hours

Offered each semester. Topics vary. May be repeated for credit. Prerequisite: consent of instructor.

### **PSYC6312 – ANIMAL LEARNING**

3 Lecture Hours · 0 Lab Hours

Survey of contemporary topics in animal learning.

### **PSYC6316 – HISTORY AND SYSTEMS**

3 Lecture Hours · 0 Lab Hours

Consideration of the origins of psychology in the development of Western thought. Early conceptualization of problems and their modification with changes in evidence is emphasized.

### **PSYC6318 – SOCIAL AND PERSONALITY DEVELOPMENT**

3 Lecture Hours · 0 Lab Hours

Theory and research on social and emotional development with an emphasis on the interaction between individual needs and abilities and societal expectations and demands.

### **PSYC6320 – NEUROPHARMACOLOGY**

3 Lecture Hours · 0 Lab Hours

Survey of the basis of behavioral pharmacology including mechanisms and theories of drug actions, techniques and strategies of research, common psychoactive drugs, and the uses of drugs in clinical practice.

### **PSYC6335 – ANIMAL BEHAVIOR**

3 Lecture Hours · 0 Lab Hours

Phylogenetic approach to some basic problems in behavior, with special emphasis on unlearned behavior.

### **PSYC6336 – COMPARATIVE PSYCHOLOGY**

3 Lecture Hours · 0 Lab Hours

Theory and data about all aspects of behavior stressing similarities and differences across species.

### **PSYC6338 – NEURAL AND COGNITIVE MODELING**

3 Lecture Hours · 0 Lab Hours

Principles of neural network and dynamical systems modeling; application of these principles to the simulation of cognitive processes in both brains and machines; models of associative learning, pattern recognition and classification, and individual and group behavior. Prerequisite: consent of instructor.

### **PSYC6343 – COGNITIVE NEUROPSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Surveys current experimental and clinical research and theory relating the brain and cognition. Emphasizes selected areas i.e., perception, attention, memory, language, and thinking.

### **PSYC6346 – EVOLUTIONARY PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Evolutionary processes influence behavior and thinking of humans and nonhuman species. Sociosexual behavior, aggression, cognition, and information processing from an evolutionary perspective will be among the topics covered.

### **PSYC6347 – ENVIRONMENTAL PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

Survey of the current literature on the impact of various features of the physical environment on human behavior. Topics covered include crowding, privacy, territoriality, personal space, noise, the natural environment, residential, educational and work environments, urban and community design, and pollution and resource management. Designed to be of interest to graduate students in architecture, urban affairs, environmental science and engineering, geology, sociology, as well as those in psychology.

### **PSYC6349 – PSYCHOMETRIC THEORY**

**3** Lecture Hours · **0** Lab Hours

Introduction to test construction. Topics include reliability theory, test validation, and item analysis.

### **PSYC6355 – MULTIVARIATE ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Application of general linear model to special cases such as factor analysis, multiple regression, and discriminant analysis. PSYC 5344 recommended.

### **PSYC6391 – RESEARCH IN PSYCHOLOGY**

**3** Lecture Hours · **0** Lab Hours

### **PSYC6399 – DISSERTATION**

**3** Lecture Hours · **0** Lab Hours

Graded R/F. Prerequisite: approved dissertation proposal.

### **PSYC6699 – DISSERTATION**

**6** Lecture Hours · **0** Lab Hours

Graded R/F/P/W. Prerequisite: approved dissertation proposal.

### **PSYC6999 – DISSERTATION**

**9** Lecture Hours · **0** Lab Hours

Graded P/F/R. Prerequisite: approved dissertation proposal.

### **PSYC7399 – DOCTORAL DEGREE COMPLETION**

**3** Lecture Hours · **0** Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial

aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## **Master of Science in Social Work (MSSW)**

### **MSSW Program Goals**

Goal 1: The MSSW Program prepares students to practice effectively and ethically with the full range of social systems, emphasizing evidence-informed practice, a strengths approach, diversity, social justice, empowerment, and a critical thinking perspective.

Goal 2: The MSSW program prepares students who understand the global and organizational contexts of social work practice and who are prepared to assume the responsibility for leadership positions, as well as engaging in life long-learning.

Goal 3: The MSSW Program prepares students, by valuing social work history and the integration of social work knowledge, to understand professional social work and to be prepared for advanced level concentration in either:

Concentration 1: Direct Practice with a specialization in (1) Child and Family Services; and, (2) Mental Health Services, or

Concentration 2: Community and Administrative Practice.

### **MSSW FOUNDATION OBJECTIVES**

1. Apply critical thinking skills within the context of professional social work practice.
2. Understand the value base of the profession and its ethical standards and principles, and practice accordingly.
3. Practice without discrimination and with respect, knowledge, and skills related to clients' age, class, color, culture, disability, ethnicity, family structure, gender, marital status, national origin, race, religion, sex, and sexual orientation.
4. Understand the forms and mechanisms of oppression and discrimination and apply strategies of advocacy and social change that advance social and economic justice.
5. Understand and interpret the history of the social work profession and its contemporary structures and issues.
6. Apply the knowledge and skills of generalist social work practice with systems of all sizes.
7. Use theoretical frameworks supported by empirical evidence to understand individual development and behavior across the life span and the interactions among individuals and between individuals and families, groups, organizations, and communities.
8. Analyze, formulate, and influence social policies.
9. Evaluate research studies, apply research findings to practice, and evaluate their own practice interventions.
10. Use communication skills differentially across client populations, colleagues, and communities.
11. Use supervision and consultation appropriate to social work practice.
12. Function within the structure of organizations and service delivery systems and seek necessary organizational change.

### **MSSW ADVANCED YEAR OBJECTIVES**

#### **Direct Practice Concentration Educational Objectives**

By graduation, students specializing in Direct Practice will achieve the foundation objectives and the following advanced concentration objectives:

1. Demonstrate knowledge and skills in direct practice with an area of specialization: child and family services or mental health services.

2. Complete multidimensional, bio-psycho-social assessments with client systems and groups in their area of specialization, taking into account client strengths, diversity and social justice.
3. Develop and apply appropriate, evidence-informed, empowerment-based intervention plans within their area of specialization.
4. Critically analyze theoretical models of micro practice to challenge societal oppression and discrimination, as well as for decision-making in practice.
5. Demonstrate an understanding of race, gender, sexual orientation, ability, culture, and other client characteristics, in conducting culturally sensitive, competent, and ethical social work practice.
6. Demonstrate the ability to evaluate practice activities by use of outcome and process techniques, using the results to modify practice.
7. Demonstrate ability to integrate micro and macro practice, policy and research into their area of service delivery in order to enhance client well-being.
8. Engage in life-long learning and activities to update and improve professional knowledge and skills.

### **Community and Administrative Practice Concentration Educational Objectives**

By graduation, students specializing in Community and Administrative Practice will achieve the foundation objectives and the following advance concentration objectives:

1. Build on generalist skills in community assessment to design an intervention strategy including mission, goals, objective, budget, logic model, and evaluation.
2. Identify, critically evaluate, and apply appropriate, evidence-informed interventions at the agency or community level.
3. Critically analyze and apply a variety of community and administrative theories to practice.
4. Demonstrate skills in ethically and empowerment-based social work practice, taking into account the impact of race, gender, sexual orientation, ability, culture, religion, national origin and other client characteristics in organizations, and communities.
5. Design practice evaluation activities to improve human service interventions in organizations and communities.
6. Demonstrate ability to integrate micro and macro practice, policy, and research into their area of service delivery in order to enhance client well-being.
7. Prepare to engage in life-long learning and activities to update and improve professional knowledge and skills.

### **Admission Criteria for the Master's Program**

#### **Admission Procedures**

Students are admitted to the MSSW program for Fall or Spring semester with the exception of students that qualify for advanced standing with their undergraduate social work degree. Advanced Standing students can be admitted for a fall, spring or summer semester. Please contact the MSSW Admissions Office ([sswadmissions@uta.edu](mailto:sswadmissions@uta.edu)) to obtain the complete application checklist and information concerning specific application deadlines. Applicants may also visit the MSSW Admissions webpage for more information (<http://www.uta.edu/ssw/academics/mssw/mssw-admissions.php>).

The admissions process is the same for all MSSW programs, including the Distance Education Cohorts.

\*Please note that the School of Social Work's deadline for application is different from the published deadlines of the Graduate School.

#### **General Admission Criteria**

1. A bachelor's degree with a liberal arts perspective from an accredited college or university.

2. Undergraduate GPA must be equal to or greater than 3.0 in the last 60 hours as calculated by the Graduate School or GRE score that evidences an ability to do satisfactory graduate work.
3. Three letters of reference indicating professional or academic promise.
4. Personal statement providing evidence of professional or academic goals consistent with the Social Work Program.
5. Personal qualifications considered essential to the successful practice of social work including leadership ability, personal maturity, motivation for a human service profession and experience in social work. A personal interview may be required.
6. Applicants to the school whose native language is not English must take, in addition to the Test of English as a Foreign Language, the Test of Spoken English.

**Unconditional MSSW Admission:** An applicant is admitted unconditionally when all documentation relating to admissions criteria is received and performance on a majority of the criteria is acceptable.

**Probationary Admission:** Candidates with less than a 3.0 GPA in the last 60 hours of undergraduate program as calculated by the Graduate School and GRE scores do not indicate ability to do satisfactory graduate work may be admitted on probation if other admission criteria are satisfactory and indicate academic potential.

**Provisional Admission:** An applicant unable to supply all required documentation prior to the admission decision deadline but whom otherwise appears to meet admission requirements may be granted provisional admission.

**Denial of Admission:** Candidates may be denied admission if they have less than satisfactory performance on a majority of the admissions criteria.

**Deferred Admission:** A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Neither probationary nor provisional admission will be granted to an applicant with less than a 3.0 GPA on the last two years of a bachelor's degree (approximately 60 hours) when the required GRE score is lacking.

### **Financial Aid**

Scholarships are awarded annually and administered by the School of Social Work. Link to scholarship info: [www.uta.edu/ssw/student-resources/scholarships.php](http://www.uta.edu/ssw/student-resources/scholarships.php)

A limited number of traineeships are available through Child Protective Services.

### **Graduate Fellowships**

Candidates for fellowship awards must have a GPA of 3.0 in their last 60 undergraduate credit hours and in any graduate credit hours, and must be enrolled in a minimum of 6 hours in both long semesters to retain their fellowships.

### **Curriculum: Master of Science in Social Work**

The curriculum is organized around five curriculum areas: Direct Practice, Community and Administration Practice, Research, Policy, and Human Behavior and the Social Environment. Required and elective courses are offered in each curriculum area. Students must complete foundation (first year) required courses before taking advanced (second year) courses. In the advanced year, a specialty is selected in child/family, mental health, and a combination of administration and community practice. First year courses have 5000 numbers; second year courses have 6000 numbers. Master's level students are also allowed to take doctoral level courses with permission of the instructor and MSSW Program Director.

### **Degree Requirements**

The program leading to the degree of Master of Science in Social Work covers a minimum of four semesters for full-time students and requires the completion of 61 semester hours of graduate work including class and field instruction, as well as thesis or integrative seminar (non-thesis option).

In addition to the requirements of the Graduate School, each graduate student in the social work program must (1) maintain at least a B (3.0) overall GPA in all coursework; (2) demonstrate suitability for professional social work practice; and, (3) demonstrate knowledge of and adherence to the Code of Ethics of the National Association of Social Workers and if licensed in Texas the Code of Ethics as currently published by the Texas Council for Social Work Examiners.

At such time as questions are raised by Social Work faculty or field instructors regarding a student's violation of #2 or #3 of the above requirements, the student will be notified and will be provided the opportunity to respond to the Academic and Professional Standards Committee. The committee will review the student's performance and make a recommendation concerning the student's eligibility to continue in the program. Appeal of a recommendation may be made to the Dean of the School of Social Work.

Special Note: No credit is given for life and/or work experience.

### **Advanced Standing**

An applicant meeting all regular admissions requirements who have graduated from an accredited undergraduate program in social work will automatically be considered for advanced standing status in the graduate program. Advanced standing is not granted to students admitted on probation.

Advanced standing students may receive credit hour waivers for some undergraduate social work courses which are considered equivalent to the first and second semester courses, provided the student's grades in those courses are B or better. Students may receive course waivers for more than 23 hours, but only 23 hours may be applied to the 61-hour MSSW degree.

Students requesting advanced standing status who completed their BSW degrees more than six years prior to the semester in which they propose to begin their graduate studies must provide a documented summary of their work as a social worker. Students who have completed their BSW degrees within six years of their planned start of studies are not required to submit these materials. Advanced standing will be granted on a case-by-case basis contingent upon evaluation of transcripts and any other required supporting information.

### **Advanced Specialty Program**

An applicant meeting all regular admissions requirements who has completed the foundation year at an accredited master's program in social work may request admission into the Advanced Specialty MSSW program.

Students in the Advanced Specialty MSSW Program may receive credit hour waivers for some graduate level social work courses which are considered equivalent to the foundation year courses taken at an accredited social work program, provided that the grades in those courses are B or better. Students applying to the Advanced Specialty MSSW Program may be required to provide course syllabi for each course taken in the foundation year at their MSSW program prior to entering UT Arlington's program. Students may receive course waivers for more than 23 credit hours, but only 23 hours may be applied to the 61-hour MSSW degree. Additionally, three credit hours may be transferred from foundation year courses taken at another accredited social work program.

Students requesting admission into the Advanced Specialty MSSW program must have completed the foundation year course work no more than six years prior to the semester in which they seek admissions. Admission to the Advanced Specialty MSSW program will be granted on a case-by-case basis contingent upon evaluation of transcripts and any other required supporting information.

### **Dual Degree Programs - On Campus**

Students in social work may participate in one of five dual degree programs whereby they can earn a Master of Science in Social Work and 1) a Master of City and Regional Planning, 2) a Master of Public Administration, 3) a Master of Arts in Urban Affairs, 4) a Master of Arts in Criminology and Criminal Justice, or 5) a Master of Arts in Sociology. By participating in a dual degree program, students can apply some semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from 6 to 18 hours, subject to the approval of Graduate Advisors from both programs.

To participate in the dual degree program, students must make separate application to each program and must submit a separate Program of Work for each degree. Those interested in a dual degree program should consult the appropriate Graduate Advisor(s) for further information on course requirements. See also information on Dual Degree Programs in the Advanced Degree Requirements section of this catalog.

## **MSSW Programs - Distance Education Programs**

### **UT Arlington Fort Worth Center MSSW Cohort Program**

The UT Arlington School of Social Work offers an MSSW Degree with a Concentration in Direct Practice that includes a specialization in Children and Families with a Certificate in Administration through our Fort Worth Center location. This program will prepare students to work directly with families and children while also acquiring knowledge in administration that will enhance their ability to assume leadership and administrative positions in social service agencies.

This program is designed to meet the needs of working professionals. Students will take one class at a time in 5-week blocks. Classes will be offered twice each week in the evening (scheduling may be subject to change during the summer semester as well as the intersessions). This will enable students to remain employed full time. The program of work for the degree is scheduled to be completed in 2 years. A new cohort of students will be admitted to the MSSW program at the UTA Fort Worth Center every fall.

Students applying to this program must meet all regular admissions requirements. The application process is the same as for students applying to our traditional MSSW program.

### **UT Arlington / Lubbock Christian University Cooperative MSSW Program**

The UT Arlington School of Social Work in conjunction with LCU offers an Advanced Standing MSSW Degree with a Concentration in Direct Practice that includes a specialization in Children and Families.

This program is designed the needs of students in the Lubbock area. Students applying to this program can expect to complete the required courses both on the LCU campus and online through UT Arlington.

Students applying to this program must meet all regular admissions requirements. An applicant meeting all regular admissions requirements who has graduated from an accredited undergraduate program in social work and meets the Advanced Standing criteria will be eligible for this program. Advanced Standing status is not granted to students admitted on probation.

The application process is the same as for students applying to our traditional MSSW program.

### **MSSW Online Program**

The MSSW Online Program is designed as a cohort that begins every fall and continues through a predetermined 61 hour degree plan at a part-time pace for three years. If you qualify for advanced standing then you will follow a 38-hour degree plan at a part-time pace for two years. Students in this cohort focus on Direct Practice (Children and Families) as their concentration area and are required to complete two field practicums for a total of about 900 hours. The practicum is the only face to face requirement; all of the courses are fully online. Expectations of the courses (assignment requirements, deadlines, discussions, etc...) will vary by instructor.

This program is open for anyone who qualifies for admission into the MSSW Program. **At this time you must be a Texas resident currently living in Texas to apply to the MSSW Online Program.**

### Joint Master's in Social Work and Masters in Public Health (MSSW/MPH)

The Master of Social Work/Master of Public Health (MSSW/MPH) joint degree is a collaborative program between The University of Texas at Arlington School of Social Work and The University of Texas School of Public Health (UTSPH). The MSSW/MPH joint degree program was developed to respond to the need for a greater integration of the knowledge and skills shared by social work and public health professionals. The MSSW/MPH program will prepare students to integrate social work and public health knowledge and skills in their professional lives as practitioners and researchers.

The curriculum is a general plan for the MSSW/MPH. By taking a specified number of approved courses in both programs, it is possible for students to complete both degrees in three years (two years for Advanced Standing students), while customizing the program to meet their interests and educational goals. Flexibility in the program allows most students to combine the MPH and MSSW requirements of a practicum with other learning experiences from the MSSW program. Students are guided by a Student Advisory Committee comprised of faculty from both participating school programs.

Students seeking admission to the MSSW/MPH program must meet the application requirements of each University, apply and be admitted to both degree programs before being considered for acceptance into the dual degree program by the MSSW/MPH Coordinating Committee. Please note: admission to one program does not ensure admission to the other.

Students are responsible for tuition and fee payments for courses taken in both schools, and upon successful completion of the degree requirements will receive a diploma from each university. Current MSSW or MPH students may decide to add the joint degree option to their educational plan and receive credit for courses. MPH students must declare their intent to enter the program by the completion of their second semester. MSSW students must declare their intent to enter the program by the completion of the foundation year (2 year students) or completion of 9 credit hours (advanced standing students)

### Part-Time Students

Admission and degree requirements for part-time students are the same as those for full-time students. Likewise, part-time students must maintain the performance level required of full-time students.

## Doctor of Philosophy in Social Work

### Ph.D. Program Goals

The Doctor of Philosophy in Social Work is designed to prepare scholars to advance knowledge development and dissemination for the profession of social work. The program builds on the premise that social welfare and social work must be scientifically and theoretically based and continually responsive to changing local and global societal needs. Upon completion of the Ph.D. Program students will display competency in theory and theory development; knowledge and skills in research methods and data analysis; theory, research, and policy as applied to a specialty practice area; understanding and commitment to the underlying values, ethics, and social and economic justice perspectives in the scientific inquiry in social work; and theory and research as applied to social work practice, policy, and social work education. Graduates of the program are expected to make a significant contribution to the profession of social work through their own continued research, teaching, scholarship and service.

A specialty in comparative social policy is offered in conjunction with the Universidad Autonoma De Nuevo Leon (UANL) Monterrey, Mexico. Students will complete their first year of doctoral courses at their home institution. Student will complete second year courses at the alternate

institution. Classes at UANL are conducted in Spanish and taught by UANL faculty. Classes at UT Arlington are conducted in English and are taught by UT Arlington faculty.

### Ph.D. Program Objectives

Upon completion of the Ph.D. Program students will display competency in:

1. Theory and theory development.
2. Knowledge and skills in research methods and data analysis.
3. Theory, research, and policy as applied to a specialty practice area.
4. Understanding and commitment to the underlying values, ethics, and social and economic justice perspectives in the scientific inquiry in social work.
5. Theory and research as applied to social work practice, policy and social work education.

### Admission Criteria for the Ph.D. Program

To be admitted to the Doctor of Philosophy in Social Work program, an applicant must satisfy the general admission requirements of the Graduate School and his or her academic record must show preparation for advanced study in social work. The students accepted for admission are those whose academic achievements, previous experience, and aptitude for research and scholarship indicate the potential for achieving the objectives of the program. In addition, admission to the program requires:

1. Master's degree in Social Work or related field. For applicants with a master's in a related field, a background in social and behavioral science and research methods is desirable.
2. Undergraduate GPA of 3.0 minimum, in the last 60 hours as calculated by the Graduate School.
3. Master's GPA of 3.4 minimum as calculated by the Graduate School.
4. A Graduate Record Examination (GRE) or EXADEP score that evidences an ability to do satisfactory graduate work if master's GPA is less than 3.4.
5. Transcripts of all undergraduate and graduate work.
6. Curriculum vita.
7. Academic goals consistent with the Social Work Program.
8. Professional writing sample.
9. Evidence of statistics course in the last 5 years.
10. Three letters of recommendation, preferably from those holding a Ph.D., indicating professional and academic potential and addressing the areas of writing skills and analytical ability.
11. International applicants must submit a score of at least 550 on the paper-based TOEFL, a score of at least 213 on the computer-based TOEFL, minimum score of 7.0 on the IELTS, or a minimum TOEFL iBT total score of 90 with additional scores that meet or exceed 23 for the written section, 23 for the speaking section, 22 for the reading section, and 22 for the listening section to meet this requirement.

**Unconditional Ph.D. Admission:** An applicant is admitted unconditionally when all documentation relating to admissions criteria is received and performance on the criteria is acceptable.

**Probationary Ph.D. Admission:** An applicant who's Master's GPA is below 3.4 or that scores GRE or the EXADEP do not indicate ability to do satisfactory graduate work may be admitted on probation when performance on the majority of the remaining criteria is acceptable.

**Provisional Admission:** An applicant unable to supply all required documentation prior to the admission decision deadline but that otherwise appears to meet admission requirements may be granted provisional admission.

**Denial of Ph.D. Admission:** Candidates may be denied admission if they have less than satisfactory performance on a majority of the admissions criteria.

**Deferred Admission:** A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

An application for admission, transcripts of previous academic work and Graduate Record Examination or EXADEP scores must be submitted to the Graduate School of the University. An additional separate application and supporting materials must be sent to the Graduate Advisor, Ph.D. in Social Work Program.

### Degree Requirements

The program leading to the degree Doctor of Philosophy in Social Work covers nine semesters (three years) of full-time study and requires the completion of 48 semester hours of graduate work including coursework, a qualifying examination, a comprehensive specialty examination and a dissertation. Students and their faculty supervisory committee together develop a plan of study geared to the students' interests. Included in this plan are a set of required and elective courses in which students pursue their specialized interests.

1. 18 hours of Core coursework.
2. The core coursework qualifying examination must be satisfactorily completed before progressing in the program.
3. Six hours of nine hours Research Practicum.
4. Six hours electives selected from relevant graduate courses offered outside the School of Social Work.
5. Upon completion of 36 hours of required or elective coursework, the specialty comprehensive examination is taken prior to application for candidacy and registration for dissertation.
6. Three hours of dissertation tutorial taken upon successful completion of comprehensive specialty examination.
7. Nine total hours of dissertation must be taken for a student to graduate.

Successful completion of both the core qualifying examination and the comprehensive specialty examination in the area of study to advance the student to candidacy at which time he or she devotes time to the completion of the dissertation. The last step before the degree is awarded is the successful final defense of the dissertation.

Doctoral students must demonstrate knowledge of and adherence to the Code of Ethics of the National Association of Social Workers and the Code of Ethics as currently published by the Texas State Board of Social Worker Examiners.

## SOCW Courses

### SOCW5301 – HUMAN BEHAVIOR AND THE SOCIAL ENVIRONMENT I

3 Lecture Hours · 0 Lab Hours

Exploration of behavioral and social science knowledge of human behavior and development through the life course. Examines major systems in society: individual, group, family, and community; and the diversity of ethnicity, race, class, sexual orientation, and culture.

### SOCW5303 – FOUNDATIONS OF SOCIAL POLICY AND SERVICES

3 Lecture Hours · 0 Lab Hours

Examines how social goals are met by social welfare institutions. Conceptual schemes are developed for analyzing the structure of social welfare institutions and evaluating social welfare sub-systems. The social work profession also is examined in the context of the evolution and function of the contemporary American social welfare system. Required of all first-year students.

### **SOCW5304 – GENERALIST MICRO PRACTICE**

**3** Lecture Hours · **0** Lab Hours

This foundation level course introduces graduate students to both theory and methods for social work practice with individuals, families, and small groups. It emphasizes a generalist perspective, beginning interviewing and relationship skills, problem assessment, goal setting, and contracting. Special attention is given to the common roles assumed by social workers (e.g. facilitator, broker, advocate). Required of all except advanced standing students.

### **SOCW5306 – GENERALIST MACRO PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Examines generalist community and administrative practice roles, the perspectives of strengths, empowerment, evidence-based practice, and global practice along with the values of social justice, diversity, and participation. Specific attention is given to assessing community assets and needs. Required of all except advanced standing students.

### **SOCW5310 – MICRO AND MACRO PRACTICE FIELD SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Integration of social work knowledge, theory, and skills learned in the classroom with practical application in social work setting. Prerequisite: SOCW 5301, 5304, 5306, and concurrent enrollment in SOCW 5551.

### **SOCW5317 – HUMAN BEHAVIOR AND DIVERSE POPULATIONS**

**3** Lecture Hours · **0** Lab Hours

Introduction to theoretical, practical, and policy issues related to race, ethnicity, and women. Historical, political, and socioeconomic forces are examined that maintain racist and sexist values, attitudes, and behaviors in society and all levels of organizational behavior. The importance and contribution of globalization, social justice and diversity are explored.

### **SOCW5322 – RESEARCH AND EVALUATION METHODS IN SOCIAL WORK I**

**3** Lecture Hours · **0** Lab Hours

This course is designed to provide students with an understanding of and ability to use the evidence-informed practice process to identify, analyze and apply evidence-informed interventions. Students will be able to comprehend both quantitative and qualitative research and to synthesize strengths and weaknesses of the social work literature. Students will be able to synthesize and evaluate research in terms of its content, quality, and applicability to clients. Students will understand scientific and ethical approaches to building knowledge to apply to and evaluate the impact of interventions on clients or clientsA presenting problems.

### **SOCW5551 – APPLIED SOCIAL WORK PRACTICE I**

**5** Lecture Hours · **0** Lab Hours

Practical internship experience in the field with a social work agency. Course hours are completed by contacting the agency you are assigned to. Please contact the Field Office for more information. Prerequisites: SOCW 5301, 5304, and 5306.

### **SOCW6151 – APPLIED SOCIAL WORK PRACTICE II**

**1** Lecture Hour · **0** Lab Hours

### **SOCW6190 – TUTORIAL**

**1** Lecture Hour · **0** Lab Hours

Arrangements may be made for a directed and supervised tutorial in a select area of special interest to the student.

### **SOCW6251 – APPLIED SOCIAL WORK PRACTICE II**

**2** Lecture Hours · **0** Lab Hours

### **SOCW6301 – ADVOCACY AND SOCIAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Politics are key to developing social policy. Students learn theory and skills to impact social and distributive justice at local, state and national levels. Examines the role of the social work profession in politics. This course may be chosen as a Policy, Administrative Practice, or Community Practice elective. Prerequisite: SOCW 5303. Corequisite: SOCW 5310 & SOCW 5551.

### **SOCW6303 – POVERTY, INEQUALITY AND SOCIAL POLICY**

**3** Lecture Hours · **0** Lab Hours

This course examines the nature and extent of poverty and inequality in the United States, their causes and consequences, and the debate concerning the role of government in providing anti-poverty programs. Many points of view concerning social and distributive justice are presented, from the radical left to radical right. Prerequisite: SOCW 5303. Corequisites: SOCW 5310 & SOCW 5551.

### **SOCW6304 – SOCIAL POLICY AND CHILD WELFARE**

**3** Lecture Hours · **0** Lab Hours

Examination of current policies, programs, and practices. Attention given to new perspectives on the delivery system and staffing in child welfare. Through analysis and research, students are provided knowledge for more effective practice in the field of child welfare. Prerequisite: SOCW 5303.

### **SOCW6305 – INTEGRATIVE SEMINAR**

**3** Lecture Hours · **0** Lab Hours

Focuses on issues and aspects of practice of broad concern to the profession of social work. Faculty members serve as consultants and resource persons to seminar members. Required of all non-thesis students in their final semester of coursework. Grade of C or better must be earned in this seminar to pass. If this requirement is not met, the student must repeat the course. Milestone: all courses have been taken for the degree except those left in the last semester, including this course. If fall or spring, no more than 15 hours can be left; if summer, no more than 12 hours can be left. Prerequisite: SOCW 6451 or SOCW 6851

### **SOCW6306 – CLINICAL ASSESSMENT**

**3** Lecture Hours · **0** Lab Hours

Reviews and builds on the fundamentals of clinical assessment. Topics are covered in considerable depth and practiced with social work clients. Advanced topics include behavioral observation, self-anchored rating scales, client surveys, standardized measurement and scales, single-subject designs, family assessment tools and categorical systems. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6310 – SEMINAR IN GENDER ISSUES**

**3** Lecture Hours · **0** Lab Hours

Explores women's issues in human behavior theory, practice theory, and policy. The historical, political, and socioeconomic forces that maintain sexism are discussed. Environmental influences are examined in relation to social justice, social work values, knowledge, and skills. Prerequisite: SOCW 5301, SOCW 5317.

### **SOCW6311 – SEMINAR IN DIRECT METHODS IN COUPLES COUNSELING**

**3** Lecture Hours · **0** Lab Hours

Examination of various psychological, social, and cognitive-behavioral treatment approaches to problems in intimate coupling. Emphasis is placed on the assessment of the sources and patterns of dissatisfaction and conflict, the selection and ordering of treatment strategies, and application of treatment techniques consistent with determined goals. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment.

### **SOCW6312 – GROUP DYNAMICS I AND SOCIAL WORK PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Examines contemporary social-psychological concepts and small group research, with a view to testing their applicability to practice propositions and operational principles, in work with both task and personality satisfaction groups. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6314 – ADVANCED ADMINISTRATIVE PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Focuses on selected topics, issues, and skills for effective social work administration. Content includes leadership, worker motivation, resource development, interagency relations and managing conflict and diversity in a climate of scarce resources. Prerequisite: SOCW 6371 or concurrent enrollment.

### **SOCW6315 – ADVANCED COMMUNITY PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Focuses on topics, issues, and skills for mobilizing neighborhoods, communities, and client groups to solve collective human problems. Content includes the politics of empowerment, mobilizing coalitions, locating resources, and mediating conflict. Prerequisite: SOCW 6371 or concurrent enrollment.

### **SOCW6317 – DIRECT PRACTICE IN HEALTH CARE**

**3** Lecture Hours · **0** Lab Hours

Explores the central contribution of social work to comprehensive health care and health in environment theory and evidence; advanced knowledge and skills in human behavior theory relevant to health care, as well as social work interventions to assess and ameliorate the psychological effects of illness and disability, are included along with emerging roles for social work in prevention and health maintenance. Prerequisite: SOCW 6325.

### **SOCW6318 – DIRECT PRACTICE WITH AGING**

**3** Lecture Hours · **0** Lab Hours

Course presents an overview of current issues in the care, treatment, and delivery of social services to the aging. Students learn practice procedures designed to equip them with the skills needed for effective social work practice and review major theories on aging. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6319 – SOCIAL POLICY AND MENTAL HEALTH**

**3** Lecture Hours · **0** Lab Hours

Studies programs and policies in the field of mental health. An analytical model is employed in the process of examining critical issues in the mental health arena. Prerequisite: SOCW 5303.

### **SOCW6320 – PERSONAL RELATIONSHIPS**

**3** Lecture Hours · **0** Lab Hours

Explores theoretical and empirical data on diverse personal relationships at the follow stages of relationship: initiation, maintenance, and termination. Identifies areas for intervention. Prerequisite: SOCW 5301 and 5317.

### **SOCW6323 – PERSPECTIVES IN MENTAL HEALTH**

**3** Lecture Hours · **0** Lab Hours

Examines and analyzes theories of mental health and disorders, perspectives on the etiology and epidemiology of mental disorder and the societal response to problems in mental health of vulnerable and oppressed populations. Prerequisite: SOCW 5301, SOCW 5317.

### **SOCW6324 – RESEARCH AND EVALUATION METHODS IN SOCIAL WORK II**

**3** Lecture Hours · **0** Lab Hours

This course is designed to provide students with an understanding of and ability to analyze, monitor, and evaluate evidence informed interventions and human service programs. In this course quantitative and

qualitative research methods and approaches are applied to the scientific and ethical evaluation of evidence informed interventions and human service programs. Research skills and knowledge are presented from the perspective of promoting diversity and social and economic justice in the evaluation of social work. Prerequisite: SOCW 5322 or advanced standing status.

### **SOCW6325 – ADVANCED MICRO PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Builds on the generalist perspective and the basic familiarity with social work processes (such as problem identification, assessment, contracting, plan implementation, and outcome evaluation) in the context of (1) existing psychotherapeutic modalities, and (2) the particular client characteristics that lend themselves to specific change modalities. Required of all DP students. Prerequisite: SOCW 5304, SOCW 5310, and SOCW 5551.

### **SOCW6326 – DIRECT PRACTICE WITH CHILDREN AND FAMILIES**

**3** Lecture Hours · **0** Lab Hours

Focuses on the characteristics, strengths, and service needs of children and their families. Addresses assessment and intervention skills to work effectively with a variety of child, parent(s), and family problems. Specific techniques considered include child therapy, play therapy, behavioral contracting, cognitive-behavioral interventions, and crisis intervention. Required of all DP students specializing in Children and Families. Prerequisite: SOCW 6325 or concurrent enrollment.

### **SOCW6328 – SOCIAL POLICY RESEARCH AND ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Seminar examining methods for analyzing social policies and for assessing effects of policy. Students evaluate and apply different models for social policy analysis, including comparative models. Students work with social indicators and other data sources used in policy research. Prerequisite: acceptance into the Ph.D. program.

### **SOCW6329 – SOCIAL WORK, LAW, AND THE FAMILY CODE**

**3** Lecture Hours · **0** Lab Hours

Overview of legal principles and procedures as they apply to social workers and their interaction with clients. Particular attention given to the broad area of family law. Areas of mental health law, children's rights, consumerism, malpractice, courtroom testimony, criminal law, estates, and community legal services covered. This course is an elective only; does not meet the requirements for a second year policy course. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment. CAP students: SOCW 6371.

### **SOCW6330 – CHILD DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Reviews and analyzes theoretical and empirical approaches to understand the development of children through adolescence; explores implications for practice and policy with children and adolescents. Prerequisite: SOCW 5301 and SOCW 5317.

### **SOCW6331 – THEORIES OF FAMILY**

**3** Lecture Hours · **0** Lab Hours

Reviews a variety of theoretical approaches useful in understanding the family. Implications for practice at the policy, community, and interpersonal levels are discussed. Prerequisite: SOCW 5301 and 5317.

### **SOCW6332 – ADULT DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Explores selected issues and analyzes theories related to early and middle adulthood. Issues pertinent to practice, such as the developmental change processes of diverse populations, are also examined. Prerequisite: SOCW 5301 and SOCW 5317.

### **SOCW6333 – AGING IN AMERICAN SOCIETY**

**3** Lecture Hours · **0** Lab Hours

This course presents the major theories of aging, in the United States and across cultures, and explores the diverse factors of aging from various perspectives including psychological, biological, sociological, and spiritual. Theories are integrated into practice thus providing students a sound foundation for social work practice with older adults. Students develop skills for completing multi-dimensional assessments, and effective social work interventions with and on behalf of older adults. Prerequisite: SOCW 5301 and 5317.

### **SOCW6334 – WOMEN AND FAMILY POLICY**

**3** Lecture Hours · **0** Lab Hours

Policies affecting women and the family; interaction of women with other social institutions (family, economy, policy); the unique impact of policies upon families and women of color; cross cultural comparisons and political strategies; the role of the social work profession in this policy field. Prerequisite: SOCW 5303.

### **SOCW6336 – DIRECT PRACTICE IN MENTAL HEALTH**

**3** Lecture Hours · **0** Lab Hours

Focuses on assessment and intervention with those evidencing acute and chronic mental health problems and disabilities. The course addresses the delivery of services to various populations (children, adolescents, and adults), service delivery systems (community mental health, managed behavioral health care), and a wide range of problems. Topics include well-being, ethics, case management, treatment planning, managed care, DSM, PIE, and substance abuse. Required of all DP students specializing in Mental Health. Prerequisite: SOCW 6325.

### **SOCW6337 – PSYCHODYNAMICS**

**3** Lecture Hours · **0** Lab Hours

Applies psychodynamic theory derived from Freud and ego psychologists to the life cycle. Draws implications for social work practice with diverse groups. Prerequisite: SOCW 5301 and SOCW 5317.

### **SOCW6338 – SOCIAL SERVICES AND SOCIAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Broad acquaintance with, and analysis of, the social services and their role within social welfare policy. A variety of social services examined as well as modes and methods of providing these services, degree of effectiveness of various services in adequately serving clients, service gaps or duplication, and related areas. Prerequisite: SOCW 5303.

### **SOCW6339 – PROGRAM EVALUATION**

**3** Lecture Hours · **0** Lab Hours

Presumes basic research competence on part of student. Focus on sociopolitical aspects of program evaluation as a specialized use of scientific methods and community practice skills. Relationships between program evaluation and program planning or administration stressed. Prerequisite: SOCW 5322. CAP students: SOCW 6371 or concurrent enrollment.

### **SOCW6340 – ADVANCED RESEARCH METHODS IN HUMAN SERVICES**

**3** Lecture Hours · **0** Lab Hours

Acquaints students at an advanced level with research methodology as it applies to the human services. Includes techniques and tools of research, problem conceptualization, measurement, research and instrument design and data collection methods. Prerequisite: acceptance into the Ph.D. program.

### **SOCW6341 – ADVANCED STATISTICAL METHODS IN HUMAN SERVICES**

**3** Lecture Hours · **0** Lab Hours

Advanced statistical applications in the human services. Emphasis on multivariate statistical approaches including multiple regression analysis, logistic regression, structural model analysis using LISREL or EQS. Prerequisite: SOCW 6347.

## **SOCW6342 – HUMAN BEHAVIOR IN MACRO ENVIRONMENTS**

**3** Lecture Hours · **0** Lab Hours

Offers advanced students the opportunity to study people's behavior within large and complex social settings including: natural helping networks and ontological communities, organizations and bureaucracies, and social and political movements. Meets the advanced Human Behavior requirement for students pursuing the Community and Administrative Practice (CAP) specialization. Prerequisite: SOCW 5301 and SOCW 5317 or advanced standing status.

## **SOCW6343 – INTIMATE PARTNER VIOLENCE**

**3** Lecture Hours · **0** Lab Hours

This course covers theoretical frameworks for understanding and addressing intimate partner violence as well as culturally sensitive prevention and intervention practice models. Prerequisite: SOCW 6325; Co-requisite: SOCW 6326 or SOCW 6336.

## **SOCW6344 – TREATMENT OF CHILDREN AND ADOLESCENTS**

**3** Lecture Hours · **0** Lab Hours

Overview of the literature which describes physical, psychological, and cultural characteristics unique to childhood and adolescence. Attention then turned to treatment principles, and the specification of procedures for the amelioration of problems common to children and adolescents. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

## **SOCW6345 – HEALTH POLICY**

**3** Lecture Hours · **0** Lab Hours

Historical, current, and projected national and local health policies and roles of providers and consumers of health care examined; service demands, economic, access, and regulatory issues analyzed; relationships between governmental, voluntary, and commercial sectors studied; analytic frameworks for the understanding and development of policies developed. Prerequisite: SOCW 5303.

## **SOCW6346 – TEACHING PRACTICUM**

**3** Lecture Hours · **0** Lab Hours

Introduces students to the academic role through teaching practice at graduate and/or undergraduate level supervised by a full-time faculty member. Prerequisite: SOCW 6328, 6340, 6348, 6373.

## **SOCW6347 – INTERMEDIATE STATISTICS**

**3** Lecture Hours · **0** Lab Hours

Statistical applications for doctoral social work students. Emphasizes both parametric and non-parametric techniques, including t-tests, ANOVA, correlation and regression, chi-square, and other non-parametrics. Designed to provide a foundation for advanced multivariate statistical techniques. Prerequisite: acceptance into the Ph.D. program.

## **SOCW6348 – SEMINAR IN QUALITATIVE RESEARCH METHODS**

**3** Lecture Hours · **0** Lab Hours

Explores a variety of qualitative approaches to knowledge building and research. Designed to prepare students to carry out research projects within their areas of interest. Content includes discussions of knowledge development, study designs, data collection, analysis, and report writing. Prerequisite: acceptance into the Ph.D. program.

## **SOCW6349 – AGING AND SOCIAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Social welfare policies and programs are examined in terms of the overall impact on the aged and society. Needs and gaps in services to the aged are evaluated, especially concerning minority and low-income aged. Current issues in aging policy are examined. Prerequisite: SOCW 5303.

## **SOCW6350 – SEMINAR IN COGNITIVE-BEHAVIORAL INTERVENTION STRATEGIES**

**3** Lecture Hours · **0** Lab Hours

Explores the integration of cognitive-behavioral and constructivist intervention methods in the treatment of various problems and clinical populations. The theoretical bases of cognitivism, behaviorism, and constructivism are identified and current issues in cognitive-behavioral and in constructivist methods are addressed. Assessment and interventions taught in this course are drawn from evidence-based practice knowledge and informed practice wisdom. Client strengths and individual empowerment are emphasized in formulating assessment and intervention strategies. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

## **SOCW6353 – SEMINAR IN FAMILY THERAPY**

**3** Lecture Hours · **0** Lab Hours

Comparison of various approaches to working with the family as a total system; enhancement of cognitive understanding of similarities and differences in theory and goals of family treatment in many fields of practice; integration of strategies and techniques of each method into an individual style of therapy. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

## **SOCW6354 – SOCIALLY OPPRESSED GROUPS, SOCIAL EXCLUSION AND SOCIAL JUSTICE**

**3** Lecture Hours · **0** Lab Hours

Past and present policies are examined related to people with disabilities, substance abusers, lesbians and gay men, juvenile delinquents, women convicted of criminal offenses, sex offenders and others who for various reasons experience social exclusion, stigma and social control. Theoretical bases of societal reaction to these groups and the impact on social policy and social work practice is considered. Prerequisite: SOCW 5303.

## **SOCW6356 – SEMINAR IN PROGRAM AND PRACTICE EVALUATION**

**3** Lecture Hours · **0** Lab Hours

This course provides hands on opportunities to develop program and clinical evaluation plans for social work/welfare agencies. Educational principles and theoretical foundations are discussed as the actual plans are developed. Students work with agency decision makers and the instructor to generate a plan acceptable to the agency for implementation. Prerequisite: SOCW 6347.

## **SOCW6358 – SOCIAL WORK SUPERVISION**

**3** Lecture Hours · **0** Lab Hours

Introduces the roles, functions, and contexts of social work supervision. Covers administrative and clinical perspectives on the social work supervisor as manager, educator, mentor, mediator, and leader in human service organizations. Prerequisite: Community and Administrative Practice (CAP) students: SOCW 6371 or concurrent enrollment. Direct Practice (DP) students: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

## **SOCW6359 – SOCIAL WORK IN SCHOOLS**

**3** Lecture Hours · **0** Lab Hours

The purpose of this course is to provide an overview of the various social work related theoretical perspectives, models, and programs for intervention with children and their families in the school setting. This includes skills in assessment, prevention, and intervention in providing services to "high risk" students, such as students in poverty and students with disabilities, and addressing issues such as teen parenting, drug and alcohol abuse, and conflict management in the school setting. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment.

## **SOCW6360 – CLINICAL ASSESSMENT OF CHILD MALTREATMENT**

**3** Lecture Hours · **0** Lab Hours

Examines knowledge/technique in child physical/emotional/sexual abuse, physical/emotional neglect, and exploitation interventions. Includes interviewing, identification, legal issues, assessment/evaluation, case

management, intervention, follow-up. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment.

### **SOCW6361 – STRESS, CRISIS, AND COPING**

**3** Lecture Hours · **0** Lab Hours

The impact of specific crises on individuals and families will be examined. Typical crises will include life-threatening illness, trauma, physical and mental disability, and death. Assessment and evaluation of an individual's coping ability and appropriate strategies for social work interventions will be studied. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6363 – BUDGETING AND FINANCIAL MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Basic overview of financial management applied specifically to human service agencies; emphases on basic concepts and skill building in budgeting, and fund raising; accounting principles, financial statements, and computerized financial information systems also covered. Prerequisite: SOCW 6371 or concurrent enrollment.

### **SOCW6365 – SEXUAL AND GENDER IDENTITIES**

**3** Lecture Hours · **0** Lab Hours

Reviews various life experiences, challenges and psychosocial theories affecting lesbian, gay, bisexual, and transgender persons. Identifies social work interventions. Prerequisite: SOCW 5301 and SOCW 5317 or advanced standing status.

### **SOCW6367 – SEMINAR IN ADVANCED STATISTICAL APPLICATIONS**

**3** Lecture Hours · **0** Lab Hours

This seminar covers statistical analysis of experimental designs, the General Linear Model and other advanced statistics. The course focuses on applications of statistics using various data sets. Prerequisite: Knowledge of SPSS; SOCW 6341 and 6347.

### **SOCW6368 – SEXUAL ABUSE OF CHILDREN: IDENTIFICATION, ASSESSMENT, CASE MANAGEMENT AND TREATMENT**

**3** Lecture Hours · **0** Lab Hours

Seminar focused on examination of current knowledge and intervention strategies related to child sexual abuse. Topics addressed include techniques of obtaining information, sexual assault assessment procedures, validation, case management, application of change methods, case monitoring and relapse prevention. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment.

### **SOCW6369 – INTRODUCTION TO HUMAN SEXUALITY AND SOCIAL WORK PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Overview of human sexuality as it relates to social work practice. Human sexuality considered from a biopsychosocial perspective. Emphasis on viewing human sexuality as an interactive process of the total personality. Attention given to various psychological, social and behavioral educational/treatment approaches. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6370 – TREATING PARENT-CHILD RELATIONSHIPS**

**3** Lecture Hours · **0** Lab Hours

Treatment strategies and evaluation methods and research findings relevant to the treatment of parent-child relationships; review of existing parent training literature and commercially available parenting programs. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6371 – COMMUNITY AND ADMINISTRATIVE PRACTICE**

**3 Lecture Hours · 0 Lab Hours**

Surveys theory and builds skills in roles associated specifically with community practice (e.g. community/locality development, social planning, social action) and administrative practice (e.g. supervision, administration, management and management systems). Students complete an advanced assignment in community and/or organizational assessment and program design. Required of all CAP (Community and Administrative Practice) students. Prerequisite: Advanced Standing Student or SOCW 5306, SOCW 5310, and SOCW 5551.

### **SOCW6373 – THEORY AND MODELING BUILDING IN SOCIAL WORK RESEARCH**

**3 Lecture Hours · 0 Lab Hours**

This course gives special emphasis on ways in which theory informs social work research. This course prepares students to perform application and critical analysis of social science and social work theory and theory-driven research. The course involves students in integrating theory, research, and social work practice with the goal of producing models of interventions, programs, and policies. Prerequisite: acceptance into the Ph.D. program.

### **SOCW6380 – TREATMENT OF ADDICTIVE BEHAVIORS**

**3 Lecture Hours · 0 Lab Hours**

Surveys major treatment alternatives, showing addictive behavior patterns such as alcohol/drug abuse or eating disorders. Student conducts field research of 12-step programs, practices interventions, and studies inpatient and outpatient treatment methods with emphasis on relapse prevention. Prerequisite: SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6384 – MANAGEMENT OF CHILDREN'S AGENCIES AND PROGRAMS**

**3 Lecture Hours · 0 Lab Hours**

Course prepares students for mid-management and administrative roles in public and private child-serving agencies and programs. Includes content about state licensure of child care agencies and administrators and of child placing agencies and administrators, as well as about the legal aspects of child welfare practice. Emphasizes the community context of practice and how agencies can adapt their work to the cultural milieu of clients and others in the environment. Prerequisite: SOCW 6371 or concurrent enrollment.

### **SOCW6385 – SOCIAL WORK AND MANAGED CARE**

**3 Lecture Hours · 0 Lab Hours**

Explores the history of managed care in health and social services, the underlying philosophy, and current trends and practice issues. Assesses the potential for conflict between social work values and managed care systems. Builds skills for administrative roles in managed care settings. Prerequisite: SOCW 6371 or concurrent enrollment.

### **SOCW6386 – GRANT PROPOSAL DEVELOPMENT SEMINAR**

**3 Lecture Hours · 0 Lab Hours**

Grant proposal development is a fundamental method of accessing funds and developing new programs in the social service arena. In this class, students will identify key funding opportunities in their fields of interest and will write a proposal using an actual federal application and a foundation funding announcement. The majority of the course will be devoted to the development of the skills and knowledge necessary to produce a competitive proposal. These include, but are not limited to: a) needs and capacities assessment, b) program development, c) strategic planning, d) budgeting, e) evaluation, and f) community collaboration. The prerequisite for this course is SOCW 6371 (or concurrent enrollment) or SOCW 6325; SOCW 6326 or concurrent enrollment; or SOCW 6336 or concurrent enrollment.

### **SOCW6387 – CHILD AND YOUTH POLICY**

**3 Lecture Hours · 0 Lab Hours**

The course centers on a critical examination of current and proposed social policies impacting "at-risk" children and youth. An analytical approach to address the wide arena of national, international, and state child and youth social policies that mandate child custody, health, education, economic supports, juvenile justice, and child protection services. Emphasis will be placed on the role of the social work practitioner in enhancing the well being of children and youth through social policy analysis, development,

implementation, and reform. Prerequisite: SOCW 5303.

### **SOCW6389 – BRAIN AND BEHAVIOR**

**3** Lecture Hours · **0** Lab Hours

This course is a second-year blended option in the HBSE, Direct Practice, and CAP sequences. The focus of this course is on current advances in knowledge of the neurobiological underpinnings of human behavior and development, the interaction between those underpinnings and the social context and environment, the relevance to social work practice with individuals, families, groups, programs/organizations, and communities, and related assessment and intervention practice behaviors across several practice domains. The domains include human development, genetics, mental health and substance abuse, cognition, stress and trauma, and violence and aggression. The implications of neurobiological and environmental influences (including public health issues and health disparities) will be examined in terms of social justice, social work values, knowledge, and skills, as well as in terms of the structural and systematic arrangement and delivery of social welfare services at the micro, mezzo, and macro levels. Prerequisite: SOCW 5301 and SOCW 5317.

### **SOCW6390 – TUTORIAL**

**3** Lecture Hours · **0** Lab Hours

Arrangements may be made for a directed and supervised tutorial in a select area of special interest to the student.

### **SOCW6392 – SELECTED TOPICS IN SOCIAL WELFARE**

**3** Lecture Hours · **0** Lab Hours

Topics vary from semester to semester depending on the needs and interest of the students. Prerequisite: permission of instructor.

### **SOCW6393 – THESIS RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Initial research in the student's area of concentration, leading to thesis. Prerequisite for 6398. Prerequisite: permission of instructor.

### **SOCW6394 – APPLIED RESEARCH PRACTICUM**

**3** Lecture Hours · **0** Lab Hours

Students engage in an active program of applied research under direct supervision of a faculty member.

### **SOCW6396 – SOCIAL WORK EDUCATION: PRINCIPLES AND SKILLS**

**3** Lecture Hours · **0** Lab Hours

Considers a range of ideas in educational thought relevant to the formulation of an analytical appraisal of social work education and training. Educational methods and skills relevant to social work are addressed and practice opportunities offered. Prerequisite: acceptance into the Ph.D. program.

### **SOCW6397 – WRITING FOR PUBLICATION**

**3** Lecture Hours · **0** Lab Hours

This course will explore the world of academic publishing. Students will provide peer reviews of manuscripts, prepare and critique their ideas and draft sections of a manuscript, and present a final manuscript and publication plan. The intent is to help the students increase their chance of publishing manuscripts as a Ph.D. student and as a new faculty member. Although nothing can substitute for having information and research relevant for the field, the art of writing for publication should not be underestimated. Journal publishing, like any other human service endeavor, is easier as you become proficient. Most academics become proficient at communicating their ideas and research through trial and error. However, one's chances of becoming published can be increased by learning from experts in the field. Prerequisite: acceptance into the Ph.D. program.

### **SOCW6398 – THESIS**

**3 Lecture Hours · 0 Lab Hours**

Requires an individual research project in the individual's area of concentration, with a minimum of six semester hours total needed for the project. Satisfactory completion requires approval of the instructor in charge, a supervising committee appointed by the Dean of Graduate Studies. Defense in a final oral examination is required. Prerequisite: permission of the instructor.

### **SOCW6399 – DISSERTATION**

**3 Lecture Hours · 0 Lab Hours**

Preparation and submission of a doctoral dissertation in an area in social work.

### **SOCW6451 – APPLIED SOCIAL WORK PRACTICE II**

**4 Lecture Hours · 0 Lab Hours**

### **SOCW6452 – APPLIED SOCIAL WORK PRACTICE III**

**4 Lecture Hours · 0 Lab Hours**

### **SOCW6694 – APPLIED RESEARCH PRACTICUM**

**6 Lecture Hours · 0 Lab Hours**

Students engage in an active program of applied research under direct supervision of a faculty member.

### **SOCW6698 – THESIS**

**6 Lecture Hours · 0 Lab Hours**

Requires an individual research project in the individual's area of concentration, with a minimum of six semester hours total needed for the project. Satisfactory completion requires approval of the instructor in charge, a supervising committee appointed by the Dean of Graduate Studies. Defense in a final oral examination is required.

### **SOCW6699 – DISSERTATION**

**6 Lecture Hours · 0 Lab Hours**

Preparation and submission of a doctoral dissertation in an area in social work.

### **SOCW6851 – APPLIED SOCIAL WORK PRACTICE II**

**8 Lecture Hours · 0 Lab Hours**

Practical application of social work skills in real world environment. Student is assigned to field agency to enhance and practice learned theories. This course is 500 hours of direct client contact in agency setting as provided by the Field Experience Office. Prerequisite: SOCW 5310/5551 and SOCW 6325.

### **SOCW6999 – DISSERTATION**

**9 Lecture Hours · 0 Lab Hours**

Preparation and submission of a doctoral dissertation in an area in social work.

### **SOCW7399 – DOCTORAL DEGREE COMPLETION**

**3 Lecture Hours · 0 Lab Hours**

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours

may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## Master's Degree Program in City and Regional Planning

### General

Located in the heart of the Dallas-Fort Worth Metroplex, the fourth largest metropolitan region in the U.S., the [City and Regional Planning Master's Degree Program](#) (MCRP) is situated in an optimal laboratory to study, analyze, and provide planning solutions to contemporary urban problems, such as sprawl, pollution, equity, carbon footprints, economic development, aging infrastructure, and, more generally, contributing to the development of sustainable cities and regions.

The program resides in the School of Urban and Public Affairs' (SUPA) whose [Institute of Urban Studies](#) provides student research and practical experience through the professional planning services it offers to cities across the state of Texas.

### Mission

The MCRP program prepares students for careers as professional planners with public, private and nonprofit organizations. It does this by training students to apply planning theory, knowledge, techniques, and skills to "real world" planning problems through coursework, studios, and internship opportunities.

UTA's City and Regional Planning Master's Degree Program is accredited by the [Planning Accreditation Board](#) (PAB). The program's mission, goals and objectives, and accreditation efforts are shaped in consultation with the MCRP Advisory Board composed of alumni and area practitioners.

### Factors considered for admission to the CIRP Master's program

The CIRP program takes a holistic approach to the application review process. Each applicant file is reviewed individually with equal consideration given to the quantitative and qualitative aspects of the student's record. A complete application includes:

- Graduate Record Exam (GRE) score: Writing (Exceptions: Outstanding UT Arlington)

graduates may qualify for GRE waiver providing they meet certain requirements)

- Undergraduate Grade Point Average (GPA): The undergraduate GPA based on the last 60 hours of course work as calculated by the Graduate School from the official transcript.
- Graduate Record Exam (GRE) scores: Verbal and Quantitative (Exceptions: Outstanding UT Arlington graduates may qualify for GRE waiver providing they meet certain requirements)
- Letters of Recommendation attesting to the applicant's potential to do Master's-level work and complete the program. Letters for Master's programs should be from professors or supervisors at work ([download Letter of Recommendation form](#))
- Essay by applicant approximately one double-spaced page in length (approximately 250 words). The Essay is considered both for its content and quality of writing. The Essay should address the following questions: 1. Why do you want to earn a Master's degree in the program for which you are applying? 2. What relevant background and experience do you bring to the program? The essay can also include other concerns you'd like to bring to the attention of the Graduate Advisor or Master's Admissions Committee.
- Non-native English speakers only: TOEFL or IELTS scores (Exceptions: An applicant holding either a Bachelor's or a Master's degree from a regionally accredited U.S. college or university is not required to submit a TOEFL, TOEFL iBT, or IELTS score for admission purposes.)

### Waivers

i. Submission of GRE scores may be waived for applicants to SUPA master's programs. The student must have graduated from a commensurate bachelor's degree program at UT Arlington no more than three academic years prior to admission to the graduate program (as measured from the start of the semester for which admission is sought). A commensurate bachelor's degree program is one that is a normal feeder program for the master's degree program to which the student seeks admission. Undergraduate students in their final year of study are also eligible; in such cases, admission with the GRE waiver is contingent upon successful completion of the bachelor's degree. The student's UT Arlington grade-point average must equal or exceed 3.0 in each of two calculations: (a) in the last 60 hours of study as calculated for admission by the Graduate School; (b) in all undergraduate coursework completed at UT Arlington.

ii. Submissions of TOEFL or IELTS scores may be waived for applicants to SUPA master's programs who hold a Bachelor's or Master's degree from a regionally accredited U.S. college or university.

### Types of Admission

#### Unconditional Admission:

Applicants who meet all the following requirements will be considered for unconditional admission:

1. A preferred minimum Writing GRE score of 4.0
2. Minimum Undergraduate GPA of 3.0
3. A preferred minimum Verbal GRE score of 150 (450 if the test was taken before August 1, 2011), and a preferred minimum Quantitative GRE of 141 (450 if the test was taken before August 1, 2011)
4. Outstanding letters of recommendation
5. Strong, well-written personal essay
6. Non-native English speakers only: TOEFL scores of at least 550 (paper-based), 213 (computer-based), or 79 (iBT) with sectional scores that meet or exceed 22 Writing, 21 Speaking, 20 Reading, and 16 Listening; or, IELTS score of at least 6.5.

#### Probationary Admission:

Applicants who do not meet all requirements for Unconditional admission will be considered for Probationary admission on the basis of the strength of all the listed admission factors. Test scores

will not constitute the sole or primary basis for ending consideration of an applicant. Under Probationary admission, special course requirements or other conditions may be imposed by the SUPA Master's Admissions Committee. Applicants who meet all the standards for Unconditional admission except for deficiency in Writing GRE score will be considered for Probationary Admission conditional on completing an approved Writing course in their first semester.

**1. Other types of admission decisions pertaining to Master's applicants:**

- a. **Deferred:** Applicants who are unable to supply required application materials, or who must complete additional preparatory work before their admissibility can be determined, may be deferred until records are complete.
- b. **Provisional:** Applicants who are unable to supply all required documentation prior to the admission deadline but who otherwise appear to meet admission requirements may be granted Provisional admission pending submission of complete and satisfactory credentials before the end of the semester in which they have registered in a Provisional status.
- c. **Denied:** Applicants who fail to meet more than one of the admission requirements and for whom the SUPA Master's Admission Committee finds there is insufficient basis to justify any other kind of admission will be Denied admission. As the admission process is competitive, applicants meeting basic admission requirements who are less well qualified than other applicants may also be denied admission.

**Scholarship and Fellowship Criteria**

- Graduate students with a GPA of 3.0 or better who are enrolled in six hours or more are eligible to apply for competitive scholarships and fellowships.
- Scholarships and fellowships for Master's and Doctoral students will be competitively awarded based on consideration of the all admission criteria assessed by their admitting programs.

**SUPA Inadequate Academic Progress Point System**

A student may be subject to dismissal from the program if they accumulate 4 deficiency points during their Master's degree or their Ph.D. Students who complete a Master's degree at SUPA will not carry deficiency points into their Ph.D. work. Deficiency points may not be removed from a student's record by repeating a course or additional coursework.

- D = 2 deficiency points
- F = 3 deficiency points
- I = 1 deficiency point
- W = 0.5 deficiency point

**Curriculum**

The program's curriculum imparts knowledge, skills and values necessary for entering the planning profession. The degree requires completion of 48 hours of study. The generalist core (33 hrs Professional Report or 36 hrs Thesis) is organized into three knowledge tiers: Theory (9 hrs), Analysis and Techniques (9 hrs), and Implementation and Plan Making (12 hrs), plus a Professional Report (3 hrs) or Thesis (6 hrs).

Although students are not required to specialize, with the assistance of the Graduate Advisor, they can choose electives (12 to 15 hrs) to build a program of study in: Urban Design and Redevelopment, Green Cities and Sustainability, or earn a Certificate in Geographic Information Systems (GIS) simultaneously with the degree. They can also build a hybrid program of study that takes advantage of the expertise of the program's faculty.

**Core Courses (33-36 hrs)**

- CIRP 5303** Planning History, Theory and Ethics
- CIRP 5310** Planning, Urban Development and Structure
- CIRP 5308** Metropolitan Sustainability and Plan Making
- CIRP 5363** Leadership and Communication Skills in the Planning Process

**CIRP 5318** Techniques of Planning Analysis I  
**CIRP 5330** Techniques of Planning Analysis II  
**CIRP 5304** Plan Implementation, Zoning, and Regulations  
**CIRP 5316** Land Use Planning Law  
**CIRP 5332** Project Studio or **CIRP 5331** GIS Workshop  
**CIRP 5380** Research Questions in Planning (taken in the penultimate semester)  
**CIRP 5397** Professional Report (3 hrs) **OR CIRP 5698** Thesis (6hrs)

**Elective Courses (12 to 15 hrs)\***

**CIRP 5305** Land Use, Management and Development  
**CIRP 5306** Urban Revitalization  
**CIRP 5309** Transportation/Land Use Modeling and Policy Analysis  
**CIRP 5311** Elements of Urban Design  
**CIRP 5313** Urban Growth Policies  
**CIRP 5322** Economic Development Planning and Policy  
**CIRP 5324** Community Development  
**CIRP 5325** Physical Planning and Urban Design  
**CIRP 5327** Intro to Green Cities and Transportation  
**CIRP 5331** GIS Workshop (CIRP 5357 prerequisite)  
**CIRP 5340** GIS and Suitability Analysis  
**CIRP 5341** Environmental Regulations, Laws, and Planning  
**CIRP 5350** Environmental Planning  
**CIRP 5351** Techniques of Environmental Assessment  
**CIRP 5356** Introduction to GIS  
**CIRP 5357** Intermediate GIS  
**CIRP 5361** Planning Internship

\*Other electives as approved by the Graduate Advisor

**Study Areas**

**Urban Design and Redevelopment (12 to 15 hrs)**

**CIRP 5325** Physical Planning and Urban Design  
**CIRP 5306** Urban Revitalization  
3 OPEN ELECTIVES

**Green Cities and Sustainability (12 to 15 hrs)**

**CIRP 5327** Intro to Green Cities and Transportation  
**CIRP 5350** Environmental Planning  
3 OPEN ELECTIVES

**Certificate**

**GIS Certificate** (12 - 15 hrs). Earned simultaneously with the degree.

**CIRP 5356** Introduction to GIS  
**CIRP 5357** Intermediate GIS  
**CIRP 5331** GIS Workshop  
**CIRP 5340** GIS and Suitability Analysis  
2 OPEN ELECTIVES

See the program's Graduate Advisor for a list of approved electives in each study area, or download a copy from the [MCRP webpage](#). Other courses may be substituted upon approval of the program's Graduate Advisor and/or Program Director.

