

# Earth and Environmental Sciences - Undergraduate Programs

---

Academic Advising: 107 Life Science Building - 817.272.9685

## Degree Programs

### BACHELOR OF SCIENCE IN GEOLOGY

This degree has three options:

- The **Professional Option** is for students who plan to enter the profession or go to graduate school but are uncertain where they want to concentrate. The program emphasizes breadth and exposes students to most of the geological disciplines.
- The **Environmental Science Option** emphasizes the application of earth science to environmental problems associated with the hydrosphere, atmosphere and natural hazards.
- The **Engineering Geology Option** is for students who are interested in combining Geology with Civil Engineering coursework to work with engineering firms on construction and environmental problems.

### BACHELOR OF SCIENCE IN ENVIRONMENTAL SCIENCE

This degree emphasizes on interdisciplinary training related to environmental sciences and is designed for students who plan to enter the profession or go to graduate school.

### BACHELOR OF ARTS IN GEOLOGY

This degree has three options:

- The **General Option** is for students who want to combine Geology with other professional interests.
- The **Geographic Information Systems Option** is for students who want to combine Geology with computer technology to store and analyze spatial data using GIS software.
- The **Composite Science Teacher Certification Option** is for students who want teacher certification, and it is offered through the UTeach program.

### Requirements for a Bachelor of Science in Geology - Professional Option

This degree is for students who plan to enter the profession or go to graduate school. The program emphasizes breadth and exposes students to most of the geological disciplines.

The University Core Curriculum consists of 42 credit hours from [University Core Curriculum](http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) (<http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/>).

#### PRE-PROFESSIONAL COURSES

##### RECOMMENDED CORE REQUIREMENTS

UNIV 1131	STUDENT SUCCESS	1
ENGL 1301	RHETORIC AND COMPOSITION I	3
ENGL 1302	RHETORIC AND COMPOSITION II	3
Creative Arts *		3
POLS 2311	GOVERNMENT OF THE UNITED STATES	3
POLS 2312	STATE AND LOCAL GOVERNMENT	3
Language, Philosophy and Culture *		3
PHYS 1441 or PHYS 1443	GENERAL COLLEGE PHYSICS I GENERAL TECHNICAL PHYSICS I	4
PHYS 1442 or PHYS 1444	GENERAL COLLEGE PHYSICS II GENERAL TECHNICAL PHYSICS II	4
MATH 1426	CALCULUS I	4
MATH 2425	CALCULUS II	4
Social/Behavioral Science *		3
HIST 1301	HISTORY OF THE UNITED STATES TO 1865	3
HIST 1302	HISTORY OF THE UNITED STATES, 1865 TO PRESENT	3
Foundational Component Area *		3

**PROGRAM REQUIREMENTS**

Communication Competence - pass oral presentation requirement in GEOL 3441 or GEOL 3443, or complete COMS 1301, COMS 2302, or other equivalent course

Computer Competence - pass Computer Skills Placement test or any computer-related course such as:

GEOL 4330 UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS

**PROFESSIONAL COURSES**

BIOL 1441	BIOLOGY I FOR SCIENCE MAJORS: CELL AND MOLECULAR BIOLOGY	4
CHEM 1441	GENERAL CHEMISTRY I	4
CHEM 1442	GENERAL CHEMISTRY II	4
GEOL 3454	STATISTICS FOR EARTH AND ENVIRONMENTAL SCIENTISTS	4
MINOR: 18 or more hours as required for Biology, Chemistry, Mathematics, or Physics		10
<b>MAJOR</b>		
GEOL 1301	EARTH SYSTEMS	3
GEOL 1302	EARTH HISTORY	3
GEOL 2445	MINERALOGY	4
GEOL 3446	PETROLOGY AND GEOCHEMISTRY	4
GEOL 3441	BIOSTRATIGRAPHY AND LIFE THROUGH TIME	4
GEOL 3442	SEDIMENTOLOGY AND STRATIGRAPHY	4
GEOL 3443	STRUCTURAL GEOLOGY	4
GEOL 3387	FIELD GEOLOGY I	3
GEOL 3388	FIELD GEOLOGY II	3
GEOL 4330	UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS	
GEOL or ENVR 3000-4000-level electives (can not be GEOL4331, 4333, 4334, and 4354):		11
<b>General Elective(s)</b>		<b>4</b>
36 hours of coursework must be advanced (3000/4000-level) to earn degree.		

**Total Hours** **120**

\* See [General Core Requirements \(http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/\)](http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) for approved courses.

