

Law and Legal Studies

LAW AND LEGAL STUDIES MINOR AT A GLANCE

The minor in Law and Legal Studies offers an interdisciplinary, liberal arts approach to the study of law. This is an academic program, not a professional training program, emphasizing the social, cultural and philosophical foundations and impacts of law and legal systems. It is designed for Pre-Law students and for a broad array of students from across the UTA campus who are interested in the relationship of law to society and culture.

Upon completion of the Law & Legal Studies minor, students will have developed the following knowledge, skills, abilities and attitudes applicable towards the study and practice of law:

- Analyze judicial opinions and apply court precedent to new issues arising in both every day practical transactions and within the court system;
- Effectively and persuasively communicate simple and complex ideas at a level consistent with those attempting to pursue a law degree;
- Demonstrate logical and reasoning abilities consistent with that required by the Law School Admissions Test;
- Clearly define the role of attorneys within the American Judicial System and attorney interactions in society through various legal actions;
- Identify a legal issue, research judicial opinion and effectively identify a likely outcome in a court of law; and
- Communicate professionally and efficiently in writing in any corporate and legal professional setting.