**Thesis or Professional Report (6 hours thesis students; 3 hours thesis-substitute students)**

All MCRP students must enroll in CIRP 5380 Research Questions in Planning in their penultimate semester to prepare for the Thesis or Professional Report.

Thesis (minimum of 6 credit hours): This option is recommended for students who enjoy research and/or are interested in pursuing a career in research or private consulting, or who intend to obtain another advanced degree. However, this option is also available to students who intend to go into professional planning practice.

Thesis format and submission calendar must adhere to the Office of Graduate Studies' thesis criteria. Thesis students identify a committee chair no later than their penultimate semester and, in consultation with the chair, form a thesis committee consisting of at least three members of the SUPA Graduate Faculty. The thesis committee guides the student's development of research question and choice of research method and analysis. Thesis students must defend their thesis in a public oral examination- open to all members of the faculty- and before all members of the student's thesis committee. The thesis committee must have copies of the thesis at least two weeks prior to the thesis defense. All members of the student's committee must be present at the defense. Thesis students must be enrolled in the appropriate section of CIRP 5698 Planning Thesis (under their committee chair) during the semester they receive advise from their chair and committee for preparing the thesis, as well as during the semester they defend their thesis. Once the student is enrolled in the thesis course, continuous enrollment is required.

Professional Report (3 credit hours): This option is recommended for students who are going into professional practice and/or who desire additional experience beyond the Project Studio course by working on a professional report. This option does not preclude professional report students the opportunity of further pursuing an advanced graduate degree. Students identify a professional report committee chair no later than their penultimate semester and, in consultation with the chair, form a professional report committee consisting of at least three members of the SUPA Graduate Faculty. The professional report committee guides the student's choice of planning project and method of analysis. Professional report students must defend their report in a public oral examination- open to all SUPA graduate faculty and students- and before all members of the student's professional report committee. Professional Report students must be enrolled in the appropriate section (under their committee chair) of CIRP 5397 Professional Report the semester in which the professional report is defended.

## Dual Degrees

To participate in the **dual degree program**, students must make separate application to each program and must meet the admission requirements of each program. Students must be admitted to the second program before completing more than 24 credit hours in the first program and must complete the second degree within three academic years following completion of the first. By participating in a dual degree program, students may apply 6-18 total credit hours jointly to meet the requirements of both degrees, thus reducing the total number of hours required to earn each degree separately (shared courses are subject to approval by Program Advisors of each program). Degree plans, thesis or professional report proposals, and the final thesis or report must be submitted separately for each degree and approved by Program Advisors and relevant committees of each program. The successful candidate is awarded two degrees (not one joint degree).

Those interested in the dual degree program should consult the appropriate Program Advisors for further information and review the statement on Dual Degree Programs in the general information section of the catalog.

Dual degrees can be arranged with any suitable program. Arrangements for the following dual degrees have already been made between M.C.R.P. and the relevant Program Advisors.

M.C.R.P. and M.P.A. (Master of Public Administration)

M.C.R.P. and M.A. (Master of Arts in Urban Affairs)

M.C.R.P. and M.S.W. (Master of Social Work)

M.C.R.P. and M.Arch. (Master of Architecture)

M.C.R.P. and M.S.L.A. (Master of Science in Landscape Architecture)

M.C.R.P. and M.S.C.E. (Master of Science in Civil Engineering)/M.Engr. (Master of Engineering)

M.C.R.P. and M.S.Ev.S.E. (Master of Science in Environmental Science and Engineering)

MCRP students without a Bachelor's degree in Architecture take Path A in the architecture program; those with an undergraduate degree take Path B. All 15 credit hours of electives in the M.Arch. program must be taken in the MCRP program. Only in special instances may students select the thesis substitute plan of the MCRP program.

## Graduate Certificates

### Certificate in Development Review

Certificate Coordinator: Enid Arvidson; [enid@uta.edu](mailto:enid@uta.edu)

The Certificate in Development Review provides training in zoning, subdivision plat review, site design, communication skills, and urban development, while keeping in mind the interests of citizens and the spirit of places. These skills are essential for planners who want to understand proposed development activity, ensure that proposed development is consistent with a city's vision, and facilitate review of development proposals. The program is geared for both entry-level planners/planning technicians, and for professionals in allied fields such as architecture, landscape architecture, law, engineering, and real estate.

The certificate requires completion of 15 hours of graduate-level coursework. All students must take CIRP 5304 Plan and Policy Implementation. Two courses in land use and development are selected from: CIRP 5305 Land Use Planning, Management and Development; CIRP 5306 Urban Revitalization; CIRP 5316 Land Use Law; or CIRP 5322 Economic Development. One course in communication is selected from: CIRP 5308 Metropolitan Sustainability and Plan Making; or CIRP 5363 Leadership and Communication Skills in the Planning Process. Lastly, one course in agencies and policies is selected from: CIRP 5313 Urban Growth Policies or CIRP 5328/URPA 5326 Public Budgeting.

### Certificate in Geographic Information Systems

Certificate Coordinator: Jianling Li; [jili@uta.edu](mailto:jili@uta.edu)

The Geographic Information Systems (GIS) Certificate program is designed for students and professionals wishing to acquire skills in spatial data analysis. GIS is a powerful computer-based analytical tool used at all levels of government, in business, industry, and institutions. GIS skills are a must in many different fields including urban planning, engineering, geology, and the social sciences. In planning for instance, GIS skills provide professionals a spatial analytical edge with application in all areas of planning including land use, environmental, transportation and economic development planning.

Applying for admission to the GIS-Certificate program does not require the GRE or a degree in planning and should be done as a Non-Degree Seeking Special Applicant through the [Graduate School](#). To obtain the 15-credit hour certificate, students must maintain a GPA of 3.0 in their coursework.

Up to 12 GIS-certificate-credit hours earned as a special non-degree seeking student may be applied to the Master's degree in City and Regional Planning, subject to the policies on grades and graduate credit described in the [Graduate School catalog](#)

#### Required (9hrs)

CIRP 5356 Introduction to GIS

CIRP 5357 Intermediate GIS

CIRP 5331 GIS Workshop

And two electives with approval of the GIS Certificate Program advisor:

#### Electives (6hrs):

CIRP 5340 GIS & Suitability Analysis

GEOL 5323 Remote Sensing Fundamentals or

ARCH 5329, and 5340, CSE 5330 and 5356, GEOL 5303, and INSY 5310 and 5335.

## Ph.D. Program

### Ph.D. in Urban Planning and Public Policy

The UPPP Ph.D. program requires a minimum of 48 credit hours beyond the master's degree, including 39 credit hours of coursework and a minimum of 9 dissertation credit hours. The 39 credit hours of coursework include: 6 hours of leveling courses, 9 hours in the required core of urban planning and public policy, 6 hours of methods courses and 18 hours of elected field area courses. Courses and credit hours may be waived for students with relevant previous coursework upon approval of the dissertation supervisor and program director.

Coursework in the required core, which covers core knowledge and competencies in planning and policy, as well as the courses in the selected field areas prepares students for the field exam. At the end of or after their first semester, students select their committee based on their interests and take a diagnostic exam. The student's committee will then guide their course work, including any extra courses needed based on their diagnostic exam as well as dissertation proposal stages.

#### Application Requirements and Deadlines

Along with the Graduate School application requirements, a complete application includes:

1. Official transcripts from colleges and universities attended. Information about submitting transcripts is available in the Graduate Catalog; and
2. Official test score reports for the Graduate Record Exam (GRE) and, for international applicants, the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Information about submitting official test scores is available from the Graduate Catalog. The ETS code for UTA is 6013; and
3. Three Letters of Recommendation. Letters should attest to the applicant's ability to do Doctoral-level work and complete the dissertation. Letters must be from references who hold a Ph.D. degree; and
4. Essay by applicant approximately one double-spaced page in length (approximately 250 words). The essay is considered both for its content and writing quality. The essay should discuss research agenda, identify the faculty you wish to work with, and state the reasons for wanting to earn the Doctoral degree.

Official transcripts and test scores must be sent directly to the Graduate School by the institution and ETS respectively. Letters of recommendation and personal essay should be sent directly to: UPPP Admissions Committee, SUPA Box 19588, Arlington TX 76019 or email to the program's Graduate Advisor. It is the applicant's responsibility to ensure all application materials are received by February 1. Incomplete applications or applications received after the deadline will be deferred.

UPPP program admits doctoral students for fall and spring semester admissions. The application deadline for the UPPP program is February 1 for Fall semester and July 1 for spring semester.

#### Admission Criteria

Applicants may be admitted unconditionally with a graduate GPA of 3.6, a Verbal GRE score of at least 153 (500 if test was taken before August 1, 2011) and a Quantitative GRE score of at least 144 (500 if test was taken before August 1, 2011), except for international applicants who will also be required to have a score of 213 or higher on the TOEFL (550 or higher on the written TOEFL; 79 or higher on TOEFL iBT). Strength of letters of recommendation and quality of personal statement and Master's degree field of study are also considered.

or

Applicants may be unconditionally admitted with a GPA above 3.7 if they score at least 153 (500) on the Verbal and 140 (400) on the Quantitative subtests or if they score at least 144 (500) on the Quantitative and 146 (400) on the the Verbal subtests.

Applicants not admitted unconditionally may be considered for admission on probation based on factors mentioned above as well as multilingual proficiency, first generation graduate student from

family and community service experience. The Doctoral admissions committee will set the probationary conditions.

The admissions committee may defer the admission decision when a component of the application is incomplete. It may also admit a student provisionally when an applicant is unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements.

### **Curriculum and Degree Requirements**

#### **Leveling Courses (6 hours)**

**CIRP 5303** Planning History, Theory and Ethics

**CIRP 5310** Planning, Urban Development and Structure

#### **Required Core Courses (9 credit hours):**

**UPPP 6300** Advanced Urban Theory

**UPPP 6311** Spatial Theory and Policy

**URPA 5306** The Urban Economy

#### **Methods Courses (6 hours):**

**CIRP 5317** Intermediate Data Analysis (also offered as URPA 5342)

**CIRP 5346** Qualitative Methods (also offered as URPA 5344) **or**

**URPA/CIRP 6346** Advanced Data Analysis (based on the Dissertation Committee decision)

### **Urban Planning and Public Policy Field Area Courses (18 hours):**

Students take 18 hours of courses in their elected field area of planning and/or policy, preparing the student for the dissertation and beyond. Courses are determined in consultation and approval with the student's dissertation supervisor and supervisory committee.

Students are encouraged to use faculty resources and the opportunities offered in SUPA and UTA to specialize in following field areas or their combinations:

- Urban Policy and Planning
- Physical Planning, Development and Urban Design
- Land Use/Transportation Analysis, Planning and policy
- Environmental Planning Policy/Sustainability

### **Dissertation (minimum 9 hours)**

#### **Organization**

#### **UPPP Diagnostic**

Students take a diagnostic exam in their first semester or minimum 9 hours of course work so that their supervisory committee can be selected and guide them in their selection of courses. When a student has completed their coursework, they will be given a field exam by their committee. Once the field exam is successfully completed, the student must start work on their dissertation proposal which must be defended within 6 months of their field exam.

#### **Deficiency & Field Courses**

The supervisory committee decides and guides on needed field areas and additional course work based on the deficiencies beginning from the diagnostics process, but more so during the proposal preparation stage and also in the Proposal Defense.

Deficiency courses can be on the selected field area or other needed courses. The final decision on deficiencies will be determined in the proposal defense session.

#### **POSSIBLE COURSES TO ENHANCE FIELD AREAS**

**CIRP 6301** Theoretical Foundations and Ph.D. Workshop (also offered as URPA 6301)

#### **Urban Policy and Planning**

**URPA 5304** Urban Politics  
**URPA 5305** Theories of Urban Society  
**URPA 5311** Social Policy Formation  
**URPA 5309** Intergovernmental Relations  
All SUPA policy courses

### **Physical Planning, Development and Urban Design**

#### **Physical Planning**

CIRP 5305 Land Use, Management and Development  
CIRP 5306 Urban Revitalization  
CIRP 5313 Urban Growth Policies  
CIRP 5340 Environmental/Land-Use Suitability Analysis Using GIS  
CIRP 5358 Intelligent Transportation Systems and Transportation Planning

#### **Urban Design**

CIRP 5311 Urban Design  
ARCH 5306 Urban Design  
LARC 5301 Site Planning and Development Processes  
LARC 5302 Land Development Planning  
LARC 5382 Seminar in Urban Design

#### **Real Estate Development**

CIRP 5345 Planning and Real Estate Development  
CIRP 5313 Urban Growth Policies  
REAE6390 – Seminar in Special Topics in Real Estate  
REAE5350 – Quantitative Methods for Real Estate

### **Land Use/Transportation Analysis, Planning & Policy**

#### **Urban Economics**

URPA 5306 Urban Economy  
CIRP 5322 Economic Development  
URPA 5312 Urban Economic Policy

#### **Land Use/Transportation**

CIRP 5309 Land Use Transportation Analysis & Modeling  
CIRP 5315 Transportation Policies, Programs and History  
CIRP 5305 Land Use, Management and Development  
CIRP 5340 Environmental/Land-Use Suitability Analysis Using GIS  
CIRP 5358 Intelligent Transportation Systems (ITS) and Transportation Planning  
CE 5328 Air Pollution  
CE 5338 System Evaluation  
CE 6306 Public Transit Planning and Operations  
CE 6308 Analytical Models in Transportation

### **Environmental Planning Policy/Sustainability**

#### **Environmental Policy Planning**

CIRP 5342 Environmental Policy (also listed as URPA 5317)  
CIRP 5341 Environmental Regulations: Laws and Planning  
CIRP 5350 Environmental Planning  
CIRP 5340 Environmental/Land-Use Suitability Analysis Using GIS  
CIRP 5351 Techniques of Environmental Assessment

#### **Environmental Science & Engineering**

EVSE 5310 Environmental Systems – Chemical Aspects  
EVSE 5311 Environmental Systems – Geological Aspects  
CE 5324 Transportation and Air Quality  
CE 5329 Environmental Risk Based Corrective Action  
CE 5355 Environmental Permitting

## Field Area Examination

Students are eligible to take the Field Area Examination after completing all courses. The Field Area Exam marks the end of coursework and the beginning of preparing dissertation research proposal. The student must be enrolled in the Graduate School in the semester in which he/she takes the field area exam.

The Field Area exam may result in: 1) unconditional pass and recommendation to proceed to the next phase of the program; 2) approval to remain in the program but a requirement to meet certain specified additional criteria; 3) failure, but with permission to retake the examination after a period specified by the examining committee; or 4) failure with recommendation not to continue in the program.

After the second failure at the Field Area Exam, the student will be dismissed from the program.

Upon successful completion of the Field Area Exam, students start work on their dissertation proposal which must be defended within six months of their field exam.

## Dissertation Proposal

Upon successful completion of the written field area examination, students will work in preparation of their dissertation proposal. This preparation may include independent study or structured courses and is guided by the student's Dissertation Committee. The Dissertation committee may advise the student to take URPA 6301 Theoretical Foundations and Ph.D. Workshop, which provides theoretical background and techniques to prepare the student for completing the dissertation proposal. Students must also work closely with their dissertation supervisor and committee to develop their dissertation proposal. A formal proposal defense must be held, and the proposal must be formally approved by the dissertation committee before the student may continue to complete the dissertation. The dissertation represents the culmination of the student's academic efforts and so is expected to demonstrate original and independent research activities and be a significant contribution to knowledge.

## Dissertation

A student receiving advice and assistance from a faculty member in the preparation of a dissertation must register for the appropriate course commensurate with the student's level of effort that is equivalent to an organized course of the same **credit value**. Once the student is enrolled in the dissertation course, continuous enrollment is required. The student must accumulate a minimum of nine dissertation hours to graduate.

The Graduate School offers Dissertation Seminars each semester and encourages all Dissertation students to attend.

Doctoral students must enroll in a minimum of 3 dissertation hours (7399) in the term designated as their completion term. Students may designate only one term as the completion term. Doctoral students who do not graduate at the end of their completion term will receive a grade of R, W or F and must enroll in a minimum of 6 hours of dissertation research (6699 or 6999) every term until graduation.

The dissertation defense is a public oral examination open to all members (faculty, students and invited guests) of the University community. Questioning of the candidate will be directed by the student's dissertation supervising committee. All members of the student's committee must be present at the defense. Although the defense is concerned primarily with the dissertation research and its interpretation, the examining committee may explore the student's knowledge of areas relevant to the core of the dissertation problem.

The dissertation defense may result in a decision that the candidate has 1) passed unconditionally; 2) passed conditionally with remedial work specified by the committee; 3) failed, with permission to be re-examined after a specified period; or 4) failed and dismissed from the program. The dissertation must be approved unanimously by the student's dissertation supervising committee and by the Dean of Graduate Studies.

## **CIRP Courses**

### **CIRP5191 – CONFERENCE COURSE**

1 Lecture Hour · 0 Lab Hours

Special subjects and issues as arranged by individual students and faculty members. May be repeated for credit.

### **CIRP5193 – MASTER'S COMPREHENSIVE EXAMINATION**

1 Lecture Hour · 0 Lab Hours

Directed study, consultation and comprehensive examination over coursework leading to thesis substitute for MCRP degree. Required of all thesis substitute students who were admitted to the MCRP program prior to Fall 2009 and who are not enrolled in thesis or other thesis substitute courses during semester in which they plan to graduate. Students beginning the MCRP program in Fall 2009 or after may not choose the Master's Comprehensive Examination as a thesis substitute option and may not enroll in this course.

### **CIRP5197 – PROFESSIONAL REPORT**

1 Lecture Hour · 0 Lab Hours

Preparation of final professional report as a thesis substitute for MCRP degree. Required of all thesis substitute students not enrolled in CIRP 5193.

### **CIRP5297 – PROFESSIONAL REPORT**

2 Lecture Hours · 0 Lab Hours

Preparation of final professional report as a thesis substitute for MCRP degree. Required of all thesis substitute students not enrolled in CIRP 5193.

### **CIRP5300 – FOUNDATIONS OF URBAN THEORY**

3 Lecture Hours · 0 Lab Hours

Spatial development of human settlements, their life cycles, expansion, and decay. Covers key theories of social, spatial, and economic structures of cities, nineteenth century to present. Considers influences of urban form and development on class, race, gender, and community.

### **CIRP5303 – PLANNING HISTORY, THEORY AND ETHICS**

3 Lecture Hours · 0 Lab Hours

Various theories of planning including rational comprehensive, communicative action, social learning, and radical planning. Sets theories within their historical contexts, and examines the social and political details of each era to show the development of diverse planning practices and theories of planning. Evaluates the values embodied in different theories and their relationship to practice and social justice, including planning ethics as contained in the AICP Code of Ethics and Professional Conduct.

### **CIRP5304 – PLAN IMPLEMENTATION, ZONING, AND REGULATIONS**

3 Lecture Hours · 0 Lab Hours

Introduction to plan preparation and implementation. Topics include zoning, subdivision regulations, form-based codes, site planning, strategic planning, and comprehensive planning.

### **CIRP5305 – LAND USE, MANAGEMENT AND DEVELOPMENT**

3 Lecture Hours · 0 Lab Hours

Assesses land use, management and development and considers new directions. Relates comprehensive planning, environmental management, and land use.

### **CIRP5306 – URBAN REVITALIZATION**

**3 Lecture Hours · 0 Lab Hours**

Examines various urban revitalization projects from coordinated, large-scale ventures to grassroots and informal neighborhood initiatives. Emphasis on the history, logic, politics, and implementation of these projects as well as their physical, social, and economic outcomes.

### **CIRP5307 – URBANIZATION IN THE DEVELOPING WORLD**

**3 Lecture Hours · 0 Lab Hours**

Explores the social, political and spatial dimensions of urbanization processes in developing countries. Covers urban, social, and cultural movements as well as development, processes of urban-rural migration, and globalization. The course will cover all developing regions of the world with an emphasis on Latin American countries.

### **CIRP5308 – METROPOLITAN SUSTAINABILITY AND PLAN MAKING**

**3 Lecture Hours · 0 Lab Hours**

Provides the background for sustainability planning at the city and metropolitan levels including plan making (e.g., comprehensive plans, small area plans, functional plans, etc.). Explores the relationship of environmental sustainability to economic vitality and social equity including planning ethics.

### **CIRP5309 – TRANSPORTATION/LAND USE MODELING AND POLICY ANALYSIS**

**3 Lecture Hours · 0 Lab Hours**

Overview of transportation/land use with specific transportation models and simulation methods; topics include economic theory of travel demand, land use models, UTPS framework for travel demand estimation, disaggregated travel demand models and abstract mode models.

### **CIRP5310 – PLANNING, URBAN DEVELOPMENT AND STRUCTURE**

**3 Lecture Hours · 0 Lab Hours**

Overview of functional areas of planning (e.g., urban design, housing, transportation, etc.); fundamentals of urban structure and development of cities and regions including environmental, social, economic, and political factors and issues affecting urban settlements; global dimensions of planning.

### **CIRP5311 – ELEMENTS OF URBAN DESIGN**

**3 Lecture Hours · 0 Lab Hours**

Study of contemporary urban form and environmental design, emphasizing visual-spatial qualities, social needs and economic linkages. Examination of processes, methods and techniques for solving urban design problems.

### **CIRP5312 – STRATEGIC PLANNING, POLICY AND MANAGEMENT**

**3 Lecture Hours · 0 Lab Hours**

Readings and case studies of strategic planning and management in the public and non-profit sectors; application of principles to an actual situation, involving stakeholder identification, environmental scanning, and formulation of mission statements, goals, and strategies. Offered as CIRP 5312 and URPA 5357. Credit will be granted only once.

### **CIRP5313 – URBAN GROWTH POLICIES**

**3 Lecture Hours · 0 Lab Hours**

Study of the political, societal and physical policies involved in urban growth management.

### **CIRP5315 – TRANSPORTATION POLICIES, PROGRAMS AND HISTORY**

**3 Lecture Hours · 0 Lab Hours**

Transportation and related programs and policies in relation to city development and housing patterns. Interdependencies of land use, building development, and social change are explained as transportation-

related.

### **CIRP5316 – LAND USE PLANNING AND THE LAW**

**3** Lecture Hours · **0** Lab Hours

Explores the law of land use in the context of the American legal, economic, and political systems. Examines leading court decisions and precedents for their background, content, and applicability to contemporary land use. Offered as CIRP 5316 and URPA 5331. Credit will be granted only once.

### **CIRP5317 – INTERMEDIATE DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An intermediate level examination of statistical and research techniques appropriate to urban and social analysis. Presuming a basic understanding of descriptive and inferential statistics, the course covers multivariate regression, including error analysis and non-linear models, path analysis, Analysis Of Variance (ANOVA), logit and probit models, and techniques for data reduction (e.g., factor analysis). Prerequisite: URPA 5302. Offered as URPA 5342 and CIRP 5317; credit will be granted only once.

### **CIRP5318 – TECHNIQUES OF PLANNING ANALYSIS I**

**3** Lecture Hours · **0** Lab Hours

Introduction to analytical techniques used in urban and regional planning. Topics include: census data and geography and introduction to GIS, demographic analysis, cost-benefit analysis, economic base analysis, gravity models, and displaying and communicating data analysis and results in graphic, written, and oral forms.

### **CIRP5319 – AGENCIES OF PLANNING AND ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Contemporary managerial functions involved in running public, private, or non-profit organizations: goal setting, planning, organizing, delegating and motivating others, personal productivity and motivation, time and stress management, controlling, and project management.

### **CIRP5320 – DATABASE MANAGEMENT FOR URBAN PLANNING AND ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Concepts and computer applications of data management. Topics include data sources, data models, database design, data query, data analysis, and database management techniques for urban planning, management and administration. Credit will be given only once.

### **CIRP5321 – VISUAL BASIC AND GIS**

**3** Lecture Hours · **0** Lab Hours

Provides an introduction to the techniques and applications of computer graphics and mapping for presenting socioeconomic information in graphic and spatial form.

### **CIRP5322 – ECONOMIC DEVELOPMENT PLANNING AND POLICY**

**3** Lecture Hours · **0** Lab Hours

Introductory seminar in subnational economic development programs in the U.S. Covers basics of location theory, economic planning, budgeting, incentives, public and private revenue sources, analysis methods such as central place and economic base, intergovernmental efforts, redevelopment, high tech, trade and/or tourism.

### **CIRP5323 – HISTORIC PRESERVATION**

**3** Lecture Hours · **0** Lab Hours

Covers elements of historic designation, rehabilitation, financial incentives, district regulations, and preservation impacts.

## **CIRP5324 – COMMUNITY DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Focuses on current problems of community development and neighborhood revitalization. Housing, community assets, the roles of community development corporations and social capital in cities, and community economic development will be analyzed. Federal, state, and local policies, with grassroots initiatives evaluated for effectiveness on promoting alternatives for community building and organizing. Also offered as URPA 5313; credit will be granted only once.

## **CIRP5325 – PHYSICAL PLANNING AND URBAN DESIGN**

**3** Lecture Hours · **0** Lab Hours

Introduction to basic concepts in urban design and physical planning. Provides an understanding of how built environments evolve, and how they can be creatively planned and designed so as to meet social and ecological goals. Special attention to principles and analyses related to the physical planning of neighborhoods and streets, as well as patterns of urban form and public places.

## **CIRP5326 – CULTURAL PLANNING AND URBAN DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

This course examines 1) the composition of the creative economy in cities around the world, 2) arts, culture, and creative economy planning and policy efforts at the neighborhood, city, and regional levels, and 3) the social, spatial and political ramifications of these efforts and of the creative economy broadly.

## **CIRP5327 – INTRODUCTION TO GREEN CITIES AND TRANSPORTATION**

**3** Lecture Hours · **0** Lab Hours

Introduction to concepts of green cities and transportation, environmental and transportation challenges, and school of thoughts on causes of environmental and transportation problems, with emphasis on planning practices and policies in relation to environmental and transportation issues and roles of planners in shaping urban landscape and infrastructure.

## **CIRP5328 – PUBLIC BUDGETING**

**3** Lecture Hours · **0** Lab Hours

This course introduces students to the principles and practices used by federal, state, and local governments to acquire and spend revenues within the context of American democracy, capitalism, federalism, and economics. The primary objective of this course is to provide students with the practical skills and theoretical knowledge to enable them to be effective participants in the budgeting process and critical consumers and producers of research relevant to public budgeting. Offered as CIRP 5328 and URPA 5326. Credit will be granted only once.

## **CIRP5329 – PUBLIC CAPITAL BUDGETING**

**3** Lecture Hours · **0** Lab Hours

Examines governmental capital budgeting processes with a focus on understanding the significance of capital improvement planning, public facility investment, and project evaluation to sound infrastructure financing and regional economic growth. Governments purchase or construct long-lasting physical assets or facilities financed mostly through borrowing. This course aims to understand the rationale for public capital budgeting and debt instruments used to finance capital investment in the political context of public budgeting in America. Offered as URPA 5332 and CIRP 5329; credit will be granted only once.

## **CIRP5330 – TECHNIQUES OF PLANNING ANALYSIS II**

**3** Lecture Hours · **0** Lab Hours

Introduction to research methods, both quantitative and qualitative and mixed methods. Relating planning problem identification and definition with appropriate method of data gathering and analysis. Analysis and interpretation of qualitative and quantitative data including interview and small group techniques, and basic statistical analysis. Communication of analysis results in graphic, written, and oral forms.

## **CIRP5331 – GIS WORKSHOP**

**3** Lecture Hours · **0** Lab Hours

Skills, practical experience, problem-solving methods and techniques in geographic information systems. Capstone course for GIS Certificate Program; substitutes for one Project Planning Course.

### **CIRP5332 – PROJECT STUDIO**

**0** Lecture Hours · **3** Lab Hours

Studio course working on applied city and regional planning projects within the Dallas-Fort Worth area or elsewhere. Provides students with practical experience in collaborative teamwork and the application of skills, methods, and techniques in city and regional planning, including citizen participation, problem analysis, mapping, design, presentation, working with clients, and applied planning process. Should be taken in the second half of the student's program of study, with exceptions for those with applied planning experience. May be repeated as topic changes.

### **CIRP5340 – GIS AND SUITABILITY ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Acquaints students with theoretical and practical aspects of suitability analysis process or activity allocation on land use/environmental policies. Uses Geographic Information System (GIS) and computer models for overlaying map analysis, buffering, market demand and activity locations, etc. to incorporate environmental and ecological factors into the determination of land development potential including soils, slope, drainage, vegetation, and related factors.

### **CIRP5341 – ENVIRONMENTAL REGULATIONS: LAWS AND PLANNING**

**3** Lecture Hours · **0** Lab Hours

Federal, state, and local environmental regulations which have effect on the practice of city and regional planning. Specific articles, laws, and directives contrasted and compared to local city design and development controls. Subjects include CERCLA, RCRA, SARA, TSCA, OSH Act, among others.

### **CIRP5342 – ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Focuses on the physical environmental dimensions of urbanization including such factors as pollution, waste disposal, and land use; stresses the role of economic, social, and political institutions as these affect environmental quality of the city. Offered as CIRP 5342 and URPA 5317; credit will be granted only once.

### **CIRP5343 – FOUNDATIONS OF ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Explores how environmental controversy is rooted in conflict between a number of schools of environmental policy thought with divergent perspectives on issues such as how to define progress, how to balance the needs of economy and ecosystem, how to cope with environmental complexity, and what role science should play in environment affairs. Also offered as URPA 5365; credit will be granted only once.

### **CIRP5344 – HUMAN SERVICES PLANNING**

**3** Lecture Hours · **0** Lab Hours

Social welfare institutions: private and public; needs assessment, resource allocation, procedures, city/state/federal/private policy review; highlights of current system demands and changes. Also offered as URPA 5316.

### **CIRP5345 – PLANNING AND REAL ESTATE DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

The goals, strategies, methods, and achievements of major participants in the urban land and building markets are examined. Land owners, speculators, real estate brokers, developers, bankers, lawyers, non-profit builders, and government agencies are studied, as well as such business tools as: market and feasibility analysis, appraisal techniques, proforma analysis, and others.

### **CIRP5346 – QUALITATIVE METHODS**

**3** Lecture Hours · **0** Lab Hours

The study of qualitative research and analysis methods. Offered as CIRP 5346 and URPA 5344; credit will be given only once.

### **CIRP5347 – URBAN PROBLEMS**

**3** Lecture Hours · **0** Lab Hours

Specific urban problems examined in depth, traced to their historical origins to see how they or similar problems have been dealt with in other times and places. Students will then propose possible solutions to the problems in their contemporary form. Offered as CIRP 5347 and URPA 5319.

### **CIRP5350 – ENVIRONMENTAL PLANNING**

**3** Lecture Hours · **0** Lab Hours

Overview of environmental planning issues and problems, including basic ecological principles; development and effects of the chemical industry; policies on international issues; environmental justice and ethics; environmental economics, including externalities and public goods; sustainable development; overviews of planning for air quality, water quality, solid waste, pollution prevention, habitat conservation, etc.; and plan implementation, including enforcement, regulation and funding.

### **CIRP5351 – TECHNIQUES OF ENVIRONMENTAL ASSESSMENT**

**3** Lecture Hours · **0** Lab Hours

Analysis of impact assessment documents from a variety of projects; study of federal laws and regulations governing the process; state impact assessment laws and regulations; and procedures used in other nations. Students will prepare an environmental assessment for a real-world project. Overviews of environmental site assessment, MIS documents, and environmental auditing will also be given.

### **CIRP5352 – ENVIRONMENT ASSESSMENT POLICY & PRACTICE**

**3** Lecture Hours · **0** Lab Hours

Review and analysis of the development of the environmental assessment process with focus on expectations of how environmental assessment will be transformed in the era of climate change. Students evaluate the effects of new laws and regulations and the accelerated growth of environmental policy development at all levels of government, especially among urban areas. The course includes review of selected environmental assessment documents and project case studies.

### **CIRP5353 – ENVIRONMENTAL LAW**

**3** Lecture Hours · **0** Lab Hours

This seminar examines the role of environmental law within the political-institutional framework of the American system. Emphasis is on the legal-judicial aspects of environmental regulation. Analyzes the decision of U.S. courts as these affect and interpret environmental laws and regulations for their legality and constitutionality.

### **CIRP5354 – HOUSING PLANNING, POLICY AND FINANCE**

**3** Lecture Hours · **0** Lab Hours

Evaluation of the effect of state, local, and federal housing policy on the urban arena. Topics will be selected from federal subsidy programs, tax subsidies, operations of financial intermediaries, and related areas.

### **CIRP5356 – INTRODUCTION TO GEOGRAPHIC INFORMATION SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Introduction to GIS and the application of computer graphics systems in the storage, processing, and retrieval of geographic urban and regional information; case examples and related projects and issues of system management.

### **CIRP5357 – INTERMEDIATE GEOGRAPHIC INFORMATION SYSTEMS**

**3** Lecture Hours · **0** Lab Hours

Applications of GIS to typical urban and regional geographic information problems and projects.

### **CIRP5358 – INTELLIGENT TRANSPORTATION SYSTEMS (ITS) AND PLANNING**

**3** Lecture Hours · **0** Lab Hours

Concepts, components, deployments, and implementations of ITS; methods for ITS evaluations; linkage between ITS and traditional transportation planning; and issues related to ITS planning and deployment.

### **CIRP5360 – COMPUTER METHODS FOR TRANSPORTATION PLANNING**

**3** Lecture Hours · **0** Lab Hours

Applications of computer software (for example, TransCad, Tranplan) in transportation planning modeling. Theories of residential location choice and travel behavior. Topics may include land-use and travel demand models, trip distribution models, mode choice models, and network equilibrium.

### **CIRP5361 – PLANNING INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

Intended to enhance readiness for professional work through exposure to planning practice in a one semester log internship (300 hrs in the spring or fall semester or 275 hrs in the summer). Integrates work experience and coursework through journaling and reflective practice. Requirements: (1) student secures an internship from a planning related employer and approval from the student's major professor prior to enrolling in the course; (2) the intern must provide performance evaluation by the job supervisor and the intern's evaluation of the internship experience. Enrollment open to students with no previous formal planning experience. Credit not available for previous internship or planning experience. P/F grade.

### **CIRP5362 – URBAN DIVERSITY**

**3** Lecture Hours · **0** Lab Hours

Examines the growing spatial and social diversity of cities; how physical as well as socioeconomic urban structures have fostered race, class, and gender inequalities; how urban policies have addressed and can address these issues. Offered as CIRP 5362 and URPA 5362.

### **CIRP5363 – LEADERSHIP AND COMMUNICATION SKILLS IN THE PLANNING PROCESS**

**3** Lecture Hours · **0** Lab Hours

Governance and participation, comprehensive planning and the community planning process, participatory planning, and practical communication skills for planners and administrators: leadership and public meetings, participative decision making, interpersonal communications and conflict management, effective writing and presentations.

### **CIRP5364 – ECONOMIC BASE AND INDUSTRIAL DEVELOPMENT POLICY**

**3** Lecture Hours · **0** Lab Hours

Theories and methods of local and regional economic base analyses; techniques for inventorying strengths, weaknesses, opportunities and threats of local capital, labor and land resources; alternative policy responses to industrial development issues arising from economic base analysis.

### **CIRP5380 – RESEARCH QUESTIONS IN PLANNING**

**3** Lecture Hours · **0** Lab Hours

Application of research issues, writing, and communication skills in planning. Designed to assist students in preparing their research for master's thesis or professional report.

### **CIRP5391 – CONFERENCE COURSE**

**3** Lecture Hours · **0** Lab Hours

Special subjects and issues as arranged by individual students and faculty members. May be repeated for credit.

### **CIRP5395 – SPECIAL TOPICS IN PLANNING**

3 Lecture Hours · 0 Lab Hours

Selected topics in City and Regional Planning. May be repeated for credit.

### **CIRP5397 – PROFESSIONAL REPORT**

3 Lecture Hours · 0 Lab Hours

Preparation of final professional report as a thesis substitute for MCRP degree. Required of all thesis substitute students not enrolled in CIRP 5193.

### **CIRP5398 – PLANNING THESIS**

3 Lecture Hours · 0 Lab Hours

Graded F/R.

### **CIRP5698 – PLANNING THESIS**

6 Lecture Hours · 0 Lab Hours

Graded F/R.

### **CIRP5998 – PLANNING THESIS**

9 Lecture Hours · 0 Lab Hours

Graded P/F/R.

### **CIRP6301 – THEORETICAL FOUNDATIONS AND PH.D. WORKSHOP**

3 Lecture Hours · 0 Lab Hours

Explores the development and function of theoretical models and frameworks. Examines the major theories from the social sciences designed for framing issues in urban planning, administration, and public policy. Designed to assist doctoral students in preparing their research for dissertation. Opportunities to present work in progress, share ideas, and interact with faculty. Prerequisite: CIRP 5317/URPA 5342, and CIRP 5346/URPA 5344. Offered as CIRP 6301 and URPA 6301; credit will be granted only once.

### **CIRP6305 – SEMINAR IN URBAN PLANNING PROCESSES**

3 Lecture Hours · 0 Lab Hours

Final course in urban planning field. Focus on the various political, economic, and social institutions and theoretical approaches in the planning process, and application of these multidisciplinary perspectives in the analysis of specific planning issues.

### **CIRP6346 – ADVANCED DATA ANALYSIS**

3 Lecture Hours · 0 Lab Hours

An introduction to selected advanced techniques related to planning analysis. Subjects include advanced applied regression analysis, multivariate logit analysis, and multinomial logistic regression. Applications of projection techniques, land use and transportation models, and methods of regional analysis. Offered as CIRP 6346 and URPA 6346. Credit will be given only once.

## **UPPP Courses**

### **UPPP6399 – DISSERTATION**

3 Lecture Hours · 0 Lab Hours

Graded R/F only.

### **UPPP6699 – DISSERTATION**

**6** Lecture Hours · **0** Lab Hours

Graded R/F/P/W only.

### **UPPP6999 – DISSERTATION**

**9** Lecture Hours · **0** Lab Hours

Graded P/F/R.

### **UPPP7399 – DOCTORAL DEGREE COMPLETION**

**3** Lecture Hours · **0** Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

#### General

Public Administration is concerned with the formulation, analysis, negotiation, and implementation of democratically responsible collective action. With an interdisciplinary focus, this program gives special emphasis to the urban community and the special challenges of public managers who serve in urban areas. The curriculum is designed to develop leadership capacity, understanding of the political, social, and economic characteristics of today's urban environment and the ability to apply current theories of management and analysis to difficult management issues. The program is meant as preparation for those entering management careers in government for the first time or as career development for those already employed who are seeking upward mobility in public management.

The MPA degree at the School of Urban and Public Affairs is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA), and the curriculum conforms to NASPAA standards.

Those seeking admission to the MPA program can choose between two program options: 1) courses taught on campus primarily during the evening hours; and 2) courses taught online. Applicants who choose the on-campus option may plan their courses to include the requirements of certificate programs such as Urban Nonprofit Management or Public Budgeting and Financial Management. A description of the various certificate offerings can be found in the Urban and Public Affairs section of the catalogue.

A hallmark of the MPA program is its distinguished faculty that combines extensive academic and

field experience in public administration with a wide range of related backgrounds. Augmenting the permanent faculty are several adjunct professors with impressive credentials in the public management field such as Bob Hart, City Manager of Kennedale, Texas; Richard Greene, Regional Director of EPA and former Mayor of Arlington, Texas.

## Mission

The mission of the Master's of Public Administration program is to strengthen public decision making and the delivery of public services in a globalized and diverse society by educating students to lead and manage organizations at all levels of government and nonprofit institutions ethically, democratically, and effectively.

## Goals and Objectives

- Goal 1: To educate students in the areas of public policy, administrative practices, research methods, and those analytical skills necessary for successful professional careers in the public and nonprofit sectors.

Objective 1: Demonstrate knowledge, skills, and competencies taught in the degree's core and respective emphasis area courses including proficiency in:

1. researching, analyzing, and writing reports on topics related to public sector work
2. effective written and oral communication skills
3. critical thinking skills in analyzing and solving problems
4. teambuilding skills and effective teamwork in managing projects

- Goal 2: To provide opportunities for students to apply current theories of public administration, particularly decision making, helping them to master their work responsibilities as administrators and preparing them for exemplary leadership and management positions in an increasingly complex urban environment.

Objective 2: Demonstrate knowledge, skills, and competencies characteristic of public leaders including proficiency in:

1. understanding the economic, legal, social, and political context of public administration and the policymaking process
2. incorporating public values into decisions
3. incorporating an ethical commitment in carrying out the public trust
4. interacting productively with a diverse and changing workforce and citizenry

- Goal 3: To instruct students in the effective use of information technology resources and internet collaborative tools enabling them to apply those skills in order to strengthen their public service and public decision-making capabilities.

Objective 3: Demonstrate adequate skills in the use of social networking tools and other Internet-based technology to manage projects and organizational resources including proficiency in:

1. using the Internet to conduct information searches and using appropriate computer applications for data collection, presentation, and analysis
2. using Internet-based applications to facilitate course related discussion and project management

- Goal 4: To encourage and support research and scholarship by both faculty and students, as well as the presentation of that work at appropriate national and international conferences and in the publication of that research in refereed scholarly journals and prominent professional journals.

Objective 4: Demonstrate research skills and professional service engagement including proficiency in:

1. publishing scholarly and applied research relevant to public and nonprofit organizations
2. engaging in professional and community service leading to the advancement of

public values, the profession, and the socialization of the next generation of public leaders

## Factors considered for admission to the MPA program

Factors in admission decisions are the same for the on campus and online programs.

The MPA program takes a holistic approach to the application review process. Each applicant's file is reviewed individually with equal consideration given to the quantitative and qualitative aspects of the student's records. A complete application includes:

- Graduate Record Exam (GRE) score: Writing (Exceptions: Outstanding UT Arlington graduates may qualify for GRE waiver providing they meet certain requirements)
- Undergraduate Grade Point Average (GPA): The undergraduate GPA based on the last 60 hours of course work as calculated by the Graduate School from the official transcript.
- Graduate Record Exam (GRE) scores: Verbal and Quantitative (Exceptions: Outstanding UT Arlington graduates may qualify for GRE waiver providing they meet certain requirements)
- Letters of Recommendation attesting to the applicant's potential to do Master's-level work and complete the program. Letters for Master's programs should be from professors or supervisors at work.
- Essay by applicant approximately one double-spaced page in length (approximately 250 words). The Essay is considered both for its content and quality of writing. The Essay should address the following questions: 1. Why do you want to earn a Master's degree in the program for which you are applying? 2. What relevant background and experience do you bring to the program? The essay can also include other concerns you'd like to bring to the attention of the Graduate Advisor or Master's Admissions Committee.
- Non-native English speakers only: TOEFL or IELTS scores (Exceptions: An applicant holding either a Bachelor's or a Master's degree from a regionally accredited U.S. college or university is not required to submit a TOEFL, TOEFL iBT, or IELTS score for admission purposes.)

## Types of Admission

### 1. Unconditional Admission:

Applicants who meet all the following requirements will be considered for unconditional admission:

- a. Minimum Writing GRE score of 4.0
- b. Minimum Undergraduate GPA of 3.0
- c. A preferred minimum Verbal GRE score of 450 (Revised GRE Test: 150), and minimum Quantitative GRE of 450 (Revised GRE Test: 141), and a minimum combined Verbal and Quantitative score of 1,000 (Revised GRE Test Combined: 291)
- d. Outstanding letters of recommendation
- e. Strong, well-written personal essay
- f. Non-native English speakers only: TOEFL scores of at least 550 (paper-based), 213 (computer-based), or 79 (iBT) with sectional scores that meet or exceed 22 Writing, 21 Speaking, 20 Reading, and 16 Listening; or, IELTS score of at least 6.5.

### 2. Probationary Admission:

Applicants who do not meet all requirements for Unconditional admission will be considered for Probationary admission on the basis of the strength of all the listed admission factors. Test scores will not constitute the sole or primary basis for ending consideration of an applicant. Under Probationary admission, special course requirements or other conditions may be imposed by the SUPA Master's Admissions Committee. Applicants who meet all the standards for Unconditional admission except for deficiency in Writing GRE score will be considered for Probationary Admission conditional on

completing an approved Writing course in their first semester.

**3. Other types of admission decisions pertaining to Master's applicants:**

- a. **Deferred:** Applicants who are unable to supply required application materials, or who must complete additional preparatory work before their admissibility can be determined, may be deferred until records are complete.
- b. **Provisional:** Applicants who are unable to supply all required documentation prior to the admission deadline but who otherwise appear to meet admission requirements may be granted Provisional admission pending submission of complete and satisfactory credentials before the end of the semester in which they have registered in a Provisional status.
- c. **Denied:** Applicants who fail to meet more than one of the admission requirements and for whom the SUPA Master's Admission Committee finds there is insufficient basis to justify any other kind of admission will be Denied admission. As the admission process is competitive, applicants meeting basic admission requirements who are less well qualified than other applicants may also be denied admission

### Scholarship/Fellowship Criteria

- Graduate students with a GPA of 3.0 or better who are enrolled in six hours or more are eligible to apply for competitive scholarships and fellowships.
- Scholarships and fellowships for Master's and Doctoral students will be competitively awarded based on consideration of the all admission criteria assessed by their admitting programs.

### SUPA Inadequate Academic Progress Point System

A student may be subject to dismissal from the program if they accumulate 4 deficiency points during their Master's degree or their Ph.D. Students who complete a Master's degree at SUPA will not carry deficiency points into their Ph.D. work. Deficiency points may not be removed from a student's record by repeating a course or additional coursework.

- D = 2 deficiency points
- F = 3 deficiency points
- I = 1 deficiency point
- W = 0.5 deficiency point

### On Campus Degree Requirements and Courses

The on campus program consists of 39 or 42 total hours, which includes 10 required core courses and 9 hours in a selected emphasis area (2 required emphasis area courses and 1 elective). URPA 5360 is a 3 credit hour internship course; however this can be waived with at least 1 year of professional experience working in the public sector. Details on internship waiver requests are available on the MPA program website.

Upon successfully being admitted into the MPA program, students will choose an emphasis area and degree plan. Most all classes are offered as one session per week on Monday through Thursday during evening times (6:00-8:50pm or 7-9:50pm).

#### I. Core Courses (30 hours)

- URPA 5302 Foundations of Urban Research and Analysis
- URPA 5309 Intergovernmental Relations
- URPA 5320 Public Organization Theory
- URPA 5326 Public Budgeting
- URPA 5329 Financial Management in the Public and Non-Profit Sectors
- URPA 5345 Evaluation Research
- URPA 5350 Public Administration
- URPA 5351 Public Human Resources
- URPA 5358 Ethics in the Public Service

## URPA 5399 Public Administration Capstone

### II. Emphasis Areas (9 hours)

Students select an emphasis area and take a total of three courses: two required courses plus one elective from the respective list or any other course with the approval of the MPA advisor.

#### Emphasis Area 1: International Administration and Development

Objectives-upon completion of this emphasis track, students should be able to:

1. Demonstrate comprehension of the multidisciplinary concepts and theories of comparative administration, urbanism and politics with emphasis on globalization, urban and regional development, public bureaucracy, traditional and economic elites, modernization, and analyze the role, policies and organization of regional and multinational organizations.
2. Prepare and present a major comparative, scholarly study on a prominent policy or topical issue.

#### Required courses:

CIRP 5307 Urbanization in the Developing World  
URPA 5327 Comparative Administration and Development

#### Elective courses (select one):

PAD 5361 Political Economy of Borders  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA 5352 Conflict Resolution in the Public and Nonprofit Sectors  
URPA 5391 Comparative Public Policy-Study Abroad  
URPA 5392 Urbanization and Development-Study Abroad  
URPA 6349 Decision Making and Public Policy Analysis

#### Emphasis Area 2: Public Budgeting and Financial Management

Objectives-upon completion of this emphasis track, students should be able to:

1. Review, recommend, and interpret operating and capital budget requests taking political, economic, and decision-making processes into account; and
2. Assist the budget officer and other higher-level public officials in performing comprehensive financial analyses and developing financial and budgetary recommendations.

#### Required courses:

URPA 5332 Public Capital Budgeting and Planning  
URPA 5348 Cost-Benefit Analysis

#### Elective courses (select one):

URPA 5312 Economic Policy  
URPA 5321 Urban Management  
URPA 5324 Urban Public Finance  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA 5357 (CIRP 5312) Strategic Planning and Performance Management  
URPA 5333 Governmental and Nonprofit Accounting  
URPA 6349 Decision Making and Public Policy Analysis (**NEW**)

#### Emphasis Area 3: Urban Management

Objectives-upon completion of this emphasis track, students should be able to:

1. Demonstrate proficiency in the use of applied analytic tools such as program evaluation,

policy analysis, cost-benefit analysis, and other management decision-making tools to aid the public manager make more informed decisions;

2. Assist public managers and other higher-level public officials to understand, analyze, and recommend appropriate solutions to complex public policy issues.

**Required courses:**

URPA 5321 Urban Management  
URPA 5357 (CIRP 5312) Strategic Planning and Performance Management

**Elective courses (select one):**

URPA 5304 Urban Politics  
URPA 5312 Economic Policy  
URPA 5323 Public Organizational Change  
URPA 5324 Urban Public Finance  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA 5348 Cost-Benefit Analysis  
URPA 5352 Conflict Resolution in the Public and Nonprofit Sectors  
URPA 5367 Strategic Public and Nonprofit Human Resources Management  
URPA 5368 Practical Employment Law for Public and Nonprofit Managers  
URPA 6349 Decision Making and Public Policy Analysis

**Emphasis Area 4: Urban Nonprofit Agency Management**

Objectives-upon completion of this emphasis track, students should be able to:

1. Understand the different management areas and techniques within the nonprofit organization, including institutional management, leadership, fund-raising, financial administration, human resources coordination, and planning and performance measurements.
2. Understand the role of nonprofits as community institutions with an outward focus, including the political, economic, and inter-organizational environment, as well as marketing, legal, and government policy issues.

**Required courses:**

URPA 5354 Management of Nonprofit Organizations  
URPA 5355 Nonprofit Institutions

**Elective courses (select one):**

URPA 5313 Community Development  
URPA 5318 Social Welfare Policy  
URPA 5321 Urban Management  
URPA 5330 Community and Neighborhood Organization  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA (CIRP 5312) Strategic Planning and Performance Management  
URPA 5348 Cost-Benefit Analysis  
URPA 5352 Conflict Resolution in the Public and Nonprofit Sectors  
URPA 5367 Strategic Public and Nonprofit Human Resources Management  
URPA 5368 Practical Employment Law for Public and Nonprofit Managers  
URPA 6349 Decision Making and Public Policy Analysis

**Emphasis Area 5: Strategic Human Resources Management**

Objectives-upon completion of this emphasis track, students should be able to:

1. Demonstrate an understanding of public human resource policies, programs, procedures, and legal issues relevant to the field; and

2. Demonstrate knowledge of techniques employed in designing performance appraisals, recruiting and selecting employees, and developing rewards systems.

**Required courses:**

URPA 5352 Conflict Resolution in the Public and Nonprofit Sectors  
URPA 5367 Strategic Public and Nonprofit Human Resources Management

**Elective courses: (select one)**

URPA 5321 Urban Management  
URPA 5323 Public Organizational Change  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA 5357 (CIRP 5312) Strategic Planning and Performance Management  
URPA 5368 Practical Employment Law for Public and Nonprofit Managers  
URPA 6349 Decision Making and Public Policy Analysis

**Emphasis Area 6: Economic Development and Planning**

Objectives-upon completion of this emphasis track, students should be able to:

1. Demonstrate a general comprehension of the politics, organization, policy issues and legal and financial dimensions of local economic development; and
2. Demonstrate knowledge of techniques employed in location and impact analysis, strategic planning, revenue generation, marketing, cluster development, site planning, and business recruitment, development and retention.

**Required courses:**

URPA 5334 Managing Economic Development  
URPA 5357 (CIRP 5312) Strategic Planning and Performance Management

**Elective courses (select one):**

URPA 5306 The Urban Economy  
URPA 5312 Economic Policy  
URPA 5321 Urban Management  
CIRP 5322 Economic Development Planning and Policy  
URPA 5341 Professional Report Writing  
URPA 5342 (CIRP 5317) Strategies for Urban Research  
URPA 5348 Cost-Benefit Analysis  
URPA 6349 Decision Making and Public Policy Analysis

**III. Internship (3 hours)**

URPA 5360 Urban Management/Planning Internship for students with less than one year of appropriate work experience.

**Online Degree Requirements and Courses**

The online program consists of 39 required core hours plus a 3 hour internship. Internships may be waived under the same conditions as the on campus program. Students may choose between URPA 5332 and 5352 but all other courses are required.

The program is designed for students to take two courses a term (Fall, Spring, Summer) in succession (one course in first half of term, another in second half of term) though it is possible to take additional courses. The curriculum is offered in a lockstep cohort format. Unlike the on campus program, there are no emphasis areas.

**I. Core Course (39 hours)**

URPA 5302 Foundations of Urban Research and Analysis

URPA 5309 Intergovernmental Relations  
URPA 5320 Public Organization Theory  
URPA 5326 Public Budgeting  
URPA 5329 Financial Management in the Public and Nonprofit Sectors  
URPA 5332 Public Capital Budgeting  
URPA 5345 Evaluation Research  
URPA 5350 Public Administration  
URPA 5351 Public Human Resources  
URPA 5352 Conflict Resolution in the Public and Nonprofit Sectors  
URPA 5355 Nonprofit Institutions  
URPA 5358 Ethics in the Public Service  
URPA 5368 Practical Employment Law for Public and Nonprofit Managers  
URPA 5399 Public Administration Capstone

## II. Internship (3 hours)

URPA 5360 Urban Management/Planning Internship for students with less than one year of appropriate work experience.

## Dual Degree Programs

Students in public administration may participate in one of five dual degree programs whereby they can earn a Master of Public Administration and 1) Master of Arts in Urban Affairs 2) a Master of City and Regional Planning, 3) a Master of Science in Social Work, 4) a Master of Science in Nursing, 5) a Master of Arts in Criminal Justice, or 6) a Master's of Sociology. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from nine to 18 hours, subject to the approval of Graduate Advisors from both programs. To participate in the dual degree program, students must make separate application to each program and must submit a separate Program of Work for each degree. Those interested in the dual degree program should consult the appropriate Graduate Advisor(s) for further information on course requirements. See also the statement of Dual Degree Programs in the general information section of this catalog.

## Certificate in Urban Nonprofit Management

The Urban Nonprofit Management Certificate provides in-depth management training to nonprofit managers, staff, board members and volunteers to strengthen their management skills, administrative systems, and service delivery programs.

Students from any department or discipline may elect to complete the certificate program. Upon completion, students will be prepared to assume key roles in any nonprofit institution.

The certificate requires completion of URPA 5354 (Management of Nonprofit Organizations) and URPA 5355 (Nonprofit Institutions) as well as three additional courses to be selected by the student with approval of the Urban Nonprofit Management certificate program advisor. Examples of courses that would be approved include: URPA 5303 The Metroplex; URPA 5329 Financial Management in the Public and Nonprofit Sector; URPA 5351 Personnel and Human Resources in the Public Sector; URPA 5392 Entrepreneurial Management; CIRP 5319 Agencies of Planning and Administration or CIRP 5312 Strategic Planning and Management; CIRP 5324 Community Development or CIRP 5306 Urban Development; SOCW 5307 Introduction to Human Services Administration; SOCW 5303 Foundations of Social Policy and Services; MARK 5311 Marketing; MARK 5345 Creative Problem Solving.

Students who are already enrolled in a graduate degree program at U.T. Arlington need only declare their intent to enroll by submitting the appropriate application form to Dr. Edith Barrett, the Urban Nonprofit Management Certificate Advisor. No prerequisite requirements are essential for these students.

Students who desire only to enroll in the Urban Nonprofit Management Certificate program but

NOT in a graduate degree program may apply for admission to UT Arlington as a special student or "non-degree seeking" student. An undergraduate degree and grade point average of 3.0 shall be required. A GRE (graduate record examination) score and letters of recommendation are not necessary for admission to the Urban Nonprofit Management Certificate program. Any student that later seeks a graduate degree in a UT Arlington college or school may apply nine hours of coursework toward that degree within six years of completion and award of the Urban Nonprofit Management Certificate and by petition to the Graduate School through her or his prospective academic department. The acceptance or waiver of the remaining six hours taken as part of the requirements for the award of the Urban Nonprofit Management Certificate is at the discretion of each department.

Graduate students in any degree program at UT Arlington may register for Urban Nonprofit Management courses using standard registration procedures. It should be noted that class slots in the two core courses would be reserved for all of those Urban Nonprofit Management Certificate program participants who are accepted. Urban Nonprofit Management program students who are enrolled in other academic schools or colleges must obtain written course approval from their respective graduate advisors.

Professionals who desire to enroll in any or both of the core courses for continuing education hours may do so as special students. If at a later date these students decide to apply for the Urban Nonprofit Management Certificate program, the hours already taken as continuing education will be applied (within six years of completion of the courses) to the certificate program requirements.

## **Graduate Certificate in Public Budgeting and Financial Management**

Sound fiscal management at all levels of government is essential for meeting the demands of an increasingly expensive and complex service-delivery need. The purpose of this graduate certificate is provide students interested in public sector affairs and local government officials (budgeters, planners, finance analysts, and elected officials) with the skills to enable them to effectively support local government financial decision-making. Participants should expect to attain a comprehensive understanding of public budgeting and financial management practices and theories including knowledge of the various government revenue sources, major expenditures, and borrowing mechanisms used to finance long-life capital assets.

Students wishing to enroll only in the Graduate Certificate in Public Budgeting and Financial Management (certificate) but NOT to a graduate degree program may apply for admission to UT Arlington as a non-degree seeking student. A Bachelor's degree with a GPA of 2.8 in the last 60 hours of undergraduate coursework is required for admission through the Graduate School. Students with GPAs lower than 2.8 may be recommended for admission by Alejandro Rodriguez, Ph.D., the Certificate Advisor, based on the following admission enhancing factors: (1) the applicant's work experience and level of responsibility; (2) undergraduate degree in economics, financial management, accounting, or other closely related field; and (3) two letters of recommendation.

Students already enrolled in a Master's degree program at UT Arlington may enroll by submitting the appropriate application form to the program manager and his or her academic graduate advisor. Students who have completed a Master's degree may apply for admission to UT Arlington as a non-degree seeking student. In either case, a minimum GPA of 3.0 in Master's degree work is required.

Participants must satisfactorily complete three required core courses and two elective courses from an approved list of elective courses, or by permission of the program advisor. Students shall be awarded the Graduate Certificate for Public Budgeting and Financial Management by the School of Urban and Public Affairs and the Graduate School upon satisfactory completion of the certificate requirements and a grade point average of 3.0.

### **Core Courses (Required)**

URPA 5326 Public Budgeting \*  
URPA 5332 Public Capital Budgeting\*  
URPA 5329 Financial Management in the Public and Nonprofit Sectors

### Elective Courses

Students must take two of the following:

URPA 5302 Fundamentals of Urban Research and Analysis  
URPA 5345 Evaluation Research  
URPA 5310 Urban Policy and the Law  
URPA 5312 Economic Policy  
URPA 5324 Urban Public Finance  
URPA 5306 The Urban Economy  
URPA 5333 Governmental and Nonprofit Accounting

Students who later seek graduate degrees at UT Arlington may apply 12 hours of certificate coursework within six years of completion and award of the certificate, with approval of the appropriate Graduate Studies Committee and the Dean of the Graduate School. Non-degree seeking students in the certificate program desiring to seek a degree must meet all admission requirements of the degree program.

### Public and Urban Administration Ph.D. Program (PUAD)

The PUAD Ph.D. has eight required core courses, three required research courses, and a minimum of 9 dissertation credit hours. The eight core courses address the social sciences and public administration literatures critical to the integrative approach of the program. The methods courses include an intermediate quantitative methods course, and a qualitative methods course. Students also enroll in URPA 6301 to guide them in preparing their dissertation proposal. Students select their supervising committee during their first year to help guide them through their comprehensive exams and begin working on their dissertation proposal.

A student can expect to complete the required courses in no more than two academic years. Upon completing the core courses, students sit for their written comprehensive examination. The comprehensive examination is an integrative exam that blends public policy issues with public administration.

Students who completed a Masters in Public Administration degree may be eligible to waive some coursework and are encouraged to meet with the PUAD advisor to review their degree plan.

### Application Requirements and Deadlines

Along with the Graduate School application requirements, a complete application includes:

1. Official transcripts from colleges and universities attended. Students that obtained their masters degree at UT Arlington are not required to submit separate copies of transcripts as their information will be available to the SUPA advisors online. Information about submitting transcripts is available in the Graduate Catalog; and
2. Official test score reports for the Graduate Record Exam (GRE) and, for international applicants, the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Information about submitting official test scores is available from the Graduate Catalog. The ETS code for UTA is 6013; and
3. Three Letters of Recommendation. Letters should attest to the applicant's ability to do doctoral-level work and successfully complete the dissertation. Letters must be from references who hold a Ph.D. degree; and
4. An essay from the applicant that discusses the student's research agenda, identifies the faculty with whom the student will work, and states the reasons for pursuing a doctoral degree. The essay should be approximately 250 words. The essay is considered both for its content and writing quality.

Official transcripts and test scores must be sent directly to the Graduate School by the institution and ETS respectively. Letters of recommendation and personal essay should be sent directly to: PUAD Admissions Committee, SUPA Box 19588 , Arlington TX 76019 . It is the applicant's responsibility to ensure all application materials are received by February 1. Incomplete applications or applications received after the deadline will be deferred.