**TYPICAL COURSE SEQUENCE**

Details of a personal course sequence should be made with the guidance of the Earth and Environmental Sciences undergraduate advisor, particularly since many GEOL courses are not offered every semester. Students should also consult with the appropriate department for minor requirements; Biology minors should consult with the Earth and Environmental Sciences undergraduate advisor.

**First Year**

	First Semester	Hours	Second Semester	Hours
	UNIV 1131		1 GEOL 1302	3
	GEOL 1301		3 MATH 2425	4
	MATH 1426		4 ENGL 1302	3
	ENGL 1301		3 CHEM 1442	4

## TRACK DEGREE PLAN: BACHELOR OF SCIENCE IN GEOLOGY AND MASTER OF SCIENCE IN EARTH AND ENVIRONMENTAL SCIENCE - GEOSCIENCE OPTION

The Fast Track program will enable outstanding senior undergraduate Geology students to satisfy degree requirements leading to a master's degree in Environmental Science while completing their undergraduate studies. This degree is designed for students who plan to work in the geoscience sectors.

### DESCRIPTION

**Unconditional admission:** Undergraduate Geology students can apply when they are within 30 hours of completing their B.S. in Geology degree from the University of Texas Arlington (UTA). They must have completed at least 30 hours of study at UTA with a total GPA of 3.3 and earned an overall GPA of 3.3 or better in all college of science courses as well as Earth and environmental science courses taken at UTA. Additionally, they must have completed 16 credit hours of specified undergraduate Fast Track screening courses at UTA that are listed below and earn a GPA of at least 3.3 in these courses. If one of these courses is transferred from another school it will not be included, and an equivalent course determined by the undergraduate advisor will be used as a Fast Track foundation course. Students must meet any other requirements imposed by the B.S. in Geology and M.S. in Earth and Environmental Science program.

Undergraduate Screening Courses Required for Admission into the Fast Track program:

1. **GEOL 2445** Mineralogy (4-0)
2. **GEOL 3454** Statistics for Earth and Environmental Scientist (4-0)
3. **Two of the following courses:**
  - **GEOL 3441** Biostratigraphy and Life Through Time (4-0)
  - **GEOL 3442** Sedimentology and Stratigraphy (4-0)
  - **GEOL 3443** Structural Geology (4-0)
  - **GEOL 3446** Petrology and Geochemistry (4-0)

Students admitted to the Fast Track BS-MS Geology program will be allowed to take three 5000-level GEOL/EVSE electives with a total of 12 credit hours in place of 3000/4000-level undergraduate ENVR/GEOL/DATA/CHEM/BIO electives. These credits can be used to meet the required 120 credit hours and the required 30 credit hours for MS degree at UTA.

**Provisional Admission:** A student may gain provisional admission if, during the semester in which application is made, he or she will complete any remaining courses needed to satisfy prerequisite requirements. Provisional admission will be changed to unconditional admission upon satisfactory

completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. None of the other benefits of the Fast Track program will apply. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the program to which application is made and the Graduate School.

**Denial:** Students who are not admissible under the conditions specified above shall be denied admission to the Fast Track program. They may apply to graduate programs via the regular application process, paying all required fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the program to which application is made and the Graduate School.

## COURSE REQUIREMENTS

### PRE-PROFESSIONAL COURSES

<u>General Core Requirements</u> ( <a href="http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/">http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/</a> )		42

GEOL 3387	FIELD GEOLOGY I	3
GEOL 3388	FIELD GEOLOGY II	3
GEOL, ENVR, or DATA 3000-4000-level electives (can not be GEOL4331, 4333, 4334, and 4354)		2
General Elective(s)		4

### GRADUATE PROGRAM

## Graduate Courses

Select one of the following in engineering (or advisor approved):		3
CE 5321	ENGINEERING FOR ENVIRONMENTAL SCIENTISTS	
IE 5321	ENTERPRISE ANALYSIS AND DESIGN	
GEOL or EVSE 5000-level electives (can not be GEOL5320, GEOL 5454, 4334, and 4354)		18
Take two hours in the following seminar:		2
GEOL 4199	TECHNICAL SESSIONS	
GEOL 5395	MASTER'S PROJECT <sup>1)</sup>	3

\*See General Core Requirements for approved courses.

<sup>1)</sup>Can be replaced by GEOL 5698 Thesis or GEOL or EVSE 5000-level electives (advisor approval)

**Note: This program consists of 111 undergraduate credit hours, plus 30 graduate credit hours. A grand total of 141 credit hours.**

## TYPICAL COURSE SEQUENCE

Details of a personal course sequence should be made with the guidance of the Earth and Environmental Sciences undergraduate advisor, particularly since many GEOL courses are not offered every semester. Students should also consult with the appropriate department for minor requirements; Biology minors should consult with the Earth and Environmental Sciences undergraduate advisor.

## First Year

	First Semester	Hours	Second Semester	Hours
	UNIV 1131		1 GEOL 1302	3
	GEOL 1301	3	MATH 2425	4
	MATH 1426	4	ENGL 1302	3
	ENGL 1301	3	CHEM 1442	4

\* See [General Core Requirements \(https://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/\)](https://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) for approved courses.

\*\* Actual number of courses/hours and course sequence determined by appropriate department.

## FAST TRACK DEGREE PLAN: BACHELOR OF SCIENCE IN ENVIRONMENTAL SCIENCE AND MASTER OF SCIENCE IN EARTH AND ENVIRONMENTAL SCIENCE – ENVIRONMENTAL SCIENCE PROFESSIONAL Option

The Fast Track program will enable outstanding senior undergraduate Environmental Science students to satisfy degree requirements leading to a master's degree in Environmental Science while completing their undergraduate studies.

### DESCRIPTION

**Unconditional Admission:** Undergraduate Environmental Science students can apply when they are within 30 hours of completing their B.S. in Environmental Science degree from the University of Texas Arlington (UTA). They must have completed at least 30 hours of study at UTA with a total GPA of 3.3 and earned an overall GPA of 3.3 or better in all college of science courses as well as environmental science courses taken at UTA. Additionally, they must have completed 14 credit hours of specified undergraduate Fast Track screening courses at UTA that are listed below and earn a GPA of at least 3.3 in these courses. If one of these courses is transferred from another school it will not be included, and an equivalent course determined by the undergraduate advisor will be used as a Fast Track foundation course. Students must meet any other requirements imposed by the B.S. in Environmental Science and M.S. in Earth and Environmental Science program.

Undergraduate Screening Courses Required for Admission into the Fast Track program:

1. **ENVR 2414** The global Environment and Human Health (4-0)
2. **ENVR 3317** Environmental Hydrology (4-0)
3. **ENVR 3387** Environmental Science Field Methods (3-0)
4. **ENVR 3454** Statistics for Earth and Environmental Scientist (4-0)

**ENVR** students pursuing the Fast Track master's degree will be allowed to take three EVSE/PLAN/CE/IE 5000-level electives in place of advanced undergraduate ENVR/GEOL/DATA/CHEM/BIO electives.

**Provisional Admission:** A student may gain provisional admission if, during the semester in which application is made, he or she will complete any remaining courses needed to satisfy prerequisite requirements. Provisional admission will be changed to unconditional admission upon satisfactory completion of remaining requirements. Students failing to meet all requirements at the end of their semester of application will be removed from the Fast Track program. Any credits earned prior to removal from the program will be applied to the undergraduate degree only. None of the other benefits of the Fast Track program will apply. Provisionally admitted students who have been removed from the program may subsequently apply to graduate programs via the normal application process, paying all fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the program to which application is made and the Graduate School.

**Denial:** Students who are not admissible under the conditions specified above shall be denied admission to the Fast Track program. They may apply to graduate programs via the regular application process, paying all required fees and meeting all relevant admission criteria. Admission will not be automatic as it will be subject to the normal admission practices of the program to which application is made and the Graduate School.

### COURSE REQUIREMENTS

#### PRE-PROFESSIONAL COURSES

RECOMMENDED CORE REQUIREMENTS		42
UNIV 1131	STUDENT SUCCESS	1
ENGL 1301	RHETORIC AND COMPOSITION I	3
ENGL 1302	RHETORIC AND COMPOSITION II	3
Creative Arts *		3
POLS 2311	GOVERNMENT OF THE UNITED STATES	3
POLS 2312	STATE AND LOCAL GOVERNMENT	3
Language, Philosophy and Culture *		3
PHYS 1443	GENERAL TECHNICAL PHYSICS I	4
or PHYS 1441	GENERAL COLLEGE PHYSICS I	
PHYS 1444	GENERAL TECHNICAL PHYSICS II	4
or PHYS 1442	GENERAL COLLEGE PHYSICS II	
MATH 1426	CALCULUS I	4
MATH 2425	CALCULUS II	4
Social/Behavioral Science *		3
HIST 1301	HISTORY OF THE UNITED STATES TO 1865	3