SUPA admits doctoral students for the Ph.D. in Urban and Public Administration for fall semester only. There are no spring and summer admissions for this degree.

Applicants that wish to be considered for graduate teaching assistant positions or other financial assistance, must submit their applications by their first week in January. Only complete applications (including GRE scores and letters) will be considered for financial assistance. Students must also complete a separate financial aid applications available on the SUPA website.

### **Admission Criteria**

Applicants may be admitted unconditionally with a graduate GPA of 3.6, a Verbal GRE score of at least 153 (500 if taken before August 1, 2011 and a Quantitative GRE score of at least 144 (500 if taken before August 1, 2011). International applicants are required to have a score of 213 or higher on the TOEFL (550 or higher on the written TOEFL; 79 or higher on TOEFL iBT). Strength of letters of recommendation and quality of personal statement and Master's degree field of study are also considered.

or

Applicants may be unconditionally admitted with a GPA above 3.7 if they earn scores of at least a 153 on the Verbal subtest (500 if taken before August 1, 2011) and 140 on the Quantitative subtest (400 if taken before August 1, 2011) or earn at least 144 (500 prior to August 1, 2011) on the Quantitative and 146 (400 prior to August 1, 2011) on the Verbal subtests.

Applicants not admitted unconditionally may be considered for admission on probation based on factors mentioned above as well as multilingual proficiency, first generation graduate student and applicant's community service experience. The doctoral admissions committee will set the probationary conditions.

The admissions committee may defer the admission decision when a component of the application is incomplete. It may also admit a student provisionally when an applicant is unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements.

### **SUPA Inadequate Academic Progress Point System**

A student may be subject to dismissal from the program if they accumulate 4 deficiency points during their Master's degree or their Ph.D. Students who complete a Master's degree at SUPA will not carry deficiency points into their Ph.D. work. Deficiency points may not be removed from a student's record by repeating a course or additional coursework.

- D = 2 deficiency points
- F = 3 deficiency points
- I = 1 deficiency point
- W = 0.5 deficiency point

If a Ph.D. student does not complete dissertation proposal within 2 years of passing comprehensive exam, they will accrue 2 deficiency points.

If a Ph.D. student does not complete all requirements for the Doctoral degree within five years after the student unconditionally passes the comprehensive examination, they will accrue 1 deficiency point per year beyond the five year mark.

### **Curriculum and Degree Requirements**

#### **Required Core Courses (24 hours):**

URPA 5304 Urban Politics or URPA 5309 Intergovernmental Relations  
URPA 5305 Theories of Urban Societies  
URPA 5306 The Urban Economy  
URPA 5311 Social Policy Formation  
URPA 6320 Advanced Organization Theory  
URPA 6315 Public Administration Theory  
URPA 6326 Public Budgeting and Finance  
URPA 6349 Decision Making and Policy

**Required Research Courses (9 hours):**

URPA 5342 Strategies in Urban Research/Intermediate Data Analysis  
CIRP 5346 Qualitative Research Methods.  
URPA 6301 Theoretical Foundations in Urban Affairs

**Comprehensive Exam and Dissertation**

Upon successful completion of the written comprehensive exam students form a three-member faculty committee and prepare their dissertation proposal. Given the research topic and preparedness of the student, the faculty committee may recommend that the student take additional courses that contribute to the student's dissertation. The student will defend a dissertation proposal before her/his committee.

Successful completion of the dissertation proposal advances the student to the status of candidacy (ABD). The student continues to work closely with her/his dissertation committee to the completion of the dissertation. SUPA holds graduation ceremonies in Fall and Spring and doctoral students can receive their hood at either event.

**Dissertation Proposal**

Upon successful completion of the written comprehensive examination, students will work in preparation of their dissertation proposal. This preparation may include independent study or structured courses and is guided by the student's Dissertation Committee. In the semester beginning the dissertation proposal, students are required to take URPA 6301 Theoretical Foundations and Ph.D. Workshop, which provides theoretical background and techniques to prepare the student for completing the dissertation proposal. Students must also work closely with their dissertation supervisor and committee to develop their dissertation proposal. A formal oral proposal defense must be held, and the proposal must be formally approved by the dissertation committee before the student may continue to complete the dissertation. Guidelines for the dissertation proposal are available in the Ph.D. Student Handbook.

**Dissertation**

The dissertation represents the culmination of the student's academic efforts and so is expected to demonstrate original and independent research activity and be a significant contribution to knowledge.

Upon the successful defense of their dissertation proposal, the student is required to submit an application to the UT Arlington's Institutional Review Board if their research involves human subjects. Detailed information on the application process is available at: [UTA's Human Subjects Research](#)

Doctoral students must enroll in a minimum of 3 dissertation hours (PUAD 6399) every long semester (Fall & Spring). The student must accumulate a minimum of nine dissertation hours to graduate. Once the student's committee has reviewed the completed dissertation and agree that the student is ready to defend, the student enrolls in PUAD 7399 in the term designated as their completion term. Students may designate only one term as the completion term. Doctoral students who do not graduate at the end of their completion term will receive a grade of R, W or F and must enroll in a minimum of 6 hours of dissertation research (6699 or 6999) every term until graduation.

The Graduate School offers Dissertation Seminars each semester and encourages all Dissertation students to attend.

The dissertation defense is a public oral examination open to all members (faculty, students and invited guests) of the University community. Questioning of the candidate will be directed by the student's dissertation committee. All members of the student's committee must be present at the defense. Although the defense is concerned primarily with the dissertation research and its interpretation, the examining committee may explore the student's knowledge of areas relevant to the core of the dissertation problem.

The dissertation defense may result in a decision that the candidate has 1) passed unconditionally; 2) passed conditionally with remedial work specified by the committee; 3) failed, with permission to be re-examined after a specified period; or 4) failed and dismissed from the program. The dissertation must be approved unanimously by the student's dissertation supervising committee and by the Dean of Graduate Studies.

## URPA Courses

### URPA5300 – FOUNDATION OF URBAN THEORY

3 Lecture Hours · 0 Lab Hours

Social theories that explain the life cycle of urban communities as they develop, expand, and are sustained or decay are presented and contrasted. Special consideration is given to role of social policy. Topics such as poverty, race, neighborhoods, and environment are addressed.

### URPA5301 – FOUNDATIONS OF URBAN POLITICS AND ECONOMICS

3 Lecture Hours · 0 Lab Hours

Examines the major political and economic institutions and processes in urban communities and their effect on urban policy.

### URPA5302 – FOUNDATIONS OF URBAN RESEARCH AND ANALYSIS

3 Lecture Hours · 0 Lab Hours

An introduction to research methodologies, both quantitative and qualitative, and statistical techniques useful in the analysis of urban trends and administrative programs. Previously taught as SUPA 5302.

### URPA5303 – THE METROPLEX: SURVEY OF URBAN AFFAIRS, PLANNING, ADMINISTRATION:

3 Lecture Hours · 0 Lab Hours

The Metroplex provides an ideal laboratory for study with more than 100 cities and other governmental units, thousands of neighborhoods and business enterprises, major concentration of minorities and dozens of ethnic groups. An in-depth orientation on urban dynamics utilizing senior faculty members, governmental and community leaders, and current research reports and studies.

### URPA5304 – URBAN POLITICS

3 Lecture Hours · 0 Lab Hours

Examination of the city as a political system, including the impact of urbanization and fragmentation on policies; input dimensions, including voting patterns and interest group development; decision-making structures, especially types of community power structures and the impact of the reform movement on structural processes. Also offered as POLS 5305; credit will be granted only once.

### URPA5305 – THEORIES OF URBAN SOCIETY

3 Lecture Hours · 0 Lab Hours

Several theoretical perspectives of the community and community organization examined. Special emphasis given to theories from human ecology, organization and stratification, and social welfare.

### **URPA5306 – THE URBAN ECONOMY**

**3** Lecture Hours · **0** Lab Hours

Internal dynamics of the growth and development of the urban system and its relation to the national economy. National and urban economic policy, urban growth and land use, market imperfections, urban financial issues, and the environmental implications of urban growth studied through lecture, game simulation and policy debates.

### **URPA5307 – URBAN GEOGRAPHY**

**3** Lecture Hours · **0** Lab Hours

Emphasizes real aspects associated with urban physical environments and social, behavioral and financial processes that shape these environments.

### **URPA5308 – URBAN HISTORY**

**3** Lecture Hours · **0** Lab Hours

Extensive reading primarily in the history of the urbanization and metropolitanization of the people of the United States. Historical methods as exemplified in the works of leading historians and analyzed; examples of the scholarship of selected historians and treatises on selected cities, regions, and urban institutions studied.

### **URPA5309 – INTERGOVERNMENTAL RELATIONS**

**3** Lecture Hours · **0** Lab Hours

Critical analysis of the implications of federalism, and the changing nature of intergovernmental relations on state and local management, administration, planning, and policy making.

### **URPA5310 – URBAN POLICY AND THE LAW**

**3** Lecture Hours · **0** Lab Hours

Critical analysis of federal government and selected state and local government policies and programs designed to influence the course of change and the future development of cities and urban areas. The role of "private" governments in affecting policy explored.

### **URPA5311 – SOCIAL POLICY FORMATION**

**3** Lecture Hours · **0** Lab Hours

Utilization of a sociological approach in the study of policy formation in such areas as aging, social planning, and community problem solving.

### **URPA5312 – ECONOMIC POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines structure of the U.S. economic system and its impact on welfare of consumers, workers, and industry; public policy efforts to provide for management of critical economic variables are evaluated for effectiveness and equity as they impact different interest groups.

### **URPA5313 – COMMUNITY DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Focuses on current problems of community development and neighborhood revitalization. Housing, community assets, the roles of community development corporations and social capital in cities, and community economic development will be analyzed. Federal, state, and local policies, with grassroots initiatives evaluated for effectiveness on promoting alternatives for community building and organizing. Also offered as CIRP 5324; credit will be granted only once.

### **URPA5314 – HEALTH POLICY**

**3** Lecture Hours · **0** Lab Hours

Current health policy and programs, examination of historical development, economic and legal aspects,

interest groups and health constituencies.

### **URPA5315 – URBAN EDUCATION POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines current education policy and programs, including public school districts, charter schools, and vouchers; economic and political aspects; role of adult education programs in improving human capital.

### **URPA5316 – HUMAN SERVICES**

**3** Lecture Hours · **0** Lab Hours

Social welfare institutions: private and public; needs assessment, resource allocation, procedures, city/state/federal/private policy review; highlights of current system demands and changes. Offered as URPA 5316 and CIRP 5344; credit will be granted only once.

### **URPA5317 – ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Focuses on the physical environmental dimensions of urbanization including such factors as pollution, waste disposal, and land use; stresses the role of economic, social, and political institutions as these affect environmental quality of the city. Offered as CIRP 5342 and URPA 5317; credit will be granted only once.

### **URPA5318 – SOCIAL WELFARE POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines recent welfare reform measures (federal, state, and local levels), the political issues behind them, and their influence on urban life. A central topic will be the impact of a changing society on social welfare policy needs, including analyses of labor force participation and family structure.

### **URPA5319 – URBAN PROBLEMS**

**3** Lecture Hours · **0** Lab Hours

Specific urban problems examined in depth, traced to their historical origins to see how they or similar problems have been dealt with in other times and places. Students will then propose possible solutions to the problems in their contemporary form. Offered as CIRP 5347 and URPA 5319.

### **URPA5320 – PUBLIC ORGANIZATION THEORY**

**3** Lecture Hours · **0** Lab Hours

Historical evolution of administrative theory including classical, sociological and social-psychological dimensions; decision-making theory; implications of public interest theory for public management; basic concepts of organization development and impact on public administration paradigms; new public administration; and future of public urban organization. Also offered as CRCJ 5309 and POLS 5303; credit will be granted only once.

### **URPA5321 – URBAN MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Focuses through lectures, readings, and exercises on major administrative process: personnel and policy development and analysis; management styles and key contemporary management problems explored through presentations by prominent local practitioners.

### **URPA5322 – POLITICS, POLICY AND PUBLIC ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Development of theory of bureaucracy; bureaucracy as social issue; ethics and morality in public bureaucracy; mobilization of special interest support; power differentials in urban agencies; policy process in bureaucracy; new bureaucratic structures and processes for urban policy making.

### **URPA5323 – PUBLIC ORGANIZATIONAL CHANGE**

**3 Lecture Hours · 0 Lab Hours**

Current theories and concepts of public organizational change with particular emphasis on organization development and action research; theoretical roots of contemporary change literature traced through readings and discussion of classical organization theory, public administration including New Public Administration decision making, public interest, phenomenology, learning theory and general systems. Prerequisite: basic organizational theory course or permission of instructor.

### **URPA5324 – URBAN PUBLIC FINANCE**

**3 Lecture Hours · 0 Lab Hours**

Tax, revenue, and fiscal problems of cities and local governments in metropolitan areas; problems of matching costs and benefits in providing public services among different local governments; increasingly complex dimensions of intergovernmental fiscal relations and public budgeting systems. Offered as URPA 5324 and CIRP 5329; credit will be granted only once

### **URPA5325 – ADMINISTRATIVE LAW**

**3 Lecture Hours · 0 Lab Hours**

Examines scope and role of administrative regulation of and by governmental agencies; explores constitutional principles which limit administrative power and administrative law which governs classical areas of conflict between administrative agencies and their constituencies; rule-making, judicial review and informal regulatory processes of importance to public officials.

### **URPA5326 – PUBLIC BUDGETING**

**3 Lecture Hours · 0 Lab Hours**

This course introduces students to the principles and practices used by federal, state, and local governments to acquire and spend revenues within the context of American democracy, capitalism, federalism, and economics. The primary objective of this course is to provide students with the practical skills and theoretical knowledge to enable them to be effective participants in the budgeting process and critical consumers and producers of research relevant to public budgeting. Offered as CIRP 5328 and URPA 5326. Credit will be granted only once.

### **URPA5327 – COMPARATIVE ADMINISTRATION AND POLICY**

**3 Lecture Hours · 0 Lab Hours**

Extensive, multidisciplinary exposure to concepts and models of administration in developed and modernizing countries; role of the military, bureaucracy and traditional elites in development; practices and concepts of strategies for effective change.

### **URPA5328 – SMALL CITY MANAGEMENT**

**3 Lecture Hours · 0 Lab Hours**

This course will focus on problems peculiar to small cities, including administrative law; personnel, planning; public works, public safety; human services; budget and finance; public relations and parks and recreation.

### **URPA5329 – FINANCIAL MANAGEMENT IN THE PUBLIC AND NON-PROFIT SECTORS**

**3 Lecture Hours · 0 Lab Hours**

Overview of the principles of finance as they apply to the public and non-profit sectors, financial reporting for state and local governments and non-profit organizations and evaluation.

### **URPA5330 – COMMUNITY AND NEIGHBORHOOD ORGANIZATION**

**3 Lecture Hours · 0 Lab Hours**

Structure and processes in the analysis and development of community and neighborhood organizations; special emphasis given to poverty and minority communities and neighborhoods.

### **URPA5331 – LAND USE PLANNING AND THE LAW**

**3** Lecture Hours · **0** Lab Hours

Explores the law of land use in the context of the American legal, economic, and political systems. Examines leading court decisions and precedents for their background, content, and applicability to contemporary land use. Offered as CIRP 5316 and URPA 5331. Credit will be granted only once.

### **URPA5332 – PUBLIC CAPITAL BUDGETING**

**3** Lecture Hours · **0** Lab Hours

Examines governmental capital budgeting processes with a focus on understanding the significance of capital improvement planning, public facility investment, and project evaluation to sound infrastructure financing and regional economic growth. Governments purchase or construct long-lasting physical assets or facilities financed mostly through borrowing. This course aims to understand the rationale for public capital budgeting and debt instruments used to finance capital investment in the political context of public budgeting in America.

### **URPA5333 – GOVERNMENTAL AND NONPROFIT ACCOUNTING**

**3** Lecture Hours · **0** Lab Hours

This course is designed as an introduction to governmental and nonprofit accounting. The course reviews major fund accounting principles, accounting for budgetary, revenue, and expenditure funds, accounting for general capital assets and long-term liabilities, accounting for fiduciary and proprietary funds, auditing practices, and financial reporting unique to government and non-profit organizations.

### **URPA5334 – MANAGEMENT OF ECONOMIC DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

This course focuses on the knowledge, organization, politics, issues, techniques and processes of local economic development. Emphasis is placed on contemporary issues and trends in the rich, dynamic laboratory of local economic development in Texas. Learning objectives include: 1) comprehension of basic techniques and issues such as strategic planning, leadership strategies, financial options and evaluation; 2) increased knowledge of the positive potential of thoughtful economic development for local environmental, infrastructure, and revenue challenges; and 3) enhanced professional development through individual and classroom exposure to successful practitioners.

### **URPA5341 – PROFESSIONAL REPORT WRITING**

**3** Lecture Hours · **0** Lab Hours

Provides students entering public sector employment with writing, management information, data retrieval skills to communicate ideas and information within and outside an agency; basic writing skills reviewed, including organization of reports and grammatical construction; assignments based on actual internship position of students in public agencies.

### **URPA5342 – INTERMEDIATE DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An intermediate level examination of statistical and research techniques appropriate to urban and social analysis. Presuming a basic understanding of descriptive and inferential statistics, the course covers multivariate regression, including error analysis and non-linear models, path analysis, ANOVA, logit and probit models, and techniques for data reduction (e.g., factor analysis). Prerequisite: URPA 5302. Offered as URPA 5342 and CIRP 5317; credit will be granted only once.

### **URPA5343 – APPLIED URBAN ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Group and individual projects to develop research studies or strategies, data reports for local government, agency or citizen group; techniques appropriate to task utilized. P/F only.

### **URPA5344 – QUALITATIVE METHODS**

**3** Lecture Hours · **0** Lab Hours

The study of qualitative research and analysis methods. Offered as CIRP 5346 and URPA 5344; credit will

be given only once.

### **URPA5345 – EVALUATION RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Methodological issues in evaluating public programs; identification of variables, indicators and analyses formats presented. Prerequisite: SUPA 5302 or URPA 5302.

### **URPA5346 – DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

### **URPA5347 – DEMOGRAPHIC METHODS**

**3** Lecture Hours · **0** Lab Hours

Examination of sources of data-census, vital statistics, special surveys, reports, special studies; techniques of analysis with particular emphasis on growth and projection models, interpretation of findings as a major policy area in urban analysis.

### **URPA5348 – COST BENEFIT ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Reviews theory of cost-benefit and cost-effective analyses; explores the research, measurement and methodological requirements for the assessments of costs and benefits. It is recommended that students have completed at least one graduate course in research and one graduate class in public finance.

### **URPA5350 – INTRODUCTION TO PUBLIC ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

This is a graduate level introductory course designed to give students an understanding of public administration as a field of academic inquiry and professional practice within the context of American federalism, democratic values, institutional dynamics, and bureaucratic politics. In addition to contextually defining public administration, the course addresses government reform, intergovernmental relations, public ethics, organizational dynamics and behavior, personnel issues, budgeting, and e-governance.

### **URPA5351 – PUBLIC HUMAN RESOURCES**

**3** Lecture Hours · **0** Lab Hours

The purpose of this course is to familiarize students with key functions of government personnel systems, discuss various theoretical approaches and techniques, and understand the major legal requirements of public personnel management. The course examines the structure, role, and evolution of the Civil Service, current personnel policies, and personnel management tasks such as examination, recruitment, position classification, and collective bargaining.

### **URPA5352 – CONFLICT RESOLUTION IN THE PUBLIC AND NONPROFIT SECTORS**

**3** Lecture Hours · **0** Lab Hours

Labor management at all levels of government, ability to work together to solve problems. Emphasis on collective and interest based bargaining, mediation, labor management partnership. Simulation exercises teach dynamics of bargaining, negotiation, problem solving, and small group dynamics.

### **URPA5353 – URBAN GOVERNMENT REFORM AND INNOVATION**

**3** Lecture Hours · **0** Lab Hours

Designed to acquaint students with urban governance reform and innovation. Course will explore how reformed government differs from traditional bureaucracy by contrasting it with entrepreneurial government and other innovations. Examines some of the areas most in need of reform, including service delivery, organizational capacity, and fiscal decentralization.

## **URPA5354 – MANAGEMENT OF NON-PROFIT ORGANIZATIONS**

**3** Lecture Hours · **0** Lab Hours

This course examines the different management areas and techniques within the nonprofit organization such as institutional management, leadership and management and the differences between them, fund-raising and financial administration, human resources-staff, volunteer, and board-coordination, internal needs assessment, planning, performance measurements, and the organizational environment and culture.

## **URPA5355 – NON-PROFIT INSTITUTIONS**

**3** Lecture Hours · **0** Lab Hours

This course examines non-profits as community institutions with an outward focus: the political, economic, and inter-organizational environment, fund-raising and financial management, community relations and needs assessment, the role of the volunteers, boards and community leaders, marketing, and legal and government issues.

## **URPA5356 – PUBLIC ENTREPRENEURIAL MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Public entrepreneurship involves the use of public powers, and partnerships with individuals, firms and other organizations, to achieve public purposes. The focus will be on creative management techniques and methods employed in managing the public sector.

## **URPA5357 – STRATEGIC PLANNING, POLICY AND MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Readings and case studies of strategic planning and management in the public and non-profit sectors; application of principles to an actual situation, involving stakeholder identification, environmental scanning, and formulation of mission statements, goals, and strategies. Offered as CIRP 5312 and URPA 5357. Credit will be granted only once.

## **URPA5358 – ETHICS IN THE PUBLIC SERVICE**

**3** Lecture Hours · **0** Lab Hours

This course examines public service theoretical ethics literature to provide a basis for each student to both reflect upon and expand their comprehension of the values and processes of ethical decision making. Beyond theoretical works, it addresses the application and evaluation of theory against the professional, workaday reality of case studies, ethical codes and other relevant materials. Three major learning objectives are: 1) achievement of a solid understanding of the dominant theoretical perspectives in the public service ethics literature; 2) competency in the development of guidelines and procedures that encourage ethical behavior, and 3) enhancement of the reach and resiliency of each member's personal commitment to public service ethics.

## **URPA5359 – ORGANIZATIONAL DIAGNOSIS**

**3** Lecture Hours · **0** Lab Hours

This class deals with tools and techniques necessary to manage public organizations. The learning objectives include ability to conduct an organizational diagnostic; and familiarity with group procedures and facilitation techniques involved in organizational change.

## **URPA5360 – URBAN MANAGEMENT/PLANNING INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

Designed to integrate work experience and coursework through a series of brief work-related assignments; presentations by local planning and management practitioners and class discussions and exercises. Enrollment is open to both pre-entry and in-career students. Formal internship placements with agency mentors will be arranged. P/F only.

## **URPA5361 – INTERNATIONAL ORGANIZATIONS**

**3** Lecture Hours · **0** Lab Hours

The course focuses on the rise of governmental and nongovernmental organizations in geopolitics, international development, and environmental management. It analyzes their institutional histories, their

organizational structures and cultures, and their role as institutional policy actors in the global diffusion of policy initiatives and managerial knowledge and practices.

### **URPA5362 – URBAN DIVERSITY**

**3** Lecture Hours · **0** Lab Hours

Examines the growing spatial and social diversity of cities; how physical as well as socioeconomic urban structures have fostered race, class, and gender inequalities; how urban policies have addressed and can address these issues. Offered as CIRP 5362 and URPA 5362.

### **URPA5363 – CIVIL RIGHTS AND URBAN MINORITIES**

**3** Lecture Hours · **0** Lab Hours

Examines the changes in and growth of the civil rights of minorities in the United States from the close of the Civil War to the present. This is accomplished through the study of court decisions, legislation, and the civil rights movement in the 1950s and 1960s, as seen through the eyes of contemporary writers, including William Faulkner, Alice Walker, and Alex Haley.

### **URPA5364 – INSTITUTIONAL AND OTHER RADICAL ECONOMIC THEORIES**

**3** Lecture Hours · **0** Lab Hours

Examines the theoretical bases of institutional and other radical paradigms of the economic process and the alternative economic policies that logically flow from them. These are compared to and contrasted with the orthodox, or neo-classical, theoretical model of economics, and the economic policies that logically are derived from it. Emphasis will be on how and why the neo-classical model remains the dominant model for economic policy in Western, capitalist countries.

### **URPA5365 – FOUNDATIONS OF ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Explores how environmental controversy is rooted in conflict between a number of schools of environmental policy thought with divergent perspectives on issues such as how to define progress, how to balance the needs of economy and ecosystem, how to cope with environmental complexity, and what role science should play in environmental affairs. Also offered as CIRP 5343; credit will be granted only once.

### **URPA5366 – US IMMIGRATION POLICIES AND PLANNING FOR IMMIGRANTS**

**3** Lecture Hours · **0** Lab Hours

A seminar course where weekly readings would include: perspectives on international migration theory; the evolution of US immigration policy and national security; theories and urban issues related to immigrant assimilation and incorporation; urban ethnic economies and ethnic enclaves; segregation and housing of immigrants; globalization and immigrant labor networks; governance issues with providing education and other public services to immigrants and their children; and social work issues regarding generational conflict in immigrant families.

### **URPA5367 – STRATEGIC PUBLIC AND NONPROFIT HUMAN RESOURCES MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

This course is designed to acquaint students with the theory and practice of strategically developing, utilizing, and aligning human resources so that maximum contribution from each member of an organization is used toward the attainment of strategic long-range goals and objectives. Topics include HR strategy, diversity, leadership, selection, training and development, compensation, classification, performance appraisal, and future practices for public and non-profit organizations.

### **URPA5368 – PRACTICAL EMPLOYMENT FOR PUBLIC AND NONPROFIT MANAGERS**

**3** Lecture Hours · **0** Lab Hours

The course examines the rights and obligations of employers and employees. It does this by examining the legal background pertinent to public and nonprofit management. Topics addressed include employee selection, promotion and discipline, anti-discrimination legislation, gender and family issues legislation,

environmental, safety and health issues, whistleblower legislation, immigration law, workerAs compensation, labor law, and drug and alcohol issues.

### **URPA5390 – TOPICS IN URBAN THEORY**

**3** Lecture Hours · **0** Lab Hours

Different topics explored on an intensive basis, especially recent theoretical approaches. May be repeated for credit as topic changes.

### **URPA5391 – TOPICS IN URBAN POLICY**

**3** Lecture Hours · **0** Lab Hours

Different topics and approaches in analysis of urban problems. May be repeated for credit as topic changes.

### **URPA5392 – TOPICS IN URBAN MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Selected topics on current management problems including small city management, community-neighborhood relations, citizen involvement programs and techniques, personal and professional effectiveness as a total person, intergovernmental strategies and styles, public-private sector collaboration and co-planning, privatization, and other alternatives to economic service delivery. May be repeated as topic changes.

### **URPA5394 – SPECIAL TOPICS IN URBAN RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Different topics each semester concentrate on a variety of methodological techniques and research strategies, such as demographic research and survey techniques. May be repeated for credit as topic changes.

### **URPA5395 – CONFERENCE COURSE IN URBAN AFFAIRS**

**3** Lecture Hours · **0** Lab Hours

Reading and research in a specialized area of urban affairs under the direction of a member of the graduate faculty.

### **URPA5396 – PROJECT REPORT**

**3** Lecture Hours · **0** Lab Hours

Student prepares report focusing on specific policy or professional issue, utilizing appropriate research techniques; subject area and design of project report with consent of instructor. Graded P/F/R only.

### **URPA5397 – RESEARCH REPORT**

**3** Lecture Hours · **0** Lab Hours

Student prepares report comparable to a journal article focusing on research issue, utilizing appropriate theory and research techniques; subject area and design of research report with consent of instructor. Graded P/F/R only. Prerequisite: URPA 5342.

### **URPA5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

A thesis conforming to University and departmental requirements may be prepared by graduate students in urban affairs. Graded F, R.

### **URPA5399 – PUBLIC ADMINISTRATION CAPSTONE**

**3** Lecture Hours · **0** Lab Hours

This integrative applied research course assesses the student's ability to analyze, synthesize, and

formulate cogent recommendations to solve a real public sector problem. Students will write the capstone paper using concepts drawn from the MPA core curriculum, their chosen emphasis track, and the student's professional public work experience. Students are required to successfully defend their capstone paper before a Public Administration Forum consisting of SUPA faculty, students, and other interested parties. Prerequisite: completion of all other course work required for the MPA degree, including core courses and emphasis area courses, unless an exception is approved by the MPA advisor.

### **URPA5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

A thesis conforming to University and departmental requirements may be prepared by graduate students in urban affairs. Graded P/F/R.

### **URPA6301 – THEORETICAL FOUNDATIONS AND PH.D. WORKSHOP**

**3** Lecture Hours · **0** Lab Hours

Explores the development and function of theoretical models and frameworks. Examines the major theories from the social sciences designed for framing urban planning or administration issues and public policy. Designed to assist doctoral students in preparing their dissertation research. Opportunities to present work in progress, share ideas, and interact with faculty. Prerequisite: CIRP 5346 and either CIRP 5317 or URPA 5342.

### **URPA6305 – SEMINAR IN URBAN POLICY PROCESSES**

**3** Lecture Hours · **0** Lab Hours

Final course in urban policy field; focus on the political, economic, and sociological institutions in the policy process, including various theoretical approaches, and application of these multidisciplinary perspectives in the analysis of specific policy issues.

### **URPA6306 – SEMINAR IN PUBLIC ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Final course in the public administration field, focuses on review and integration of the theories and principles of public administration.

### **URPA6310 – MONETARY AND FISCAL POLICY: THE FEDERAL ROLE**

**3** Lecture Hours · **0** Lab Hours

Examination of the role of the federal government in maintaining economic stability, ensuring full employment and controlling inflation; exploration of liberal interventionist, conservative and radical theories of state economic management to assess the various policy alternatives and the importance of interest groups.

### **URPA6315 – PUBLIC ADMINISTRATION THEORY**

**3** Lecture Hours · **0** Lab Hours

This course is designed to critically examine public administration theory through the lenses of various governance models that have been proposed beginning with Weber's "ideal"; bureaucratic model through Osborne and Gaebler's market model to Fox and Miller's postmodern discourse model. The course begins by examining each governance model's stated or implied assumptions (about man, government, state, etc.) Second, the course considers the political philosophy and conceptual pillars on which the models are theoretically founded. Finally, the course examines the ideas of what constitutes a state as it might be relevant to a particular model and public administration.

### **URPA6320 – ADVANCED ORGANIZATION THEORY**

**3** Lecture Hours · **0** Lab Hours

The purpose of this advanced seminar is to examine the role of public agencies as organs of the State. It focuses on federal, urban, and nonprofit organizations. Learning objectives include understanding of interpretive, critical, and postmodern critiques of State's institutions; and application of power, knowledge, and gender lenses to the analysis of organizational practices, culture, and policy actions. Prerequisite: URPA 5320 or URPA 5323.

## **URPA6326 – PUBLIC BUDGETING & FINANCE**

**3** Lecture Hours · **0** Lab Hours

The primary objective of this seminar is to provide students with the theoretical underpinnings of budgeting and financial management in the public sector. Students will engage in in-depth discussions of public budgeting and financial management topics drawn from economics, decision-making models, urban politics, federalism, and others to be able to have a sound understanding of how fiscal decisions affect public administration and policy.

## **URPA6340 – RESEARCH DESIGN**

**3** Lecture Hours · **0** Lab Hours

Advanced course especially for Ph.D. students; covers logic of research design and problems of structure. Emphasis on empirical and quantitative studies.

## **URPA6346 – ADVANCED DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An introduction to selected advanced techniques related to planning analysis. Subjects include advanced applied regression analysis, multivariate logit analysis, and multinomial logistic regression. Applications of projection techniques, land use and transportation models, and methods of regional analysis. Offered as CIRP 6346 and URPA 6346. Credit will be given only once.

## **URPA6349 – DECISION MAKING AND PUBLIC POLICY ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

This course explores the theoretical, practical, and topical connections between public policy and public administration through a decision-making lens. The objectives of the course are to enable students to identify, critique, and connect the theoretical and meta-theoretical assumptions of decision-making models to models of public policy analysis and public administration. Course objectives will be pursued through readings, seminar discussions, and research-based assignments that focus on the intersection between decision-making, public policy, and public administration.

### Master of Arts in Urban Affairs

- **General**
- ***Proposed Admissions Changes Effective August 2014 >>***
- **Factors Considered for Admission**
- **Types of Admission**
- **Scholarship/Fellowship Criteria**
- **SUPA Inadequate Academic Progress Point System**
- **Degree Requirements and Courses**
- **Areas of Concentration**

### Dual Degree Program

## Master of Arts in Urban Affairs

### General

The Master of Arts in Urban Affairs (MAUA) prepares students for policy and/or management positions in local government, regional government, nonprofit and private sector consulting and for other professional positions in economic development, social planning, community organizing, and urban journalism.

The program is organized around public policy issues with emphasis on the problems and questions related to life in urban communities. Because urban issues are complex and require the understanding and skills of many disciplines, the program is interdisciplinary in character, curriculum content, teaching staff, and enrollment. The degree is built around an urban core with students choosing a policy or non-profit-oriented concentration.

### Factors Considered for Admission

The MAUA program takes a holistic approach to the application review process. Each applicant file is reviewed individually with equal consideration given to the quantitative and qualitative aspects of the student's record. A complete application includes:

- Graduate Record Exam (GRE) score: Writing (Exceptions: Outstanding UT Arlington graduates may qualify for GRE waiver providing they meet certain requirements)
- Undergraduate Grade Point Average (GPA): The undergraduate GPA based on the last

60 hours of course work as calculated by the Graduate School from the official transcript.

- Graduate Record Exam (GRE) scores: Verbal and Quantitative (Exceptions: Outstanding UT Arlington graduates may qualify for GRE waiver providing they meet certain requirements)
- Letters of Recommendation attesting to the applicant's potential to do Master's-level work and complete the program. Letters for Master's programs should be from professors or supervisors at work (download Letter of Recommendation form)
- Essay by applicant approximately one double-spaced page in length (approximately 250 words). The Essay is considered both for its content and quality of writing. The Essay should address the following questions: 1. Why do you want to earn a Master's degree in the program for which you are applying? 2. What relevant background and experience do you bring to the program? The essay can also include other concerns you'd like to bring to the attention of the Graduate Advisor or Master's Admissions Committee.
- Non-native English speakers only: TOEFL or IELTS scores (Exceptions: An applicant holding either a Bachelor's or a Master's degree from a regionally accredited U.S. college or university is not required to submit a TOEFL, TOEFL iBT, or IELTS score for admission purposes.)

### Waiver

- i. Submission of GRE scores may be waived for applicants to SUPA master's programs who hold a bachelor's degree from UTA with a 3.0 or higher GPA in their last 60 hours as calculated by the Graduate School.
- ii. Submissions of TOEFL or IELTS scores may be waived for applicants to SUPA master's programs who hold a Bachelor's or Master's degree from a regionally accredited U.S. college or university.

### Types of Admission

#### Unconditional Admission:

1. Applicants who meet all the following requirements will be considered for unconditional admission: a preferred minimum Writing GRE score of 4.0
2. Minimum Undergraduate GPA of 3.0
3. A preferred minimum Verbal GRE score of 450 (Revised GRE Test: 150), and preferred minimum Quantitative GRE of 450 (Revised GRE Test: 141), and a preferred minimum combined Verbal and Quantitative score of 1,000 (Revised Test Combined 291)
4. Outstanding letters of recommendation
5. Strong, well-written personal essay
6. Non-native English speakers only: TOEFL scores of at least 550 (paper-based), 213 (computer-based), or 79 (iBT) with sectional scores that meet or exceed 22 Writing, 21 Speaking, 20 Reading, and 16 Listening; or, IELTS score of at least 6.5.

#### Probationary Admission:

Applicants who do not meet all requirements for Unconditional admission will be considered for Probationary admission on the basis of the strength of all the listed admission factors. Test scores will not constitute the sole or primary basis for ending consideration of an applicant. Under Probationary admission, special course requirements or other conditions may be imposed by the SUPA Master's Admissions Committee. Applicants who meet all the standards for Unconditional admission except for deficiency in Writing GRE score will be considered for Probationary Admission conditional on completing an approved Writing course in their first semester.

#### Other types of admission decisions pertaining to Master's applicants:

1. **Deferred:** Applicants who are unable to supply required application materials, or who must complete additional preparatory work before their admissibility can be determined, may be deferred until records are complete.

2. **Provisional:** Applicants who are unable to supply all required documentation prior to the admission deadline but who otherwise appear to meet admission requirements may be granted Provisional admission pending submission of complete and satisfactory credentials before the start of classes in which they have registered in a Provisional status.
3. **Denied:** Applicants who fail to meet more than one of the admission requirements and for whom the SUPA Master's Admission Committee finds there is insufficient basis to justify any other kind of admission will be Denied admission. As the admission process is competitive, applicants meeting basic admission requirements who are less well qualified than other applicants may also be denied admission.

### Scholarship/Fellowship Criteria

- Graduate students with a GPA of 3.0 or better who are enrolled in six hours or more are eligible to apply for competitive scholarships and fellowships.
- Scholarships and fellowships for Master's and Doctoral students will be competitively awarded based on consideration of the all admission criteria assessed by their admitting programs.

### SUPA Inadequate Academic Progress Point System

A student may be subject to dismissal from the program if they accumulate 4 deficiency points while pursuing their Master's degree or their Ph.D. degree. Deficiency points may not be removed from a student's record by repeating a course or completing additional coursework. For students who complete a Master's degree in SUPA and proceed to work on a SUPA Ph.D., any accumulated deficiency points are not carried forward to the more advanced degree.

- D = 2 deficiency points
- F = 3 deficiency points
- I = 1 deficiency point
- W = 0.5 deficiency point

### Degree Requirements and Courses

A total of 39 (project-track) or 42 (thesis-track) credits are required to complete the degree.

#### Required Urban Core Courses (9 hours)

- URPA 5304 Urban Politics or URPA 5309 Intergovernmental Relations
- URPA 5300 Foundation of Urban Theory or URPA 5305 Theories of Urban Societies
- URPA 5306 The Urban Economy

#### Required Research and Analysis Courses (12-15 hours)

- URPA 5302 Foundations of Urban Research and Analysis
- URPA 5345 Evaluation Research

#### Project Track

- URPA 5341 Professional Report Writing or URPA 5342 Strategies for Urban Research or URPA 5344/CIRP 5346 Qualitative Analysis
- URPA 5396 Project Report

#### Thesis Track

- URPA 5342 Strategies for Urban Research or CIRP 5346 Qualitative Analysis
- URPA 5698 Thesis

### Areas of Concentration (18 hours)

Students can specialize in one of five concentration areas as described below. As an alternative, they can petition to substitute another self-designed concentration area, such as criminal justice, education policy, social work, or historical preservation.

#### Economic Development

This concentration is designed for students interested in understanding the politics, policy, and management of economic development. Students will learn about the legal and financial aspects of economic development as well as issues related to community development, land use, and real estate development.

**Required**

URPA 5312 Economic Policy or URPA 5364 Institutional and Other Radical Economic Theories  
URPA 5334 Management of Economic Development  
CIRP 5322 Economic Development Planning and Policy

**Economic Development Electives (choose 3)**

URPA 5311 Social Policy Formation  
URPA 5331 Land Use Planning and the Law (also offered as CIRP 5316)  
URPA 5332 Capital Budgeting  
URPA 5348 Cost-Benefit Analysis  
CIRP 5305 Land Use Management and Development  
CIRP 5310 Introduction to Urban Structure, Policy and Planning  
CIRP 5313 Urban Growth Policies  
CIRP 5323 Historic Preservation  
CIRP 5326 Cultural Planning & Urban Development  
CIRP 5345 Planning & Real Estate Development  
CIRP 5356 Introduction to Geographic Information Systems  
CIRP 5364 Economic Base and Industrial Development

**Environmental Policy**

This area of concentration is designed for students interested in careers in the public and private sectors which focus on environmental concerns. Students will study environmental policy in general and may choose to focus their attention of sustainable growth or transportation.

**Required**

URPA 5311 Social Policy Formation  
URPA 5317 Urban Environmental Policy (also offered as CIRP 5342)  
URPA 5365 Foundations of Environmental Policy (also offered as CIRP 5343)

**Environment Electives (choose 3)**

URPA 5307 Urban Geography  
URPA 5309 Intergovernmental Relations (if not selected as urban core requirement)  
URPA 5310 Urban Policy  
URPA 5312 Economic Policy  
URPA 5313 Community Development (also offered as CIRP 5324)  
URPA 5319 Urban Problems (also offered as CIRP 5342)  
URPA 5322 Politics, Policy, and Public Administration  
URPA 5330 Community and Neighborhood Organization  
URPA 5334 Management of Economic Development  
URPA 5348 Cost-Benefit Analysis  
URPA 5357 Strategic Planning and Management (also offered as CIRP 5312)  
CIRP 5306 Urban Revitalization  
CIRP 5309 Transportation/Land Use Modeling & Policy Analysis  
CIRP 5313 Urban Growth Policies  
CIRP 5315 Transportation Policy, Programs, and History  
CIRP 5316 Land Use Planning and the Law  
CIRP 5322 Economic Development Planning and Policy  
CIRP 5341 Environmental Regulations: Laws and Planning  
CIRP 5350 Environmental Planning  
CIRP 5351 Techniques of Environmental Assessment  
CIRP 5353 Environmental Law  
CIRP 5356 Introduction to Geographic Information Systems  
CIRP 5358 Intelligent Transportation Systems and Planning

## Non-Profit Management

This area of concentration is designed for students interested in careers in non-profit organizations. The curriculum is designed to education students on non-profit management issues as well as issues related to non-profit clientele and the role of non-profits in urban government in general. Students pursuing the non-profit concentration may also elect to work toward a Certificate in Non-profit Management (<http://www.uta.edu/supa/certificates/>).

### Required

URPA 5354 Management of Nonprofit Organizations  
 URPA 5355 Nonprofit Institutions

### Management Electives (chose at least 2, up to 4)

URPA 5303 The Metroplex  
 URPA 5313 Community Development (also offered as CIRP 5306: Urban Revitalization)  
 URPA 5318 Social Welfare Policy  
 URPA 5326 Public Budgeting  
 URPA 5329 Financial Management in the Public Sector  
 URPA 5330 Community and Neighborhood Organization  
 URPA 5333 Governmental and Nonprofit Accounting  
 URPA5348 Cost Benefit Analysis  
 URPA 5351 Personnel and Human Resources in the Public Sector  
 URPA 5352 Conflict Resolution  
 URPA5352 Personnel Management and Conflict Resolution in the Public Sector  
 URPA 5356 Public Entrepreneurial Management  
 URPA 5357 Strategic Planning, Policy, and Management  
 URPA 5358 Ethics in Public Service  
 URPA 5359 Organizational Diagnosis  
 CIRP 5319 Agencies of Planning and Administration  
 SOCW 5303 Foundations of Social Policy and Services  
 SOCW 6371 Community and Administrative Practice  
 SOCW 6363 Budgeting and Financial Management  
 SOCW 6386 Grant Proposal Development Seminar  
 MARK 5311 Marketing

### Field Electives (chose as many as required to make total electives of 4)

URPA 5311 Social Policy Formation  
 URPA 5312 Economic Policy  
 URPA 5315 Urban Education Policy  
 URPA 5317 Urban Environmental Policy (also offered as CIRP 5342)  
 URPA 5319 Urban Problems (also offered as CIRP 5342)  
 URPA 5362 Urban Diversity (also offered as CIRP 5362)  
 URPA 5363 Civil Rights and Urban Minorities  
 URPA 5365 Foundations of Environmental Policy (also offered as CIRP 5343)  
 URPA 5366 U.S. Immigration Policies and Planning for Immigrants  
 URPA 5391 Topics in Urban Policy  
 CIRP 5313 Urban Growth Policies  
 CIRP 5315 Transportation Policy, Programs, and History

## Urban Policy Analysis

This track is designed for students seeking a greater understanding in public policy. The curriculum is designed to give students an understanding of the politics and economics of public policy formation and implementation. Students in this track may choose to take courses related to a specific policy area (e.g., welfare, education, or transportation) or they may chose a more generalist perspective.

### Required

URPA 5304 The Urban Political System or URPA 5309 Intergovernmental Relations  
 (whichever not taken in core)  
 URPA 5311 Social Policy Formation

URPA 5312 Economic Policy or URPA 5364 Institutional and Other Radical Economic Theories

**Policy Electives (chose 3)**

URPA 5307 Urban Geography  
URPA 5308 Urban History  
URPA 5310 Urban Policy and the Law  
URPA 5312 Economic Policy  
URPA 5313 Community Development (also offered as CIRP 5324)  
URPA 5314 Health Policy  
URPA 5315 Urban Education Policy  
URPA 5316 Human Services  
URPA 5317 Urban Environmental Policy (also offered as CIRP 5342)  
URBA 5318 Social Welfare Policy  
URPA 5319 Urban Problems (also offered as CIRP 5342)  
URPA 5348 Cost-Benefit Analysis  
URPA 5362 Urban Diversity (also offered as CIRP 5362)  
URPA 5363 Civil Rights and Urban Minorities  
URPA 5365 Foundations of Environmental Policy (also offered as CIRP 5343)  
URPA 5366 U.S. Immigration Policies and Planning for Immigrants  
URPA 5391 Topics in Urban Policy  
CIRP 5313 Urban Growth Policies  
CIRP 5315 Transportation Policy, Programs, and History

**Urban Social Planning**

This concentration is designed for students interested in planning careers in non-profit and public agencies. The curriculum provides students with knowledge of community organizing and community development as well as offering them the opportunity to focus on specific social issues.

**Required**

URPA 5313 Community Development (also offered as CIRP 5324)  
URPA 5330 Community and Neighborhood Organization  
CIRP 5303 Planning History and Theory

**Social Planning Electives (chose 3)**

URPA 5307 Urban Geography  
URPA 5311 Social Policy Formation  
URPA 5315 Urban Education Policy  
URPA 5318 Social Welfare Policy  
URPA 5331 Land Use Planning and the Law (also offered as CIRP 5316)  
URPA 5349 Database Management for Urban Plan and Mgmt (also CIRP 5320)  
URPA 5362 Urban Diversity (also offered as CIRP 5362)  
URPA 5363 Civil Rights and Urban Minorities  
URPA 5393 Topics in Urban Planning  
URPA 5391 Topics in Urban Policy (depending on topic, with approval)  
CIRP 5304 Plan and Policy Implementation  
CIRP 5306 Urban Revitalization  
CIRP 5310 Introduction to Urban Structure, Policy and Planning  
CIRP 5311 Elements of Urban Design  
CIRP 5313 Urban Growth Policies  
CIRP 5344 Human Service Planning  
CIRP 5354 Housing Planning, Policy, & Finance  
CIRP 5356 Introduction to Geographic Information Systems  
CIRP 5358 Intelligent Transportation Systems and Planning

**Student Designed Plan**

With the guidance of the graduate advisor and program director, students can elect to create a concentration of study targeting their specific interests.

## Dual Degree Program

Students in Urban Affairs may participate in a dual degree program whereby they can earn a Master of Arts in Urban Affairs and a Master of Science in Social Work, or Master's in City and Regional Planning, or a Master's in Public Administration. By participating in a dual degree program, students can apply a number of semester hours jointly to meet the requirements of both degrees, thus reducing the total number of hours which would be required to earn both degrees separately. The number of hours which may be jointly applied ranges from nine to 18 hours, subject to the approval of Graduate Advisors from both programs. To participate in the dual degree program, students must make separate application to each program and must submit a separate Program of Work for each degree. Those interested in the dual degree program should consult the appropriate Graduate Advisor(s) for further information on course requirements. See also the statement on "Dual Degree Programs" in the general admission section of this catalog.

## PUAD Courses

### PUAD6399 – DISSERTATION

3 Lecture Hours · 0 Lab Hours

Graded F/R only.

### PUAD6699 – DISSERTATION

6 Lecture Hours · 0 Lab Hours

Graded F/R/P/W only.

### PUAD6999 – DISSERTATION

9 Lecture Hours · 0 Lab Hours

Graded P/F/R.

### PUAD7399 – DOCTORAL DEGREE COMPLETION

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## SUPA Courses

### SUPA5300 – FOUNDATIONS OF URBAN PLANNING AND SOCIOLOGY

3 Lecture Hours · 0 Lab Hours

How urban communities develop as human settlements, their life cycles, expansion, and decay. Special consideration is given to social policy. Topics such as poverty, race, neighborhoods, and environment.

### SUPA5301 – FOUNDATIONS OF URBAN POLITICS AND ECONOMICS

3 Lecture Hours · 0 Lab Hours

Examines the major political and economic institutions and processes in urban communities and their effect on urban policy.

## UPPP Courses

### UPPP6399 – DISSERTATION

3 Lecture Hours · 0 Lab Hours

Graded R/F only.

### UPPP6699 – DISSERTATION

6 Lecture Hours · 0 Lab Hours

Graded R/F/P/W only.

### UPPP6999 – DISSERTATION

9 Lecture Hours · 0 Lab Hours

Graded P/F/R.

### UPPP7399 – DOCTORAL DEGREE COMPLETION

3 Lecture Hours · 0 Lab Hours

This course may be taken during the semester in which a student expects to complete all requirements for the doctoral degree and graduate. Enrolling in this course meets minimum enrollment requirements for graduation, for holding fellowships awarded by The Office of Graduate Studies and for full-time GTA or GRA positions. Students should verify that enrollment in this course meets other applicable enrollment requirements. To remain eligible in their final semester of study for grants, loans or other forms of financial aid administered by the Financial Aid Office must enroll in a minimum of 5 hours as required by the Office of Financial Aid. Other funding sources may also require more than 3-hours of enrollment. Additional hours may also be required to meet to requirements set by immigration law or by the policies of the student's degree program. Students should contact the Financial Aid Office, other sources of funding, Office of International Education and/or their graduate advisor to verify enrollment requirements before registering for this course. This course may only be taken once and may not be repeated. Students who do not complete all graduation requirements while enrolled in this course must enroll in a minimum of 6 dissertation hours (6699 or 6999) in their graduation term. Graded P/F/R.

## URPA Courses

### URPA5300 – FOUNDATION OF URBAN THEORY

3 Lecture Hours · 0 Lab Hours

Social theories that explain the life cycle of urban communities as they develop, expand, and are sustained or decay are presented and contrasted. Special consideration is given to role of social policy. Topics such as poverty, race, neighborhoods, and environment are addressed.

### URPA5301 – FOUNDATIONS OF URBAN POLITICS AND ECONOMICS

3 Lecture Hours · 0 Lab Hours

Examines the major political and economic institutions and processes in urban communities and their effect on urban policy.

### URPA5302 – FOUNDATIONS OF URBAN RESEARCH AND ANALYSIS

3 Lecture Hours · 0 Lab Hours

An introduction to research methodologies, both quantitative and qualitative, and statistical techniques useful in the analysis of urban trends and administrative programs. Previously taught as SUPA 5302.

### URPA5303 – THE METROPLEX: SURVEY OF URBAN AFFAIRS, PLANNING,

## **ADMINISTRATION:**

**3** Lecture Hours · **0** Lab Hours

The Metroplex provides an ideal laboratory for study with more than 100 cities and other governmental units, thousands of neighborhoods and business enterprises, major concentration of minorities and dozens of ethnic groups. An in-depth orientation on urban dynamics utilizing senior faculty members, governmental and community leaders, and current research reports and studies.

## **URPA5304 – URBAN POLITICS**

**3** Lecture Hours · **0** Lab Hours

Examination of the city as a political system, including the impact of urbanization and fragmentation on policies; input dimensions, including voting patterns and interest group development; decision-making structures, especially types of community power structures and the impact of the reform movement on structural processes. Also offered as POLS 5305; credit will be granted only once.

## **URPA5305 – THEORIES OF URBAN SOCIETY**

**3** Lecture Hours · **0** Lab Hours

Several theoretical perspectives of the community and community organization examined. Special emphasis given to theories from human ecology, organization and stratification, and social welfare.

## **URPA5306 – THE URBAN ECONOMY**

**3** Lecture Hours · **0** Lab Hours

Internal dynamics of the growth and development of the urban system and its relation to the national economy. National and urban economic policy, urban growth and land use, market imperfections, urban financial issues, and the environmental implications of urban growth studied through lecture, game simulation and policy debates.

## **URPA5307 – URBAN GEOGRAPHY**

**3** Lecture Hours · **0** Lab Hours

Emphasizes real aspects associated with urban physical environments and social, behavioral and financial processes that shape these environments.

## **URPA5308 – URBAN HISTORY**

**3** Lecture Hours · **0** Lab Hours

Extensive reading primarily in the history of the urbanization and metropolitanization of the people of the United States. Historical methods as exemplified in the works of leading historians and analyzed; examples of the scholarship of selected historians and treatises on selected cities, regions, and urban institutions studied.

## **URPA5309 – INTERGOVERNMENTAL RELATIONS**

**3** Lecture Hours · **0** Lab Hours

Critical analysis of the implications of federalism, and the changing nature of intergovernmental relations on state and local management, administration, planning, and policy making.

## **URPA5310 – URBAN POLICY AND THE LAW**

**3** Lecture Hours · **0** Lab Hours

Critical analysis of federal government and selected state and local government policies and programs designed to influence the course of change and the future development of cities and urban areas. The role of "private" governments in affecting policy explored.

## **URPA5311 – SOCIAL POLICY FORMATION**

**3** Lecture Hours · **0** Lab Hours

Utilization of a sociological approach in the study of policy formation in such areas as aging, social

planning, and community problem solving.

### **URPA5312 – ECONOMIC POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines structure of the U.S. economic system and its impact on welfare of consumers, workers, and industry; public policy efforts to provide for management of critical economic variables are evaluated for effectiveness and equity as they impact different interest groups.

### **URPA5313 – COMMUNITY DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

Focuses on current problems of community development and neighborhood revitalization. Housing, community assets, the roles of community development corporations and social capital in cities, and community economic development will be analyzed. Federal, state, and local policies, with grassroots initiatives evaluated for effectiveness on promoting alternatives for community building and organizing. Also offered as CIRP 5324; credit will be granted only once.

### **URPA5314 – HEALTH POLICY**

**3** Lecture Hours · **0** Lab Hours

Current health policy and programs, examination of historical development, economic and legal aspects, interest groups and health constituencies.

### **URPA5315 – URBAN EDUCATION POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines current education policy and programs, including public school districts, charter schools, and vouchers; economic and political aspects; role of adult education programs in improving human capital.

### **URPA5316 – HUMAN SERVICES**

**3** Lecture Hours · **0** Lab Hours

Social welfare institutions: private and public; needs assessment, resource allocation, procedures, city/state/federal/private policy review; highlights of current system demands and changes. Offered as URPA 5316 and CIRP 5344; credit will be granted only once.

### **URPA5317 – ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Focuses on the physical environmental dimensions of urbanization including such factors as pollution, waste disposal, and land use; stresses the role of economic, social, and political institutions as these affect environmental quality of the city. Offered as CIRP 5342 and URPA 5317; credit will be granted only once.

### **URPA5318 – SOCIAL WELFARE POLICY**

**3** Lecture Hours · **0** Lab Hours

Examines recent welfare reform measures (federal, state, and local levels), the political issues behind them, and their influence on urban life. A central topic will be the impact of a changing society on social welfare policy needs, including analyses of labor force participation and family structure.

### **URPA5319 – URBAN PROBLEMS**

**3** Lecture Hours · **0** Lab Hours

Specific urban problems examined in depth, traced to their historical origins to see how they or similar problems have been dealt with in other times and places. Students will then propose possible solutions to the problems in their contemporary form. Offered as CIRP 5347 and URPA 5319.

### **URPA5320 – PUBLIC ORGANIZATION THEORY**

**3** Lecture Hours · **0** Lab Hours

Historical evolution of administrative theory including classical, sociological and social-psychological dimensions; decision-making theory; implications of public interest theory for public management; basic concepts of organization development and impact on public administration paradigms; new public administration; and future of public urban organization. Also offered as CRCJ 5309 and POLS 5303; credit will be granted only once.

### **URPA5321 – URBAN MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Focuses through lectures, readings, and exercises on major administrative process: personnel and policy development and analysis; management styles and key contemporary management problems explored through presentations by prominent local practitioners.

### **URPA5322 – POLITICS, POLICY AND PUBLIC ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

Development of theory of bureaucracy; bureaucracy as social issue; ethics and morality in public bureaucracy; mobilization of special interest support; power differentials in urban agencies; policy process in bureaucracy; new bureaucratic structures and processes for urban policy making.

### **URPA5323 – PUBLIC ORGANIZATIONAL CHANGE**

**3** Lecture Hours · **0** Lab Hours

Current theories and concepts of public organizational change with particular emphasis on organization development and action research; theoretical roots of contemporary change literature traced through readings and discussion of classical organization theory, public administration including New Public Administration decision making, public interest, phenomenology, learning theory and general systems. Prerequisite: basic organizational theory course or permission of instructor.

### **URPA5324 – URBAN PUBLIC FINANCE**

**3** Lecture Hours · **0** Lab Hours

Tax, revenue, and fiscal problems of cities and local governments in metropolitan areas; problems of matching costs and benefits in providing public services among different local governments; increasingly complex dimensions of intergovernmental fiscal relations and public budgeting systems. Offered as URPA 5324 and CIRP 5329; credit will be granted only once

### **URPA5325 – ADMINISTRATIVE LAW**

**3** Lecture Hours · **0** Lab Hours

Examines scope and role of administrative regulation of and by governmental agencies; explores constitutional principles which limit administrative power and administrative law which governs classical areas of conflict between administrative agencies and their constituencies; rule-making, judicial review and informal regulatory processes of importance to public officials.

### **URPA5326 – PUBLIC BUDGETING**

**3** Lecture Hours · **0** Lab Hours

This course introduces students to the principles and practices used by federal, state, and local governments to acquire and spend revenues within the context of American democracy, capitalism, federalism, and economics. The primary objective of this course is to provide students with the practical skills and theoretical knowledge to enable them to be effective participants in the budgeting process and critical consumers and producers of research relevant to public budgeting. Offered as CIRP 5328 and URPA 5326. Credit will be granted only once.

### **URPA5327 – COMPARATIVE ADMINISTRATION AND POLICY**

**3** Lecture Hours · **0** Lab Hours

Extensive, multidisciplinary exposure to concepts and models of administration in developed and modernizing countries; role of the military, bureaucracy and traditional elites in development; practices and concepts of strategies for effective change.

### **URPA5328 – SMALL CITY MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

This course will focus on problems peculiar to small cities, including administrative law; personnel, planning; public works, public safety; human services; budget and finance; public relations and parks and recreation.

### **URPA5329 – FINANCIAL MANAGEMENT IN THE PUBLIC AND NON-PROFIT SECTORS**

**3** Lecture Hours · **0** Lab Hours

Overview of the principles of finance as they apply to the public and non-profit sectors, financial reporting for state and local governments and non-profit organizations and evaluation.

### **URPA5330 – COMMUNITY AND NEIGHBORHOOD ORGANIZATION**

**3** Lecture Hours · **0** Lab Hours

Structure and processes in the analysis and development of community and neighborhood organizations; special emphasis given to poverty and minority communities and neighborhoods.

### **URPA5331 – LAND USE PLANNING AND THE LAW**

**3** Lecture Hours · **0** Lab Hours

Explores the law of land use in the context of the American legal, economic, and political systems. Examines leading court decisions and precedents for their background, content, and applicability to contemporary land use. Offered as CIRP 5316 and URPA 5331. Credit will be granted only once.

### **URPA5332 – PUBLIC CAPITAL BUDGETING**

**3** Lecture Hours · **0** Lab Hours

Examines governmental capital budgeting processes with a focus on understanding the significance of capital improvement planning, public facility investment, and project evaluation to sound infrastructure financing and regional economic growth. Governments purchase or construct long-lasting physical assets or facilities financed mostly through borrowing. This course aims to understand the rationale for public capital budgeting and debt instruments used to finance capital investment in the political context of public budgeting in America.

### **URPA5333 – GOVERNMENTAL AND NONPROFIT ACCOUNTING**

**3** Lecture Hours · **0** Lab Hours

This course is designed as an introduction to governmental and nonprofit accounting. The course reviews major fund accounting principles, accounting for budgetary, revenue, and expenditure funds, accounting for general capital assets and long-term liabilities, accounting for fiduciary and proprietary funds, auditing practices, and financial reporting unique to government and non-profit organizations.

### **URPA5334 – MANAGEMENT OF ECONOMIC DEVELOPMENT**

**3** Lecture Hours · **0** Lab Hours

This course focuses on the knowledge, organization, politics, issues, techniques and processes of local economic development. Emphasis is placed on contemporary issues and trends in the rich, dynamic laboratory of local economic development in Texas. Learning objectives include: 1) comprehension of basic techniques and issues such as strategic planning, leadership strategies, financial options and evaluation; 2) increased knowledge of the positive potential of thoughtful economic development for local environmental, infrastructure, and revenue challenges; and 3) enhanced professional development through individual and classroom exposure to successful practitioners.

### **URPA5341 – PROFESSIONAL REPORT WRITING**

**3** Lecture Hours · **0** Lab Hours

Provides students entering public sector employment with writing, management information, data retrieval skills to communicate ideas and information within and outside an agency; basic writing skills reviewed, including organization of reports and grammatical construction; assignments based on actual internship

position of students in public agencies.

### **URPA5342 – INTERMEDIATE DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An intermediate level examination of statistical and research techniques appropriate to urban and social analysis. Presuming a basic understanding of descriptive and inferential statistics, the course covers multivariate regression, including error analysis and non-linear models, path analysis, ANOVA, logit and probit models, and techniques for data reduction (e.g., factor analysis). Prerequisite: URPA 5302. Offered as URPA 5342 and CIRP 5317; credit will be granted only once.

### **URPA5343 – APPLIED URBAN ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Group and individual projects to develop research studies or strategies, data reports for local government, agency or citizen group; techniques appropriate to task utilized. P/F only.

### **URPA5344 – QUALITATIVE METHODS**

**3** Lecture Hours · **0** Lab Hours

The study of qualitative research and analysis methods. Offered as CIRP 5346 and URPA 5344; credit will be given only once.

### **URPA5345 – EVALUATION RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Methodological issues in evaluating public programs; identification of variables, indicators and analyses formats presented. Prerequisite: SUPA 5302 or URPA 5302.

### **URPA5346 – DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

### **URPA5347 – DEMOGRAPHIC METHODS**

**3** Lecture Hours · **0** Lab Hours

Examination of sources of data-census, vital statistics, special surveys, reports, special studies; techniques of analysis with particular emphasis on growth and projection models, interpretation of findings as a major policy area in urban analysis.

### **URPA5348 – COST BENEFIT ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Reviews theory of cost-benefit and cost-effective analyses; explores the research, measurement and methodological requirements for the assessments of costs and benefits. It is recommended that students have completed at least one graduate course in research and one graduate class in public finance.