HIST 1302	HISTORY OF THE UNITED STATES, 1865 TO PRESENT	3
Foundation Component Area		3
Computer Competence - pass Computer Skills Placement test or any computer-related course:		3
GEOL 4330	UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS	
<b>PROFESSIONAL COURSES</b>		
ENVR 3454	STATISTICS FOR EARTH AND ENVIRONMENTAL SCIENTISTS	4
MAJOR		
ENVR 1301	INTRODUCTION TO ENVIRONMENTAL SCIENCE	3
ENVR 1330	GLOBAL WARMING	3
or GEOL 1340	WEATHER AND CLIMATE	
or GEOL 1301	EARTH SYSTEMS	
ENVR 2314	THE GLOBAL ENVIRONMENT AND HUMAN HEALTH	3
ENVR 3317	ENVIRONMENTAL HYDROLOGY	3
or ENVR 4325	TRACER HYDROLOGY	
ENVR 3387	ENVIRONMENTAL SCIENCE FIELD METHODS	3
ENVR 4303	TOPICS IN SUSTAINABILITY	3
ENVR 4308	ENVIRONMENTAL GEOCHEMISTRY	3
ENVR 4313	ENVIRONMENTAL REGULATION OF CHEMICAL HAZARDS	3
or ENVR 4312	ENVIRONMENTAL RISK BASED ACTION	
GEOL 4331	ANALYSIS OF SPATIAL DATA	3
or GEOL 4332	GLOBAL POSITIONING SYSTEM	
or GEOL 4333	REMOTE SENSING FUNDAMENTALS	
or GEOL 4334	GEOGRAPHIC DATA ANALYSIS	
GEOL 4405	METEOROLOGY AND CLIMATOLOGY	4
or GEOL 4425	PALEOCLIMATE & CLIMATE CHANGE	
or GEOL 4465	PHYSICAL OCEANOGRAPHY AND LIMNOLOGY	
BIOL 1441	BIOLOGY I FOR SCIENCE MAJORS: CELL AND MOLECULAR BIOLOGY	4
BIOL 1442	BIOLOGY II FOR SCIENCE MAJORS: ECOLOGY AND EVOLUTION	4
BIOL 3356	ENVIRONMENTAL SYSTEMS, BIOLOGICAL ASPECTS	3
or BIOL 3355	TOXICOLOGY	
CHEM 1441	GENERAL CHEMISTRY I	4
CHEM 1442	GENERAL CHEMISTRY II	4
ENVR/GEOL/DATA/CHEM/BIO ELECTIVES (7 CREDIT HOURS)		7
36 hours of coursework must be upperdivision (3000/4000 - level) to earn the degree		
<b>GRADUATE PROGRAM</b>		
Select one of the following Engineering Courses:		3
CE 5321	ENGINEERING FOR ENVIRONMENTAL SCIENTISTS	
IE 5304	ADVANCED ENGINEERING ECONOMY	
Select one of the following course in science:		3
EVSE 5311	ENVIRONMENTAL SYSTEMS-GEOLOGICAL ASPECTS	
EVSE 5312	ENVIRONMENTAL RISK BASED ACTION	
EVSE 5316	CONSERVATION OF NATURAL RESOURCES	
Select one of the following in City and Regional Planning:		3
PLAN 5303	PLANNING HISTORY, THEORY AND ETHICS	
PLAN 5316	LAND USE PLANNING AND THE LAW	
PLAN 5352	ENVIRONMENT ASSESSMENT POLICY & PRACTICE	
Professional Courses		
EVSE 5199	SEMINAR IN ENVIRONMENTAL & EARTH SCIENCES	1
EVSE 5115	PROFESSIONAL EXPERIENCE	1
or EVSE 6197	RESEARCH IN ENVIRONMENTAL & EARTH SCIENCES	
Electives within one of the following departments: Earth and Environmental Sciences, Civil and Environmental Engineering, or Urban and Public Affairs, Biology, or Chemistry		16

EVSE 5395	MASTER'S PROJECT <sup>1)</sup>	3
-----------	--------------------------------	---

Successful completion of the Master's Comprehensive Examination in final semester.

\*See [General Core Requirements](https://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) (https://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) for approved courses.

<sup>1)</sup>Can be replaced by EVSE 5698 Thesis or GEOL or EVSE 5000-level electives (advisor approval)

**Note: This program consists of 111 undergraduate credit hours, plus 30 graduate credit hours. A grand total of 141 credit hours. The non-fast track B.S. in Environmental Science requires 120 credit hours**

## TYPICAL COURSE SEQUENCE

Details of a personal course sequence should be made with the guidance of the Earth and Environmental Sciences undergraduate advisor, particularly since many ENVR courses are not offered every semester. Students should also consult with the appropriate department for minor requirements; Biology minors should consult with the Earth and Environmental Sciences undergraduate advisor.