### **URPA5350 – INTRODUCTION TO PUBLIC ADMINISTRATION**

**3** Lecture Hours · **0** Lab Hours

This is a graduate level introductory course designed to give students an understanding of public administration as a field of academic inquiry and professional practice within the context of American federalism, democratic values, institutional dynamics, and bureaucratic politics. In addition to contextually defining public administration, the course addresses government reform, intergovernmental relations, public ethics, organizational dynamics and behavior, personnel issues, budgeting, and e-governance.

### **URPA5351 – PUBLIC HUMAN RESOURCES**

**3** Lecture Hours · **0** Lab Hours

The purpose of this course is to familiarize students with key functions of government personnel systems,

discuss various theoretical approaches and techniques, and understand the major legal requirements of public personnel management. The course examines the structure, role, and evolution of the Civil Service, current personnel policies, and personnel management tasks such as examination, recruitment, position classification, and collective bargaining.

### **URPA5352 – CONFLICT RESOLUTION IN THE PUBLIC AND NONPROFIT SECTORS**

**3** Lecture Hours · **0** Lab Hours

Labor management at all levels of government, ability to work together to solve problems. Emphasis on collective and interest based bargaining, mediation, labor management partnership. Simulation exercises teach dynamics of bargaining, negotiation, problem solving, and small group dynamics.

### **URPA5353 – URBAN GOVERNMENT REFORM AND INNOVATION**

**3** Lecture Hours · **0** Lab Hours

Designed to acquaint students with urban governance reform and innovation. Course will explore how reformed government differs from traditional bureaucracy by contrasting it with entrepreneurial government and other innovations. Examines some of the areas most in need of reform, including service delivery, organizational capacity, and fiscal decentralization.

### **URPA5354 – MANAGEMENT OF NON-PROFIT ORGANIZATIONS**

**3** Lecture Hours · **0** Lab Hours

This course examines the different management areas and techniques within the nonprofit organization such as institutional management, leadership and management and the differences between them, fund-raising and financial administration, human resources-staff, volunteer, and board-coordination, internal needs assessment, planning, performance measurements, and the organizational environment and culture.

### **URPA5355 – NON-PROFIT INSTITUTIONS**

**3** Lecture Hours · **0** Lab Hours

This course examines non-profits as community institutions with an outward focus: the political, economic, and inter-organizational environment, fund-raising and financial management, community relations and needs assessment, the role of the volunteers, boards and community leaders, marketing, and legal and government issues.

### **URPA5356 – PUBLIC ENTREPRENEURIAL MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Public entrepreneurship involves the use of public powers, and partnerships with individuals, firms and other organizations, to achieve public purposes. The focus will be on creative management techniques and methods employed in managing the public sector.

### **URPA5357 – STRATEGIC PLANNING, POLICY AND MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Readings and case studies of strategic planning and management in the public and non-profit sectors; application of principles to an actual situation, involving stakeholder identification, environmental scanning, and formulation of mission statements, goals, and strategies. Offered as CIRP 5312 and URPA 5357. Credit will be granted only once.

### **URPA5358 – ETHICS IN THE PUBLIC SERVICE**

**3** Lecture Hours · **0** Lab Hours

This course examines public service theoretical ethics literature to provide a basis for each student to both reflect upon and expand their comprehension of the values and processes of ethical decision making. Beyond theoretical works, it addresses the application and evaluation of theory against the professional, workaday reality of case studies, ethical codes and other relevant materials. Three major learning objectives are: 1) achievement of a solid understanding of the dominant theoretical perspectives in the public service ethics literature; 2) competency in the development of guidelines and procedures that encourage ethical behavior, and 3) enhancement of the reach and resiliency of each member's personal

commitment to public service ethics.

### **URPA5359 – ORGANIZATIONAL DIAGNOSIS**

**3** Lecture Hours · **0** Lab Hours

This class deals with tools and techniques necessary to manage public organizations. The learning objectives include ability to conduct an organizational diagnostic; and familiarity with group procedures and facilitation techniques involved in organizational change.

### **URPA5360 – URBAN MANAGEMENT/PLANNING INTERNSHIP**

**3** Lecture Hours · **0** Lab Hours

Designed to integrate work experience and coursework through a series of brief work-related assignments; presentations by local planning and management practitioners and class discussions and exercises. Enrollment is open to both pre-entry and in-career students. Formal internship placements with agency mentors will be arranged. P/F only.

### **URPA5361 – INTERNATIONAL ORGANIZATIONS**

**3** Lecture Hours · **0** Lab Hours

The course focuses on the rise of governmental and nongovernmental organizations in geopolitics, international development, and environmental management. It analyzes their institutional histories, their organizational structures and cultures, and their role as institutional policy actors in the global diffusion of policy initiatives and managerial knowledge and practices.

### **URPA5362 – URBAN DIVERSITY**

**3** Lecture Hours · **0** Lab Hours

Examines the growing spatial and social diversity of cities; how physical as well as socioeconomic urban structures have fostered race, class, and gender inequalities; how urban policies have addressed and can address these issues. Offered as CIRP 5362 and URPA 5362.

### **URPA5363 – CIVIL RIGHTS AND URBAN MINORITIES**

**3** Lecture Hours · **0** Lab Hours

Examines the changes in and growth of the civil rights of minorities in the United States from the close of the Civil War to the present. This is accomplished through the study of court decisions, legislation, and the civil rights movement in the 1950s and 1960s, as seen through the eyes of contemporary writers, including William Faulkner, Alice Walker, and Alex Haley.

### **URPA5364 – INSTITUTIONAL AND OTHER RADICAL ECONOMIC THEORIES**

**3** Lecture Hours · **0** Lab Hours

Examines the theoretical bases of institutional and other radical paradigms of the economic process and the alternative economic policies that logically flow from them. These are compared to and contrasted with the orthodox, or neo-classical, theoretical model of economics, and the economic policies that logically are derived from it. Emphasis will be on how and why the neo-classical model remains the dominant model for economic policy in Western, capitalist countries.

### **URPA5365 – FOUNDATIONS OF ENVIRONMENTAL POLICY**

**3** Lecture Hours · **0** Lab Hours

Explores how environmental controversy is rooted in conflict between a number of schools of environmental policy thought with divergent perspectives on issues such as how to define progress, how to balance the needs of economy and ecosystem, how to cope with environmental complexity, and what role science should play in environmental affairs. Also offered as CIRP 5343; credit will be granted only once.

### **URPA5366 – US IMMIGRATION POLICIES AND PLANNING FOR IMMIGRANTS**

**3** Lecture Hours · **0** Lab Hours

A seminar course where weekly readings would include: perspectives on international migration theory; the

evolution of US immigration policy and national security; theories and urban issues related to immigrant assimilation and incorporation; urban ethnic economies and ethnic enclaves; segregation and housing of immigrants; globalization and immigrant labor networks; governance issues with providing education and other public services to immigrants and their children; and social work issues regarding generational conflict in immigrant families.

### **URPA5367 – STRATEGIC PUBLIC AND NONPROFIT HUMAN RESOURCES MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

This course is designed to acquaint students with the theory and practice of strategically developing, utilizing, and aligning human resources so that maximum contribution from each member of an organization is used toward the attainment of strategic long-range goals and objectives. Topics include HR strategy, diversity, leadership, selection, training and development, compensation, classification, performance appraisal, and future practices for public and non-profit organizations.

### **URPA5368 – PRACTICAL EMPLOYMENT FOR PUBLIC AND NONPROFIT MANAGERS**

**3** Lecture Hours · **0** Lab Hours

The course examines the rights and obligations of employers and employees. It does this by examining the legal background pertinent to public and nonprofit management. Topics addressed include employee selection, promotion and discipline, anti-discrimination legislation, gender and family issues legislation, environmental, safety and health issues, whistleblower legislation, immigration law, workerAs compensation, labor law, and drug and alcohol issues.

### **URPA5390 – TOPICS IN URBAN THEORY**

**3** Lecture Hours · **0** Lab Hours

Different topics explored on an intensive basis, especially recent theoretical approaches. May be repeated for credit as topic changes.

### **URPA5391 – TOPICS IN URBAN POLICY**

**3** Lecture Hours · **0** Lab Hours

Different topics and approaches in analysis of urban problems. May be repeated for credit as topic changes.

### **URPA5392 – TOPICS IN URBAN MANAGEMENT**

**3** Lecture Hours · **0** Lab Hours

Selected topics on current management problems including small city management, community-neighborhood relations, citizen involvement programs and techniques, personal and professional effectiveness as a total person, intergovernmental strategies and styles, public-private sector collaboration and co-planning, privatization, and other alternatives to economic service delivery. May be repeated as topic changes.

### **URPA5394 – SPECIAL TOPICS IN URBAN RESEARCH**

**3** Lecture Hours · **0** Lab Hours

Different topics each semester concentrate on a variety of methodological techniques and research strategies, such as demographic research and survey techniques. May be repeated for credit as topic changes.

### **URPA5395 – CONFERENCE COURSE IN URBAN AFFAIRS**

**3** Lecture Hours · **0** Lab Hours

Reading and research in a specialized area of urban affairs under the direction of a member of the graduate faculty.

### **URPA5396 – PROJECT REPORT**

**3 Lecture Hours · 0 Lab Hours**

Student prepares report focusing on specific policy or professional issue, utilizing appropriate research techniques; subject area and design of project report with consent of instructor. Graded P/F/R only.

### **URPA5397 – RESEARCH REPORT**

**3 Lecture Hours · 0 Lab Hours**

Student prepares report comparable to a journal article focusing on research issue, utilizing appropriate theory and research techniques; subject area and design of research report with consent of instructor. Graded P/F/R only. Prerequisite: URPA 5342.

### **URPA5398 – THESIS**

**3 Lecture Hours · 0 Lab Hours**

A thesis conforming to University and departmental requirements may be prepared by graduate students in urban affairs. Graded F, R.

### **URPA5399 – PUBLIC ADMINISTRATION CAPSTONE**

**3 Lecture Hours · 0 Lab Hours**

This integrative applied research course assesses the student's ability to analyze, synthesize, and formulate cogent recommendations to solve a real public sector problem. Students will write the capstone paper using concepts drawn from the MPA core curriculum, their chosen emphasis track, and the student's professional public work experience. Students are required to successfully defend their capstone paper before a Public Administration Forum consisting of SUPA faculty, students, and other interested parties. Prerequisite: completion of all other course work required for the MPA degree, including core courses and emphasis area courses, unless an exception is approved by the MPA advisor.

### **URPA5698 – THESIS**

**6 Lecture Hours · 0 Lab Hours**

A thesis conforming to University and departmental requirements may be prepared by graduate students in urban affairs. Graded P/F/R.

### **URPA6301 – THEORETICAL FOUNDATIONS AND PH.D. WORKSHOP**

**3 Lecture Hours · 0 Lab Hours**

Explores the development and function of theoretical models and frameworks. Examines the major theories from the social sciences designed for framing urban planning or administration issues and public policy. Designed to assist doctoral students in preparing their dissertation research. Opportunities to present work in progress, share ideas, and interact with faculty. Prerequisite: CIRP 5346 and either CIRP 5317 or URPA 5342.

### **URPA6305 – SEMINAR IN URBAN POLICY PROCESSES**

**3 Lecture Hours · 0 Lab Hours**

Final course in urban policy field; focus on the political, economic, and sociological institutions in the policy process, including various theoretical approaches, and application of these multidisciplinary perspectives in the analysis of specific policy issues.

### **URPA6306 – SEMINAR IN PUBLIC ADMINISTRATION**

**3 Lecture Hours · 0 Lab Hours**

Final course in the public administration field, focuses on review and integration of the theories and principles of public administration.

### **URPA6310 – MONETARY AND FISCAL POLICY: THE FEDERAL ROLE**

**3 Lecture Hours · 0 Lab Hours**

Examination of the role of the federal government in maintaining economic stability, ensuring full employment and controlling inflation; exploration of liberal interventionist, conservative and radical theories

of state economic management to assess the various policy alternatives and the importance of interest groups.

### **URPA6315 – PUBLIC ADMINISTRATION THEORY**

**3** Lecture Hours · **0** Lab Hours

This course is designed to critically examine public administration theory through the lenses of various governance models that have been proposed beginning with Weber's "ideal"; bureaucratic model through Osborne and Gaebler's market model to Fox and Miller's postmodern discourse model. The course begins by examining each governance model's stated or implied assumptions (about man, government, state, etc.) Second, the course considers the political philosophy and conceptual pillars on which the models are theoretically founded. Finally, the course examines the ideas of what constitutes a state as it might be relevant to a particular model and public administration.

### **URPA6320 – ADVANCED ORGANIZATION THEORY**

**3** Lecture Hours · **0** Lab Hours

The purpose of this advanced seminar is to examine the role of public agencies as organs of the State. It focuses on federal, urban, and nonprofit organizations. Learning objectives include understanding of interpretive, critical, and postmodern critiques of State's institutions; and application of power, knowledge, and gender lenses to the analysis of organizational practices, culture, and policy actions. Prerequisite: URPA 5320 or URPA 5323.

### **URPA6326 – PUBLIC BUDGETING & FINANCE**

**3** Lecture Hours · **0** Lab Hours

The primary objective of this seminar is to provide students with the theoretical underpinnings of budgeting and financial management in the public sector. Students will engage in in-depth discussions of public budgeting and financial management topics drawn from economics, decision-making models, urban politics, federalism, and others to be able to have a sound understanding of how fiscal decisions affect public administration and policy.

### **URPA6340 – RESEARCH DESIGN**

**3** Lecture Hours · **0** Lab Hours

Advanced course especially for Ph.D. students; covers logic of research design and problems of structure. Emphasis on empirical and quantitative studies.

### **URPA6346 – ADVANCED DATA ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

An introduction to selected advanced techniques related to planning analysis. Subjects include advanced applied regression analysis, multivariate logit analysis, and multinomial logistic regression. Applications of projection techniques, land use and transportation models, and methods of regional analysis. Offered as CIRP 6346 and URPA 6346. Credit will be given only once.

### **URPA6349 – DECISION MAKING AND PUBLIC POLICY ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

This course explores the theoretical, practical, and topical connections between public policy and public administration through a decision-making lens. The objectives of the course are to enable students to identify, critique, and connect the theoretical and meta-theoretical assumptions of decision-making models to models of public policy analysis and public administration. Course objectives will be pursued through readings, seminar discussions, and research-based assignments that focus on the intersection between decision-making, public policy, and public administration.

## Department Information

### Objective

#### Admission Requirements

- **Unconditional Admission**
- **Probationary Admission**
- **Provisional Admission**
- **Admission Deferral and Denial**
- **Fellowships**

#### Degree Requirements

- **Master of Arts in the Humanities**

### Objective

The Graduate Humanities Program offers a course of study designed to instill understanding across the spectrum of fields traditionally identified as the Humanities, the study of humankind and of the cultures it has created. The Humanities includes history; philosophy; languages; linguistics; literature; anthropology; the history, theory and criticism of the fine arts; ethics; comparative religion; social and political theory; and those aspects of the social sciences employing historical or philosophical approaches or methodologies that subordinate quantitative procedures to an interpretive and qualitative evaluation of their subject matters. The program combines a strong foundation in the concepts and methods shared by the humanities with intensive study in an area of concentration that synthesizes or integrates two or more disciplines. It is not suited for those wishing to pursue a traditional disciplinary degree, because its views, subject matter and methods transcend those normally allowed in a single discipline. Study in the Humanities allows integration and forging connections across disciplinary boundaries. Coursework and examinations must reflect the methods and perspectives of the Humanities.

The foundation of the program is a series of courses, taken at the outset of study, whose purpose is to enhance a student's ability to view complex issues from a variety of perspectives. Drawing on classical and contemporary approaches, the foundation courses present and illustrate the basic concepts, the theoretical frameworks, and the methods of the humanities.

The Master's Program in Graduate Humanities, after the completion of foundation courses, applies the methods and perspectives of the Humanities foundation in integrating the subject areas of concentration. Graduates of the program utilize these abilities in teaching, research, translation, the ministry, government service, and private non-profit organizations. Each student's course of study is planned individually and provides in-depth training in a specialization within the context of the Humanities' traditional focus on human goals, needs, and values.

## Admission Requirements

Potential students must apply for admission through, and supply all information and meet all admission standards required by, the Graduate School. In addition, the following information will be considered in determining admission status into the Graduate Humanities Program:

1. a GPA no lower than 3.0 for all undergraduate work
2. GRE scores falling in the range of or surpassing those submitted by typical students in our program: Verbal - 540-610; Quantitative - 540-640; Analytic - 580-640 or Analytic Writing - 3-5.
3. three satisfactory letters of recommendation, as judged by the graduate advisor
4. a satisfactory written summary of degree objectives, as judged by the graduate advisor

## Unconditional Admission

For unconditional admission students must meet all four requirements.

## Probationary Admission

Students not meeting all of the requirements may still be considered for probationary admission; no single criterion will end consideration of an applicant. Students entering the program under probationary status will be granted unconditional admission only after completing 12 hours of graduate courses, approved by the graduate advisor, earning no grade below B.

## Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

## Admission Deferral and Denial

Students will be denied admission or admission will be deferred if they perform poorly on all of the above criteria. A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

## Fellowships

Fellowships, when available, will be awarded on a competitive basis. Nominees for the Graduate School Master's Fellowship in Humanities will be selected based on the following criteria:

- Candidates must be new students entering in the fall semester, with a minimum of 6 hours of enrollment in both long semesters to retain their fellowships.
- The minimum undergraduate GPA requirement is 3.00, as calculated by the Graduate School, plus a GPA of 3.0 for any graduate hours.
- Transcript of a completed bachelor's degree from an accredited institution.
- Three letters of recommendation.
- A written statement explaining the applicant's reasons for graduate study in Humanities.

## Department Information

#### Objective

- [The Cooperative Philosophy Doctoral Program](#)
- [The Graduate Humanities Master's Program](#)

#### Objective

The Philosophy and Classical Studies Programs at UT Arlington actively participate in the cooperative philosophy Ph.D. program with the University of North Texas and in the Graduate

Humanities M.A. Program at UT Arlington. Our graduate course offerings in philosophy and in classics also support other graduate programs, particularly those in the humanities disciplines and in the social sciences at UT Arlington. These courses provide *inter alia* the theoretical background necessary to the complete understanding and use of professional skills in such ancillary areas.

### The Cooperative Philosophy Doctoral Program

The Ph.D. program in philosophy at the University of North Texas is a cooperative one between UNT and the Philosophy Program at UT Arlington, drawing upon the expertise of the faculty of both institutions. Students apply for admission to the Ph.D. program through the degree granting institution, UNT. Upon admission, students are able to register for graduate courses at either participating institution and to make use of the academic resources available at either institution. Students are required to complete a minimum of 15 graduate semester credit hours at each participating institution. See the online Student Handbook for the Program ( [www.uta.edu/philosophy/PhDhandbook.htm](http://www.uta.edu/philosophy/PhDhandbook.htm)) and, also, visit the web page of UNT's Department of Philosophy and Religion Studies ([www.phil.unt.edu/programs/graduate/](http://www.phil.unt.edu/programs/graduate/) ). For more information, contact Professor Robert Frodeman ([frodeman@unt.edu](mailto:frodeman@unt.edu)) at the University of North Texas.

### The Graduate Humanities Master's Program

Through the Graduate Humanities Program, UT Arlington offers courses of study leading to the Master of Arts in the Humanities. These courses of study are designed to instill understandings across the spectrum of those fields traditionally identified as "the humanities." The Graduate Humanities program is not suited for those wishing to pursue a traditional disciplinary degree, because its views, subject matter and methods transcend those normally allowed in a single discipline. It aims to integrate different disciplines within the humanities and to articulate connections across disciplinary boundaries. Coursework and examinations reflect the methods and perspectives of the humanities. Philosophical Studies is a possible area of concentration within the Graduate Humanities Program.

## CLAS Courses

### CLAS5392 – TOPICS IN CLASSICAL STUDIES

3 Lecture Hours · 0 Lab Hours

Studies in the social, political and cultural systems of the ancient Greeks and Romans, including their influence upon subsequent societies. May be repeated for credit as the topic changes.

## GREK Courses

### GREK5391 – CONFERENCE COURSE IN GREEK

3 Lecture Hours · 0 Lab Hours

May be taken only with the permission of the instructor and the Graduate Advisor.

## HUMA Courses

### HUMA5300 – CONCEPTUAL BASES OF THE HUMANITIES

3 Lecture Hours · 0 Lab Hours

Introduces students to fundamental concepts, methods, and issues central to the humanities. Particular attention will be given to a variety of epistemological approaches in humanistic inquiry, to theories of interpretation as applied to cultural constructs, and to recent issues and problems in the humanities. Required of all MA candidates in the humanities.

## **HUMA5303 – APPROACHES TO THE STUDY OF CULTURE**

**3** Lecture Hours · **0** Lab Hours

Examination of the theories and methods by which culture and society have been studied. Discussion of the relationship among natural scientific, social scientific, and humanistic methodologies. Fulfills Foundation requirement.

## **HUMA5304 – CULTURAL STUDIES**

**3** Lecture Hours · **0** Lab Hours

The study of how elements of culture, particularly texts, practices, and material objects, are interconnected with structures of power. Topics may include analyses of cultural studies in various humanities disciplines, theoretical approaches to cultural studies, and the relationship between cultural studies and the traditional humanities disciplines. Fulfills Foundation requirement.

## **HUMA5306 – CRITICISM, LANGUAGE, AND HISTORY**

**3** Lecture Hours · **0** Lab Hours

This course examines the ways in which linguistics, literary criticism and history have intersected in 20th century thought. Areas of analysis may include anthropology, historiography, poetics, rhetoric, semiotics, and/or structuralism. Fulfills Foundation requirement.

## **HUMA5307 – TOPICS IN GENDER STUDIES**

**3** Lecture Hours · **0** Lab Hours

Analysis of the role of gender studies in the humanities disciplines. Topics may include examination of the methods and conclusions of gender analysis in history, the social sciences, philosophy, or literary criticism. Fulfills Foundation requirement.

## **HUMA5391 – CONFERENCE COURSE IN THE HUMANITIES**

**3** Lecture Hours · **0** Lab Hours

## **HUMA5392 – TOPICS IN THE HUMANITIES**

**3** Lecture Hours · **0** Lab Hours

Selected topics of interdisciplinary interest. May be repeated for credit when subject matter changes.

## **HUMA5398 – THESIS**

**3** Lecture Hours · **0** Lab Hours

The graduate student must be registered for this when in consultation over the thesis with the supervisory committee.

## **HUMA5698 – THESIS**

**6** Lecture Hours · **0** Lab Hours

The graduate student must be registered for this course (a) when in consultation over the thesis with the supervisory committee and (b) in the semester or term in which the Master of Arts degree will be conferred.

## **HUMA6391 – READINGS IN THE HUMANITIES**

**3** Lecture Hours · **0** Lab Hours

Supervised individual study for students preparing for the comprehensive examination. May be repeated for credit.

## **LATN Courses**

### **LATN5301 – INTENSIVE LATIN FOR READING I**

**3** Lecture Hours · **0** Lab Hours

Covers approximately the same material as LATN 1441/1442 (Levels I and II).

### **LATN5302 – INTENSIVE LATIN FOR READING II**

**3** Lecture Hours · **0** Lab Hours

Covers approximately the same material as LATN 2313/2314 (Levels III and IV).

### **LATN5391 – CONFERENCE COURSE IN LATIN**

**3** Lecture Hours · **0** Lab Hours

May be taken only with the permission of the instructor and the Graduate Advisor.

## **PHIL Courses**

### **PHIL5391 – CONFERENCE COURSE IN PHILOSOPHY**

**3** Lecture Hours · **0** Lab Hours

May be taken only with the permission of the instructor and Graduate Advisor.

### **PHIL5392 – TOPICS IN THE HISTORY OF PHILOSOPHY**

**3** Lecture Hours · **0** Lab Hours

Consideration in depth of the work of a single philosopher or a related philosophical school against the background of the development of philosophy. May be repeated for credit as the topic changes.

### **PHIL5393 – PHILOSOPHICAL PERSPECTIVES ON THE HUMANITIES**

**3** Lecture Hours · **0** Lab Hours

A philosophical inquiry into problems and issues of relevance in humanistic disciplines. May be repeated for credit as the topic changes.

### **PHIL6389 – SEMINAR IN PHILOSOPHICAL ANALYSIS**

**3** Lecture Hours · **0** Lab Hours

Seminar-style treatment of some major problem in contemporary philosophy. May be repeated for credit as the topic changes.

### **PHIL6394 – TOPICS IN SYSTEMATIC PHILOSOPHY**

**3** Lecture Hours · **0** Lab Hours

In-depth treatment of an issue or issues in metaphysics, epistemology, ethics, aesthetics or related subdisciplinary areas. May be repeated for credit as the topic changes.

The basic general admission and degree requirements are those of the Graduate School, as stated in this catalog. A Student Handbook is provided each student in the Graduate Humanities Program. Students are responsible for all information regarding rules, policies, and procedures as defined in the student handbook. In addition, all MA students must fulfill the following requirements:

1. **Foundation requirement-** Three courses are required. All students must complete the Conceptual Bases of the Humanities (HUMA 5300) within the first two semesters in the program. Students must also take two of the remaining four foundation courses: HUMA 5303, HUMA 5304, HUMA 5306, HUMA 5307.
2. **Foreign Language requirement-** students must demonstrate the ability to use one foreign language as a research tool in the humanities by means of a translation or other written exercise.
3. **Scope requirement-** for the remaining hours of coursework, students will devise an integrated program of multidisciplinary study drawing on more than one disciplinary prefix within the humanities disciplines with the advice of their committees. No more than 15 hours may be taken in any one discipline.

### Master of Arts in the Humanities

Students may choose a thesis or non-thesis option. The thesis option requires 30 credit hours, 24 hours of course work plus 6 hours of thesis preparation. Thesis students must pass an oral defense of the thesis upon its completion. The non-thesis option requires 36 hours of course work and the preparation of a qualifying paper. Non-thesis students must pass a comprehensive examination at the end of their program of study.

## CLAS Courses

### CLAS5392 – TOPICS IN CLASSICAL STUDIES

3 Lecture Hours · 0 Lab Hours

Studies in the social, political and cultural systems of the ancient Greeks and Romans, including their influence upon subsequent societies. May be repeated for credit as the topic changes.

## GREK Courses

### GREK5391 – CONFERENCE COURSE IN GREEK

3 Lecture Hours · 0 Lab Hours

## Proposed Admissions Changes Effective August 2014

The following presents proposed changes as they would appear in the relevant sections of the catalog.

- [MSHRM \(Master of Science in Human Resource Management\)](#)
- [Department of English Doctoral Program](#)
- [Master's in Accounting \(M.S.\) Professional Accounting \(M.P.A.\), Taxation \(M.S.\) Programs](#)
- [Public Administration Master's Program](#)
- [Urban Planning and Public Policy Ph.D. Program](#)

### MSHRM (Master of Science in Human Resource Management)

#### Summary of proposed changes:

1. GPA change from 3.25 to 3.0
2. Increase index score from 1080 to 1100
3. Increase GMAT score from 480 to 500
4. Increase GRE score to the 50th percentile.

Admission to the MSHRM program is based upon the completion of the general admission requirements of the Graduate School. For admission into the MSHRM program an acceptable score on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) and acceptable academic undergraduate performance are required. The GMAT is strongly preferred.

Students for whom English is not their native language must also take the Test of English as a Foreign Language (TOEFL), TOEFL iBT, Test of Spoken English (TSE) or International English Language Testing System (IELTS). International applicants that score below minimum acceptable levels on the verbal portion of entrance examinations may be admitted under the condition that they pass an English proficiency exam or complete UT Arlington's Graduate English Skills Program prior to beginning graduate coursework.

A standardized test score (GMAT or GRE) will not be used as the sole criterion for determining an applicant's admission to the MSHRM program. Specifically, multiple criteria are used to make admission decisions. Unconditional acceptance is based on consideration of all the information listed below and the decision to deny admission is not based on any single criterion.

Applicants are encouraged to submit with their application a resume that highlights professional and personal accomplishments, linguistic abilities, computer expertise and leadership experience.

Along with the grade point average and GMAT or GRE scores, admission criteria include the following:

1. An undergraduate grade point average (GPA) of 3.25-3.0 on a 4.0 scale, as calculated by the Graduate School, is typical of a successful candidate. The grade point average is calculated on your undergraduate degree using approximately the last 60 hours. A graduate grade point average is used in the index when it is 3.0 or above and is based on at least 24 hours. This will be integrated into a formula or index that multiplies the GPA by 200 and adds the resulting value to the GMAT Score. An index score greater than 1080-1100 is typical of a successful candidate.
2. A GMAT score of 500 or greater, with sub scores (verbal and quantitative) in the 30th percentile or greater is typical of a successful candidate. While the GMAT is strongly preferred, the GRE is acceptable. GRE sub scores (verbal and quantitative) in the 50th percentile or greater, is typical of a successful candidate.
3. International applicants must submit a score of at least 550 on the paper-based TOEFL, a score of at least 213 on the computer-based TOEFL, a minimum score of 40 on the TSE, a minimum score of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section to meet this requirement.
4. Grades in specified undergraduate business and non-business courses (math, accounting, economics, statistics, for example)
5. Educational objectives and quality of written expression of the 200 word application essay.
6. Letters of recommendation from three persons familiar with the applicant's academic background and/or work experience who can assess the applicant's potential success in graduate school.
7. General and specific program accreditation status of degree-granting institution.
8. Professional work experience.
9. Professional certification or licensure.

### Unconditional Admission

For unconditional admission, the applicant's composite total from the index must be 1080 or higher and items 1 through 9 above should strongly indicate potential for successful academic performance as a graduate HR student.

Students who are unconditionally admitted, have a minimum undergraduate grade point average of 3.00 as calculated by the Graduate School (or 3.00 at the graduate level), and enroll for a minimum of six semester credit hours will be eligible for available fellowship and/or scholarship support. A standardized test score (GMAT) will not be used as the sole criterion for determining fellowship and/or scholarship eligibility.

### Probationary Admission

For an applicant with an index score below 1080, probationary admission may be available when at least three items of 1 through 5 above strongly indicate potential for successful academic performance as a graduate HR student. Items 6 through 9 will also be used to identify positive indicators for admission. Students who are admitted on probation will have one or more conditions specified, such as no grade less than "B" for the first 12 hours of graduate study.

### Provisional, Deferred and Denied Admission

A provisional decision to admit may be granted when the applicant meets criteria for unconditional or probationary status but one or more applicant credentials are incomplete. A deferred decision may be made when an applicant's file is not sufficiently complete to make an admit or deny decision.

For an applicant with an index score less than 1040 and other evidence indicating lack of potential

for academic success as a graduate HR student, admission will likely be denied. However, all applicant data will be carefully reviewed before an admission denial is made

## Department of English Doctoral Program

### Summary of proposed changes:

1. Increase verbal subtest score requirement from 500 to 550 (old scoring method). As the scoring method on the GRE has changed, program includes the new score equivalent to 550, which is 156 on the new scale.
2. Expected length of the writing sample is defined (15-20 pages)

### Proposed Criteria for Admission: Ph.D. Program

1. A minimum GPA of 3.5 in the student's M.A. in English or a very closely related field. (If the M.A. is not in English, we will consider the undergraduate GPA as well as that of the M.A. Moreover, if the M.A. is not in a very closely related field, the prospective student will be admitted to the M.A. program in English, not the Ph.D.)
2. GRE scores: GRE scores: a minimum of at least 156 on the current verbal subtest (550 on the previous version) and at least a 4.5 on the Analytical Writing measure. We will not consider the math scores. We do not require the English subject test.
3. A writing sample of 15 to 20 pages that demonstrates a sophisticated prose style, the ability to engage in intellectually rigorous modes of analysis, and a strong knowledge of rhetoric, composition studies, literary studies, cultural studies, or interdisciplinary critical theory.
4. Letters of recommendation that attest to the student's intellectual and scholarly potential. At least two of these must be from former professors; at least one must be a professor from the student's Master's program.

### Deferred Decision

A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

### Provisional Admission

An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission.

### Probationary Admission

For both M.A. and Ph.D., students may be admitted on probation under two different scenarios: 1) if the prospective student's application materials do not meet two of the four standards, but are outstanding in the remaining two categories; or 2) if the prospective student's materials come extremely close to meeting the standards in at least three of the four areas. Students on academic probation must make no grade lower than a "B" in the first 12 hours of their graduate work in order to remain in the program.

### Denial

Admission will be denied if the application materials 1) do not meet the standards in three of the four categories; or 2) if the materials do not meet the standards in two of the categories, and in the remaining two categories meet the standards but in an unexceptional manner.

## Master's in Accounting (M.S.) Professional Accounting (M.P.A.), Taxation (M.S.) Programs

### Summary of proposed changes:

- Increase GMAT total score from 500 to 550;
- Increase GMAT percentile verbal score from 30th to 40th percentile;
- Increase GMAT percentile quantitative score from 30th to 40th percentile;

## Admissions Requirements

### Degree-Seeking Students Regular Admission

The Department of Accounting's (the Department) admission criteria for its master's programs have been developed to conform to State of Texas requirements and are based on the general admission requirements of the Graduate School. Applicants are encouraged to include a resume that highlights professional and personal accomplishments with their application.

All applications for admission are reviewed individually. Admission decisions are based on factors associated with academic success in graduate study and may include any of the following criteria:

1. undergraduate grade point average,
2. graduate grade point average,
3. GMAT scores,
4. professional work experience,
5. professional certification or licensure,
6. letters of reference,
7. the applicant's personal statement,
8. prior successful completion of a baccalaureate degree,
9. prior successful completion of a postbaccalaureate degree, and
10. general and specific program accreditation status of the applicant's degree granting institution(s).

Standardized test scores are not used as the sole criterion for admitting applicants or the primary criterion for denying admission to applicants.

Depending on the circumstances applicants may:

1. Have their application denied or deferred; or
2. Receive unconditional, probationary, or provisional admittance.

Applicants whose documentation does not satisfactorily demonstrate readiness for graduate study may be denied admission. A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate.

Unconditional admission is granted to applicants whose documentation clearly demonstrates a readiness for graduate study. Probationary admission may be granted to individuals who do not meet the Department's admission requirements but who nevertheless show promise for successful graduate study. Students admitted on this basis must meet certain academic requirements to remain in the program (such as no grade less than 'B' for first 12 hours of graduate study). An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission. Provisional status lasts through the initial semester of admission.

### Admission Criteria

The Department has four alternative sets of conditions that allow applicants to be unconditionally admitted without review by the Department's Admission and Petition Committee. The Departmental graduate advisor reviews all applications and determines if they qualify for admission under one of these four sets of criteria. Applicants who do not satisfy any of the following sets of conditions for unconditional admission are referred to the Departmental Admission and Petition Committee for consideration.

### **Unconditional Admission without Committee Review:**

Applicants qualify for unconditional admission without the need for review by the Departmental Admission and Petition Committee if they meet any one of the following four sets of unconditional admission criteria:

#### **Unconditional Admission Set #1: GPA/GMAT Condition**

Individuals who meet each of the following five conditions are given unconditional admission:

- GPA on last 60 hours of undergraduate work is at least 3.0;
- GMAT total score is at least 550;
- GMAT verbal score at the 40th percentile or higher;
- GMAT quantitative score at the 40th percentile or higher; and
- Applicant holds an earned bachelor's degree from an accredited college or university.

#### **Unconditional Admission Set #2: GMAT Waiver Condition**

This unconditional admission set #2 focuses on the applicant's performance in UTA's undergraduate accounting program. Individuals who meet all of the following seven conditions are given unconditional admission.

- Graduated from UTA (with a bachelor's degree) within three years of expected entrance into the graduate program;
- Completed at least 60 semester hours at UTA;
- Majored in accounting at UTA;
- Has a 3.25 overall GPA at UTA;
- Has a 3.25 accounting GPA at UTA;
- Has a 3.25 GPA in all advanced work at UTA; and
- Has a 3.25 GPA in the last 60 semester hours completed at UTA.

Applicants may receive provisional admission under this set if they have not yet completed their last undergraduate semester at UTA. The provision is removed when they are awarded their undergraduate degree.

Applicants should be aware that this waiver applies for admission only to the Department's graduate programs. Other UTA graduate programs (such as the College of Business' MBA program) may require submission of a GMAT score before admission or transfer into their program. The Department will not accept GMAT waivers given to students in other graduate programs unless the student meets all the requirements specified above.

#### **Unconditional Admission Set #3: Professional Credential Condition**

This unconditional admission set # 3 focuses on the applicant's undergraduate grade point average and possession of a recognized professional accounting credential or license. Individuals who meet each of the following four (4) conditions are given unconditional admission.

- Graduated from an accredited college or university with an earned bachelor's degree;
- Has an overall undergraduate GPA of at least 3.0;
- Has an overall undergraduate major GPA of at least 3.0; and
- Holds a current and recognized professional accounting credential or license, including but not limited to:
  - Certified Public Accountant,
  - Certified Management Accountant,
  - Certified Internal Auditor,
  - Certified Financial Analyst,
  - Certified Fraud Examiner,
  - Chartered Accountant, or

- Certified Valuation Analyst.

#### **Unconditional Admission Set 4: Successful Postbaccalaureate Education Condition**

This unconditional admission set #4 focuses on the applicant's previous successful completion of a postbaccalaureate degree with an acceptable graduate grade point average. Individuals who meet each of the following three conditions are given unconditional admission.

- Graduated from an AACSB accredited college or university with a postbaccalaureate degree (e.g., master's degree, JD degree, LLM degree, MD degree, Ph.D. degree);
- Has an overall graduate GPA of at least 3.0; and
- Has a graduate GPA of at least 3.0 in the major area.

#### **Admission with Committee Review**

Applicants who require committee review are considered for admission using the following factors, with no single factor used as the primary criterion for making admission decisions.

- Undergraduate and graduate GPA (overall, major, and last 60 hours) and program accreditation status of the applicant's degree granting institution;
- Score on the GMAT (including separate scores on the verbal and quantitative portions);
- Applicant's professional work experience and professional certification/licensure; and
- Letters of reference and personal statement provided by the applicant.

To qualify for unconditional admission with committee review, applicants must hold an earned bachelor's degree from an accredited college or university and are expected to show significant strength in at least three of the four areas listed above. The Admission and Petition Committee may also grant probationary admission to applicants who demonstrate significant strength in at least two of the four areas listed above.

By considering the totality of the applicant's circumstances, including the factors listed above, the Admission and Petition Committee will evaluate an applicant's readiness to successfully complete one of the Department's graduate programs. Depending on the judgment of the committee, the decision may be to grant unconditional admission, probationary admission, provisional admission, deferred admission, or to deny admission. The decision of the committee is final.

International applicants must submit a score of at least 550 on the paper-based TOEFL, a score of at least 213 on the computer-based TOEFL, a minimum of 40 on the TSE, a minimum of 6.5 on the IELTS, or a minimum TOEFL iBT total score of 79 with sectional scores that meet or exceed 22 for the writing section, 21 for the speaking section, 20 for the reading section, and 16 for the listening section to meet this requirement. International applicants who score below the minimums above may be admitted with the condition that they pass an English proficiency examination or complete UTA's Graduate English Skills Program prior to beginning graduate coursework. However, the TOEFL score requirement is waived if the applicant holds either a bachelor's or a master's degree from an AACSB accredited US college or university.

#### **Professional Program in Accounting**

The Department of Accounting offers a Professional Program in Accounting (PPIA) that allows students to earn both a bachelor's degree and master's degree upon completion of an integrated 152-hour program. This integrated program can be completed in approximately one less semester than required to earn separate bachelor's and master's degrees. Students completing this program will have earned sufficient hours to sit for the CPA exam.

#### **PPIA Admission Requirements**

The Department of Accounting's (the department) admission criteria for its PPIA program have been developed to conform to State of Texas requirements and are based on the general admission requirements of the Graduate School. Applicants are encouraged to include a resume that highlights professional and personal accomplishments with their application.

All applications for admission to the PPIA program are reviewed individually. Admission decisions are based on factors associated with academic success in graduate study and may include any of the following criteria: (1) undergraduate grade point average, (2) performance in accounting classes at UTA, (3) GMAT scores, (4) professional work experience, (5) personal accomplishments, (6) letters of reference, and (7) the applicant's personal statement. Standardized test scores are not used as the sole criterion for admitting applicants or denying admission to applicants.

### **Admission Criteria**

The Department has two alternative sets of conditions that allow applicants to be unconditionally admitted to the PPIA program without review by the Departmental Admission and Petition Committee. The Departmental Graduate Advisor reviews all applications and determines if they qualify for admission under one of these two sets of criteria. Applicants who do not satisfy any of the following sets of conditions for unconditional admission are referred to the Departmental Admission and Petition Committee for consideration.

#### **Option #1: Unconditional Admission without Committee Review**

Individuals who meet each of the following eight conditions are given unconditional admission:

- Overall undergraduate GPA is at least 3.0;
- UTA undergraduate GPA is at least 3.0;
- UTA accounting GPA is at least 3.0;
- Have completed at least 9 semester hours of accounting study (beyond principles) at UTA;
- Have completed at least 45 semester hours of coursework at UTA;
- GMAT total score is at least 550;
- GMAT verbal score at the 40th percentile or higher; and
- GMAT quantitative score at the 40th percentile or higher.

#### **Option #2: Unconditional Admission with GMAT Waiver**

This unconditional admission option #2 focuses on the applicant's performance in UTA's undergraduate accounting program. Individuals who meet all of the following six conditions are given unconditional admission.

- Majoring in accounting at UTA;
- Have completed at least 9 semester hours of accounting study (beyond principles) at UTA;
- Overall undergraduate GPA is at least 3.25;
- UTA accounting GPA is at least 3.25;
- Have completed a minimum of 60 semester hours at UTA;
- Have a GPA of at least 3.25 for the most recent 60 semester hours of courses completed at UTA.

### **Admission with Committee Review**

PPIA applicants who require Committee review are considered for admission using the following factors, with no single factor used as the primary criterion for making admission decisions.

- Undergraduate GPA (overall, UTA undergraduate) and performance in accounting courses at UTA;
- Score on the GMAT (including separate scores on the verbal and quantitative sections);
- Applicant's professional work experience and personal accomplishments;
- Letters of reference and personal statement provided by the applicant.

Unconditional admission is granted to applicants whose documentation clearly demonstrates a readiness for graduate study. By considering the totality of the applicant's circumstances, including the factors listed above, the Admission and Petition Committee will evaluate an applicant's readiness to successfully complete one of the Department's graduate programs. To qualify for

unconditional admission with committee review, applicants are expected to show significant strength in at least three of the four areas listed above. An applicant unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements may be granted provisional admission. Provisional status lasts through the initial semester of admission. Applicants whose documentation does not satisfactorily demonstrate readiness for graduate study may be denied admission. A deferred decision may be granted when a file is incomplete or when a denied decision is not appropriate. The decision of the Committee is final.

## Public Administration Master's Program

### Summary of proposed changes:

Will waive GRE requirement if applicant meets any of the following conditions:

1. A 3.25 or higher undergraduate GPA based on the last 60 hours of course work AND at least three years professional non-profit or public service work experience (as judged by the MPA admission committee.)
2. A completed graduate degree from an accredited program in a related field such as, but not exclusively, political science, economics, urban planning, social work, criminal justice, and sociology OR a 3.0 higher after 12 hours of coursework in the accredited graduate degree program.
3. A commensurate UTA B.A. or B.S., completed no more than three academic years prior to admission to the graduate program, with 3.0 or higher GPA in the last 60 hours of coursework. Commensurate fields include, but not exclusively, political science, economics, urban planning, social work, criminal justice, and sociology.
4. An equivalent GMAT or LSAT score from an exam taken within the last two years preceding the time of application. As the GMAT and LSAT are not directly comparable to the GRE, an equivalent performance is judged by the admission committee but will usually be based on percentile rank performance.

### Proposed Text Describing GRE Waiver

#### Waiving the GRE

The MPA program waives the requirement that an applicant take the GRE under any of the following conditions:

1. A 3.25 or higher undergraduate GPA based on the last 60 hours of course work AND at least three years professional non-profit or public service work experience (as judged by the MPA admission committee.)
2. A completed graduate degree from an accredited program in a related field such as, but not exclusively, political science, economics, urban planning, social work, criminal justice, and sociology OR a 3.0 higher after 12 hours of coursework in the accredited graduate degree program.
3. A commensurate UTA B.A. or B.S., completed no more than three academic years prior to admission to the graduate program, with 3.0 or higher GPA in the last 60 hours of coursework. Commensurate fields include, but not exclusively, political science, economics, urban planning, social work, criminal justice, and sociology.
4. An equivalent GMAT or LSAT score from an exam taken within the last two years preceding the time of application. As the GMAT and LSAT are not directly comparable to the GRE, an equivalent performance is judged by the admission committee but will usually be based on percentile rank performance.

## Urban Planning and Public Policy Ph.D. Program

### Summary of proposed changes:

- Add emphasis on “flexible use” use of GRE scores in admission decisions, emphasizing that the importance of evidence of verbal or quantitative skills will vary with the applicant’s intended area of study.
- Propose to waive GRE requirement for students with Master’s degrees who have been employed in positions where work-related responsibilities increased over time.
- Includes description of University minimum standardized test requirements for demonstrating proficiency in English.
- Eliminate one path to admission where higher GPA offset lower performance on the GRE Verbal subtest.

## Proposed Admission Criteria

### Application Requirements and Deadlines

Along with the Graduate School application requirements, a complete application includes:

1. Official transcripts from colleges and universities attended. Information about submitting transcripts is available in the Graduate Catalog; and
2. Official test score reports for the Graduate Record Exam (GRE) and, for international applicants, the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Information about submitting official test scores is available from the Graduate Catalog. The ETS code for UTA is 6013; and
3. Three Letters of Recommendation. Letters should attest to the applicant’s ability to do Doctoral-level work and complete the dissertation. Letters must be from references who hold a Ph.D. degree; and
4. Essay by applicant approximately one double-spaced page in length (approximately 250 words). The essay is considered both for its content and writing quality. The essay should discuss research agenda, identify the faculty you wish to work with, and state the reasons for wanting to earn the Doctoral degree.

Official transcripts and test scores must be sent directly to the Graduate School by the institution and ETS respectively. Letters of recommendation and personal essay should be sent directly to: UPPP Admissions Committee, SUPA Box 19588, Arlington TX 76019 or email to the program’s Graduate Advisor. It is the applicant’s responsibility to ensure all application materials are received by February 1. Incomplete applications or applications received after the deadline will be deferred.

UPPP program admits doctoral students for fall and spring semester admissions. The application deadline for the UPPP program is February 1 for Fall semester and July 1 for Spring semester.

Applicants may be typically admitted unconditionally with a graduate GPA of 3.6, a Verbal GRE score of at least 153 (500 if test was taken before August 1, 2011) and a Quantitative GRE score of at least 144 (500 if test was taken before August 1, 2011). GRE requirements are applied flexibly as different areas of study vary in the relative importance of quantitative and verbal analysis. Applicants should contact the Graduate Advisor if uncertain whether their area of primary interest requires more strength in either quantitative or verbal analysis. Applicants with an interest in areas with quantitative emphasis typically meet the minimum Quantitative GRE score requirement, but may be admitted with a lower than typical GRE Verbal score. Applicants pursuing study in less quantitative but more verbally analytic areas typically meet the GRE Verbal score minimum, but may be admitted with lower than typical GRE Quantitative scores. However, in no case will standardized test performance be the sole or primary determinant of admissibility. Strength of letters of recommendation, and quality of personal statement and Master’s degree field of study are also considered carefully. U.S. students with a Master’s degree from an accredited U.S. institution and several years of increasing responsibilities on the job are not required to submit GRE scores. International applicants are also required to have a score of 213 or higher on the TOEFL (550 or higher on the written TOEFL; 79 or higher on TOEFL iBT).

Applicants not admitted unconditionally may be considered for admission on probation based on factors mentioned above as well as multilingual proficiency, first generation graduate student from family and community service experience. The Doctoral admissions committee will set the

probationary conditions.

The admissions committee may defer the admission decision when a component of the application is incomplete. It may also admit a student provisionally when an applicant is unable to supply all required documentation prior to the admission deadline but who otherwise appears to meet admission requirements.

## University Profile

The University of Texas at Arlington is located in the heart of the Dallas/Fort Worth Metroplex, one of the fastest growing areas in the nation. UT Arlington is a Carnegie doctoral-extensive teaching, research and public service university offering an array of baccalaureate, master's, doctoral and professional degrees. A modern 392-acre campus a few blocks from downtown Arlington offers easy access to museums, concerts, ballet, theater, family recreation, professional sports and other amenities.

Founded in 1895 as Arlington College, a private liberal arts institution, UT Arlington has undergone a succession of names, ownerships and missions. The University was elevated to senior college status in 1959 and was transferred from the Texas A&M System to The University of Texas System in 1965. Its final name change came in 1967, when it became The University of Texas at Arlington.

The University of Texas at Arlington has an enrollment of about 34,000 students. The student body is diverse with students representing almost every state in the United States and more than 100 countries. The University's academic units include the School of Architecture, College of Business, College of Education and Health Professions, College of Engineering, Honors College, College of Liberal Arts, College of Nursing, College of Science, School of Social Work, and School of Urban and Public Affairs. Additionally, the Graduate School oversees the administration of academic programs beyond the baccalaureate level.

In response to societal needs, UT Arlington has evolved into a renowned university within the state and one of emerging position nationally and internationally. The University's history of achievement can be attributed to its outstanding faculty; a strong student body; a record of success by graduates in their respective fields; and the growth of the Dallas/Fort Worth area as a nationally and internationally significant metropolis.

## Mission Statement

The University of Texas at Arlington is a comprehensive research, teaching, and public service institution whose mission is the advancement of knowledge and the pursuit of excellence. The University is committed to the promotion of lifelong learning through its academic and continuing education programs and to the formation of good citizenship through its community service learning programs. The diverse student body shares a wide range of cultural values and the University community fosters unity of purpose and cultivates mutual respect.

As a University, we affirm our commitment to the following objectives:

- The University is committed to comprehensive programs of academic research. This research effort requires attracting and retaining scholars who promote a culture of intellectual curiosity, rigorous inquiry, and high academic standards among their fellow faculty and the students they teach.
- The University prepares students for full, productive lives and informed and active citizenship. To that end, we have developed undergraduate and graduate curricula and classroom practices that engage students actively in the learning process. Outside the classroom a wide range of student organizations and activities contribute to the learning environment. Our service learning program offers students the opportunity to supplement

their academic study with internships in a variety of community settings, testing their skills and aptitudes and challenging their values. State-of-the-art teaching technologies, distance education, and off-site instruction afford access to off-campus as well as traditional students. Non-degree certificate and continuing education programs offer practical, aesthetic, and intellectually stimulating opportunities for community learners, for individual courses or a sustained program of study.

- The mission of a university can be achieved only when its students, faculty, staff, and administrators value and promote free expression in an atmosphere of tolerance, responsibility, and trust. The University regards these attributes as prerequisites for any community of learners and vigilantly strives to maintain them.
- Mindful of its role as a resource to the community, locally, nationally, and internationally, the University continually seeks partnerships with public and private concerns in order to advance the economic, social, and cultural welfare of its constituencies. We serve the needs of the North Texas community by sponsoring public lectures and academic symposia, as well as artistic, musical, and dramatic productions.

## Accreditation

The University of Texas at Arlington is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award baccalaureate, master's and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation status of The University of Texas at Arlington.

In addition, many of UT Arlington's academic departments and schools have received national accreditation from specific agencies. These accreditations are detailed under the individual listings for departments and schools in this catalog.

Since 1993, students and faculty of The University of Texas at Arlington have benefited from its membership in Oak Ridge Associated Universities. ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of under-represented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at [www.ornl.gov/orise/educ.htm](http://www.ornl.gov/orise/educ.htm), or by calling either of the contacts below.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Ronald L. Elsenbaumer  
Vice President for Research  
ORAU Councilor for The University of Texas at Arlington

Monnie E. Champion

ORAU Corporate Secretary (865.576.3306); or  
Visit the ORAU home page ([www.orau.org](http://www.orau.org))

## Government

The government of UT Arlington is vested in a nine-member Board of Regents of The University of Texas System, nominated by the governor and approved by the Senate. The Office of the Chancellor is the chief administrative office of The University of Texas System and is located in Austin. The chief administrative officer of UT Arlington is the University president, under authority of the Office of the Chancellor of the UT System and the Board of Regents. A complete statement of the authority and duties of the Regents and of the several officers, together with an account of the organization of the system, is published in the Rules and Regulations of the Board of Regents of The University of Texas System.

## Equal Opportunity Policy

The University of Texas at Arlington complies with the Equal Pay Act of 1963, Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11246, the Age Discrimination in Employment Act of 1967, Title IX of the Educational Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, 1990, the Vietnam Era Veterans Readjustment Act of 1974, the Texas Commission on Human Rights Act and the Rules and Regulations of the Board of Regents of The University of Texas System. It is the policy of The University of Texas at Arlington that to the extent provided by these applicable laws no person shall, on the basis of race, color, national origin, religion, age, sex, disabilities or veteran status, be denied employment or admission, be excluded from participation in, be denied the benefits of or subject to discrimination under, any program or activity that it sponsors or conducts. It is also the University's policy to maintain an environment free from discrimination on the basis of sexual orientation.

Inquiries concerning the application of this policy and complaints of discrimination should be directed to the Office of Equal Opportunity and Affirmative Action, 710 S. Davis Drive, Office and Classroom Building (OCB), Room 103, 817.272.2106. E-mail: [eoaa@uta.edu](mailto:eoaa@uta.edu). Web site: [www.uta.edu/eoaa](http://www.uta.edu/eoaa).

## Sexual Harassment, Sexual Misconduct and Consensual Relationships Policy

The University of Texas at Arlington is committed to an academic and working environment free from inappropriate conduct of a sexual nature. Sexual harassment is a prohibited practice under Title VII of the Civil Rights Act of 1964 for employees as amended by the Equal Employment Opportunity Act of 1973, and the Texas Commission on Human Rights Act for students under Title IX of the Education Amendments of 1972. Sexual harassment, sexual misconduct and consensual relationships between faculty members and the students they currently teach or supervise, and between employees in positions of authority and their subordinates, are prohibited under University policy and are sanctionable.

Sexual harassment includes, but is not limited to, unwelcome sexual advances, requests for sexual favors, insults, sexual threats, innuendoes and other verbal or physical conduct of a sexual nature under circumstances where: 1) submission to such conduct is made either explicitly or implicitly a term or condition of employment (or a student's status in a course, program or activity); 2) submission to or rejection of such conduct by an employee is used as a basis for employment decisions affecting the individual (or in the case of a student, it is used as a basis for academic or other decisions affecting a student); or 3) such conduct has the purpose or effect of unreasonably interfering with the individual's employment (or the student's educational experience), or of creating an intimidating, hostile or offensive academic environment.

Inquiries concerning the application of this policy and complaints of sexual harassment should be directed to the Office of Equal Opportunity and Affirmative Action, 710 S. Davis Drive, Office and Classroom Building (OCB), Room 103, 817.272.2106. Email: [eoaa@uta.edu](mailto:eoaa@uta.edu). For policy and additional information visit Web site: [www.uta.edu/eoaa](http://www.uta.edu/eoaa).

## UT Arlington/Fort Worth Center

UT Arlington/Fort Worth Center strives to serve the Fort Worth community with excellence in accessible, state-of-the-art, and affordable higher education. The Fort Worth Center is committed to:

- meeting the lifelong learning needs of working professionals
- offering graduate programs in convenient times and formats including evenings and weekends
- having the vision and flexibility to capitalize on global opportunities that address the economic development needs of the community
- UT Arlington/Fort Worth Center offers master degree programs tailored for working adults. The Executive MBA cohort program is designed for upper-level executives and can be completed in 15 months. The cohort-based MBA program starts every fall and spring semester and takes 24 months to complete. The cohort-based Master of Science in Healthcare Administration spans 24 months. The Scholars of Practice (M.Ed.) program is uniquely designed for graduate students seeking their Master of Education degree with Texas principal certification. This field-based administrator preparation experience spans five consecutive university semesters over an 18-month period. The Master of Science in Systems Engineering is a 36-hour program offered by the College of Engineering that consists of classroom and online instruction. The program takes 24 months to complete. The Master of Science in Information Systems provides managers of various functional business areas the necessary knowledge to effectively interface with the Information Technology organization and can be completed in just 17 months. The School of Urban and Public Affairs offers a Master of Public Administration cohort at the Fort Worth Center. The degree can be completed in 24 months and is focused on Urban Management. The Master of Arts in Criminology and Criminal Justice cohort program at the Center can be completed in 24 months. The Master of Science in Social Work is now being offered at the Fort Worth Center, which can be completed in 24 months. The Master of Science in Real Estate program accepts students every semester and can be completed in as little as one year. A sustainability concentration is offered in the MS in Real Estate program and is available in Dallas and Fort Worth. These UT Arlington/Fort Worth Center graduate programs are the highest quality and most affordable of their kind in the Tarrant County region.
- In addition, UT Arlington/Fort Worth Center provides select non-credit professional development and continuing education courses in downtown Fort Worth. The Center's Gallery 76102 is a community art space exhibiting contemporary work from local artists. Since its opening it has become an integral part of the Fort Worth art community.
- UT Arlington/Fort Worth Center has an excellent central location in downtown Fort Worth at 1401 Jones Street, Fort Worth, Texas 76102. Please access the UT Arlington/Fort Worth Center's Web site, [www.uta.edu/fortworth](http://www.uta.edu/fortworth), for more information. The main information phone number is 817.272.5988.

### Center for Distance Education

The Center for Distance Education serves as an information and coordination site for distributed education efforts at UT Arlington. University undergraduate and graduate courses and degree programs are delivered off-campus in numerous electronic formats, including videotape/DVD, videoconferencing and via the Internet. Center staff promote and support the use of both established and emerging digital tools for teaching and learning.

For more information on the Center for Distance Education, located at 201A E. Abram St., call 817.272.5727 or 888-UTA-DIST. Fax: 817-272-5728. E-mail: [info@distance.uta.edu](mailto:info@distance.uta.edu). Web site: <http://distance.uta.edu>.

## Graduate School

- [Mission and Philosophy](#)
- [History and Overview](#)
- [Office of Graduate Studies Website](#)

### Mission and Philosophy

The Graduate School is administratively located in the Office of Graduate Studies.

The goal of graduate study is the development of a student's ability for creative research, critical evaluation and scholarship in a particular discipline or in interrelated disciplines. Graduate study actively involves students in research, and by sharing in investigations with their professors, graduate students acquire the spirit as well as methods of creative scholarship. Achievement of the goal is demonstrated by preparation of reports, theses and dissertations. In practice-oriented and teaching-oriented graduate programs, emphasis is on preparation for careers in application of existing knowledge in professional practice and teaching.

### History and Overview

The Graduate School is the focus of advanced studies and research in the University. A graduate faculty of more than 400 makes the Graduate School an important influence in creating high standards for academic accomplishment and in achieving an intellectual environment of the highest quality for the University community.

The Graduate School of The University of Texas at Arlington was established in 1966 with the initiation of six master's degree programs. Doctoral degree programs were added in 1969 with a Ph.D. in engineering. Today the University offers master's degrees in 74 disciplines or interdisciplinary programs and 30 doctoral degree programs.

### Office of Graduate Studies Website

Students and applicants are encouraged to visit the Office of Graduate Studies website at <http://grad.uta.edu> to locate important information about graduate programs and the admissions process. The website is organized into user groups that link students with all the important Web resources on campus.

1. The [Prospective Students](#) section located in this website lists admission and application information as well as application forms.
2. Many people considering graduate study at The University of Texas at Arlington visit our campus to attend a [Graduate Forum](#). This provides an opportunity to evaluate programs in detail and meet graduate advisors and faculty. Information about these events and a convenient reservation system are provided on the website through the Graduate Forums section.
3. Newly admitted students are encouraged to visit this website and complete a [Virtual Tour](#) that quickly familiarizes them with advising, registration and vital campus support.
4. Newly admitted and currently enrolled students can obtain information on Graduate

School rules and procedures, and obtain forms needed by current graduate students through the **Forms for Students** section.

## Course Designation System

### Student Responsibility

Graduate students assume full responsibility for knowledge of all Graduate School and University rules, regulations and deadlines published in the Graduate Catalog and of all departmental and program requirements concerning their degree programs.

### Academic Dishonesty

All students are expected to pursue their academic careers with honesty and integrity. Academic dishonesty includes, but is not limited to, cheating on a test or other coursework, plagiarism (offering the work of another as one's own) and unauthorized collaboration or file sharing with another person. Students found responsible for dishonesty in their academic pursuits are subject to penalties that may range from disciplinary probation, suspension or expulsion from the University. Unauthorized distribution of copyrighted material may subject students to civil and criminal penalties. Information concerning the legal consequences of such violations may be found in *Copyright Law of the United States of America and Related Laws Contained in Title 17 of the United States Code*, Circular 92 (<http://www.copyright.gov/title17/92chap5.html#504>)

In accordance with the Rules and Regulations of the Board of Regents of The University of Texas System (Rule 50101), institutional procedures regarding allegations of academic dishonesty are outlined in Part Two, Chapter 2, of the UT Arlington Handbook of Operating Procedures. This information may be obtained by accessing the Student affairs' Web site at [www.uta.edu/studentaffairs/](http://www.uta.edu/studentaffairs/) or the Student Judicial Affairs' Web site at [www.uta.edu/studentaffairs/judicialaffairs](http://www.uta.edu/studentaffairs/judicialaffairs). Copies of each regulation can be obtained in the Dean of Students' Office on the third floor of Davis Hall.

### Student Conduct and Discipline

The University of Texas at Arlington reserves the right to impose disciplinary penalties, including permanent expulsion, against a student for disciplinary reasons. Information about the rules of conduct and due process procedures is published in Rule 50101 of the *Rules and Regulations* of the Board of Regents of The University of Texas System. The Regents' *Rules and Regulations* may be accessed at <http://www.utsystem.edu/BOR/rules.htm>. This information is also published in the UT Arlington Handbook of Operating Procedures, available online at [www.uta.edu/policy](http://www.uta.edu/policy)

### Hazing

Hazing in state educational institutions is prohibited by both state law (Sections 51.936 & 37.151 et seq., *Texas Education Code*) and by the *Regents' Rules and Regulations* (Rule 50101). Individuals or organizations engaging in hazing could be subject to fines and charged with criminal offenses. Additionally, the law does not affect or in any way restrict the right of the University to enforce its own rules against hazing.