Total Hours: 120

\* See [General Core Requirements \(http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/\)](http://catalog.uta.edu/academicregulations/degreerequirements/generalcorerequirements/) for approved courses.

## Requirements for a Minor in Geology

A minimum total of 18 credit hours (including a minimum of 6 hours at the 3000-4000 level) are required. Transfer students must complete a minimum of 9 hours at UTA, 6 of which must be 3000-4000 level. A 2.0 GPA is required for coursework in the minor.

**The following courses cannot be used for the minor:** GEOL 3100, GEOL 3340, GEOL 4189, GEOL 4190, GEOL 4289, GEOL 4393.

## Requirements for a Minor in Data Science (for Majors in Earth and Environmental Sciences)

Students who are pursuing a major in the Department of Earth and Environmental Sciences and a minor in Data Science must meet with a Earth and Environmental Science Advisor who approves the minor courses. The following courses normally satisfy the requirements and are recommended by the Earth and Environmental Science Department.

### REQUIRED COURSES

DATA 1301	INTRODUCTION TO DATA SCIENCE	3
DATA 3401	PYTHON FOR DATA SCIENCE 1	4
DATA 3461	MACHINE LEARNING	4
or ENVR 4458	MACHINE LEARNING FOR EARTH AND ENVIRONMENTAL SCIENTISTS	
ADVANCED ELECTIVES - choose from the following:		9
DATA 3402	PYTHON FOR DATA SCIENCE 2	
DATA 3421	DATA MINING, MANAGEMENT, AND CURATION	
DATA 3441	STATISTICAL METHODS FOR DATA SCIENCE 1	
DATA 3442	STATISTICAL METHODS FOR DATA SCIENCE 2	
DATA 4380	DATA PROBLEMS	
DATA 4381	DATA CAPSTONE PROJECT 1	
other DATA advanced elective(s) approved by the Earth and Environmental Science undergraduate advisor		

Total Hours

20

## Requirements for a Minor in Biology (for Majors in Earth and Environmental Sciences)

Students who are pursuing a major in the Department of Earth and Environmental Sciences and a minor in Biology must meet with a Biology Advisor who approves the minor courses. The following courses normally satisfy the requirements of the Biology Department and are recommended by the EES Department.

A minimum total of 18 credit hours (including a minimum of 6 hours at the 3000-4000 level) are required. Transfer students must complete a minimum of 9 hours at UTA, 6 of which must be 3000-4000 level. A 2.0 GPA is required for coursework in the minor.

### REQUIRED COURSES

BIOL 1441	BIOLOGY I FOR SCIENCE MAJORS: CELL AND MOLECULAR BIOLOGY	4
BIOL 1442	BIOLOGY II FOR SCIENCE MAJORS: ECOLOGY AND EVOLUTION	4
ADVANCED ELECTIVES - choose from the following:		10
BIOL 2300	BIOSTATISTICS	
BIOL 3301	CELL PHYSIOLOGY	
BIOL 3315	GENETICS	
BIOL 3318	LIMNOLOGY	
BIOL 3339	INTRODUCTION TO EVOLUTION	
BIOL 3355	TOXICOLOGY	
BIOL 3457	GENERAL ECOLOGY	
other BIOL advanced elective(s) approved by the Biology undergraduate advisor		

Total Hours

18

## Requirements for Certification in Geographic Information Systems

Certification in Geographic Information Systems is designed for students in non-Earth and Environmental Sciences majors who want to become proficient in spatial data analysis, which is used in business, liberal arts, engineering and architecture disciplines.

This is a certification program and it does not lead to a second major or minor. However, students may use these courses to count towards a Geology minor. Students who are in the Geology B.A. Geographic Information Systems Option or Geoinformatics B.S. degree plans may not also earn this certificate, as the certificate courses are required for those degrees.

Students must obtain a 3.0 cumulative GPA in the required courses in order to earn the certificate.

### REQUIRED COURSES

GEOL 4330	UNDERSTANDING GEOGRAPHIC INFORMATION SYSTEMS	3
GEOL 4331	ANALYSIS OF SPATIAL DATA	3
GEOL 4333	REMOTE SENSING FUNDAMENTALS	3
GEOL 4334	GEOGRAPHIC DATA ANALYSIS	3
<b>Total Hours</b>		<b>12</b>