#### Individuals

A person commits an offense if the person:

1. engages in hazing;
2. solicits, encourages, directs, aids or attempts to aid another engaging in hazing;
3. recklessly permits hazing to occur; or
4. has firsthand knowledge of the planning of a specific hazing incident involving a student in an educational institution, or has firsthand knowledge that a specific hazing incident has occurred, and knowingly fails to report that knowledge in writing to the dean of students or other appropriate official of the institution.

#### Organizations

An organization commits an offense if the organization condones or encourages hazing or if an

officer or any combination of members, pledges, or alumni of the organization commits or assists in the commission of hazing.

### Definition

The term "hazing" is broadly defined by statute to mean any intentional, knowing, or reckless act, occurring on or off the campus of an educational institution, by one person alone or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in an organization. Hazing includes, but is not limited to:

- any type of physical brutality, such as whipping, beating, striking, branding, electronic shocking, placing of a harmful substance on the body, or similar activity;
- any type of physical activity, such as sleep deprivation, exposure to the elements, confinement in a small space, calisthenics, or other activity that subject the student to unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student;
- any activity involving the consumption of a food, liquid, alcoholic beverage, liquor, drug or other substance that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student;
- any activity that intimidates or threatens the student with ostracism, that subjects the student to extreme mental stress, shame or humiliation, that adversely affects the mental health or dignity of the student or discourages the student from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a student to leave the organization or the institution rather than submit to acts described in this subdivision; and
- any activity that induces, causes, or requires the student to perform a duty or task that involves a violation of the Penal Code.

The fact that a person consented to or acquiesced in a hazing activity is not a defense to prosecution.

The University of Texas System Board of Regents' *Rules and Regulations*, Rule 50101, Sec. 2.8 provides that, "Any student who, acting singly or in concert with others, engages in hazing is subject to discipline. Hazing in State educational institutions is prohibited by State law (*Texas Education Code*, Section 51.936). Hazing with or without the consent of a student whether on or off campus is prohibited, and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing subject to discipline. Initiations or activities of organizations may include no feature that is dangerous, harmful, or degrading to the student, and a violation of this prohibition renders both the organization and participating individuals subject to discipline."

Hazing with or without the consent of a student is prohibited by the System, and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing subject to discipline. Initiations or activities by organizations may include no feature which is dangerous, harmful, or degrading to the student, and a violation of this prohibition renders both the organization and participating individuals subject to discipline. Activities which under certain conditions constitute acts that are dangerous, harmful, or degrading, in violation of Rules include but are not limited to: calisthenics, such as sit-ups, push-ups, or any other form of physical exercise; total or partial nudity at any time; the eating or ingestion of any unwanted substance; the wearing or carrying of any obscene or physically burdensome article; paddle swats, including the trading of swats; pushing, shoving, tackling, or any other physical contact; throwing oil, syrup, flour, or any harmful substance on a person; rat court, kangaroo court, or other individual interrogation; forced consumption of alcoholic beverages either by threats or peer pressure; lineups intended to demean or intimidate; transportation and abandonment (road trips, kidnaps, walks, rides, drops); confining individuals in an area that is uncomfortable or dangerous (hot box effect, high temperature, too small); any type of personal servitude that is demeaning or of personal benefit to the individual members; wearing of embarrassing or uncomfortable clothing; assigning pranks such as stealing; painting objects; harassing other organizations; intentionally messing up the house or room for clean up; demeaning names; yelling and screaming; and requiring boxing

matches or fights for entertainment.

### Immunity

In an effort to encourage reporting of hazing incidents, the law grants immunity from civil or criminal liability to any person who reports a specific hazing event in good faith and without malice to the dean of students or other appropriate official of the institution and immunizes that person for participation in any judicial proceeding resulting from that report. Additionally, a doctor or other medical practitioner who treats a student who may have been subjected to hazing **may** make a good faith report of the suspected hazing activities to police or other law enforcement officials and is immune from civil or other liability that might otherwise be imposed or incurred as a result of the report. The penalty for failure to report is a fine of up to \$1,000, up to 180 days in jail, or both. Penalties for other hazing offenses vary according to the severity of the injury which results and include fines from \$500 to \$10,000 and/or confinement for up to two years.

### Campus Solicitations

"Solicitation," as defined in Rule 80103 of the Rules and Regulations of the Board of Regents of The University of Texas System, means the sale, lease, rental or offer for sale, lease, rental of any property, product, merchandise, publication or service, whether for immediate or future delivery, an oral statement or the distribution or display of printed material, merchandise or products that is designed to encourage the purchase, use or rental of any property, product, merchandise, publication or service, the receipt of or request for any gift or contribution, or the request to support or oppose or to vote for or against a candidate, issue or proposition appearing on the ballot at any election held pursuant to state or federal law or local ordinances. All solicitations on the UT Arlington campus must conform to the Regents' Rules and Regulations, copies of which are available in the offices of the president, vice presidents, academic deans, numerous other administrative offices and the Central Library. The Regents' Rules and Regulations also may be accessed at the following Web site: [www.utsystem.edu/bor/rules.htm](http://www.utsystem.edu/bor/rules.htm).

### Use of Campus Facilities

The property, buildings or facilities owned or controlled by The University of Texas at Arlington are not open for assembly, speech or other activities as are the public streets, sidewalks and parks. No person, organization, group, association or corporation may use property, buildings or facilities owned or controlled by UT Arlington for any purpose other than in the course of the regular programs or activities related to the University's role and mission unless authorized by and conducted in compliance with the Rules and Regulations of the Board of Regents of The University of Texas System, approved rules and regulations of UT Arlington, and applicable federal, state and local laws and regulations.

### Vehicle Emissions Inspections

Vehicles parking or driving on campus must comply with vehicle emissions inspections standards pursuant to Subchapter F, Chapter 548 of the Texas Transportation Code and vehicle registration laws, and must display appropriate inspection stickers. Non-resident students, those who reside in another state and whose vehicle is registered in another state, while attending this University, will be required by the State of Texas to submit their vehicle for emissions inspection each year prior to receiving a parking permit. Vehicles not in compliance will be ticketed.

### Student Travel Policy

Before any student organization travels, it is beneficial to visit the Office of Student Governance and Organizations to receive information about liability and to consider using release forms that are available.

However, if the trip is funded by the University (including Program Assistance Funds), is more than 25 miles from the University, and the vehicle is owned or leased by the University, or if attendance is required by a student organization, then the organization must submit the Student/Group Travel Form and the University Request for Travel Authorization at least 10 days prior to the date of travel. All forms and additional information is available in the Office of Student Governance and

Organizations. For additional information, see the UT Arlington Handbook of Operating Procedures, Part II, Subchapter 6-600.

## University Authorized Absences

The Office of the Vice President for Student Affairs provides lists of students who have absences authorized by the University (e.g., participation in athletic events or scholastic activities that are officially-sponsored University functions these are primarily activities that are funded by the University). The student must contact the instructor one week in advance of the excused absence and arrange with the instructor to make up missed work or missed examinations. Instructors will provide those students an opportunity to make up the work or otherwise adjust the grading to ensure that the student is not penalized for the absence. Failure to notify the instructor or failure to comply with the arrangements to make up the work will void the excused absence.

## Security

### Gang-Free Zones

To promote campus safety and deter crime, premises owned, rented or leased by The University of Texas at Arlington, and areas within 1,000 feet of the premises are "gang-free" zones. Certain criminal offenses, including those involving gang-related crimes, will be enhanced to the next highest category of offense if committed in a gang-free zone by an individual 17 years or older. See Texas Penal Code, Section 71.028.

### Student Right-to-Know and Campus Security Act

In compliance with the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, formerly the Student Right-to-Know and Campus Security Act (P.L. 101-542, as amended), The University of Texas at Arlington publishes specified campus crime statistics and campus security policies through the Office of the Chief of the University Police.

Information on Campus safety and security policies may be found at [policy.uta.edu/index.php?navid=17492](http://policy.uta.edu/index.php?navid=17492) and [www.uta.edu/policy/documents/police/campus-safety-report.pdf](http://www.uta.edu/policy/documents/police/campus-safety-report.pdf). Additional information on policies and procedures pertaining to safety may be found at [www.uta.edu/policy/procedure](http://www.uta.edu/policy/procedure).

This information includes:

- Procedures for reporting criminal actions or other emergencies occurring on campus.
- Policies concerning security of and access to campus facilities, including campus residences; campus law enforcement authority and responsibilities.
- A description of programs designed to inform students and employees about the prevention of crimes, and campus security procedures.
- The policy of monitoring and recording of students' criminal activity occurring at off-campus locations of student organizations officially recognized by the institution.
- The policy regarding the possession, use and sale of alcoholic beverages and illegal drugs, and enforcement of federal and state drug and drinking laws.
- A description of drug or alcohol-abuse education programs.
- Sexual assault programs to prevent sex offenses, and procedures to follow when a sex offense occurs.
- Fire Safety and procedures Gang free zones and consequences of engaging in organized criminal activities in these zones
- Policy on emergency response and emergency notification procedures involving immediate threat and campus evacuation.
- Missing student information

Crime statistics may be accessed on the University Police Web site at [policy.uta.edu/index.php?navid=17496&resid=17826](http://policy.uta.edu/index.php?navid=17496&resid=17826).

## Student Educational Records Policy

Students may have access to their own educational records during regular office hours by contacting the person or the office that maintains these records. A student may appear in person or make a written request for a copy of the record to be mailed. Another person may not see a student's educational records unless the student gives written permission. One exception allows a parent or guardian who is providing one-half or more of the student's financial support to obtain the educational record. Faculty and staff members of the University have access to student educational records in performance of regular duties. If an educational record contains information on more than one student, then a student desiring access may review only parts pertaining to that student.

Students may have official copies of their UT Arlington transcripts mailed to other institutions or may obtain copies for their own use. A student must sign a request form in the Registrar's Office or mail a signed, written request to release the transcript. Transcripts also may be requested through the UT Arlington Web page at [www.uta.edu/transcripts](http://www.uta.edu/transcripts). Requests will not be accepted by telephone or from persons other than the student without that student's written permission.

The **Family Educational Rights and Privacy Act of 1974** provides that a university may release directory-type information about students. The information released may include the following items: the student's name, address, electronic mail address, telephone number, date of birth, major field of study, participation in officially recognized activities and sports, weight and height if a member of an athletic team, dates of attendance, degrees and awards received, and the last educational institution attended. Each year UT Arlington publishes a student directory that contains the student's name, major field of study and telephone number. The law states that a student has the right to withhold this information from the public and other students. Directory-type information may be withheld by editing your profile in MyMav. Unless this form is completed before the Census Date of the fall semester, this data will be released as public information.

Students have the right to challenge the content of their educational records to ensure that their records are not inaccurate, misleading or in violation of other rights of students. This allows students an opportunity to correct inaccurate or misleading information and permits written explanation concerning the content of the records. Any evidence regarding an inaccurate or misleading record should be presented to the individual in charge of the office where the record is maintained.

A more detailed statement of the records policy is available in the Office of the Senior Vice President for Finance and Administration, Room 300, Davis Hall.

### Public Access to Theses and Dissertations

Theses and dissertations completed by UT Arlington students are archived electronically with UMI/Proquest and in the Central Library. Thus, these documents are available to the interested public, unless the student's thesis or dissertation supervisor formally requests that public access be temporarily blocked for reasons such as pending patent applications, contractual restrictions, or other issues that would make immediate publication inappropriate or illegal. Public access to this information may be blocked for up to two years. Contact the Office of Graduate Studies Thesis and Dissertation Specialist for additional information.

## Attendance, Absences and Observance of Religious Holy Days

### Attendance

Regular attendance at all class meetings is expected. Instructors are responsible for implementing attendance policy and must notify students of any special attendance requirements. Special regulations of colleges and schools required by the unique nature of their programs of study may be enacted through the normal approval process. These special regulations may not conflict with University regulations on class attendance and absence. An instructor is under no obligation to accommodate students who are absent or miss work without prior notification and make-up arrangements.

Students will be allowed an excused absence under circumstances described below. The student must notify the instructor in writing at least one week in advance of the start of the excused absence and arrange with the instructor to make up missed work or missed examinations. Instructors will allow students an opportunity to make up the work and examinations within a reasonable time period following the absence or otherwise adjust the grading to ensure that the student is not penalized for the absence, provided that the student has properly notified the instructor.

Instructors are under no obligation to accommodate students who are absent or miss work without prior notification and make-up arrangements. Students who have properly notified the instructor, will not be penalized for the absence. However, the instructor may respond appropriately if the student fails to complete the assignment or examination satisfactorily within the time limit following the absence set by prior arrangement.

If there is disagreement between student and faculty member regarding what constitutes a reasonable amount of time to complete any missed assignments or examinations, either the student or the instructor may request a ruling from the Office of the Provost. The decision of the Provost is final.

## Excused Absences

### University Authorized Absences

The Office of the Vice President for Student Affairs provides lists of students who have absences authorized by the University (e.g., participation in athletic events or scholastic activities that are officially sponsored University functions-- those are primarily activities that are funded by the University).

### Absence for Military Service

In accordance with section 51.9111 of Texas Education Code, a student is excused for attending classes or engaging in other required activities, including examinations, if he or she is called to active military service of reasonably brief duration. The student will be allowed a reasonable amount of time after the absence to complete assignments and take examinations.

### Observance of Religious Holy Days

A student who misses an examination, work assignment or other project because of an observance of a religious holy day will be given the opportunity to complete the work missed within a reasonable time after the absence.

A "religious holy day" means a holy day by a religion whose places of worship are exempt from property taxation under Section 11.20 of the Tax Code. The period of the excused absence will include time for any travel needed to fulfill that religious obligation. If the instructor and the student disagree about whether an absence constitutes a "religious holy day" as defined above, either the student or the instructor may request a ruling from the Office of the Provost. The decision of the Provost is final.

## Administration of the Advanced Degree Programs

### Committees on Graduate Studies

Each graduate program is governed by a Committee on Graduate Studies. The committee is composed of all full members of the graduate faculty in that program. Graduate faculty from allied fields may serve on the committee, when appropriate. In an interdepartmental program, the Committee on Graduate Studies is appointed by the Dean of Graduate Studies.

### Graduate Advisors

Each graduate program has a Graduate Advisor. The Graduate Advisor represents the Dean of

Graduate Studies and the Committee on Graduate Studies in matters pertaining to advising graduate students in their academic areas. The Graduate Advisor's functions include clearing of students for registration, acting upon requests for drops, adds, section changes and special examinations; maintaining graduate student records; and advising graduate students about their degree plans. The name and contact information for each Graduate Advisor is listed at the beginning of each departmental or program description in this catalog.

## Grades

Types of grades that may be assigned in courses at the University of Texas at Arlington (Valid Grades) consist of A, B, C, D, F, P, I, R, and W. Instructors may only assign grades listed on the Grade Roster for a given course. Students uncertain about the grading policy in a course should consult their instructor at the beginning of the semester for information. Valid Grades for independent study, conference, seminar, and readings courses vary widely among departments; therefore, a statement on Valid Grades and special grading policies, if any, is given at the beginning of the course descriptions for each program in this catalog.

### Grades of I, R and W

**Grade of I:** The grade of I designates the grade of incomplete. A graduate student unable to complete all assigned work in a class in the semester in which it was taken may, at the discretion of the instructor, receive an I grade. *This grade is not given automatically* when a student does not complete all assigned work. It is the responsibility of the student to make arrangements with the instructor to secure a grade of I before the semester ends. The grade of I will remain as part of the student's academic record until the work is completed and a final grade awarded. To change a grade of I to another grade, the instructor must submit a change of grade form. A grade of I does not carry credit value. This grade is not awarded in research, internship, thesis or dissertation courses.

**Grade of R:** The grade of R designates the grade of research in progress and is given only in research, internship, thesis or dissertation courses. A graduate student unable to complete assignments in one of these courses may, at the discretion of the instructor, receive an R grade. The R grade is a permanent grade and does not carry credit value. To receive academic credit in an R-graded course, a student *must re-register for and successfully complete the course* earning a valid passing grade for the course. Grading policy in some courses may change during the period covered by this catalog. Grading policy for each course each semester is printed on the instructor's class roll. Students should verify the grading policy with the instructor at the beginning of each semester.

**Grade of W:** A grade of W may be assigned if a student chooses to withdraw from a class after Census date, but prior to the last date to drop posted in the University's Academic Calendar. *However, the grade of W is not automatically awarded.* Graduate students must consult with their Graduate Advisor before withdrawing from a class. Further, the student must secure the permission of the instructor and be passing the course (have a grade of A, B, C or P) at the time they intend to withdraw to receive a grade of W.

### Grades awarded in research or internship courses (P, R, F or W)

Students enrolled in most research or internship courses will receive a pass (P) when the project or internship is completed, or a grade of research in progress (R), fail (F) or withdrawn (W).

### Grades awarded in three-hour (5398) Thesis and three-hour (6399) Dissertation courses (R, F or W)

The only grades awarded in these courses are research in progress (R), fail (F) or withdrawn (W).

### Grades awarded in six-hour (5698) Thesis, six-hour (6699) Dissertation, nine-hour (6999) Dissertation and Dissertation Completion (7399) courses (P, R, F or W)

The grades pass (P), research in progress (R), fail (F) and withdrawn (W) may be awarded in these courses. The grade of P can be awarded when the thesis or dissertation is passed unconditionally by the supervising committee. Accordingly, a master's student must be enrolled in a 5699 Thesis course and doctoral students must enroll in the appropriate 6699, 6999 Dissertation or 7399 Dissertation Completion course the semester in which the thesis or dissertation is defended. Students typically enroll in these courses defend and apply for graduation in the same semester. The Dissertation Completion course (7399) may only be taken once and cannot be repeated.

## Credit Toward Degrees and Certificates

Only courses completed with a grade of A, B, C, or P can satisfy graduate degree or certificate requirements. However, courses in which grades of D or F are earned will affect a student's grade-point average. A student must have a B (3.0) grade-point average in courses included in their degree plan and a B (3.0) average in all work undertaken as a graduate student to have credits applied toward a graduate degree or certificate.

### Credit for Repeated Courses

A student may repeat a course only if that course is specifically designated in this catalog as one that can be repeated for credit. A student who fails to receive credit (earns a grade of D or F) may repeat the course in order to obtain credit, in which case the grades for both attempts will count in computing the student's overall grade-point average. No student will be allowed to repeat a course in order to change a passing grade of C or higher.

### Course Credit Applied to More Than One Degree

No course that has been applied to any degree, at any graduate or undergraduate institution, may be applied to any other degree, either directly or by substitution except in approved dual degree or approved fast track programs. The amount of shared credit between degrees in dual degree programs is limited and varies with the total number of hours needed to complete both degrees. See Dual Degree Programs in the Advanced Degrees and Requirements section of this catalog for details. Similarly, the amount of credit that can be shared in fast track programs is also limited. Details may be found in descriptions provided by participating programs elsewhere in this catalog.

### Credit for Advanced Undergraduate Coursework

Up to nine hours of advanced undergraduate credit from UT Arlington or another institution may be applied to a master's degree program if the hours have not been used to earn a previous degree and have the approval of the appropriate Graduate Studies Committee and the Dean of Graduate Studies. Approved fast track programs may allow dual credit.

### Transfer Credit and Course Waivers

#### Transfer Credit Applied to Master's Degrees

Equivalent coursework completed at other institutions of recognized standing may be transferred to a master's degree program after evaluation and approval. Transferred courses do not appear on the UT Arlington Official Transcript and grades earned in transferred courses are not included in calculating a student's UT Arlington graduate grade-point average.

No more than nine hours of transfer credit will be granted except in the professional master's programs that require more than 36 hours of coursework. In such programs, the number of transfer hours is limited to 25 percent of the total program hours. This rule does not invalidate written agreements between graduate programs and the Graduate School or agreements that are stated elsewhere in this catalog. Transfer credit will be accepted only for organized courses in which the student received a letter grade of B or higher and an official transcript showing the course(s) and grade(s) is required.

Courses from other universities taken after a student has been admitted into a master's program at UT Arlington must be approved in advance by the appropriate Committee on Graduate Studies

and is reviewed by the Graduate School. All work submitted for transfer credit must have been completed no more than six years before completion of a graduate program at UT Arlington.

To request transfer credit, students must complete the Transfer of Graduate Credit form and obtain approvals from the appropriate graduate advisor and chair of the Committee on Graduate Studies and final approval from the Graduate Dean. The form is available online at the [Graduate School web site](#).

### **Waiving Courses Required for Doctoral Degrees**

Graduate-level coursework completed in the student's major area of doctoral study at institutions of recognized standing that grant doctoral degrees in those subject areas may serve to establish the student's competency in equivalent UT Arlington courses. Competency demonstrated by successful completion of equivalent courses may provide a basis for waiving some UT Arlington course requirements and the credit hours associated with those courses. Waivers must be recommended by the student's graduate advisor and current supervising professor and their recommendation must be approved by both the Committee on Graduate Studies of the student's major area and the Office of Graduate Studies. Only courses in which the student has earned a B (3.0) or better (or a P if the UTA course is also graded P/F) will be considered for purposes of a waiver. In no case will final semester Dissertation course (6x99 or 7399) requirements be waived. Waived courses must be shown on the student's academic plan.

### **Transfer Credit Applied to Graduate Certificates**

Equivalent coursework completed at other institutions of recognized standing may be transferred to a graduate certificate program after evaluation and approval of the graduate advisor, the appropriate Committee on Graduate Studies and the Dean of Graduate Studies. The number of transfer units is limited to 50% of the total units required for the certificate, except in certificate programs that exceed 15 units, in which case 12 of those units must be taken in residence. This rule does not invalidate written agreements between graduate certificate programs and the Graduate School or agreements that are stated elsewhere in this catalog. Transfer credit will be accepted only for organized courses in which the student received a letter grade of B or higher and an official transcript showing the course(s) and grade(s) is required.

Courses from other universities taken after a student has been admitted into a graduate certificate program at UT Arlington must be approved in advance by the graduate advisor, the appropriate Committee on Graduate Studies and the Dean of Graduate Studies. The form is available online at the [Graduate School web site](#).

Grades earned in transferred courses are not included in calculating a student's UT Arlington graduate grade-point average.

### **Earning Graduate Course Credit as a UT Arlington Undergraduate Student**

Courses taken in undergraduate status may not be applied directly to a doctoral program.

Some departments do not permit students to enroll in graduate courses unless they have been admitted to Graduate School. Others allow students enrolled as undergraduates to take a limited amount of graduate coursework under the conditions described below.

All undergraduate students should consult with the appropriate Graduate Advisor before attempting to register for graduate courses.

#### **Advanced UT Arlington Undergraduates (Current Seniors)**

An undergraduate student at the University of Texas at Arlington may not use graduate courses (numbered 5000 and above) to fulfill undergraduate degree requirements except as part of an approved fast track program. However, an undergraduate needing no more than 12 hours in one semester (six semester hours in one summer session) to complete all the requirements for a bachelor's degree may register for graduate courses and apply them toward a master's degree at UT Arlington under the following conditions:

1. In no case may a student previously dismissed from or denied admission to the Graduate

School enroll in graduate courses or reserve courses for graduate credit.

2. All work for undergraduate credit must be completed during that semester or summer session in which the student enrolls in graduate courses.
3. Total registration for all work may not exceed 15 semester hours in a semester (or 12 semester hours in the summer sessions).
4. The student must submit to the Graduate Advisor a "Reservation of Courses for Graduate Credit by Undergraduate Students" form (available from Graduate Advisors). The reservation must be approved by the Graduate Advisor and the Dean of Graduate Studies, and the Registrar must certify that the reserved credit will not be applied to the student's undergraduate degree requirements. This form must be submitted in accordance with the deadlines printed in the [Graduate School Calendar](#) in this catalog.
5. The student must have at least a 3.0 undergraduate GPA to be eligible to enroll in a graduate course and to reserve it for graduate degree credit.
6. Courses taken at UT Arlington and reserved for graduate credit may be applied to a master's degree program only if a grade of A, B, C, or P was earned.
7. Credit is officially accepted for application to a graduate program when a student is unconditionally admitted to the Graduate School.
8. A maximum of 12 semester hours of graduate level courses may be reserved.

### Students Holding Bachelor or Higher Degrees Enrolled as Degreed Undergraduates

Students who have completed their undergraduate studies and have been awarded their bachelor's degree may enroll as degreed undergraduates in graduate-level course work and receive graduate credit at UT Arlington under the following conditions:

1. Courses taken at UT Arlington and reserved for graduate credit may be applied to a master's degree program only if a grade of A, B, C, or P was earned.
2. No more than 12 semester hours of credit earned while a degreed undergraduate may be applied for credit toward a master's degree. Students must file a request, approved by the Graduate Advisor, the Committee on Graduate Studies, and the Dean of Graduate Studies to apply such credits toward a graduate degree. The form is available online at the [Graduate School web site](#).
3. All courses that are applied to a master's degree must have been completed no more than five years before enrollment in a graduate program at UT Arlington. If the student has completed more than 12 semester hours of graduate courses in undergraduate status, only graduate courses completed within five years of enrollment in a graduate program at UT Arlington will become part of the graduate record and considered in computing the student's grade-point average.
4. A student may elect to apply all graduate courses completed in the last five years toward their degree or to apply none of this work. Selective application of courses is not permitted. If any courses are applied for credit toward a master's degree, all courses completed within the last five years will become part of the graduate record.

### Graduate Credit for Extension Classes

Work done in extension classes may be applied toward an advanced degree under the same conditions that apply to transfer work, except that credit for extension work is limited to six credit hours.

### Courses That Do Not Provide Graduate Credit

#### Personal Improvement Courses

Personal improvement individual or group music or art lessons and exercise and sports activities courses can not be used for the following: 1) to satisfy graduate degree requirements; 2) meet Graduate School enrollment requirements; 3) in computation of graduate grade-point averages or determination of academic probation or academic good standing in Graduate School; 4) in

calculation of grade-point averages for the purpose of admission to a Graduate Program or for certification for graduation from a Graduate Program.

### **Audited Classes**

University credit is not granted for audited classes and audited classes will not satisfy enrollment requirements.

### **Correspondence Courses**

Correspondence courses are not accepted for graduate credit.

### **Credit by Examination**

Credit by examination may not be used for graduate credit and no such credit, graduate or undergraduate may appear on graduate student transcripts.

## **Academic Standing**

### **Good Standing and Satisfactory Scholastic Progress**

Graduate students are considered to be in good academic standing and making satisfactory progress in a degree or certificate program if they 1) meet all admission conditions within the time required 2) have a B (3.0) or better grade-point average on all coursework undertaken while in Graduate School and 3) have a B (3.0) or better grade-point average in courses needed to satisfy degree requirements by the end of the semester in which they intend to graduate. Students must be in good academic standing by the end of their final semester in order to receive an advanced degree or certificate from UT Arlington. Refer to the section "Courses Not Providing Graduate Credit" for an explanation of courses that do not provide graduate credit and will not be used to determine academic standing or to satisfy degree requirements.

### **Academic Probation**

A graduate student whose cumulative grade point average falls below a 3.00 in all graduate courses, be they graduate or undergraduate level, taken while enrolled as a UT Arlington graduate student will be placed on academic probation. The student must attain a grade point average of at least 3.00 in the next semester he or she is enrolled or be subject to dismissal. Undergraduate courses or graduate courses graded P, R, I or W or courses that do not provide graduate credit (see Courses Not Providing Graduate Credit) cannot be used to remove the condition of academic probation.

### **Dismissal**

Students have the initial responsibility to recognize when they are having academic difficulties and are expected to initiate steps to resolve the problem. When a student is in academic difficulty, and dependent upon the severity of the problem, the student may receive an oral warning and/or written statement of the problem and required corrective actions from his or her program. Failure to take these corrective actions can result in termination from the degree program.

A student who has been dismissed from the Graduate School for failure to remove the condition of academic probation by meeting the 3.0 grade-point average requirement may be readmitted for further graduate study in the same or in a different program only if a Petition to the Graduate Faculty has been approved by the appropriate Committee on Graduate Studies and the Dean of Graduate Studies.

A student can be dismissed from a degree program not only for failure to maintain an adequate grade point average, but also for such reasons as unsatisfactory progress toward a degree as defined by the department or program, inability to pass a comprehensive examination, failure to prepare or to defend a thesis or dissertation in a satisfactory manner or complete thesis or dissertation work in an acceptable amount of time. Termination due to inadequate academic progress is a decision made by the program's or department's Graduate Advisor and Graduate

Studies Committee. A student's thesis/dissertation committee may recommend termination for failure to prepare a thesis/dissertation proposal, prospectus or final draft in a satisfactory manner or failure to complete work in an acceptable amount of time to the program's Graduate Advisor and Graduate Studies Committee. Such decisions to terminate a student must be communicated to the Dean of Graduate Studies by the Chairman of the Graduate Studies Committee with required justification. The Graduate Dean will review the case make the final decision. The student may continue enrollment until the Dean finalizes the termination decision.

Students failing to pass a comprehensive examination or thesis/dissertation defense may be terminated upon the recommendation of the examining committee. Such decisions are indicated on the Comprehensive Examination Report or Final Defense Report which are returned to the Dean of Graduate Studies. The Graduate Dean will notify the student formally of the program's or department's decision.

## Grievances

### Grievances Related to Grades

It is the obligation of the student, in attempting to resolve any student grievance regarding grades, first to make a serious effort to resolve the matter with the instructor with whom the grievance originated. Individual instructors retain primary responsibility for assigning grades. The instructor's judgment is final unless compelling evidence shows preferential treatment or procedural irregularities. If students wish to appeal, their requests must be submitted in writing on an Academic Grievance Form available in departmental or program offices to the department chair or program director. Before considering a grievance, the department chair or program director will refer the issue to a departmental or program committee of graduate faculty. If the committee cannot reach a decision acceptable to the parties involved, the department chair or program director will issue a decision on the grievance. If students are dissatisfied with the chair or director's decision, they may appeal the case to the academic dean. If they are dissatisfied with the academic dean's decision, they may appeal it to the Dean of Graduate Studies. Students have one year from the day grades are posted to initiate a grievance concerning a grade. (For grievances other than those related to grades, see the catalog entry titled [Grievances Other Than Grades](#).)

### Grievances Other Than Grades

In attempting to resolve graduate student grievances, the student must first make a serious effort to resolve the matter with the individual with whom the grievance originated. Grievances involving matters other than grades are appealed to the department chair or office director, then to the Dean of Graduate Studies (except in personnel matters, in which cases the appeal is to the Provost unless questions regarding a graduate assistant or graduate associate are involved), Vice President for Business Affairs, or Vice President for Undergraduate Academic and Student Affairs, as determined by the nature of the grievance. If the matter remains unresolved at this level, the student may appeal to the Provost. The decision of the Provost is final. (For grievances involving grades, see the catalog entry titled [Grievances Related to Grades](#).)

### Grievances Related to Discrimination or Sexual Harassment

Grievances alleging discrimination or sexual harassment committed by faculty, staff or students should be referred to the Office of Equal Opportunity and Affirmative Action for investigation. Their web site provides information on what constitutes discrimination or harassment and what steps students, faculty and staff may follow to address such situations and receive protection under University policy and State and Federal law.

## Registration and Enrollment Requirements for All Students

To attend The University of Texas at Arlington any given semester, a student must register and pay fees. All registration at UT Arlington may be done over the Web at [www.uta.edu/registrar](http://www.uta.edu/registrar). The current semester's Schedule of Classes gives the exact dates and times for registration and should be consulted each semester, not only for registration information but advising instructions

as well. The Spring Schedule of Classes is available in mid-October; the Summer/Fall Schedule of Classes is available in mid-March. New students, most readmitted former students and continuing students in certain majors must be advised. If advising is required, it must be done prior to registration.

### **Required Bacterial Meningitis Vaccination**

Effective January 1st, 2012, Texas state law (Section [51.9192](#) of the Texas Education Code) requires that first-time students, students transferring from another institution and students who are re-enrolling following an absence of at least one fall or spring semester who are under 30 years of age as of the first class day of the term be vaccinated against bacterial meningitis. Students under the age of 30 who plan to audit a course also must comply with this law. All incoming students and students returning after an absence of at least one fall or spring semester who are under 30 years old must submit documentation of immunization against bacterial meningitis. Students who fail to meet this requirement will be dropped from courses.

Students who are enrolled in only online courses that are fully online and that do not meet on campus are exempt from this requirement.

For information regarding the Texas meningitis vaccination law and required documentation of immunization, please visit [www.uta.edu/meningitis](http://www.uta.edu/meningitis).

### **Scheduling Classes**

All students must register to enroll in and attend classes. Students who are no longer eligible for enrollment at the start of the semester will have their registration canceled and their tuition and fees refunded.

### **Payment of Fees**

Refer to the Tuition, Fees, and Charges section of this catalog for registration billing and payment or access [www.uta.edu/fees](http://www.uta.edu/fees).

### **Late Registration**

Late registration is held each semester for students who are unable to register on their regular dates. Late registration takes place on the Web. Students should try to register on their earliest date since classes close during late registration and a late fee is added.

### **Additional Registration and Orientation Requirements for International Students**

International students must meet registration and enrollment requirements described in the preceding section titled **Registration and enrollment requirements for All Students**. In addition, international graduate students must satisfy the following requirements.

#### **Orientation**

All new international graduate students must attend an orientation at the beginning of their initial semester at The University of Texas at Arlington. Those who do not attend the International Student Orientation before registration will not be allowed to register during the regular registration period and must attend a makeup orientation on the morning of the first class day, before registering and being assessed a late fee. For more information please contact the Office of International Education at 817.272.2355 .

#### **Required Insurance**

International graduate students are required to purchase The University of Texas at Arlington Student Health Insurance Plan. After the initial semester of enrollment, the insurance premium will be added automatically to the student's fees. If the student has health insurance coverage through 1) an employer of the student, spouse, or parents, or 2) U.S. or home-country government sponsorship, the student Health Insurance Plan may be waived. For outside insurance to qualify

for the waiver, the coverage must include repatriation and medical evacuation benefits. If it does not cover repatriation and medical evacuation, and most U.S. policies will not, a supplemental policy must be purchased for that coverage. Students who wish to apply for the waiver must come to the Office of International Education prior to registration to show proof of outside coverage and documentation in English describing benefits provided by the non-UT Arlington insurance plan. For more information please contact the Office of International Education at 817.272.2355.

### **Required Tuberculosis Screening**

All new Non-U.S. Citizen/Non-Permanent Resident and Intensive English students must meet the following requirements in order to enroll in classes and remain enrolled in the University.

1. Upon arrival to the University for classes, each prospective student must have a Tuberculosis screening and/or chest x-ray in order to enroll. These may be obtained from the UT Arlington Health Services.
2. Those tested must return to UT Arlington Health Services to have the test read between 48 and 72 hours after administration (if not read within this time frame, the student must wait 10 days and then be re-tested). If the TB test is positive, the student must have a chest x-ray performed and the results received at UT Arlington Health Services within a 25-class-day time limit.
3. The testing or chest x-ray must be performed even if the student was immunized with BCG (a vaccine for TB). If the testing process and subsequent diagnostic exam are not completed and submitted to the UT Arlington Health Services by the 25th class day, the student will be dropped from classes and barred from reinstatement. For more information, please call Health Services Immunization Clinic at 817.272.7143.

### **Course Load (Credit Hour) Requirements**

#### **Continuous Enrollment Policy**

Graduate students must enroll in at least one credit hour of work related to their degree each long semester (Fall and Spring) in order to remain classified as an enrolled student. Some programs may specify a higher minimum enrollment requirement in their Handbook for Graduate Students or other published documents. Enrollment in Summer Sessions is not required, and students who do not enroll in summer will not be considered in violation of the continuous enrollment policy. However, students are required to register for appropriate courses in every semester or summer term in which they expect to receive assistance, use the facilities of the university, take diagnostic or comprehensive examinations or defend theses or dissertations. The minimum enrollment requirements for holding graduate assistantships or fellowships or the requirements of the enrollment requirements of other programs, offices and agencies such as the Veterans Administration, U.S. Citizenship and Immigration Services, and federal financial aid and certain loan programs, must be met. It is the student's responsibility to determine the enrollment requirements of such entities.

#### **All International Students**

International students must be enrolled for a minimum of 9 semester hours during each regular semester (Fall and Spring).

#### **Full-time Enrollment and Maximum Hours**

Full-time students are expected to enroll in at least 9 hours in a regular semester. The minimum full-time course load during the summer sessions is 6 hours. The maximum course load for full-time graduate students is 15 semester hours in a regular semester and 12 hours in a summer session. Registration in excess of these limits in exceptional circumstances must be approved by the student's Graduate Advisor.

#### **Required Enrollment for Teaching and Research Assistants**

Students receiving graduate teaching or research assistantships must meet enrollment requirements during the semester in which they are supported. Assistants should complete no more than 12 semester hours and no fewer than 9 semester hours per semester. They may

register for no fewer than 6 semester hours during the summer sessions. See the section titled Graduate Assistantship/Associateship Policy for exceptions to these rules and other requirements that Assistants and Associates must meet.

### **Required Enrollment for Students Receiving Financial Aid**

To qualify for most forms of financial aid administered through the Office of Financial Aid, students must enroll in and complete a certain number of credit hours each semester to meet the Satisfactory Academic Progress requirements to receive future financial aid. Students enrolling in 9 or more credit hours at Census Date must complete at least 6 of these hours whereas students enrolling in 6-8 credits hours at Census Date must complete 4 hours to qualify for financial aid. Students enrolling in 5 hours must complete 3 hours. If a student does not complete the required minimum number of hours, they will lose eligibility for aid in the next academic year of enrollment. Students enrolling in fewer than 5 hours at Census do not meet the enrollment requirements for financial aid. The Satisfactory Academic Progress policy may be found at [www.uta.edu/fao](http://www.uta.edu/fao). Contact the Office of Financial Aid for additional information and guidance on enrollment and eligibility requirements

### **Adding, Dropping and Auditing Courses**

#### **Adding and Dropping Courses**

Graduate students who wish to change a schedule by either dropping or adding a course must first consult with their Graduate Advisor. Regulations pertaining to adding or dropping courses are described below. Adds and drops may be made through late registration either on the Web at MyMav or in person through the student's academic department. Drops may occur until a point in time two-thirds of the way through the semester, session, or term. The last day to drop a course is listed in the Academic Calendar available at <http://www.uta.edu/uta/acadcal>.

1. A student may not add a course after the end of late registration.
2. A student dropping a graduate course after the Census Date but on or before drop date has passed may with the agreement of the instructor, receive a grade of W but only if passing the course with a C or better average. A grade of W will not be given if the student does not have at least a C average. In such instances, the student will receive a grade of F if he or she withdraws from the class.
3. A student desiring to drop all courses in which he or she is enrolled is reminded that such action constitutes withdrawal (resignation) from the University.
4. In most cases, a student may not drop a graduate course or withdraw (resign) from the University after the 12th week of class. Under extreme circumstances, the Dean of Graduate Studies may consider a petition to withdraw (resign) from the University after the 12th week of class, but in no case may a graduate student selectively drop a course after the 12th week and remain enrolled in any other course. Students should use the special Petition to Withdraw for this purpose. See the section titled Withdrawal (Resignation) From the University for additional information concerning withdrawal.

#### **Auditing Courses**

Any person who has credit in a particular course or who has a demonstrated need for the course content may be eligible for auditing that course if space is available. An auditor has the privilege of hearing and observing only; no University credit is granted for auditing. Audit applications may be secured from the Registrar's Office. A student may audit a graduate course only with permission of the instructor and approval of the Registrar. When the form has been completed and approved, the applicant, if currently enrolled, pays \$20 per course at Bursar Services; if not enrolled, the applicant pays \$100 per course. An academic department may place restrictions on the privilege of auditing or may deny permission to audit. Audited courses will not meet Graduate School enrollment requirements.

#### **Leave of Absence Policy**

A student may apply for a Leave of Absence in order to respond to exceptional circumstances that

will prevent him or her from meeting the continuous enrollment requirement. A Leave of Absence will be granted only for good cause, such as health-related issues, major financial or employment issues, pregnancy, childbirth, child care, elder care or other significant family concerns, or other major personal circumstances that interfere with a student's ability to undertake graduate study. Leaves are granted for up to two long semesters. Students returning from leave as scheduled will be automatically readmitted and will not be required to submit an application or pay an admission fee. Students who do not return at the end of their approved Leave of Absence must reapply for admission by the published application deadlines, pay all relevant evaluation fees, and are not assured of readmission to the University. During the time of the leave of absence, the student may not use University facilities or resources, receive an assistantship or fellowship, continue academic work with faculty, take a diagnostic or comprehensive examination, or defend a thesis or a dissertation. Time taken on an approved Leave of Absence will not count against degree completion time limits.

An approved Leave of Absence does not exempt students from the enrollment requirements of other programs, offices, and agencies such as the Veterans Administration, Immigration and Naturalization Service, and federal financial aid and certain load programs. It is the student's responsibility to determine what effect a Leave of Absence will have on his or her status with such entities. For example, International students approved for a Leave of Absence must inform the Office of International Education so that requirements of the Immigration and Naturalization Service can be addressed.

A student requesting leave should complete the Leave of Absence Request form and obtain the approval of his or her Graduate Advisor who will forward the request on the Dean of Graduate Studies for final review and approval. This form is available online at the [Graduate School website](#). Requests must be delivered to the Graduate School no later than the mid-semester deadline listed on the Graduate School Calendar for the semester in which the leave is to begin.

Leave of Absence will not be granted retroactively for a semester after the mid-semester point has passed. Students who miss this deadline must apply for readmission.

### **Withdrawal (Resignation) from the University**

A student who wishes to withdraw (resign) voluntarily from the University may do so by withdrawing from all graduate and undergraduate classes prior until the point of time corresponding to two-thirds of the duration of the semester or term. The exact date of the deadline is provided in the Academic Calendar available at <http://www.uta.edu/uta/acadcal>. After this deadline has passed, a graduate student or undergraduate student enrolled in a graduate course is not permitted to withdraw or to selectively drop courses. In exceptional cases, however, a graduate student may request to withdraw after the deadline by obtaining a Petition to Withdraw form and submitting it to the Dean of Graduate Studies. (Students should use the special Petition to Withdraw for this purpose and not the Petition form used for other types of requests.) If the petition is not approved, the student remains responsible for all coursework requirements. Therefore, students should not discontinue class attendance or course assignments unless they have been notified in writing that the Dean of Graduate Studies has approved the petition to withdraw. A Petition to Withdraw is available online at the [Graduate School web site](#) or in the Graduate School office.

### **Withdrawal as a Result of Military Service**

A student who withdraws as a result of military service is to receive the following considerations according to Section 54.006 of the Texas Education Code: (1) receive a refund of tuition and fees (2) if eligible, be assigned a grade of incomplete (I) or (3) as determined by the instructor, receive a final grade or credit in courses where the student has satisfactorily completed a substantial amount of coursework and has demonstrated sufficient mastery of the course material.

### **Change of Graduate Major, Program or Degree Level**

Students wishing to change graduate major, program or degree level (master's or doctoral classification) from the one in which they are enrolled currently or in which they were enrolled

during their most recent semester at UT Arlington must initiate the change by completing the "Request for Change of Graduate Program or Degree Level" form. Students may submit only one "Request for Change of Graduate Program or Degree Level" form at a time. Additional forms will not be processed until a final decision on any prior requests have been made. Students intending to change majors should consult the Graduate Advisor of the new program regarding program admission and degree requirements before completing this form. Similarly, students wishing to change degree level should submit the request after discussing the matter with the appropriate graduate advisor.

Students wishing to change from one program to a dual degree program must complete the "Request for Change of Graduate Program or Degree Level" form and mark the box stating "Request to Change to Dual Degree Program (master's level only).

Students wishing to change from a dual degree program to single degree program must complete the "Request For Change of Graduate Program or Degree Level" form and mark the box stating "Request to Change to New Graduate Program".

Students wishing to change from Doctoral to Masters degree level for conferral of the masters degree must complete the "Request for Change of Graduate Program or Degree Level" form and mark the box stating "Request to change form PhD to Masters status (for conferral of the master's degree)". Students will remain in masters status until award of the masters degree. Upon award of the masters degree students will be automatically changed back to doctoral status.

The "Request For Change of Graduate Program or Degree level" form can be found at our Web site <http://grad.uta.edu/students/forms/> or by request from the Graduate School Office.

## Graduation Requirements and Procedures

### Degree Conferral

Degrees are awarded at the end of the fall semester (December), spring semester (May) and summer session (August). Formal commencement ceremonies are held within the college or school in which the degree is earned. Students should contact the Office of the Dean of their department for information concerning the commencement ceremonies.

### Degree Requirements

Each graduate student must complete degree requirements in accordance with the Graduate Catalog in force at the time the student entered the graduate program in which the degree will be awarded or, at the student's option, the catalog of any subsequent year in which the student was in residence. If a student chooses to complete degree requirements in accordance with the catalog of a year subsequent to that in which he/she entered the graduate program, the student's graduate advisor must indicate such by submitting an online request form to the Graduate School. Graduate Advisors must contact the Office of Graduate Studies graduation desk to access the required form.

Please note that changes in Graduate School regulations and policies become effective for all enrolled students in the year for which the catalog is in force, regardless of the year of initial enrollment. Thus, students may choose to satisfy degree requirements specified in an earlier catalog, but all must observe Graduate School regulations and follow graduation procedures prescribed in the Graduate Catalog in force in the intended semester of graduation.

### Continuous Enrollment

After initial enrollment in the thesis or dissertation course, a student must maintain continuous enrollment in thesis or dissertation courses (summers excluded unless summer enrollment in thesis/dissertation is required by student's program) until the thesis or dissertation has been accepted by the Dean of Graduate Studies. This requirement applies even when a student is working on their thesis or dissertation at an off-campus location. Failure to maintain continuous enrollment may invalidate previous thesis or dissertation work.

## Enrollment Requirements for Thesis and Dissertation Courses

## Academic Standing

Students may not register for dissertation or thesis courses if they are not in good academic standing.

## Credit Hours

A student receiving advice and assistance from a faculty member in preparation of a thesis or dissertation must register for the appropriate course even if the student is not on campus. Variable credit is available for thesis and dissertation courses. Each semester, after consulting with their Graduate Advisor, students must register for the amount of thesis or dissertation credit commensurate with the effort to be expended by the student and the advisor in preparation of the thesis or dissertation. Most master's students must enroll in a six-hour thesis course (5698) and all doctoral students must enroll in the appropriate Dissertation (6699, 6999) or Doctoral Degree Completion course (7399) in the semester in which they intend to defend their theses or dissertations. A passing grade (P) is required in the appropriate thesis or dissertation course to complete graduation requirements and a P grade is only awarded when the thesis or dissertation defense results in an unconditional pass. A grade of R (research in progress) or a grade of F will be given in thesis or dissertation courses if they do not culminate in a successful defense. The grade of R is a permanent grade that does not carry any credit value. To meet graduation requirements, students must re-enroll in the appropriate thesis or dissertation course until the thesis or dissertation is completed and a grade of P is earned. The Doctoral Degree Completion course, 7399, may be taken only once and cannot be repeated.

## Final Semester Requirements

### Enrollment Requirements

All students must be enrolled in the Graduate School in the semester in which they complete all graduate degree requirements and apply for graduation. Students defending or completing required changes in their thesis or dissertation in their final semester must be enrolled in the proper thesis (typically 5698) or dissertation course (6699, 6999 or 7399) to receive a passing grade. Students may not petition for a reduction in this requirement. Enrollment in courses outside the major and minor fields will not satisfy final semester enrollment requirements. Students may request to graduate *In Absentia* if they have completed all degree requirements and must register simply to have their degree awarded.

### Funded Students Enrollment Requirement

Funded students are normally expected to be enrolled as full time students while holding an assistantship or associateship. Master's students who must enroll in a six-hour Thesis course or doctoral students who must enroll in a six or nine-hour Dissertation Course or three-hour Dissertation Completion Course because they have not received a passing grade in one of these courses must enroll in one of these courses and receive a grade of P in their final semester. However, master's students who need fewer hours to complete their degrees may petition for a waiver of full time enrollment as described in the Assistantship/Associateship Policy section of this catalog.

### In Absentia Registration

*In Absentia* registration is allowed when degree candidates have completed all requirements for graduation by the last date to qualify for *In Absentia* registration (see the [Graduate School Calendar](#)) and who would otherwise need to register in the following semester for the sole purpose of having a degree conferred. A student may only request *In Absentia* registration in the regular or summer semester immediately following the semester in which he or she was enrolled and completed all graduation and degree requirements. Students registered *In Absentia* may not enroll for courses. No refund is made for cancellation of *In Absentia* registration. *In Absentia* registration requires permission of the Graduate Advisor and the Dean of Graduate Studies. Students may obtain the Request to Register *In Absentia* Form on the [Graduate School website](#). In addition to paying the cost of *In Absentia* registration, candidates must file an application for graduation and pay the appropriate graduation fees for the semester of graduation.

## Application for Graduation

All graduating students must file an Application for Graduation with the Graduate School by the deadline specified in the [Graduate School Calendar](#) for the semester of graduation. The application and other information pertaining to graduation requirements may be found on the [Graduate School website](#). Neither the graduation application nor graduation fees are transferable to a subsequent semester; therefore, if a student does not graduate in the semester indicated in the initial application, a new application must be filed for the semester of graduation and the appropriate fees paid again.

Students who fail to apply for graduation by the deadline specified in the [Graduate School Calendar](#) may apply late by completing the Application for Graduation and paying a late fee. Applications for graduation will be accepted with a late fee for 30 calendar days after the deadline for applying for graduation. If this date falls on a weekend, the deadline for applying late will be the Monday after the date. After that date, no applications will be accepted and students must apply for graduation for a subsequent semester. Applicants for graduation will be billed the Graduation Application fee and, as appropriate, the diploma mailing fee and the late fee. Again, graduation charges are non-transferable and non-refundable. See the section titled Tuition, Fees, and Charges in this catalog for information on specific fees.

## Summary of Final Semester Requirements for Master's Degree Candidates

Each master's student must:

### **Enroll in**

1. the six-hour thesis course if a thesis plan student
2. the master's comprehensive course or equivalent if required by the student's program
3. at least one graduate course in the student's program if not enrolled in 1 or 2 above

### **File**

1. an Application for Graduation
2. a request for the Final Master's Examination, if applicable
3. the Final Master's Examination Report, if applicable
4. the appropriate checklist and the documents listed on that checklist upon notification of acceptance of the thesis, if applicable

### **Pay**

1. the Application for Graduation fee
2. the diploma mailing fee, if applicable
3. the required thesis library processing fee, if applicable
4. any other outstanding university charges

## Summary of Final Semester Requirements for Doctoral Candidates

Each doctoral candidate must:

### **Enroll in**

1. The appropriate dissertation course (6999, 6699, or 7399)

### **File**

1. an Application for Graduation
2. a request to Schedule Dissertation Defense
3. a Dissertation Defense Report
4. the appropriate checklist and the documents listed on that checklist upon notification of acceptance of the dissertation by the Graduate School.

### **Pay**

1. the Application for Graduation fee (diploma fee)
2. the diploma mailing fee, if required
3. the required dissertation binding, microfilming and Library Processing fees and the optional copyright fee.
4. any other outstanding university charges

## Deadlines

All Graduate School deadlines, as indicated on the calendar or in the explanation of policies and procedures, unless otherwise stated, are final at 5 p.m. of the date specified. By this time all transactions must be completed and documents received in the Office of the Dean of Graduate Studies. Transactions and documents requiring action or approval of Graduate Advisors, committees, instructors, department chairmen, academic deans or others prior to receipt by the Graduate School should be initiated by the appropriate person (student, instructor, Graduate Advisor or other) sufficiently in advance of the Graduate School deadline for the required actions to be taken and approvals received.

## Graduate Assistantship/Associateship Policy

Graduate teaching and research assistantships and associateships are funded through state appropriations and federal, state, local and private grants for at least three principal reasons. First, employment of graduate students in teaching and in research positions during their graduate education encourages and supports their participation in these two major functions of a university and thereby strengthens the quality of the students' educational experience. Second, assistantships and associateships provide direct financial support to outstanding students who are essential to the development of quality graduate programs. Third, graduate students provide valuable and necessary services to the University in their roles as teaching and research assistants and associates. It must be kept in mind, however, that graduate assistants and associates are first and foremost students. As such, their most important task is to complete their degree requirements in a timely fashion; this is the primary expectation of the University as well.

The University of Texas at Arlington supports the "Resolution Regarding Graduate Scholars, Fellows, Trainees, and Assistants" of The Council of Graduate Schools in the United States. A copy of the resolution and list of signatory institutions is available in the Graduate School and can be viewed at [www.cgsnet.org/portals/0/pdf/CGSResolutionMarch2009.pdf](http://www.cgsnet.org/portals/0/pdf/CGSResolutionMarch2009.pdf). To assure the appointment of the most highly qualified students available and to best realize the principal objectives for which graduate assistants are employed, The University of Texas at Arlington has adopted the following policies and regulations, all provisions of which apply to both graduate assistantships and graduate associateships.

## Admission Status

A student must be admitted to a degree program to be eligible to hold a graduate assistantship. Students admitted as Provisional students may not be considered for an assistantship until all provisional requirements have been resolved. New students, admitted with probationary conditions, may be considered for an assistantship, subject to the requirement that they earn and maintain a 3.0 grade-point average while enrolled as a graduate student, conform to admission conditions specified by the admitting department or the Graduate School, and meet assistantship enrollment requirements.

## English Proficiency

Before being appointed to a teaching assistantship at UT Arlington, a student whose native language is not English must demonstrate English proficiency. The preferred method to demonstrate proficiency is to submit an acceptable score of at least 23 on the Speaking Section of the TOEFL, or a score of at least 7 on the Speaking Section of the IELTS, or take and pass the UTA Developmental English course. The TOEFL and IELTS scores should be sent directly to UT Arlington by ETS or IELTS. Score reports submitted directly by the student or those marked "Student Copy" or "Applicant's Copy" are not considered official and will not be accepted by the

University. The English proficiency requirement will be waived for non-native speakers of English who possess a bachelor's degree from an accredited U.S. institution. See the catalog entry titled Application Documentation Requirements in the Admission Requirements and Procedures section for further information.

### Developmental English Program

Students who do not achieve scores on the TOEFL or IELTS high enough to satisfy the English proficiency requirements for graduate teaching assistants must enroll in the Developmental English Program and be certified for English proficiency before becoming eligible to hold a teaching assistantship. This 10-week program, offered by the UT Arlington English Language Institute, emphasizes oral presentation skills and accent reduction. Registration is in 402 Hammond Hall, and the charge for course is payable at the time of registration. Contact the English Language Institute at 817.272.2730 for details, including the current class schedule and charges.

### Continuation or Renewal of Appointment

Although a student may be appointed initially to a graduate assistantship for a full academic year, continuation of the appointment beyond the first semester is subject to the following conditions:

1. To continue or renew an appointment, the student must be in good standing in the University. A student on academic probation is not in good standing, and therefore, will automatically lose his or her assistantship. However, Graduate Advisors, with the written endorsement of their department's or program's Graduate Studies Committee, may petition the Dean of Graduate Studies to allow a one-time exception, granting one additional semester of assistantship support in the next semester of enrollment if they judge the student is capable of raising his or her GPA to the required minimum by the end of that semester and believe that the student is making satisfactory progress in all other aspects of their studies. If granted, the student will be considered to be in good academic standing for one semester for purposes of continuing their assistantship. This broadened definition of academic good standing for a student with a GPA below 3.00 applies only in cases where a program wishes to continue or renew a student's teaching or research assistantship during the semester of enrollment following the one in which his or her GPA dropped below 3.00. Programs may not request this exception on behalf of students who will hold any other type of employment.

A student granted one semester of good academic standing for purposes of continuing their assistantship must improve his or her UT Arlington graduate grade-point average to 3.00 and return to good academic standing as normally defined in the next semester of enrollment in order to qualify for assistantship support in subsequent semesters. Requests to extend this form of good standing beyond one semester will not be approved. Further, students who have previously received a one-semester extension of academic good standing for purposes of continuing their assistantship will not be eligible for this exception again.

2. The student must be making satisfactory progress toward an advanced degree.
3. The student must have performed assigned assistantship duties satisfactorily in the preceding semester(s) as determined by the department in which the assistantship is held.

A department may limit the number of semesters during which a graduate student may hold an assistantship.

### Resident Tuition Rates

Graduate teaching and research assistants employed at least 20 hours per week in positions related to their degree programs are entitled to Texas resident tuition rates. Eligibility for the resident rate must be certified prior to registration otherwise, full tuition will be assessed. Non-resident students receiving appointments after a term's published Census date will not be eligible for resident tuition rates in that term.

Non-resident or international students holding less than full assistantships (full meaning 20 hours employment per week) are not eligible for Texas resident rates.

## Course Load

### Full Assistantships

Graduate assistants holding full assistantships (20 hours of employment per week) may register for and must complete no fewer than nine semester hours and no fewer than six semester hours during the three summer semesters.

The nine hour minimum registration limit may be reduced to six semester hours for thesis and dissertation students who 1) have completed all required coursework 2) are registered for thesis or dissertation research only. In such cases, master's students should enroll in 5698 and doctoral students who have passed their Comprehensive Examinations should enroll in 6699 course. International students meeting these requirements must obtain written permission from the Office of International Education to enroll in fewer than nine hours and present it to the appointing department. Students defending their theses typically must enroll in a six-hour thesis course. Doctoral students who have completed or will complete a total of at least nine hours of dissertation research in 6399, 6699, 6999 and/or 7399 courses prior to graduation may meet minimum registration requirements in the term they intend to defend their dissertations and graduate by enrolling in 7399. However, if a student does not graduate after enrolling in 7399, he or she must enroll in 6699 or 6999 until graduation. The 7399 course may not be repeated. Students may not petition for a course load reduction below these requirements.

Non-thesis master's students with only three to six hours of organized coursework left to complete a program in his or her final semester are permitted to hold an assistantship while enrolled in the three to six hour course. International students in these instances must obtain written permission from the OIE for less than nine hours of enrollment and present it to the appointing department.

### Partial Assistantships

Graduate Teaching Assistants or Graduate Research Assistants who have a 25% (10 hours of employment per week) or less appointment must be enrolled for at least six hours during a long semester and three hours during the summer. This enrollment requirement covers both organized courses and dissertation and thesis hours. However, all graduate students, whether funded or unfunded, must follow UT Arlington policy concerning required enrollment in the final semester.

## Assignment of Duties

Graduate assistants are under the direction of the department chair with regard to assistantship responsibilities and assignments.

## Additional Employment While an Assistant or Associate

### All Students

In accepting a graduate assistantship/associateship, students agree to devote their efforts to graduate studies and assistantship/associateship responsibilities. In some circumstances, however, additional employment may be justified. Immigration policies severely restrict the amount that an international student may work.

### U.S. Citizen Students

Full-time (20-hour) graduate assistants wishing to hold additional assistantships/associateships or accept additional on or off-campus positions must obtain the approval of their Graduate Advisor. Approval will only be given if the additional work will not impact the student's academic progress negatively or exceed employment limits allowed by law.

### International Students

During the fall and spring semesters, international students may work on campus only 20 hours per week unless authorized for additional employment through Curricular Practical Training (CPT). During vacation and the summer, international students may work more than 20 hours per week on-campus without additional authorization. At anytime during the year, employment with an off-campus employer must be authorized by either BCIS or by the International Office in the case of CPT. The Office of International Education must grant approval prior to taking on additional employment if that employment is to be authorized by CPT. Students holding a UT Arlington assistantship wishing to work off-campus in addition to the assistantship, must 1) meet and maintain the enrollment requirements for holding an assistantship 2) meet the immigration requirements for CPT 3) work only part-time (20 hours or less) off-campus 4) be employed in off-campus work that is clearly connected to his or her assistantship. If these requirements are not met, a student will be obliged to give up either the assistantship or the off-campus employment.

## Seeking Exceptions to Policies of the Graduate School

A student may petition for exceptions to published rules of the Graduate School by submitting a Petition to the Graduate Faculty form to his or her Graduate Advisor. The Graduate Advisor and the departmental Committee on Graduate Studies Chair will evaluate the petition and send it to the Dean of Graduate Studies for final judgment. Limited exceptions to some rules may be approved if the facts presented by the petitioner are fully justified in the views of the Advisor, Committee on Graduate Studies Chair, and Graduate Dean. All petitions must be submitted on the petition form available online through the [Graduate School website](#).

## Course Designation System

The following example provides an explanation of the designation system of graduate courses at The University of Texas at Arlington.

### 5313 CARBONATE PETROLOGY (2-3)

1. The four-digit number (5313) is the departmental unique numerical designation for the specific course listed.
  - a. The first digit (5) in the above example denotes the level of the course. Graduate courses are designated 5 or 6.
  - b. The second digit (3) denotes the semester hour credit of the course.
  - c. The third and fourth digits (1 and 3) are departmental designations and may or may not have sequential significance.
2. The first number in parentheses following the course title indicates the class hours per week devoted to lecture. The second number indicates the class hours per week devoted to laboratory, practice or fieldwork for the fall or spring semester.

Each department or program has been assigned a unique two-, three- or four-character prefix for use in course designations on registration documents, transcripts and other University records. For example, the Carbonate Petrology 5313 course described above is taught in the Department of Geology and appears on student records as GEOL 5313. The two-, three- or four-character prefix is given in parentheses after the department or program name in the catalog section describing academic departments and programs.

Tuition and fees are subject to change by legislative or regental action and become effective on the date enacted. The Texas Legislature does not set the specific amount for any particular student fee. The student fees assessed above are authorized by state statute; however, the

specific fee amounts and the determination to increase fees are made by the university administration and The University of Texas System Board of Regents. Visit [www.uta.edu/fees](http://www.uta.edu/fees) for current tuition, fees, and charges.

To comply with Senate Bill 1304, passed by the 81st Texas Legislature the University of Texas at Arlington is required to report to each student the amount of tuition paid by the student that must be set aside to provide financial assistance to qualified students. UT Arlington will notify students by email of the set aside amount.

Tuition is charged based on course of study; therefore a precise semester registration total may be calculated by accessing the Registration Cost Estimation site at [www.uta.edu/fees](http://www.uta.edu/fees)

The "99 hour rule" refers to the implementation of Senate Bill 961, passed by the Seventy-fifth Legislature. It is the rule that students admitted during the fall semester of 1999 and thereafter who complete more than 99-hours of *doctoral* level study may be required to pay out-of-state tuition for every subsequent semester. UT Arlington does not to automatically change tuition rates when a doctoral student passes the 99-hour mark. The policy of the University is as follows: Doctoral students who enrolled under the Summer 1999 or subsequent catalogs will be charged non-resident tuition under the following conditions: A doctoral student must pay non-Texas resident tuition beginning the first long semester in which a) the student has been enrolled previously as a graduate student for 14 or more long semesters, AND b) the student has accumulated more than 99 semester credit hours of doctoral study at UT Arlington. Students exceeding both limits will not be eligible for assistantships supported by state funds. Individual exceptions for students exceeding these criteria who are nearing degree completion are considered.

A Designated Tuition discount will be given to students who meet ALL of the requirements published at [www.uta.edu/fees](http://www.uta.edu/fees).

## Description of Tuition, Fees, and Charges

Tuition, fees, and charges are assessed to students based on semester credit hours (SCH), a set charge per semester, or specific services. They are either required by all students, charged to everyone taking specific courses or anyone receiving specific services, or charged only for voluntary products or services. Refer to [www.uta.edu/fees](http://www.uta.edu/fees) and choose Description of Tuition, Fees and Charges.

## Cost of Attendance and Financial Aid Opportunities

Cost of attendance equals the estimated cost of books, transportation, living expenses plus tuition and fees. Current estimated cost of attendance and financial aid opportunities available through the Financial Aid Office can be found at [www.uta.edu/fao](http://www.uta.edu/fao). Navigate to the *Cost of Attendance* option under *the Financial Aid* menu for detailed information.

## Other Fees, Charges, and Expenses

### International Student Health Insurance

International students are required to purchase The University of Texas at Arlington Student Health Insurance Plan while enrolled at the University. Exceptions to this requirement are:

- Coverage by the UT Arlington faculty/staff insurance
- Continuing coverage under a mandatory government-sponsored health plan
- Continuing coverage under a mandatory employer-sponsored insurance plan

Proof of coverage and benefits provided must be documented and must be comparable to the University-sponsored plan. All policies under the three categories of exceptions must contain at least a \$7,500 repatriation benefit and a \$10,000 medical evacuation benefit. All policies must

meet USIA regulations for those in "J" status. If coverage does not include medical evacuation and repatriation, supplemental policies covering those items will be made available.

### Mav Express Card Features and Charges

The Mav Express Card is used for accessing controlled facilities, checking books from the Library, and for cashing checks at Bursar Services. In addition, it is used for on-campus printing privileges, admission to various University activities, and as a form of personal identification.

A student may choose to deposit money on the Mav Express Card. This debit feature is called Mav Money. Students may use Mav Money at Dining Services, Bursar Services, University Center, Student Health Services, vending machines and many other locations on and off campus. Deposits may be made and account activity reviewed online. In addition, a student may link a Mav Express Card to a free Wells Fargo checking account which allows the student to make PIN-based debit transactions.

Each student at UT Arlington is required to pay a \$15 Mav Express Card activation charge for each fall, spring, and 11-week summer semester of enrollment. The 5-week summer session, Maymester, and Winter Session are \$7 each.

The Mav Express Card is a permanent card. As a student registers for a semester, the card is automatically validated. It is not necessary to obtain an additional Mav Express Card unless the student loses or destroys the card. The replacement charge for a lost or destroyed card is \$15.

For additional information, visit [www.uta.edu/mavexpress](http://www.uta.edu/mavexpress) or call 817.272.2645

### Maverick Parking Garage

The optional parking garage is available at an additional per semester charge, plus gate card deposit. Day and night passes are offered. Passes must be picked up at the garage and are only for parking in the garage. A parking permit must be purchased for parking elsewhere on campus.

Contact the Maverick Parking Garage at 817.272.2370 for specific rates and availability.

### Parking Permit Charge

All students who drive to a vehicle on campus need a permit to enter or park legally on campus. Please order your permit online for Decal Request through the registration screen from your student service center on the Web. All students who order their permit before the first day of class will be mailed their permit. The permit will be mailed to their current University mailing address. If students order their permit after the first day of class, they will need to pick up the permit at the University Police Parking Service Office, 1225 W. Mitchell, Suite 112. Hours of business are 7:30 a.m. to 5 p.m. Monday-Friday, with the exception of registration periods. Students picking up dorm or rental property parking permit must show proof of residency if they are not listed as primary resident.

If students withdraw from school any time before classes begin or before the census date, they must bring their permit to the Parking Office to receive a full/partial refund or mail the permit back by certified mail. If the permit is not returned, or if students lose or misplace the permit, a refund cannot be given. Each student will receive only ONE permit per fiscal year. If it becomes necessary to drive a different vehicle, the permit is transferable. However, the permit owner is responsible for all violations accrued by any vehicle that has their permit displayed. Students who terminate their enrollment prior to spring registration and who have paid a vehicle permit fee may receive a partial refund in accordance with the Rules and Regulations booklet provided they return their permit. No refunds on parking permits will be given after the spring census date for students. Ownership of the permit remains with the institution and is not transferable.

Students are responsible for picking up a copy or visiting the Web site for the Rules and Regulations booklet that contains campus parking policies. For additional parking information or hours of extended service during registration, call 817.272.3907 or visit the Web site <http://www.uta.edu/campus-ops/police/parking/office.php>.

## Graduation Charges

A graduation application fee must be paid by each doctoral and master's degree candidate when he/she applies graduation. If graduation is delayed to a subsequent semester, the student must reapply for graduation and graduation fees again. Graduation fees are non-refundable and non-transferable. Students who request that their diplomas be mailed after graduation will also be required to pay the appropriate mailing fee.

## Cost of Books

Cost of books depends upon the courses selected. Generally, books for technical subjects are somewhat higher than those for other academic subjects. In certain technical, scientific and fine arts fields, there are extra expenses for equipment and supplies.

The University Bookstore has available both new and used textbooks. The bookstore will purchase used textbooks which are in good condition at any time during the year provided such textbooks continue to be used by the academic departments and if needed by the bookstore.

## Transcripts

The Registrar's Office will mail an official copy of an academic transcript at the written request of a student upon receipt of payment of \$7 for each copy requested. When working conditions permit, the office will provide one-day transcript service if requested. An official transcript will not be issued unless all financial obligations to the University have been satisfied.

## Tuition, Fees, and Charges: Exemptions and Waivers

State law provides for several exemptions or waivers of tuition, fees, and charges. Students qualified for a reduced rate in any of the exempt categories must have that eligibility certified prior to registration. For a complete description and eligibility requirements, please go to [www.uta.edu/fees](http://www.uta.edu/fees) and select Exemptions and Waivers. This website will also provide department contact information and tuition, fees, and charges that are exempt or waived. Additional information may be found in the Texas Education Code.(see [www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm](http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm))

## *In Absentia* Registration Fee

A candidate for a degree who has completed all requirements for graduation by the last date to qualify for in absentia registration (see Graduate School calendars) and who would need to register for coursework for the sole purpose of having a degree conferred may register *In Absentia* with permission of the Graduate Advisor and the Dean of Graduate Studies. To obtain permission, the student must file a Request to Register *In Absentia*. A student who is approved for *In Absentia* may not enroll for courses. The student must also pay the appropriate *In Absentia* fee. No refund is made for the cancellation of *In Absentia* registration. In addition to paying the cost of *In Absentia* registration, the candidate must file an application for graduation and pay the appropriate graduation fees.

## Academic Common Market

The Academic Common Market is an interstate agreement for sharing academic programs through an exchange of students across state lines. Fifteen southern states take part in the Academic Common Market. Texas, Florida and North Carolina participate at the graduate level only. Selected out-of-state programs that are not offered in a student's home state can be accessed through the Academic Common Market at in-state tuition rates.

For information on the graduate programs at The University of Texas at Arlington that are available through the Academic Common Market and the states that have access to those programs,

contact the Graduate School or the Academic Common Market coordinator in the home state.

Further information on the Academic Common Market may be obtained from the Texas State Coordinator for the Academic Common Market: Texas Higher Education Coordinating Board, P.O. Box 12788, Austin, Texas, 78711. Phone: 512-427-6525. E-mail:

[linda.mcdonough@thecb.state.tx.us](mailto:linda.mcdonough@thecb.state.tx.us)

## Payment of Tuition, Fees, and Charges

Please go to [www.uta.edu/fees](http://www.uta.edu/fees) for information on due dates, deadlines, detailed penalties and refunds.

## Withdrawal for Non-Payment

Please go to [www.uta.edu/fees](http://www.uta.edu/fees) and select Withdrawal for Non-Payment for current detailed information.

## Payment Options

Please go to [www.uta.edu/fees](http://www.uta.edu/fees) and select Payment Information for current detailed information.

- **Installment Plan:** A student is activated on the Installment Plan by agreeing to the Registrant's Responsibilities and by paying one third (1/3) of the current term balance. Additionally, if your tuition, fees, and charges increase for any reason, such as residency status changes or schedule adjustments, the new higher total will be divided into the remaining payment. The service charge for choosing this option is \$10 for each additional billing (max \$20 per term). By using the Installment Plan, you will not be eligible for a Designated Tuition discount. Visit [www.uta.edu/fees](http://www.uta.edu/fees) and select Installment Plan for more information.

Note: The following quotation from Texas Education Code 54.007 applies to installment payments due: "A student who fails to make full payment of tuition and fees, including any incidental fees, by the due date may be prohibited from registering for classes until full payment is made. A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester."

- **Financial Aid:** Please read the Financial Aid section of this catalog or visit [www.uta.edu/fao](http://www.uta.edu/fao) for information.
- **Enrollment Loans:** Loans are offered only if funds are available and the borrower meets underwriting requirements published at [www.uta.edu/fees](http://www.uta.edu/fees). Please visit this website for specific information.
- **Third Party Billing:** Sponsored Student Information can be found at [www.uta.edu/fees](http://www.uta.edu/fees).

Questions may be directed to Bursar Services, 817.272.2172. Detailed student account information may not be released to anyone other than the student without the student's written permission in Bursar Services.

## Payment Methods and Locations

The University accepts cash, checks, traveler's checks, money orders, wires, and the following credit cards: MasterCard, Visa, Discover, Diner's Club, and American Express. Any form of payment that is returned unpaid can result in enrollment withdrawal and additional penalties.

- **Online:** Pay by credit card or electronic bank draft/ACH transfer from your checking or savings account at [www.uta.edu/makepayment](http://www.uta.edu/makepayment).
- **24-Hour Drop Box:** Check or money order payments may be placed in the secure drop box located in the North 1st floor entrance to E.E. Davis Hall. Please include your 10-digit student ID number. Do not deposit cash or traveler's checks in the drop box.
- **In Person:** Payments can be made in person at Bursar Services, Room 130, E.E. Davis

Hall.

- **Mail:** Please include your 10-digit student ID number and do not mail cash or traveler's checks. Check or money order payments can be mailed to:  
UT Arlington Bursar Services  
P.O. Box 19649  
Arlington, TX 76019-0649
- **Traveler's Check:** Traveler's checks must be signed in the presence of a cashier and should be presented in person at the Bursar's window during their regular business hours.
- **International Wires:** Demand drafts and international checks are held for 60 days before refunds can be issued. The use of wires is recommended to expedite refunds.
- **Kiosks:** Payments can be made at kiosks across campus using credit cards, debit cards, and checking or savings accounts.

## Concurrent Enrollment

### Cooperative Programs Between University of Texas System Components

A student concurrently enrolling at two or more University of Texas System components and participating in a joint cooperative program may register and pay tuition, fees, and charges for all courses through the student's home institution. The concurrent enrollment agreement and waiver of specified fees and charges applies only to students following the concurrent enrollment procedures specified by the registrar of the home institution. Detailed procedures may be obtained from the registrar of the student's home institution. UT Arlington students will find additional information by going to [www.uta.edu/fees](http://www.uta.edu/fees) and selecting Concurrent Enrollment. The concurrent enrollment agreement and waiver of specified fees and charges applies only to students following the concurrent enrollment procedures specified by the registrar of the home institution. Applicable tuition, fees and charges will be assessed and collected at the home institution for the other institution(s). The charges for the following will be assessed and collected at the home institution for the other institution(s):

- Flat rate Tuition at an appropriate rate
- Applicable laboratory fees and special course charges
- Enhanced Designated Tuition
- Any other fees and charges that are required at the host institution that are not charged at the home institution

Student services at the second institution will be made available to concurrently enrolled students paying the appropriate student service fees at the second institution. Some institutions have a reciprocal agreement for honoring parking permits. Details may be obtained from the police departments on each campus. Concurrently enrolled students should report any problems concerning registration, payment of tuition, fees, and charges or other matters related to concurrent enrollment procedures to the registrar of the home institution.

Concurrent students wishing to add or drop courses must do so in compliance with the host institution's policy. On or before the host institution's Census Date, adds or drops may be done through the home institution's registrar. After the Census Date, drops must be done at the host institution.

### Sponsored Students/Texas Tomorrow Fund Participants

It is the student's responsibility to contact Bursar Services, Rm. 130, Davis Hall, 817.272.2172, each semester prior to the payment deadline date to confirm that an authorization has been received and is sufficient to secure the current term registration.

## Residency Regulations

Resident classifications are determined in accordance with Title 19, Chapter 21, Subchapter B of the Texas Administrative Code and the rules of the Texas Higher Education Coordinating Board for determining residence status. Except as specifically provided by law, an individual classified as a non-resident student must pay tuition, fees, and charges required of non-resident students. Students may access the Coordinating Board's rules at [www.theccb.state.tx.us/index.cfm?objectid=600F0651-BB5D-C070-AD7C2669CE8DBF4F](http://www.theccb.state.tx.us/index.cfm?objectid=600F0651-BB5D-C070-AD7C2669CE8DBF4F) and then viewing Subchapter B.

To be considered a Texas Resident a person must establish a domicile in Texas not later than one year before the census date of the academic term in which the person is enrolled in an institution of higher education, and maintain that domicile continuously for the year preceding the census date. Generally, a person enrolling in an institution of higher education prior to having established a domicile in Texas for 12 consecutive months immediately preceding the census date will be classified as a nonresident student.

Additionally, a person is eligible to be classified as a Texas Resident if the person: maintained a domicile in Texas for at least 36 months prior to graduation from a Texas high school or receipt of the equivalent to a Texas high school diploma, graduated from a Texas high school or received the equivalent of a Texas high school diploma, and maintained a residence in Texas for the 12 months preceding the census date at an institution of higher education. The domicile of a dependent's parents is presumed to be the domicile of the dependent unless the dependent meets all the requirements of this paragraph.

If while attending an institution of higher education a person classified as a nonresident meets the requirements to domicile in Texas, the nonresident student may reclassify as a Texas Resident if business and personal facts or actions are unequivocally indicative of a fixed intention to domicile permanently in Texas. A nonresident classification is presumed to be correct as long as the residence of the individual in Texas is primarily for the purpose of attending an educational institution. Students wishing to reclassify will need to complete a set of the Core Residency Questions ([www.collegeforalltexas.com/index.cfm?ObjectID=6D1466D9-AEA5-DE00-C12F3F75E7367718](http://www.collegeforalltexas.com/index.cfm?ObjectID=6D1466D9-AEA5-DE00-C12F3F75E7367718)) and turn them into the Graduate Admissions Office with supporting documentation.

Generally, a student attending The University of Texas at Arlington who is not classified as a Texas Resident will be charged nonresident tuition. Certain nonresident students, however, are entitled to pay tuition and other fees at the Texas Resident rate. For example, military personnel assigned to duty in Texas, and their spouses and dependent children, are entitled to pay the same tuition as a Texas resident if certain documentation is provided (see Texas Education Code, Section 54.058, [www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm#54.058](http://www.statutes.legis.state.tx.us/Docs/ED/htm/ED.54.htm#54.058) for details and other residency benefits that are extended to military personnel and their families). Similarly, students who hold a competitive academic scholarship of \$1,000 per year or more awarded through The University of Texas at Arlington are entitled to pay resident fees and charges. Other exceptions to the requirement that nonresident students pay nonresident tuition, fees, and charges are included in the Texas Higher Education Coordinating Board rules for determining residence status.

The responsibility of registering under and maintaining the proper residence classification rests on the student. If there is any question concerning the student's classification at the time of registration, or any time thereafter, it is the student's obligation to consult with the residence advisor in the Graduate School and have the student's classification officially determined. All requests for reclassification should be submitted to the Graduate School at least 30 days prior to the census date of the term in question. Residency appeals are made to the Residency Appeals Committee. Decisions of the committee are final.

## Schedule Adjustments

All adds, drops and other registration adjustments through the term will cause an immediate, automatic fee recalculation.

## Dropping Course(s) but Continuing Enrollment

Students who remain enrolled in at least one course will be refunded in full for any course dropped by the 12th class day. If a course is dropped after the 12th day of class, the student is financially responsible for the full cost of the course.

## Total Withdrawal from School

A student who officially withdraws from a term (drops all hours of a specific term) will receive a refund according to the schedule below.

1. A student who withdraws prior to the first official university class day will receive a 100 percent refund.
2. If the foregoing condition is not met, then the refund shall be as shown below. Class days noted are official University class days based on the term's long session start date. They are not the individual student's class meeting days.
  - a. During class days 1 through 5 - 80%
  - b. During class days 6 through 10 - 70%
  - c. During class days 11 through 15 - 50%
  - d. During class days 16 through 20 - 25%
  - e. After 20th class day - no refund
  - f. Further details and precise dates are available at <http://www.uta.edu/policy/sfs/refunds/>
  - g. Parking refunds must be applied for separately at the Parking Office, 1225 W. Mitchell.

## Disbursement of Refunds

If a student receiving financial assistance withdraws (resigns) from all courses at the University of Texas at Arlington, then UT Arlington and/or the student may be required to return some of the federal, state, and/or institutional funds awarded to the student. These funds would be returned to the grant, scholarship, or loan fund from which the assistance was received.

The federal Return of Title IV Funds policy requires that a portion of federal aid be returned if the student withdraws on or before completing 60% of the semester for which student received federal aid. Students receiving all grades of F or a combination of all Fs and Ws are subject to the Return of Title IV Funds Calculation. Federal financial aid includes the Federal Pell Grant, Federal Academic Competitiveness Grant (ACG), Federal SMART Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), LEAP Grant (formerly SSIG), Federal TEACH Grant, Federal Perkins Loan, Federal Stafford Loan (subsidized and unsubsidized), and the Federal Parent Loan for Undergraduate Students (PLUS).

Depending on the types and amounts of aid received, UT Arlington may be required to return a certain portion of funds, and the student may be required to repay a portion of the funds. If the student owes a repayment of grant funds as a result of the calculation, he/she cannot receive future federal financial aid funds at any school until repayment has been made. Any federal loan amount owed by the student is to be repaid under the terms of the promissory note. The student may owe an outstanding balance to UT Arlington once we return funds required through the federal Return of Title IV Funds calculation. Complete details of the policy can be found at [www.uta.edu/fao](http://www.uta.edu/fao), click Financial Aid on the left menu, then Return of Funds Policy. Contact the Office of Financial Aid for additional information.

## Refunds

Current detailed information is available at [www.uta.edu/fees](http://www.uta.edu/fees). Select Refunds (Withdrawals and Drops). UT Arlington recommends the use of Direct Deposit for receiving refunds. Inquiries

concerning refunds should be directed to Bursar Services, Room 130, Davis Hall, 817.272.2172.

## Financial Aid

### Financial Aid

- [Assistance Based on Need](#)
- [Financial Counseling](#)
- [Out-of-State Student Assistance](#)
- [Veterans' Assistance](#)

### Fellowships and Scholarships

### Assistantships

### Financial Aid

252 Davis Hall | Box 19199 | 817.272.3561 | [www.uta.edu/fao](http://www.uta.edu/fao)

The following summaries are for informational purposes only. Current information on each program is available from the Financial Aid Office and by accessing the Financial Aid Web site.

Students subject to selective service registration will be required to file a statement that the student has registered or is exempt from selective service registration to be eligible to apply for state or federal financial aid.

### Assistance Based on Need

Students wishing to participate in any of the following financial aid programs should complete a Free Application for Federal Student Aid (FAFSA) as early as possible prior to their actual enrollment at the University. The funding process takes approximately four weeks for completion. Financial aid in these categories is generally limited to U.S. citizens or permanent residents. Funding for graduate courses is only available to students admitted to the Graduate School as "Regular" students. "Special" and "Transient" students are not eligible for these programs.

With the exception of post-baccalaureate students seeking certification in the following areas: early childhood - grade 6, middle level, secondary and all level, non-degree seeking students in stand-alone certificate programs awarded by UT Arlington are not be eligible to receive need-based financial aid.

### Grant Assistance

Grant funding is available for graduate students through the Texas Public Education Grant (TPEG) and the Mav Grant. Grants are funds that normally do not require repayment. Recipients must have demonstrated financial need as verified through the completion of the FAFSA, and meet the published priority financial aid application deadline. TPEG funds are available to international students. Please contact the Financial Aid Office to complete an International TPEG form.

### Graduate Loan Programs

The Federal Perkins Loan, Federal Stafford Loan (subsidized and unsubsidized), and College

Access Loan (CAL) are the primary sources of long-term loans available at UT Arlington. These programs include deferred repayment provisions that permit students to repay the loan after termination of at least half-time studies at the University. Interest will not accrue on the loans while the borrowers are enrolled on at least a half-time basis. Information regarding loan amounts and terms can be obtained from the Financial Aid Office.

### **Federal Work-Study Program**

A student who needs a job to help pay for college expenses may be eligible for employment through the Federal Work-Study Program. Eligibility is based on financial need as determined by the FAFSA. Most participants are employed in positions with various University departments, but limited off-campus jobs with certain approved agencies are also available.

### **Aid Programs for Teachers and Vocational Nursing Students**

The Texas Education Coordinating Board administers various tuition assistance programs including programs for teachers and vocational nursing students. Further information about these programs may be obtained by contacting the Financial Aid Office and by accessing the Financial Aid web site.

### **Financial Counseling**

The Financial Aid Office provides financial or budgetary counseling for any and all students regardless of whether they qualify for other types of financial assistance.

### **Out-of-State Student Assistance**

Several states offer aid to their students attending schools in other states. Amounts and requirements for this assistance vary greatly. Further information can be obtained from the home-state aid agency.

### **Veterans' Assistance**

Contact the Registrar's Office for information concerning eligibility for and payment of VA benefits and other matters for veterans attending or planning to attend UT Arlington.

## **Fellowships and Scholarships**

**252 Davis Hall | Box 19199 | 817.272.2197 | <http://www.uta.edu/ses/fao/>**

The University of Texas at Arlington provides a variety of scholarship programs for students who have demonstrated exceptional academic achievement. UT Arlington also offers a number of endowed scholarships that are administered by a school, department or program. Graduate scholarships are awarded on the basis of scholastic excellence and adequate preparation for graduate study in the student's chosen field, as shown by the student's academic record. Scholarship eligibility criteria include admission into a degree program, enrollment in coursework leading to the degree, reasonable progress in the degree program, good academic standing, GPA, and in some cases, test scores, references and personal statements. Test scores are not used as the sole criterion for awarding scholarships or the primary criterion for denying scholarship to applicants. There are additional specific qualifications for scholarships in various areas of study. Students are encouraged to contact their school dean or department/program office to obtain information about eligibility criteria and scholarships awarded in the student's area of study.

In addition to the specific qualifications required for various competitive scholarships awarded by the University, the committee responsible for selection of a given scholarship may consider such factors as leadership, community involvement and financial need. State law and the Rules and Regulations of the Board of Regents of The University of Texas System require that any scholarship and/or fellowship be approved by the appropriate scholarship, loans and awards committee (graduate or undergraduate). For graduate students, the Dean of Graduate Studies serves as the committee chair. Scholarship funds have been contributed by individual donors, UT Arlington alumni, corporations, government agencies and other entities to recognize and reward academic excellence.

## Assistantships

Standard research and teaching assistantships available in most departments can be held only by students admitted unconditionally or on probation to Graduate School. Recipients of the Enhanced GTA and the STEM Fellowship can be admitted unconditionally only. Students admitted provisionally or students who are on academic probation are not eligible for assistantships. Prospective graduate students should contact the appropriate department chairperson for further information. To be continued on a research or teaching assistantship, a student must be in good standing and have performed assigned duties satisfactorily in the preceding semesters as determined by the respective department. Consult the catalog section on General Graduate School Regulations and Information for regulations regarding registration and responsibility of graduate assistants.

Before being appointed to an assistantship at UT Arlington, a student whose native language is not English must demonstrate English proficiency. The preferred method to demonstrate English proficiency is to submit an acceptable score of at least 23 on the TOEFL speaking subtest, or a score of at least 7 on the speaking section of the IELTS, or take and pass the UTA Developmental English course. The TOEFL or IELTS score should be sent directly to UT Arlington by ETS or IELTS. Score reports submitted directly by the student or those marked "Student Copy" or "Applicant's Copy" are not considered official and will not be accepted by the University. The English proficiency requirement will be waived for non-native speakers of English who possess a bachelor's degree from an accredited U.S. institution. The TOEFL and IELTS are administered at test centers around the world. See the catalog entry titled Application Documentation Requirements in the Admission Requirements and Procedures section for further information.

## Housing

**210 University Center | Box 19349 | 817.272.2791 | [www.uta.edu/housing](http://www.uta.edu/housing)**

The University owns and operates residence halls, apartments, and houses for UT Arlington students. Residence hall features vary by community. However, all residence hall students enjoy a double or private room on campus that includes Internet, cable TV, and metro phone service, and staff who live on site. Nineteen on-campus apartment communities and 19 houses are available to students as well. For more information about University-owned and managed housing, call 817.272.2791 or visit [www.uta.edu/housing](http://www.uta.edu/housing). Online applications are available on the Web site as well.

Centennial Court, a privately-owned, apartment-style community for UT Arlington students, is also located on the UT Arlington campus. Call 817-436-4800 for more information about Centennial Court.

## Health Services

**605 S. West Street | Box 19329 | 817.272.2771 | [www.uta.edu/healthservices](http://www.uta.edu/healthservices)**

UT Arlington Health Services, under the direction of the Vice President for Administration and Campus Operations, is an ambulatory health care facility fully accredited by the Accreditation Association for Ambulatory Health Care, Inc. Health Services strives to maintain the optimum physical and emotional health of UT Arlington students by providing quality, accessible, comprehensive and cost-effective primary health care.

In addition to a general medicine clinic, Health Services houses a pharmacy, laboratory, radiology department, mental health clinic, women's health clinic, immunization clinic, and a health promotion and substance abuse prevention office. Complementing efforts of the professional staff is a peer education program that prepares and trains students to educate the University community and surrounding communities about healthy lifestyles, including information on topics such as substance abuse, eating disorders, healthy relationships, acquaintance rape, sexually-transmitted infections, HIV/AIDS, and stress. In addition, there is a Student Health Advisory Committee composed of students who act as a liaison between Health Services administrators and the UT Arlington student body concerning health care issues.

Health care is available to all enrolled students. Student employees, such as GTAs, GRAs, TAs, and RAs, may utilize Health Services as students. Access to Health Services is by appointment only. This is intended to avoid potentially long waiting times experienced under a walk-in system. Access to the Immunization Clinic and Pharmacy does not require an appointment.

**Staffing:** The staff includes full-time physicians, nurse practitioners, registered nurses, pharmacists, laboratory and x-ray technologists, clinical psychologists, psychiatric nurse practitioners, health promotion and substance abuse prevention educators and support personnel. Health care is available at Health Services during those times when the University is open. Services are not available during scheduled University holidays. During periods of closure, students are financially responsible and must arrange payment for medical care received from another source.

## Services Available

**Medical Clinic:** Two Board certified family practice physicians, four nurse practitioners, and four registered nurses operate out of eight exam rooms. They provide a wide range of urgent care services as well as limited follow-up care for eligible students.

**Allergy-Antigen Injections:** If students wish to receive allergy-antigen injections, they must make an appointment with the senior physician prior to beginning allergy injections at Health Services. Patients are responsible for bringing their own antigen with specific instructions from their allergist, and the first dose of the antigen must be administered by their allergist. Patients are responsible

for providing a medical history and allergy skin testing results from the ordering healthcare provider.

**Women's Clinic:** Diagnosis and treatment of gynecological problems, contraceptive advice, routine Pap smears and breast examinations are performed by nurse practitioners with specialized training in women's health.

**Mental Health:** A variety of mental health services are available to eligible students. Individuals may receive help with problems in daily living or mental health concerns such as depression, stress, grief reactions, interpersonal problems, anxiety, phobias, eating disorders and psychoses. Appointments can be made with the office staff and no referral is necessary. When indicated, psychological testing is available to help gain increased understanding about a patient's functioning. Psychiatric consultation is also available when questions concerning medication or hospitalization are an issue. Referrals to appropriate community mental health agencies or other professionals may also be made. Comprehensive assessment and testing for ADHD and learning disabilities is available. Treatment recommendations and appropriate referrals are made when indicated.

**Laboratory:** Accredited by the Commission on Office Laboratory Accreditation (COLA), the laboratory provides a wide range of laboratory testing as well as testing for sexually transmitted infections. Outside physician orders for laboratory examinations are accepted. HIV/AIDS testing requires pre and post-test counseling.

**Pharmacy:** Most medications are purchased at a state-contracted rate and generic medications are used whenever possible. Patients have the option of bringing outside prescriptions for filling in our pharmacy. A separate prescription counseling room is available for patients to receive discreet, confidential counseling regarding prescriptions or over-the-counter medication. The pharmacy also stocks a variety of non-prescription and over-the-counter products such as pain relievers, cough and cold remedies, vitamins, antacids, laxatives, topical skin care medications, feminine hygiene products, condoms, bandages and wound-care supplies.

**X-Ray:** Health Services performs routine x-rays. Digital images are sent for reading to a local radiologist who returns the results to us in about 48 hours.

**Medical Records:** As of July 2009, Health Services made a complete transition from paper medical charts to an electronic medical records system in accordance with the American Recovery and Reinvestment Act. All medical records are protected under patient/physician confidentiality provisions, only the patient has access to their records. Records will not be released to anyone without written authorization from the patient or as provided by law.

**HIV/AIDS:** Education and information on HIV/AIDS are available at no charge and may be given in a one-on-one setting or to campus groups. Testing for HIV/AIDS is available and requires pre- and post-test counseling appointments. Clients are referred to appropriate off-campus facilities, if needed. The UT Arlington brochure, "*Policy and Guidelines on Human Immunodeficiency Virus Infection (HIV) and Acquired Immune Deficiency Syndrome (AIDS) and Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV)*" is available at Health Services.

**Bacterial Meningitis:** Meningitis, a rare but potentially fatal bacterial infection that affects the brain and spinal cord, strikes about 3,000 Americans each year. Information about meningitis and its symptoms is available on the [Health Services website](#) and in the printed Schedule of Classes. As of January 1st, 2012, incoming Texas college students under 30 years old must be immunized against bacterial meningitis before they enroll in an institution of higher education.

State law mandates that first-time college students, students transferring from another institution and students who are re-enrolling following a break of at least one fall or spring semester be inoculated against the illness. Students who plan to audit a course also must comply with the law, SB 1107 passed during the 82<sup>nd</sup> Legislative Session.

It is imperative that students who plan to enroll in UT Arlington be vaccinated as soon as possible. Under the law, new college students must have received the vaccine within the past five years. Proof of inoculation is required 10 days before the start of the semester as the vaccine is

considered effective several days after it is administered. Limited exemptions are specified in state law. ([51.9192](#) of the Texas Education Code; Section [21.610](#) of the Texas Administrative Code; et seq)

**Health Promotion and Substance Abuse Prevention:** Health Services offers health education, programs and materials to assist students to make appropriate decisions concerning alcohol, drugs, sexual health, nutrition, wellness and other health-related topics. Several awareness events are held throughout the year promoting health and wellness, including an annual Health Fair held each spring term.

In support of the University's [tobacco-free policy](#), Health Services offers tobacco cessation resources and support. [Fresh Start from Tobacco](#) classes are free and open to all faculty, staff and students who are ready to quit. Registration is required. A brochure on the University Policy regarding drugs and alcohol, [Illicit Drugs and Alcohol Abuse](#), is available at Health Services.

**Student Health Advisory Committee:** This organization is sponsored by Health Services and is composed of students who act as a liaison between Health Services administrators and the University student body concerning health care issues. The committee provides feedback on health-related issues and policies from a student perspective and conducts special events throughout the academic year to promote health awareness. Membership is open to all majors.

**SMART Peer Educators:** The SMART Peer Educator Program is a University and community-based network focusing on comprehensive health and safety initiatives. Peer educators actively promote student and young adult-based, campus and community-wide leadership on healthy and safe lifestyle decisions concerning alcohol abuse, tobacco use, illegal drug use, unhealthy sexual practices and other high-risk behaviors. Peer educators receive extensive and rigorous training before working with students and offering peer counseling.

#### **Patient Rights:**

- To receive high quality, accessible, culturally sensitive medical care.
- To be treated with respect consideration, privacy, and dignity.
- To know one's provider's name, specialty, and credentials.
- To decline evaluation and/or treatment by a health care professional in training.
- To specify gender preference, and to change provider if requested, depending on availability.
- To receive complete, current information regarding diagnosis, treatment, and prognosis in understandable terms.
- To be given the opportunity to participate in decisions involving your health care.
- To be informed of the benefits, possible risks or side effects of treatment, alternate methods, and the medical consequences of treatment.
- To express any dissatisfaction to one's provider, to the managers of Health Services, or to the Director of Health Services.
- To be informed of the right to refuse to participate in any research conducted at Health Services.
- To have records and disclosures treated confidentially and, except when required by law, be given the opportunity to approve or refuse their release.

**Transportation:** Health Services is an out-patient facility, and, as such, provides only ambulatory medical services. Patients are responsible for their own transportation to Health Services. For true emergencies, or when the seriousness of the patient's condition is uncertain, call the University Police at 817-272-3003. The police will dispatch officers to the site, and call an ambulance, if needed. These officers are trained in CPR and first aid and can stabilize the patient until an ambulance arrives. This procedure should be followed even when Health Services is open.

**Indebtedness:** It is the student's responsibility to satisfy indebtedness to Health Services with reasonable promptness. Upon payment, receipts will be issued to be used by the student for submitting claims to personal insurance companies. Health Services will file claims for patients with the Student Health Insurance Plan.

**Health Insurance:** Health insurance is not required in order to receive healthcare at Health Services; however, all students are strongly urged to have adequate medical insurance coverage. Health Services is not equipped to perform extensive diagnostic procedures and services such as those offered by a general hospital, which do require medical insurance coverage. Students on non-immigrant visas are required to carry health insurance and must show proof of coverage at the time of registration. An optional system-wide Student Health Insurance Plan is available through an insurance carrier by contract with the University. It is the only insurance accepted at Health Services. Students with private health insurance will receive a receipt to submit a claim with their insurance company; Health Services can only file claims for patients with the Student Health Insurance Plan. For more information about the Student Health Insurance Plan, contact Health Services at 817.272.2771. [Insurance brochures and applications](#) are available online.

## Bookstore

400 S. Pecan St. 817.272.2785

[www.bkstr.com/Home/10001-10645-1?demoKey=d](http://www.bkstr.com/Home/10001-10645-1?demoKey=d)

The UTA Bookstore offers textbooks, course materials, general books, computer products and more. Per Texas Education Code, Section 51.9705; 19 TAC 4.215 et seq, students should be aware that a student of this institution is not under any obligation to purchase a textbook from this source. The same textbook may also be available from an independent retailer, including an online retailer. There are several independent retailers located in the area and a growing number of online options exist.

## Counseling Services

216 Davis Hall | Box 19156 | 817.272.3671 | [www.uta.edu/counseling](http://www.uta.edu/counseling)

Counseling Services is available to help students grow as whole individuals. UT Arlington counselors assist students in

- personal growth and development
- improving academic performance
- career planning and decision making
- leading healthy lifestyles
- improving relationships

Students may meet one-on-one with counselors, attend workshops or meet in groups. Services are available to enrolled UT Arlington students at no charge. Workshop topics vary by semester and may include Enhancing Self-Esteem, Stress Management, Relaxation Training, Healthy Relationships, Anger Management, Time Management, Improving Your Study Skills and Career Exploration. Group counseling themes include General Group Counseling, Advanced Relaxation Techniques, Assertiveness Skills Training and Career Exploration. Career assessments and workshops are available to help students gain greater awareness of their interests, values, personality, skills and abilities. A career library with computerized career assessments, books, magazines and other materials is available to help students conduct career-related research. You can access these services by scheduling an appointment with a counselor. Schedule an appointment by contacting Counseling Services at 817.272.3671. The Counseling Office is open 8 a.m.-7 p.m. every Monday and Thursday and 8 a.m.-5 p.m. on Tuesday, Wednesday and Friday. For more information, visit [www.uta.edu/counseling](http://www.uta.edu/counseling).

### Personal Counseling

Developing new life skills and perspectives, dealing with extraordinary life events, making personal decisions, and getting help with issues related to difficulties in adjustment, emotions, and interpersonal relationships.

### Academic Counseling

Individual sessions and group seminars are available to address a wide variety of issues including

academic skill building, reading improvement, test-taking strategies, study skills improvement, and time management. At times, we use the Learning and Study Skills Strategies Inventory (LASSI) as a way to assess your use of learning and study strategies.

## Career Development

Individual counseling is available to assist students in the exploration of their interests, abilities, career-related skills, work values, career preparation, resume preparation, and job searches. Students are often encouraged to take the Myers-Briggs Type Indicator (MBTI) and the Strong Interest Inventory as ways of assessing personality characteristics and interests that may suggest suitable career directions. Choices is a computer program that students can use to gather information about many majors, schools, and occupations.

## Assessment Services

201 Davis Hall | Box 19156 | 817.272.2362 | [www.uta.edu/testing](http://www.uta.edu/testing)

The following tests are given on national test dates: Graduate Record Examination (GRE) Subject Test and Writing Assessment, Law School Admission Test (LSAT) and the Medical College Admission Test (MCAT). The Miller Analogies Test is scheduled once per month. Specialized tests of aptitudes, interests and abilities are also given in conjunction with Counseling Services.

## Career Services

Career Services assists students and alumni in finding full- or part-time, internship and co-op employment opportunities. Services provided include career development workshops, job listings, résumé referral, on-campus employment interviews, career days and information on careers, employers and job search techniques.

Career Services has three offices across campus to better serve UT Arlington students and employers.

- **Business Career Services** offers part-time, full-time and internship opportunities to students and alumni.
- **Student Employment Services** offers non-degree-required part-time and full-time opportunities to currently enrolled students in all degree programs. In addition, work-study positions are posted for off-campus employment.
- **University Career Services** offers full-time degreed opportunities to new graduate students and alumni in all degree programs.

## Career Services Locations

**Web site:** [hireamaverick.uta.edu](http://hireamaverick.uta.edu)

**University Career Services:** Room 216, Davis Hall, 817.272.2932

**Business Career Services:** Room 106, Business Bldg., 817.272.5201

**Student Employment Services:** Room 140I, University Center, 817.272.2895

## Service Learning

B18 Davis Hall | Box 19124 | 817.272.2124 | [www.uta.edu/servicelearning/](http://www.uta.edu/servicelearning/)

UT Arlington and the Center for Community Service Learning believe in the role of higher education in preparing students for life in a democratic, civilized society and in educating students who will become engaged citizens and serve their community. Since its founding in fall 2001, the Center for Community Service Learning has been providing service-learning opportunities to students and faculty at UT Arlington.

The center (1) develops and supports opportunities for students and faculty to integrate academic study with community service; (2) helps faculty and students with service-learning placements, faculty development, curriculum development and assessment; (3) houses a service-learning resource library and a database of community agencies; and (4) administers faculty development grants, faculty and student service-learning awards and student service scholarships. Contact: Dr.

Shirley Theriot, director, [theriot@uta.edu](mailto:theriot@uta.edu), 817.272.2124, or Sharon Hughlett at [hughlett@uta.edu](mailto:hughlett@uta.edu).

## **The Office of International Education**

**Swift Center, 1022 UTA Blvd | Box 19028 | 817.272.2355 | [www.uta.edu/oie](http://www.uta.edu/oie)**

The Office of International Education (OIE) serves as general coordinator of the University's international contacts and programs, and seeks to promote, support and assist international activities throughout the University. The OIE serves more than 2,500 students and 100 scholars in non-immigrant status, U.S. students wishing to study abroad, and academic units who hire non-immigrant faculty and researchers.

The Student and Scholar Services area provides programs, consultation and documentation in the area of immigration and federal regulations. International students may take advantage of counseling on personal, academic, and financial issues through one-on-one sessions or through activities such as international student discussion groups, special workshops on immigration and other topics of interest. The International Programs area plans, organizes, and facilitates mandatory orientations for new international students, an international student discussion group, a friendship program, an international spouse club, an international coffee hour for the UT Arlington community, and workshops of interest to students. The tradition of International Week in the spring is facilitated through the International Student Organization.

The Study Abroad office offers opportunities for credit-bearing study through exchange programs in a number of different countries. Language and cultural studies can earn resident credit undertaken on faculty-led and affiliated programs in more than 40 countries. Students interested in study abroad opportunities, scholarship, travel and work opportunities abroad will find information at the OIE in Swift Center or by visiting [www.uta.edu/oie](http://www.uta.edu/oie).

## **Student Legal Services**

**Lower Level, University Center | Box 19355 | 817.272.3771 | <http://www.uta.edu/attorney/>**

A licensed attorney is employed by the University and available to advise and consult with all currently enrolled students who have paid the Student Service Fee. The attorney may advise the student regarding personal legal problems and concerns.

Areas frequently discussed with the attorney include landlord-tenant disputes, family law matters, contractual controversies, consumer protection questions, traffic accidents and minor criminal matters. Concerns regarding other legal matters may require additional research or referral, at the discretion of the attorney. Academic matters and other problems or concerns involving UT Arlington are addressed in various policies and procedures. Therefore, the attorney may not represent the student in any legal or administrative proceedings or offer advice pertaining to any legal topic involving the University or another enrolled student.

Students must bring their Mav Express card to the appointment for verification of current enrollment.

## **Testing Services**

**201 Davis Hall | 817.272.2362 | [www.uta.edu/testing](http://www.uta.edu/testing)**

The Testing Services Office provides information to help students identify tests they may need to take for graduate admission or demonstrating proficiency in English.

The Testing Services Office has information on the following tests:

- Admissions Tests: Graduate Record Exam (GRE) and the Law School Admissions Test (LSAT).
- The Miller Analogies Test may be taken at Testing Services. Specialized tests of aptitudes, interests and abilities are given in Counseling Services.

For more information access [www.uta.edu/testing](http://www.uta.edu/testing) or call 817.272.2362.

## **YWCA Child Development Center**

**106 W. 6th St. (corner of 6th and Speer) | 817.272.1135**

The YWCA Child Development Center is operated by the YWCA of Fort Worth and Tarrant County and offers full-time infant, toddler and preschool child care. Part-time care can be scheduled for children of UT Arlington students. The center is open from 6:30 a.m. to 6 p.m. Sliding scale fees are available for children of UT Arlington students. The center is accredited by NAEYC (National Association for the Education of Young Children). For enrollment information, call 817-272-1135.

## **Multicultural Affairs**

**Lower Level, University Center | Box 19353 | 817.272.2099 | [Multicultural Services](#)**

**Mission Statement:** The mission of Multicultural Affairs is to encourage, foster and support an academic, social and cultural atmosphere conducive to the needs of all students. While advocating cultural diversity and diversity of opinion, Multicultural Affairs embraces individuals from all backgrounds and provides cultural programming, diversity training, recruitment initiatives, and retention strategies to create an environment of academic success and cultural awareness, empowering students with the skills necessary to establish a solid foundation as they prepare to leave The University of Texas at Arlington. To accomplish this mission, Multicultural Affairs provides opportunities to attend cultural programming, seminars, and leadership training. By completing our mission objectives, we enhance the academic and the social skills necessary to become successful members of society.

The motto is "Empower the Leader, Strengthen the Community!"

Multicultural Affairs is composed of two complementary units: Multicultural Affairs and Multicultural Outreach. Together they offer cultural appreciation activities, diversity training workshops, leadership development aimed at creating an environment of academic success and cultural awareness. Rich cultural diversity is reflected in the number and variety of cultural student organizations on campus. Visit the Web site to get connected to more than 30 multicultural student groups that include culturally based, service based, fraternity and sorority, LGBT, dance/performance groups, and spiritually based organizations. As part of the mission of developing leaders prepared to be successful for a global society, the entire campus community is encouraged to take advantage of the services

All UT Arlington students are encouraged to attend the variety of programs. Activities include guest speakers, special performances, conferences, leadership training. Be sure to enjoy events for:

- Maversity! Diversity leadership training
- Diversity Lecture Series
- Hispanic Heritage Month
- Asian Awareness Month
- Native American Week
- Black History Month
- Semana de Cultura
- Women's History Month
- Diversity Week
- For complete listing visit our online calendar via our Web site

The office hours are Monday-Friday, 8 a.m.-5 p.m. For more information, contact the Office of Multicultural Affairs, at 817.272.2099 or visit [www.uta.edu/multicultural](http://www.uta.edu/multicultural).

## **Office of Information Technology (OIT)**

**B51 Davis Hall | Box 19318 | 817.272.2271 | [www.uta.edu/oit](http://www.uta.edu/oit)**

The Office of Information Technology is composed of a diverse group of people working to meet the technological needs of the UT Arlington campus community. OIT provides high-speed data network and computing resources for campus-wide instructional and research activities, as well as

University business operations. Computing resources provided by OIT include 10 student computer labs, accounts on multi-user systems that provide access to a web-based file management and file sharing utility called MavSpace, a personal directory on a campus server, compilers, programming tools, e-mail, online documentation, and Internet access and online student services. In-house IT professionals are available to provide assistance to students, faculty and staff.

OIT's 10 on-campus computer labs are strategically located throughout the campus to provide computer resources for all students. Labs are located within the Architecture Building, Business Building, Central Library (three facilities), Engineering Laboratory Building, Fine Arts Building, Nedderman Hall, Ransom Hall and University Hall. All of the facilities are networked and provide access to both UT Arlington systems and the Internet. These facilities allow students laser printing; several feature color printing, scanning, and classroom facilities. The premier facility, Ransom Hall, is open 24 hours a day, seven days a week. This three-story computing facility offers PCs running Microsoft Windows and Apple MacOS. Ransom Hall also features numerous multimedia and networked computer classrooms for teaching purposes.

OIT supports multi-user large centralized as well as distributed client/server computing resources. The large centralized resources consist of:

- A High Performance Computing cluster, dedicated to UT Arlington's researchers, consisting of high speed servers running Red Hat Enterprise Linux. Numerous scientific and engineering applications are available. Accounts on this system are offered to tenured or tenure-track faculty pursuing research for the University.
- Research and teaching activities are supported on servers running Red Hat Enterprise Linux with various compilers, programming tools, utilities, database management systems and statistical analysis packages. Accounts on these systems are available upon request to all UT Arlington students, faculty and staff.

The distributed client/server environment supports thousands of computers located on the desktops of UT Arlington's faculty and staff offices as well as in the student computer labs. Distributed client/server resources consist of many IBM Netfinity and Dell Power Edge servers running Microsoft Windows to serve as Exchange, SQL, SMS, and print/file servers. Together, these servers support the University's e-mail, desktop productivity and departmental applications.

OIT provides a high-speed data network within the UT Arlington campus as well as interconnections to major regional, national and international networks (e.g., Internet, Internet2, THEnet, LEARN, NLR, etc.). Wireless network access is available throughout the public areas of the campus, including central public areas of the five UT Arlington residence halls.

OIT supports the enterprise administrative systems utilized by academic and administrative departments across campus, such as Graduate and Undergraduate Recruiting and Admissions, Academic Advising, Registrar, Student Records, Financial Aid, Student Financials, Graduate School, Police and Bursar. All students, and most faculty and staff, will interact with the enterprise administrative systems through the use of the new MyMav system, a fully functional, totally integrated Web-based system available 24 hours a day, 7 days a week.

Additional information about OIT's computers, network and student computing facilities, as well as access to documentation and staff consultants is available at the Computing Services Help Desk on the first floor of the Central Library (817.272.2208, [helpdesk@uta.edu](mailto:helpdesk@uta.edu), [www.uta.edu/helpdesk](http://www.uta.edu/helpdesk)). All OIT labs and resources are available to current UT Arlington students, faculty and staff.

## **Disability Services (Office for Students with Disabilities)**

**University Hall, Room 102 | Box 19510 | 817.272.3364 | TTY 800.RELAY TX |**

[www.uta.edu/disability](http://www.uta.edu/disability)

The Office for Students with Disabilities (OSD) at UT Arlington is charged with ensuring full inclusion of students with disabilities in all programs and activities offered at UT Arlington. In compliance with the Americans with Disabilities Act of 1990, OSD verifies all physical and cognitive disabilities in order to specify the appropriate disability-specific accommodations that will

assist students in successfully completing their academic objectives. All UT Arlington students with disabilities requiring accommodations should contact OSD at 817.272.3364 (voice) or 800.RELAY TX (TDD) or they may visit the office in 102 University Hall, Monday-Friday, 8 a.m. to 5 p.m. Any academic accommodations relating to a disabling condition must originate with the Office for Students with Disabilities. For more information regarding services or documentation requirements, please visit [www.uta.edu/disability](http://www.uta.edu/disability).

## Department of Campus Recreation

500 W. Nedderman Drive | Box 19268 | 817.272.3277 | [www.uta.edu/campusrec](http://www.uta.edu/campusrec)

The Department of Campus Recreation provides a diverse offering of recreational and leisure experiences for students. More than 80 activities in competitive and recreational areas, team, individual and co-recreational, are scheduled throughout the year. The Campus Recreation office is located in Room 100 of the Maverick Activities Center (MAC); the phone number is 817.272.3277. Visit the Web site at [www.uta.edu/campusrec](http://www.uta.edu/campusrec) for more information on any of the programs listed.

The Department of Campus Recreation is comprised of five areas:

- Students are welcome to drop by the MAC or the Campus Recreation Fields Complex for **Informal Recreation** and create their own fun. They may choose from a variety of activities such as, racquetball, basketball, volleyball, badminton, table tennis and indoor track. The MAC is a state-of-the-art \$34.5 million recreation facility where students, faculty, staff and alumni can continue to be engaged in UT Arlington's campus life. The MAC offers 20,000 sq. ft., weight and fitness room, 4 multipurpose rooms, 5 basketball courts, 8 volleyball courts, an indoor soccer gym, 5 racquetball courts, 10 badminton courts, a game room, a computer café, men's and women's locker rooms and much more. The fitness center cardiovascular machines, locker/shower facilities and smoothie bar/lounge are also available. Students are able to access the MAC for free with a valid Mav Express card. For more information on the MAC visit [www.uta.edu/mac](http://www.uta.edu/mac).
- **Intramural Sports** provides opportunities for participation in recreational and competitive activities. Divisions for men, women, and co-recreational teams are offered in team activities and in many individual/dual sports. Activities include flag football, bowling, soccer, golf, table tennis, billiards and many more.
- **QUEST University Wellness** is designed to enhance personal wellness. Various programs are offered (some for a nominal fee) through QUEST, including group exercise classes, fitness testing, personal training, massage therapy, and nutrition assessments.
- The **Sport Clubs** program serves individual interests in different sports. Some clubs represent UT Arlington in intercollegiate competition and/or conduct activities such as practice and instruction. Membership guidelines vary. Some of the current clubs include men's and women's soccer, men's and women's volleyball, cycling, martial arts, lacrosse, roller hockey, pool team and adventure team.
- The **Aquatics** program provides swimming opportunities to the UT Arlington community. The indoor and outdoor pool allow for lap and recreational swimming all year long. The pools are located in the Physical Education Building at 801 Greek Row.
- The UT Arlington **Spirit Groups** consist of the Cheerleading Squad, Dance Squad and the Mascot. The groups join together in providing support for UT Arlington athletic teams and leading the University community in spirit. These athletes represent UT Arlington at the collegiate national championship during the year and host camps and clinics throughout the summer. For more information visit [www.uta.edu/spiritgroups](http://www.uta.edu/spiritgroups).

## Bursar Services

Rm. 130 Davis Hall | Box 19649 | 817.272.2172 | [Bursar Services](#)

- Payment of debts to the University
- Student account billing questions
- Enrollment loan applications
- Check cashing services

- Allan Saxe Loan Administration (\$50 maximum, 30-day repayment, \$0.25 service charge)

Any form of payment (Check, ACH, or Credit Card) that is returned unpaid can result in enrollment withdrawal and the following additional penalties:

- A \$25 fee for each returned or cancelled item
- Enrollment withdrawal plus financial responsibility
- A readmission bar
- Grades, official transcript, and diplomas will be held
- Loss of check writing privileges
- All other penalties and actions authorized by law

**Check Cashing:** A current University identification card and a driver's license are required to cash a personal check. A student may cash a personal check for an amount not to exceed \$25. A \$0.25 Check Cashing Charge will apply.

## **MavMail and MavMail Newsletter**

Every student at UT Arlington is issued a University e-mail account. Students are expected to regularly check their University e-mail account and UT Arlington considers e-mail an official means of communication. Various offices and faculty members may conduct official business via the UT Arlington e-mail account.

In addition to providing students with an e-mail account, UT Arlington sends a weekly newsletter called MavMail to each student's e-mail account. The MavMail newsletter lists campus events, important deadlines, and news related to the campus. Students are expected to read this newsletter.

If you have a question related to the University and do not know where to direct the question, you may contact MavMail. MavMail is designed to provide answers to questions, direct inquirers to the appropriate office(s), and forward suggestions or compliments to the correct individuals or offices. Staff members in the Office of the Provost provide responses after contacting appropriate individuals to gain answers to the questions posed.

## **Police Department**

**252 Davis Hall | Box 19199 | 817.272.3561**

**University Police Building | 700 S. Davis St. | Box 19229 | Non-Emergency 817.272.3381**

- Provides motorist assistance and patrols campus 24 hours a day
- Investigates traffic accidents
- Investigates, makes arrests, assists prosecution as necessary
- Conducts crime prevention programs
- Provides public service speakers for classes, clubs and special events
- Recovers, returns found and stolen property
- Provides parking decals, visitor hang tags, and rules and information
- Maintains and operates University shuttle bus services
- Provides escort services for personal safety as requested

## **Assistance Based on Need**

Students wishing to participate in any of the following financial aid programs should complete a Free Application for Federal Student Aid (FAFSA) as early as possible prior to their actual enrollment at the University. The funding process takes approximately four weeks for completion. Financial aid in these categories is generally limited to U.S. citizens or permanent residents. Funding for graduate courses is only available to students admitted to the Graduate School as "Regular" students. "Special" and "Transient" students are not eligible for these programs.

## **Grant Assistance**

Grant funding is available for graduate students through the Texas Public Education Grant (TPEG) and the Mav Grant. Grants are funds that normally do not require repayment. Recipients must have demonstrated financial need as verified through the completion of the FAFSA, and meet the published priority financial aid application deadline. TPEG funds are available to international students. Please contact the Financial Aid Office to complete an International TPEG form.

### **Graduate Loan Programs**

The Federal Perkins Loan, Federal Stafford Loan (subsidized and unsubsidized), and College Access Loan (CAL) are the primary sources of long-term loans available at UT Arlington. These programs include deferred repayment provisions that permit students to repay the loan after termination of at least half-time studies at the University. Interest will not accrue on the loans while the borrowers are enrolled on at least a half-time basis. Information regarding loan amounts and terms can be obtained from the Financial Aid Office.

### **Federal Work-Study Program**

A student who needs a job to help pay for college expenses may be eligible for employment through the Federal Work-Study Program. Eligibility is based on financial need as determined by the FAFSA. Most participants are employed in positions with various University departments, but limited off-campus jobs with certain approved agencies are also available.

### **Aid Programs for Teachers and Vocational Nursing Students**

The Texas Education Coordinating Board administers various tuition assistance programs including programs for teachers and vocational nursing students. Further information about these programs may be obtained by contacting the Financial Aid Office and by accessing the Financial Aid web site.

### **Financial Counseling**

The Financial Aid Office provides financial or budgetary counseling for any and all students regardless of whether they qualify for other types of financial assistance.

### **Out-of-State Student Assistance**

Several states offer aid to their students attending schools in other states. Amounts and requirements for this assistance vary greatly. Further information can be obtained from the home-state aid agency.

### **Veterans' Assistance**

Contact the Registrar's Office for information concerning eligibility for and payment of VA benefits and other matters for veterans attending or planning to attend UT Arlington.

### School of Architecture

#### Architecture

##### Associate Dean

##### [Jones, David](#)

Start Year: 1970  
B.Arch., University of Oklahoma, 1970

##### Professor

##### [Baum, Edward](#)

Start Year: 1987  
M.Arch., Harvard University, 1964  
A.B., Harvard College, 1960

##### [Hamilton, Robert](#)

Start Year: 1973  
M.Arch., Massachusetts Institute of Technology, 1972  
B.Arch., Carnegie-Mellon University, 1969

##### [Kuhner, Craig](#)

Start Year: 1978  
M.Arch., 1970  
B.A., University of Pennsylvania, 1964

##### [McDermott, John](#)

Start Year: 1982  
M.A., University of Notre Dame, 1976  
B.Arch., University of Notre Dame, 1966

##### [Mehta, Madan](#)

Start Year: 1985  
Ph.D., University of Liverpool, 1974  
M.Bldg.S., University of Sydney, 1967

B.Arch., University of Roorkee, India, 1961

### **Associate Professor**

#### **Gintole, George**

Start Year: 1985  
M.Arch., Princeton University, 1978  
B.Arch., The Cooper Union, 1976

#### **Hopman, David**

Start Year: 2004  
M.L.A., University of Texas Arlington, 1998  
M.M., Southern Methodist University, 1982  
B.M., University of Memphis, 1980

#### **Maruszczak, John**

Start Year: 1982  
M.Arch., Princeton University, 1980  
B.Arch., The Cooper Union, 1975

#### **Quevedo, Steven**

Start Year: 1991  
M.Arch., University of Texas at Arlington, 1989  
B.S., University of Texas at Arlington, 1985

### **Senior Lecturer**

#### **Boswell, Bill**

Start Year: 1975  
M.Arch. and Urban Design, University of Colorado, 1972  
B.Arch., The University of Texas at Austin, 1969

### **Lecturer**

#### **Bass, Ogden**

Start Year: 1996  
M.S., Texas A&M; University, 1986  
M.U.P., Texas A&M; University, 1981  
B.S., Texas A&M; University, 1979

## **Landscape Architecture**

### **Associate Professor**

#### **Taylor, Pat**

Start Year: 1992  
Ph.D., The University of Texas at Austin, 1983  
M.S., Texas Tech University, 1969  
B.S., Texas Tech University, 1967

## **College of Business**

### **Accounting**

#### **Professor**

##### **Hall, Thomas**

Start Year: 1981  
Ph.D., Oklahoma State University, 1981  
M.P.A., The University of Texas at Arlington, 1975  
B.B.A., The University of Texas at Arlington, 1974

##### **Ho, Li-Chin Jennifer**

Start Year: 1990  
Ph.D., The University of Texas at Austin, 1990  
M.P.A., The University of Texas at Austin, 1984  
B.B.A., National Taiwan University, 1981

##### **McConnell, Donald**

Start Year: 1978  
Ph.D., University of North Texas, 1981

M.S., Oklahoma State University, 1971  
B.S., Oklahoma State University, 1970

**Taylor, Martin**

Start Year: 1988  
Ph.D., The University of Texas at Austin, 1974  
M.B.A., The University of Texas at Austin, 1970  
B.Comm., University of Cape Town, 1966

**Tsay, Jeffrey**

Start Year: 1974  
Ph.D., University of Missouri, 1973  
M.A., University of Missouri, 1969  
B.B.A., National Chengchi University, 1966

**Associate Professor**

**Hall, Bethane**

Start Year: 1985  
Ph.D., University of North Texas, 1987  
M.P.A., The University of Texas at Arlington, 1978  
B.S., Texas A&M; University, 1975

**Mark, Richard**

Start Year: 1985  
L.L.M., University of Denver, 1977  
J.D., University of Colorado, 1974  
B.S., University of Colorado, 1971

**Skantz, Terrance**

Ph.D., Oklahoma State University, 1979  
M.S., University of Southern Miss., 1973  
B.S., University of Southern Miss., 1972

**Subramaniam, Chandra**

Start Year: 2003  
Ph.D., University of Minnesota, 1993  
B.Acct., University of Minnesota, 1984  
M.B.A., University of Minnesota, 1984  
B.Sc., University of Malaya, 1978

**Assistant Professor**

**Efendi, Jap**

Start Year: 2007  
Ph.D., Texas A&M; University, 2004  
M.S. Tax Accounting, Texas A&M; University, 1996  
B.B.A., Texas A&M; University, 1995

**Winterbotham, Glyn**

Start Year: 2007  
Ph.D., University of Oklahoma, 2007  
B.A., Oklahoma Christian University, 1999

**Assistant Adjunct Professor**

**Henderson, Sandra**

Ph.D., Auburn University, 2002  
M.Acc., Florida State University, 1993  
B.S., Albany State University, 1991

**Senior Lecturer**

**Repsis, John**

Start Year: 1987  
J.D., Southern Methodist University, 1979  
M.B.A., Southern Methodist University, 1979  
M.P.A., University of Texas at Arlington, 1979  
B.A., Northwestern University, 1975

**Lecturer**

**Andrews, Carly**

M.B.A., University of Texas at Arlington, 2001  
B.B.A., Baylor University, 1997

## Business Administration

### Assistant Dean

#### Mack, David

Start Year: 1997  
Ph.D., University of Texas at Arlington, 2000  
M.B.A., DePaul University, 1993  
B.S., St. John Fisher College, 1983

### Coordinator of International Programs

#### Chin, Pui-Ying

### Director

#### McGee, Melanie

### EMBA Executive Director

#### Ellis, James

### Associate Professor

#### Prater, Edmund

Start Year: 2001  
Ph.D., Georgia Institute of Technology, 1999  
M.S., Georgia Institute of Technology, 1996  
M.S., Georgia Institute of Technology, 1988  
B.S., Tennessee Technological University, 1986

## Economics

### Professor

#### Crowder, William

Start Year: 1992  
Ph.D., Arizona State University, 1992  
B.S., Arizona State University, 1987

#### Himarios, Daniel

Start Year: 1983  
Ph.D., Virginia Polytechnic Institute and State University, 1984  
M.A., Virginia Polytechnic Institute and State University, 1980  
B.A., National & Kapodistrian University of Athens, Greece, 1978

#### Meiners, Roger

Start Year: 1993  
J.D., University of Miami, 1978  
Ph.D., Virginia Polytechnic Institute, 1976  
M.A., University of Arizona, 1972  
B.A., Washington State University, 1970

#### Ward, Michael

Start Year: 2002  
Ph.D., University of Chicago, 1993  
M.A., University of Chicago, 1986  
B.A., University of California, Los Angeles, 1983

### Associate Professor

#### Choi, Chi Young

Ph.D., Ohio State University, 2000  
M.A., Ohio State University, 1996  
B.A., Kyungpook National University, Korea, 1990

#### Smallwood, Aaron

Start Year: 2006

Ph.D., Florida State University, 2001  
M.S., Florida State University, 2000  
B.S., Florida State University, 1995

**Yasar, Mahmut**

Start Year: 2007  
Ph.D., University of Illinois at Urbana-Champaign, 2002  
M.B.A., University of Illinois at Urbana-Champaign, 1997  
M.S.B.A., University of Illinois at Urbana-Champaign, 1996  
B.A., Ankara University, 1992

**Assistant Professor**

**Price, Joshua**

Ph.D., Cornell University, 2010  
M.A., Cornell University, 2009  
M.S., Cornell University, 2007  
B.A., Brigham Young University, 2005

**Spivey, Christy**

Ph.D., The University of Texas at Austin, 2006  
B.Ss., Tulane University, 1998

**Visiting Assistant Professor**

**Mostashari, Shalah**

Start Year: 2012  
Ph.D., University of Texas at Austin, 2010  
M.S., University of Texas at Austin, 2002  
B.A., Hollins University, 1992

**Clinical Professor**

**Himarios, Jane**

Start Year: 1985  
Ph.D., Virginia Polytechnic Institute & State University, 1988  
M.A., Virginia Polytechnic Institute & State University, 1981  
B.A., Winthrop College, 1979

**Associate Clinical Professor**

**Isengildina, Olga**

Start Year: 2012  
Ph.D., Mississippi State University, 2000  
M.S., Mississippi State University, 1996  
B.A., Tashkent State University, 1993

**Wunder, Timothy**

Ph.D., Colorado State University, 2003  
M.A., Colorado State University, 1998  
B.A., Western Washington University, 1993

**Finance and Real Estate**

**Professor**

**Diltz, John David**

Start Year: 1987  
Ph.D., University of Illinois, 1980  
M.S., University of Illinois, 1978  
B.S., Purdue University, 1976

**Associate Professor**

**Hayunga, Darren**

Start Year: 2006  
Ph.D., Louisiana State University, 2006  
M.B.A., The College of William and Mary, 1997  
B.A., Western Illinois University, 1988

**Sabherwal, Sanjiv**

Start Year: 2004

Ph.D., Georgia Institute of Technology, 2000  
M.B.A., University of Miami, 1990  
B.T., Indian Institute of Technology, New Delhi, 1987

**Sarkar, Salil**

Start Year: 1997  
Ph.D., Louisiana State University, 1991  
M.B.A., Northeast Louisiana University, 1987  
B.S., Indian Institute of Technology, 1977

**Assistant Professor**

**Adams, John**

Start Year: 2010  
Ph.D., Texas Tech, 2005

**Gormus, Necmettin**

Start Year: 2012  
Ph.D., UTA at Arlington, 2012  
M.S., Texas Tech University, 2004  
B.S., Texas Tech University, 1999

**Narayanasamy, Arun**

Start Year: 2012  
Ph.D., UTA at Arlington, 2012  
M.S., UTA of Arlington, 2007  
B.S., University of Madras India, 1999

**Assistant Adjunct Professor**

**Lowrance, Daniel**

Ph.D., Texas A&M; University, 2002  
M.B.A., The University of Texas at Arlington, 1997  
B.B.A., The University of Texas at Arlington, 1995

**Professor Emeritus**

**Apilado, Vincent**

Start Year: 1980  
Ph.D., University of Michigan, 1970  
M.B.A., University of Oregon, 1966  
B.S., University of Portland, 1959

**Clinical Professor**

**Forgey, Fred**

Start Year: 2009  
Ph.D., Texas Tech University, 1992  
M.B.A., University of North Texas, 1989  
B.B.A., University of Texas at Arlington, 1988

**Lecturer**

**Schwemer, Lee**

Start Year: 1989  
J.D., Texas Tech University School of Law, 1972  
B.B.A., University of Texas at Arlington, 1970

**Health Care Administration**

**Director**

**Wilhite, Demetria**

**Clinical Professor**

**West, Mike**

Start Year: 2002  
Ed.D., Nova Southeastern University, 1987  
M.S. Economics, University of North Texas, 1977  
B.S. Psychology, University of North Texas, 1970

## Information Systems & Operations Management

### Professor

#### Baker, Revenor

Start Year: 1972  
Ph.D., Texas A&M; University, 1971  
B.A., The University of Texas at Austin, 1964

#### Eakin, Mark

Start Year: 1980  
Ph.D., Texas A&M; University, 1980  
M.S., Texas A&M; University, 1977  
B.S., Tarleton State University, 1972

#### Frazier, Gregory

Start Year: 1997  
Ph.D., Texas A&M; University, 1989  
M.B.A., Texas A&M; University, 1985  
B.S., Texas A&M; University, 1984

#### Mahapatra, Radha

Start Year: 1998  
Ph.D., Texas A&M; University, 1994  
P.G.D.M., Indian Institute of Management, 1986  
B.S., Regional Engineering College, India, 1983

#### Raja, M K

Start Year: 1981  
M.S., University of Houston, 1978  
Ph.D., Texas Tech University, 1971  
M.E., Indian Institute of Technology, 1968  
B.E., University of Madras, 1966

#### Slinkman, Craig

Start Year: 1979  
Ph.D., University of Minnesota, 1984  
M.B.A., Bowling Green University, 1975  
B.S., Bowling Green University, 1974

#### Teng, James

Start Year: 2002  
M.S., University of Illinois, 1971  
Ph.D., University of Minnesota, 1971  
B.A., National Taiwan University, 1966

#### Whiteside, Mary

Start Year: 1984  
Ph.D., Texas Tech University, 1974  
M.S., Texas Tech University, 1966  
B.A., The University of Texas at Austin, 1965

### Associate Professor

#### Cannon, Alan

Start Year: 2003  
Ph.D., Clemson University, 1999  
M.B.A., Clemson University, 1995  
B.A., Clemson University, 1984

#### Nerur, Sridhar

Start Year: 2002  
Ph.D., The University of Texas at Arlington, 1994  
Post Graduate Diploma in Management, Indian Institute of Management, 1988  
B.Eng., Bangalore University, 1983

#### Prater, Edmund

Start Year: 2001  
Ph.D., Georgia Institute of Technology, 1999  
M.S., Georgia Institute of Technology, 1996  
M.S., Georgia Institute of Technology, 1988  
B.S., Tennessee Technological University, 1986

**Sikora, Riyaz**

Start Year: 2002  
Ph.D., University of Illinois at Urbana-Champaign, 1994  
B.Eng., Osmania University, 1987

**Wang, Jingguo**

Start Year: 2007  
Ph.D., State University of New York at Buffalo, 2007  
M.S., State University of New York at Buffalo, 2005  
B.S., Fudan University, 1998

**Zhang, Jie**

Start Year: 2007  
Ph.D., University of Rochester, NY, 2003  
M.S., University of Rochester, NY, 2001  
B.Eng., Tianjin University, China, 1997

**Senior Lecturer**

**Davis, Carolyn**

**Management**

**Professor**

**Bell, Myrtle**

Start Year: 1996  
Ph.D., The University of Texas at Arlington, 1996  
M.B.A., Louisiana State University, 1982  
B.B.A., University of Notre Dame, 1981

**Datta, Deepak**

Start Year: 2004  
B.Tech., Indian Institute of Technology  
M.B.A., Indian Institute of Management  
L.L.B., Calcutta University  
Ph.D., University of Pittsburgh

**Gray, David**

Start Year: 1973  
Ph.D., University of Massachusetts, 1974  
M.A., University of Iowa, 1969  
B.B.A., University of Iowa, 1967

**Quick, Jim**

Start Year: 1977  
Ph.D., University of Houston, 1977  
M.B.A., University of Houston, 1975  
A.B., Colgate University, 1968

**Rasheed, Abdul**

Start Year: 1988  
Ph.D., University of Pittsburgh, 1988  
P.G.D.M., Indian Institute of Management, 1981  
B.S., Kerala University, India, 1972

**Associate Professor**

**Benson, George**

Start Year: 2002  
Ph.D., University of Southern California, 2001  
M.P.P., Georgetown University, 1994  
B.A., Washington and Lee University, 1992

**Casper, Wendy**

Start Year: 2004  
Ph.D., George Mason University, 2000  
M.A., George Mason University, 1996  
B.S., Penn State University, 1989

**Khavul, Susanna**

Start Year: 2006

Ph.D., Boston University, 2001  
B.A., University of California Berkeley, 1991

**Lavelle, James**

Start Year: 2002  
Ph.D., University of Utah, 1999  
B.A., University of Washington, 1989

**Mcfadyen, Margaret**

Ph.D., Texas A&M University - Management, 2000  
M.B.A., Texas Tech University, 1981  
B.B.A., Texas Tech University - Marketing, 1980

**Mcgee, Jeffrey**

Start Year: 1995  
Ph.D., University of Georgia, 1992  
M.B.A., Emporia State University, 1986  
B.B.A., Southwestern College, 1985

**McMahan, Gary**

Start Year: 1996  
Ph.D., Texas A&M; University, 1993  
M.B.A., George Washington University, 1983  
B.S., Oakland University, 1981

**Nordtvedt, Liliana**

Start Year: 2004  
Ph.D., University of Memphis, 2005  
M.B.A., Indiana University of Pennsylvania, 1999  
B.S., Universidad de los Andes, 1998

**Assistant Professor**

**Butts, Marcus**

Ph.D., University of Georgia, 2007  
M.S., University of Georgia, 2003  
B.S., Texas A&M; University, 1998

**Yuan, Feirong**

**Assistant Clinical Professor**

**Baldwin, Janice**

**George, Beverly**

**Michalski, Jeanne**

**Wilensky, Terrance**

**Lecturer**

**Veit, Dennis**

**Marketing**

**Assistant Professor and Graduate Advisor of Marketing Department Ph.D. Program**

**Saini, Ritesh**

Start Year: 2009  
Ph.D., Universtiy of Pennsylvania - Wharton, 2008  
M.S., University of Pennsylvania, 2001  
B.Eng., MN Regional Engineering College, 1995

**Professor**

**Chonko, Lawrence**

Start Year: 2007  
Ph.D., University of Houston, 1978  
B.A., University of Houston, 1975  
B.S., Lehigh University, 1973

**Luo, Xueming**

Start Year: 2004  
D.B.A., Louisiana Tech University, 2003  
B.S., Hunan University, 1993

### **Associate Professor**

#### **Briggs, Elten**

Start Year: 2006  
Ph.D., University of Oklahoma, 2006  
B.A., Ouachita Baptist University, 1997

#### **Freling, Traci**

Start Year: 2007  
Ph.D., Texas A&M; University, 2001  
M.S., Texas A & M University, 1995  
B.S., Texas A & M University, 1992

#### **Grisaffe, Douglas**

Start Year: 2005  
Ph.D., Vanderbilt University, 1989  
M.S., Vanderbilt University, 1987  
B.S., Bowling Green State University, 1984

### **Assistant Professor**

#### **Janakiraman, Narayanan**

Start Year: 2012  
Ph.D., University of Pennsylvania, 2003  
B.A., Pondicherry Central University, 1995  
B.Eng., Government College of Technology, 1993

#### **Jaramillo, J Fernando**

#### **Khare, Adwait**

Start Year: 2010  
Ph.D., University of Pittsburgh, 2003  
M.S., Virginia Tech, 1997  
B.S., Centre for Environmental Planning, 1993  
B.Arch., Visvesvaraya Regional College of Engineering, 1990

#### **Yang, Zhiyong**

Start Year: 2007  
Ph.D., Concordia University, 2007  
B.A., Zhejiang University, 2002  
M.S., Zhejiang University, 1998  
B.S., N.China Electric Power University, 1990

### **Clinical Professor**

#### **Rogers, Robert**

Start Year: 2007  
Ph.D., Business Administration, University of Nebraska, 1979  
M.A., Marketing, University of Nebraska, 1973  
B.A., Latin American Studies, University of Nebraska, 1971

### **Associate Clinical Professor**

#### **Lacefield, Gary**

Start Year: 2002  
Ph.D., Texas A & M University, 1997  
M.A., Dallas Baptist University, 1992  
B.A., Dallas Baptist University, 1991

### **Assistant Clinical Professor**

#### **Richarme, Michael**

Start Year: 2006  
Ph.D., University of Texas at Arlington, 2006  
B.S., University of Pennsylvania, 1989  
M.A., University of Texas at Austin, 1979  
B.A., University of Texas at Arlington, 1977

## College of Education and Health Professions

### Educational Curriculum & Instruction

#### Professor

##### **Cavallo, Ann**

Start Year: 2006  
Ph.D., Syracuse University, 1991  
M.S., Syracuse University, 1988  
B.S., Niagara University, 1981

##### **Crow, Mary**

Ph.D., University of North Texas, 1970  
M.Ed., Texas Christian University, 1967  
B.A., Texas Christian University, 1956

##### **Kribs, Christopher**

Start Year: 1997  
Ph.D., University of Wisconsin at Madison, 1997  
M.S.E.E., Georgia Institute of Technology, 1991  
A.B., Duke University, 1989  
B.S.E.E., Duke University, 1988

##### **Milson, Andrew**

Start Year: 2010  
Ph.D., Univ. of Georgia, 1999  
M.Ed., Univ. of North Texas, 1995  
B.A., Univ. of north Texas, 1993

##### **Rosado, Luis**

Ed.D., Texas A&M; University at Kingsville, 1986  
M.Ed., Boston State College, 1980  
B.A., University of Puerto Rico, 1975

##### **Schwartz, Marc**

Start Year: 2007  
Ed.D., Harvard University, 2000  
M.Ed., University of New Hampshire, 1983  
B.S., University of New Hampshire, 1982

##### **Smith, John**

Start Year: 2008  
Ph.D., University of North Carolina at Chapel Hill, 1987  
M.A., University of Utah, 1980  
B.S., Brigham Young University, 1975

#### Associate Professor

##### **Lee, Joohi**

Ph.D., Indiana State University, 2004  
M.E.D., Duksung Womenas University, 1996  
B.A., Chong Shin University, 1994

##### **Leffingwell, Jon**

Start Year: 1971  
Ph.D., University of North Texas, 1971  
M.Ed., The University of North Texas, 1966  
B.S., The University of North Texas, 1963

##### **Tommerdahl, Jodi**

Start Year: 2010  
Ph.D., La Sorbonne, 2002  
D.E.A., Ecole des Hautes Etudes en Sciences Sociales, 1996  
M.A., University of London, 1994  
B.A., University of Minnesota, 1991

##### **Yoon, Jiyeon**

Start Year: 2012  
Ph.D., Indiana University, 2002  
B.S., Ewha Womens University, Seoul, Korea, 1991

## Assistant Professor

### Amaro-Jimenez, Carla

Start Year: 2008  
Ed.D., University of Cincinnati, 2008  
M.Ed., University of Cincinnati, 2003  
B.S., Universidad Latina de Costa Rica, 2001

### Brown, Amber

Start Year: 2008  
Ed.D., University of North Texas, 2008  
M.S., University of North Texas, 2004  
B.S.E., East Texas Baptist University, 1993

### Hungerford-Kresser, Holly

Start Year: 2008  
Ph.D., University of Texas, 2008  
M.A., University of Texas, 2000  
B.S., Baylor University, 1997

### Malaia, Evguenia

Start Year: 2011  
Ph.D., Purdue University, 2005  
M.S., Chuvash State Pedagogical University, Russia, 2005

### Martin, Leisa

Start Year: 2012  
Ph.D., Univ. of Oklahoma, 2003  
M.S., Florida International Univ., 1999  
B.S., Florida State Univ., 1992

### Pant, Mohan

Start Year: 2012  
Ph.D., Southern Illinois University Carbondale, 2011  
M.S., Southern Illinois University Carbondale, 2006  
M.S., Tribhuvan University Kathmandu, Nepal, 1995

### Pole, Kathryn

Start Year: 2012  
Ph.D., Texas Woman's University, 2006  
M.L.S., University of North Texas, 1982  
B.S., Stephen F. Austin State University, 1980

### Semingson, Peggy

Start Year: 2008  
Ph.D., University of Texas, 2008  
M.Ed., Texas State University, 2004  
B.A., University of California, Santa Barbara, 1996

## Educational Leadership and Policy Studies

### Professor

#### Gerlach, Jeanne

Start Year: 1997  
Ph.D., University of North Texas, 1992  
Ed.D., West Virginia University, 1985  
M.A., West Virginia University, 1979  
B.S., West Virginia State College, 1974

### Associate Professor

#### Ausbrooks, Carrie

Start Year: 2004  
Ph.D., University of North Texas, 1996  
M.Ed., University of North Texas, 1984  
B.B.A., University of North Texas, 1983

#### Hardy, James

Start Year: 2006  
Ph.D., University of North Texas, 1990  
M.Ed., Stephen F Austin, 1985

B.A., Stephen F Austin, 1981

**Mcclellan, Rhonda**

Ed.D., Oklahoma State University, 2002  
M.A., Oklahoma State University, 1997  
M.Ed., University of Central Oklahoma, 1992

**Wasserman, Lewis**

J.D., St. John's University School of Law, 1984  
Ph.D., Hofstra University, 1974  
M.A., Hofstra University, 1973  
B.A., Hofstra University, 1969

**Assistant Professor**

**Amah, Ifeoma**

Ph.D., University of California, Los Angeles, 2009  
B.A., University of California, Los Angeles, 2002

**Tobolowsky, Barbara**

Start Year: 2009  
Ph.D., University of California, Los Angeles, 2001  
M.A., University of California, Los Angeles, 1998  
M.A., Northwestern University, 1979  
B.S., University of Texas at Austin, 1976

**Assistant Clinical Professor**

**Johnson, Ernest**

Start Year: 1995  
Ed.D., Texas A&M; University, 1992  
M.Ed., The University of Texas at Austin, 1978  
B.A., Texas A&M; University, 1971

**Senior Lecturer**

**Gardner, Kent**

Start Year: 2005  
Ed.D., University of North Texas, 1990  
M.S., Oklahoma State University, 1967  
B.A., Oklahoma City University, 1963

**Lecturer**

**Smith, Harold**

Start Year: 1997  
Ed.D., Columbus University, 2000  
M.S., Eastern New Mexico University, 1967  
B.S., Northeastern Oklahoma State University, 1962

**Special Assistant**

**Caloss, Ronald**

Start Year: 1999  
Ed.D., Nova Southeastern University, 1984  
M.Ed., Our Lady of the Lake University, 1973  
B.A., St. Mary's University, 1966

**Kinesiology**

**Professor**

**Buckwalter, John**

Start Year: 2007  
Ph.D., University of Arkansas, 1995  
M.S., University of Arkansas, 1992  
B.S., Centenary College, 1991

**Fincher, A Louise**

Start Year: 2000  
Ed.D., University of Alabama, 1995  
M.S., Indiana State University, 1991

B.S., Stephen F. Austin State University, 1983

**McKeown, Barry**

Start Year: 1983  
Ph.D., University of Illinois, 1979  
M.S., South Dakota State University, 1967  
B.S., South Dakota State University, 1966

**Ricard, Mark**

Start Year: 2005  
Ph.D., Southern Illinois University, 1986  
M.A.T., Southeast Missouri State University, 1982  
B.S., University of Vermont, 1978

**Associate Professor**

**Mcdonough, Paul**

Start Year: 2007  
Ph.D., Florida State University, 2000  
M.S., Northeastern University, 1995  
B.S., University of Massachusetts, Boston, 1992

**Nelson, Larry**

**Trowbridge, Cynthia**

Start Year: 2004  
Ph.D., Brigham Young University, 2004  
M.S., Indiana State University, 1994  
B.S., University of Colorado, 1992

**Wilson, Judy**

Start Year: 2000  
Ph.D., Kent State University, 1984  
M.S., California Polytechnic University, 1978  
B.S., Pacific Union College, 1972

**Assistant Professor**

**Cacola, Priscila**

**Hargreaves, Jean**

**Keller, David**

Start Year: 2007  
Ph.D., University of North Texas Health Science Center at Fort Worth, 2004  
M.S., University of North Texas Health Science Center at Fort Worth, 2002  
B.S., University of Texas at Arlington, 2000

**Prisby, Rhonda**

Ph.D., Louisiana State University, 2002  
M.A., Kent State University, 1997  
B.A., Hiram College, 1992

**Ray, Christopher**

Start Year: 2007  
Ph.D., University of Georgia, 2004  
M.S., University of Tennessee, 1998  
B.S., University of Tennessee, 1997

**Resch, Jake**

B.S., South Dakota State University, 2003

**Assistant Clinical Professor**

**Krawietz, Paul**

Start Year: 2006  
Ed.D., Texas A & M University – Commerce, 2000  
M.A., Eastern Kentucky University, 1992  
B.S., Texas Tech University, 1990

**College of Engineering**

## Bioengineering

### Professor

#### Behbehani, Khosrow

Start Year: 1985  
Ph.D., University of Toledo, 1979  
M.S., Georgia Institute of Technology, 1975  
B.S., Louisiana State University, 1973

#### Chuong, Cheng-Jen

Start Year: 1985  
Ph.D., University of California at San Diego, 1981  
M.S., University of California at San Diego, 1977  
B.S., Cheng-Kung University, 1972

#### Liu, Hanli

Start Year: 1996  
Ph.D., Wake Forest University, 1992  
M.S., Wake Forest University, 1990  
B.S., Beijing Normal University, 1983

#### Tang, Liping

Ph.D., University of Minnesota, 1992  
M.S., National Taiwan University, 1988  
B.S., Tunghai University, 1986

### Associate Professor

#### Dave, Digant

Ph.D., Texas A&M; University, 1994  
M.S., Texas A&M; University, 1990

#### Nguyen, Kytai

Ph.D., Rice University, 2000  
B.S., The University of Minnesota, 1995

#### Romero-Ortega, Mario

Start Year: 2011  
Post Doctoral, Univ. Texas Southwestern Medical Ctr, 2002  
Post Doctoral, Univ. Texas Southwestern Medical Ctr, 1999  
Ph.D., Tulane University, 1997  
B.S., Guadalajara University, 1991

### Assistant Professor

#### Alexandrakis, Georgios

Start Year: 2006  
Ph.D., McMaster University, 2000  
M.Sc., McMaster University, 1996  
B.Sc., Oxford Univeristy, 1992

#### Kim, Young-Tae

Start Year: 2011  
Ph.D., University of Utah, 2004  
B.S., Yonsei University, KOREA, 1999

#### Yuan, Baohong

Start Year: 2011  
Ph.D., University of Connecticut, 2006  
Ph.D., Harbin Institute of Technology, 2002  
B.S., Harbin Institute of Technology, 1997

### Adjunct Professor

#### Eberhart, Robert

Start Year: 1978  
Ph.D., University of California at Berkeley, 1965  
A.B., Harvard University, 1958

## Civil Engineering

## Professor and Chair

### Abolmaali, Seyedali

Ph.D., University of Oklahoma, 1999  
M.S., University of Oklahoma, 1984  
B.S., University of Oklahoma, 1980

## Professor of Practice

### Najafi, Mohammad

M.S., Purdue University, 1988  
Ph.D., Louisiana Tech University, 1983  
B.S., Texas Tech University, 1976

## Professor

### Ardekani, Siamak

Start Year: 1989  
Ph.D., The University of Texas at Austin, 1984  
M.S., The University of Texas at Austin, 1981  
B.S., The University of Texas at Austin, 1980

### Hossain, Md

Start Year: 2004  
Ph.D., North Carolina State University, 2002  
M.E., Asian Institute of Technology, 1997  
B.Tech., Indian Institute of Technology, 1994

### Hoyos, Laureano

Start Year: 2000  
Ph.D., Georgia Institute of Technology, 1998  
M.S., Georgia Institute of Technology, 1996  
M.S., University of Puerto Rico - Mayaguez, 1993  
M.S., Universidad del Cauca - Columbia, 1991  
B.S., Universidad de la Costa - Columbia, 1988

### Puppala, Anand

Start Year: 1996  
Ph.D., Louisiana State University, 1993  
M.S., Indian Institute of Technology, 1987  
B.S., Andhra University, 1985

### Williams, James

Start Year: 1986  
Ph.D., The University of Texas at Austin, 1986  
M.S.C.E., University of New Mexico, 1977  
B.S., University of New Mexico, 1976

### Yazdani, Nur

Start Year: 2005  
Ph.D., University of Maryland, College Park, 1984  
M.S., University of Oklahoma, 1981  
B.S., University of Engineering and Technology, Dhaka, Bangladesh, 1977

## Associate Professor

### Chao, Shih-Ho

Ph.D., University of Michigan Ann Arbor, 2005  
M.S., National Chung-Hsing University, Taiwan, 1995  
B.S., National Taiwan University, Taiwan, 1993

### Kruzic, Andrew

Start Year: 1988  
Ph.D., University of California at Davis, 1984  
M.S., University of California at Berkeley, 1976  
B.S., Loyola University of Los Angeles, 1975

### Mattingly, Stephen

Start Year: 2002  
Ph.D., University of California-Irvine, 2000  
M.S., The University of Texas at Arlington, 1994  
B.S., Rice University, 1991

**Romanoschi, Stefan**

Ph.D., Louisiana State University, 1999  
M.S., Louisiana State University, 1996  
B.S., Technical University Gheorghe Asachi Iassy Romania, 1991

**Sattler, Melanie**

Start Year: 2003  
Ph.D., The University of Texas at Austin, 1996  
M.S., The University of Texas at Austin, 1993  
B.S., Texas A&M; University, 1990

**Seo, Dong-Jun**

Ph.D., Utah State University, 1988  
M.S., Massachusetts institute of Technology, 1985  
B.S., Seoul National University, 1983

**Assistant Professor**

**Choi, Hyeok**

Ph.D., University of Cincinnati, 2007  
M.S., Sungkyunkwan University, 2000  
B.S., Sungkyunkwan University, 1998

**Yu, Xinbao**

Ph.D., Case Western Reserve University, 2009  
M.S., Clarkson University, 2005  
M.S., Southeast University, 2003  
B.S., Chang'an University, 2000

**Senior Lecturer**

**Ghandehari, Mostafa**

M.Tech., University of California at Davis, 1983  
M.E.A., University of Utah, 1980  
M.S., University of Arizona, 1978  
B.A., University of Utah, 1974

**Prabakar, Srinivas**

Start Year: 2013  
Ph.D., University of Texas at Arlington, 2012  
M.E., Annamalai University, 2004  
Diploma, Annamalai University, 2003  
B.Tech., Madras University, 2000

**Razavi, Seyed Mohammad**

Start Year: 2013  
Ph.D., University of Texas at Arlington, 2013  
M.S., Sharif University of Technology, 2007  
B.S., University of Tehran, 2005

**Computer Science and Engineering**

**Professor**

**Ahmad, Ishfaq**

Start Year: 2002  
Ph.D., 1992  
M.S., Syracuse University, 1987  
B.S.E.E., University of Engineering and Technology, Lahore, Pakistan, 1985

**Chakravarthy, Upendranath**

Ph.D., University of Maryland, College Park, 1985  
M.S., University of Maryland, College Park, 1981  
B.E., Indian Institute of Science, India, 1973

**Das, Gautam**

Ph.D., University of Wisconsin, Madison, 1990  
B.Tech., IIT Kanpur, India, 1983

**Das, Sajal**

Start Year: 1999  
Ph.D., University of Central Florida, 1988

M.S., Indian Institute of Science, 1984  
B.Tech., University of Calcutta, 1983  
B.S., University of Calcutta, 1980

**Ding, Chris**

**Elmasri, Ramez**

Start Year: 1990  
M.S., Stanford University, 1980  
Ph.D., Stanford University, 1980  
B.S., Alexandria University, 1972

**Kamangar, Farhad**

Start Year: 1983  
Ph.D., The University of Texas at Arlington, 1980  
M.S., The University of Texas at Arlington, 1977  
B.S., University of Tehran, 1975

**Kumar, Mohan**

Ph.D., Indian Institute of Science, 1992  
M.Tech., Indian Institute of Science, 1985  
B.E., Bangalore University, 1982

**Kung, David**

Start Year: 1991  
Ph.D., Norwegian Institute of Technology, 1984  
B.S., Peking University, 1977  
M.S., Norwegian Institute of Technology

**Makedon, Fillia**

Ph.D., Northwestern, 1982

**Peterson, Lynn**

Start Year: 1982  
Ph.D., The University of Texas Southwestern Medical Center at Dallas, 1978  
M.S., University of Michigan, 1966  
M.A., Duke University, 1963  
B.A., Wittenberg University, 1962

**Walker, Roger**

Start Year: 1973  
Ph.D., The University of Texas at Austin, 1972  
M.S., The University of Texas at Austin, 1970  
B.S., The University of Texas at Austin, 1963

**Zaruba, Gergely**

Start Year: 2008  
Ph.D., University of Texas at Dallas, 2001  
M.S., Technical University of Budapest, 1997

**Associate Professor**

**Athitsos, Vassilis**

Start Year: 2011  
Ph.D., Boston University, 2006  
M.S., University of Chicago, 1997  
B.S., University of Chicago, 1995

**Che, Hao**

Ph.D., The University of Texas at Austin, 1998  
M.S., The University of Texas at Arlington, 1994  
B.S., Nanjing University, 1984

**Fegaras, Leonidas**

Start Year: 1996  
Ph.D., University of Massachusetts, 1993  
M.S., University of Massachusetts, 1987  
B.E.E., National Tech University of Athens, 1985

**Gao, Jean**

Ph.D., Purdue University, 2002  
M.S., Rose-Hulman Institute of Technology, 1996  
B.S., Shanghai Jiao Tong University/Shanghai Medical University, 1990

**Huang, Heng**

Start Year: 2011

**Huber, Manfred**

Ph.D., 2000

M.S., University of Massachusetts, 1993

B.S., University of Karlsruhe, 1991

**Lei, Yu**

Ph.D., North Carolina State University, 2002

M.S., Chinese Academy of Sciences, 1996

B.S., Wuhan University, 1993

**Li, Chengkai**

Start Year: 2011

Ph.D., University of Illinois at Urbana-Champaign, 2007

M.Eng., Nanjing University, 2000

B.S., Nanjing University, 1997

**Liu, Donggang**

Ph.D., North Carolina State University, 2005

M.S., Chinese Academy of Science, 2001

B.S., Beijing Institute of Technology, 1998

**Liu, Yonghe**

Ph.D., Rice University, 2003

M.S., Tsinghua University, 1999

B.S., Tsinghua University, 1998

**Weems, Bob**

Start Year: 1985

Ph.D., Northwestern University, 1984

M.S., Northwestern University, 1982

B.A., Lewis University, Illinois, 1980

**Wright, Matthew**

Start Year: 2005

Ph.D., University of Massachusetts, 2005

M.S., University of Massachusetts, 2002

**Assistant Professor**

**Csallner, Christoph**

Ph.D., Georgia Institute of Technology, 2008

M.S., Georgia Institute of Technology, 2002

Diploma Inf., Universitat Stuttgart

**Huang, Junzhou**

Start Year: 2011

Ph.D., Rutgers University, 2011

M.S., Chinese Academy of Sciences, 2003

B.Eng., Huazhong University, 1996

**Mariottini, Gian-Luca**

**Senior Lecturer**

**Brezeale, Darin**

**Khalili, Bahram**

**Levine, David**

M.S.C.S., The University of Texas at Arlington, 1975

B.S., University of Texas at Austin, 1974

**O'Dell, James Mike**

**Electrical Engineering**

**Professor**

**Alavi, Kambiz**

Start Year: 1988

Ph.D., Massachusetts Institute of Technology, 1981  
M.S., Massachusetts Institute of Technology, 1977  
B.S., Massachusetts Institute of Technology, 1972

**Bredow, Jonathan**

Start Year: 1989  
Ph.D., University of Kansas, 1989  
M.S., Iowa State University, 1980  
B.S., Kansas State University, 1977

**Butler, Donald**

Start Year: 2002  
Ph.D., 1986  
M.S., University of Rochester, 1981  
B.A.Sc., University of Toronto, 1980

**Carter, Ronald**

Start Year: 1979  
Ph.D., Michigan State University, 1971  
M.S., Iowa State University, 1964  
B.S., Iowa State University, 1962

**Celik-Butler, Zeynep**

Start Year: 2002  
Ph.D., University of Rochester, 1987  
M.S., University of Rochester, 1984  
B.S., Bogazici University, 1982

**Chiao, Jung-Chih**

Ph.D., California Institute of Technology, 1995  
M.S., California Institute of Technology, 1991  
B.S., National Taiwan University, 1988

**Devarajan, Venkat**

Start Year: 1990  
Ph.D., The University of Texas at Arlington, 1979  
M.S., Indian Institute of Technology, 1975  
B.S., Indian Institute of Technology, 1973

**Kondraske, George V**

Start Year: 1982  
Ph.D., The University of Texas at Arlington & The University of Texas Southwestern Medical Center at Dallas, 1982  
M.S., The University of Texas at Arlington & The University of Texas Southwestern Medical Center at Dallas, 1980  
B.S., University of Rochester, 1978

**Lee, Wei-Jen**

Start Year: 1986  
Ph.D., The University of Texas at Arlington, 1985  
M.S., National Taiwan University, 1980  
B.S., National Taiwan University, 1978

**Lewis, Frank L**

Start Year: 1990  
Ph.D., Georgia Institute of Technology, 1981  
M.S., University of West Florida, 1977  
B.S., Rice University, 1971

**Liang, Qilian**

Start Year: 2002  
Ph.D., University of Southern California, 2000  
M.S., Beijing University of Posts and Telecommunications, 1996  
B.S., Wuhan University, 1993

**Magnusson, Robert**

Start Year: 1984  
Ph.D., Georgia Institute of Technology, 1976  
M.S., Georgia Institute of Technology, 1973  
B.S., University of Central Florida, 1971

**Manry, Michael T**

Start Year: 1982

Ph.D., The University of Texas at Austin, 1976  
M.S., The University of Texas at Austin, 1973  
B.S., The University of Texas at Austin, 1971

**Rao, Kamisetty R**

Start Year: 1966  
Ph.D., University of New Mexico, 1966  
M.S., University of Florida, 1960  
M.S., University of Florida, 1959  
B.E., University of Madras, 1952

**Stephanou, Harry**

Start Year: 2004  
Ph.D., Purdue University, 1976  
M.S.E., Purdue University, 1973  
B.S.E.E., American University of Beirut, 1972

**Associate Professor**

**Davis, W Alan**

Start Year: 1983  
Ph.D., University of Michigan, 1971  
M.S., University of Michigan, 1964  
B.S., University of Michigan, 1963

**Dillon, William E**

Start Year: 1971  
Ph.D., The University of Texas at Arlington, 1972  
M.S., The University of Texas at Arlington, 1969  
B.S., Texas A&M; University, 1965

**Jung, Sungyong**

Ph.D., Georgia Institute of Technology, 2002  
M.S., Georgia Institute of Technology, 1993  
B.S., Yeungnam University, 1991

**Oraintara, Soontorn**

Start Year: 2001  
Ph.D., Boston University, 2000  
M.S., University of Wisconsin, 1996  
B.S., King Mongkut's Institute of Technology, 1975

**Popa, Dan**

Ph.D., Rensselaer Polytechnic Institute, 1998  
M.S., Dartmouth College, 1994  
B.A., Dartmouth College, 1993

**Tjuatja, Saibun**

Start Year: 1993  
Ph.D., The University of Texas at Arlington, 1992  
M.S., Purdue University, 1988  
B.S., The University of Texas at Arlington, 1987

**Vasilyev, Michael**

Start Year: 2011  
Ph.D., Northwestern University, Evanston, IL, 1999  
M.S., Moscow Institute of Physics and Technology, Russia, 1993

**Zhou, Weidong**

Ph.D., University of Michigan, Ann Arbor, 2001  
M.E., Tsinghua University, China, 1996  
B.S., Tsinghua University, China, 1993

**Assistant Professor**

**Davoudi, Ali**

Start Year: 2011  
Ph.D., University of Illinois, 2010  
M.Sc., The University of British Columbia, 2005  
B.Sc., Sharif University of Technology, 2003

**Iqbal, Samir**

Start Year: 2007

Ph.D., Purdue University, 2007  
B.S., NED University of Engineering and Technology, Karachi, Pakistan, 1997

**Schizas, Ioannis**

Ph.D., University of Minnesota, 2011  
M.Sc., University of Minnesota, 2007  
5-year Diploma, University of Patras, Greece, 2004

**Wetz, David A**

Start Year: 2011  
Ph.D., Texas Tech University, 2006  
M.S., Texas Tech University, 2004  
B.S., Texas Tech University, 2003

**Senior Lecturer**

**Kenarangui, Rasool**

Start Year: 1995  
Ph.D., Iowa State University, 1980  
M.S., Iowa State University, 1978  
B.S., Iowa State University, 1976

**Russell, Howard**

Start Year: 2005  
Ph.D., Santa Clara University, 1976  
M.S., Texas A & M University, 1967  
B.S., Texas A & M University, 1966

**Industrial and Manufacturing Systems Engineering**

**Professor**

**Chen, Victoria**

Ph.D., Cornell University, 1993  
M.S., Cornell University, 1991  
B.S., The Johns Hopkins University, 1988

**Corley, Herbert**

Start Year: 1971  
Ph.D., The University of Texas at Arlington, 1997  
Ph.D., University of Florida, 1971  
M.S., Georgia Institute of Technology, 1969  
B.S., Georgia Institute of Technology, 1967

**Liles, Donald**

Start Year: 1979  
Ph.D., The University of Texas at Arlington, 1978  
M.S., The University of Texas at Arlington, 1974  
B.S., The University of Texas at Arlington, 1970

**Priest, John**

Start Year: 1982  
Ph.D., The University of Texas at Arlington, 1980  
M.S., The University of Texas at Arlington, 1975  
B.S., General Motors Institute, 1973

**Associate Professor**

**Huff, Brian**

Start Year: 1994  
Ph.D., The University of Texas at Arlington, 1993  
M.S., The University of Texas at Arlington, 1989  
B.S., West Virginia University, 1985

**Imrhan, Sheik**

Start Year: 1986  
Ph.D., Texas Tech University, 1983  
M.S., University of Alabama, 1981  
B.S., University of Guyana, 1973

**Jones, Erick**

Ph.D., University of Houston, 2003

M.S., University of Houston, 1996  
B.S., Texas A&M University, 1993

**Rogers, Jamie**

**Rosenberger, Jay**

Start Year: 2003  
Ph.D., Georgia Institute of Technology, 2001  
M.S., University of California-Berkeley, 1997  
B.S., Harvey Mudd, 1996

**Assistant Professor**

**Ferreira, Susan**

Ph.D., Arizona State University, 2002  
M.S., Arizona State University, 1990  
B.S., Arizona State University, 1987

**Zeng, Li**

Ph.D., University of Wisconsin - Madison, 2009  
M.S., University of Wisconsin - Madison, 2007  
M.S., Tsinghua University, China, 2004  
B.S., Tsinghua University, China, 2002

**Senior Lecturer**

**Boardman, Bonnie**

Start Year: 1999  
Ph.D., University of Arkansas, 1997  
M.S., Texas A&M; University, 1992  
B.S., University of Arkansas, 1991

**Materials Science and Engineering**

**Professor**

**Aswath, Pranesh**

Ph.D., Brown University, 1990  
M.S., Brown University, 1987  
B.E., Indian Institute of Science, Bangalore, India, 1985  
B.S., St. Joseph's College, Bangalore University, 1982

**Eisenbaumer, Ronald**

Start Year: 1991  
Ph.D., Stanford University, 1978  
B.S., Purdue University, 1973

**Kim, Choong-Un**

Start Year: 1996  
Ph.D., University of California at Berkeley, 1993  
M.S., Seoul National University, 1987  
B.A., Seoul National University, 1985

**Meletis, Efstathios**

Start Year: 2005  
Ph.D., GEorgia Institute of Technology, 1981  
M.S., Georgia Institute of Technology, 1978  
Diploma, National Technical University, Athens, 1975

**Associate Professor**

**Hao, Yaowu**

Start Year: 2005  
Ph.D., Massachusetts Institute of Technology, 2003  
M.S., University of Florida, 1998  
M.S., University of Science and Technology, Beijing, 1993  
B.S., University of Science and Technology, Beijing, 1990

**Koh, Seong Jin**

Ph.D., University of Illinois at Urbana-Champaign, 1998  
B.S., Seoul National University, 1987

## Assistant Professor

### Liu, Fuqiang

Start Year: 2011  
Ph.D., Pennsylvania State University, 2006  
M.S., Chinese Academy of Sciences, 2002  
B.S., Beijing University of Chemical Technologies, 1997

## Research Professor

### Chen, Nai Yuen

Start Year: 2007  
Sc.D., Massachusetts Institute of Technology, 1959  
M.Sc., Louisiana State University, 1954  
B.Sc., University of Shanghai, China, 1947

### Kirk, Wiley P

Start Year: 1999  
Ph.D., Stony Brook University, 1970  
M.S., Stony Brook University, 1967  
B.A., Washington University, 1964

### Tibbals, Harry Fred

Start Year: 2003  
Ph.D., University of Houston, 1970  
B.S., Baylor University, 1965

## Mechanical & Aerospace Engineering

### Professor

### Agonafer, Dereje

Start Year: 1999  
Ph.D., Howard University, 1984  
M.S., Howard University, 1978  
B.S., University of Colorado, 1972

### Armanios, Erian

Start Year: 2009  
Ph.D., Georgia Institute of Technology, 1985  
M.S., University of Cairo, 1979  
B., University of Cairo, 1974

### Chan, Wen

Start Year: 1988  
Ph.D., Purdue University, 1979  
M.S., Tennessee Technological University, 1972  
B.S., National Cheng Kung University, 1969

### Haji-Sheikh, Abdolhossein

Start Year: 1966  
Ph.D., University of Minnesota, 1965  
M.A., University of Michigan, 1961  
M.S., University of Michigan, 1959  
B.S., University of Tehran, Iran, 1956

### Hullender, David

Start Year: 1970  
Ph.D., Massachusetts Institute of Technology, 1970  
M.S., Oklahoma State University, 1967  
B.S., Oklahoma State University, 1966

### Lawrence, Kent

Start Year: 1961  
Ph.D., Arizona State University, 1965  
M.S., Texas Tech University, 1960  
B.S., Texas Tech University, 1959

### Lu, Frank

Start Year: 1987  
Ph.D., Pennsylvania State University, 1988  
M.S.E., Princeton University, 1983

M.A., Cambridge University, 1980  
B.A., Cambridge University, 1976

**Luo, Cheng**

Ph.D., University of California, Berkeley, 2000  
M.S., University of Houston, 1997  
B.S., Hunan University, 1993

**Nomura, Seiichi**

Start Year: 1982  
D.Eng., University of Tokyo, 1982  
Ph.D., University of Delaware, 1980  
M.S., University of Tokyo, 1977  
B.S., University of Tokyo, 1974

**Wang, Bo**

Start Year: 1983  
Ph.D., University of Virginia, 1974  
M.S., University of Missouri, 1970  
B.S., National Taiwan University, 1967

**Wilson, Donald**

Start Year: 1968  
Ph.D., The University of Texas at Arlington, 1973  
M.S., University of Tennessee, 1965  
B.S., Georgia Institute of Technology, 1961

**Woods, Robert**

Start Year: 1974  
Ph.D., Oklahoma State University, 1971  
M.S., Oklahoma State University, 1970  
B.S., Southern Methodist University, 1968

**You, Seung**

Start Year: 1990  
Ph.D., University of Minnesota at Minneapolis, 1990  
M.S., University of Minnesota at Minneapolis, 1986  
B.S., Seoul National University, 1982

**Associate Professor**

**Chudoba, Bernd**

Ph.D., Cranfield University, England, 2001  
M.S., Cranfield University, England, 1995  
Dipl. Ing., University of Applied Sciences FH, Aachen, Germany, 1994

**Dancila, Dragos**

Start Year: 2011  
Ph.D., Georgia Institute of Technology, 1998  
M.S., Georgia Institute of Technology, 1992  
Aeronautical Engineer, Polytechnic Institute Bucharest, 1986

**Dennis, Brian**

Ph.D., Pennsylvania State University, 2000  
M.S., Pennsylvania State University, 1997  
B.S., Pennsylvania State University, 1995

**Dogan, Atilla**

Ph.D., University of Michigan, 2000  
M.S., University of Michigan, 1998  
M.S., Istanbul Technical University, 1994  
B.S., Istanbul Technical University, 1991

**Huang, Haiying**

Ph.D., Georgia Institute of Technology, 1998  
M.S., Georgia Institute of Technology, 1997  
B.S., Beijing University of Aeronautics and Astronautics, 1991

**Makeev, Andrew**

**Meng, Desheng**

**Shiakolas, Panayiotis**

Start Year: 1996

Ph.D., The University of Texas at Arlington, 1992  
M.S., The University of Texas at Austin, 1988  
B.S., The University of Texas at Austin, 1986

**Subbarao, Kamesh**

Ph.D., Texas A&M; University, 2001  
M.S., Indian Institute of Science, 1995  
B.Tech., Indian Institute of Technology, 1993

**Tong, Albert**

Start Year: 1983  
Ph.D., Carnegie-Mellon University, 1983  
M.S., California Institute of Technology, 1978  
B.S., University of Hawaii, 1977

**Assistant Professor**

**Adnan, Ashfaq**

**Bowling, Alan**

Start Year: 2011  
Ph.D., Stanford University, 1998  
M.S., Stanford University, 1993  
B.S., The University of Texas at Austin, 1988

**Harris, Robert**

Ph.D., UT Austin, 2008  
M.S., Stanford, 2000  
B.S., UT Austin, 1994

**Jain, Ankur**

Ph.D., Stanford University, 2007  
M.S., Stanford University, 2003  
B.Tech., Indian Institute of Technology (IIT), Delhi, 2001

**Kim, Daejong**

Start Year: 2011  
Ph.D., University of Texas at Austin, 2004  
M.S., Seoul National University, Korea, 1993  
B.S., Seoul National University, Korea, 1991

**Maddalena, Luca**

Start Year: 2011  
Ph.D., Virginia Polytechnic Institute and State University, 2007  
M.S.E., Laurea Degree in Aerospace Engineering, Politecnico di Milano (Italy), 2004

**Massa, Luca**

Start Year: 2011  
Ph.D., Mississippi State University, 2000  
M.S., Politecnico di Bari & Mississippi State University, 1997  
B.S.M.E., Politecnico di Bari, 1996

**Moon, Hyejin**

Start Year: 2007  
Ph.D., University of California, Los Angeles, 2005  
M.S., Sogang University, 1997  
B.S., Sogang University, 1995

**Shin, Donghyun**

Ph.D., Texas A&M University, 2011  
M.S., Ohio University, 2008  
B.S., Hanyang University, 2006

**Yang, Bo**

Ph.D., University of Houston, 1998  
M.S., University of Houston, 1996  
B.S., University of Science and Technology of China, 1992

**Professor Emeritus**

**Goolsby, Roger**

Ph.D., University of California at Berkeley, 1971  
M.S., University of California at Berkeley, 1968

B.S., The University of Texas at Arlington, 1967

### Senior Lecturer

#### Han, Zhen

Ph.D., Beijing University, 1989  
M.S., Beijing University, 1985  
B.S., Xian Jiaotong University, 1982

#### Kumar, Ratan

#### Michael, Nancy

#### Wimberly, Clarence

Start Year: 2011  
Ph.D., Texas A&M; University, 1968  
M.S., The University of Alabama, 1965  
B.S., Texas A&M; University, 1961

### Lecturer

#### Harris, Cecil

## College of Liberal Arts

### Art + Art History

#### Professor

#### Hower, Robert

Start Year: 2005  
M.F.A., Cranbrook Academy of Art, 1975  
B.F.A., University of Nebraska, Omaha, 1973

#### Huerta Lozano, Benito

Start Year: 1997  
M.A., New Mexico State University, 1978  
B.F.A., University of Houston, 1976

#### Keens, David

Start Year: 1974  
M.F.A., University of Washington, 1974  
B.A., California State University at Long Beach, 1972

#### North, Kenda

Start Year: 1989  
M.F.A., State University of New York at Buffalo, 1976  
B.A., Colorado College, 1972

#### Palmeri, Nancy

Start Year: 1996  
M.F.A., University of Nebraska, 1993  
B.F.A., Southern Illinois University, 1989

#### Vaccaro, Mary

Start Year: 1994  
Ph.D., Columbia University, 1994  
M.A., Columbia University, 1988  
B.A., Williams College, 1986

#### Associate Professor

#### Graham, Lisa

Start Year: 1992  
M.F.A., Iowa State University, 1992  
B.F.A., University of Northern Iowa, 1989

#### Jolly, Marilyn

Start Year: 1999  
M.F.A., University of Oklahoma, 1983  
B.A., University of Science and Arts of Oklahoma, 1972

**McWilliams, R Leighton**

M.F.A., Florida State University, 1982  
B.B.A., The University of Texas at Arlington, 1978

**Ortiz, Andrew**

Start Year: 1998  
M.F.A., State University of New York at Brockport, 1995  
M.A., Humboldt State University, 1992  
B.A., Humboldt State University, 1990

**Plummer, Jack**

M.F.A., Texas Christian University, 1970  
B.F.A., Texas Christian University, 1965

**Weiss, Barton**

Start Year: 1998  
M.F.A., Columbia University, 1978  
B.A., Temple University, 1975

**Wood, Nicholas**

Start Year: 1977  
M.F.A., New York State College of Ceramics at Alfred, 1977  
B.A., San Francisco State University, 1972

**Assistant Professor**

**Alexander, Amanda**

Ph.D., Ohio State University, 2010  
M.A., Ohio State University, 2007  
B.S., Indiana University-Bloomington, 2000

**Belli, Melia**

Start Year: 2010  
Ph.D., University of California, LA, 2009  
M.A., University of London, 2005

**Ikeda, Zenas**

Start Year: 2009  
M.F.A., Kansas State University, 2008  
B.F.A., Kansas State University, 2000

**Lauster, Darryl**

M.F.A., University of Houston, 1998  
B.A., San Diego State University, 1995

**Lima, Benjamin**

**Smith, Dwain Ya'Ke**

**Terrasi, Salvatore**

**Special Member**

**Florentin, Bryan**

**Huckaby, Sedrick**

**Lapthisophon, Stephen**

**Communication**

**Associate Professor**

**Christie, Thomas**

Ph.D., University of North Carolina, 1993  
M.S., Florida State University, 1986  
M.A., Webster University, 1981  
B.A., Northeast Louisiana University, 1975

**Clark, Andrew**

Ph.D., University of Florida, 2003  
M.A.M.C., University of Florida, 2000  
B.A., Indiana University-Purdue University, 1997

**Ingram, Tom**

Start Year: 1982  
Ph.D., University of North Texas, 1982  
M.B.A., West Texas State University, 1976  
B.B.A., The University of Texas at Austin, 1975

**Jang, Chyng-Yang**

Start Year: 2004  
Ph.D., Michigan State University, 2003  
M.A., Michigan State University, 1996  
B.S., National Taiwan University, 1991

**Markham Shaw, Charla**

Start Year: 1993  
Ph.D., Louisiana State University, 1993  
M.A., Baylor University, 1987  
B.A., Angelo State University, 1986

**Megwa, Eronini**

Ph.D., University of Missouri Columbia, 1987  
M.S., Iowa State University of Science Technology, 1982  
B.S., University of Nigeria, 1978

**Assistant Professor**

**Chatterjee, Karishma**

Ph.D., The Ohio State University, 2007  
M.A., Emerson College, 2001  
M.A., Delhi University, 1998

**Harp, Dustin**

Ph.D., University of Wisconsin, Madison, 2002  
M.A., University of Texas at Austin, 1997  
B.A., Sonoma State University, CA, 1992

**Pribanic-Smith, Erika**

Ph.D., University of Alabama, 2010  
M.A., University of Alabama, 1999  
B.A., Mount Union College, 1997

**Su, Chunke**

Ph.D., University of Illinois at Urbana, Champaign, 2007  
M.A., University of Illinois at Urbana, Champaign, 2002  
B.A., Peking University, Beijing, 2000

**Tremayne, Mark**

Ph.D., University of Wisconsin, Madison, 2002  
M.A., University of Texas, Austin, 1998  
B.A., University of California, Berkeley, 1989

**Wigley, Shelley**

Ph.D., University of Oklahoma, 2007  
M.A., Oklahoma State University, 1999  
B.S., Oklahoma State University, 1991

**Senior Lecturer**

**Horton, Brian**

Ph.D., The Ohio State University, 2007  
M.A., The Ohio State University, 2004  
B.A., Ball State University, 1999

**Criminology & Criminal Justice**

**Professor**

**Del Carmen, Alejandro**

Start Year: 1996  
Ph.D., Florida State University, 1997  
M.S., Florida State University, 1993  
B.S., Florida International University, 1991

## Associate Professor

### Bing, Robert

Start Year: 1991  
Ph.D., Florida State University, 1987  
M.S., Florida State University, 1976  
B.A., College of the Holy Cross, 1975

## Assistant Professor

### Davis, Jaya

Ph.D., Prairie View A&M; University, 2010  
M.A., University of Houston – Clear Lake, 2007  
B.S., University of Houston – Clear Lake, 2005

### Jeong, Seokjin

Ph.D., Michigan State University, 2010  
M.S., Michigan State University, 2005  
B.A., Michigan State University, 2002

### Love, Tony

Ph.D., Texas A&M; University, 2012  
M.S., Texas A&M; University, 2009  
B.S., Texas A&M; University, 2004

### Rodriguez, John

Ph.D., Prairie View A&M; University, 2007  
M.S., University of Texas-Pan American, 2003  
B.S., University of Texas-Pan American, 1998

## Visiting Assistant Professor

### Copeland, Christopher

M.A., University of Texas at Arlington, 2005  
B.A., University of Texas at Arlington, 2000  
D.Sc., Dakota State University

## Senior Lecturer

### Butler, Randall

M.A., The University of Texas at Arlington, 2002  
M.L.I.S., Brigham Young University, 1989  
Ph.D., Brigham Young University, 1980  
M.A., Loma Linda University, 1973

### Carpenter, Karel

M.A., University of Texas at Arlington, 2003  
B.S., University of Texas at Dallas, 1986

### Dobbs, Rhonda

Ph.D., Florida State University, 2004  
M.A., Virginia Polytechnic Institute and State University, 1996  
B.A., University of Texas at Austin, 1993

### Eddings, Patricia

M.S., University of Florida, 2010  
B.S., Mississippi College, 1973

### Smith, Kristy

M.A., University of Texas at Arlington, 2009  
B.A., University of Texas at Arlington, 2004

### West, Royce

J.D., Texas Southern University, 2008  
B.S., Southern University, 1997

## English

### Professor

### Alaimo, Stacy

Start Year: 1994

Ph.D., University of Illinois, 1994  
M.A., University of Wisconsin, 1986  
B.A., Gustavus Adolphus College, 1985

**Morris, Timothy**

Start Year: 1990  
Ph.D., Princeton University, 1983  
B.A., Michigan State University, 1979

**Roemer, Kenneth**

Start Year: 1971  
Ph.D., University of Pennsylvania, 1971  
M.A., University of Pennsylvania, 1968  
B.A., Harvard University, 1967

**Associate Professor**

**Frank, Luanne**

Start Year: 1969  
Ph.D., University of Michigan, 1970  
M.A., 1963  
M.A., Emory University, 1959  
B.A., University of North Carolina, 1955

**Gustafson, Kevin**

Start Year: 1999  
Ph.D., University of Virginia, 1996  
M.A., University of Virginia, 1990  
B.A., Pacific Lutheran University, 1986

**Henderson, Desiree**

Start Year: 2004  
Ph.D., University of California, San Diego, 2001  
M.A., University of California, San Diego, 1997  
B.A., Occidental College, 1994

**Ingram, Penelope**

Ph.D., University of New South Wales, 1999  
M.A., Yale University, 1994  
B.A., Smith College, 1992

**Matheson, Neill**

Start Year: 2003  
Ph.D., 1995  
M.A., Johns Hopkins University, 1987  
B.A., Reed College, 1983

**Porter, Kevin**

Start Year: 2002  
Ph.D., University of Wisconsin, 2002  
M.A., Auburn University, 1997  
B.A., Trenton State College, 1992

**Richardson, Timothy**

Start Year: 2004  
Ph.D., Loyola University, Chicago, 2004  
M.F.A., Old Dominion University, 1997  
B.A., University of North Texas, 1994

**Smith, Johanna**

Start Year: 1988  
Ph.D., Claremont Graduate School, 1985  
M.A., Claremont Graduate School, 1971  
B.A., University of San Francisco, 1969

**Stodnick, Jacqueline**

Start Year: 2002  
Ph.D., University of Notre Dame, 2002  
M.Phil., University of Manchester, 1995  
B.A., University of Manchester, 1994

**Tigner, Amy**

Start Year: 2006

Ph.D., Stanford University, 2003  
M.A., University of Wyoming, 1994  
B.A., University of Wyoming, 1988

### **Assistant Professor**

#### **Arce, William**

Ph.D., University of Southern California, 2009  
M.A., University of Southern California, 2001  
B.A., University of California, Berkeley, 1997

#### **Warren, James**

Ph.D., The University of Texas at Austin, 2006  
M.A., The University of Virginia, 1999  
B.A., The University of Oklahoma, 1997

#### **Zhang, Yuejiao**

Ph.D., University of Central Florida, 2010  
M.A., Indiana University Purdue University Fort Wayne, 2005

## **History**

### **Professor**

#### **Adam, Thomas**

Start Year: 2001  
Ph.D., University of Leipzig, 1998  
M.A., University of Leipzig, 1994

#### **Demhardt, Imre**

Start Year: 2008  
Ph.D., University of Frankfurt am Main, 1995  
M.A., University of Frankfurt am Main, 1991  
M.A., University of Frankfurt am Main, 1987

#### **Fairbanks, Robert**

Start Year: 1983  
Ph.D., University of Cincinnati, 1981  
M.A., Indiana State University, 1974  
B.A., Greenville College, 1972

#### **Haynes, Sam**

Start Year: 1993  
Ph.D., University of Houston, 1988  
M.A., University of Houston, 1984  
B.A., Columbia University, 1978

#### **Kyle, Donald**

Start Year: 1984  
Ph.D., McMaster University, 1981  
B.Ed., University of Toronto, 1977  
M.A., McMaster University, 1974  
B.A., York University, 1973

#### **Morris, Christopher**

Start Year: 1992  
Ph.D., University of Florida, 1991  
M.A., University of Western Ontario, 1985  
B.A., University of Western Ontario, 1981

#### **Palmer, Stanley**

Start Year: 1973  
Ph.D., Harvard University, 1973  
A.B., Brown University, 1966

#### **Rodnitzky, Jerry**

Start Year: 1966  
Ph.D., University of Illinois, 1967  
M.A.T., University of Chicago, 1962  
B.A., University of Chicago, 1959

### **Associate Professor**

**Cawthon, Elisabeth**

Start Year: 1988  
Ph.D., University of Virginia, 1985  
M.A., University of Virginia, 1981  
B.A., Louisiana Tech University, 1978

**Cole, Stephanie**

Start Year: 1996  
Ph.D., University of Florida, 1994  
M.A., University of Florida, 1988  
B.A., The University of the South, 1984

**Dulaney, William**

Start Year: 1986  
Ph.D., Ohio State University, 1984  
M.A., Ohio State University, 1974  
B.A., Central State University, 1972

**Garrigus, John**

Start Year: 2006  
Ph.D., Johns Hopkins University, 1988  
M.A., Johns Hopkins University, 1985  
B.A., De Pauw University, 1983

**Goldberg, Joyce**

Start Year: 1982  
Ph.D., Indiana University, 1981  
M.A., Indiana University, 1973  
B.A., Indiana University, 1972

**Jalloh, Alusine**

Start Year: 1993  
Ph.D., Howard University, 1993  
M.A., Howard University, 1989  
B.A., University of Sierra Leone, 1986

**Maizlish, Stephen**

Start Year: 1979  
Ph.D., University of California at Berkeley, 1978  
M.A., University of Michigan, 1968  
B.A., University of California at Berkeley, 1967

**Narrett, David**

Start Year: 1984  
Ph.D., Cornell University, 1981  
M.A., Cornell University, 1976  
B.A., Columbia University, 1973

**Reinhardt, Steven**

Start Year: 1987  
Ph.D., Northern Illinois University, 1982  
M.A., University of Wisconsin at Madison, 1973  
B.A., Southern Illinois University, 1971

**Saxon, Gerald**

Start Year: 1987  
Ph.D., University of North Texas, 1979  
M.A., Lamar University, 1975  
B.A., Lamar University, 1973

**Trevino, Roberto**

Start Year: 1999  
Ph.D., Stanford University, 1993  
A.M., Stanford University, 1988  
M.Ed., University of Houston, 1980  
B.A., Houston Baptist University, 1970

**Assistant Professor**

**Babiracki, Patryk**

Start Year: 2009  
Ph.D., Johns Hopkins University, 2008  
M.A., Johns Hopkins University, 2004

B.A., Portland State University, 2002

**Bateman, Oliver**

Start Year: 2012

Ph.D., University of Pittsburgh, 2012

M.A., University of Pittsburgh, 2010

J.D., Valpraiso University School of Law, 2007

B.A., University of North Carolina at Chapel Hill, 2001

**Rose, Sarah**

Start Year: 2009

Ph.D., University of Illinois at Chicago, 2008

M.A., University of Chicago, 2001

B.A., University of Chicago, 1997

**Salinas, Cristina**

Start Year: 2012

Ph.D., University of Texas, 2011

**Zimmer, Kenyon**

Ph.D., University of Pittsburgh, 2010

M.A., University of Pittsburgh, 2005

B.A., Bennington College, 2002

**Professor Emeritus**

**Green, George**

Start Year: 1966

Ph.D., 1966

M.A., Florida State University, 1962

B.A., The University of Texas at Austin, 1961

**Philp, Kenneth**

Start Year: 1968

Ph.D., Michigan State University, 1968

M.A., University of Michigan, 1964

B.A., Michigan State University, 1963

**Richmond, Douglas**

Start Year: 1976

Ph.D., University of Washington, 1976

M.A., University of Washington, 1971

B.A., University of Washington, 1968

**Linguistics**

**Professor**

**Fitzgerald, Colleen**

Start Year: 2008

Ph.D., University of Arizona, 1997

M.A., University of Arizona, 1994

B.A., Loyola University, 1991

**Silva, David**

Start Year: 1993

Ph.D., Cornell University, 1992

M.A., Cornell University, 1989

A.B. MCL, Harvard University, 1986

**Associate Professor**

**Stvan, Laurel**

Start Year: 2001

Ph.D., Northwestern University, 1998

M.A., 1988

B.A., University of Illinois at Chicago, 1986

**Assistant Professor**

**Kilpatrick, Cynthia**

Start Year: 2009

Ph.D., University of California, San Diego, 2009  
M.A., University of Texas at El Paso, 2003  
B.A., Lee College, 1992

**Sabbagh, Joseph**

Start Year: 2009  
Ph.D., Massachusetts Institute of Technology, 2005  
B.A., University of California, Santa Cruz, 2000

**Witzel, Jeffrey**

Ph.D., University of Arizona, 2010  
M.A., University of Arizona, 2007  
M.A., University of Hawaii, 2002  
B.A., University of Massachusetts at Amherst, 1997

**Professor Emeritus**

**Edmondson, Jerold**

Start Year: 1981  
Dr. Phil. Habil., Technical University, Berlin, 1979  
Ph.D., University of California at Los Angeles, 1973  
M.A., University of California at Los Angeles, 1969  
B.S., Purdue University, 1963

**Senior Lecturer**

**Witzel, Naoko**

Start Year: 2010  
Ph.D., University of Arizona, 2010  
M.A., University of Arizona, 2008  
M.A., Tokyo University of Foreign Studies, 2003  
M.A., University of Hawaii, 2002  
B.A., Tokyo University of Foreign Studies, 1999

**Modern Languages**

**Associate Professor**

**Choi, Jinny**

Start Year: 1998  
Ph.D., Georgetown University, 1998  
M.A., University of California at Irvine, 1992  
B.A., The University of Texas at Arlington, 1989

**Conway, Christopher**

Start Year: 1996  
Ph.D., University of California, San Diego, 1996  
M.A., University of California, San Diego, 1994  
B.A., University of California, Santa Cruz, 1991

**Elliott, Raymond**

Start Year: 1992  
Ph.D., Indiana University, 1992  
M.A., Purdue University, 1987  
B.A., Heidelberg College, 1984

**Israel-Pelletier, Aimee**

Start Year: 1993  
Ph.D., Rutgers University, 1981  
M.A., Rutgers University, 1972  
B.A., Montclair State University, 1970

**Rings, Lana**

Start Year: 1985  
Ph.D., University of Southern California, 1985  
M.A., University of Missouri, 1973  
B.A., Washburn University of Topeka, 1970

**Ruiz-Perez, Ignacio**

Start Year: 2005  
Ph.D., University of California, Santa Barbara, 2005  
Licencia, University of Veracruz, Mexico, 1998

**Sol, Antoinette**

Start Year: 1995  
Ph.D., University of California at Los Angeles, 1994  
M.A., University of California at Los Angeles, 1990  
B.A., Loyola-Marymount University, 1975

**van Noort, Kimberly**

Ph.D., Boston University, 1995  
M.A., University of Nebraska-Lincoln, 1988  
B.A., University of Nebraska-Lincoln, 1986

**Assistant Professor**

**Austin, Amy**

Start Year: 2007  
Ph.D., Emory University, 2004  
B.A., University of Kansas, 1997

**Kania, Sonia**

Start Year: 2003  
Ph.D., University of Wisconsin at Madison, 2000  
M.A., University of Wisconsin at Madison, 1994  
B.S., University of Illinois at Urbana-Champaign, 1990

**Stewart, Christopher**

Ph.D., University of Illinois at Urbana-Champaign, 2009  
M.A., University of Illinois at Urbana-Champaign, 2004  
B.A., Furman University, 1991

**Watson, Sonja**

Start Year: 2007  
M.A., University of Tennessee, 2005  
Ph.D., University of Tennessee, 2005  
B.A., College of William and Mary, 1996

**Music**

**Department Chair**

**Bogard, Rick**

D.M.A., University of North Texas, 1994  
M.M., Baylor University, 1978  
B.M.Ed., University of Central Arkansas, 1977

**Professor**

**Burton, John**

Start Year: 2006  
D.M.A., USC, 1987  
B.M., Rice University, 1979  
M.M., Rice University, 1979

**Powell, Linton**

Start Year: 1976  
Ph.D., University of North Carolina, 1974  
M.F.A., University of Georgia, 1969  
B.M., Florida State University, 1966

**Tam, Jing**

Start Year: 1989  
M.M., New England Conservatory of Music, 1976  
B.M., New England Conservatory of Music, 1975

**Associate Professor**

**Cavanagh, Daniel**

Start Year: 2005  
M.M., University of Oregon, 2004  
B.M., St. Olaf College, 2001

**Chave, George**

Start Year: 1992

Ph.D., Washington University, 1988  
M.M., State University of New York at Binghamton, 1983  
B.M., Syracuse University, 1981

**Espinosa, Sergio**

D.M.A., The University of Iowa, 2001  
M.M., Ithaca College, 1997  
Diplome Professionnelle de Violon, Conservatoire de La Chaux-de-Fonds, 1989

**Hunt, Graham**

Start Year: 2001  
Ph.D., Duke University, 2001  
M.A., Duke University, 1996  
B.A., Amherst College, 1994

**Ishii, Timothy**

Start Year: 2004  
M.M., University of North Texas, 1991  
B.M., University of North Texas, 1987

**Jessup, Carol**

Start Year: 1978  
D.M.A., University of Michigan, 1987  
B.A., The University of Texas of the Permian Basin, 1977  
M.M., Michigan State University, 1971  
B.M., Texas Tech University, 1969

**Kenaston-French, Karen**

D.M.A., University of North Texas, 2003  
M.M., Southern Methodist University, 1986  
M.S.M., Perkins School of Theology, 1986  
B.A., West Virginia Wesleyan College, 1984

**Kim, Soo**

D.M.A., University of North Texas, 1997  
M.M., Ewha Womens University, Seoul, Korea, 1986  
B.M., Ewha Womens University, Seoul, Korea, 1984

**Lange, Diane**

Start Year: 1999  
Ph.D., Michigan State University, 1999  
M.M.Ed., Central Michigan University, 1995  
B.M.Ed., Central Michigan University, 1986

**Solomons, John**

Start Year: 1997  
D.M.A., University of North Texas, 2003  
M.M., University of Hartford, 1984  
B.M., Texas Christian University, 1982

**Stotter, Douglas**

Start Year: 2005  
D.M.A., University of Iowa, 1993  
M.M., University of Michigan, 1985  
B.M.E., University of Michigan, 1983

**Varner, Michael**

Start Year: 1981  
D.M.A., University of North Texas, 1999  
M.M., University of Michigan, 1977  
B.M.E., Bowling Green State University, 1976

**Walvoord, Martha**

Start Year: 2006  
D.M.A., University of Michigan, 2005  
M.M., University of Michigan, 2002  
B.M., Rice University, 2000

**Assistant Professor**

**Atkinson, Sean**

Ph.D., Florida State University, 2009  
M.M., Florida State University, 2006

B.M., Furman University, 2004

**Cho, Young-Hyun**

D.M.A., Eastman School of Music of the University of Rochester, 2008

Graduate Performance Diploma, Peabody Conservatory of Johns Hopkins University, 2002

M.M., Peabody Conservatory of Johns Hopkins University, 2001

B.M., Seoul National University, 1999

**Evans, Clifton**

D.M.A., The University of Houston, 2001

M.M., The University of Texas at Austin, 1997

B.M., The University of Texas at Austin, 1995

**Pool, Christopher**

D.M.A., University of Arizona, 2004

M.M., University of Oklahoma, 1997

B.M., University of Central Oklahoma, 1995

**Philosophy and Humanities**

**Professor**

**Hekman, Susan**

Start Year: 1977

Ph.D., University of Washington, 1976

M.A., University of Washington, 1973

B.A., Carleton College, 1971

**Associate Professor**

**Baker, Lewis**

Start Year: 1985

Ph.D., Louisiana State University, 1981

M.A., Louisiana State University, 1977

B.A., The University of Texas at Austin, 1975

**Burgess-Jackson, Keith**

Start Year: 1989

Ph.D., 1989

M.A., University of Arizona, 1985

M.A., Wayne State University, 1983

J.D., Wayne State University, 1983

A.B., University of Michigan, 1979

**Chiasson, Charles**

Start Year: 1983

Ph.D., Yale University, 1979

B.A., Yale University, 1974

**Nussbaum, Charles**

Start Year: 1991

Ph.D., Emory University, 1988

M.A., New York University, 1980

M.S., Julliard School of Music, 1970

B.S., Julliard School of Music, 1969

**Reeder, Harry**

Start Year: 1982

Ph.D., University of Waterloo, 1977

M.A., University of Waterloo, 1974

B.A., University of Illinois, 1968

**Williford, Kenneth**

**Assistant Professor**

**Byrd, Miriam**

Start Year: 2005

Ph.D., University of Georgia, 2001

M.A., University of North Carolina, Chapel Hill, 1992

B.A., Emory University, 1990

## Political Science

### Senior Vice Provost

#### Moore, Michael

Start Year: 1992  
Ph.D., The University of Nebraska, 1993  
M.A., The University of Nebraska, 1989  
B.A., Washburn University of Topeka, 1987

### Professor

#### Cichock, Mark

Start Year: 1985  
Ph.D., University of South Carolina, 1983  
M.A., University of South Carolina, 1979  
B.S., University of Wisconsin-Stevens Point, 1976

#### Farrar-Myers, Victoria

Start Year: 1997  
Ph.D., University at Albany, SUNY, 1997  
M.A., University of Illinois, Urbana-Champaign, 1992  
B.S., Russell Sage College; Troy, New York, 1990

#### Gutierrez, Jose

J.D., University of Houston, 1988  
Ph.D., The University of Texas at Austin, 1976  
M.A., St. Mary's University, 1968  
B.A., Texas A&I; University, 1966

#### Hekman, Susan

Start Year: 1977  
Ph.D., University of Washington, 1976  
M.A., University of Washington, 1973  
B.A., Carleton College, 1971

#### Ignagni, Joseph

Ph.D., Michigan State University, 1989  
M.A., Michigan State University, 1986  
M.S., Purdue University, 1984  
B.S., Michigan State University, 1981

#### Marshall, Thomas

Start Year: 1976  
Ph.D., University of Minnesota, 1976  
B.A., Miami University, 1971

#### Story, Dale

Start Year: 1978  
Ph.D., Indiana University, 1978  
M.A., Indiana University, 1974  
B.A., Southern Methodist University, 1972

### Associate Professor

#### Boyea, Brent

Ph.D., Rice University, 2006  
M.A., Rice University, 2002  
B.A., Case Western Reserve University, 1997

#### Clark, Jill

Start Year: 1978  
Ph.D., University of Wisconsin in Milwaukee, 1974  
M.S., University of Wisconsin in Milwaukee, 1971  
B.S., Iowa State University, 1965

#### Deen, Rebecca

Start Year: 1997  
Ph.D., Ohio State University, 1997  
M.A., Ohio State University, 1995  
B.A., Denison University, 1992

#### Saxe, Allan

Start Year: 1965  
Ph.D., University of Oklahoma, 1969  
M.A., University of Oklahoma, 1963  
B.A., University of Oklahoma, 1961

### **Assistant Professor**

#### **Bayram, Aytem**

Start Year: 2012  
Ph.D., The Ohio State University, 2011  
M.A., The Ohio State University, 2006  
MIS, North Carolina State University, 2004  
B.S., Middle East Technical University, 2002

#### **Hardt, Heidi**

Start Year: 2012  
Ph.D., Graduate Institute of International and Development Studies, Geneva, Switzerland, 2011  
M.S., London School of Economics, 2006  
B.A., University of Southern California, 2005

#### **Sasley, Brent**

Ph.D., McGill University, 2007  
M.A., University of Manitoba, 1998  
B.A., University of Manitoba, 1994

#### **Sledge, Daniel**

Start Year: 2010  
Ph.D., Cornell University, 2010  
M.S., Cornell University, 2008  
B.A., Indiana University–Bloomington, 2003

### **Associate Adjunct Professor**

#### **Little, Thomas**

Start Year: 1992  
Ph.D., Ohio State University, 1991  
M.A., Ohio State University, 1989  
B.A., University of North Carolina at Greensboro, 1986

### **Professor Emeritus**

#### **Butcher, Allan**

Ph.D., The University of Texas at Austin, 1970  
M.A., New School for Social Research, 1963  
B.A., The University of Florida, 1960

### **Senior Lecturer**

#### **Carter, Larry**

Start Year: 2012  
Ph.D., University of Oklahoma, 1997  
M.A., University of Oklahoma, 1993  
B.A., University of Oklahoma, 1989

## **Sociology and Anthropology**

### **Professor**

#### **Agger, Ben**

Start Year: 1994  
Ph.D., University of Toronto, 1976  
M.A., York University, 1974  
B.A., York University, 1973

#### **Shelton, Beth Anne**

Start Year: 1994  
Ph.D., The University of Texas at Austin, 1984  
M.A., The University of Texas at Austin, 1980  
B.S., Southern Methodist University, 1977

#### **Smith, Shelley**

Start Year: 1991

Ph.D., University of Michigan, 1990  
A.M., University of Michigan, 1985  
B.A., Southern Methodist University, 1984  
B.S., Southern Methodist University, 1984

**Young, Robert**

Start Year: 1991  
Ph.D., University of Michigan, 1982  
M.A., University of Kentucky, 1977  
B.A., Auburn University, 1972

**Associate Professor**

**Baker, Susan**

Start Year: 2005  
Ph.D., University of Texas, Austin, 1989  
M.A., University of California, Berkeley, 1986  
B.A., Trinity University, 1983

**Dunn, Dana**

Start Year: 1987  
Ph.D., University of North Texas, 1987  
M.A., The University of Texas at Dallas, 1981  
B.A., The University of Texas at Dallas, 1980

**Jacobson, Heather**

Start Year: 2006  
Ph.D., Brandeis University, 2006  
M.A., Brandeis University, 2001  
M.Phil., Trinity College, Dublin, 1995  
B.A., Carnegie Mellon University, 1993  
B.F.A., Carnegie Mellon University, 1993

**Kunovich, Robert**

Start Year: 2004  
Ph.D., 2001  
M.A., The Ohio State University, 1996  
B.A., Miami University, 1993

**Rouse, Linda**

Start Year: 1985  
Ph.D., Florida State University, 1979  
M.A., Adelphi University, 1972  
B.S., Cornell University, 1968

**Zloliniski, Christian**

Start Year: 2001  
Ph.D., University of California at Santa Barbara, 1998  
M.A., University of California at Santa Barbara, 1989  
B.A., Universidad Autonoma de Madrid, 1984

**Assistant Professor**

**Beamon, Krystal**

Ph.D., Oklahoma State University, 2005  
M.S., Oklahoma State University, 2001  
B.A., Oklahoma State University, 1999

**Cleghorn, Naomi**

Ph.D., Stony Brook University, 2006  
M.A., University of Texas at Austin, 1996  
B.A., University of Texas at Austin, 1993

**Han, Chunping**

**Khanduri, Ritu**

Start Year: 2007  
Ph.D., University of Texas at Austin, 2007  
M.Phil., Jawaharlal Nehru University, New Delhi, 1995  
M.A., Jawaharlal Nehru University, New Delhi, 1993  
B.A., University of Delhi, New Delhi, 1991

**Shelton, Jason**

Ph.D., University of Miami, 2005  
M.A., University of Miami, 2000  
B.A., Kent State University, 1998

**Speier, Amy**

Start Year: 2012  
Ph.D., University of Pittsburgh, 2005  
B.S., University of California Berkeley, 1997

**Professor Emeritus**

**Bastien, Joseph**

Start Year: 1977  
Ph.D., Cornell, 1973  
M.A., Cornell University, 1971  
M.E., State University of New York, 1963  
M.D., State University of New York, 1963  
B.A., Maryknoll College, 1958

**Eve, Raymond**

Start Year: 1976  
Ph.D., University of North Carolina at Chapel Hill, 1975  
B.A., University of North Carolina at Chapel Hill, 1969

**Lecturer**

**Ryan, Josephine**

**Theatre Arts**

**Professor**

**Gaupp, Andrew**

Start Year: 1991  
M.F.A., Trinity University, 1980  
B.A., Texas Tech University, 1976

**Lafontaine, Kim**

Start Year: 1999  
M.F.A., University of Southern California, 1981  
B.A., St. Cloud State University, 1978

**Associate Professor**

**Chapa, Joe**

Start Year: 1993  
M.F.A., University of Mississippi, 1991  
B.A., The University of Texas at Arlington, 1985

**Kongevick, Joseph**

Start Year: 1979  
M.F.A., Texas Christian University, 1976  
B.F.A., University of Wisconsin at Superior, 1974

**Maher, Dennis**

Start Year: 1982  
Ph.D., University of Wisconsin, 1980  
M.A., Memphis State University, 1974  
B.A., St. Louis University, 1972

**College of Nursing**

**Nursing**

**Associate Dean**

**Schira, Mary**

Start Year: 1992  
Ph.D., Medical College of Georgia, 1997  
M.S.N., Duke University, 1980  
B.S.N., Ohio State University, 1974

## Clinical Assistant Professor

### Baxley, Susan

Start Year: 2009  
Ph.D., The University of Texas at Arlington, 2008  
M.S.N., Texas Womanas University, 1975  
B.S.N., The University of Texas at Galveston, 1968

### Behan, Deborah

Start Year: 2011  
Ph.D., Texas Womanas University, 2010  
M.S., University of Oklahoma, 1996  
B.S.N., Southwest Missouri State University, 1993

### Carlson, Susan

Start Year: 1997  
Ph.D., University of San Diego, 2004  
M.S.N., Mississippi University for Women, 1984  
B.S.N., Loretto Heights College, 1982

### Cipher, Daisha

Start Year: 2006  
Post-Doctoral Fellowship (Statistics), University of North Texas, 1999  
Ph.D., Southern Methodist University, 1998  
M.S., University of Texas Southwestern Medical Center at Dallas, 1996  
B.A., University of Texas at Austin, 1994

### Collom, Chad

Start Year: 2011  
D.N.P., Rocky Mountain University of Health Professions, 2009  
M.S.N., University of Texas Arlington, 2004  
B.S.N., Texas Womanas University, 2000

### Crenshaw, Jeannette

Start Year: 2004  
D.N.P., Texas Tech University, 2012  
M.S.N., The University of Texas at Austin, 2001  
B.S.N., The University of Texas at Austin, 1974

### Ellis, Elizabeth

Start Year: 2012  
DNP, The University of Tennessee, 2005  
MSN, The University of Tennessee, 1995  
BSN, The University of Tennessee, 1993

### Ewing, Beverly

D.N.P., The George Washington University, 2010  
F.N.P., The George Washington University, 1997  
M.S.N. A.N.P., George Mason University, 1994

### Fowler, Christopher

Start Year: 2005  
Ph.D., University of Cincinnati, 2007  
M.S.N., University of Cincinnati, 1999  
B.S.N., Columbia Union College, 1993

### Gonzalez, John

D.N.P., Texas Womens University, 2010  
M.S.N. A.C.N.P., State University of New York at Stony Brook, 2004  
B.S.N., Texas Womens University, 2000

### Grande, Linda

Start Year: 2012  
DNP, The University of Iowa, 2008  
MSN - Pediatric Nurse Practitioner, The University of Iowa, 2003  
BSN, Maryville University, 1995

### Handy, Nancy

Start Year: 1992  
Ph.D., Texas Womanas University, 1992  
M.S.N., Texas Womanas University, 1976  
B.S.N., Baylor University, 1967

**Hart, Valerie**

Start Year: 2012  
Ph.D., The University of Texas at Arlington, 2006  
CNS, University of Arkansas for Medical Sciences, 1990  
BSN, University of Central Arkansas, 1972

**John, Lauri**

Ph.D., Texas Womens University, 1997  
M.S.N., The University of Texas Health Science Center Houston, 1990  
B.S.N., Loyola University of Chicago, 1978

**Lieser, Carol**

Start Year: 2011  
Ph.D., The University of Texas at Arlington, 2012  
MSN, The University of Texas at Arlington, 1997  
BSN, Berea College Berea, 1972

**Michael, Jacqueline**

Start Year: 2005  
Ph.D., Texas Womanas University, 2005  
MSN, University of Texas at El Paso, 1999  
WHCNP, University of Texas Southwestern Medical Center, 1993  
BSN, Texas Womanas University, 1990

**Perley, Mary Jo**

Ph.D., Ohio State University, 1986  
M.S.N., Ohio State University, 1981  
B.S.N., Texas Christian University, 1972

**Plonien, Cynthia**

Start Year: 2013  
D.N.P., Texas Christian University, 2012  
M.S.N., The University of Texas at Arlington, 1984  
B.S.N., The University of Texas at Arlington, 1978

**Taylor, Lisa**

Start Year: 2006  
Ph.D., Texas Womanas University, 2000  
Post Masteras Certificate, Texas Womanas University, FNP, 1995  
M.S.N., Texas Womanas University, 1994  
B.S.N., Texas Womanas University, 1979

**Wood, Phyllis**

Start Year: 2012  
DNP, Concordia University Wisconsin, 2010  
MSN, Baylor University, Louise Herrington School of Nursing, 2006  
BSN, Baylor University, Louise Herrington School of Nursing, 1999

**Clinical Associate Professor**

**Adams, Phyllis**

Start Year: 1995  
Post Masteras Certificate, Texas Womanas University, FNP, 1995  
Ed.D., Texas Southern University, 1989  
M.S.N., Ohio State University, 1972  
B.S.N., Dillard University, 1969

**Baker, Joy**

Start Year: 2000  
Ph.D., The Fielding Institute, 2000  
M.A., The Fielding Institute, 1996  
M.B.A., Nova University, 1985  
M.S.N., Oklahoma University, 1982  
B.S.N., Oklahoma Baptist University, 1974

**Interim Dean, College of Nursing; Associate Dean, Dept. MSN Administration, Education, and PhD Programs; Professor**

**Gray, Jennifer**

Start Year: 1989  
Ph.D., Texas Womanas University, 1997  
M.S.N., The University of Texas at Arlington, 1989  
B.S.N., Central State University, 1977

## **Interim Director, Doctor of Nursing Practice, Clinical Assistant Professor**

### **Dihigo, Sharolyn**

D.N.P., The University of Texas Arlington, 2011  
M.S.N., The University of Texas at Arlington, 1996  
B.S.N., Texas Tech University, 1989

## **Interim Director, MSN Education Program; Clinical Instructor**

### **Lindley, Marie**

Start Year: 2011  
M.S.N., Columbia University, NY, 1999  
B.S.N., William Paterson University, Wayne, NJ, 1994

## **Professor**

### **Bond, Mary Lou**

Start Year: 1989  
Ph.D., The University of Texas at Austin, 1984  
M.N., University of Pittsburgh, 1973  
B.S.N., Texas Christian University, 1962

### **Cason, Carolyn**

Start Year: 1997  
M.S.N., The University of Texas at Austin, 1972  
Ph.D., The University of Texas at Austin, 1972  
B.S.N., The University of Texas Medical Branch, 1967

### **Leflore, Judy**

Start Year: 2003  
M.S.N., The University of Texas at Arlington, 2003  
Ph.D., Texas Woman's University, 2000  
M.S. Business, Amber University, 1991  
B.S.N., The University of Texas at Arlington, 1988

### **Mancini, Mary**

## **Associate Professor**

### **Anderson, Cheryl**

Start Year: 1991  
Ph.D., Texas Woman's University, 1985  
M.N., University of California at Los Angeles, 1976  
B.S., San Diego State University, 1974  
Diploma in Nursing, Scott & White Memorial Hospital School of Nursing, 1969

### **Barnes, Donelle**

Start Year: 2007  
Ph.D., University of California, San Francisco, 1996  
M.S.N., Community Health Nursing, 1985  
B.S.N., California State University, 1979

### **Courtney, Maureen**

Start Year: 1980  
Ph.D., Texas Woman's University, 1978  
M.S.N., Texas Woman's University, 1974  
B.S.N., Texas Woman's University, 1970

### **Raudonis, Barbara**

Start Year: 1997  
Ph.D., The University of Texas at Austin, 1991  
M.S., University of Colorado, 1984  
M.S. Pathology, University of Maryland, 1978  
B.S.N., The Catholic University of America, 1978  
B.A., The College of Notre Dame of Maryland, 1974

### **Schmelzer, Marilee**

Start Year: 1988  
Ph.D., Texas Woman's University, 1987  
M.S.N., University of North Carolina, 1981  
B.S.N., Northern Michigan University, 1975

## Assistant Professor

### Adegbola, Maxine

#### Anderson, Mindi

Start Year: 2000

Ph.D., Texas Womens University, 2007

M.S.N., University of Texas at Arlington, with PNP and Educator Roles, 1997

B.S.N., Texas Christian University, 1993

#### Cazzell, Mary

Ph.D., University of Texas at Arlington, 2009

B.S.N., Marquette University, Milwaukee, WI, 1978

#### Daniel, Kathryn

Ph.D., University of Texas at Arlington, 2008

Post Master's Certificate, University of Texas at Arlington, ANP, GNP, 1997

M.S.N., Texas Woman's University, 1988

B.S.N., Baylor University, 1978

B.A., Sociology Baylor University, 1977

#### Mintz-Binder, Ronda

Start Year: 2011

D.N.P., Case Western Reserve, 2007

MN, UCLA, 1985

B.S.N., UCLA, 1982

B.A., UC Riverside, 1980

## Associate Adjunct Professor

### Hegstad, Lorraine

Adult/Geri Nurse Practitioner Post Master's Certificate, The University of Texas at Arlington, 1996

Ph.D., Arizona State University, 1981

M.S., University of Colorado, 1972

B.S.N., University of Texas Medical Branch Galveston, 1969

## Clinical Professor

### Snow, Diane

Start Year: 1979

Post Master's Certificate, The University of Texas at Arlington, PMHNP, 1995

Ph.D., Texas Woman's University, 1992

M.S.N., The University of Texas at Arlington, 1979

B.S.N., Duke University, 1967

## Assistant Clinical Professor

### Thomas, Patricia

Start Year: 2010

Ph.D., The University of Texas at Arlington, 2011

M.S.N., Vanderbilt University, 1991

B.S.N., University of Memphis, 1988

## Clinical Instructor

### Boger, Deborah

Start Year: 2012

MSN - Pediatric Nurse Practitioner, The University of Texas at Arlington, 2007

BSN, Winston-Salem State University, 2003

### Carter Griffin, Essence

Start Year: 2012

DNP - In progress, The University of Texas at Arlington, 2013

MSN - Acute Care Nurse Practitioner, The University of Texas at Arlington, 2011

BSN, Baylor University, 2007

### Duvall, Sara

Start Year: 2010

Emergency Nurse Practitioner, Post Master's Certificate, University of Texas at Arlington, 2007

MSN - Family Nurse Practitioner, Vanderbilt School of Nursing, 1990

BSN, David Lipscomb University, 1989

### Gillman, Paula

Start Year: 2003

Adult Geriatric Nurse Practitioner Post Master's Certificate, The University of Texas at Arlington, 1996

MSN - Clinical Nurse Specialist, The University of Texas at Arlington, 1992

BSN, Baylor University, 1984

**Harris, Marcia**

Start Year: 2012

DNP In progress, The University of Texas at Arlington, 2013

PMHNP - Post-Master's Certificate, The University of Texas at Arlington, 2010

MSN - Family Nurse Practitioner, Texas Woman's University, 2008

BSN, Grambling State University, 2002

**Haskew, Mary**

Start Year: 2012

MSN - Pediatric Nurse Practitioner, The University of Texas at Arlington, 1991

BSN, San Diego State University, 1987

**Kahveci, Kellie**

Start Year: 2008

M.S.N., The University of Texas at Arlington, 2003

Post Master's Certificate, The University of Texas at Arlington, GNP, 2003

B.S.N., The University of Texas at Arlington, 1987

**Laird, Sandra**

Start Year: 2011

DNP - In Progress, The University of Texas as Arlington, 2013

MSN - Acute Care Nurse Practitioner, The University of Texas at Arlington, 1996

BSN, Texas Christian University, 1992

**Major, Sayda**

Start Year: 2008

MSN - Acute Care Nurse Practitioner, The University of Texas at Arlington, 2006

BSN, University of Texas at Tyler, 1999

**Mcclean, Bethany**

Start Year: 2000

M.S.N., University of Texas at Arlington, 1993

B.S.N., Incarnate Word, 1983

**Mckay, Howard**

Start Year: 2007

Post Masters Certificate Acute Care Pediatric Nurse Practitioner, The University of Texas at Arlington, 2004

M.S.N., Wichita State University, 1995

B.S.N., Wichita State University, 1991

**Moake, Lindy**

Start Year: 2005

M.S.N., University of Pennsylvania, 2004

B.S.N., Texas A&M; University at Corpus Christi, 1992

**Moore, Jodie**

Start Year: 2012

MSN - Acute Care Nurse Practitioner, The University of Texas at Arlington, 2010

BSN, Texas Woman's University, 2006

**Moore, Sara**

Start Year: 2007

Post Masters Certificate Acute Care Pediatric Nurse Practitioner, University of Texas at Arlington, 2005

M.S.N., Pediatric Nurse Practitioner, University of Texas at Arlington, 2002

B.S.N., Thomas Jefferson University, 1993

**Parker, Patti**

Start Year: 1994

Post Master's Certificate, The University of Texas at Arlington, ANP/GNP, 1994

M.S.N., The University of Texas at Arlington, 1991

B.S.N., Baylor University, 1983

**Patrick, Vicki**

Start Year: 1997

Post Master's Certificate, The University of Texas at Arlington, ACNP, 1998

M.S.N., University of Colorado, 1976

B.S.N., Texas Christian University, 1972

Diploma, John Peter Smith Hospital School of Nursing, 1970

**Stevenson, Dixie**

Start Year: 2012  
MSN, The University of Texas at Arlington, 2004  
BSN, The University of Texas at Arlington, 1992

**Wright, Kimberly**

Start Year: 2011  
MSN - Family Nurse Practitioner, Arkansas State University, 2007  
BSN, University of Tennessee at Memphis, 1993

**Wyrick, Nancy**

Start Year: 2000  
M.S., University of Texas at Arlington, 1993  
B.S.N., University of Texas at Arlington, 1989

## College of Science

### Biology

#### Professor

**Campbell, Jonathan**

Start Year: 1983  
Ph.D., University of Kansas, 1982  
M.A., The University of Texas at Arlington, 1977  
B.A., University of Mississippi, 1969

**Chippindale, Paul**

Start Year: 1996  
Ph.D., The University of Texas at Austin, 1995  
M.S., University of Toronto, 1990  
B.S., University of Guelph, 1986

**Chrzanowski, Thomas**

Start Year: 1981  
Ph.D., University of South Carolina, 1981  
M.S., University of South Carolina, 1976  
B.A., Bloomfield College, 1974

**Formanowicz, Daniel**

Start Year: 1985  
Ph.D., State University of New York at Albany, 1982  
M.S., Adelphi University, 1978  
B.S., State University of New York at Fredonia, 1976

**Frye, Bernard**

Start Year: 1962  
Ph.D., University of Oklahoma, 1972  
M.S., Baylor University, 1961  
B.S., Baylor University, 1960

**Grover, James**

Start Year: 1993  
Ph.D., University of Minnesota, 1988  
B.A., State University of New York, 1982

**McMahon, Robert**

Start Year: 1972  
Ph.D., Syracuse University, 1972  
B.A., Cornell University, 1966

**Robinson, James**

Start Year: 1978  
Ph.D., Utah State University, 1978  
M.S., Polytechnic Institute of Brooklyn, 1971  
B.S., Polytechnic Institute of Brooklyn, 1967

#### Associate Professor

**Bernard, David**

Start Year: 1995  
Ph.D., Howard University, 1992  
B.S., Howard University, 1983

**Betran, Esther**

Ph.D. Fellowship, University of Chicago, 1999  
Ph.D. Fellowship, University of Cambridge.UK, 1997  
Ph.D., Universitat Autònoma de Barcelona (Barcelona) Spain, 1996  
M.S., Universitat Autònoma de Barcelona, 1992  
B.S., Universitat Autònoma de Barcelona, 1990

**Gough, Laura**

Start Year: 2002  
Ph.D., Louisiana State University, 1996  
B.S., Brown University, 1990

**Passy, Sophia**

Start Year: 2001  
Ph.D., Bowling Green State University, 1997  
M.S., Sofia University, 1996

**Roner, Michael**

Start Year: 2002  
Ph.D., 1986  
M.S., Miami University, 1983  
B.S., Oregon State University, 1980

**Assistant Professor**

**Christensen, Shawn**

Start Year: 2006  
Ph.D., University of Utah, 1999  
B.A., University of Colorado, 1989

**Feschotte, Cedric**

Start Year: 2004  
Ph.D., University of Paris, France, 2001

**Hurdle, Julian**

Ph.D., University of Leeds, UK, 2005  
B.Sc., University of West Indies, Barbados, 2000  
B.Sc., University of West Indies, Barbados, 2000

**Mydlarz, Laura**

Start Year: 2006  
Ph.D., University of California at Santa Barbara, 2004  
M.S., Florida Atlantic University, 1998  
B.S., Florida Atlantic University, 1996

**Pires Da Silva, Andre**

Start Year: 2005  
Ph.D., Max Planck Institute for Biophysical Chemistry and University of Goettingen, Germany, 1999  
M.S., University of Heidelberg, Germany, 1994  
B.A., Universidade de Brasilia, Brazil, 1992

**Pritham, Ellen**

Start Year: 2006  
Ph.D., University of Massachusetts, 2002  
B.A., Boston University, 1992

**Chemistry & Biochemistry**

**Professor**

**Armstrong, Daniel**

Ph.D., Texas A&M; University, 1977  
M.S., Texas A&M; University, 1974  
B.S., Washington and Lee University, 1972

**Dasgupta, Purnendu**

Start Year: 2006  
Ph.D., Louisiana State University, 1977  
M.Sc., University Burdwan, India, 1970

B.Sc., University Burdwan, India, 1968

**Dias, Rasika**

Start Year: 1992

Ph.D., University of California, Davis, 1988

B.Sc., University of Peradeniya, Sri Lanka, 1983

**Eisenbaumer, Ronald**

Start Year: 1991

Ph.D., Stanford University, 1978

B.S., Purdue University, 1973

**Lovely, Carl**

Ph.D., University of Birmingham, 1990

B.Sc., University of Birmingham, 1987

**Macdonnell, Frederick**

Start Year: 1994

Ph.D., Northwestern University, 1993

B.S., University of Vermont, 1986

**Rajeshwar, Krishnan**

Start Year: 1983

Ph.D., Indian Institute of Science, 1974

M.S., Indian Institute of Technology, 1971

B.S., University College, Trivandrum, India, 1969

**Timmons, Richard**

Start Year: 1977

Ph.D., The Catholic University of America, 1962

B.Sc., St. Francis Xavier University, Canada, 1958

**Associate Professor**

**Heo, Jongyun**

Start Year: 2006

Ph.D., University of Wisconsin-Madison, 2001

M.S., Northern Illinois University, 1997

B.S., Songang University, India, 1987

**Kroll, Peter**

Habilitation, Aachen, 2005

Ph.D. Fellowship, Cornell, 1999

Ph.D., University of Technology Darmstadt, 1996

Diploma, University of Heidelberg, 1993

B.Sc., University of Heidelberg, 1989

**Mandal, Subhrangsu**

Post Doctoral, HHMI/University of Medicine and Dentistry of New Jersey, 2005

Post Doctoral, University of Alberta, 1999

Ph.D., Indian Institute of Science, 1998

M.Sc., Kalyani University, 1992

B.Sc., Midnapore College, 1989

**Schug, Kevin**

Start Year: 2005

Ph.D., Virginia Polytechnic Institute & State University, 2002

B.S., College of William & Mary, 1998

**Assistant Professor**

**Bugarin, Alejandro**

Start Year: 2012

Ph.D., Texas A&M; University, 2011

**Chowdhury, Saiful**

Start Year: 2012

Ph.D., Washington State University, 2006

**Foss, Frank**

Start Year: 2008

Ph.D., University of Virginia, 2006

B.S., University of Richmond, 1999

**Jeon, Junha**

Start Year: 2011  
Ph.D., University of Minnesota, 2009  
M.S., Sungkyunkwan University, 2002  
B.S., Sungkyunkwan University, 2000

**Johnson-Winters, Kayunta**

Ph.D. Fellowship, University of Arizona, 2010  
Ph.D., University of Wisconsin–Milwaukee, 2006  
B.A., Alverno College, 1999

**Perera, Roshan**

Start Year: 2008  
Ph.D. Fellowship, The Scripps Research Institute, 2008  
Ph.D., University of South Carolina, 2005  
M.S., University of Tromso, Norway, 1999  
B.S., Institute of Chemistry Ceylon, 1997

**Pierce, Bradley**

Ph.D., Carnegie Mellon University, 2003  
B.S., California State University, Chico, 1996

**Professor Emeritus**

**Pomerantz, Martin**

Start Year: 1976  
Ph.D., Yale University, 1964  
M.S., Yale University, 1961  
B.S., City College of New York, 1959

**Schelly, Zoltan**

Start Year: 1977  
D.Sc., Vienna Technical University, 1967  
B.S., Vienna Technical University, 1962

**Earth and Environmental Sciences**

**Professor**

**Basu, Asish**

Start Year: 2012  
Ph.D., Univ California Davis, 1975  
M.S., University of Chicago, 1969  
M.S., Calcutta University, 1966  
B.S., Calcutta University, 1964

**Mattioli, Glen**

Ph.D., Northwestern University, Evanston, IL, 1987  
M.S., Northwestern University, Evanston, IL, 1982  
B.A., University of Rochester, Rochester, NY, 1980

**Nestell, Merlynd**

Start Year: 1969  
M.A., Princeton University, 1977  
Ph.D., Oregon State University, 1966  
M.A., University of Wisconsin, 1959  
B.A., Andrews University, 1957

**Wickham, John**

Start Year: 1992  
Ph.D., Johns Hopkins University, 1969  
B.A., Pomona College, 1960

**Associate Professor**

**Hu, Qinhong**

Start Year: 2008  
Ph.D., University of Arizona, 1995  
M.S., Chinese Academy of Sciences, 1989  
B.S., Zhejiang (Agricultural) University, 1986

**Hunt, Andrew**

Start Year: 2007  
Ph.D., Liverpool University, 1988  
B.S., Liverpool University, 1981

### **Assistant Professor**

#### **Fan, Majie**

Ph.D., University of Arizona, 2009  
M.S., University of Arizona, 2005

#### **Griffith, Elizabeth**

Start Year: 2012  
Ph.D., Stanford University, 2008  
B.S., Missouri Univ Sci & Tech, 2000

#### **Griffith, William**

Start Year: 2012  
Ph.D., Stanford University, 2008  
M.S., University Massachusetts, 2003  
B.S., William & Mary, 1999

#### **Winguth, Arne**

Start Year: 2007  
Ph.D., University of Hamburg and Max-Planck-Institut fr Meteorologie, 1997  
M.S., University of Hamburg and Max-Planck-Institut fr Meteorologie, 1992  
B.S., University of Hamburg, 1987

### **Adjunct Professor**

#### **Nestell, Galina**

Start Year: 1998  
Ph.D., All Russia Geological Research Institute, 1990  
B.S., Leningrad Mining Institute, 1979

### **Associate Adjunct Professor**

#### **Standlee, Larry**

Start Year: 2000  
Ph.D., Rice University, 1978

### **Assistant Adjunct Professor**

#### **Rowe, Harold**

Start Year: 2008  
Ph.D., Stanford University, 2002

## **Interdisciplinary Science**

### **Director**

#### **Hale, Gregory**

## **Mathematics**

### **Professor**

#### **Aktosun, Tuncay**

Start Year: 2005  
Ph.D., Indiana University, 1986  
M.S., Indiana University, 1981  
B.S., Middle East Technical University, Turkey, 1978

#### **Chen, Benito**

Start Year: 2008  
Ph.D., California Institute of Technology, 1979  
B.S., National University of Mexico, 1973

#### **Cordero-Epperson, Minerva**

Start Year: 2001  
Ph.D., University of Iowa, 1989  
M.A., University of California at Berkeley, 1983  
B.S., University of Puerto Rico, 1981

**Han, Chien-Pai**

Start Year: 1982  
Ph.D., Harvard University, 1967  
M.A., University of Minnesota, 1962  
B.A., National Taiwan University, 1958

**Jorgensen, David**

Start Year: 1998  
Ph.D., University of Nebraska, 1996  
M.S., University of Nebraska, 1991  
B.A., San Diego State University, 1989

**Kojouharov, Hristo**

Start Year: 2000  
Ph.D., University of Wyoming, 1998  
M.Sc., Sofia University, Bulgaria, 1994  
B.A., Sofia University, Bulgaria, 1993

**Korzeniowski, Andrzej**

Start Year: 1983  
Ph.D., Wroclaw University, 1978  
M.S., Wroclaw University, 1974

**Kribs, Christopher**

Start Year: 1997  
Ph.D., University of Wisconsin at Madison, 1997  
M.S.E.E., Georgia Institute of Technology, 1991  
A.B., Duke University, 1989  
B.S.E.E., Duke University, 1988

**Li, Ren-Cang**

Start Year: 2006  
Ph.D., University of California at Berkeley, 1992  
M.S., The Chinese Academy of Sciences, China, 1988  
B.S., Xiamen University, China, 1985

**Liao, Guojun**

Start Year: 1989  
Ph.D., University of California at Berkeley, 1985  
M.A., University of California at Berkeley, 1981

**Liu, Chaoqun**

Start Year: 2000  
Ph.D., University of Colorado, 1989  
M.S., Tsinghua University, 1981  
B.S., Tsinghua University, 1967

**Liu, Yue**

Start Year: 1997  
Ph.D., Brown University, 1994  
M.A., Zhejiang University, 1987

**Nestell, Merlynd**

Start Year: 1969  
M.A., Princeton University, 1977  
Ph.D., Oregon State University, 1966  
M.A., University of Wisconsin, 1959  
B.A., Andrews University, 1957

**Su, Jianzhong**

Start Year: 1990  
Ph.D., University of Minnesota, 1990  
B.S., Shanghai Jiaotong University, 1984

**Sun-Mitchell, Shan**

Start Year: 2007  
Ph.D., Indiana University, 1992  
M.S., Indiana University, 1989  
B.S., Tongji University, 1982

**Vancliff, Michaela**

Start Year: 1998  
Ph.D., University of Washington, 1993

B.S., University of Warwick, 1986

### **Associate Professor**

#### **Ambartsoumian, Gaik**

Start Year: 2006

Ph.D., Texas A & M University, 2006

M.S., Obninsk Institute of Nuclear Power Engineering, Russia, 2001

#### **Epperson, James**

Start Year: 2001

Ph.D., The University of Texas at Austin, 1996

B.S., Texas A&M; University, 1987

#### **Gornet, Ruth**

Start Year: 2002

Ph.D., Washington University at St. Louis, 1993

A.M., Washington University at St. Louis, 1989

B.A., Drake University, 1987

B.S.B.A., Drake University, 1987

#### **Grantcharov, Dimitar**

Start Year: 2010

Ph.D., University of California, Riverside, 2003

M.S., University of Sofia, Bulgaria, 1994

#### **Hawkins, Doyle**

Start Year: 1983

Ph.D., University of North Carolina, Chapel Hill, 1983

M.S., Texas A&M; University, 1977

B.S., Lamar University, 1976

#### **Jorgensen, Theresa**

Start Year: 2007

Ph.D., University of Nebraska, 2000

M.S., University of Nebraska, 1997

B.A., University of St. Thomas, 1993

#### **Shipman, Barbara**

Start Year: 1998

Ph.D., University of Arizona, 1995

B.S., University of Arizona, 1989

### **Assistant Professor**

#### **Li, Yan**

Start Year: 2009

Ph.D., University of Maryland, College Park, 2006

M.S., University of Nebraska, Lincoln, 2002

M.S., China Agriculture University, 2000

B.S., Beijing Institute of Technology, 1997

## **Physics**

### **Professor**

#### **Brandt, Andrew**

Ph.D., University of California at Los Angeles, 1992

M.S., University of California at Los Angeles, 1988

B.S., College of William and Mary, 1985

#### **Cuntz, Manfred**

Start Year: 2001

Ph.D., University of Heidelberg, 1988

M.S., University of Heidelberg, 1985

B.S., University of Heidelberg, 1980

#### **De, Kaushik**

Start Year: 1993

Ph.D., Brown University, 1988

Sc.M., Brown University, 1982

B.A., City University of New York, 1981

M.A., City University of New York, 1981

**Fry, John**

Ph.D., University of California at Riverside, 1966

M.S., Baylor University, 1962

B.S., Baylor University, 1961

**Koymen, Ali**

Start Year: 1990

Ph.D., University of Michigan, 1984

M.S., University of Michigan, 1980

B.S., University of Hacettepe, Turkey, 1977

**Liu, Ping**

Ph.D., University of Amsterdam, Netherlands, 1994

M.S., Central-South University, China, 1987

**Lopez, Ramon**

Ph.D., Rice University, 1986

M.S., Rice University, 1984

B.S., University of Illinois at Urbana–Champaign, 1980

**Musielak, Zdzislaw**

Start Year: 1999

Ph.D., University of Gdansk, 1980

M.S., 1976

B.S., A. Mickiewicz University, 1975

**Ray, Asok**

Start Year: 1984

Ph.D., Texas Tech University, 1977

M.S., Texas Tech University, 1975

M.S., Oklahoma State University, 1973

B.Tech., Calcutta University, 1969

B.S., Calcutta University, 1967

**Rubins, Roy**

Start Year: 1969

Ph.D., St. Catherine's College, Oxford University, England, 1961

B.A., St. Catherine's College, Oxford University, England, 1957

**Sharma, Suresh**

Start Year: 1977

Ph.D., Brandeis University, 1976

M.S., Meerut University, India, 1967

B.S., Agra University, India, 1965

**Weiss, Alexander**

Start Year: 1984

Ph.D., Brandeis University, 1983

B.S., City College of New York, 1976

**White, Andrew**

Start Year: 1991

Ph.D., Westfield College, University of London, 1972

B.Sc., University of Southampton, 1969

**Yu, Jaehoon**

Start Year: 2001

M.S., Korea University, 1985

B.A., Korea University, 1983

Ph.D., State University of New York at Stony Brook, 1983

**Zhang, Qiming**

Start Year: 1996

Ph.D., International School for Advanced Studies, 1989

M.S., Beijing University of Science and Technology, 1984

B.S., Sichuan University, 1982

**Associate Professor**

**Chen, Wei**

Start Year: 2006

Ph.D., Peking University, 1992  
M.S., Central South University, 1988  
B.S., Jilan University, 1985

**Fazleev, Nail**

Ph.D., Kazan State University, 1978  
M.S., Kazan State University, 1971  
B.S., Kazan State University, 1970

**Assistant Professor**

**Deng, Yue**

Ph.D., University of Michigan at Ann Arbor, 2006  
M.S., Peking University, 2001  
B.S., Peking University, 1997

**Farbin, Amir**

Start Year: 2007  
Ph.D., University of Maryland, 2003  
S.B., Massachusetts Institute of Technology, 1997

**Huda, Muhammad**

Start Year: 2009  
Ph.D., University of Texas at Arlington, 2004  
M.Sc., University of Texas as Arlington, 2002  
M.Sc., Cambridge University, UK, 1997  
B.Sc., University of Dhaka, 1996

**Jackson, Christopher**

**Mohanty, Samarendra**

**Ngai, Joseph**

Start Year: 2012  
Ph.D., University of Toronto, 2007  
M.S., University of Toronto, 2002  
B.S., University of Alberta, 2001

**Park, Sangwook**

**Psychology**

**Assistant Professor in Practice**

**Lopez, Nicolette**

Start Year: 2007  
Ph.D., University of North Texas, 2007  
M.S., University of North Texas, 2005  
B.A., University of North Texas, 2001

**Professor**

**Gatchel, Robert**

Start Year: 2004  
Ph.D., University of Wisconsin at Madison, 1973  
M.S., University of Wisconsin at Madison, 1971  
B.A., State University of New York at Stony Brook, 1969

**Ickes, William**

Start Year: 1982  
Ph.D., The University of Texas at Austin, 1973  
B.S., Brigham Young University, 1969

**Levine, Daniel**

Start Year: 1983  
Ph.D., Massachusetts Institute of Technology, 1975  
M.S., University of Chicago, 1968  
B.A., Harvard College, 1967

**Mellgren, Roger**

Start Year: 1988  
Ph.D., Indiana University, 1970  
B.A., University of Kansas, 1966

**Paulus, Paul**

Start Year: 1970  
Ph.D., University of Iowa, 1971  
M.A., University of Iowa, 1970  
B.A., Otterbein College, 1966

**Associate Professor**

**Fuchs, Perry**

Start Year: 1998  
Ph.D., The University of Texas at Arlington, 1994  
M.S., The University of Texas at Arlington, 1992  
B.S., University of Calgary, 1990

**Jensen-Campbell, Lauri**

Start Year: 2001  
Ph.D., Texas A&M; University, 1995  
M.S., Texas A&M; University, 1991  
B.A., Nyack College, 1987

**Kenworthy, Jared**

Start Year: 2005  
Ph.D., University of Southern California, 2002  
M.A., University of Southern California, 1998  
B.S., Brigham Young University, 1996

**Mann, Martha**

Start Year: 1983  
Ph.D., State University of New York at Albany, 1983  
M.A., Anna Maria College, 1977  
B.A., Anna Maria College, 1975  
R.N., Worcester City Hospital School of Nursing, 1973

**Peng, Yuan**

Start Year: 2001  
Ph.D., The University of Texas Medical Branch, 1996  
M.D., West China University of Medical Sciences, 1985

**Assistant Professor**

**Gagne, Jeffrey**

Post Doctoral, University of Wisconsin-Madison, 2010  
Ph.D., Boston University, 2007  
M.A., Boston University, 1999  
Ed.M., Boston University, 1996  
B.A., Boston College, 1995

**Perrotti, Linda**

Start Year: 2006  
Ph.D., Grad School & U. Center of the City University of New York, 2000  
M.Phil., Grad School & U. Center of the City University of New York, 1999  
B.S., Montclair State University, 1992

**Professor Emeritus**

**Cox, Verne**

Start Year: 1970  
Ph.D., University of Houston, 1964  
B.A., The University of Texas at Austin, 1960

**School of Social Work**

**Social Work**

**Assistant Professor in Practice**

**Hickerson, Jane**

Ph.D., UTA, 1997  
M.S.S.W., University of Texas at Arlington, 1994  
M.A., University of Texas at Arlington, 1981

## **Associate Dean for Research & Community Outreach**

**Bricout, John**

## **Associate Dean of Academic Affairs**

**Woody, Debra**

Start Year: 1997  
Ph.D., Virginia Commonwealth University, 1996  
M.S., Columbia University, 1981  
B.S.W., Texas Christian University, 1979

## **Professor**

**Black, Beverly**

Start Year: 2007  
Ph.D., The University of Texas at Austin, 1989  
M.S.S.W., University of Wisconsin at Madison, 1977  
B.A., University of Wisconsin at Madison, 1975

**Elliott, Doreen**

Start Year: 1988  
Ph.D., University of Wales, 1986  
B.A., University of London, 1963

**Hegar, Rebecca**

Start Year: 1997  
Ph.D., Tulane University, 1986  
M.S.S.W., The University of Texas at Austin, 1975  
B.A., The University of Texas at Austin, 1972

**Hoefler, Richard**

Start Year: 1992  
Ph.D., University of Michigan, 1989  
M.A., University of Michigan, 1984  
M.S.W., University of Kansas, 1981  
B.S.W., University of Kansas, 1979

**Hunter, Ski**

Start Year: 1971  
Ph.D., Ohio State University, 1972  
M.S.W., San Diego State College, 1968  
M.S., University of North Texas, 1960  
B.A., University of North Texas, 1958

**Jordan, Cathleen**

Start Year: 1985  
Ph.D., University of California at Berkeley, 1986  
M.S.S.W., The University of Texas at Arlington, 1979  
B.A., University of Houston, 1973

**Pillai, Vijayan**

Start Year: 1999  
Ph.D., University of Iowa, 1983  
M.A., University of Indor, India, 1972  
B.S.C., University of Trivandrum, India, 1970

**Popple, Phillip**

Start Year: 2006  
Ph.D., Washington University, 1977  
M.S.W., Washington University, 1972  
B.A., University of North Texas, 1969

**Scannapieco, Maria**

Start Year: 1996  
Ph.D., University of Minnesota, 1991  
M.S.W., Temple University, 1984  
B.S.W., California State University, 1980

## **Associate Professor**

**Basham, Randall**

Start Year: 2002

Ph.D., The University of Tennessee, Knoxville, 2002  
M.S.W., West Virginia University, 1979  
B.A., West Liberty State College, 1977

**Cobb, Norman**

Start Year: 1989  
Ph.D., University of California at Berkeley, 1986  
M.S.S.W., The University of Texas at Arlington, 1979  
M.Div., St. Paul School of Theology, 1970  
B.A., Texas Tech University, 1967

**Lehmann, Peter**

Start Year: 1995  
Ph.D., Wilfrid Laurier University, 1995  
M.S.W., Wilfrid Laurier University, 1982  
B.S.W., University of Windsor, 1979  
B.A., University of Windsor, 1978

**Mitschke, Diane**

Start Year: 2006  
Ph.D., University of Hawaii at Manoa, Honolulu, 2006  
M.S.W., University of Michigan, 2001  
B.S.W., University of Texas at Austin, 2000

**Moon, Sung**

Start Year: 2003  
Ph.D., University of Georgia, 2002  
M.S.W., University of South Carolina, 1999  
M.A., New Orleans Baptist Theological Seminary, 1997  
M.Div., Korea Baptist University, 1989  
B.A., Korea Baptist University, 1986

**Smith-Osborne, Alexa**

Start Year: 2006  
Ph.D., University of Maryland, 2006  
M.S.W., University of Maryland, 1975  
B.A., University of Virginia, 1973

**Assistant Professor**

**Adorno, Gail**

Ph.D., Florida State University, 2011  
M.S.W., Louisiana State University, 1987  
B.A., University of New Orleans, 1984

**Blakey, Joan**

Ph.D., University of Chicago, 2010  
M.S.W., University of Minnesota, 1999  
B.S., University of Minnesota, 1995

**Cronley, Courtney**

Ph.D., University of Tennessee, Knoxville, 2009  
M.S.S.W., University of Tennessee, Knoxville, 2006  
B.A., Oglethorpe University, 2002

**Madden, Elissa**

Ph.D., The University of Texas at Austin, 2010  
M.S.W., Baylor University, 2001  
B.A., Baylor University, 1997

**Praetorius, Regina**

Start Year: 2006  
Ph.D., Louisiana State University, 2006  
MSSW, University of Texas at Austin, 2000  
B.S.W., University of Texas at Austin, 1999

**Sanchez, Katherine**

Ph.D., University of Texas at Austin, 2011  
M.S.S.W., University of Texas at Austin, 1992  
B.A., University of Texas at Austin, 1989

**Small, Eusebius**

Ph.D. Fellowship, Washington University, 2011

Ph.D., University of Houston, 2009  
M.S.S.W., Columbia University, NY, 2001  
B.S.W., Ramapo College, 2000

**Watson, Larry**

Ph.D., University of Texas at Arlington, 2007  
M.S.S.W., University of Texas at Arlington, 1980  
M.A., Sam Houston State University, 1975  
B.S., Texas Tech University, 1971

**Professor Emeritus**

**Callicutt, James W**

Ph.D., Brandeis University  
M.S.S.W., University of Tennessee  
B.S., Memphis State College

**Duehn, Wayne**

Ph.D., Washington University  
M.S.W., Loyola University  
B.A., North Central College

**Gaupp, Peter G**

Ph.D., University of Pittsburgh  
M.S.S.W., University of Texas at Austin  
B.S., Southwestern University

**Hernandez, Santos**

Start Year: 1998  
Ph.D., University of Denver, 1985  
M.S.W., Our Lady of the Lake University, 1974  
B.A., Our Lady of the Lake University, 1972

**Lecca, Pedro J**

Ph.D., University of Mississippi  
M.S., Long Island University  
B.S., Fordham University

**Litrio, John J**

M.S.W., Fordham University  
B.S., Syracuse University

**Mayadas, Nazneen**

Start Year: 1972  
D.S.W., Washington University, 1970  
M.S.S.A., Case Western Reserve University, 1961  
M.A., Allahabad University, 1956  
B.A., Isabella Thoburn College, 1954

**Mindel, Charles**

Start Year: 1976  
Ph.D., University of Illinois, 1971  
A.M., University of Illinois, 1967  
A.B., State University of New York at Stony Brook, 1964

**Schoech, Richard**

Start Year: 1979  
Ph.D., The University of Texas at Arlington, 1978  
M.S.W., The University of Texas at Arlington, 1973  
B.A., The University of Texas at Austin, 1968

**Shannon, M Coleen**

Ph.D., Texas Woman's University  
M.S.W., Tulane University  
B.A., Texas Christian University

**Torgerson, Fernando G**

Ph.D., University of Minnesota  
M.S., Columbia University  
B.A., State Teachers College, Minot, North Dakota

**Watts, Thomas**

Start Year: 1974

Ph.D., Tulane University, 1976  
M.S.W., Arizona State University, 1970  
B.A., Wichita State University, 1963

## School of Urban and Public Affairs

### City and Regional Planning

#### Graduate Advisor

**Field, Karolyn**

#### Program Director

**Audirac, Ivonne**

Start Year: 2010  
M.Arch., University of Florida, 1992  
Ph.D., University of Florida, 1988  
M.Arch., Colorado State University, 1987  
Architect, Monterrey Institute of Technology (ITESM), 1978

#### Professor

**Anjomani, Ardeshir**

Start Year: 1979  
Ph.D., University of Southern California, 1979  
M., University of Southern California, 1976  
M.Arch., University of Tehran, Iran, 1968

**Becker, Barbara**

Start Year: 2008  
Ph.D., University of Texas at Austin, 1989  
M.S., University of Texas at Austin, 1983  
B.S., University of Texas at Austin, 1969

**Li, Jianling**

Ph.D., University of California at Los Angeles, 1997  
M.A., University of California at Los Angeles, 1992  
B.S., Zhongshan University, 1982

#### Associate Professor

**Arvidson, Enid**

Start Year: 1993  
Ph.D., University of Massachusetts, 1996  
M.R.P., University of Massachusetts, 1985  
B.A., University of California at Santa Barbara, 1979

**Grodach, Carl**

Start Year: 2006  
Ph.D., University of California Los Angeles, 2006  
M.S., The University of Texas Austin, 1999  
B.A., University of Arizona, 1995

#### Assistant Professor

**Bezboruah, Karabi**

Start Year: 2009  
Ph.D., University of Texas at Dallas, 2008  
L.L.B., Gauhati University, 2002  
M.B.A., Gauhati University, 2001  
B.S., Gauhati University, 1998

**Ko, Yekang**

**Whittemore, Andrew**

Ph.D., University of California, Los Angeles, 2010  
M.C.P., Massachusetts Institute of Technology, 2004  
B.A., Haverford College, 2002

### Interdisciplinary Studies

### **Assistant Director**

**Wollman, Michael**

### **Graduate Advisor**

**Field, Karolyn**

### **Assistant Professor**

**Connor, Michan**

Start Year: 2008

Ph.D., University of Southern California, 2008

B.A., Northwestern University, 1998

**Welch IV, James**

Ph.D., University of Texas at Dallas, 2009

M.A.I.S., Texas State University, 2003

B.A.I.S., Naropa University, 1992

### **Clinical Professor**

**West, Mike**

Start Year: 2002

Ed.D., Nova Southeastern University, 1987

M.S. Economics, University of North Texas, 1977

B.S. Psychology, University of North Texas, 1970

## **Public Administration**

### **Graduate Advisor**

**Field, Karolyn**

### **Program Director**

**Coursey, David**

Start Year: 2011

Ph.D., Syracuse University, Maxwell School, 1991

M.P.A., University of Alabama at Birmingham, 1987

B.A., University of Alabama at Birmingham, 1984

### **Professor**

**Cole, Richard**

Start Year: 1980

Ph.D., Purdue University, 1973

M.A., University of North Texas, 1968

B.A., University of North Texas, 1967

### **Associate Professor**

**Hissong, Rod**

Start Year: 1988

Ph.D., Rice University, 1989

M.S., Iowa State University, 1978

B.S., Iowa State University, 1974

**Martinez-Cosio, Maria**

M.A., University of California at San Diego, 2003

Ph.D., University of California at San Diego, 2003

M.Ed., University of San Diego, 1995

B.A., University of California at San Diego, 1982

**Rodriguez, Alejandro**

Ph.D., Florida International University, 1999

M.P.A., Marist College, 1991

B.S., City College of New York, 1982

### **Assistant Professor**

**Bezboruah, Karabi**

Start Year: 2009  
Ph.D., University of Texas at Dallas, 2008  
L.L.B., Gauhati University, 2002  
M.B.A., Gauhati University, 2001  
B.S., Gauhati University, 1998

**Casey, Colleen**

Start Year: 2008  
Ph.D., Saint Louis University, 2007  
M.S. Education, Southern Illinois University, 1997  
B.S. Fine Arts and Communication, Southern Illinois University, 1995

**Hamann, Darla**

Start Year: 2009  
Ph.D., University of Minnesota, 2009  
B.A., Saint Cloud State University, 1997

**Urban and Public Affairs**

**Graduate Advisor**

**Field, Karolyn**

**Program Director**

**Coursey, David**

Start Year: 2011  
Ph.D., Syracuse University, Maxwell School, 1991  
M.P.A., University of Alabama at Birmingham, 1987  
B.A., University of Alabama at Birmingham, 1984

**Professor**

**Anjomani, Ardeshir**

Start Year: 1979  
Ph.D., University of Southern California, 1979  
M., University of Southern California, 1976  
M.Arch., University of Tehran, Iran, 1968

**Cole, Richard**

Start Year: 1980  
Ph.D., Purdue University, 1973  
M.A., University of North Texas, 1968  
B.A., University of North Texas, 1967

**Associate Professor**

**Arvidson, Enid**

Start Year: 1993  
Ph.D., University of Massachusetts, 1996  
M.R.P., University of Massachusetts, 1985  
B.A., University of California at Santa Barbara, 1979

**Hissong, Rod**

Start Year: 1988  
Ph.D., Rice University, 1989  
M.S., Iowa State University, 1978  
B.S., Iowa State University, 1974

**Martinez-Cosio, Maria**

M.A., University of California at San Diego, 2003  
Ph.D., University of California at San Diego, 2003  
M.Ed., University of San Diego, 1995  
B.A., University of California at San Diego, 1982

**Rodriguez, Alejandro**

Ph.D., Florida International University, 1999  
M.P.A., Marist College, 1991  
B.S., City College of New York, 1982

**Assistant Professor**

**Casey, Colleen**

Start Year: 2008

Ph.D., Saint Louis University, 2007

M.S. Education, Southern Illinois University, 1997

B.S. Fine Arts and Communication, Southern Illinois University, 1995

**Hamann, Darla**

Start Year: 2009

Ph.D., University of Minnesota, 2009

B.A., Saint Cloud State University, 1997
